HOME

If you're like most college-bound students, you have an image for what you want in a college experience: excellent reputation, challenging academics, innovative programs, flexible schedules, first-class facilities and an outstanding faculty. At Blackhawk Technical College, we combine all of these assets along with a supportive, collaborative administrative staff to help you define what's next in your academic or professional career.

At BTC, you'll be challenged. You'll be inspired. And you'll be proud, because our programs extend beyond the classroom. We teach. We explore and we discover. We lead, inspire and empower. We achieve our potential and create circumstances that help our students and others achieve theirs. We're good at it, and we've been at it for more than 100 years.

This catalog is your guide to planning your degree, diploma or pathway certificate. You'll find it helpful from now through commencement; virtually every question you might have is answered in this catalog or within blackhawk.edu (<https://blackhawk.edu/>). We encourage you to read and continually refer to this website and to talk frequently with your instructors and advisor to ensure you are taking the right steps toward your educational goals. For previous catalogs, please visit Catalog Archives (<http://catalog.blackhawk.edu/archives/>).

COLLEGE OVERVIEW

Blackhawk Technical College delivers innovative education to enrich their diverse communities. The College is a center of education and training that is a catalyst for change in Rock and Green Counties, featuring future-driven educational delivery platforms and high-impact programs that improve lives.

The College builds futures by:

- Meeting students when and where they learn best, providing supportive services empowering them to succeed.
- Creating critical partnerships, adapting to the diverse needs of the community.
- Building an inclusive, aligned and supportive culture, allowing students and employees to develop, grow and succeed.
- Optimizing college resources to meet the needs of learners and employers through data-informed decisions and innovative solutions.
- Developing transparent, consistent, aligned and repeatable processes and procedures, focusing on efficiency, accountability, and excellence.

For more than 100 years, the College has offered a large assortment of associate degrees, technical diplomas, certificates, apprenticeships, and non-postsecondary offerings. In addition, the College now has more than 70 transfer agreements and 10 short-term career pathway certificates that can be completed in just one semester.

The College's long-term goal is to redefine the educational landscape, through flexible scheduling, a range of program offerings, partnerships with regional employers, and world-class facilities with high tech equipment – including some you won't find anywhere else in the state.

History and Development

The State of Wisconsin established a Board of Vocational and Adult Education in 1911, six years before the use of federal funds for the promotion of vocational, technical, and adult education.

As a result of this law, the cities of Beloit and Janesville took the steps necessary to establish vocational schools in their communities. These two early schools formed the present technical college system district which now consists of Blackhawk Technical College.

In 1965, the State of Wisconsin enacted a law designed to broaden the vocational, technical, and adult education opportunities for youth and adults through the inclusion of the entire state into districts by July 1, 1970. The Beloit and Janesville schools, along with the major portions of Rock and Green Counties, were organized into a single system on July 1, 1968.

The reorganization in 1968 gave way for the creation of Blackhawk Technical Institute. In August 1987, along with the other 15 state technical institutes, Blackhawk Technical Institute became Blackhawk Technical College.

Our Mission, Vision and Philosophy

Our Mission:

We help you build your future with flexible education in a supportive environment.

Our Vision:

Delivering innovative education to enrich our communities.

Our Values:

These are the Guiding Principles that will guide our actions, activities, and decisions as a college:

- **Responsive:** Meeting students when and where they learn best, providing supportive services empowering them to succeed.
- **Collaborative:** Creating critical partnerships, adapting to community needs.
- **Empowering:** Building an inclusive, aligned and supportive culture, allowing students and employees to develop, grow and succeed.
- **Strategic:** Optimizing college resources to meet the needs of learners and employers through data-informed decisions and innovative solutions.
- **Process-driven:** Developing transparent, consistent, aligned and repeatable processes and procedures, focusing on efficiency, accountability, and excellence.

Core Abilities

The College core abilities were developed to define the expectations of all graduates from Blackhawk Technical College programs, unifying all academic divisions and contributing to student success. Not only are core abilities expected outcomes for students, but they also reflect the expectations of all College staff as well.

Blackhawk Technical College has identified five core abilities that are crucial to success both during school and after graduation. These core abilities, based on input from faculty, employers, students, and other members of the community, are skills and competencies that will enable students to be successful in the workplace. These essential skills are taught across all programs and departments. Everyone at Blackhawk works toward improving and applying these critical skills.

Listed below are Blackhawk's five college-wide core abilities and their indicators.

Demonstrate Critical Thinking

- Define problems clearly and precisely
- Utilize relevant information gathered from diverse perspectives
- Evaluate potential solutions using relevant criteria and standards

Demonstrate Effective Communication

- Employ effective communication practices
- Adapt communication to engage diverse audiences
- Use technology to effectively communicate

Demonstrate Professional Work Behaviors

- Manage time effectively
- Adhere to policies, procedures, and safety protocols
- Demonstrate accountability

Demonstrate Diverse and Inclusive Practices

- Respond appropriately to diverse situations.
- Model respectful and inclusive interactions
- Acknowledge the contributions of a diverse society

Demonstrate Professional use of Relevant Technology

- Demonstrate proper selection of equipment, tools, and resources to produce desired results
- Demonstrate safe and secure use of technology
- Use occupational specific technology in appropriate ways

College Facilities

Business Hours

The general operating hours of Blackhawk Technical College Central Campus are 7:30 a.m. to 10 p.m. Monday through Thursday; 7:30 a.m. to 5:00 p.m. Friday; and 8 a.m. to 1 p.m. Saturday. However, hours may vary for an individual department or division, outreach campuses or centers. In addition, hours are modified during the summer months. If in question, contact the department or campus/center to confirm their hours before your commute to that site. Visit us online at www.blackhawk.edu (<https://blackhawk.edu/>)

Locations

Blackhawk Technical College has been able to substantially upgrade all of its major facilities through community support over the past decade. All campuses are linked to each other by the BTC Shuttle system (<https://blackhawk.edu/Locations/>).

Advanced Manufacturing Training Center

The Advanced Manufacturing Training Center (AMTC), a 105,000 square feet, state-of-the-art facility, is located in Milton:

15 Plumb St.
Milton, WI 53563

The latest BTC campus opened in August 2014 and the second phase of construction was completed in August 2015. The facility is home to the Advanced Manufacturing division which provides Associate Degrees, Two-Year and One-Year Technical Diplomas and Certificates. Programs include Welding, Computer Numerical Control, Industrial Maintenance Technician, Information Technology, Manufacturing Information Technology Specialist, Electro-Mechanical Technology, Electrical Apprenticeship, and Heating, Ventilation, Air Conditioning and Refrigeration (HVAC/R). General Education classes required for these programs are also offered at the center.

The facility is 17.7 miles north of BTC's Central Campus and easily reached off Interstate 39-90 at the Hwy. 26, Milton, exit. Contact AMTC at (608) 757-7628.

Center for Transportation Studies

The Center for Transportation Studies (CTS) is a 30,000 square-foot facility that houses two large shops for the Diesel and Heavy Equipment Technician and Automotive Technician programs and is located in Janesville:

1740 Hwy. 14
Janesville, WI 53545

It features three classrooms, a library, a microcomputer lab, and a student lounge. CTS is about a quarter-mile west of the intersection of Highways 14 and 51. Parking is available with access off Hwy. 14. Contact the Center for Transportation Studies at (608) 743-4471.

Central Campus

Blackhawk Technical College Central Campus is midway between Beloit and Janesville at:

6004 S. County Rd. G
Janesville, WI 53547

Situated on over 80 acres of partially wooded prairie, the campus is home for most of BTC's programs and services. This comprehensive technical college facility comprises over 200,000 square feet and houses many program offerings with instructional classrooms and labs. The Central Campus also offers a technical library, media production, and telecommunications center, bookstore and food service with seating for 600. Seminar and teleconferencing facilities are also available.

A Student Center is available with offices for advising, admissions, registration, financial aid, veterans' affairs, and minority student services. Vocational and placement testing, career and professional development, and student activities are available through the new Student Success Center. Learning centers, also located at the Central Campus, provide pre-college individualized courses, skills brush-up, academic tutoring and services for students with disabilities.

Parking for approximately 1,200 vehicles, is available on the Central Campus, and bus service from Beloit and Janesville is also provided for students' convenience. Contact the Central Campus at (608) 758-6900.

Monroe Campus

The Monroe Campus of Blackhawk Technical College is located just off Hwy. 11 at:

210 4th Ave.
Monroe, WI 53566

This friendly, full-service and handicapped accessible campus has computer labs equipped with state-of-the-art computer equipment, a distance learning lab designed for global classroom connections, fully equipped medical assistant, phlebotomy and science labs, and general classrooms. The campus offers select associate degrees, one-year diplomas, and short-term certificates, as well as general education courses. A learning center offers GED/HSED, and pre-college courses and GED/HSED testing services. Continuing education courses covering a broad range of topics are offered each year at the campus. An advisor provides students with academic advising, support and career planning assistance. Small class sizes and a personalized learning environment ensure the success of Monroe Campus students. Contact the Monroe Campus at (608) 328-1660.

Parking

The Central Campus usually has adequate parking for everyone. Please observe parking restrictions as posted and park in marked parking stalls. Otherwise, you may park on a first-come, first-serve basis.

Overnight parking is not allowed without permission from College Security.

Parking for the disabled has been reserved at several locations. Only persons with a valid disabled license plate or handicapped placard issued by the Wisconsin Department of Motor Vehicles (DMV) may park in those spaces. The College cannot issue any kind of handicapped sticker.

There are some designated parking areas set aside for special purposes such as motorcycles and the Rock County Sheriff Office's personnel. There is no parking in crosswalks, driveways (unless otherwise posted) or on the paved areas adjacent to the buildings. These areas need to be kept open for emergency vehicles. Anyone parked in a restricted area without appropriate authorization may receive a parking citation issued by law enforcement.

On-site parking is available at the Center for Transportation Studies, Monroe Campus, and the Advanced Manufacturing and Transportation Center in Milton. The rules noted above also apply to these locations.

College Accreditation

Blackhawk Technical College is accredited by the Higher Learning Commission (HLC). The HLC is a regional accreditation agency that accredits degree-granting institutions of higher education that are based in the 19-state North Central region of the United States. Institutions that HLC accredits are evaluated against HLC's Criteria for Accreditation (<http://policy.hlcommission.org/Policies/criteria-for-accreditation.html>), a set of standards that institutions must meet to receive and/or maintain accredited status.

Regional accreditation agencies are recognized by the U.S. Department of Education to accredit degree-granting colleges and universities. There are six regions of the U.S. in which regional agencies operate. The regional accreditation agencies have similar standards for accrediting colleges and universities.

Higher Learning Commission
230 South LaSalle Street Suite 7-500
Chicago IL 60604-1411
800.621.7440
info@hlcommission.org

Programs Accreditation

- Accreditation Commission for Education in Nursing (ACEN)
- American Culinary Federation
- American Refrigeration Institute/Partnership for Air Conditioning, Heating, Refrigeration Accreditation
- Commission on Accreditation of Allied Health Education Programs (CAAHEP)
- Commission on Accreditation in Physical Therapy Education (CAPTE)
- Commission on Dental Accreditation/American Dental Association
- Department of Justice
- Joint Review Committee on Education in Radiologic Technology
- National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
- National Automotive Technicians' Education Foundation (NATEF)
- National Institute for Automotive Service Excellence (ASE)
- WI Department of Health Services

State and Federal Compliance

Equal Opportunity and Affirmative Action

The Blackhawk Technical College Board actively complies with all state and federal equal opportunity and affirmative action laws, rules, executive orders, and policies, including Titles VI and VII of the Civil Rights Act,

Title IX of the Educational Amendments Act of 1972, section 50A of the Rehabilitation Act of 1973, the Age Discrimination Acts of 1967 and 1975, the Equal Pay Act of 1973, the Civil Rights Restoration Act of 1987, the Americans With Disabilities Act of 1990 and the Civil Rights Act of 1991. It is the policy of the Blackhawk District not to discriminate on the basis of age, race, creed, color, religion, handicap, disability, marital status, sex, national origin, ancestry, arrest or conviction record, sexual orientation, political affiliation, genetic testing, or membership in the national guard, state defense force or any reserve component of the military forces of the United States or this state. The District prohibits discrimination against students in admission and/or participation in services, programs, courses, and facilities usage based upon race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status, or parental status. Inquiries regarding equal opportunity may be directed to:

Affirmative Action Officer
6004 S. County Road G, P.O. Box 5009
Janesville, Wisconsin 53547-5009
(608) 757-7773

Civil Rights Legislation

Services, financial aid, and other benefits of Wisconsin Technical College System institutions are provided on a non-discriminatory basis as required by Civil Rights legislation.

Individuals applying for or receiving assistance through these colleges who believe that there has been any discrimination on the grounds of race, color, creed, sex, disability, national origin, sexual orientation, ancestry, age, pregnancy, or marital status should file a written complaint.

If it is felt that this discrimination is on the part of the Wisconsin Technical College Board, the complaint should be sent to:

State Director
Wisconsin Technical College Board
310 Price Place, P.O. Box 7874
Madison, Wisconsin 53707
(608) 266-1207

If it is felt that the discrimination is on the part of Blackhawk Technical College, the complaint should be sent to:

Affirmative Action Officer
Blackhawk Technical College
6004 S. County Road G, P.O. Box 5009
Janesville, Wisconsin 53547-5009
(608) 757-7773

Clery Act

The Clery Act is a consumer protection law that aims to provide transparency around campus crime policy and statistics. In order to comply with Clery Act requirements, colleges and universities must understand what the law entails, where their responsibilities lie, and what they can do to actively foster campus safety. For more information about the Clery Act visit www.clerycenter.org. The Blackhawk Technical College Annual Safety and Security Report can be found at <https://blackhawk.edu/About/Safety-Security> (<https://blackhawk.edu/About/Safety-Security/>).

Program Graduation and Persistence Rates

BTC is required by federal regulation to disclose information regarding program graduation and persistence rates. This information, as well as other materials about job opportunities and program placement rates, is available on BTC's website and in Student Services.

Title IX

Title IX of the Educational Amendments of 1972 protects people from discrimination based on sex in education programs and activities that receive federal financial assistance. The College is bound by and supports all applicable laws. The Title IX of the Higher Education Act of 1972 ensures the College does not discriminate on the basis of sex in its educational programs and the Campus Sexual Violence Elimination Act (SAVE) of 2013 and Violence Against Women Reauthorization Act (WAWA) ensures that colleges and universities implement policies and programs to prevent sexual assault, dating violence, domestic violence, and stalking.

What if something happened or I think something happened?

Students, staff, and/or witnesses are encouraged to direct violence, harassment, assault, or other Title IX questions, concerns, and complaints to the Title IX Coordinator or an appropriate college employee who is available. If a Title IX Coordinator is alleged to be the person who engaged in discrimination or sexual misconduct, the report may be filed with another of the named officers or with the Office of the President, Central Campus. Financial aid and other benefits of Wisconsin Technical College System institutions are provided on a non-discriminatory basis as required by Civil Rights legislation. Find out more at <https://blackhawk.edu/About/Safety-Security/Title-IX> (<https://blackhawk.edu/About/Safety-Security/Title-IX/>).

Title IX Contacts:

Dr. Deb Gilster, Title IX Coordinator/Access and Accommodations Coordinator
Central Campus Student Success Center, (608) 757-7796,
dgilster@blackhawk.edu

Alicia Acker, Deputy Coordinator/Coordinator, Career Services and Leadership Development
Central Campus, Room 2209, (608) 743-4423, aacker@blackhawk.edu

Complaints can also be filed with the Office of Civil Rights (OCR). The OCR encourages complaints to follow the College's process prior to filing a complaint with OCR; however, it is not required. Generally, complaints must be filed with OCR within 180 days of the alleged event. Complaints can be filed with OCR via email at ocr@ed.gov and by completing an electronic complaint form at <http://www2.ed.gov/about/offices/list/ocr/complaintintro.html>

Sex Offender Registry

Federal law requires the College to provide information where students can obtain information about registered sex offenders in the state or community. The Wisconsin Sex Offender Registry is maintained by the Wisconsin Department of Corrections. Information is available on the department's website at <http://www.widocoffenders.org>.

Sex offender students who are required to register in a state must provide notice of the conviction to staff at the Office of Safety and Security at the time of enrollment or thereafter upon conviction. Sex offender registry

information will be used for the protection of staff, students, and minors on campus.

Wisconsin Statutes

Wisconsin State Law Definitions

WISCONSIN STATUTES § 813.12 DOMESTIC ABUSE RESTRAINING ORDERS AND INJUNCTIONS:

(ag) "Dating relationship" means a romantic or intimate social relationship between 2 adult individuals but "dating relationship" does not include a casual relationship or ordinary fraternization between 2 individuals in a business or social context. A court shall determine if a dating relationship existed by considering the length of the relationship, the type of the relationship, and the frequency of the interaction between the adult individuals involved in the relationship.

(am) "Domestic abuse" means any of the following engaged in by an adult family member or adult household member against another adult family member or adult household member, by an adult caregiver against an adult who is under the caregiver's care, by an adult against his or her adult former spouse, by an adult against an adult with whom the individual has or had a dating relationship, or by an adult against an adult with whom the person has a child in common:

1. Intentional infliction of physical pain, physical injury or illness.
2. Intentional impairment of physical condition.
3. A violation of s. 940.225 (1), (2) or (3).
4. A violation of s. 940.32.
5. A violation of s. 943.01, involving property that belongs to the individual.
6. A threat to engage in the conduct under subd. 1., 2., 3., 4., or 5.

WISCONSIN STATUTES § 940.225 SEXUAL ASSAULT

(1) FIRST DEGREE SEXUAL ASSAULT. Whoever does any of the following is guilty of a Class B felony:

- (a) Has sexual contact or sexual intercourse with another person without consent of that person and causes pregnancy or great bodily harm to that person.
- (b) Has sexual contact or sexual intercourse with another person without consent of that person by use or threat of use of a dangerous weapon or any article used or fashioned in a manner to lead the victim reasonably to believe it to be a dangerous weapon.
- (c) Is aided or abetted by one or more other persons and has sexual contact or sexual intercourse with another person without consent of that person by use or threat of force or violence

(2) SECOND DEGREE SEXUAL ASSAULT. Whoever does any of the following is guilty of a Class C felony:

- (a) Has sexual contact or sexual intercourse with another person without consent of that person by use or threat of force or violence.
- (b) Has sexual contact or sexual intercourse with another person without consent of that person and causes injury, illness, disease

or impairment of a sexual or reproductive organ, or mental anguish requiring psychiatric care for the victim.

(c) Has sexual contact or sexual intercourse with a person who suffers from a mental illness or deficiency which renders that person temporarily or permanently incapable of appraising the person's conduct, and the defendant knows of such condition.

(cm) Has sexual contact or sexual intercourse with a person who is under the influence of an intoxicant to a degree which renders that person incapable of giving consent if the defendant has actual knowledge that the person is incapable of giving consent and the defendant has the purpose to have sexual contact or sexual intercourse with the person while the person is incapable of giving consent.

(d) Has sexual contact or sexual intercourse with a person who the defendant knows is unconscious.

(f) Is aided or abetted by one or more other persons and has sexual contact or sexual intercourse with another person without the consent of that person.

(g) Is an employee of a facility or program under s. 940.295 (2) (b), (c), (h) or (k) and has sexual contact or sexual intercourse with a person who is a patient or resident of the facility or program.

(h) Has sexual contact or sexual intercourse with an individual who is confined in a correctional institution if the actor is a correctional staff member. This paragraph does not apply if the individual with whom the actor has sexual contact or sexual intercourse is subject to prosecution for the sexual contact or sexual intercourse under this section.

(i) Has sexual contact or sexual intercourse with an individual who is on probation, parole, or extended supervision if the actor is a probation, parole, or extended supervision agent who supervises the individual, either directly or through a subordinate, in his or her capacity as a probation, parole, or extended supervision agent or who has influenced or has attempted to influence another probation, parole, or extended supervision agent's supervision of the individual. This paragraph does not apply if the individual with whom the actor has sexual contact or sexual intercourse is subject to prosecution for the sexual contact or sexual intercourse under this section.

(j) Is a licensee, employee, or non-client resident of an entity, as defined in s. 48.685 (1) (b) or 50.065 (1) (c), and has sexual contact or sexual intercourse with a client of the entity.

(3) THIRD DEGREE SEXUAL ASSAULT. Whomever has sexual intercourse with a person without the consent of that person is guilty of a Class G felony. Whomever has sexual contact in the manner described in sub. (5) (b) 2. or 3. with a person without the consent of that person is guilty of a Class G felony.

(3m) FOURTH DEGREE SEXUAL ASSAULT. Except as provided in sub. (3), whoever has sexual contact with a person without the consent of that person is guilty of a Class A misdemeanor.

(4) Definitions.

(b) "Sexual contact" means any of the following:

1. Any of the following types of intentional touching, whether direct or through clothing, if that intentional touching is either for the purpose of sexually degrading; or for the purpose of sexually humiliating the complainant or sexually arousing or gratifying the defendant or if the touching contains the elements of actual or attempted battery under s. 940.19 (1):

a. Intentional touching by the defendant or, upon the defendant's instruction, by another person, by the use of any body part or object, of the complainant's intimate parts.

b. Intentional touching by the complainant, by the use of any body part or object, of the defendant's intimate parts or, if done upon the defendant's instructions, the intimate parts of another person.

2. Intentional penile ejaculation of ejaculate or intentional emission of urine or feces by the defendant or, upon the defendant's instruction, by another person upon any part of the body clothed or unclothed of the complainant if that ejaculation or emission is either for the purpose of sexually degrading or sexually humiliating the complainant or for the purpose of sexually arousing or gratifying the defendant.

3. For the purpose of sexually degrading or humiliating the complainant or sexually arousing or gratifying the defendant, intentionally causing the complainant to ejaculate or emit urine or feces on any part of the defendant's body, whether clothed or unclothed.

WISCONSIN STATUTES § 940.32 STALKING

(1) In this section:

(a) "Course of conduct" means a series of 2 or more acts carried out over time, however short or long, that show a continuity of purpose, including any of the following:

1. Maintaining visual or physical proximity to the victim.
940.32(1)(a)2.
2. Approaching or confronting the victim.
3. Appearing at the victim's workplace or contacting the victim's employer or coworkers.
4. Appearing at the victim's home or contacting the victim's neighbors.
5. Entering property owned, leased, or occupied by the victim.
6. Contacting the victim by telephone or causing the victim's telephone or any other person's telephone to ring repeatedly or continuously, regardless of whether a conversation ensues.
 - 6m. Photographing, videotaping, audiotaping, or, through any other electronic means, monitoring or recording the activities of the victim. This subdivision applies regardless of where the act occurs.
7. Sending material by any means to the victim or, for the purpose of obtaining information about, disseminating

information about, or communicating with the victim, to a member of the victim's family or household or an employer, coworker, or friend of the victim.

8. Placing an object on or delivering an object to property owned, leased, or occupied by the victim.

9. Delivering an object to a member of the victim's family or household or an employer, coworker, or friend of the victim or placing an object on, or delivering an object to, property owned, leased, or occupied by such a person with the intent that the object be delivered to the victim.

10. Causing a person to engage in any of the acts described in subs. 1. to 9.

WISCONSIN STATUTES § 968.075 DOMESTIC ABUSE INCIDENTS; ARREST AND PROSECUTION.

(1) DEFINITIONS. In this section:

968.075(1)(a)(a) "Domestic abuse" means any of the following engaged in by an adult person against his or her spouse or former spouse, against an adult with whom the person resides or formerly resided or against an adult with whom the person has a child in common:

1. Intentional infliction of physical pain, physical injury or illness.
2. Intentional impairment of physical condition.
3. A violation of s. 940.225 (1), (2) or (3).
4. A physical act that may cause the other person reasonably to fear imminent engagement in the conduct described under subd. 1., 2., or 3.

Important Dates

Summer 2021

April 19, 2021: Summer Registration Opens for Veterans and Students with Documented Disabilities

April 21, 2021: Summer Registration Opens for Current Blackhawk Students

April 28, 2021: Summer Registration Opens for New Blackhawk Students

May 24, 2021: Summer Semester begins

May 29, 30, 31, 2021: College Closed in Observance of Memorial Day

June 28, 2021: Summer Midterm

July 3, 4, 5, 2021: College Closed in Observance of Independence Day

July 20, 2021: Summer Graduation Application Deadline

Aug. 2, 2021: Summer Semester ends

Aug. 4, 2021: Summer Final Grades are Due

Fall 2021

April 15, 2021: BTC Foundation Scholarship Applications Due

April 19, 2021: Fall Registration Opens for Veterans and Students with Documented Disabilities

April 21, 2021: Fall Registration Opens for Current Blackhawk Students

April 28, 2021: Fall Registration Opens for New Blackhawk Students

Aug. 16, 2021: Fall Semester begins

Sept. 4, 5, 6, 2021: College Closed in Observance of Labor Day

Oct. 11, 2021: Fall Midterm

Nov. 15, 2021: Fall Graduation Application Deadline

Nov. 23, 2021: No Classes, College Open

Nov. 24, 2021: No Classes, College Closes at 5 p.m.

Nov. 25, 26, 27, 28, 2021: College Closed in Observance of Thanksgiving

Dec. 10, 2021: Fall Semester Ends

Dec. 14, 2021: Final Grades are Due

Dec. 20, 2021: Winter Break begins

Jan. 2, 2022: College Reopens

Spring 2022

Oct. 15, 2021: Applications Due for Foundation Scholarships

TBD: Spring Registration Opens for Veterans and Students with Documented Disabilities

TBD: Spring Registration Opens for Current Blackhawk Students

TBD: Spring Registration Opens for New Blackhawk Students

Jan. 10, 2022: Spring Semester begins

Jan. 17, 2022: College Closed in Observance of Martin Luther King Jr. Day

Mar. 1, 2022: Spring Graduation Application Deadline to Participate in Commencement

Mar. 7 – 11, 2022: Spring Break, No Classes, College is Open

Mar. 14, 2022: Spring Midterm

Apr. 15, 2022: Applications Due for Foundation Scholarships

April 15, 2022: Spring Graduation Application Deadline for Those Not Participating in Commencement

May 9, 2022: Spring Semester ends

May 11, 2022: Final Grades are Due

May 14, 2022: Commencement

Important financial aid deadlines, petition dates, events, professional development seminars and workshops, or even employer events can

all be accessed year-round by going to the BTC Calendar (<https://blackhawk.edu/About/News-Events/Event-Calendar/>).

Add/drop dates are the first week of each semester. For more information, please see the Add/Drop section under Registration and Records in this catalog.

Governing Catalog

All of Blackhawk's degree and certificate programs are described in full in this College Catalog. Students should read it carefully to learn the requirements and characteristics of each program.

In order to respond to emerging needs and remain current with technology and workplace expectations, Blackhawk's programs undergo changes. Generally, a student may graduate following the academic plan established based on the program in place at the time of the student's initial enrollment. However, because of frequent program changes and the length of time taken by students to meet graduation requirements, the following policies will govern which academic plan will be used to define a student's graduation requirements.

1. The college can, after one (1) year of non-continuous enrollment, require the student to follow the most recent program curriculum in order to graduate. A new academic plan will need to be created with an Academic Advisor.
2. The college reserves the right to place a five (5) year limitation on accepting courses for graduation.
3. At any time, a student may elect to follow the most recent program curriculum, after meeting with an Academic Advisor to develop a new academic plan. Doing so ensures the college is notified of the student's intention to follow the new program curriculum. Students may not change back to a previous academic plan.
4. It is the student's responsibility to follow the academic plan under the chosen program curriculum and to ensure that all requirements for graduation will be met.
5. If a student changes his/her program at any time, the student will follow the governing catalog at the time of the change.
6. The college reserves the right to establish course substitutions when courses are inactivated to meet program curriculum requirements.

ADMISSION

Education is the best return on investment you will ever receive.

A degree, certificate, technical diploma, apprenticeship or non-postsecondary offering (GED, HSED, ELL) from Blackhawk Technical College will increase your earning potential, enrich your life, enhance your skills, and broaden your perspective. Whether you're planning to step directly into a career, or transfer to a four-year institution, Blackhawk is the best place for you to start.

Blackhawk graduates leave college ready to take on the world and lead with integrity, honor and distinction. Since opening our doors more than 100 years ago, Blackhawk has continually hosted a breadth of opportunity with a wide range of offerings.

From day one, our focus will be on your individual academic and professional growth. We strive to blend classroom experiences with real-time, hands-on learning because our graduates tackle some of the world's toughest problems – from the skills gap, to helping rebuild southern Wisconsin. We teach. We explore and we discover. We innovate, inspire and empower. We achieve our potential and create circumstances that help our students and others achieve theirs.

For more information or to contact someone directly in the Blackhawk Admission Department, call (608) 757-7710.

How to Apply

Blackhawk Technical College maintains an open-door admissions policy for all prospective students. This means that anyone may enroll in courses to learn new skills or improve existing skills. Admissions requirements vary from program to program, but generally include submitting the following materials:

- Application - Apply Online here (<https://blackhawk.elluciancrmrecruit.com/Apply/Account/Login/?ReturnUrl=%2fapply>).
- Transcripts - Official high school transcripts or GED/HSED certificate is required for admission to Blackhawk. Official college transcripts

are only required to receive credit for prior learning and may be considered for course placement.

- Request official copies of all academic transcripts, including high school, GED, HSED, college or university (if you want your transcripts reviewed for credit transfer). Contact each institution and ask to have your official transcripts sent directly to the Admissions Office.
- Transcripts (<https://www.blackhawk.edu/Request-Transcripts/>) will be evaluated for credit transfer after you have been admitted to the college. This process may take up to 6 weeks.

Acceptance

Once students submit the application and official high school transcripts or GED/HSED certificate students will be accepted to Blackhawk.

Next Steps

Placement Testing

Students complete a placement test and scores are used to determine appropriate course placement – students cannot fail the placement test. Blackhawk offers the Next-Generation Accuplacer assessment for FREE. Students will need to bring a photo ID with them when they test. If a re-test is necessary, a fee must be paid and a receipt must be presented prior to taking a test. Note: Blackhawk also accepts ACT/SAT scores to be used for course placement.

Next-Generation Accuplacer (<https://blackhawk.edu/Admissions/After-Youre-Accepted/Placement-Testing/>) is an untimed assessment taken on a computer that measures skills in reading, language usage, and numerical skills. Testing accommodations are available in the Student Success Center by calling (608) 743-4422, deaf/hh call Relay 711.

Advising, Registration, and Orientation (ARO) Session

Once you have either submitted your ACT or SAT scores, or taken the placement exam, the next step is to attend an Advising, Registration and Orientation Session. The link to sign up for an ARO Session will

be sent to your personal email in the acceptance letter. This ARO session will include meeting your advisor, reviewing your academic plan and registering for classes. Additional information regarding financial aid, payment plans, books, tools, and supplies will be discussed.

Pay Tuition and Fees

Paying your tuition and additional fees can happen at any time during the registration process, however, many new students pay after they have registered for classes. If you need financial assistance, our Paying for College (<https://blackhawk.edu/Paying-for-College/>) page can provide you more information about financial aid (<https://blackhawk.edu/Paying-for-College/Financial-Aid/>), payment plans (<https://blackhawk.edu/Paying-for-College/Payment-Options-Due-Dates/>), scholarships (<https://blackhawk.edu/Paying-for-College/Scholarships-Awards/>) and other types of awards (<https://blackhawk.edu/Paying-for-College/Scholarships-Awards/>). Please note, you will not be able to attend class if you have not paid your tuition or set up a payment plan.

Fast Track Days

Whether you already registered or still need to apply, join us during one of our **Fast Track Days**. These events are designed to help you get ready for the upcoming semester. Meet with faculty, get your student ID, purchase books, take a tour and learn about campus and community resources.

Placement Testing/Assessment

All steps must be completed to be accepted into Blackhawk.

Students complete an admission placement test (<https://www.blackhawk.edu/Admissions/After-Youre-Admitted/Placement-Testing/>) as part of the application process to the college. These scores are utilized to determine appropriate course placement. Blackhawk offers the Next-Generation ACCUPLACER assessment for free, unless students have earned either an Associate Degree, Bachelor's Degree, or completed the ACT or SAT Exam. Any re-test fees must be paid and a receipt presented prior to taking a test.

Next-Generation ACCUPLACER is an untimed assessment taken on a computer that measures skills in reading, language usage, and numerical skills. Accommodations for the Next-Generation ACCUPLACER are available in the Student Success Center by calling (608) 743-4422, deaf/hh call Relay 711. Testing Center hours may vary and are updated on the Blackhawk Technical College website (<https://blackhawk.edu/Admissions/After-Youre-Accepted/Placement-Testing/>).

Next-Generation ACCUPLACER Retest Policy

Retesting is an option if students believe their scores do not accurately reflect their abilities and skill levels.

Admission Retest:

- After reviewing the admission test scores, students may retest in each area once using Next-Generation ACCUPLACER.
- Students who have completed Next-Generation ACCUPLACER as part of the admission process MUST wait 48 hours after their first Next-Generation ACCUPLACER exam before retesting.
- There is a fee to re-test. For information contact the Testing Center at (608) 757-7666.

Health Science Assessments

The programs listed below have additional assessment requirements for clinical readiness. Please see an Academic Advisor for program/clinical-ready requirements.

- Diagnostic Medical Sonography
- Medical Assistant
- Nursing Assistant
- Nursing
- Physical Therapist Assistant
- Radiography
- Surgical Technology

Make-Up Testing

Make-up testing is a service provided for students who have been absent and are being allowed to complete an exam per the course instructor. A valid photo ID is required for all testing (i.e. state ID, driver's license, passport, student ID, other IDs approved by testing staff).

Educational Agreements

A joint educational agreement exists between Rock Valley College (Rockford, IL), Highland Community College (Freeport, IL) and Blackhawk Technical College. These agreements expand the programs available to Blackhawk District residents. In addition, Blackhawk has a number of agreements with four-year colleges and universities.

The College is currently developing a University Center on Central Campus to make it easier and more affordable for Blackhawk students to pursue bachelor's degrees.

A list of approved programs is available in the Student Services Division on Central Campus or on the college website at blackhawk.edu/Paying-for-College/Tuition-Fees/Educational-Agreements.

High School Partnerships

There are a lot of great reasons to consider taking college classes while you're still in high school. Want to save time and money? Taking college classes while in high school can save you both time and money! Thinking about heading into the workforce after high school? Taking college classes now could prepare you for the job market and may help you decide if more school is right for you.

If you're interested in a head start on your college degree, Blackhawk has options for you.

High School Articulation

High school students have the opportunity to earn technical college credit while enrolled in high school, saving students (and parents) time and money while giving students a head start on their college degree. Articulation provides a smooth transition from high school to postsecondary education without the duplication of coursework.

Blackhawk Technical College and high schools in Rock and Green Counties provide opportunities for high school students to earn college credit through advanced standing or transcribed credit articulation agreements.

Advanced Standing

High school students receive transfer credit for high school courses with an advanced standing agreement after they are enrolled at Blackhawk. A student will receive credit if the student's final high school transcript shows the student received a final grade of 80% or better. This credit is entered in as non-graded transfer credit, meaning the student will not receive a grade, but will receive credits and not have to repeat the class at Blackhawk. Advanced standing classes are accepted at other institutions; whether or not students receive credit is determined by each individual receiving institution.

Transcripted Credit

High school students receive Blackhawk Technical College credit for courses taken at their high school. These courses are taught by high school instructors who are also adjunct faculty for Blackhawk. Students are advised to check with their high school counselor or the Blackhawk Early College Specialist at (608) 757-6983 for articulation opportunities in their high school. For more information visit <https://blackhawk.edu/Programs-Classes/Start-College-in-High-School> (<https://blackhawk.edu/Programs-Classes/Start-College-in-High-School/>).

High school students receive Blackhawk Technical College credit for high school courses with a transcripted credit agreement and will have a Blackhawk Technical College transcript with college credits and grades before they graduate from high school. Students are advised to check with their high school counselor or the Blackhawk Early College Specialist at (608) 757-6983 for articulation opportunities in their high school.

Start College Now - College Credit for HS Students

Take college courses at Blackhawk while still in high school! This is a good way to get a head start on earning college credit and still earn credits for your high school diploma.

Start College Now eligibility requirements:

- You must be enrolled at a public high school and have completed 10th grade.
- You do not have a history of disciplinary problems and are not a "child-at-risk".
- You are in good academic standing, and meet course entry requirements.
- You have the written approval of your parent or guardian.
- You must notify your school district by March 1 for fall enrollment and October 1 for spring enrollment.

Talk to your high school counselor for more information.

International Students

Blackhawk Technical College welcomes international students and is authorized to issue I-20s for students attending under F-1 visas. Blackhawk is not authorized to issue I-20s to students for the study of the English language. International students are not considered Wisconsin

residents and are required to pay out-of-state tuition. Requirements for admission include:

- Blackhawk Admissions Application (paper form, not online).
- TOEFL score of 500 (paper version), 173 (computer version) or 61 (Internet-based version) or better. If English is the native language in the applicant's home country, no proof of proficiency is required.
- Secondary and post-secondary transcripts must be evaluated by a credential evaluation service (such as WES, NACES, or ECE).
- Financial support verification.
- A deposit toward tuition for the program in which the student seeks to enroll.
- Students wishing to transfer - verification of good academic standing (Grades of C or better and a GPA of 2.0 on a 4.0 scale).
- Satisfactory placement test upon arrival at Blackhawk- Next-Generation Accuplacer or ACT.

Issuance of an I-20 is contingent upon meeting all admission requirements.

For additional information, contact the Student Enrollment Manager at (608) 743-4463.

REGISTRATION AND RECORDS

The Registration and Records Office is located on the Central Campus in Janesville. This section contains more information about the services provided by this area.

Registration for Courses

Currently enrolled Blackhawk students are provided priority registration before other students. Registering for classes can be done online or in person. Students are encouraged to register online using the MyBTC portal as course availability is first-come, first served. Most newly admitted students are required to attend an Advising and Registration Orientation (ARO) prior to registering for their courses. Students will register for an ARO through a link that is sent to them in their acceptance letter.

Registering is the process of enrolling for specific classes. Students must be registered for all classes they attend. Registration is necessary in order for an official record to properly reflect a student's participation in educational activities.

A student does not have a guaranteed seat in a class unless all fees have been paid or a payment agreement has been established. It is the student's responsibility to keep informed of all registration requirements and procedures. By registering for courses, a student accepts the responsibility for all fees. Non-attendance does not constitute a cancellation of that obligation, nor does it officially withdraw a student from the class.

Continuing students will register for the next semester's classes before new students. This gives continuing students the first opportunity to enroll in the courses needed to complete program requirements. A registration schedule will be available to provide specific procedures to be followed, including the date and time of registration, estimated cost, and other applicable information. Students are strongly recommended to register on-line by using their MyBTC account.

Online Registration

A student may register if he/she has been previously enrolled (within the last 365 days) or is currently enrolled and has a student identification number and password. To register online, go to <http://www.blackhawk.edu> (<https://www.blackhawk.edu/>). At the top of [blackhawk.edu](http://www.blackhawk.edu), click on the Online Services pull down from the main navigation, then select MyBTC. Once MyBTC is open, go to the Registration and Courses link to sign up for classes.

In-Person Registration

In-person registration is available at the Central Campus and Monroe Campus during regular office hours.

Transfer and Credit for Prior Learning

Blackhawk seeks to provide students with opportunities to obtain credit toward the completion of their technical college educational programming by providing credit for prior learning. In all cases, final determinations of credits earned are reached by the appropriate Division Dean or Division Administrator.

Students must complete at least 25% of the total program credits through coursework at Blackhawk. This shall include 25% of occupational core credits associated with the program from which the student will graduate.

If a student registers for a course for which the college later grants credit, students may choose to drop/withdraw from the course. Students are held responsible for all appropriate fees incurred.

Transfer Credit

Credit for prior learning must be supported by official transcripts (in closed original envelopes and bearing the school seal). Transfer of credits can be evaluated from regionally and nationally accredited post-secondary institutions (where a "C" or better was earned) and, under certain circumstances, high school institutions (high school courses

for which advanced standing was granted and a grade of "B" or better was earned). The College initiates this process upon your acceptance to the College. Once this process is complete, your Blackhawk transcripts will reflect grades of "TR" for all approved coursework. If students feel that specific coursework was not evaluated for transferability, it is the student's responsibility to provide the Registration and Records Office course descriptions from the appropriate college catalog along with a copy of the catalog's cover and/or a course syllabus. Once this information is received, the course(s) will be reviewed by the appropriate Division Dean. Students are notified of credits granted by email sent to the Blackhawk student email account.

Credit for Military Training and Service

As a member of the military, students may be eligible for college credit based on the American Council of Education (ACE) credit recommendation and the applicability to the program. The credits earned are for general electives required for an associate's degree only. Acceptance of credit by any college is at the discretion of the receiving college. It is the student's responsibility to obtain the necessary documentation (DD 214 and JST) for credits to be considered for transfer. Once the appropriate documentation is received, Blackhawk personnel will review military training and experience documents of former and currently enlisted U.S. Military personnel for the awarding of possible credits.

Please note: All communications regarding any type of Credit for Prior Learning will be sent to your Blackhawk email account.

Credit for Work and Life Experience

When supported by adequate documentation, students may request awarding of credits based upon work or other experiences. It is the student's responsibility to initiate this process with his/her Advisor.

Credit by Exam (Test Out)

Credit by exam includes Advanced Placement, College Level Exam Placement (CLEP), and Challenge Exams. When students have advanced high school courses or other undocumented or unaccredited experiences, Blackhawk offers them the opportunity to receive credit by examination. Students must meet with an Academic Advisor to discuss this option.

Click here for more information on the Credit by Exam (<https://blackhawk.edu/Admissions/Credit-for-Prior-Learning/Credit-by-Exam/>).

Adding/Dropping Courses

Adding a Course

Students may add courses online or in-person up until the start of the semester. Once a course begins, registration can only be processed with an instructor's approval.

DROP/ADD: During the first week of the semester, students can drop a course and add a different course (or choose a different section of the same course). When dropping and adding at the same time, tuition from the dropped class is used to pay for the new class. After the first week of the semester, switching sections or adding classes requires approval from the instructor of the course. If there is a difference in cost, students are responsible for paying any additional fees at the time of registration.

Dropping and Withdrawing a Course

Students are responsible for notifying the College when dropping a course. Dropping a course can impact a student's program status and completion timeline. Dropping a course may affect financial aid. If an agency or program is funding educational expenses, students may be required to have schedule changes approved by the agency or program staff. Students are responsible for all course fees not paid.

Courses can be dropped through the MyBTC portal or in the Registration and Records Office up until 20% of the course's potential hours of instruction have been completed (i.e., last day of withdrawal). When dropping a course, students may be eligible for a refund (see WTCS Refund Policy). Courses dropped in the first 10% of a course's actual hours of instruction are not listed on a student's transcript. Refunds are directly deposited to accounts established in TouchNet or a check is mailed within two weeks.

After the add/drop period, students are able to withdraw from a course. Upon officially withdrawing, students will see a grade of "W" on their transcripts. Students cannot withdraw (a grade of "W" is recorded on the student's transcript and no tuition refund is available) from a course if 20 percent or less of the class remains. Students must notify Registration and Records either through their BTC student email account or in-person to officially withdraw from their final course(s). Students using financial aid are highly encouraged to see the Financial Aid Office prior to withdrawing. It is highly recommended that students also see an advisor if withdrawing from a course. If students are seeking to withdraw from all courses, they must meet with an advisor to review their options. Courses cannot be dropped/withdrawn if an academic misconduct issue is pending.

The College may administratively drop a student from a course for which course requirements have not been met (i.e. pre-requisites, co-requisites, etc.) or if payment arrangements have not been made by the appropriate deadline. The College may administratively withdrawal a student from a course if a student is identified as no longer attending.

Course Scheduling

Students should refer to the academic plan that was created with an Academic Advisor during their Advising, Registration and Orientation (ARO) session. Following an academic plan will help keep students on track for program completion. Students should speak to their assigned Academic Advisor if they have questions about their academic plan or course schedule.

Blackhawk offers flexible education at various locations and times in an effort to better meet students' needs. When registering for classes, students should take note of the times, location and method of delivery for the classes.

Flexible Learning

Blackhawk provides courses in alternative delivery formats:

MyEdChoice

This option allows you to choose how you attend each class and does not lock you into one format. In a MyEdChoice class, you have the option to attend:

- in the classroom at a set class time,
- live during class time using video conferencing, or
- online at anytime

You can mix and match how you attend class or pick the option that works best for you.

FlexLab (Flexible Laboratory)

This option allows you to attend when it is most convenient for you, within the designated open lab hours. The non-lab instructional content may be delivered face-to-face or online.

Hybrid

Course content is delivered in a blend of face-to-face and online sessions. At least 50% of the content is delivered online.

Online

The entire course is delivered online, although in-person proctored testing and assessment may be required.

Face-to-Face Classroom (traditional)

This option meets one or more times each week in a classroom setting. Assignments or learning activities may be completed online.

Face-to-Face Laboratory

This option meets one or more times each week in a laboratory setting. Assignments or learning activities may be completed online.

Course Load

A full-time student carries between 12 and 18 credits. For enrollment verification purposes, 12 credits are considered full-time for students. Students electing to carry more than 18 credits in a semester must speak to their assigned advisor. Approval will depend on the student's scholastic record. Students considering enrolling in any classes at another college or university with concurrent registration at Blackhawk should consult with his/her advisor.

Course loads are defined as:

- Full-time is 12 or more credits
- Three-quarters time is 7 - 11 credits
- Half-time is 6 credits
- Less than half time is 5 credits or less

Auditing Classes

Students may request the permission of the division dean to audit credit classes. The decision to audit must be made at the time of registration. Students taking a class for audit may not change to credit, nor may students change from credit to audit after the class begins. Students are only permitted to register to audit a course one week prior to the start of each semester. If a student repeats a course, it must be for credit and all course objectives must be met.

When auditing a class, students participate in the classwork, complete assignments, and meet the instructor's attendance requirements. Students with disabilities are expected to have a special adaptation plan in place which may waive some of the course requirements. Students will

pay all of the regular tuition and fees for audited courses. However, no credit will be granted for the course. An "AU" will appear on the student's transcript as a grade for the course. Tuition will be waived for students 60 and older. However, all other fees will be charged.

Pre-Requisites/Co-Requisites

Certain classes may require that students take particular courses prior to (pre-requisite) or in conjunction with (co-requisite) other classes. Students must successfully complete these courses in order to move forward in their selected program. A grade of "C" or higher is required for a pre-requisite. Some classes have more stringent requirements and students will be notified of these requirements through course syllabi.

Failure to obtain a "C" or higher in any pre-requisite courses will result in students being administratively dropped by the college from the course(s) that requires the pre-requisite. Students are notified of this change through the Blackhawk student email. Charges on the student's BTC account for the course(s) being dropped will be reduced to zero.

Information Changes

Change of Name, Address, and Phone Number

It is important that students update their personal information (i.e. name, address, and/or phone number). Blackhawk needs to have up-to-date information on file in the event of illness, emergency, the mailing of grade reports, etc. Students can change this information by selecting the "About Me" link located on the MyBTC homepage. Forms are available in Student Services or on MyBTC (student portal).

Preferred Name

Some BTC students are known by a first name that is different from their legal first name. Students will be able to add a preferred first name to their student record through the BTC application or submitting a "Preferred First Name Request" form to the Registration and Records Office in order to update their information.

As long as student's use of preferred names is not for the purpose of misrepresentation, they will appear instead of the person's legal names in BTC related systems and documents except where the use of the legal name is required by college business or legal need.

Required Use of Legal First Name

In some instances, students' legal names must always be used regardless of whether preferred names have been added to the system. Legal names will always appear on all external use reports and documents including, but not limited to, student ID, hiring paperwork, paychecks, accounts payable checks, student billing, financial aid forms, reporting to the National Student Clearinghouse, tax forms, official College transcripts, and any other documents required by law. Legal first names can only be changed on these records when students pursue a legal name change with their home state and/or federal authorities and then submit that documentation to the Registrar's Office.

Program Changes

Changes/Verifying Program of Record

Students are able to change academic programs when and if career goals change. Students are required to meet with an Academic Advisor when selecting a different program. During this meeting, a new academic plan will be created and new program requirements are discussed.

Accuracy of a student's program of record is important. Not only can this affect financial aid eligibility, but it could also affect program completion and permanent student records. Students can verify their program of record through MyBTC or by contacting Registration and Records.

Incomplete Coursework

A grade of "Incomplete" (I) may be assigned at the instructor's discretion when student coursework is of passing quality and represents a significant portion of the requirements for a final grade, but is incomplete for a good cause. A good cause may include illness, serious personal problems, an accident, a death in the immediate family, a large and necessary increase in working hours, or other situation of equal gravity. If these situations occur when 20 percent or more time remains in the class, students should consider withdrawing from the class. Students failing a course will not be granted an "Incomplete" to avoid receiving an "F".

It is the student's responsibility to maintain contact with the instructor and to turn in all required work within the designated time (not to exceed one semester, excluding summer, unless the "Incomplete" is granted due to activities related to military leave). Both parties must discuss the need for an "Incomplete", the process for completion of course requirements, and sign the "Incomplete Form." The "Incomplete Form" serves as an agreement and will guide the course(s) completion. If an "Incomplete" is granted at the end of the fall semester, students must complete it by the end of the spring semester. For spring or summer semesters, students must complete all requirements by the end of the following fall semester.

Any extensions beyond the maximum semester of allowed time must be initiated by the student for the instructor's consideration. The instructor will complete and submit a Grade Change form to the Registrar's Office when all required work is complete. If not completed in the designated timeframe, a grade of "F" will automatically be awarded.

Midterm Grades

Midterm grades are issued in an effort to provide students with early feedback about academic progress. Midterm grades are only available on the MyBTC portal after the eighth week of the semester; midterm grades are not mailed to students. Letter grades of "S" or "U" are issued. An "S" indicates that the student is currently performing at a "C" or higher in the course. A "U" indicates that the student is performing at a "C-" or lower in the course. Should this occur, it is advised that the student speak with the instructor. These grades are not recorded on student transcripts and are not used to compute grade point averages.

Graduation

In order to graduate students must:

- Complete all necessary coursework.
- Have a college GPA of 2.0 or higher. Please note: some programs may require a higher GPA for graduation)
- Completed at least 25% of all program required courses at BTC.

Students who do not meet the criteria identified and/or deadlines may not be able to participate in the formal ceremony and receipt the diploma will be delayed.

Students who previously submitted graduation applications that did not meet the graduation criteria must re-submit an updated application.

Embedded Technical Diplomas

If a student's main program encompasses an embedded technical diploma, students will receive the credential once the requirements of the degree have been met without needing to apply for graduation. The embedded technical diploma credential will be displayed on the student transcript.

Commencement

Commencement is currently held only once a year - typically in May - for students who meet the following requirements:

- Are within six (6) credits of completing a program (diploma or degree programs).
- Apply for graduation by the application deadline.
- Pay the cap and gown fee
- Wear caps and gowns for Commencement. Information regarding the purchase of the cap and gown will be provided in early spring
- If you are unsure at the time you apply to graduate whether you plan to attend the ceremony, we would encourage you to mark "yes". If you find out later you can no longer participate, send a notification via graduation@blackhawk.edu.
- Students and guests requiring special accommodations must contact graduation@blackhawk.edu at least two (2) weeks before Commencement.
- Commencement will be recorded.

Honor Cords

The Honor Cord program recognizes graduating students who have a cumulative grade point average of 3.75 or above at the end of the semester prior to completing their program requirements. Qualifying students will receive a complimentary gold cord that can be worn on the graduation gown recognizing this achievement of academic excellence. This honor is sponsored by Student Activity Fees. Those who qualify will be notified through the Blackhawk student email. For further information regarding the Honor Cord, contact the registrar at registration@blackhawk.edu.

Honors

President's Honor List

The President's Honor List is published each fall and spring semester. The list includes the names of students maintaining a grade point average of 3.5 or higher and enrolled in nine (9) credits or more.

Honors

Students receiving honors for a given semester where at least nine semester hours have been completed will have the following notation on their transcript:

- GPA between 3.5-3.99 will be notated as President's List
- GPA of 4.0 will be notated as High Honors

Graduates achieving Honors (3.5 or better) and High Honors (4.0) according to their program GPA are also recognized by a special notation on their diploma.

Transcripts

There are two types of transcripts, official and unofficial. All "active" students have the ability to request an official transcript (Registrar's signature and school seal will appear) or to print an unofficial transcript via the MyBTC portal. Students are considered "active" if registered for a minimum of one course within the last year. "Inactive" students may request official transcripts from the transcript link on the BTC website. Students are charged \$7 per copy or \$14 per copy for same-day service for official transcript requests. BTC has retained Credentials Inc., to process all transcript orders. Students may order transcripts at www.credentials-inc.com/tplus/?ALUMTRO005390 or by calling Credentials Inc., at (847) 716-3005 to place a request. There is an additional charge for placing orders over the telephone. Students with registration or account "holds" will not be able to obtain transcripts until the hold is resolved.

Federal Educational Rights and Privacy Act (FERPA)

Blackhawk Technical College policy on the privacy of records and releasing information follows the directives outlined in FERPA, the federal law governing the protection of educational records. Registered students will be notified of this policy on an annual basis. The policy is also on the BTC website or may obtain a copy of the policy upon request from the College.

Personally identifiable information will not be released from an education record without the prior written consent of the student unless an exception has been granted by FERPA (see exception section below).

Rights under FERPA

FERPA affords students:

1. The right to inspect and review the student's education records within 45 days of the day the College receives a request for access.
2. You should submit to the Registrar written requests that identify the record(s) you wish to inspect. The Registrar will make arrangements for access and notify you of the time and place where the records may be inspected. At the time of viewing, the student will present some form of picture identification, such as a valid driver's license, before being allowed to view the record.
3. The right to request the amendment of the student's education records that the student believes is inaccurate or misleading.

4. You should write to the Registrar, clearly identifying the part of the record you want to be changed, and specify why it is inaccurate or misleading. If BTC decides not to amend the record as requested, the college will notify you of the decision and advise you of your right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to you when you are notified of the right to a hearing.

5. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent (see exception section below).

6. The right to file a complaint with the U.S. Department of Education concerning alleged failures of the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office

U.S. Department of Education

600 Independence Avenue, SW

Washington, D.C. 20202-4605

Exceptions under FERPA

Under certain conditions, as authorized by FERPA, information can be released without student consent:

Directory Information: The use of the term "Directory Information" does not imply that the College actually has a document containing Student Directory Information, or that the College has any obligation to produce such a document. The term "Directory Information" is a legal term applying to that information that the College may release, without student consent, to any third party.

The College has defined "Directory Information" as the following:

- Student Name
- Student Address and Phone Number
- Date and Place of Birth
- Full-time or Part-time Status
- Major Field of Study
- Dates of Attendance
- Credits Earned Toward a Diploma
- Degrees and Awards Received
- Photos and Videos of Students for use in College Press Releases, Publications, and Websites
- BTC Assigned Student Email Accounts

Students have the right to restrict the disclosure of "Directory Information" at any time. To restrict the disclosure of Directory Information, a student may file a Privacy Request Form to the Registration and Records Office on Central or Monroe Campuses. The request to restrict disclosure of Directory Information will be honored until the student notifies the Registration and Records Office in writing to the contrary.

U.S. Military: According to federal law, the College must release to the U.S. Armed Forces student name, address, phone number, date of birth, and field of study.

Authorized Federal, State, and Local Authorities: Student authorization is not required for disclosure to an authorized representative of the following individuals or entities:

- The Secretary of the U.S. Department of Education
- State educational authorities
- Any party legitimately connected with a student's application for, or receipt of, financial aid
- Accrediting organizations
- Agencies involving an audit or evaluation of compliance with education programs
- Organizations conducting studies for or on behalf of educational institutions

Other Institutions: Information can be released to other schools to which a student seeks or intends to enroll.

Emergency Situations: Information can be released to law enforcement personnel, emergency personnel, and College officials in an emergency in order to protect the health or safety of students or other persons.

Legitimate Education Interest: Officials of the College who have a legitimate educational interest may have access to student records without obtaining consent from the student. Officials of the College are defined as:

- Persons employed by the school in an administrative, supervisory, academic, research or support staff position.
- Persons serving on school governing bodies.
- Persons employed by or under contract to the College to perform a specific task, such as an attorney or an auditor.

An official has a legitimate educational interest if s/he needs to:

- Perform duties specified in their job description or under terms of a contractual agreement.
- Provide campus services related to a student, such as advising or financial aid.
- Conduct tasks related to a student's education or campus discipline.

Judicial Order: Information must be released to comply with a judicial order or lawfully issued subpoena. However, the College will make a reasonable effort to notify the student of the order or subpoena in advance of compliance, so that the student may seek protective action. However, if the court (or other issuing agency) has ordered that the existence or the contents of the subpoena or judicial order not be disclosed, the College will comply and notification to the student will be withheld.

Grievance Hearing: Information about a student or students involved in grievance investigation or grievance hearing may be released to members of the grievance committee, including any students assigned to that committee, if such information is germane to the investigation or hearing.

Disciplinary Hearing: The results of a disciplinary hearing may be released to an alleged victim of a crime of violence without the permission of the accused.

Blackhawk Technical College Foundation: Student names and addresses may be released to the Blackhawk Technical College Foundation for foundation-related activities. The Foundation is considered part of the College and will hold such information confidential, using the information only in specific activities intended to aid and support the College. The release of such information to the Foundation will be made only with the approval of the College President or his/her designees.

U.S. Patriot Act: The College must release, without consent or knowledge of the students personally identifiable information from a student's education record to the Attorney General of the United States or his/her designee in connection with the investigation or prosecution of terrorism crimes specified in sections 233b (g)(5)(B) and 2331 or Title 18 U.S. Code.

Written Release: Personal employed by the College who have consent in the form of a written release of information, signed by the student, and may disclose student information to the appropriate outside agencies of persons.

Note: A record of disclosure will be maintained within a student's file indicating when information has been released from that file and to whom. A fee of five dollars may be assessed for the copying of all or a portion of a student record.

Student Identification Number and FERPA

As of January 1, 2000, Wisconsin Act 128 limits the disclosure and release of student Social Security Numbers. In order to comply with Act 128, BTC assigns a unique identification number to each student. This identification number does not incorporate the student's Social Security Number. BTC may collect and report student Social Security Numbers for state and federal reporting requirements. BTC procedures are designed to ensure that student Social Security Numbers remain confidential.

PAYING FOR COLLEGE

Blackhawk Technical College continually strives to help students who have financial need. The following offices or groups are available to assist students to overcome the challenge of paying for college.

- Financial Aid (<https://www.blackhawk.edu/Paying-for-College/Financial-Aid/>)
- Blackhawk Foundation (<https://www.blackhawk.edu/About/Foundation/>)
- Veterans Educational Benefits (<https://www.blackhawk.edu/Paying-for-College/Veterans-Benefits/>)

This section aims to provide students with an overview of fees and billing, financial aid options, scholarship possibilities, and educational benefits for veterans. For more information please visit <https://blackhawk.edu/Paying-for-College/Financial-Aid> (<https://blackhawk.edu/Paying-for-College/Financial-Aid/>).

Student Consumer Information

Schools are required to provide a variety of Consumer Information to students. This includes information such as Campus Crime and Safety Disclosure, Drug and Alcohol Abuse Prevention Program, Placement/Employment statistics, and Retention and Graduation Rates. The Student Consumer Information can be found on the Blackhawk website under College Information, Student Consumer Information.

Tuition and Fee Payment

Standard Tuition and Fees

All programs are subject to a uniform fee per credit established by the Wisconsin Technical College System Board and state legislature. The rate is subject to change. Certain unique courses and programs are exempt from program fees.

The Wisconsin tuition rate is **\$141.00** per credit hour (***please note, other fees may apply to this amount***). The out-of-state tuition rate is \$211.50 per credit hour.

For a complete listing of costs, please see the program cost sheet (<https://www.blackhawk.edu/Paying-for-College/Tuition-Fees/Cost-by-Program/>).

Students can pay their tuition and fees using one of the four methods below:

1. Pay in Full: Pay the full amount of tuition and fees by cash, check, MasterCard, VISA, or Discover at the time of registration.

2. Tuition Payment Plan available using TouchNet (available in the MyBTC student portal):

- All payment plans require a non-refundable service charge. Students will be billed for outstanding balances. If payments are not made, a hold will be placed on the student's account. Such holds can impact a student's ability to register, get official transcripts, diplomas, or access to learning resources until they are resolved.
- Failure to make the payments at the time that they are due may cause the student to be dropped from all of their pre-college and credit courses for that semester. Students may re-register for classes should this happen; however, they may not be allowed to establish another payment plan for that semester.

3. Financial Aid: In order to be eligible for federal or state financial aid, students must complete their Free Application for Federal Student Aid (FAFSA). Once the student has received their financial aid notification from Blackhawk, they can defer payment of their tuition and fees. Their outstanding balance will be paid as the financial aid is received. If financial aid does not cover the entire balance due, the student will be responsible for payment of the balance due.

4. Agency/Employer Funding: If written authorization from an agency or employer is on file, the student will be able to defer payment of tuition and fees. The agency/employer will be billed for the authorized costs. If the funding does not cover the entire amount of tuition and fees, the student will be responsible for paying the remaining balance.

Collection Issues: If you are late paying the outstanding balance, a hold will be placed on your account. You will not receive official transcripts or diplomas, and will not be allowed to register for additional classes until all balances are paid. Starting thirty-one (31) days into the semester, a 30-day notice and possibly a 60-day notice will be sent to remind you of an outstanding balance. Failure to make payment after receiving the notification(s) will result in a late charge of \$25.00 being assessed to your account. In addition to the late charge, your account may be referred to a collection agency or for legal action. In an effort to receive payment, the collection agency will be authorized to notify the State of Wisconsin's Tax Refund Intercept Program.

Out-of-State Tuition

Students who do not reside in Wisconsin and enroll in a program that is not covered under one of Blackhawk's reciprocity agreements will pay tuition and fees at a higher rate. A limited number of waivers may be granted. Paperwork for waivers is available in Student Services. Visit our website for more information on out-of-state tuition and fees (<https://www.blackhawk.edu/Paying-for-College/Tuition-Fees/>).

Types of Financial Aid

There are four basic types of financial aid available for Blackhawk students:

- Grants (<https://blackhawk.edu/Paying-for-College/Financial-Aid/Grants/>)
- Loans (<https://blackhawk.edu/Paying-for-College/Financial-Aid/Loans/>)
- Part-time employment
- Scholarships (<https://blackhawk.edu/Paying-for-College/Scholarships-Awards/>)

The type of financial aid provided will differ for each student because the aid package is designed specifically for the student's individual needs and circumstances. A single type of financial aid rarely meets all educational expenses. Therefore, financial assistance generally comes in the form of a combination of financial aid. Students are encouraged to learn more about the different financial aid options by clicking on the links above.

In addition, there is assistance available to veterans and members of the military. See the Veterans and Military Benefits section for more information, call (608) 757-7664, or visit <https://blackhawk.edu/Paying-for-College/Veterans-Benefits> (<https://blackhawk.edu/Paying-for-College/Veterans-Benefits/>).

Disbursement of Financial Aid

All financial aid is disbursed through the Accounting Office. If the combination of grants and loans exceeds tuition and fees, a refund will be issued to you. For dates of refunds, visit the college calendar on the website (<https://blackhawk.edu/About/News-Events/Event-Calendar/>).

Book Charge Information

Bookstore charges allow a student to charge their books to their excess financial aid at the BTC Bookstore. Bookstore charges are available from one week before the first day of each semester. For more information on bookstore charges please go to <https://www.blackhawk.edu/paying-for-college/financial-aid> (<https://www.blackhawk.edu/Paying-for-College/Financial-Aid/>).

Return of Title IV Financial Aid

Federal Law states that if you receive Federal Financial Aid and withdraw, drop-out, stop attending or receive failing grades in your classes, you may have to return some Federal Aid that you received. Failure to attend classes may require you to repay 100% of all the aid you received for the classes you did not attend. To view the Return of Title IV policy for Blackhawk Technical College please go to <https://www.blackhawk.edu/paying-for-college/financial-aid> (<https://www.blackhawk.edu/Paying-for-College/Financial-Aid/>).

Satisfactory Academic Progress

Students receiving financial aid must make Satisfactory Academic Progress (SAP) toward the completion of course requirements. To view the SAP policy for Blackhawk Technical College, please go to <https://www.blackhawk.edu/paying-for-college/financial-aid> (<https://www.blackhawk.edu/Paying-for-College/Financial-Aid/>).

Applying for Financial Aid

Applying for financial aid can be completed months before the start of the academic year by completing a Free Application for Federal Student Aid (FAFSA) online. FAFSA determines a student's eligibility for assistance. Students re-apply each year as information does not carry over from year-to-year. The earlier the application is completed, the more opportunities there may be for certain types of financial assistance. FAFSA application period for the 2021-2022 academic year opens on October 1, 2020.

Here are instructions for applying for financial aid:

1. Create an FSA username and password at <https://fsaid.ed.gov/npas/index.htm> (<https://fsaid.ed.gov/npas/>).
2. Submit your Free Application for Federal Student Aid (FAFSA) at <https://studentaid.gov/h/apply-for-aid/fafsa> (<https://studentaid.gov/h/apply-for-aid/fafsa/>)

- The application for the new school year becomes available on October 1 every year.
- For priority processing, complete the FAFSA by February 1 every year.

- School ID – 005390
- FAFSA must be completed for every school year.

Students are welcome to stop by the Financial Aid Office on Central Campus for assistance. Assistance at other campus locations is available by appointment. Please contact Financial Aid to schedule.

If you have any questions or need help filling out the FAFSA, call the Financial Aid Office at (608) 757-7664 or toll-free at (800) 498-1282 ext. 7664.

Blackhawk Technical College Foundation Scholarships

The Blackhawk Technical College Foundation offers scholarships that assist students with tuition, books, and fees. Foundation scholarship awards are based on factors such as scholastic merit and financial need. Current and prospective students are invited to apply for scholarships by **April 15** (for Fall scholarship awards) and **October 15** (for Spring scholarship awards) each year. This support can be truly life-changing for students.

Foundation scholarships may have specific program enrollment or other requirements such as grade point average. However, all students, regardless of program of study at Blackhawk Technical College are eligible for scholarship funding through the BTC Foundation.

For more information on the application process and Foundation scholarships – which are provided by private donors wishing to assist BTC students with their educational goals – please visit <https://www.blackhawk.edu/About/Foundation/Foundation-Scholarships> (<https://www.blackhawk.edu/About/Foundation/Foundation-Scholarships/>). The BTC Foundation accepts monetary and in-kind gifts which offer increased access to education and enhanced opportunities for the surrounding community. Donors can contribute to an existing scholarship or create their own named fund.

Veterans and Military Benefits

Federal Department of Veteran Affairs

A variety of programs are available if you have served in the military or are in the Reserves or National Guard. Dependents of disabled or deceased veterans may be eligible for benefits also. Military spouses may also be eligible for education benefits. For the latest information about Veterans education benefits through the Federal Department of Veteran Affairs (i.e. Montgomery GI Bill, Post 9/11 Bill), go to www.gibill.va.gov (<http://www.gibill.va.gov>) or call (888) 442-4551.

WI Department of Veteran Affairs

State programs in the form of tuition and fee reimbursement may be available for Wisconsin veterans. National Guard members may be eligible for the National Guard Tuition Grant. For more information about Wisconsin Veteran education benefits, go to <http://dva.state.wi.us> (<http://dva.state.wi.us/>) or call Rock County Veteran Service Office at (608) 757-5552 or Green County Veteran Service Office at (608) 328-9415.

Veteran Benefits at Blackhawk Technical College

Once you have determined you are eligible to receive veteran education benefits and you would like to use them at Blackhawk Technical College, you must:

- Notify the College VA Certifying Official of the benefits you are eligible to receive and your intent to use them at Blackhawk
- Be accepted into and attending courses in a program approved for veteran benefits
- Be taking courses within your degree requirement
- Maintain academic progress within your program of study
- If you are in an academic program with flex courses, promptly notify the College VA Certifying Official of your first date and last date of attendance in each course upon completion.

For more information call (608) 757-7664.

ACADEMIC PROGRAMS

Since opening our doors more than 100 years ago, BTC has continually hosted a breadth of opportunity for students to earn Associate of Applied Science Degrees (p. 28), Technical Diplomas (<http://catalog.blackhawk.edu/academics/technical-diplomas/>), Certificates (p. 142), apprenticeships (p. 154) and non-postsecondary offerings (p. 152).

- Accounting (p. 29)
- Accounting Assistant (p. 132)
- Administrative Professional (p. 31)
- Administrative Support Professional (p. 99)
- Advanced EMT (p. 100)
- Agribusiness Specialist (p. 101)
- Agribusiness/Science Technology (p. 33)
- Automation Systems Technology (p. 35)
- Automotive Technician (p. 102)
- Behavior Technician (p. 37)
- Business Management (Associate Degree) (p. 39)
- Business Management Specialist (p. 133)
- Central Service Technician (p. 104)
- Computed Tomography (p. 143)
- Computer Numeric Control (CNC) Technician (p. 105)
- Computer Service Technician (p. 107)
- Criminal Justice Studies (p. 41)
- Culinary Arts (p. 43)
- Culinary Production Specialist (p. 109)
- Dental Assistant (p. 110)
- Dental Hygienist (p. 45)
- Diagnostic Medical Sonography/Vascular Technology (p. 47)
- Diesel & Heavy Equipment Technician (p. 111)
- Digital Marketing (p. 49)
- Early Childhood Education (p. 51)
- Electric Power Distribution (p. 113)
- Electromechanical Technology (p. 53)
- Emergency Medical Technician (p. 115)
- Entry Maintenance Technician (p. 134)
- Farm Business & Production Management (p. 116)
- Fire Protection Technician (p. 55)
- Flux Core Arc Welding (p. 135)
- Foundations of Teacher Education (p. 57)
- Funeral Service (p. 59)
- Gas Metal Arc Welding (p. 136)
- Gas Tungsten Arc Welding (p. 137)
- Heating, Ventilation, Air Conditioning, and Refrigeration Technology (p. 117)
- Human Resources (p. 60)
- Human Resource Generalist (p. 144)
- Human Services Associate (p. 62)
- Individualized Tech Studies (p. 64)
- Industrial Maintenance Mechanic (p. 119)
- IT- Network Specialist (p. 65)
- Laboratory Food Science Technician (p. 67)
- Laboratory Technician Assistant (p. 121)
- Law Enforcement Basic Jail Academy (p. 145)
- Law Enforcement Basic Recruit Academy (p. 122)
- Law Enforcement Secure Juvenile Detention Academy (p. 148)
- Leadership Development (p. 69)
- Manufacturing Engineering Technology (p. 71)
- Manufacturing Information Technology Specialist (p. 123)
- Medical Administrative Coder (p. 73)
- Medical Administrative Specialist (p. 75)
- Medical Assistant (p. 125)
- Medical Laboratory Technician (p. 77)

- Nuclear Technology (p. 79)
- Nursing (p. 80)
- Nursing Assistant (p. 126)
- Nutrition and Dietetic Technician (p. 82)
- Patient Service Specialist (p. 146)
- Phlebotomy Technician (p. 127)
- Physical Therapist Assistant (p. 83)
- Project Management (p. 147)
- Radiography (p. 85)
- Residential HVAC (p. 138)
- Sales Management (p. 87)
- Shielded Metal Arc Welding (p. 140)
- Substance Abuse Education (p. 141)
- Substance Use Disorder Counseling (p. 89)
- Supply Chain Management (p. 91)
- Supply Chain Management (Certificate (p. 149))
- Surgical Technology (p. 93)
- Technical Studies - Journeyworker (p. 95)
- Truck Driving (p. 128)
- Web Software Developer (p. 96)
- Welding (p. 129)

- Medical Laboratory Technician (p. 77)
- Nuclear Technology (p. 79) (shared program with Lakeshore Technical College)
- Nursing (p. 80)
- Nutrition and Dietetic Technician (p. 82) (shared program with Milwaukee Area Technical College)
- Physical Therapist Assistant (p. 83)
- Radiography (p. 85)
- Sales Management (p. 87)
- Substance Use Disorder Counseling (p. 89)
- Supply Chain Management (p. 91)
- Surgical Technology (p. 93)
- Technical Studies - Journeyworker (p. 95)

Technical Diplomas

- Administrative Support Professional (p. 99)
- Advanced Emergency Medical Technician (p. 100)
- Agribusiness Specialist (p. 101)
- Automotive Technician (p. 102)
- Central Service Technician (p. 104)
- Computer Numeric Control (CNC) Technician (p. 105)
- Computer Service Technician (p. 107)
- Culinary Production Specialist (p. 109)
- Dental Assistant (p. 110)
- Diesel & Heavy Equipment Technician (p. 111)
- Electric Power Distribution (p. 113)
- Emergency Medical Technician (p. 115)
- Farm Business & Production Management (p. 116)
- Heating, Ventilation, Air Conditioning, and Refrigeration (p. 117)
- Industrial Maintenance Mechanic (p. 119)
- Laboratory Science Technician Assistant (p. 121)
- Law Enforcement Basic Recruit Academy (p. 122)
- Manufacturing Information Technology Specialist (p. 123)
- Medical Assistant (p. 125)
- Nursing Assistant (p. 126)
- Phlebotomy Technician (p. 127)
- Truck Driving (p. 128)
- Welding (p. 129)

Embedded Technical Diplomas

- Accounting Assistant (p. 132)
- Business Management Specialist (p. 133)
- Entry Maintenance Technician (p. 134)
- Flux Cored Arc Welding (p. 135)
- Gas Metal Arc Welding (p. 136)
- Gas Tungsten Arc Welding (p. 137)
- Residential HVAC (p. 138)
- Shielded Metal Arc Welding (p. 140)
- Substance Abuse Education (p. 141)

Certificates

- Computed Tomography (p. 143)
- Human Resource Generalist (p. 144)
- Law Enforcement - Basic Jail (Corrections) Academy (p. 145)
- Patient Service Specialist (p. 146)
- Project Management (p. 147)
- Secure Juvenile Detention Academy (p. 148)
- Supply Chain Management (p. 149)

At Blackhawk, we understand our students have busy lives and hectic schedules which is why the college offers a variety of flexible learning options to best serve you. Whether you are searching for an online class, a flexible lab schedule, or face-to-face courses, we want to do everything possible to accommodate you. Find out more about all of our flexible delivery options here. (<https://blackhawk.edu/Programs-Classes/Take-a-Class/Flexible-Learning-Options/>)

Associate Degrees

The Associate of Applied Science Degree programs provide day and evening educational opportunities to assist individuals preparing for or advancing in a particular occupation or field. These two-year career degree programs typically require 60-70 total credits to complete with 70% of those credits reflecting technical study course work and the remaining 30% in general education. These degrees can be successfully completed within approximately two years for full-time students and will vary for students pursuing on a part-time schedule.

Many of the general education courses and some occupational credits earned in an applied associate degree program may transfer to a two- or four-year institution of higher education. Students interested in transferring credits should review Blackhawk's current transfer agreements at <https://www.blackhawk.edu/Programs-Classes/Transfer-After-BTC/> (<https://www.blackhawk.edu/Programs-Classes/Transfer-After-BTC/>).

Accounting

Associate of Applied Science Degree
10-101-1

The Associate of Applied Science degree in Accounting prepares its graduates for entry-level positions in a variety of business enterprises. The Accounting program is designed to build a solid foundation in accounting principles, theories, and practices. Program objectives focus on the study of financial, managerial, and tax accounting theory and procedures along with developing intellectual, interpersonal, and communication skills. Over the course of study students develop the ability to apply generally accepted accounting principles, make sound and ethical decisions, and use common business and accounting software.

Program Outcomes

- Prepare financial statements and related schedules in conformity with generally accepted accounting principles.
- Apply accounting skills and principles creatively and innovatively in accordance with the standards of professional ethics.
- Process financial transactions throughout the accounting cycle.
- Analyze financial and business information to support planning and decision-making.
- Perform payroll preparation, reporting, and analysis tasks.
- Perform cost accounting preparation, reporting, and analysis tasks.
- Perform individual and/or organizational tax accounting preparation, reporting, and analysis tasks.
- Identify internal controls to reduce risk.

Graduates Have Found Employment As

- Accounts Payable/Receivable Clerk
- Payroll Clerk
- Accounting Clerk
- Assistant Accounting Manager
- Accountant

- Accounting Assistant
- Cost Accountant
- Plant/Branch Accountant

Administrative Professional

Associate of Applied Science Degree
10-106-6

Businesses depend on high-quality, accurate information. If you value organization, care about details, and understand the importance of clear communication and current technology skills, developing those talents as an administrative professional may be just what you need to succeed.

The Administrative Assistant program prepares individuals in the software/hardware, administrative, and interpersonal skills needed to perform the duties of administrative support personnel. With additional education and/or work experience, there is opportunity for advancement into supervisory or managerial positions.

Program Outcomes

- Demonstrate effective workplace communications
- Apply technology skills to business and administrative tasks
- Perform routine administrative procedures
- Manage administrative projects
- Maintain internal and external relationships
- Model professionalism in the workplace

Agribusiness/Science Technology

Associate of Applied Science Degree
10-006-2

The Agribusiness/Science technology focus of this program gives students the skills needed to run their own agribusiness operation or help other agricultural producers become more successful. Students will learn how to merge business and science to produce a product and make a profit. Through hands-on learning and on-the-job experience, students gain skills in animal science and nutrition, integrated pest management, soil science, crop production and precision agriculture. Students develop crop management, livestock management, and business plans as well as learn how to enhance success through sales, marketing and business management. This program will provide opportunities in a variety of agribusiness career pathways.

Program Outcomes

- Create a crop management plan
- Develop an agri-business management plan
- Apply economic and marketing strategies to agribusiness industry
- Apply relevant technologies
- Create a livestock management plan
- Investigate opportunities in agribusiness
- Interact as a professional in agribusiness

Graduates Have Found Employment As

- Sales Representative
- Service Representatives
- Farm Manager
- Agricultural Technician
- Crop Associate
- Assistant Herdsman
- Agricultural Equipment Operator
- Commercial Applicator
- Precision Ag Technician

- Crop, Nursery, and Greenhouse Worker
- Crop and Livestock Manager
- Animal Breeders
- Nutrient Management Specialist
- Crop Scouting Technician

Automation Systems Technology

Associate of Applied Science Degree 10-664-1

As a graduate of the Automation Engineering Technology associate's degree program, you'll be prepared to design, program, and troubleshoot integrated machine systems used in the growing field of advanced manufacturing and industrial controls. Students in this program work with integrated systems that include industrial automation, robotics, mechanical systems, computer integration, and industrial communications. Potential career opportunities include automation technician, controls technician, controls designer, and engineering technician.

1. Perform work safely
2. Troubleshoot electrical and mechanical systems and devices
3. Communicate technical information
4. Integrate automation and mechanical control systems

Semester 1		Credits
804-113	College Technical Mathematics 1A	3
620-902	Mechanics of Learning for Industrial Technologies	1
449-425	Safety	1
620-903	Troubleshooting Integrated Manufacturing Systems 1	1
620-173	Blueprint Reading for Machine Prints	1
620-146	Mechanics 1	1
620-147	Mechanics 2	1
620-116	Fluid Power 1: Basic Pneumatics	1
620-101	Fundamentals of DC circuits 1	1
620-102	Fundamentals of DC Circuits 2	1
620-109	Relay Logic	1

620-124	Programmable Logic Controllers - PLCs	1
606-480	CAD Fundamentals - 2D Drawing	1
606-176	CAD Fundamentals – Solid Modeling	1

Behavior Technician

Associate of Applied Science Degree 10-522-3

The Behavior Technician Associate of Applied Science degree prepares learners to work with individuals who have developmental and behavioral needs. With this degree, a learner can gain employment working with the special needs population in both an educational, group, and individual home settings. There are many career options with this degree. This program bridges between the Foundations of Teacher Education, Early Childhood Education, and Human Services programs adding courses targeted more towards working with and supporting the special needs population at all ages. Typical duties include supervising classroom and playground activities, monitoring students, assisting students one-on-one, collecting data, managing student behavior, supporting individual needs of all students, using communication systems, following teacher or senior behavior technicians learning plans at school or in home setting, and supporting individual personal hygiene needs.

- Discriminate between the various diagnoses collectively known as Pervasive Developmental Disorders.
- Analyze the impact of early intervention on children with Autism Spectrum Disorder.
- Implement positive behaviors to support students identified on the Autism Spectrum.
- Foster play and friendship for persons with Autism Spectrum Disorder.
- Demonstrate a variety of effective teaching methods, adaptations and modifications for learners identified on the Autism Spectrum.
- Examine functional living skills and vocational support for persons with Autism Spectrum Disorder.

Business Management

Associate of Applied Science Degree
10-102-3

The Associate of Applied Science degree in Business Management prepares students for entry-level careers in business-related occupations and to start their own business. The training provides broad and foundational business skills in managing business operations, including marketing, finance, human resources, accounting, project management, team leadership, business technologies, and business communications. The program emphasizes the five functions of management: planning, organizing, staffing, directing, and controlling. General Education supporting outcomes include written, oral and interpersonal communications, mathematics, economics, and psychology.

Program Outcomes

- Plan the operations of a business across functional areas.
- Organize resources to achieve the goals of the organization.
- Direct individuals and/or processes to meet organizational goals.
- Control business processes.

Graduates Have Found Employment As

- Assistant Store Manager
- Branch Manager
- Buying and Planning Specialists
- Customer Service Manager
- Department or District Manager
- Distribution Center Manager
- Entrepreneur/Owner
- General Management Occupations
- Human Resources
- Shift Managers

- Store and Operations Specialties Managers
- Team Leaders

Criminal Justice Studies

Associate of Applied Science Degree
10-504-5

The Criminal Justice Associate of Applied Science degree provides a foundation of knowledge in criminological, sociological, and psychological theories. The program will provide learners with training to meet the challenges of an increasing complex criminal justice environment. Applied knowledge, technical skills, and communication abilities gained within this program offers you the ability to pursue or advance your career in a wide range of positions in the field of criminal justice, including law enforcement, criminological research, crime analysis, the courts, adult and juvenile justice, and public safety. The degree will prepare the student for a position as a law enforcement officer (state, county, municipal), correctional officer, juvenile detention officer, police dispatcher, or many other occupational areas in the criminal justice system.

Program Outcomes

- Examine the components of and interrelationships in the criminal justice system
- Analyze situational responses
- Apply communication skills as a criminal justice professional
- Conduct investigations
- Adhere to the professional code of ethics for a criminal justice practitioner
- Maintain personal wellness

Graduates Have Found Employment As

- Eligibility to apply to law enforcement officer certification academy (police office and deputy sheriff)
- County Correctional Officer
- Juvenile Detention Officer
- Group Home Worker
- Community Juvenile Diversion Worker

- Case Manager (Halfway House)
- Private Security Officer
- State Prison Correctional Officer

Culinary Arts

Associate of Applied Science Degree
10-316-1

The Culinary Arts program combines elements of artistry, science and business skills to prepare students for an exciting career in Food Service. Students will study principles of food preparation, quantity production, equipment layout and operation management. Students are involved in preparation and serving experiences in the food service lab and receive additional opportunities in catering, ice sculpting and food presentation. The Culinary Arts program at Blackhawk Technical College has been honored by the Wisconsin Technical College System (WTCS) board with the Exemplary Educational Service Award. The Blackhawk Technical College Culinary Arts Program is accredited by the American Culinary Federation.

Program Outcomes

- Enforce health and safety standards.
- Demonstrate food prep skills.
- Apply principles of nutrition.
- Recommend or modify business procedures to meet changing needs.
- Manage food purchases, storage, inventory and cost control.
- Supervise and assist in the development of employees.
- Design and implement menus.

Graduates Have Found Employment As

- Kitchen Manager
- Executive Sous Chef
- Executive Chef
- Restaurant Manager
- Lead Cook

Dental Hygienist

Associate of Applied Science Degree
10-508-1

Pending approval, this program will launch in Fall 2022.

This associate degree program prepares individuals for a career as a dental Hygienist. The dental hygienist is a member of the dental team and helps individuals maintain oral health and prevent oral diseases. Under the supervision of a dentist, the hygienist inspects the mouth, removes stains and deposits from teeth, applies preventative agents, prepares clinical and diagnostic tests, completes dental x-rays, and performs many other services related to oral care. Dental hygienists counsel patients about preventive measures such as nutrition, oral hygiene and dental care.

After graduating from an accredited program, dental hygienist graduates are required to successfully complete comprehensive written and clinical examinations given under the direction of the State Dentistry Examining Board, the American Dental Association's Joint Commission.

Model dental hygiene professional code of ethics

Counsel clients/patients to reduce health risks

Provide community oral health services in a variety of settings

Manage infection and hazard control

Assess data on all aspects of patient/client health using methods consistent with dental hygienist scope of practice and legal principles

Formulate a comprehensive dental hygiene care plan in collaboration with the client and other health professionals

Provide preventive and therapeutic services that promote oral health according to the needs of the patient/client

Evaluate the effectiveness of the implemented client/patient dental hygiene care plan

Diagnostic Medical Sonography/Vascular Technology

Associate of Applied Science Degree
10-526-5

Diagnostic Medical Sonography, commonly called ultrasound, is a diagnostic medical procedure that uses high frequency sound waves to produce medical images of organs, tissues, or blood flow inside the body.

The profession of diagnostic medical sonography includes general sonography, cardiac sonography, vascular technology, and various subspecialties. The profession requires critical thinking and good judgment to provide appropriate health care services. Sonographer/vascular technologists are highly skilled professionals qualified by education to provide patient services using diagnostic techniques under the supervision of a physician. Although most sonographers work in hospital based medical imaging departments performing abdominal, pelvic and vascular examinations or cardiology departments performing cardiac and vascular examinations, sonographer are also employed in dedicated vascular departments or obstetric departments, where specialized ultrasound examinations are performed and many sonographers work outpatient clinics and mobile imaging services.

Program Outcomes

- Obtain, review and integrate pertinent patient history and supporting clinical data to facilitate optimum diagnostic results.
- Perform appropriate procedures and record anatomic, pathologic and/or physiologic data for interpretation by a physician.
- Record, analyze, and process diagnostic data and other pertinent observations made during the procedure for presentation to the interpreting physician.
- Exercise discretion and judgment in the performance of sonographic and/or other non-invasive diagnostic services.
- Demonstrate appropriate communication skills with patients and colleagues.

- Act in a professional and ethical manner.
- Provide patient education, relative to medical ultrasound and/or other non-invasive diagnostic vascular techniques, and promote principles of good health.

Digital Marketing

Associate of Applied Science Degree
10-104-8

The Digital Marketing program explores aspects of the digital marketing age, including topics such as digital marketing analytics, SEO, social media marketing, mobile marketing and promotional design. When you complete the Digital Marketing program you will have a richer understanding of the foundations of the digital marketing landscape and acquire a set of skills, concepts, and tools to help you digitally create, distribute, and promote products and services.

Throughout this program, you will gain digital marketing skills including:

- Mobile Marketing Strategies
- Social Media Campaigns
- Audio/Video Recording and Editing
- Digital Design Concepts
- Search Engine Optimization (SEO)
- Google Analytics
- Responsive Web Design
- Basic Coding for Marketers
- Policies, Laws, and Ethics
- Adobe Photoshop, Illustrator, InDesign, Premiere, Dreamweaver, and Muse

Program Outcomes

1. Develop digital marketing strategies to anticipate and satisfy market needs
2. Create digital marketing content for products, services, images, and ideas
3. Integrate tools and technology for digital marketing initiative
4. Analyze the effectiveness of marketing outcomes

Graduates Have Found Employment As

1. Marketing Assistant
2. Marketing Specialist
3. Sales/Marketing Representative
4. Account Manager
5. Social Media Specialist
6. Email Marketing Processor

Semester 1		Credits
102-148	Introduction to Business and Management	3
103-132	Intro to Adobe Illustrator	1

Early Childhood Education

Associate of Applied Science Degree
10-307-1

The Early Childhood Education program prepares students to work as teacher-caregivers in early childhood settings. It combines hands-on fieldwork in area centers with related academic work at the college. Graduates become responsible for the care and education of children in the birth-to-eight-years age range. They create and maintain safe and healthy play environments, guide behavior, plan and implement learning activities, and work cooperatively with staff and parents.

Early Childhood Education is a career option that has increased in demand. This expanding field is seeking potential students with keen observation skills, a talent for human insight, clear communication skills, and respect for children and families. Early Childhood Associate Degree graduates will meet the state educational requirements to be a Child Care Teacher in a licensed group early childhood center for children ages 2 weeks to 10 years old.

Program Outcomes

- Apply child development theory to practice.
- Cultivate relationships with children, family, and the community.
- Assess child growth and development.
- Use best practices in teaching and learning.
- Demonstrate professionalism.
- Integrate health, safety, and nutrition practices.

Graduates Have Found Employment As

- Nannies
- Nursery Schools
- Day Care Centers
- Head Start Classrooms
- Infant Toddler Center
- Before & After School Child Care Centers

- Instructional Services Aide in public schools
- Early Childhood Centers Administration positions

Electro-Mechanical Technology

Associate of Applied Science Degree
10-620-1

Students who complete the Electro-Mechanical Technology associate's degree will be ready to install, maintain, and repair integrated machine systems. This associate's degree program includes coursework in basic mechanics, fluid power, welding, industrial electrical systems, automation controls, and integrated manufacturing systems. Potential career opportunities include maintenance technician, automation technician, installation technician, field service technician, and related professions in the field of mechatronics.

Program Outcomes

- Perform work safely (TSA)
- Troubleshoot electrical and mechanical systems and devices Integrates safety protocol. (TSA)
- Repair electrical and mechanical systems (TSA)
- Communicate Technical Information (TSA)
- Integrate electrical and mechanical systems and devices (TSA)
- Operate power and hand tools and standard test equipment
- Diagnose a fault condition in a component or system
- Modify systems and components.
- Interpret specifications of schematics and procedure documentation

Graduates Have Found Employment As

- Maintenance Technician
- Automation Technician
- Installation Technician
- Field Service Technician
- Medical Electronics Technician
- Pharmaceutical Process Technician
- Electronics Process Technician
- Robotics Technician

- Programmable Controller Program/Technician
- Field Service Technician
- Electronic Service Technician
- Maintenance Service Technician
- Fluid Power Technician
- Machine Repair Technician
- CNC Service Technician

Fire Protection Technician

Associate of Applied Science Degree
10-503-2

The Fire Protection Technician Program offers the student an exciting career in fire protection, fire prevention and fire engineering. The field of the fire science is concerned with the preservation of life and property from fire and related hazards. The fire protection technician is a highly-skilled specialist with a unique blend of technical knowledge, management abilities, and public education and communication skills. Graduates are ideally suited to careers in public and private fire protection. Another area of employment opportunity exists in the field of sales and service with companies which manufacture and distribute fire protection equipment and related supplies. Expanding industrialization and population growth have created new fire problems which must be solved. In this area, the fire protection technician can be part of the team to design and research the answers to solve these problems which are making many demands upon communities, business, and industry.

The Fire Protection Technician Program is 4 semesters in length and most of the courses are oriented to firefighting, fire protection systems, and fire prevention. As part of the FPT an Emergency Medical Technician-Basic course is required either through a semester long course or split course delivery. Starting with a summer semester in between Semesters 2 and 3 of the FPT Program students may attend an Emergency Medical Technician-Fundamentals course. This 2 credit course is followed by a 3 credit Semester 3 course called EMT-Applications. These two courses equate to the regular, 5 credit, 180 hour, EMT-Basic course and part of the course requirements are to attend 10 hour of clinical time in district emergency rooms. Before FPT students are allowed at clinical sites they must undergo a criminal background check through Certified Background, now known as Castle Branch. This requirement must be completed in full and approved prior to registration; No exceptions will be made. There is an additional fee associated with the background check process and students will be required to fill out the Functional Ability form and Acknowledgement of Risks and Release of Responsibility forms. Any and

all revealing of past criminal activity may preclude students from being allowed at clinical sites and successfully completing the FPT Program.

Note: Prior to admission in either the EMT-Basic course or the EMT-Applications course students must also meet the immunization requirements set by the Centers for Disease Control (CDC) and provide proof of health insurance.

Program Outcomes

- Demonstrate professional conduct by displaying a personal code of ethics, positive work ethics, flexibility teamwork skills, physical fitness, safe procedures, and sensitivity to diverse cultures and individuals.
- Perform fire prevention activities including planning public education, inspection, and investigation.
- Communicate clearly and effectively both verbally and through written documentation with clients, coworkers, other agencies and supervisors.
- Apply incident management skills to emergency incidents.
- Meet professional fire and EMS credentialing standards.

This series is for all who wish to be certified by the State of Wisconsin. The emphasis is on skilled hands-on training. All classes require a Wisconsin Technical College System (WTCS) test for certification at the completion of each course.

Graduates Have Found Employment As

Foundations of Teacher Education

Associate of Applied Science Degree
10-522-2

The Foundations of Teacher Education Associate of Applied Science degree prepares learners to work directly with students under the supervision of a Wisconsin Department of Public Instruction certified and licensed teacher. The duties include assisting students in grades K-12 with subject area activities and assignments as well as handling classroom management, working with students with identified needs, clerical and other tasks related to instruction. Under the guidance of a cooperating teacher, students will review and prepare lesson plans and assessment activities. This program meets Title I requirements.

Before receiving a practicum placement, you will need to complete a background check.

Program Outcomes

- Demonstrate instructional support strategies for content areas
- Implement developmentally appropriate practices to foster learning
- Adapt instruction to meet the diverse needs of all learners
- Use proactive classroom management techniques
- Perform professional responsibilities
- Incorporate the reflective process to promote professional growth

Graduates Have Found Employment As

A graduate of this program will have the potential for employment as an educational paraprofessional or paraeducator in schools from the pre-kindergarten through high school level. Paraeducators work with children in preschools, elementary schools, middle schools, and high schools. Paraeducators may also work in Wisconsin CESA organizations as well as their community partners. Paraeducators can also work with children with special needs.

- Paraeducators
- Paraprofessionals

- Teaching Assistants
- Instructional Assistants
- Educational Assistants
- Autism Behavior Technicians
- Specialized aides in Reading, Math, Computers, or Special Education
- Autism Line Therapists

Funeral Service

Program Overview

Associate of Applied Science Degree

Designed as a shared program with the Milwaukee Area Technical College (<https://www.matc.edu/course-catalog/community-human-services/funeral-service.html>), the Funeral Service program prepares individuals for a career as a licensed funeral director and embalmer. Students who complete the program will earn an associate degree and be eligible to receive their license (pending successful completion of the National Board Exam and State Board Exam).

Funeral service education is comprised of two categories: arts and sciences. The arts category covers the following topics: psychology, marketing and merchandising, funeral management, funeral arrangements, funeral service practices and law, grief, ethics, business management, and more. The science category covers the following topics: embalming, restorative art, funeral chemistry, pathology, microbiology, and more.

Program Outcomes

- Prepare the deceased human body for identification, viewing, including case analysis, embalming, cosmetizing, and restorations
- Comply with OSHA Bloodborne Pathogen Standards
- Document and coordinate people and funeral-related activities
- Anticipate and meet the needs of mourners in a tactful, discreet, and compassionate manner
- Apply counseling skills to the arrangement of funerals
- Recognize the burial rituals of various religious faiths, military branches, public service, and fraternal organizations

Academic Plan

The academic plan for the Funeral Service program can be found on the program page on the MATC website (<https://www.matc.edu/course-catalog/community-human-services/funeral-service.html>).

Human Resources

Associate of Applied Science Degree 10-116-1

The Human Resources Associate of Applied Science degree prepares students to assist small to mid-sized organizations in effectively recruiting, developing, and utilizing their human resources. Students learn how to maximize the human potential for the benefit of the organization. This field of employment requires knowledge and skills in the following areas: occupational job analysis, compensation, benefits, training, staffing, employee relations, safety, and human resources information systems.

Careers such as HR Generalists or HR Specialists can be found in any non-profit, service or manufacturing organization. Human Resource Specialists can focus on areas such as employee recruitment/interviewing, employee training and development, wages and compensation, benefits, employee wellness, and occupational analysis. Students will have an opportunity to prepare for various related certifications such as from the Society of Human Resources (SHRM) and OSHA.

Program Outcomes

- Recruit and interview qualified candidates for available positions.
- Coordinate and conduct new employee orientations.
- Maintain personnel records and human resources information systems.
- Administer payroll and benefit programs.
- Organize health and safety programs.
- Coordinate employee training and education.
- Plan and implement employee relations activities.
- Understand employment law in order to assist managers and supervisors.
- Provide leadership with employee relations and EEO initiatives.
- Assist HR managers in larger organizations.

Graduates Have Found Employment As

- HR Manager/Coordinator/Administrator
- Training and Development Manager
- Compensation and Benefits Coordinator
- Employment and Placement Specialist
- Recruitment Specialist
- Labor Relations Specialist

Semester 1		Credits
102-148	Introduction to Business and Management	3
196-168	Organizational Development	3
103-138	Word Documents	2
196-193	Human Resource Management	3
801-136	English Composition 1	3
804-134 or 804-118	Mathematical Reasoning or Intermediate Algebra with Applications	3-4
Credits		17-18
Semester 2		
102-109	Business Careers Planning and Communication	3
116-102	Training and Development	3
196-103	Employment Law	3
116-116	Staffing Organizations	3
103-107	Intermediate Excel	2
Credits		14
Semester 3		
101-111	Accounting I	4
116-115	Compensation and Benefits	3

196-108	Health, Safety and Security	3
809-198	Introduction to Psychology	3
116-119	Labor Relations	3
Credits		16
Semester 4		
101-135	Payroll Accounting	2
102-115	Management Principles	3
116-138	Human Resource Practicum	3
809-196 or 809-122	Introduction to Sociology or Intro to American Government	3
801-198	Speech	3
Credits		14
Total Credits		61-62

Human Services Associate

Associate of Applied Science Degree 10-520-3

The Human Services Associate of Applied Science degree trains students to provide information, support, care and advocacy in a human service agency. Students will gain a solid foundation in human services principles that can be applied in areas such as mental health, social services, education, and rehabilitation. Students will acquire the skills needed to work with individuals, groups and communities of diverse racial, ethnic and cultural backgrounds. The program consists of a unique combination of study including various aspects of human services and general education, as well as field experience in a community human service agency.

The Human Services degree will prepare students to help people enduring difficult times or help them decide what additional services they may need. Human service associates work closely with social workers and other various human service agencies. They help determine what type of help a client might need, help with daily activities, coordinate client services and research available services. Coursework involves interviewing, recordkeeping, counseling, psychology, professional ethics, addictions, working with special populations and grant writing.

A criminal background check is required for all students before participating in Field Experience I and II during the second year of the program.

Program Outcomes

1. Model a commitment to cultural competence
2. Uphold the Ethical Standards and Values for Human Service Professionals.
3. Demonstrate professionalism
4. Utilize community resources
5. Apply human services interventions and best practices
6. Cultivate professional relationships

Associate degree graduates are ready for a range of professional positions in the field of human services including:

- Case Manager
- Community Support Worker
- Substance Abuse Counselor in Training
- Income Maintenance Worker
- Information and Referral Specialist
- Intake Worker
- Outreach Worker
- Prevention Worker
- Resident Manager
- Volunteer Coordinator

With additional education and/or work experience, graduates may find employment as:

- Substance Abuse Counselor
- Program Director
- Social Worker

Semester 1		Credits
520-100	Introduction to Human Services	3
520-101	Community Resources and Services	3
520-102	Introduction to Gerontology	3
801-198	Speech	3
809-198	Introduction to Psychology	3
Credits		15
Semester 2		
520-103	Interviewing Principles & Documentation	3
520-104	Racial and Cultural Diversity in Human Services	3

520-105	Intro to Addiction and Substance Abuse Disorders	3
520-106	Professional Practices in Human Services	3
809-196	Introduction to Sociology	3
Credits		15
Semester 3		
520-107	Field Experience / Human Services 1	3
520-108	Children and Family Services	3
520-109	Group Facilitation	3
520-110	People with Disabilities	3
801-136	English Composition 1	3
Credits		15
Semester 4		
520-111	Field Experience / Human Services 2	3
520-112	Human Services Organizational Operations	3
520-113	Rehabilitation Services	3
520-114	Victimology	3
804-134 or 804-118	Mathematical Reasoning or Intermediate Algebra with Applications	3
Credits		15
Total Credits		60

General Education Courses Within Program

Code	Title	Credits
801-198	Speech	3
801-136	English Composition 1	3

809-196	Introduction to Sociology	3

Individualized Tech Studies

Associate of Applied Science Degree 10-825-1

Rapid changes in technology and work processes have created a growing demand for flexibility and enhanced skill levels in the workplace. Employers increasingly are seeking workers able to perform multiple tasks and roles that cut across traditional occupational categories. To be productive and effective in the changing workplace, workers may need skills and knowledge drawn from a variety of traditional areas of study. As a result, BTC has a versatile Individualized Technical Studies Degree which complements industry needs, enabling students interested in pursuing an Associate Degree to create a unique, individualized program. This specialized program of study combines the skills taught in two or more existing BTC programs, and is designed in cooperation with an occupational advisor from the target industry and an academic advisor from BTC. Students achieve their career goals by acquiring skills and knowledge in an Associate Degree program tailored to meet their specific employment needs.

Below are the general requirements for your Individualized Technical Studies degree. Working with your academic advisor, you can plan your Individualized Technical Studies degree program.

General Education Courses (21-30 credits required)

Communications (select at least two courses) - 6 credits total required

Code	Title	Credits
801-136	English Composition 1	3
801-195	Written Communication	3
or 801-196	Oral/Interpersonal Communication	
801-197	Technical Reporting	3
801-198	Speech	3

Social Science (select at least one course) - 3 credits total required

Code	Title	Credits
809-166	Introduction to Ethics: Theory and Application	3
809-172	Introduction to Diversity Studies	3

809-195	Economics	3
809-196	Introduction to Sociology	3

Behavioral Science (select at least one course) - 3 credits total required

Code	Title	Credits
809-198	Introduction to Psychology	3
809-159	Abnormal Psychology	3
809-188	Developmental Psychology	3
809-172	Introduction to Diversity Studies	3
809-196	Introduction to Sociology	3
809-166	Introduction to Ethics: Theory and Application	3

Mathematics or Science (select at least one course) - 3 credits total required

Select and appropriate mathematics or science course in consultation with your academic advisor.

Code	Title	Credits
804-107	College Mathematics	3
804-133	Math and Logic	3
804-123	Math with Business Applications	3

Also select 6 additional credits of approved General Education courses to complete the General Education Course Requirements.

Individualized Technical Studies Courses (36-47 credits required)

Working with your academic advisor, select existing courses from the program areas in which you are interested. At least **20 credits** must be focused in one of your desired areas.

Electives (0-6 credits required)

Select up to an additional 6 credits of electives that are relevant to your career goals.

Total Program Credits - 60-70

IT-Network Specialist

Associate of Applied Science Degree
10-150-2

The Network Specialist Associate of Applied Science Degree prepares students for a career in computer network support and integrated technology in order to meet business demands for information-sharing. Students receive training in network design, installation, troubleshooting, administration, security and management. After completing this program, the student will have covered basic topic areas needed for the MCSA, NET +, A+, Security+ and CCNA certifications.

Program Outcomes

- Implement computer networks
- Implement client systems
- Implement server operating systems
- Implement network security components
- Develop technical documentation
- Troubleshoot network systems
- Apply system analysis and design concepts
- Manage an Information Technology project from inception to implementation

Graduates Have Found Employment As

- Network Administrator
- Help Desk Specialist
- Network Support Specialist
- Technical Support Specialist
- Network Technician
- User Support Specialist
- Technical Consultant

Semester 1		Credits
631-124	Microcomputer Fundamentals 1: PC Components	1
631-125	Microcomputer Fundamentals 2: PC Assembly	1
631-126	Microcomputer Fundamentals 3: Intro to Web Programming	1
631-127	PC Software Fundamentals 1: Operating Systems	1
631-128	PC Software Fundamentals 2: Software Applications	1
631-129	PC Software Fundamentals 3: Troubleshooting Operating Systems	1
631-130	PC Peripherals and Troubleshooting 1: Peripherals	1
631-131	PC Peripherals and Troubleshooting 2: Printers & Laptops	1
631-132	PC Peripherals and Troubleshooting 3: Troubleshooting Hardware	1
631-133	IT Customer Service Fundamentals 1	1
631-134	IT Customer Service Fundamentals 2	1
631-135	IT Customer Service Fundamentals 3	1
631-111	PC Hardware Assessment	1
801-136	English Composition 1	3
Credits		16
Semester 2		
631-136	Network Fundamentals 1	1
631-137	Network Fundamentals 2	1
631-138	Network Fundamentals 3	1

631-139	Troubleshooting Network Resources 1	1
631-140	Troubleshooting Network Resources 2	1
631-141	Troubleshooting Network Resources 3	1
150-157	IT Project Management 1	1
150-158	IT Project Management 2	1
150-159	IT Project Management 3	1
804-134	Mathematical Reasoning	3
801-198	Speech	3
Credits		15

Semester 3

150-169	Introduction to Enterprise Virtualization 1	1
150-170	Introduction to Enterprise Virtualization 2	1
150-171	Introduction to Enterprise Virtualization 3	1
150-183	Windows Enterprise Server Administration 1	1
150-184	Windows Enterprise Server Administration 2	1
150-185	Windows Enterprise Server Administration 3	1
150-186	LAN Switching & Wireless 1	1
150-187	LAN Switching & Wireless 2	1
150-188	LAN Switching & Wireless 3	1
150-189	System Analysis & Design 1	1
150-190	System Analysis & Design 2	1
150-191	System Analysis & Design 3	1
809-198	Introduction to Psychology	3
Credits		15

Semester 4

631-160	Malicious Software Fundamentals 1	1
631-161	Malicious Software Fundamentals 2	1
631-162	Malicious Software Fundamentals 3	1
150-192	Server & Data Center Virtualization 1	1
150-193	Server & Data Center Virtualization 2	1
150-194	Server & Data Center Virtualization 3	1
150-195	Advanced LAN/WAN Topics 1	1
150-196	Advanced LAN/WAN Topics 2	1
150-197	Advanced LAN/WAN Topics 3	1
150-182	Information Technology Career Preparation	1
631-122	Service Support Internship	1

809-196	Introduction to Sociology	3
Credits		14
Total Credits		60

General Education Courses Within Program

Code	Title	Credits

801-136	English Composition 1	3
804-134	Mathematical Reasoning	3
809-196	Introduction to Sociology	3
809-198	Introduction to Psychology	3

Laboratory Food Science Technician

Associate of Applied Science Degree 10-506-6

This associate degree option will build upon the lab skills in the one year technical diploma, by adding additional computer skills, additional hands on lab training in microbiology and food product testing, and a study of the regulations and regulatory agencies governing food production.

Graduates of the program will be prepared to work in a variety of industries related to food production and safety of the food supply. This includes but is not limited to breweries, cheese plants, sterile packaging facilities, food product testing labs, food safety testing labs.

- Lab Technician
- QC Scientist 1
- Food/Beverage Manufacturing Lab Tech
- Food Safety & Quality Auditor (Technician)
- Process Control Technician
- QC Lab Tech
- Quality Assurance Tech
- Food/Beverage Safety Coordinator
- Food/Beverage Safety Specialist
- Food Laboratory Technician
- Food Lab Associate
- Food Safety Technician

Semester 1		Credits
103-112	Introduction to Microsoft Excel	1
513-110	Basic Laboratory Skills	1
506-108	Laboratory Safety and Hazardous Materials	1
102-148	Introduction to Business and Management	3
806-199	General, Organic and Biological Chemistry	4

801-136	English Composition 1	3
804-118	Intermediate Algebra with Applications	4
Credits		17
Semester 2		
506-102	Intermediate Laboratory Skills	3
506-105	Quality Concepts in Laboratories	3
506-109	Data Management for Laboratory Assistants	1
804-189	Introductory Statistics	3
806-197	Microbiology	4
801-198	Speech	3
Credits		17
Semester 3		
506-111	Food Microbiology	4
506-114	Introduction to the USDA and FDA	2
506-113	Excel and Access for the Laboratory	3
513-170	Introduction to Molecular Diagnostics	2
809-196	Introduction to Sociology	3
506-120	ServSafe Certification Preparation	1
Credits		15
Semester 4		
506-115	Food Production Regulations / HACCP, GFSI, FSMA	2
102-131 or 196-157	Introduction to Business Sustainability or Essentials of Quality 1	1
102-132 or 196-158	Lean Operations or Essentials of Quality 2	1
102-133 or 196-159	Lean Tools or Essentials of Quality 3	1

506-117	Food Laboratory Occupational Experience	2
809-198	Introduction to Psychology	3
806-172 or 506-112	Basic Nutritional Science or Food and Nutritional Science	3
Credits		13
Total Credits		62

General Education Courses Within Program

Code	Title	Credits
804-189	Introductory Statistics	3
801-136	English Composition 1	3
806-197	Microbiology	4
806-199	General, Organic and Biological Chemistry	4
809-198	Introduction to Psychology	3
801-198	Speech	3
809-196	Introduction to Sociology	3
804-118	Intermediate Algebra with Applications	4

Leadership Development

Associate of Applied Science Degree 10-196-1

The Leadership Development Associate of Applied Science degree provides learners with training in leadership, human relations, quality, health and safety, problem solving and team building, organizational development, supervision, project management, and lean and six sigma. With this degree, you will be prepared to become a department manager, supervisor or team leader. Whether you want to work in manufacturing, banking, retail, education, government or health care, these skills will prepare you to be an effective leader. This program is tailored to working adults and is offered face-to-face or online.

The Leadership Development degree is built on a business meta major which includes classes that are part of several programs at the college and should provide transfer into or attachment to any of these other programs.

Program Outcomes

1. Utilize quality strategies and tactics
2. Apply effective leadership skills
3. Apply Human Resource policies and procedures
4. Perform supervisory management functions to achieve organizational objectives

Graduates Have Found Employment As

1. First line supervisors
2. Team Leaders
3. Shift Leaders
4. Quality Leaders
5. Lean Process Leaders

Semester 1		Credits
102-148	Introduction to Business and Management	3
196-100	Supervision 1	1
196-168	Organizational Development	3
804-134 or 804-118	Mathematical Reasoning or Intermediate Algebra with Applications	3
801-136	English Composition 1	3
103-138	Word Documents	2
Credits		15

Semester 2		
196-140	Supervision 2	1
196-157	Essentials of Quality 1	1
196-190	Leadership Development	3
196-161	Teambuilding and Communication 1	1
116-116	Staffing Organizations	3
102-132	Lean Operations	1
801-198	Speech	3
196-193	Human Resource Management	3
Credits		16

Semester 3		
196-153	Supervision 3	1
196-158	Essentials of Quality 2	1
196-162	Teambuilding and Communication 2	1
101-111	Accounting I	4
103-107	Intermediate Excel	2
809-198	Introduction to Psychology	3
196-108	Health, Safety and Security	3
Credits		15

Semester 4

102-155	Introduction to Project Management	3
102-134	Lean Six Sigma	3
196-159	Essentials of Quality 3	1
196-163	Teambuilding and Communication 3	1
196-164	Leadership Practicum	1
809-196 or 809-122	Introduction to Sociology or Intro to American Government	3
116-102	Training and Development	3
Credits		15
Total Credits		61

General Education Courses Within Program

Code	Title	Credits
801-198	Speech	3

809-196	Introduction to Sociology	3
809-198	Introduction to Psychology	3

Manufacturing Engineering Technology

Associate of Applied Science Degree 10-623-3

A skilled workforce is needed in the manufacturing/production operations and/or manufacturing/production services for the design and development of new products, production systems, processes, operations, services, quality control, continuous improvement, lean principles, manufacturing competitiveness, and sustainability. As a Manufacturing Engineering Technology associate degree graduate, you're prepared for a career as a technologist to apply the fundamentals of materials selection, tooling, assembly and automation to the solution of manufacturing and production related activities. The Manufacturing Engineering Technology Associate's Degree program also prepares students to work in the manufacturing sector assisting engineering and management in the design and development of new products and in the improvement of production processes.

- Characterize lean culture and tools can help an organization achieve operational excellence
- Apply proper engineering principles in design
- Utilize computer-aided applications in design and manufacture of products and processes
- Demonstrate the principles of material selection and application
- Apply automation principles for design and control of manufacturing processes

Semester 1		Credits
804-197	College Algebra and Trigonometry with Applications	5
801-136	English Composition 1	3
449-425	Safety	1
620-173	Blueprint Reading for Machine Prints	1
620-101	Fundamentals of DC circuits 1	1

444-144	GD&T Interpretations	1
620-146	Mechanics 1	1
620-147	Mechanics 2	1
606-480	CAD Fundamentals - 2D Drawing	1
606-176	CAD Fundamentals – Solid Modeling	1
620-116	Fluid Power 1: Basic Pneumatics	1
Credits		17

Semester 2		
806-154	General Physics 1	4
422-100	Metallurgy	3
620-113	Fundamentals of AC Circuits 1	1
620-111	Programming Fundamentals 1	1
444-116	CNC Mill Fundamentals	1
444-117	CNC Lathe Fundamentals	1
620-117	Fluid Power 2: Basic Hydraulics	1
606-155	Statics & Dynamics 1	1
606-156	Statics & Dynamics 2	1
606-157	Statics & Dynamics 3	1
623-622	Lean Manufacturing	1
620-121	Programmable Automation Controllers (PACs) 1	1
Credits		17

Summer between year 1 and year 2		
623-465	Manufacturing Engineering Technology Internship	1
Credits		1

Semester 3		
801-197	Technical Reporting	3
623-169	Lean Manufacturing Systems	3
442-142	Introduction to Welding	1

102-155	Introduction to Project Management	3
620-126	Robotics 1	1
664-165 or 623-814 or 606-120	Industrial Automation or Reliability Engineering or Strength of Materials	3
664-189 or 102-134 or 606-152	Automated Systems Integration or Lean Six Sigma or Engineering Graphics - Parametric Modeling	3
Credits		17
Semester 4		
809-198	Introduction to Psychology	3
809-196	Introduction to Sociology	3
444-140	Basic CAM - MasterCAM	1
623-147	Manufacturing System Design	3
664-120 or 623-123 or 606-116	Industrial Internet of Things Fundamentals or Quality Improvement or Design of Machines	3
623-180	Manufacturing Engineering Technology Capstone	3
Credits		16
Total Credits		68

General Education Courses

Code	Title	Credits
801-136	English Composition 1	3
801-197	Technical Reporting	3
804-197	College Algebra and Trigonometry with Applications	5

Medical Administrative Coder

Associate of Applied Science Degree
10-160-5

The Medical Administrative Coder program will provide you training to prepare you for a position in the medical coding and insurance billing field. Medical Administrative Coder students receive specialized training in medical coding, medical ethics, records management, medical terminology, human anatomy, health insurance, medical billing, medical transcription, digital literacy for health care and Microsoft Office Suites software (Word, Excel, and PowerPoint).

Program Outcomes

- Demonstrate the medical and legal aspects of healthcare office practices including confidentiality of health records, release of information, patients' rights, use of health records as legal evidence, informed consent, malpractice, as well as agency, physician, and employee liability.
- Use medical terminology and knowledge of the human body systems in performing essential functions in business health care setting.
- Produce quality medical documents.
- Demonstrate the following professional traits while working in a healthcare office environment: dependability, punctuality, responsibility, acceptable appearance, sound judgment, ethical behavior, flexibility, and adaptability.
- Apply medical coding principles and guidelines for coding, billing, and reimbursement in outpatient settings at entry level proficiency.
- Use computers as a tool for solving problems, collecting data, managing and communicating information, and making decisions.
- Use reference materials to research information.
- Apply analytical skills in solving problems, collecting data, managing and communication information, presenting ideas, and making decisions.

Graduates Have Found Employment As

- Medical Secretary
- Administrative Secretary
- Medical Coders
- Medical Transcriptionist
- Medical Records Technician/Medical Records Clerk
- Medical Voucher Clerk/Underwriting Clerk
- Receptionist
- Medical Insurance Biller
- Medical Claims Processor
- Medical Clerk/Typist
- Clinic Clerk/Hospital Clerk/Admissions Clerk

Semester 1		Credits
501-107	Digital Literacy for Health Care	2
801-136	English Composition 1	3
501-101	Medical Terminology	3
102-148	Introduction to Business and Management	3
806-194	Survey of Anatomy and Physiology	3
Credits		14
Semester 2		
804-134 or 804-118	Mathematical Reasoning or Intermediate Algebra with Applications	3
160-113	Health Insurance	3
106-142	Customer Service Essentials	1
106-114	Healthcare Records Management	3
106-127	Administrative Office Communications	3

106-118	Pharmacology for Medical Administrative Specialist/Coder	2
Credits		15
Semester 3		
160-105	Medical Editing and the Electronic Medical Record	3
160-136	Patient Billing and Reimbursement	4
530-102	Medical Office Coding I	3
103-107	Intermediate Excel	2
809-196	Introduction to Sociology	3
801-198	Speech	3
Credits		18
Semester 4		
160-103	Medical Transcription	4
160-124	Supervised Occupational Experience-Medical Office	1
530-103	Medical Office Coding II	3
809-166	Introduction to Ethics: Theory and Application	3
809-198	Introduction to Psychology	3
Credits		14
Total Credits		61

General Education Courses Within Program

Code	Title	Credits
801-198	Speech	3
801-136	English Composition 1	3
804-134	Mathematical Reasoning	3
or 804-118	Intermediate Algebra with Applications	
809-198	Introduction to Psychology	3
809-196	Introduction to Sociology	3
or 809-122	Intro to American Government	

Medical Administrative Specialist

Associate of Applied Science Degree
10-106-4

The Medical Administrative Specialist Associate Degree program provides educational opportunities for those interested in working in a variety of health care office settings including medical office, clinic, hospitals, public health departments, insurance companies, and medical product manufacturers. Medical Administrative Specialist students receive specialized training in medical ethics, records management, office procedures, medical terminology, human anatomy, health insurance, medical billing, medical transcription, coding, and MS Office Suite software.

Program Outcomes

- Demonstrate the medical legal aspects of health care office practices including confidentiality of health records, release of information, patient's rights, health records as legal evidence, informed consent, malpractice, agency, physician and employee liability.
- Produce quality medical documents.
- Use medical terminology and knowledge of the human body systems in performing essential functions in business health care setting.
- Perform financial practices through analysis of payer data and reimbursement methods.
- Demonstrate professionalism in a healthcare setting.
- Perform routine healthcare administrative procedures

Semester 1		Credits
501-101	Medical Terminology	3
501-107	Digital Literacy for Health Care	2
801-136	English Composition 1	3
806-194	Survey of Anatomy and Physiology	3
102-148	Introduction to Business and Management	3
Credits		14

Semester 2		
804-134 or 804-118	Mathematical Reasoning or Intermediate Algebra with Applications	3
160-113	Health Insurance	3
106-114	Healthcare Records Management	3
106-118	Pharmacology for Medical Administrative Specialist/Coder	2
106-127	Administrative Office Communications	3
106-142	Customer Service Essentials	1
Credits		15

Semester 3		
160-105	Medical Editing and the Electronic Medical Record	3
160-136	Patient Billing and Reimbursement	4
530-102	Medical Office Coding I	3
801-198	Speech	3
103-138	Word Documents	2
103-107	Intermediate Excel	2
Credits		17

Semester 4		
160-124	Supervised Occupational Experience-Medical Office	1
809-166	Introduction to Ethics: Theory and Application	3
809-196	Introduction to Sociology	3

Medical Laboratory Technician

Associate of Applied Science Degree
10-513-1

The Medical Laboratory Technician Associate of Applied Science degree will prepare students to learn fundamental laboratory techniques for work in laboratories serving the health care sector (hospitals, clinics and doctors' offices). Career potential also exists in epidemiology, forensic medicine and biomedical manufacturing. The program provides experience where students learn to perform analytical procedures under the supervision of a medical technologist or physician. The final semester of the program is a clinical experience in laboratories in community healthcare facilities. Graduates of the program qualify for the American Society of Clinical Pathologists Board of Registry certification exam for medical laboratory technicians under the direction of the American Society of Clinical Pathologists. Students must petition to enter the clinical MLT classes, and should anticipate the possibility of traveling to complete the clinical experience.

The Blackhawk Technical College Medical Laboratory Technician Associate Degree Program is accredited through the National Accrediting Agency for Clinical Laboratory Science (NAACLS), 5600 N. River Rd, Suite 720, Rosemont, IL 60018. Phone: 773-714-8880, email: info@naaccls.org.

Suggested courses for program preparation:

- One year of high school chemistry, biology and algebra or college equivalent (see specific requirements listed below).
- Medical terminology or 2 years of occupational experience in the medical field

Program Requirements:

To be admitted to the Medical Lab Technology (MLT) program, the student is required to have mandatory attendance at a Blackhawk Technical College MLT program orientation. This orientation occurs in the Summer Quality Assurance Laboratory Math Course, or is scheduled individually if necessary. High School Chemistry or College Chemistry

Prep and High School Algebra or General College Math Review. are required for entrance into the BTC MLT Program

- Once admitted to the program, the following requirements must be met in order to participate in the clinical experience.
- Caregiver background check
- Physical exam and completed personal history form on file prior to the beginning the fourth semester clinical rotation.
- Successful completion of all program courses with a C or better.

This program is offered at the Monroe Campus.

Program Outcomes

- Apply modern clinical methodologies including problem solving and troubleshooting according to predetermined criteria.
- Collect and process biological and other specimens.
- Perform and report results of clinical laboratory tests.
- Apply laboratory results to diagnosis of clinical conditions and/or diseases.
- Communicate with colleagues and patients in a professional manner.
- Participate in training peers on technical skills.
- Monitor and evaluate quality control in the laboratory.
- Practice laboratory safety and regulatory compliance.
- Perform information processing in the clinical laboratory.
- Model professional behaviors, ethics, and appearance.

Program Completion Three Year Statistics:

Program's Graduate Certification Pass Rates: 81%
Program's Graduation and Attrition Rates: 100%
Program's Graduate Placement Rates: 92%

Nuclear Technology

Associate of Applied Science Degree
10-624-1

Increasing the use of radiation and radioactive materials in today's world has created a demand for nuclear technicians especially in Janesville and Beloit, Wisconsin where the Department of Energy Nuclear Security Administration has approved Shine Medical Technologies and NorthStar Medical Radioisotopes, Inc. to build production plants in the next 2-3 years.

The Nuclear Technology Associate's Degree program offers students a unique opportunity to obtain specialized training to work with radioactive materials. In addition to being a high demand field, it also pays extremely well. In fact, according to the Department of Labor website, the median starting salary for this field in 2015 was \$38.59 per hour! It's also an excellent springboard for a four-year degree in health physics and radiation safety.

SHARED PROGRAM

Designed as a shared program with Lakeshore Technical College (LTC) (<https://gotoltc.edu/academics/degree-programs/nuclear-technology/>), classes may be offered in traditional classroom settings, online or using Interactive Television (ITV) to link instruction from both Blackhawk and LTC. In some cases, students may be asked to attend classes outside of their current district. Check with a program adviser for more details or v (<https://gotoltc.edu/Assets/gotoltc.edu/pdf/academics/2018-2019-program-sheets/2018-2019-Nuclear-Technology.pdf>) visit the program site on the LTC website (<https://gotoltc.edu/academics/programs-of-study/nuclear-technology-program/>).

SPECIAL NOTES

- Students can earn a Nuclear Uniform Curriculum Program (NUCP) certification by maintaining a "B" or above in all coursework (NUCP certification is contingent upon LTC's NUCP partnership with a nuclear facility)...online students are not eligible.

- Gaining employment in the nuclear, radiation safety, and health physics likely includes a very comprehensive criminal background check, credit history, civil actions and a psychological profile.
- Online Option: Available to working adults in Nuclear/Radiation Safety/Health Physics industry. Online classes are constructed without hands-on lab components, therefore, online students should work with their industry supervisor to identify suitable activities at the worksite.

Program Outcomes

- Work safely within industrial and radiological hazard areas.
- Diagnose equipment requiring electrical or mechanical repair and carry out preventive maintenance procedures.
- Understand and communicate nuclear technology-related concepts effectively in both oral and written formats.
- Perform radiological surveys for radiation and radioactive contamination.
- Follow procedures for operating and maintaining systems and equipment at nuclear facilities.
- Participate in applying nuclear technologies to a variety of industrial, medical, and research processes.
- Apply knowledge in a variety of related occupational jobs such as reactor plant operations, maintenance, quality assurance, etc.

Potential Employment Opportunities

- Nuclear Monitoring Technician
- Occupational Health and Safety Technician
- Chemical Technician
- Nuclear Engineer
- Power Plant Operator, Dispatcher or Distributor

Nursing

Associate of Applied Science Degree 10-543-1

The Associate Degree Nursing program prepares nurses to function with the knowledge, skill and judgment of beginning staff nurses in a variety of health care settings. The Associate Degree Program is accredited by the:

Accreditation Commission for Education in Nursing, Inc. (ACEN). For more information about this accreditation contact:

ACEN
3343 Peachtree Road NE, Suite 850
Atlanta, Georgia 30326
Phone (404) 975-5000
Fax (404) 975-5020
<http://www.acenursing.org>

Graduates are eligible to apply to the Wisconsin Board of Nursing to take the examination for licensure as a Registered Nurse. State Administrative Code rules state that a graduate may have difficulty obtaining a license with an arrest or conviction record that is substantially related to nursing practice. The Coordinator of the program is available to discuss concerns in this area.

Students may apply for testing for licensure as L.P.N. (Licensed Practical Nurse) after successfully completing all courses through the second semester. L.P.N.'s entering into the ADN program may receive credit for past clinical education based on their current knowledge, skills and judgment. In order to help L.P.N.'s be program ready, they will need to take the Nursing Bridge course before entering third semester. Re-entry, transfer, and LPN students must contact the counseling office for information about entry to the nursing program. Acceptance to the program will be based upon space availability and approval of the nursing faculty.

Program Outcomes

- Implement one's role as a nurse in ways that reflect integrity, responsibility, ethical practices, and an evolving professional identity

as a nurse committed to evidence-based practice, caring, advocacy and quality care.

- Demonstrate appropriate written, verbal, and nonverbal communication in a variety of clinical contexts.
- Integrate social, mathematical, and physical sciences, pharmacology, and pathophysiology in clinical decision making.
- Provide patient centered care by utilizing the nursing process across diverse populations and health care settings.
- Minimize risk of harm to patients, members of the health care team and self through safe individual performance and participation in system effectiveness.
- Lead the multidisciplinary health care team to provide effective patient care throughout the lifespan.
- Use information and technology to communicate, manage data, mitigate error, and support decision-making.

Graduates may work as a Registered Nurse or Licensed Practical Nurse in a variety of settings including acute care, long term care, or some community settings.

Nutrition and Dietetic Technician

10-313-1

Associate of Applied Science Degree

Program Overview

The Nutrition and Dietetic Technician program is a shared program with Milwaukee Area Technical College (MATC). Classes may be offered in a hybrid or online setting to link instruction from both Blackhawk and MATC. In some cases, students may be asked to attend classes outside of their current district.

This program prepares students for work in healthcare and foodservice management teams. Nutrition and dietetic technicians can work under the supervision of a registered dietitian nutritionist when providing direct client care, or they may work independently when providing general nutrition education to healthy populations.

Visit the MATC program page for more information (<https://www.matc.edu/course-catalog/healthcare/nutrition-dietetic-technician.html>).

Program Outcomes

- Integrate scientific information and translate research into practice
- Practice beliefs, values, attitudes, and behaviors for the professional nutrition and dietetics technician level of practice
- Develop information, products, and services for individuals, groups, and populations
- Deliver information, products, and services to individuals, groups, and populations
- Apply principles of management and systems in the provision of services to individuals and organizations

Academic Plan

Visit the MATC program page to view the academic plan (<https://www.matc.edu/course-catalog/healthcare/nutrition-dietetic-technician.html>).

Physical Therapist Assistant

Associate of Applied Science Degree
10-524-1

The physical therapist assistant (PTA) is a technically educated health provider who assists the physical therapist (PT) in the provision of physical therapy and may perform physical therapy interventions selected by the supervising PT. The PTA works under the direction and supervision of the PT, helping manage conditions such as back and neck injuries related to work and sports, and others. PTA's work in a broad range of settings. Employment opportunities for PTA's are located in hospitals, outpatient clinics, rehabilitation facilities, skilled nursing, sub acute, and long-term care facilities, home health agencies, schools, hospice, industrial health clinics, community health centers, fitness centers and sports training facilities, and colleges and universities.

Program Outcomes

- Demonstrate clear and collaborative communication with patients, families, and the health care team
- Exhibit behaviors and conduct that reflect respect and sensitivity according to physical therapy practice standards
- Function under the supervision of a physical therapist in a safe, legal ethical manner to ensure the safety of patients, self, and others throughout the clinical interaction
- Produce documentation to support the delivery of physical therapy services
- Demonstrate critical thinking skills to implement and modify treatment within a plan of care under the direction and supervision of a physical therapist.
- Perform data collection essential for carrying out the plan of care under the direction and supervision of a physical therapist
- Perform technically competent evidence-based interventions under the direction and supervision of a physical therapist
- Educate patients, families and other health care providers

- Integrate components of operational and fiscal practices of physical therapy service in a variety of settings
- Implement a self-directed plan for career development, credentials and lifelong learning

Radiography

Associate of Applied Science Degree
10-526-1

Radiography prepares individuals for a career in diagnostic radiology (X-Ray) as a radiographer. The radiographer is a technologist who produces images of the human body to aid physicians in the diagnosis of injuries and diseases. Graduates of the program are eligible to take the entry-level certification examination administered by the American Registry of Radiography Technologists (ARRT) and may obtain employment in the x-ray departments associated with hospitals, medical clinics, veterinary clinics, and private offices. Program curriculum focuses on theoretical and applied radiography and includes a clinical experience in a radiographic department. The program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). Students learn to use x-ray imaging machines to demonstrate body parts on x-ray films for diagnostic purposes, including diagnostic radiology, bedside and trauma procedures, pediatric radiography, and special procedures.

Program Outcomes

- Carry out the production and evaluation of radiographic images
- Practice radiation safety principles
- Provide quality patient care
- Model professional and ethical behavior consistent with the A.R.R.T. Code of Ethics
- Apply critical thinking and problem solving skills in the practice of diagnostic radiography

The methodology used to evaluate and assess the radiography outcomes is provided in detail to students during the new student orientation and is available to applicants of the program upon request.

View the entire course listing (p. 159).

All students enrolled in the Blackhawk Technical College Associate Degree Radiography Program must progress through the radiography

program curriculum (e.g. all courses starting with the prefix 526) in the sequence prescribed by the program, without exception.

The Blackhawk Technical College Associate Degree Radiography program is accredited by the Joint Review Committee on Education Radiologic Technology (<http://www.jrcert.org/>) (JRCERT), 20 Wacker Dr., Suite 20, Chicago, IL 60606-3182, (312) 704-5300. <http://www.jrcert.org> (<http://www.jrcert.org/>)

Graduates of the BTC radiography are eligible to sit for the certification examination in radiography prepared by the American Registry of Radiologic Technologies (<https://www.arrt.org/>) (ARRT). <https://www.arrt.org> (<https://www.arrt.org/>)

Program Mission

The mission of the Blackhawk Technical College Associate Degree Radiography program is to prepare the Student to Practice Entry-Level Diagnostic Medical Radiography.

Program Goals

- Students Will Perform Competent Radiography
- Students Will Communicate Effectively
- Students Will Use Critical Thinking and Problem Solving Skills
- Students Will Demonstrate Professionalism

Sales Management

Associate of Applied Science Degree
10-104-2

The Sales Management Associate of Applied Science degree enable learners to apply the basics of excellent customer service and progress through advanced selling techniques and sales force management. Our Sales Management program prepares you for a leadership position by giving you a comprehensive background in business practices and principles, finance, marketing, supervision, and project management. Whether you have just decided on a career in sales, or are already in the sales force and would like to move into a management position, you will develop valuable skills that can lead to greater opportunities.

Program Outcomes

- Incorporate customer service principles into client or customer interaction.
- Prepare selling strategies
- Demonstrate leadership capabilities to achieve organizational goals
- Integrate appropriate sales tools into the selling process
- Analyze business information to support planning and decision making

Graduates Have Found Employment As

Sales Associate

Customer Service Representative

Inside/Outside Sales Representative

Substance Use Disorder Counseling

Associate of Applied Science Degree
10-550-1

The Substance Use Disorder Counseling (SUDC) Associate Degree program is designed to prepare students to work with individuals with substance use disorders. Students will explore areas of assessment, case management, counseling, education and professional responsibility. Students will also develop and apply the skills necessary to work in a variety of agency settings offering substance abuse treatment and recovery services.

In addition, the SUDC program satisfies the 100-hour educational component for licensing as a Substance Abuse Counselor in Training and the 360-hour educational component for licensing as a Substance Abuse Counselor and Clinical Substance Abuse Counselor as required by the State of Wisconsin Department of Safety and Professional Services (DSPS). A student may apply for their in training license through the State of Wisconsin DSPS as soon as the 100 hours of education are completed in this program at Blackhawk Technical College and start working in the field to gain hours of experience needed for licensure as a Substance Abuse Counselor or a Clinical Substance Abuse Counselor."

All students admitted to the SUDC program must complete a full background check through Castlebranch before registering for courses in the program.

Program Outcomes

- Clinically evaluate for substance use disorders and treatment needs
- Develop treatment plans
- Facilitate referral to meet needs
- Demonstrate service coordination skills
- Demonstrate counseling skills with individuals, groups and families
- Provide education relevant to substance use

Maintain clinical records according to agency, federal and state guidelines

Adhere to accepted culturally competent, ethical and behavioral conduct

Graduates Have Found Employment As

Substance Use Disorder Counselor

Substance Use Disorder Counselor Aide

Residential Substance Use Disorder Counselor

Treatment Counselor

Resident Manager

Supply Chain Management

Associate of Applied Science Degree
10-182-1

This Associate of Applied Science degree is a four-semester program composed of 64 college credit hours designed for students who plan to seek employment in the area of supply chain management upon graduation. The program prepares students to enter jobs, be productive with a minimum of on-the-job training, and advance to a position of increased responsibility with emphasis on negotiation, project management and process improvement skills.

Supply chain management includes a broad range of occupational titles. Those listed below are commonly found in industry, but specific titles will vary according to each individual employer. With additional education and/or work experience, Supply Chain Management program graduates may have additional opportunities in managerial roles such as plant manager, operations manager, production manager, warehouse manager, purchasing manager, inventory manager, distribution manager, transportation manager, logistics manager, and supply chain manager, among others.

Upon successful completion of this program, students will be able to:

- Define supply chain concepts and understand the flow of materials, information and money.
- Demonstrate their ability to plan for, purchase and manage inventories and identify its impact on organizations.
- Develop negotiation abilities and their capacity to understand and predict behaviors in competitive situations.
- Evaluate supply chain costs and the profitability that stems from effective management practices.
- Apply continuous improvement strategies to all aspects of supply chain management.
- Examine the importance of customer service in effectively coordinating supply chain activities.

- Exhibit effective collaboration, decision making, problem-solving, and conflict resolution skills.

Semester 1		Credits
102-148	Introduction to Business and Management	3
182-103	Introduction to Supply Chain Management	3
103-138	Word Documents	2

Surgical Technology

Associate of Applied Science Degree
10-512-1

The Surgical Technology Associate of Applied Science degree enables learners to develop skills to support a team of medical professionals who provide surgical care to patients in a variety of settings. The surgical technologist works to facilitate the safe and effective conduct of invasive surgical procedures. This individual works under the supervision of a surgeon to ensure that the operating room or environment is safe, that equipment functions properly, and that the operative procedure is conducted under conditions that maximize patient safety.

The Surgical Technology program prepares learners with expertise in the theory and application of sterile and aseptic technique and combines the knowledge of human anatomy, surgical procedures, and implementation tools and technologies to facilitate a physician's performance of invasive therapeutic and diagnostic procedures.

Program Outcomes

1. Apply healthcare and technological science principles to the perioperative environment.
2. Maintain principles of sterile technique in the surgical environment.
3. Provide a safe, efficient and supportive environment for the patient.
4. Prepare the patient, operating room and surgical team for the preoperative phase.
5. Perform intraoperative case management in the scrub role.
6. Perform postoperative case management.
7. Function as an ethical, legal and professional member of the healthcare team as determined by governing bodies.

Graduates Have Found Employment As

- Surgical Technologist
- Central Supply Technician
- Claims Approver
- Private Scrub Technologist

- Scrub Surgical Technologist
- Second Assisting Technologist
- Laser/Endoscopic Technician
- Tissue/Organ Procurement

Technical Studies Journeyworker

Associate of Applied Science Degree
10-499-5

The WTCS Technical Studies – Journeyworker AAS (10-499-5) is designed to help you achieve your career goals through academic recognition of both the related instruction and on-the-job learning that you completed through registered apprenticeship. As a member of the USDOL-OA-sponsored Registered Apprenticeship – College Credit (RACC) Consortium, the WTCS recognizes credit recommendations among RACC partners.

How does it work?

All WTCS colleges recognize successful completion of an apprenticeship program with at least 400-hours of paid related instruction provided through a WTCS college and possession of a Certificate of Apprenticeship (completion) issued by the Wisconsin Department of Workforce Development – Bureau of Apprenticeship Standards as fulfilling the 39-credit minimum Technical Studies requirement of the 60-credit Technical Studies – Journeyworker degree. In addition, students must complete 21 general education credits to meet the 60-credit degree requirement. Advanced standing for apprentice-related instruction taken at other accredited institutions is currently determined on an individual basis using established Credit for Prior Learning procedures. RACC recommendations are accepted. Review the Degree Completion Requirements below for more information.

Please Note: Tuition and fees vary by program. Please contact your program advisor for more information.

Web Software Developer

Associate of Applied Science Degree 10-152-4

The IT-Web Software Developer Associate of Applied Science Degree meets the specific skills and knowledge requirements of technical and professional jobs within the information technology field for Web Development specialists including programmer, front end developer, or web design/support. It is designed to meet entry-level education needs of most segments of the web development field which involve front end programming. Training blends general educational development and required web development skills. Graduates are prepared for entry-level Web developer jobs in government, insurance, manufacturing, service, software development, wholesale and retail sales, utilities, banking and accounting.

Program Outcomes

- Design software systems
- Integrate database technologies
- Develop software applications
- Develop technical documentation
- Demonstrate work ethics and reliable behavior including, but not limited to, assuming responsibility for decisions and actions, utilizing time and stress managements skills, and displaying initiative
- Work as a team member by demonstrating good communication and listening skills, cooperation, and providing a supportive environment
- Demonstrate an understanding of the IT field and its job roles

Technical Diplomas

Technical programs are based on local needs of business and industry and are designed to assist those preparing for entry into, or advancing in, an occupation.

Technical Diploma programs may be less than one year, one year or two years in length. Occupational skills coursework comprises a minimum of 80 percent of the total class time spent in these programs. Supportive related course work may constitute the remaining curricular requirements. Related instruction for apprenticeship is included as a Technical Diploma program.

Administrative Support Professional

One-Year Technical Diploma 31-106-3

The Administrative Support Professional program is designed to provide challenging hands-on experience for the ever-evolving environment of the office. This one-year program develops knowledge of office procedures and professionalism along with the basics of creating, formatting and editing business documents. Students will also learn how to plan and schedule meetings and appointments; organize and maintain paper and electronic files; manage projects; conduct research; and disseminate information by using the telephone, mail services, and Microsoft Office applications. The coordination of travel and guest arrangements will also be studied.

Program Outcomes

- Demonstrate effective workplace communications
- Apply technology skills to business and administrative tasks
- Perform routine administrative procedures
- Manage administrative projects
- Maintain internal and external relationships
- Model professionalism in the workplace

Graduates Have Found Employment As

- Administrative Professional
- Administrative Coordinator
- Administrative Specialist
- Customer Service Assistant
- Project Coordinator
- Support Professional

Advanced Emergency Medical Technician

Short-Term Technical Diploma 30-531-6

The EMT typically represents one of the first components of the emergency medical system. This course prepares individuals to care for patients at accident scenes and transport by ambulance to the hospital under medical direction. The course emphasizes emergency skills such as managing respiratory and cardiac emergencies, medical emergencies, trauma emergencies and patient assessment, and teaches these skills in a job-related context.

Semester 1		Credits
531-111	Advanced EMT/Int-Tech	4
	Credits	4
	Total Credits	4

Agribusiness Specialist

One-Year Technical Diploma 31-006-1

The Agribusiness Specialist program is a one-year technical diploma program providing students with the necessary skills and internship experience for future agriculture employment in a variety of settings. Topics within this program include: production, agricultural service and supply, agricultural marketing and sales, agricultural research, direct marketing as it pertains to agribusiness and agri-tourism. Students in the program will increase their skills in agribusiness management and marketing, agronomy, livestock management and nutrition, safe and sustainable agriculture practices, and renewable energy applications. This technical diploma program will utilize associate degree level courses and content which may articulate to two-year and four-year agriculture degrees.

Program Outcomes

Upon completion of this program, you will be able to:

- Apply relevant Technologies
- Investigate Opportunities in Agriculture
- Interact as a professional in Agriculture

Graduates Have Found Employment As

- Farm, Ranch and other Agricultural assistant manager
- Chemical/Fertilizer Applicator
- Crop Scouting Associate
- Agricultural product Sales
- Agricultural Research Technician
- Nutrient Management Specialist
- Seed, Feed, Chemical, Fertilizer Associate

Automotive Technician

Two-Year Technical Diploma
32-404-2

Automotive Service Technicians diagnose and repair performance problems in cars. They also perform factory recommended maintenance procedures on new cars and trucks. The Blackhawk Technical College Automotive Technician Program is an Automotive Service Excellence (ASE) Certified two-year program aimed at preparing the student for passing ASE exams as the requisite professional experience is obtained. The program is designed to increase knowledge and skills in the areas of diagnostic testing, use of hand and machine tools, automotive parts, service references, computerized equipment and other technical equipment on ever more complex automobiles. Students are taught through practical shop and classroom experiences.

Program Outcomes

- Demonstrate professionalism appropriate for the auto service industry.
- Perform diagnosis, service, and repair of automotive internal combustion engines.
- Perform diagnosis, service, and repair of automotive automatic transmission/transaxle systems.
- Perform diagnosis, service, and repair of automotive manual drive train and axles systems.
- Perform diagnosis, service, and repair of automotive steering and suspension systems.
- Perform diagnosis, service, and repair of automotive brake systems.
- Perform diagnosis, service, and repair of automotive electrical/electronic systems.
- Perform diagnosis, service, and repair of automotive heating and air conditioning systems.
- Perform diagnosis, service, and repair of automotive engine performance systems.

Graduates Have Found Employment As

- Automotive Line Technician
- Automotive Specialty Technician
- Diagnostic Technician
- Service Manager
- Parts Manager
- Automotive Equipment and Part Sales
- Automotive Business Owner/Manager

Central Service Technician

Short-Term Technical Diploma

30-534-1

Central Service Technicians (CST) are the key persons responsible for maintaining the quality of medical products that are processed, packaged and sterilized by a hospital. This program will prepare individuals to clean, sterilize and assemble surgical instruments, equipment and supplies for use in operating rooms and other medical and surgical facilities. The content includes instruction in sterilization, infection control, decontamination, and surgical instrumentation processing, distribution and record keeping.

The CST program shares two courses with Surgical Technology program: Medical Terminology and Microbiology, and will share many of the same clinical sites. This overlap will give students exposure to the Surgical Technician job role.

1. Apply principles of infection control in the role of the Central Service Technician.
2. Decontaminate instruments and equipment.
3. Prepare instruments, equipment and supplies.
4. Apply sterilization techniques.
5. Perform inventory control and distribute
6. Function as an ethical, legal and professional member of the healthcare team.

Central service technicians, also called sterile processing technicians or central service (CS) professionals, have a key role in preventing infection by sterilizing, cleaning, processing, assembling, storing, and distributing medical supplies. The central service technician works in the central service department of a hospital or surgery center which is the hub of all activity surrounding supplies and equipment needed for surgery and patient care.

Central service technicians learn the principles of sterilization and sterile processing which is the cleaning medical supplies and preparing them to be used again.

Code	Title	Credits
501-101	Medical Terminology	3
534-302	Central Service Fundamentals	3
534-303	Central Service Clinical Practices	2

Computer Numeric Control (CNC) Technician

Two-Year Technical Diploma
32-444-1

This two-year technical diploma program is designed to provide students with a broad technical background in both job-shop and production machining. The CNC Technician program was developed using the National Institute for Metalworking Standards (NIMS) and National Tooling & Machining Association standards. The courses are delivered in such a way to allow the students to experience a "hands-on" approach to learning. Furthermore, each student will spend his or her time learning in a practical setting.

Using the CNC/CAM software and equipment, including a four axis machining center, you will learn to select the proper tools and fixtures required to machine parts. A graduate of the program should be proficient in metal machining operations and planning procedures, demonstrating practical machining techniques in accordance with engineering drawing specifications.

Topics of study include Computer Numerical Control (CNC) programming; Computer Assisted Manufacturing (CAM) software; precision measuring devices including a CMM; precision CNC mills, CNC training and machining centers; blueprint reading; and applied shop mathematics. To complete the program, an internship is required.

Program Outcomes

- Apply basic safety practices in the machine shop
- Interpret industrial/engineering drawings
- Apply precision measuring methods to part inspection
- Perform basic machine tool equipment set-up and operation
- Perform programming, set-up and operation of CNC Machine Tools

Perform advanced CNC machining operations

Graduates Have Found Employment As

- CNC Technician
- CNC Programmer
- CNC Machinist
- CNC Operator
- Machine Tool Operator
- Apprentice Machinist
- Machine Set-up Person
- Tool Room Machinist
- Maintenance Machinist

Computer Service Technician

One-Year Technical Diploma
31-450-1

The need for fully-trained, professional Computer Service and Network Technicians who are able to configure, troubleshoot, and support today's complex PC-based computing systems confidently and expertly is quickly evolving. This need is being driven by the rapid evolution in the power and complexity of PC hardware and software applications, as well as by the accelerating movement from stand-alone PC's to highly integrated networks.

This practical program provides extensive hands-on training with PC hardware, operating systems, and networks needed to keep PC-based system operational and functioning at peak efficiency. Graduates of this program have the knowledge, attitudes, skills, and habits needed to guide and implement the systematic enhancement of PC-based system as the technology continues to evolve.

Program Outcomes

- Apply effective customer satisfaction and field service techniques.
- Evaluate and repair PC hardware components.
- Evaluate and administer PC software applications.
- Evaluate and apply PC system and peripheral communication.
- Repair PC peripheral hardware and related systems.
- Compare LAN and WAN physical and logical fundamentals.
- Evaluate, administer, and repair network hardware.
- Apply PC system evaluation, installation, configuration, diagnosis and repair skills in the workplace.

Graduates Have Found Employment As

- Computer Service Technician
- Computer Support Specialist
- Service Support Specialist
- Service Engineer

- Help Desk Specialist
- Field Service Engineer
- Field Service Technician
- Communications Technician
- LAN Support Specialist
- Network Technician
- Network Installer

804-134 or 804-118	Mathematical Reasoning Intermediate Algebra with Applications	3

Culinary Production Specialist

One-Year Technical Diploma 31-316-2

The Culinary Production Specialist One-Year Technical Diploma gives students the hands-on skills as well as technical and professional knowledge they need to start a career in the culinary industry within restaurants, catering services, hotels, healthcare facilities and schools.

Students are prepared for careers such as Line Cooks, Prep Cooks, Broiler Chefs through in class and practical, on-the-job experiences within the local food industry.

Semester 2

316-112	Culinary Externship Adv II	5
316-114	Quantity Production of Entrees, Sauces and Vegetables	4
316-136	Catering, Special Events and Contract Food Service	2
316-164	Global Cuisine	2
Credits		13
Total Credits		26

Program Outcomes

- Enforce health and safety standards
- Demonstrate food prep skills
- Adapt procedures to meet changing needs
- Manage food storage, inventory and cost control

Graduates have found employment as

- Prep Cooks/Cooks
- Line Cooks
- Broiler Chefs or Garde Managers
- Sous Chefs
- Executive Chefs or Owner/Operators

Semester 1		Credits
316-104	Food Quantities and Measures	1
316-109	Quantity Production of Soups, Salads ,and Dressings	4
316-111	Culinary Externship Adv I	4
316-131	Advanced Cuisine	2
316-147	Food Service Sanitation	2
Credits		13

Dental Assistant

One-Year Technical Diploma 31-508-1

The Dental Assistant Program prepares graduates to work with dentists as they examine and treat patients. Dental Assistants with documented skills will carry out a variety of laboratory, clinical, and office duties. Some dental assistants manage the office and are responsible for patient scheduling and bookkeeping functions. Graduates receive a technical diploma and are eligible to write the certification examination of the Dental Assisting National Board. Most dental assistants work in general or specialized dental offices, either for individual dentists or for groups of dentists. Some dental assistants may choose to work for insurance companies, dental laboratories, or dental supply companies.

Prior to enrolling in the Dental Assistant program (508) courses, students must complete an online criminal background check. There is an additional fee associated with the background check process.

Program Outcomes

- Perform a variety of advanced supportive dental procedures.
- Manage infection and hazard control.
- Produce diagnostic intraoral and extraoral radiographs on a variety of patients.
- Perform advanced dental laboratory procedures.
- Demonstrate professional behaviors, ethics, and appearance.
- Perform dental office business procedures.

Graduates Have Found Employment As

- Dental Assistant
- Dental Receptionist
- Dental Office Manager
- Dental Practice Manager
- Dental Lab Technician
- Dental Insurance Claims Processor

- Dental Sales Representative
- Dental Treatment Coordinator
- Dental Specialty Assistant

[View the entire course listing \(p. 159\).](#)

Semester 1		Credits
508-101	Dental Health Safety	1
508-103	Dental Radiography	2
508-113	Dental Materials	2
508-302	Dental Chairside	5
508-304	Dental & General Anatomy	2
508-306	Dental Assistant Clinical	3
508-307	Dental Assistant Professionalism	1
Credits		16
Semester 2		
508-120	Dental Office Management	2
508-308	Dental Chairside Advanced	5
508-309	Dental Laboratory Procedures	4
508-310	Dental Radiography - Advanced	1

Diesel & Heavy Equipment Technician

Two-Year Technical Diploma 32-412-1

Diesel and heavy equipment technicians repair and maintain transportation equipment, such as heavy trucks, buses, locomotives, ships, and automobiles; construction equipment such as bulldozers, cranes, and road graders; and farm equipment such as tractors and combines. Many technicians perform a broad range of repairs from engines to electrical systems. Others specialize in repairs such as fuel and starting systems. Diesel and Heavy equipment technicians use a variety of computerized testing equipment to pinpoint and analyze malfunctions as well as numerous power and hand tools to perform repairs.

The Diesel and Heavy Equipment Technician Program is a two-year program providing job entry skills in service and repair of transportation, construction, industrial, and farm equipment. In addition to providing a foundation in the latest diesel technologies, the program improves skills needed to interpret technical manuals and communicate with coworkers and customers. Students in the program develop a broad base of skills, allowing them to enter the large and ever-expanding field of diesel and heavy equipment service and repair.

Program Outcomes

- Diagnose major systems in diesel and heavy equipment industry
- Repair major systems in diesel and heavy equipment industry
- Service major systems in diesel and heavy equipment industry
- Practice personal and professional work habits
- Document complaint, cause and correction

Graduates Have Found Employment As

- Diesel Mechanic
- Diesel Mechanic Apprentice
- Engine Maintenance Mechanic

- Farm Equipment Mechanic
- Service Engine Repairer
- Tune-up Mechanic
- Industrial and Construction Equipment Mechanic
- Truck Mechanic

Electric Power Distribution

One-Year Technical Diploma
31-413-2

Vast Networks of wires and cables transmit the electric power produced in generating plants to individual customers, connect telephone central offices to customer's telephones and switchboards, and extend cable TV to residential and commercial customers. These networks are constructed and maintained by line installers and cable splicers. To install new electric power or telephone lines, line installers or line erectors install poles and terminals, erect towers, and place wires and cables. Power equipment is typically used to dig holes and set poles. Line installers climb the poles or use truck-mounted buckets (aerial work platforms) and use hand tools to attach the cables. When working with electric power lines, installers bolt or clamp insulators onto the poles before attaching the cable. They may also install transformers, circuit breakers, switches, or other equipment. To bury underground cable, they use trenchers, plows, and other power equipment.

The Electric Power Distribution program prepares a student to advance to an electric line technician apprenticeship and related occupations. Students learn how to properly climb poles and install line hardware and equipment. Safety policies and procedures will be taught and strictly adhered to. Students will learn motor vehicle operation and maintenance, attain a working knowledge of ropes and rigging, proper application of rubber protective equipment and use of hot sticks. Students will also study and apply mapping and laying out lines for construction. Students will set poles at proper depth, install guys and anchors of the required strength to hold various lines.

AC and DC current will be taught along with Introduction to Fundamentals of Electricity.

Program Outcomes

- Perform installation, maintenance and repair operations in compliance with published safety standards.
- Acquire appropriate resources to perform necessary procedures and/or troubleshoot sequence.

- Operate tools and test equipment according to the process published in equipment manuals and/or demonstrated in class.
- Install poles and related equipment using proper specifications and accepted procedures.
- Install underground lines and related equipment using industry accepted methods and practices.
- Recognize faulty or damaged equipment and repair or replace.
- Document investment and retirement work orders, record equipment nameplate information and fill out daily time sheets.

Graduates Have Found Employment As

- Electric Utility Lineman
- Cable Maintenance Technicians
- Equipment Operator
- Telephone Repairman
- Cable TV Installer
- Apprentice Line Technician
- Troubleshooter
- Line Inspectors
- Substation Operator
- Cable Splicer

Emergency Medical Technician

Short-Term Technical Diploma 30-531-3

The EMT typically represents one of the first components of the emergency medical system. This course prepares individuals to care for patients at accident scenes and transport by ambulance to the hospital under medical direction. The course emphasizes emergency skills such as managing respiratory and cardiac emergencies, medical emergencies, trauma emergencies and patient assessment, and teaches these skills in a job-related context. The national Registry of EMT's test is required at the completion of the course for licensure in the State of Wisconsin. The course is also a prerequisite for EMT-Advanced and EMT-paramedic training. EMT-Basic is 5 credits at 10 hours per week totaling 180 hours plus 10+ hours in a hospital emergency room setting and ambulance ride-along training.

A caregiver background check **WILL** be required for clinical portion of the program. Students must meet the immunization requirements set by the CDC.

Semester 1		Credits
531-110	Emerg Med Tech/EMT-B	5
Credits		5
Total Credits		5

Farm Business & Production Management

Short-Term Technical Diploma 30-090-1

Farming is a technology driven business, with continually evolving management practices and an ongoing need for unbiased and focused educational resources. Farm Business and Production Management is designed to deliver on these needs. Enrollment is open to any individual actively engaged in or about to enter farming including: farm owners, operators, managers, and farm/agribusiness employees. Enrollees should plan to attend regularly scheduled group instruction, as well as allow time for individual on-site instruction.

This Program is offered at the Monroe Campus.

Program Outcomes

- Complete financial and production records necessary for business operation.
- Develop and implement a soil management plan.
- Apply appropriate cropping practices.
- Develop and apply an appropriate livestock nutrient plan.
- Implement an effective livestock management plan.
- Operate tools and equipment needed in farm business operation.
- Develop a farm business management plan.

Graduates Have Found Employment As

- Farm Owner
- Farm Manager
- Farm Cropping Specialist
- Farm Nutrient Manager
- Herdsman
- Milking Technician
- Farm Reproductive Specialist

- Farm Record Keeper
- Farm Business Manager

View the entire course listing (p. 159).

Semester 1		Credits
090-382	Soils Management for Farm Operators	3
090-383	Crop Management for Farm Operators	3
090-384	Livestock Nutrition for Farm Operators	3
Credits		9
Semester 2		
090-303	Agricultural Commodity Marketing for Farm Operators	1
090-305	Nutrient Management Planning for Farm Operators	3
090-385	Livestock Management for Farm Operators	3
090-386	Records & Business Management for Farm Operators	3
Credits		10
Total Credits		19

Heating, Ventilation, Air Conditioning and Refrigeration Technology

Two-Year Technical Diploma 32-601-1

HVAC/R is one of the fastest growing industries in the world today. With the changing laws involving refrigerants and the influx of digital control systems, there is a constant need for qualified service technicians to work on HVAC/R equipment. A service technician will have to continually update his/her skills to keep up with the changing industry.

This program will provide proper training for people interested in a career in the heating, ventilation, air conditioning and refrigeration (HVAC/R) field. The technician will be prepared for employment in a variety of areas including servicing, installing, designing, estimating and selling HVAC systems for commercial and residential applications. The most modern equipment, test instruments, and computers are used for instruction.

After completing the HVAC/R two year technical diploma program, students may wish to pursue additional training in heating, ventilation, and air conditioning engineering. Credit for many of the associate degree courses in the program may be transferred to a four-year institution.

Program Outcomes

- Perform HVAC/R service and repair operations in compliance with published safety standards.
- Promote customer satisfaction.
- Operate tools/equipment according to process published in operator's manual and/or demonstrated in class.
- Service and/or repair/replace defective components established in equipment specific repair manual and/or electronic service information systems.
- Diagnose root cause of problems by comparing test results to an established standard.
- Efficiently complete tasks within the expected time frame for an entry level technician.

Graduates Have Found Employment As

- HVAC/R Service Technician
- HVAC/R Service Installation Technician
- HVAC/R Sales Representatives
- HVAC/R Maintenance Technician

Industrial Maintenance Mechanic

One-Year Technical Diploma 31-462-2

This career field offers plenty of opportunity to problem solve and work with your hands. You'll gain a high level of technical skills to prepare you for an entry-level position working with industrial machinery. Your training will include an introduction to electrical motors and safety, control devices and power systems. You'll also learn about blueprints, rigging and lifting, and computer-aided design. You'll get hands-on experience applying what you've learned in the machine shop.

Program Outcomes

- Demonstrate safe work procedures.
- Install industrial equipment and systems.
- Maintain industrial equipment and systems.
- Troubleshoot industrial equipment and systems.
- Repair industrial equipment and systems.
- Communicate technical information.

Graduates have found employment as:

- Industrial Maintenance Technician
- Industrial Machine Operator

Academic Plan

Semester 1		Credits
804-306 or 804-113	Shop Mathematics I or College Technical Mathematics 1A	2
620-902	Mechanics of Learning for Industrial Technologies	1
449-425	Safety	1
620-903	Troubleshooting Integrated Manufacturing Systems 1	1

620-173	Blueprint Reading for Machine Prints	1
620-146	Mechanics 1	1
620-147	Mechanics 2	1
620-116	Fluid Power 1: Basic Pneumatics	1
620-117	Fluid Power 2: Basic Hydraulics	1
620-101	Fundamentals of DC circuits 1	1
620-102	Fundamentals of DC Circuits 2	1
620-109	Relay Logic	1
620-106	Electric Motors 1	1
801-311 or 801-136	Communication or English Composition 1	2
Credits		16

Semester 2		
804-308 or 804-114	Shop Mathematics II or College Technical Mathematics 1B	2
620-171	Human Relations in the Industrial Setting Internship	2
620-113	Fundamentals of AC Circuits 1	1
620-124	Programmable Logic Controllers - PLCs	1
442-142	Introduction to Welding	1
442-143	Shielded Metal Arc Welding 1	1

Total Credits		34

Laboratory Science Technician Assistant

One-Year Technical Diploma 31-506-4

This program prepares students to provide laboratory support to the food processing, medical, environmental, and agriculture industries. They will learn to conduct or assist in laboratory analysis of food, water, fuel, soil, bodily fluids, and other elements – laboratory equipment, performing tests and experiments, and documenting the results. Graduates will have a strong basis in scientific principles, quality methodology and documentation, and laboratory equipment and testing methodologies.

Program Outcomes

- Apply modern laboratory methodologies including problem solving and troubleshooting.
- Perform and report results of laboratory tests.
- Practice laboratory safety and regulatory compliance.
- Monitor and evaluate quality control in the laboratory.
- Model professional behavior, ethics, and appearance appropriate to the laboratory setting.
- Demonstrate quantitative reasoning skills and apply critical thinking skills to a variety of disciplines.

Graduates Have Found Employment As

- Food Lab Quality Assurance Technician
- Food Lab Technician
- Medical Lab Assistant
- Quality Control Technician

Law Enforcement - Basic Recruit Academy

Short-Term Technical Diploma

30-504-2

About the Academy

In order to become certifiable as a police officer in Wisconsin, the State of Wisconsin - Law Enforcement Standards Board (LESB) requires successful completion of a 720 hour training curriculum (police academy training).**

Full-Time Academy - Fall/Spring Semester

The Law Enforcement Basic Recruit Academy is a program for those that are interested in a career in law enforcement. The program covers 720 instructional hours.** Upon completion of the program, a student will be eligible for certification with the Wisconsin Department of Justice, Law Enforcement Training and Standards Board. The program focuses on both the theories of law enforcement and is coupled with the tactical skills necessary to be a police officer, deputy sheriff, or sworn member of law enforcement in Wisconsin.

Part-Time Academy - Fall Semester

The part-time Law Enforcement Basic Recruit Academy is a program for those that are interested in a career in law enforcement yet may have other life commitments which prevent them from attending a traditional full-time program. The program is a full year program consisting of 720 instructional hours.** Upon completion of the program, a student will be eligible for certification with the Wisconsin Department of Justice, Law Enforcement Training and Standards Board. The program focuses on both the theories of law enforcement and is coupled with the tactical skills necessary to be a police officer, deputy sheriff, or sworn member of law enforcement in Wisconsin. The program meets Monday, Tuesday and Thursday nights from 5:30 p.m. until 10:00 p.m. The program also meets every-other Saturday as scheduled. The part-time option will not be available until Fall 2016.

A part-time program was launched during the 2019-2020 Academic Year. Contact the Public Safety Division for more information at (608) 757-7691.

Semester 1		Credits
504-307	Scenario Evaluation	1
504-308	Applications of Investigation	2
504-309	Applications of Traffic Response	2
504-310	Health and Fitness	1
504-311	Overview of Criminal Justice	1
504-312	Overview of Investigations	2
504-313	Overview of patrol Response	2
504-314	Overview of Tactics	1
504-315	Principle of Emergency Vehicle Response	2
504-316	Principles of Investigation	2
504-317	Principles of Patrol Response	2
504-318	Principles of Tactics	3
Credits		21
Total Credits		21

Manufacturing Information Technology Specialist

Two-Year Technical Diploma
32-631-1

The Manufacturing Information Technology Specialist program provides extensive hands-on training with the computer hardware, operating systems, application software, mobile devices, and networks needed to keep the systems used in every aspect of advanced manufacturing operating and functioning at peak efficiency. In addition, students will learn how to provide excellent customer service to the employees that fill the various roles they will support. Graduates of this program will have the knowledge, attitudes and skills needed to guide and implement the systematic enhancement of various types of computer systems as these technologies continue to grow and evolve.

Program Outcomes

- Apply effective customer satisfaction and field service techniques
- Evaluate and repair PC hardware components and peripherals
- Evaluate and administer PC software applications
- Compare LAN and WAN physical and logical fundamentals
- Evaluate, administer, and repair network hardware
- Apply PC system evaluation, installation, configuration, diagnosis and repair skills in the workplace
- Perform IT related tasks in multiple environments to include office and manufacturing
- Apply basic understanding of manufacturing communication protocols.
- Evaluate, administer, and repair wireless networking components and the devices that use them.
- Evaluate and install helpdesk software
- Apply proper helpdesk services
- Evaluate, administer and troubleshoot PC and Apple devices.

- Evaluate, administer and troubleshoot Windows, Apple, and Linux operating systems
- Compare different types of virtual machine systems.

View the entire course listing (p. 159).

Semester 1		Credits
631-124	Microcomputer Fundamentals 1: PC Components	1
631-125	Microcomputer Fundamentals 2: PC Assembly	1

Medical Assistant

One-Year Technical Diploma
31-509-1

The Medical Assistant is a link between health care providers and their patients, their professional associates, and the suppliers of equipment and medications. The Medical Assistant is the team member who assists the qualified provider in the office or other medical setting, performing administrative and/or clinical duties. Demand for the Medical assistant may also occur in business or industrial health centers, health insurance companies and emergency care centers. The Medical Assistant has a wide range of duties supportive to the provider's practice. Business/administrative duties include scheduling and receiving patients, obtaining patient information, maintaining medical records, maintaining supplies and equipment, and assuming responsibility for office care, insurance matters, office accounts, fees and collections. Medically related duties include assisting with examinations and treatments, taking health histories, performing certain diagnostic tests, carrying out laboratory procedures and sterilizing instruments and equipment.

A **caregiver background check** is required prior to the beginning of program-specific courses. This should be completed before the first day of the semester. Please note: drug testing may also be required by clinical sites. The drug test and other health requirements will be due prior to practicum. There are fees associated with these tasks. For more information, please contact the program faculty and/or program advisor.

Program Outcomes

- Perform medical office administrative functions
- Provide patient care in accordance with regulations, policies, laws, and patient rights
- Perform medical laboratory procedures
- Demonstrate professionalism in a healthcare setting
- Demonstrate safety and emergency practices in a healthcare setting

Graduates find jobs as medical assistants, secretaries, medical laboratory assistants, phlebotomists, receptionists, medical insurance clerks and electrocardiogram technicians.

View the entire course listing (p. 159).

Courses taken before semester 1		Credits
501-101	Medical Terminology	3
501-104	Culture of Healthcare	2
501-107	Digital Literacy for Health Care	2
Credits		7
Semester 1		
509-301	Medical Assistant Admin Procedures	2
509-302	Human Body in Health & Disease	3
509-303	Medical Asst Lab Procedures 1	2
509-304	Medical Asst Clin Procedures 1	4
509-309	Medical Law, Ethics and Professionalism	2
Credits		13
Semester 2		
509-305	Medical Asst Lab Procedures 2	2
509-306	Medical Asst Clin Procedures 2	3
509-307	Med Office Insurance and Finance	2
509-308	Pharm for Allied Health	2
509-310	Medical Assistant Practicum	3
Credits		12
Total Credits		32

Nursing Assistant

Short-Term Technical Diploma 30-543-1

Nursing Assistants, sometimes called Nurse Aides, Patient Care Assistants (PCA) or Patient Care Technicians (PCT), are in high demand to assist in the care of patients in extended care facilities, home care situations, and, with some additional training, in hospitals. Working under the direct supervision of a licensed nurse, their responsibilities may vary, but personal care and emotional support of patients are always primary considerations.

This 120-hour course involves classroom lectures, campus lab experiences, and a clinical practicum, which involves working in healthcare agencies with patients and residents. Students must be at least 16 years old to attend clinical practicum. Students under the age of 18 must be selected as a Youth Apprentice through their High School. Those who successfully complete this course are eligible to take the National Nurse Aide Assessment Program (NNAAP) exam to become a part of the Wisconsin Nurse Aide Registry as a CNA/HHA. The cost for this testing is not included in course fees and tuition.

- Work cooperatively in a team environment.
- Eligible to take the WI NA Competency evaluation.

View the entire course listing (p. 159).

Semester 1		Credits
543-300	Nursing Assistant	3
Credits		3
Total Credits		3

Program Outcomes

- Communicate and interact effectively with clients, family, and co-workers.
- Maintain and protect client rights.
- Report information and record observations.
- Demonstrate the ethical and legal responsibilities of the NA/HHA.
- Provide safe care to a diverse population, meeting personal, physical and psychosocial client needs.
- Assist with client rehabilitation and restorative care, promoting independence.
- Assist clients with long-term, disabling conditions including dementia, always focusing on the strengths of the client.

Phlebotomy Technician

Short-Term Technical Diploma 30-513-1

The phlebotomy technician program prepares the learner to function as a member of the healthcare delivery team, performing the role of a phlebotomist. The phlebotomist generally works in a clinical laboratory under the supervision of the appropriate professional. He/She is responsible for collection procedures in both outpatient clinical and hospital inpatient settings for the purpose of laboratory analysis, including emergency and routine collection procedures from veins, skin puncture areas and arteries on patients of all ages.

Prior to enrolling in Phlebotomy Technician program (513) courses, students must complete an online criminal background check. There is an additional fee associated with the background check process.

Program Outcomes

- Collect, transport, handle and process blood specimens for analysis
- Identify and select equipment, supplies and additives used in blood collection
- Recognize factors that affect specimen collection procedures and test results
- Follow infection control and safety procedures
- Demonstrate professional conduct and communication skills with patients, peers and other healthcare personnel

View the entire course listing (p. 159).

Semester 1		Credits
501-101	Medical Terminology	3
501-107	Digital Literacy for Health Care	2
513-116	Principles of Phlebotomy	3
Credits		8
Semester 2		
513-147	Phlebotomy Practicum	4

809-198	Introduction to Psychology	3

809-198	Introduction to Psychology	3

Truck Driving

Short-Term Technical Diploma 30-458-1

There is a strong demand for professional truck drivers, and this program can help students prepare for an exciting career on the road. Professional Truck Drivers are responsible for the safe, efficient delivery of goods between locations. In this program, students will spend many hours behind the wheel learning how to maneuver trucks into tight parking spaces, through narrow alleys and up to loading platforms. Students develop backing and driving skills through classroom, lab, range and roadway experiences. Students also examine the necessary communication with fellow drivers, dispatchers, shippers, mechanics and law enforcement personnel. In addition, students learn how to complete the necessary paperwork and appropriate inspections. As a result of this program, students will have the skills needed to earn your Class A commercial driver's license (CDL) and start a career as a Professional Truck Driver.

Program Outcomes

- Drive a commercial vehicle safely.
- Inspect the vehicle to ensure safety of operation.
- Demonstrate knowledge of the laws and regulations pertaining to the operation of a commercial vehicle in the United States.
- Complete appropriate paperwork correctly.
- Demonstrate ability to plan trips and routes including managing loads and weight distribution.
- Communicate effectively with peers, customers and supervisors.
- Obtain a commercial driver's license.
- Demonstrate knowledge of securing a commercial vehicle.
- Demonstrate proper safety and wellness behaviors expected by employers and the industry.

Graduates Have Found Employment As:

- Company Driver/Owner Operator
- Driver Manager
- Driver Mentor
- Local/Regional/Long Distance Driver
- LTL/Truckload Carriers
- Recruiting Specialist

Semester 1		Credits
458-100	Commerical Drivers License Tng	1
458-300	Truck Driving Semi-Level 1	4
458-301	Truck Driving Semi-Level 2	4
458-302	Truck Driving Semi-Level 3	4
Credits		13
Total Credits		13

Welding

One-Year Technical Diploma 31-442-1

Welding is the most common way of permanently joining metal parts. Heat is applied to the pieces to be joined, melting and fusing them to form a permanent bond. Because of its strength, welding is used to construct and repair parts of ships, automobiles, spacecraft, and thousands of other manufactured products. Welding is used to join beams and steel reinforcing rods when constructing buildings, bridges, and other structures, and also in utilities such as nuclear power plants.

Graduates of the program will be experienced to welding structural steel, aluminum, stainless steel and other metals. They will develop the ability of blueprint reading, sketching, and layout for welding. Major job skills learned will include: Oxygen-Fuel Cutting (OFC), Plasma Arc Cutting (PAC), Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), Flux Core Arc Welding (FCAW), Metal Core Arc Welding (MCAW), and Gas Tungsten Arc Welding (GTAW).

Program Outcomes

- Demonstrate industry-recognized safety practices
- Interpret welding drawings
- Produce Gas Metal Arc Welds (GMAW)
- Produce shielded metal arc welds (SMAW)
- Produce flux core welds
- Produce gas tungsten arc welds (GTAW)
- Perform cutting operations

View the entire course listing (p. 159).

Semester 1		Credits
442-109	Mechanics of Learning for Welding	1
442-141	Welding Shop Safety	1
442-142	Introduction to Welding	1
442-143	Shielded Metal Arc Welding 1	1

442-144	Shielded Metal Arc Welding 2	1
442-145	Shielded Metal Arc Welding 3	1
442-146	Shielded Metal Arc Welding 4	1
442-147	Shielded Metal Arc Welding 5	1
442-148	Flux Cored Arc Welding 1	1
442-153	Welding Blueprint Reading 1	1
442-149	Flux Cored Arc Welding 2	1
442-150	Flux Cored Arc Welding 3	1
442-151	Flux Cored Arc Welding 4	1
442-152	Flux Cored Arc Welding 5	1
442-154	Thermal Cutting	1
804-306	Shop Mathematics I	2
Credits		17

Semester 2

442-155	Gas Metal Arc Welding 1	1
442-156	Gas Metal Arc Welding 2	1
442-157	Gas Metal Arc Welding 3	1
442-158	Gas Metal Arc Welding 4	1

Embedded Technical Diplomas

In response to employer and student demand for additional educational opportunities, the Wisconsin Technical College System created embedded credentials within existing programs now referred to as Embedded Technical Diplomas. Embedded Technical Diplomas can be earned while taking courses within an already approved program. This opportunity provides students a set of industry recognized skills and abilities that will prepare them for entry level employment.

Accounting Assistant

One-Year Embedded Technical Diploma 31-101-1

The Accounting Assistant program will provide students with the skills necessary to perform entry-level bookkeeping and accounting functions for local employers. Accounting Assistants enter data into the accounting information system in order to prepare and process payroll, accounts payable, accounts receivable, and cash. The program serves as a solid foundation for further study in the accounting field and can be easily transferred into the two-year associate degree accounting program. The courses are designed for online, blended and traditional formats.

- Prepare financial statements and the related schedules in conformity with generally accepted accounting principles
- Apply accounting skills and principles creatively and innovatively in accordance with the standards of professional ethics
- Process financial transactions throughout the accounting cycle
- Analyze basic financial and business information to support planning and decision-making
- Perform payroll preparation, reporting, and analysis tasks

Semester 1		Credits
101-111	Accounting I	4
103-138	Word Documents	2
102-148	Introduction to Business and Management	3
804-134	Mathematical Reasoning	3
801-136	English Composition 1	3
Credits		15
Semester 2		
101-112	Accounting II	4
101-130	Accounting Information Systems	3
101-135	Payroll Accounting	2
101-136	Computerized Accounting	2
103-107	Intermediate Excel	2
103-126	Introduction to QuickBooks	1
Credits		14
Total Credits		29

Business Management Specialist

One-Year Embedded Technical Diploma

31-102-3

This Business Management Specialist technical diploma prepares you to apply the critical skills needed to plan, organize, staff, and lead day-to-day business management functions in an office or other type of business setting. This broad-based short term program offers a general background in foundations of business management. Courses completed in this program directly apply to the Associate of Applied Science degree in Business Management.

- Plan the operations of a business across functional areas.
- Organize resources to achieve the goals of the organization.
- Control business processes.

Semester 1		Credits
102-148	Introduction to Business and Management	3
103-128	Introduction to Microsoft Office Suites	2
104-102	Marketing Principles	3
801-136	English Composition 1	3
804-134 or 804-118	Mathematical Reasoning or Intermediate Algebra with Applications	3
Credits		14
Semester 2		
101-111	Accounting I	4
102-109	Business Careers Planning and Communication	3
102-115	Management Principles	3
102-155	Introduction to Project Management	3
102-160	Business Law	3
Credits		16
Total Credits		30

Entry Maintenance Technician

One-Year Embedded Technical Diploma

30-620-4

This embedded diploma is designed to prepare completers for entry-level electromechanical maintenance technician employment. Employment opportunities include the areas of electricity, hydraulics, pneumatics, analog circuits, programmable logic controllers (PLCs), and computer and robotic programming. The diploma covers electromechanical safety, the fundamentals of DC and AC electricity, hydraulics, pneumatics, analog circuits, introduction to programmable logic controllers, computer and robotic programming, technical mathematics, and written communications.

- Perform work safely (TSA)
- Troubleshoot electrical and mechanical systems and devices Integrates safety protocol. (TSA)
- Repair electrical and mechanical systems (TSA)
- Communicate Technical Information (TSA)
- Operate power and hand tools and standard test equipment

Semester 1		Credits
620-902	Mechanics of Learning for Industrial Technologies	1
449-425	Safety	1
620-903	Troubleshooting Integrated Manufacturing Systems 1	1
620-173	Blueprint Reading for Machine Prints	1
620-146	Mechanics 1	1
620-147	Mechanics 2	1
620-116	Fluid Power 1: Basic Pneumatics	1
620-117	Fluid Power 2: Basic Hydraulics	1
620-101	Fundamentals of DC circuits 1	1
620-102	Fundamentals of DC Circuits 2	1
620-109	Relay Logic	1
620-106	Electric Motors 1	1
Credits		12
Total Credits		12

Flux Cored Arc Welding

Short-Term Embedded Technical Diploma

30-442-6

Welding is the most common way of permanently joining metal parts. Heat is applied to the pieces to be joined, melting and fusing them to form a permanent bond. Because of its strength, welding is used to construct and repair parts of ships, automobiles, spacecraft, and thousands of other manufactured products. Welding is used to join beams and steel reinforcing rods when constructing buildings, bridges, and other structures, and also in utilities such as nuclear power plants.

Graduates of the program will gain experience in the Flux Core Arc Welding process. They will develop the ability of blueprint reading, sketching, and layout for welding. Major job skills learned will include: Flux Core Arc Welding (FCAW)

Semester 1		Credits
442-141	Welding Shop Safety	1
442-142	Introduction to Welding	1
442-153	Welding Blueprint Reading 1	1
442-148	Flux Cored Arc Welding 1	1
442-149	Flux Cored Arc Welding 2	1
442-150	Flux Cored Arc Welding 3	1
442-151	Flux Cored Arc Welding 4	1
442-152	Flux Cored Arc Welding 5	1
442-154	Thermal Cutting	1
442-168	Welding Blueprint Reading 2	1
Credits		10
Total Credits		10

Gas Metal Arc Welding

Short-Term Embedded Technical Diploma

30-442-5

Welding is the most common way of permanently joining metal parts. Heat is applied to the pieces to be joined, melting and fusing them to form a permanent bond. Because of its strength, welding is used to construct and repair parts of ships, automobiles, spacecraft, and thousands of other manufactured products. Welding is used to join beams and steel reinforcing rods when constructing buildings, bridges, and other structures, and also in utilities such as nuclear power plants.

Graduates of the program will gain experience in the Gas Metal Arc Welding process. They will develop the ability of blueprint reading, sketching, and layout for welding. Major job skills learned will include: Gas Metal Arc Welding (GMAW)

Semester 1		Credits
442-141	Welding Shop Safety	1
442-142	Introduction to Welding	1
442-153	Welding Blueprint Reading 1	1
442-155	Gas Metal Arc Welding 1	1

Residential HVAC

One-Year Embedded Technical Diploma

31-601-1

This embedded diploma is designed to prepare completers for entry-level employment in the area of residential heating, ventilation, and air conditioning (HVAC) employment. The diploma covers print reading and code, air conditioning fundamentals, refrigeration fundamentals, electrical fundamentals, computerized HVAC and refrigeration design, heating systems, motors and motor controls, air conditioning and refrigeration piping, charging methods, customer service essentials, trade mathematics, and communications.

Pathway Certificates and Embedded Technical Diplomas are part of a larger model of BTC's Career Pathways that link related academic programs in sequence. Each program offers direct job preparation and a path to the next level of academic programming.

Service HVAC/R Systems

Troubleshoot HVAC/R Systems

Evaluate HVAC/R System Design

Semester 1		Credits
804-306	Shop Mathematics I	2
601-116	A/C Safety, Tools, Thermal Dynamics and HVAC Terminology	1
601-117	A/C Components, Refrigeration Cycle and Refrigeration Gauges	1
601-118	Air Flow Fundamentals	1
601-121	Electrical Safety, Meter Usage and Ohm's Law	1
601-122	Parallel Circuits, Combination Circuits and Capacitors	1
601-123	Electrical Services, Wire Sizing and Electrical Diagrams	1

601-128	Print Reading for HVAC/R	1
601-129	Mechanical Code	1
601-131	Access Valves, Compressors and Condensers	1
601-132	Evaporators, Metering Devices and Accessories	1
601-133	Heat Transfer Principles and Manual J	1
601-134	Wrightsoft Load Calculations and RESCheck	1

Credits 14

Semester 2

601-136	Split Phase Motor Identification, Testing and Replacement	1
601-137	Variable Speed Motors, Current Relays, Potential Relays and PTC Relays	1
601-138	Transformers, Contactors, Relays and Motor Starters	1
601-141	Gas Pipe Sizing, Gas Regulators and Gas Valves	1
601-142	Residential Gas Furnaces	1
601-143	Electric Heat and Air-to-Air Residential Heat Pump Systems	1
601-146	Flaring, Swagging and Soldering Copper Pipe	1
601-147	Air Acetylene and Oxy-Acetylene Brazing Copper Pipe	1
601-148	Refrig Recov, Deep Evac and Charging of Residential, Light Commercial, Geothermal and Ice Mach Equip	1

601-149	Refrig Recovery, Triple Evacuation and Charging of Heat Pumps and Refrig Equipment and EPA Test	1
462-322	Human Relations in the Industrial Setting	2

Substance Abuse Education

One-Year Embedded Technical Diploma 30-550-1

This program prepares individuals to help prevent substance abuse, counsel individuals and families with drug and alcohol problems, and perform intervention and therapeutic services for persons suffering from addiction. Includes instruction in individual and group counseling skills, psychology of addiction, substance abuse identification methodologies, substance abuse treatment modalities, substance abuse prevention and treatment resources, psychopharmacology, treatment evaluation, patient education, and professional standards and ethics.

- Clinically evaluate for substance use disorders and treatment needs
- Develop treatment plans
- Facilitate referral to meet needs
- Demonstrate service coordination skills
- Demonstrate counseling skills with individuals, groups, and families
- Provide education relevant to substance use
- Maintain clinical records according to agency, federal and state guidelines
- Adhere to accepted culturally competent, ethical, and behavioral conduct

Semester 1		Credits
520-105	Intro to Addiction and Substance Abuse Disorders	3
520-106	Professional Practices in Human Services	3
520-109	Group Facilitation	3
520-113	Rehabilitation Services	3
Credits		12
Semester 2		
550-100	Substance Use Assessment, Diagnosis & Treatment	3
550-115	Understanding Addiction	3
550-119	Substance Use Disorder Counseling	3
550-120	Psychopharmacology	3
Credits		12
Total Credits		24

Certificates

Local certificate programs include a grouping of only those courses which are essential to prepare a student for successful employment in specific occupations in our region. These internal certificates are specific to Blackhawk Technical College, are not listed on a transcript, and may be issued based on completion by the department that has responsibility for the program.

Advanced Technical Certificates are awarded and listed on a student's transcript, however, students must submit a graduation application to be reviewed and awarded.

Computed Tomography

Advanced Technical Certificate
98-526-1

Completion of the Computed Tomography Certificate provides the radiographer with the knowledge and clinical skills to specialize in the advanced imaging modality of computed tomography. This certificate consists of academic and clinical courses designed to meet the eligibility requirements for the certification examination in Computed Tomography administered by the American Registry of Radiologic Technologists (ARRT).

Certificate Outcomes

- Perform high-quality computed tomography examinations.
- Critically evaluate image quality.
- Practice radiation safety principles.
- Provide quality patient care and evaluation.
- Model professional and ethical behavior consistent with the A.A.R.T. Code of Ethics.
- Apply critical thinking and problem solving skills in the practice of computed tomography.

Please note that if you are pursuing this certification and a class is not offered during a given term, please email instructor Katie Church, RT(R)(M)(CT) at kcchurch4@blackhawk.edu. Arrangements can be made to add the course to the schedule to help you complete this program.

Law Enforcement - Basic Jail Academy

The Basic Corrections Academy is a program that provides the curriculum required for correctional officer certification with the Wisconsin Department of Justice, Law Enforcement Standards Board. The program is a 200-hour course that focuses on the philosophical and tactical principles of working as a correctional officer in Wisconsin. The course includes a skills-assessment examination prior to completion to verify student competence. Upon the completion of the program, a student will be eligible for certification with the Wisconsin Department of Justice, Law Enforcement Training and Standards Board.

Patient Service Specialist

Local Certificate

Completion of the *Patient Service Specialist* Certificate prepares students to perform medical support duties using specific knowledge of medical terminology, customer service, and technology within a hospital, clinic, or laboratory. Duties may include scheduling appointments, billing patients, and compiling and recording medical charts, reports, and correspondence as well as schedule and confirm patient diagnostic appointments, surgeries, or medical consultations. You may apply these courses towards a Technical Degree in *Medical Assistant* or *Phlebotomy*.

10-501-101 Medical Terminology (3 credits)

10-501-107 Digital Literacy for Healthcare/Intro to Healthcare Computing (2 credits)

10-501-104 Culture of Healthcare (2 credits)

Total credits: 7

This certificate prepares individuals, under the supervision of office managers, nurses, or physicians, to provide customer service, visitor reception, and patient intake and discharge services. Includes instruction in medical office and healthcare facility procedures, medical terminology, interpersonal communication and customer service skills in a healthcare setting, principles of health care operations, use of business technology applications for documentation, record-keeping and using an electronic health record, and patient privacy and confidentiality issues as they relate to healthcare.

Project Management

Certificate
99-913-3

The Project Management Certificate focuses on the essential skills and knowledge needed to promote effective project leadership and management from inception to completion. This certificate is designed for individuals seeking career advancement or professional development in a variety of business, healthcare, construction/engineering, or IT careers. The certificate provides the learner with experiences to develop or enhance their leadership, team building, and communication skills that will allow them to lead and direct projects and teams.

The course of study follows the Project Management Body of Knowledge (PMBOK) created by the Project Management Institute.

Certificate Outcomes

- Apply project management processes
- Apply project leadership skills
- Develop project plans and status reports
- Apply scheduling/cost management skills
- Develop proficiency in Microsoft Project software
- Lead a real life project in a lab setting

196-159	Essentials of Quality 3	1
196-155	Leadership 2	1
102-158	Project Management Capstone	3
Total Credits		12

Please note that 102-155, 102-157, and 196-154 are offered in fall semesters. 196-161, 196-159, 196-155, and 102-158 are offered in spring semesters.

Secure Juvenile Detention Academy

The Secure Juvenile Detention Academy is a program that provides the curriculum required for juvenile detention worker certification with the Wisconsin Department of Justice, Law Enforcement Training and Standards Bureau. The program is a 160 hours and provides instruction on how to be a detention officer. The program requires a skills-assessment prior to completion to verify student competence. Upon the completion of the program, a student will be eligible for certification with the Wisconsin Department of Justice as a secure juvenile detention worker.

Supply Chain Management Certificate

Certificate
99-182-1

The Supply Chain Management Certificate Program focuses on developing essential skills and knowledge in the areas of purchasing, inventory management, and logistics type careers and professional effectiveness in project management and negotiations. This certificate is designed for the individual seeking exposure, advancement or professional development in the understanding of core supply chain functions. All courses will apply towards the Associate of Applied Science degree in Supply Chain Management.

Outcomes:

Upon successful completion of this certificate, students will be able to:

- Define supply chain concepts and understand the flow of materials, information and money.
- Demonstrate their ability to plan for, purchase and manage inventories and identify its impact on organizations.
- Develop negotiation abilities and their capacity to understand and predict behaviors in competitive situations.
- Evaluate supply chain costs and the profitability that stems from effective management practices.
- Apply continuous improvement strategies to all aspects of supply chain management.

General Education

The General Education and Academic Support Division lays the foundation for broad-based student learning. The division strives to meet students at whatever point of readiness they are when admitted to BTC. In some cases, students are prepared and ready to enroll immediately in general education classes. In other instances, students may need additional instruction to reinforce skills necessary to achieve their academic goals.

General Education courses help students develop core knowledge, skills, and attitudes essential for personal and professional success. General Education courses (<https://www.blackhawk.edu/Programs-Classes/Take-a-Class/Class-Search/credit/>) in communication, social science, math, and natural science are based on an applied, integrated curriculum and use classroom activities that reflect real world work situations relevant to program areas while also preparing students to be lifelong learners.

Basic Skills Education

Basic Skills-Academic Support

Blackhawk provides basic skills education, GED/HSED instruction, classes for English Language Learners (ELL), and support services to help students succeed in post-secondary education. Staff work closely with other divisions of Blackhawk as well as with local schools and industries to develop programs to meet educational needs in the community. Classes are offered at a variety of locations throughout Rock and Green Counties.

There is an array of services in response to students' unique circumstances, abilities and goals. Support is provided via classroom instruction, workshops, computer-based tutorials, and individualized assistance through learning labs. Our instructional staff are sensitive to the concerns of adult students who desire to complete or continue their education.

A pre-assessment of academic needs (TABE) is required. Minimal material fees may apply. Feel free to contact us for more information:

Central Campus/Rock County

6004 S. Cty Rd G
Janesville, WI 53546-9548
(608) 757-7666

Monroe Campus/Green County

210 4th Ave.
Monroe, WI 53566-1033
(608) 328-8204

High School Contracting

This is a cooperative effort to provide educational alternatives to at-risk students and to comply with the compulsory school attendance laws. It offers high school credit and GED/HSED courses for students referred by and enrolled in district high schools. This program aids public schools by providing in-school youth with a chance to make up or add on credits.

Learning Labs

There are two learning labs at Central Campus: the Writing and Communication Lab and the Math and Science Lab. These two labs allow students to study at their own pace to prepare to take GED/HSED tests, enter post-secondary programs, or seek supplemental instruction to assist them with coursework.

Some services, such as tutorial assistance are available on a walk-in basis. Other services, such as individualized instruction, require some type of advance arrangement. Students are encouraged to stop in during lab hours to explore the opportunities the Learning Labs provide.

The Learning Labs are located in the Student Success Center at Central Campus. The Writing and Communication Lab is in room 2213. The Math and Science Lab is located in room 2216. If students have questions, they should call (608) 757-7676.

RECAP/Rock County Jail Project

The Rock County Education and Criminal Addictions Program (RECAP) is a cooperative program among Blackhawk Technical College, Rock County Sheriff's Office, and CESA #2. The program provides Adult Basic Education (ABE) and GED/HSED instruction to both RECAP students and general jail population students. Along with this instruction, RECAP students also receive Thinking 4 Change (T4C), restorative justice, anger management, parenting, and college and career readiness classes.

GED and HSED

General Educational Development Certificate (GED) and High School Equivalency Diploma Preparation (HSED)

Preparation

GED/HSED preparation (<https://www.blackhawk.edu/Programs-Classes/GED-HSED/GED-HSED-Preparation/>) and programming (more formally known as General Educational Development and High School Equivalency Diploma) is open to all adults. GED/HSED classes are offered at Blackhawk's Central Campus, Monroe campus as well other community sites.

There are structured classes, as well as individualized study options available to students to best meet their needs. GED/HSED classes (p. 344) are provided at no cost to students, although some sites may charge minimal material fees. For additional information, contact (608) 757-7666.

General Educational Development (GED) Testing Service® – A Program of the American Council on Education

Blackhawk Technical College is an official testing center for General Educational Development (GED) Testing Service/Pearson Vue Testing. Testing is offered at the Central Campus, Monroe Campus, and the Rock County Jail. Students seeking to test must be at least 18 ½ years old, excluding students whose senior class has graduated or those under an approved high school contract. Orientation and testing information are available at blackhawk.edu or from the Testing Center, located on Central Campus. GED Orientation is now offered through an online class.

General Educational Development (GED) and High School Equivalency Diploma (HSED) Credentials

The GED/HSED test batteries measure high school-level knowledge and skills. The tests are designed to measure the academic outcomes normally acquired by completing a typical high school program of study. The GED test battery consists of four (4) tests: Language Arts (this contains an essay portion), Mathematics, Science, and Social Studies. In Wisconsin, you are also required to pass a 100-question civics test. The HSED credential is earned by completing the four (4) GED tests, the 100-question civics test, and two (2) additional competencies: Health and Employability Skills. All students are required to obtain counseling from an approved educational advisor (GED/HSED Orientation) and complete a career assessment. Blackhawk Technical College offers classes to prepare for the GED/HSED test batteries throughout the Blackhawk Technical College District. Classes are flexible and can often be taken during the day or evening and online.

GED / HSED Completion Ceremony

Individuals who have earned either the GED or HSED credential have an opportunity to participate in a completion ceremony. This ceremony is typically held once a year in May. Family and friends are welcome to attend and celebrate this accomplishment.

ELL

ELL-English Language Learning

English Language Learner (<https://www.blackhawk.edu/Student-Resources/Academic-Support-Tutoring/English-Language-Learners/>) (ELL) classes provide basic skills education instruction in speaking, listening, reading and writing for adults whose native language is not English. The emphasis is on learning the English language to be able to successfully interact with others whether for employment, community involvement, or for furthering education.

For additional information, contact (608) 757-7666.

Apprentice Programs

The apprenticeship process is a formal arrangement involving employers, apprenticeship committees, state government, technical colleges, and individuals who want to learn a skilled craft through on-the-job training and applied classroom instruction in their chosen trade. Paid Related Instruction is a key part of each apprenticeship and is required by the Wisconsin apprenticeship law. The length of training may vary from two to five years, depending on the trade. Apprentices who successfully complete the prescribed number of hours of training become certified skilled workers.

Blackhawk Technical College currently offers the following:

- 50-413-1 Industrial Electrician Apprentice
- 50-413-2 Electricity (Construction) Apprentice
- 50-413-9 Electrician Apprentice (ABC)
- 50-464-1 Maintenance Technician Apprentice
- 50-620-1 Mechatronics Apprentice
- 50-420-2 Machinist Apprentice

To become an apprentice, students first need to get hired by an employer in one of the fields listed above, followed by an application process and state approval by the employer. Many individuals, including women and minorities, have discovered that apprenticeship training offers an opportunity for a good-paying career.

Further information and a list of Wisconsin apprenticeships can be obtained online at <http://www.dwd.wisconsin.gov/apprenticeship/individuals.htm> or by calling (608) 266-3332. For information on BTC's apprenticeship programs or the apprenticeship process (<https://www.blackhawk.edu/Professional-Training/Apprenticeships/>), please contact (608) 757-7628.

Professional and Continuing Education

We offer many courses for a variety of occupations through continuing education. Explore the variety of non-credit vocational courses designed for upgrading skills or personal development.

Upgrade Your Skills

Enhance your skills or jumpstart a new career by acquiring the skills and knowledge needed to excel on the job. Continuing education classes offer an affordable option for exploring new areas of interest, obtaining a specific certification or fulfilling a continuing education requirement. Some of the areas these classes serve are in management, leadership development or computer literacy. We provide this training using industry veterans who know the field.

Career Preparation

You also may want to explore or prepare for a new career. We have classes in Microsoft® Office applications, electricity, safety standards and many others. Short-term trainings last from one to 10 weeks and are valuable in preparing for and deciding on a new career.

More Anytime Classes

Flexible education is part of the mission at Blackhawk Technical College and through our partnership with ed2go, along with several BTC developed courses, we can provide anytime skill development classes to meet a variety of schedules. Visit us at <https://blackhawk.edu/Professional-Training/Workforce-Training> (<https://blackhawk.edu/Professional-Training/Workforce-Training/>) for more information.

Community Education

Blackhawk Technical College has classes just for you. No grades, no pressure – just fun and purpose in learning. We offer non-credit classes at the Central Campus, Advanced Manufacturing Training Center and Monroe Campus. Pick a class, a location and get started right away. There are many classes for beginners, so if you have never used a computer or spoken a word of Spanish, we have a seat for you.

More Anytime Classes

Save gas and time by looking into our online non-credit courses that will provide both skill and enjoyment. Our partnership with ed2go gives you a choice of classes, including computer applications, law, personal development, technology, teaching and publishing. See for yourself at <http://www.ed2go.com/blackhawktch/>.

CPR and First Aid

Healthcare Provider CPR

For any medical staff personnel, medical type students, EMT's, nursing students, and nursing personnel. The course consists of airway obstruction and CPR, two person CPR, using adjunct equipment for infants, children, and adults based on the newest American Heart Association techniques. (OSHA approved)

Healthcare Provider CPR Refresher

Bi-annual update for those already certified in CPR.

Heartsaver AED CPR

CPR is an emergency procedure designed to restore life after sudden unexpected death has occurred. This basic life support training includes recognition of the early warning signs of heart attack and proper response to these symptoms. When certified you will be able to recognize respiratory arrest and perform cardiopulmonary resuscitation. CPR involves a combination of ventilation techniques and chest compressions. Proficiency in CPR requires mannequin practice supervised by certified instructors. A bi-annual refresher class is necessary to maintain CPR skills.

Heartsaver AED First Aid

Basic First Aid for the general public, business and industrial personnel. The course consists of the principles and techniques for aiding the victim until more qualified help arrives. Course also includes CPR and AED training.

Search First Aid & CPR classes. (<https://www.blackhawk.edu/Programs-Classes/Take-a-Class/Class-Search/non-credit/>)

Workforce and Community Development

Workforce Training, Economic Development, and Outreach to Our Communities

Each year thousands of Green and Rock County incumbent workers, job seekers, and adult learners look to Blackhawk Technical College to fill their training and educational needs. (<https://www.blackhawk.edu/Professional-Training/Workforce-Training/>) Whether you come as an individual, business, or community organization you can participate in learning programs in Beloit, Janesville, Milton or Monroe, at one of BTC's learning centers, or at your place of business.

Workforce and Community Development (WCD) provides business and professional development seminars and workshops, (<https://www.blackhawk.edu/Professional-Training/Workforce-Training/Seminars-Workshops-Boot-Camps/>) customized training services (<https://www.blackhawk.edu/Professional-Training/Workforce-Training/Customized-Training/>), (<http://www.blackhawk.edu/ExplorePrograms/BusinessandCommunityDevelopment/Seminars.aspx>) continuing education opportunities (<https://www.blackhawk.edu/Programs-Classes/Take-a-Class/Class-Search/non-credit/>), and an array of short-term courses in a variety of settings. This area also schedules learning opportunities for individuals seeking enrichment-or furthering their knowledge and skills for work or fun. WCD staff work directly with business, government, education, community organizations, public services, and others to provide customized training and consulting services that can include onsite or on-campus training.

Customized training and business consulting is the core of the services provided by WCD. Our professional staff assesses your business and training needs and then designs and delivers services to help your business or organization meet its goals. Business seminars, organizational analyses, employee skills assessments, business planning assistance, and facilitation services are also available.

A dedicated manager will match the right trainer or consultant to your organization's needs and assist in creating solutions to address your specific issues by customizing curriculum and activities. Our manager can also guide you to funding assistance resources that may be available to help offset your training investment.

Our clients include individuals, businesses, and organizations from the following sectors:

- Manufacturing
- Transportation and Distribution
- Construction and Skilled Trades
- Community Based Residential Facilities
- Community Organizations
- Education
- Health Care
- Finance and Accounting
- Real Estate

- Insurance
- Truck Driving

Emerging technologies. Technical skill development. Quality, safety and sustainable practices. Blackhawk has designed hundreds of engaging training programs for individuals and professional teams that cover a wide array of topics. We also teach students the marketable “soft skills” today’s employers are looking for. Some of our most popular programs include:

- Leadership & Team Principles
- Safety Expertise
- Organizational Development
- Business Communications
- Microsoft Office
- Quality Production

Training and Consulting Services

Interested in learning more about BTC’s customizable training workshops and consulting services (i.e. one-on-one coaching and technical testing assessments)? Contact us at (608) 757-7623 or businessdevelopment@blackhawk.edu.

Information provided includes course descriptions by subject only. For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

006-101 Contemporary Issues in Sustainability**Credits: 1**

This course examines the role of agriculture and consumers in today's society. Emphasis will be placed on economically profitable, environmentally sound and socially responsible agricultural practices for farm and agribusiness operations.

Aid Code: 10 - Associate Degree.

Complete Course Listing

006-102 Emerging Agriculture Technologies

Credits: 2

This course provides classroom and field experience to expose students to the latest developments in agricultural technology for agribusinesses applications. Emphasis will be geared toward providing students experience in technical problem-solving for agri-businesses and farm operations.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

006-103 Agricultural Commodity Marketing

Credits: 1

Learners will develop an understanding of the principles of marketing relative to basic economic theory. We will examine the marketing process from production through delivery to the ultimate consumer including product differentiation, direct marketing, and competitive advantage.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

006-104 Special Topics in Agriculture

Credits: 1

This course is an opportunity for participants to learn from professionals in the fields of agronomy, finance and livestock nutrition and management as well as from full-time crop, livestock and dairy producers. Learners will connect to professionals in the field of agricultural production and agribusiness. Students will be able to do this through linking with the Farm Business and Production Management Program from November through March.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

006-105 Nutrient Management

Credits: 3

Students focus on profitable crop production methods using commercial products, nutrient credits, and rotational practices. Students learn how to interpret soil test reports, balance soil pH, meet nutrient requirements, and make product recommendations based upon economic, environmental, and legal criteria. Students will study field mapping based on global positioning systems and variable rate technology.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

006-106 Agribusiness Occupational Experience

Credits: 1

The course is an opportunity for students to gain hands-on experience with agribusinesses within their area of interest or as career exploration. Participants will build a network of potential employers upon completion of the Agribusiness Specialist program.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

006-107 Pest Management:Applicator Training

Credits: 3

Students will apply principles and methods used in the control of pests found in the production of agricultural commodities. Preparation for the Wisconsin Commercial Pesticide Applicator licensing will include: restricted use regulations, applicator safety, environmental safety, equipment calibration, and product label interpretation. Course topics also include: pesticide mode of action, interpretation of aerial photos, and integrated pest management (IPM).

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

006-108 Commercial Drivers Training

Credits: 1

A Course designed to prepare students to take the Department of Transportation (DOT) General CDL examination as well as examinations that cover DOT endorsements for air brakes, hazardous materials, doubles and triples. A CDL is a very valuable certification for all types of agribusiness employment. Completion of these exams could lead to the student receiving their driving permit, which would allow them to drive a commercial truck with a licensed CDL driver in the passenger seat.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

006-116 Introduction to Soils

Credits: 3

This course provides fundamental knowledge of soils and growth media. Course topics include soil formation and development, soil components, soil profile, soil classification, and soil conservation. Participants will experience soils concepts through the completion of hands-on activities.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

006-160 Introduction to Plant Science

Credits: 3

This course provides fundamental knowledge of plant components and their functions. Topics include pollinating and propagating plants, germinating seeds, plant nutrients, and factors affecting photosynthesis, respiration, and transpiration. Participants will experience plant components and their functions through the completion of hands-on activities.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

006-162 Farm Records and Business Management

Credits: 3

This course emphasizes the practical use of a record management system in managing a farm or agribusiness. Students will create business goals and analyze the use of credit as well as simulate business arrangements, estate planning, and preparing income taxes. Students will create balance sheets, cash flows and income statements as they create an overall financial analysis of the farm or agribusiness.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

006-163 Agribusiness Management**Credits:** 3

Topics studied in this course are agriculture agencies; records and accounts; sources of credit, insurance, enterprise budgeting, cash flow, net worth; and business organization. Students will learn about the organization and structure of agricultural businesses; resource evaluation, policy development and implementations, functions of management, and laws and taxes that affect business.

Aid Code: 10 - Associate Degree.

Complete Course Listing

006-164 Livestock Management**Credits:** 3

This course focuses on the various aspects of selection, breeding, herd health, raising of replacement stock, reproductive physiology, and marketing of livestock and livestock products. Students explore topics that affect livestock management such as the selection, operation, and maintenance of farm buildings, milking, feeding, and ventilation as well as manure handling equipment. Students will be able to analyze and prepare for a myriad of aspects that are included in the management of livestock.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (006-180)

Complete Course Listing

006-165 Livestock Nutrition**Credits:** 3

This course emphasizes the skills, techniques and concepts necessary for sound feeding management. Students engage in the practice of calculating feed values and pricing, as well as consumption requirements for livestock. Students also investigate necessary information from feed tag labels and base feeds as they create simulated feeding programs for specific livestock with special attention given to the metabolic diseases of lactating animals. Through the use of basic ration balancing concepts, students will be able to create simple rations for specified livestock.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (006-180)

Complete Course Listing

006-166 Precision Agriculture Technologies**Credits:** 3

This course provides an introductory overview of precision farming concepts and the tools of precision farming (GPS, GIS and VRT). Students will engage in the use of each of these tools within the processes of a precision farming system. Students will participate in several simulated hands-on activities using actual farm data to be able to properly use these tools in a real world agricultural setting.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (006-102)

Complete Course Listing

006-169 Career Develop in Agriculture**Credits:** 2

This course is designed to assist students in developing career leadership skills for the agriculture industry. Units of study include: goal setting, strengths finder, career opportunities, employment preparation, industry issues, and the role of professional organizations in agriculture.

Aid Code: 10 - Associate Degree.

Complete Course Listing

006-180 Introduction to Animal Science**Credits:** 3

The course provides fundamental knowledge of the animal science field. Topics include animal health, animal environments, anatomy and physiology, genetics and reproductions, animal feedstuffs, and job related safety. Participants will experience animal concepts through the completion of hands-on activities.

Aid Code: 10 - Associate Degree.

Complete Course Listing

006-181 Crop Management**Credits:** 3

Students will be introduced to all phases of the management and economics of crop production. Students will explore and analyze specific topics related to variety, selection, planting, pest control, harvesting, storage, and marketing. Students will engage in project based learning by developing a crop management plan which focuses on crop enterprise analysis and the production of a cropping budget.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (006-160) and (006-107)

Complete Course Listing

006-197 Agribusiness Internship**Credits:** 3

Students will have the opportunity to apply course work to a practical, on-the-job experience in an agricultural career setting. Students will create a portfolio that includes their engagement in research, report writing and reflection of the structure of the business, products that are sold and the importance of this agricultural field to the economy of our state and nation. Students will be able to apply this knowledge in their second year courses and as they continue to explore the various careers available in the agricultural sector.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (006-102) and (006-116) and (006-201) and (006-200) and (102-148)**Co-requisites:** (006-160) and (006-105) and (006-107) and (006-180) and (006-103) and (006-103)

Complete Course Listing

006-200 Ag Equipment Safety and Operation**Credits:** 3

Students will demonstrate how to safely drive a tractor and farm equipment. Emphasis is on gaining understanding of general farm safety and safety in the workplace. Student will practice and demonstrate the use of personal protective equipment, humane cattle handling, crop harvest and storage, chemicals and fluid management, electrical safety, UTV safety and skid loader safety. Students will also apply basic maintenance practices to keep equipment safe and operational around the farm. This is a hands on course where students will get behind the wheel experience.

Aid Code: 10 - Associate Degree.

Complete Course Listing

006-201 Career Development in Agriculture

Credits: 3

This course is designed to assist students in developing career leadership skills for the agriculture industry. Units of study include: goal setting, strengths finder, career opportunities, employment preparation, industry issues, and the role of professional organizations in agriculture.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

Air Cond & Refrigeration Tech (601)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

601-110 Air Conditioning Fundamentals

Credits: 3

Air Conditioning Fundamentals is a course designed to teach the principles of operation of commercial and residential air conditioning systems as encountered in the HVAC/R servicing and installation business. This course is almost entirely theory with some laboratory covering the use of measuring instruments during operation of HVAC/R systems. All aspects of safety will be emphasized and reviewed throughout the course.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

601-111 Print Reading and Code

Credits: 2

HVAC print reading is analyzed in relation to each of the curriculum's systems: heating, ventilation, air conditioning, and refrigeration. The students will be able to understand, recognize and apply symbols and specifications pertaining to each system as they are explained so that they can be followed in the system's installation and repair. Overview of National Codes and Standards will be discussed and reviewed.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

601-112 ACR Piping Practices

Credits: 2

Students will examine and use the fundamental tools, equipment, and procedures used in pipefitting in this course. Matching system components and making proper connections are studied, planned, and practiced. Applications to domestic water distribution and hot water production will be reviewed. The student will also be introduced to duct work fabrication.

Aid Code: 10 - Associate Degree.

Pre-requisites: (601-121)

[Complete Course Listing](#)

601-113 Refrigerant Recovery, Evacuation and Charging Methods

Credits: 2

Students in this course will define, explain and analyze refrigerant recovery, recycle, and reclaim operations. Students will gain hands-on experience and practice in the installation, service, and repair of all HVAC and refrigeration systems as it pertains to EPA industry guidelines for recovery, recycle and reclaim operations.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

601-114 Industrial Comp Exam Review

Credits: 1

This course will be a comprehensive review of all applications and experiences from HVAC two year program at BTC. Students will engage in discussion and take practice exams that will enable them to hone their skills and knowledge in preparation for the Industrial HVAC Comprehensive Licensing Exam.

Aid Code: 10 - Associate Degree.

Co-requisites: 601-186

[Complete Course Listing](#)

601-115 Electrical Fundamentals

Credits: 3

A sound electrical background is essential in order to become a successful HVAC/R technician. Electrical Fundamentals provides experience with electrical theories, circuits, devices, and equipment. This is a combination lecture/lab course involving hands on experience with HVAC/R electrical components. There will also be an introduction to electrical diagram reading and drawing along with computer-aided tutorials. Electrical safety will be thoroughly discussed and reviewed during the course.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

601-116 A/C Safety, Tools, Thermal Dynamics and HVAC Terminology

Credits: 1

A/C Safety, Tools, Thermal Dynamics and HVAC Terminology examines air conditioning safety, tools, thermal dynamics, terminology and math principles encountered in the HVAC/R industry.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

601-117 A/C Components, Refrigeration Cycle and Refrigeration Gauges

Credits: 1

A/C Components, Refrigeration Cycle and Refrigeration Gauges examines matter and energy, introduces and analyzes the refrigeration cycle, examines refrigeration applied to air conditioning and teaches the installation of a refrigeration manifold gauge set on an operating residential split system.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-116)

[Complete Course Listing](#)

601-118 Air Flow Fundamentals**Credits:** 1

Air Conditioning Fundamentals for HVAC/R 3 examines indoor air quality, introduces the has students practice using a psychrometric chart, and examines air distribution of commercial and residential air conditioning systems as encountered in the HVAC/R servicing and installation business.

Aid Code: 10 - Associate Degree.**Co-requisites:** (601-117)

Complete Course Listing

601-121 Electrical Safety, Meter Usage and Ohm's Law**Credits:** 1

Electrical Safety, Meter Usage and Ohm's Law examines electrical safety in HVAC/R, analyzes atomic structure and introduces electrical quantities. In addition, Ohm's Law formulas are introduced and utilized in lab activities that examine a simple series circuit. Electrical diagram reading and drawing will be integrated into the lab activities. This is a combination lecture/lab course involving hands on experience with basic electrical circuits.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-122 Parallel Circuits, Combination Circuits and Capacitors**Credits:** 1

Parallel Circuits, Combination Circuits and Capacitors examines Ohm's Law as it relates to parallel circuits and combination circuits. Electrical diagram reading and drawing will be integrated into the parallel and combination circuit lab activities. Capacitors will also be introduced in application and function. This is a combination lecture/lab course involving hands on experience with parallel, combination circuits, in-line ammeter usage and capacitor testing.

Aid Code: 10 - Associate Degree.**Co-requisites:** (601-121)

Complete Course Listing

601-123 Electrical Services, Wire Sizing and Electrical Diagrams**Credits:** 1

Electrical Services, Wire Sizing and Electrical Diagrams examines electrical service, voltage systems and wire sizing. The effects of inductance and capacitance on an electric circuit will also be analyzed. In addition, electrical symbols and diagrams utilized in the HVAC/R industry will be analyzed through hands-on lab experiences.

Aid Code: 10 - Associate Degree.**Co-requisites:** (601-122)

Complete Course Listing

601-125 Computerized (HVAC/R) Design**Credits:** 3

In this course, instruction will be given in blueprint reading and drawing of mechanical systems. Outlays of various heating and cooling systems in relation to architectural buildings are used. Proper mechanical schematic, isometric piping and flow diagrams are discussed and drawn. In addition, computer software is utilized to calculate heat loss and heat gains on residential and commercial buildings.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-126 Refrigeration Fundamentals**Credits:** 2

This course will study the function and operation of the basic components in the refrigeration cycle along with learning the use of service tools the HVAC/R technician will utilize on the job. Refrigeration Fundamentals is a combination lecture/lab course in which the students will be able to apply theory to the lab using actual HVAC/R equipment. Computer simulators will be introduced as teaching aids. On the job and lab safety will be emphasized.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-127 Computerized HVAC/R Design**Credits:** 2

In this course, instruction will be given in blueprint reading and drawing of mechanical systems. Outlays of various heating and cooling systems in relation to architectural buildings are used. Proper mechanical schematic, isometric piping and flow diagrams are discussed and drawn. In addition, computer software is utilized to calculate heat loss and heat gains on residential and commercial buildings.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-128 Print Reading for HVAC/R**Credits:** 1

This course will cover print reading and standards relevant to the installation and service of residential and light commercial HVAC systems. This course is an Online course. Classroom attendance is not necessary but you can use the computers in the classroom during open lab hours. In addition, paper prints are available in the classroom if you prefer.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-129 Mechanical Code**Credits:** 1

This course continues to analyze the codes from prints, taking into consideration specific and unique building codes and standards relevant to the installation and service of residential and light commercial HVAC Systems.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-130 Heating Systems**Credits:** 3

This course involves instruction and laboratory work on hydronic and steam systems. Students will be able to design, install, start-up and service gas and oil fired systems. This course is a combination of classroom presentation and lab.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-131 Access Valves, Compressors and Condensers
Credits: 1

This course will provide students with the opportunity to practice accessing sealed air-conditioning and refrigeration units utilizing a manifold gauge set. Additionally, students will practice testing and troubleshooting compressors and condensers.

Aid Code: 10 - Associate Degree.

Co-requisites: 601-117

Complete Course Listing

601-132 Evaporators, Metering Devices and Accessories
Credits: 1

Evaporators, Metering Devices and Accessories will examine the process and tools required to gain access to a sealed system and develop a better understanding of the system metering devices and evaporations.

Aid Code: 10 - Associate Degree.

Pre-requisites: (601-131)

Complete Course Listing

601-133 Heat Transfer Principles and Manual J
Credits: 1

Heat Transfer Principles and Manual J teaches the fundamentals of heat transfer through different types of construction materials. Students will perform residential load calculations using ACCA Manual J8ae and computerized ACCA load calculation spread sheets.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-134 Wrightsoft Load Calculations and RESCheck
Credits: 1

Wrightsoft Load Calculations and RESCheck utilizes Wrightsoft to perform residential and commercial load calculations and duct sizing. In addition, RESCheck will be analyzed and applied to check structures code conformity for heat loss. The student will develop an understanding of energy conservation through the appropriate analysis and application of size and selection of HVAC equipment.

Aid Code: 10 - Associate Degree.

Co-requisites: 601-133

Complete Course Listing

601-135 Motors and Motor Controls
Credits: 3

This course is designed to give the student an understanding of the operation of various types of control devices and how combinations of these devices can be applied and varied to secure the desired conditions in heating and cooling systems. Students will interpret and draw in depth wiring diagrams using actual HVAC/R equipment. Computers will also be utilized in the studying of wiring diagrams. This course is mostly application oriented, with a review of electrical theory and safety.

Aid Code: 10 - Associate Degree.

Pre-requisites: (601-123)

Complete Course Listing

601-136 Split Phase Motor Identification, Testing and Replacement
Credits: 1

Split Phase Motor Identification, Testing and Replacement is designed to examine motor identification, motor troubleshooting procedures and fan motor replacement. This course also reviews the basics of electrical theory and safety.

Aid Code: 10 - Associate Degree.

Pre-requisites: 601-122

Complete Course Listing

601-137 Variable Speed Motors, Current Relays, Potential Relays and PTC Relays
Credits: 1

Variable Speed Motors, Current Relays, Potential Relays and PTC Relays examines how to wire and troubleshoot single phase motor starting components. In addition, students test the operation of ECM motors.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-136)

Complete Course Listing

601-138 Transformers, Contactors, Relays and Motor Starters
Credits: 1

Transformers, Contactors, Relays and Motor Starters will introduce students to transformers, contactors, relays and motor starters. Students will gain hands-on experience through the application and analysis of wired lab boards and testing on HVAC/R equipment.

Aid Code: 10 - Associate Degree.

Co-requisites: 601-136

Complete Course Listing

601-140 Control Circuit Applications
Credits: 3

This course is designed to teach systems application of electrical controls in the HVAC/R field. Control Circuit Applications will continue to emphasize the understanding of wiring diagrams along with troubleshooting controls, mechanical and electro-mechanical controls, electronic control circuits, and HVAC/R control applications. This course is a combination of lab and theory.

Aid Code: 10 - Associate Degree.

Pre-requisites: (601-135)

Complete Course Listing

601-141 Gas Pipe Sizing, Gas Regulators and Gas Valves
Credits: 1

Gas Pipe Sizing, Gas Regulators and Gas Valves will examine the principles of natural gas heat as applied to residential heating systems. In addition, the student will apply proper gas piping techniques and will gas pipe a residential furnace. Testing/adjusting gas pressure on gas regulators and gas valves will also be analyzed and completed.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-142 Residential Gas Furnaces**Credits:** 1

Residential Gas Furnaces will study gas heating operating and safety controls. Testing of these controls on residential and light commercial heating systems will be practiced and applied.

Aid Code: 10 - Associate Degree.**Co-requisites:** (601-141)

Complete Course Listing

601-143 Electric Heat and Air-to-Air Residential Heat Pump Systems**Credits:** 1

Electric Heat and Air-to-Air Residential Heat Pump Systems will teach residential clean/tunes, the operation and testing of electric baseboard heating systems and split system air to air residential heat pumps with electric heat.

Aid Code: 10 - Associate Degree.**Co-requisites:** (601-142)

Complete Course Listing

601-145 Heating Systems Applications**Credits:** 3

Heating System Applications covers the operation, maintenance and service of gas, propane and oil fired heating equipment. In addition, this class will also cover the operation and service procedure for heat pumps. This course is a balance of theory and application.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (601-130)

Complete Course Listing

601-146 Flaring, Swagging and Soldering Copper Pipe**Credits:** 1

Flaring, Swagging and Soldering Copper Pipe utilizes safe copper piping industry skills. Students will learn to use tools to cut, ream, flare, bend and anneal copper pipe to specifications. Copper piping assemblies will be measured and cut to specifications and soldered in a variety of orientations to simulate a variety of real life applications.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-147 Air Acetylene and Oxy-Acetylene Brazing Copper Pipe**Credits:** 1

Air Acetylene and Oxy-Acetylene Brazing Copper Pipe has students measure and cut copper pipe to specifications and braze in a variety of orientations to simulate a variety of real life applications utilizing both air acetylene and oxy-acetylene.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-148 Refrig Recov, Deep Evac and Charging of Residential, Light Commercial, Geothermal and Ice Mach Equip**Credits:** 1

Refrigeration Recovery, Deep Evacuation and Charging of Residential, Light Commercial, Geothermal and Ice Machine Equipment has students recover refrigerant from a cylinder, residential split system, light commercial package gas/electric system, geothermal heat pump and an ice machine. After the refrigerant is recovered the student will perform a deep evacuation on the system. After the appropriate evacuation level is achieved, the student will utilize the manufacturer's literature and charge the system with the correct amount of refrigerant. Refrigerant handling and safety will be enforced in the lab.

Aid Code: 10 - Associate Degree.**Co-requisites:** 601-132

Complete Course Listing

601-149 Refrig Recovery, Triple Evacuation and Charging of Heat Pumps and Refrig Equipment and EPA Test**Credits:** 1

Refrigeration Recovery, Triple Evacuation and Charging of Heat Pumps and Refrigeration Equipment and EPA Test will have the student recover refrigerant from a residential split heat pump system, a mini-split heat pump system, a walk-in cooler system and a reach-in frozen food system. After the refrigerant is recovered the student will perform a triple evacuation on the system. After the appropriate evacuation level is achieved, the student will utilize the manufacturer's literature and charge the system with the correct amount of refrigerant. After the student has mastered the skills of recovery, evacuation, and charging the EPA Section 608 test will be administered. Refrigerant handling and safety will be enforced in the lab.

Aid Code: 10 - Associate Degree.**Co-requisites:** (601-148)

Complete Course Listing

601-151 Residential Split and Light Commercial Package Gas/Electric Cooling Applications**Credits:** 1

Residential Split and Light Commercial Package Gas/Electric Cooling Applications provides the student with hands-on servicing experience of window air conditioners, residential split systems, packaged light commercial air conditioners.

Aid Code: 10 - Associate Degree.**Co-requisites:** (601-132) and (601-138)

Complete Course Listing

601-152 Residential Air-to-Air and Geothermal Heat Pump Systems Cooling Applications**Credits:** 1

Residential Air-to-Air and Geothermal Heat Pump Systems Cooling Applications provides students with hands-on servicing experience of air-to-air heat pumps, geothermal heat pumps and water cooled unitary cooling systems.

Aid Code: 10 - Associate Degree.**Co-requisites:** (601-132) and (601-138)

Complete Course Listing

601-153 Commercial - Package, Split DX and Chilled Water A/C Applications
Credits: 1

Commercial - Package, Split DX and Chilled Water A/C Applications provides students with hands-on servicing experience on high efficiency packaged commercial air conditioners, commercial split systems and water to air commercial chiller systems.

Aid Code: 10 - Associate Degree.
Co-requisites: (601-132) and (601-138)
Complete Course Listing

601-156 Refrigeration and HVAC Temperature Control Systems
Credits: 1

Refrigeration and HVAC Temperature Control Systems tests the operation of transformers, capacitors, relays, contactors and motor starters on HVAC/R systems. In addition, wiring diagrams will be created from circuit descriptions for temperature controls, solenoids, thermostats and defrost clocks. The wiring diagrams will be used to wire these components on lab boards. Testing of temperature controls, solenoids, thermostats and defrost clocks and on actual equipment will be performed as well.

Aid Code: 10 - Associate Degree.
Co-requisites: 601-138
Complete Course Listing

601-157 Refrigeration and A/C Control Systems
Credits: 1

Refrigeration and A/C Control Systems is designed to teach the applications of the high pressure control, low pressure control and oil pressure safety control on a refrigeration system. Students will draw the pictorial and schematic wiring diagrams for the recycling and non-recycling pump down circuit. In addition, the student will wire and test pump down controls on lab boards and test the pump down control system on a reach-in frozen food system. Finally, the students will test the operation of the KE2 energy management refrigeration pump down control system utilizing the front end controller and internet-based control system.

Aid Code: 10 - Associate Degree.
Co-requisites: (601-156)
Complete Course Listing

601-158 Heating and Package Gas/Electric Control Systems
Credits: 1

Heating and Package Gas/Electric Control Systems teaches gas heating control system and package gas electric control systems. Students will test the control system operation on direct fired residential furnaces. In addition, students will wire and test indirect ignition control systems on lab boards and on heating systems. Finally students will test the control system on a package gas/electric package unit.

Aid Code: 10 - Associate Degree.
Co-requisites: 601-142
Complete Course Listing

601-161 Advanced Compressors, Condensers, Metering Devices, and Evaporators
Credits: 1

Advanced Compressors, Condensers, Metering Devices, and Evaporators examines cylinder handling safety and refrigerant safety. In addition, refrigeration service valves will be adjusted and set to achieve gauge readings and to pump down a system. Air conditioning and refrigeration evaporators and condensers will be tested under various load conditions. Advanced compressor and metering device applications will also be tested.

Aid Code: 10 - Associate Degree.
Co-requisites: (601-132)
Complete Course Listing

601-162 Walk-in Coolers/Freezers and Reach-in Freezers
Credits: 1

Walk-in Coolers/Freezers and Reach-in Freezers teaches students to test the operation of reach-in freezers and walk-in freezers. Through hands-on lab activities, students will review the refrigeration fundamentals and apply these to fix and troubleshoot operation of varying units.

Aid Code: 10 - Associate Degree.
Co-requisites: 601-161
Complete Course Listing

601-163 Ice Machines
Credits: 1

Students in this course will test the operation of cube and flake ice machines. Through hands-on lab activities, students will review the refrigeration fundamentals and apply these to fix and troubleshoot operation of varying units.

Aid Code: 10 - Associate Degree.
Co-requisites: 601-161
Complete Course Listing

601-165 Electronic Energy Management Systems
Credits: 3

Major types of automatic electrical control systems are described and compared. Programs, sensing and control points, signal transmission and processing, and other peripheral equipment which make up a complete building monitoring and control automation system are also explored. Students will be able to utilize computer controls either on the HVAC/R equipment or at a computer station to evaluate equipment operation. This course is a mixture of lecture along with some lab work.

Aid Code: 10 - Associate Degree.
Pre-requisites: (601-140) and (804-308 or 804-114)
Complete Course Listing

601-166 Residential, Light Commercial Package Gas/Electric and Refrigeration Control Systems
Credits: 1

Residential, Light Commercial Package Gas/Electric and Refrigeration Control Systems covers the advanced control circuit applications applied to residential split systems, package gas/electric systems and refrigerated fixtures with remote condensing units. In addition, an E2 system controlling a reach-in frozen food case will be programmed and tested.

Aid Code: 10 - Associate Degree.

Pre-requisites: (601-158)

Complete Course Listing

601-167 Commercial Package Gas/Electric BAS
Credits: 1

Commercial Package Gas/Electric BAS has students test the operation of Trane Precedent and Voyager Constant Volume RTUs through the Trane SC energy management system. In addition, the Lennox Prodigy system will be tested and results analyzed on a RTU.

Aid Code: 10 - Associate Degree.

Pre-requisites: (601-158)

Complete Course Listing

601-168 Commercial Split and Geothermal BAS
Credits: 1

Commercial Split and Geothermal BAS will have the KE2 Low Temp + Defrost control system tested. In addition, Trane SC control of a commercial air handler with a DX split system and an in-line duct furnace supplying air to zoned re-heat boxes will be tested. Also a commercial air handler with a chiller and chilled water coil, a hydronic boiler and hot water coil hot with zoned water re-heat coils will be tested. Finally, the Trane SC wireless energy management system controlling the operation of the geothermal heat pumps will be tested.

Aid Code: 10 - Associate Degree.

Pre-requisites: (601-158)

Complete Course Listing

601-170 Heating, Ventilation, Air Conditioning and Refrigeration (HVAC/R) Service Internship
Credits: 3

Students will have the opportunity to apply their classroom experience on the job. Local HVAC/R contractors have shown great interest in the program and are willing to accept students for internship. Internship time can be accrued throughout the two-year program to achieve a total of 108 hours.

Aid Code: 10 - Associate Degree.

Complete Course Listing

601-171 Residential Split System Gas and Refrigeration Pipe Installation
Credits: 1

Residential Split System Gas and Refrigeration Pipe Installation teaches the student to install black gas pipe and ACR piping on a split residential system. The student will perform basic residential load calculation and duct sizing using industry standard software. The student will use information gathered to select the correct HVAC system for the application. The student will install a gas fired furnace along with a condensing unit, evaporator, gas piping and refrigeration piping.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-141) and (601-147)

Complete Course Listing

601-172 Residential Split System Duct and Controls System Installation and Start-up
Credits: 1

In Residential Split System Duct and Controls System Installation and Start-up students will be involved in the fabrication and installation of duct work on a residential furnace. In addition, a zoning control system will be installed by students and start up tests will be performed per manufacturers' instruction.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-171)

Complete Course Listing

601-173 Split Refrigeration System Installation
Credits: 1

In Split Refrigeration System Installation students will be involved in piping, wiring and starting-up of a refrigeration pump down system. The system tests will be performed and checked by students using industry standards.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-147) and (601-157)

Complete Course Listing

601-176 Residential Oil Heat, Dual Fuel Systems and Two Stage Heat Pump Heating Applications
Credits: 1

Residential Oil Heat, Dual Fuel Systems and Two Stage Heat Pump Heating Applications teaches residential oil furnaces, dual fuel heating systems and residential 2 stage heat pumps. Students will be introduced to the various components that make up these systems and will be able to troubleshoot, maintain and service this equipment per manufacturer's instructions.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-142)

Complete Course Listing

601-177 Mini-Split, Light Commercial Gas/Electric Package and Unit Heater Heating Applications
Credits: 1

Mini-Split, Light Commercial Gas/Electric Package and Unit Heater Heating Applications teaches mini-split heat pump systems, gas fired unit heaters and light commercial gas/electric systems. Students will be introduced to the various components that make up these systems and will be able to troubleshoot, maintain and service this equipment per manufacturer's instructions.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-142)

Complete Course Listing

601-178 Commercial-Package Gas/Electric , Hydronic and In-Line Duct Heating Applications
Credits: 1

Commercial-Package Gas/Electric , Hydronic and In-Line Duct Heating Applications teaches commercial package gas/electric systems. This class will also instruct on commercial air handlers with in-line duct furnace and electric zone re-heat VAVS. Finally students will receive instruction on commercial air handlers with hydronic heat and hot water VAV re-heat coils. Students will be introduced to the various components that make up these systems and will be able to troubleshoot, maintain and service this equipment per manufacturer's instructions.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-142)

Complete Course Listing

601-181 Hydronic Systems Theory
Credits: 1

Hydronic Systems Theory involves instruction on system design of hydronic and steam systems. Students will be able to distinguish the differences between systems and have an understanding of the different applications for each system.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-142)

Complete Course Listing

601-182 Hydronic Systems Design and Mechanical Installation
Credits: 1

In Hydronic Systems Design and Mechanical Installation, students engage in system installation on hydronic and steam systems. Students prepare and install the systems they designed in Hydronic Systems Theory.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-143) and (601-146) and (601-181)

Complete Course Listing

601-183 Hydronic Systems Controls and Start-up
Credits: 1

Hydronic Systems Controls and Start-up has students install a zone control system on a hydronic system and perform a system start-up.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-182)

Complete Course Listing

601-185 Service and Troubleshooting HVAC/R 2
Credits: 1

This course is a continuation of Service and Troubleshooting HVAC/R 1. Students will continue to apply various methods of troubleshooting and servicing of HVAC/R systems. Utilizing manufacturer's guidelines and service tools, the student navigate customer relations, display mechanical aptitude and demonstrate bookkeeping skills that are essential to becoming a well rounded service technician.

Aid Code: 10 - Associate Degree.

Pre-requisites: (601-143) and (601-153) and (601-158) and (601-163)

Complete Course Listing

601-186 Service and Troubleshooting HVAC/R 3
Credits: 1

This course is a continuation of Service and Troubleshooting HVAC/R 2. Students will continue to analyze and troubleshoot issues while servicing HVAC/R systems. Utilizing manufacturer's guidelines and service tools, the student navigate customer relations, display mechanical aptitude and demonstrate bookkeeping skills that are essential to becoming a well rounded service technician.

Aid Code: 10 - Associate Degree.

Pre-requisites: (601-143) and (601-153) and (601-158) and (601-163)

Complete Course Listing

601-187 Industrial Competency Exam Preparation
Credits: 1

Students engage in a comprehensive review of all applications and experiences from program courses. Students will engage in discussion and take practice exams that will enable them to hone their skills and knowledge in preparation for the Industrial HVAC Comprehensive Licensing Exam.

Aid Code: 10 - Associate Degree.

Co-requisites: (601-143) and (601-153) and (601-158) and (601-163)

Complete Course Listing

Automobile-Mechanical (404)

Information provided includes course descriptions by subject only. For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

404-100 Service Fundamentals 1
Credits: 1

In this course students will demonstrate basic hand tool applications, identify and practice service facility safety procedures, and identify careers and certifications in the automotive service sector.

Aid Code: 10 - Associate Degree.

Complete Course Listing

404-101 Service Fundamentals 2
Credits: 1

In this course students will demonstrate basic power tool applications, identify and practice equipment and lift safety procedures, and use comprehensive and manufacturer shop manuals to perform basic under-hood and under-car services.

Aid Code: 10 - Associate Degree.

Complete Course Listing

404-102 Brake Service 1**Credits:** 1

In this course students will define the purpose and function of hydraulic brake system components. Additionally, they will measure and inspect hydraulic brake system components to diagnose repairs. Students will practice safety protocols and general brake services and procedures.

Aid Code: 10 - Associate Degree.

Complete Course Listing

404-103 Brake Service 2**Credits:** 1

In this course students will define the purpose and function of disc brake system components. Additionally, they will measure and inspect disc brake system components and perform repairs on those components.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-102)

Complete Course Listing

404-104 Brake Service 3**Credits:** 1

In this course students will describe the purpose and function of drum brake system components. Additionally, they will measure and inspect drum brake system components and perform maintenance and repair on those components.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-103)

Complete Course Listing

404-105 Brake Service 4**Credits:** 1

In this course students will define the purpose and function of wheel bearings and common electronic brake control systems. They will perform maintenance and repair tasks on wheel bearings and electronic brake control systems.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-104)

Complete Course Listing

404-106 Steering & Suspension 1**Credits:** 1

In this course the student will define the functions and features of wheels and tires, including safety features, distortion, and center of gravity. They will perform tire maintenance and repair procedures.

Aid Code: 10 - Associate Degree.

Complete Course Listing

404-107 Steering & Suspension 2**Credits:** 1

In this course students will define the functions and features of steering systems. They will perform diagnosis, maintenance, and repair on various steering systems.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-106)

Complete Course Listing

404-108 Steering & Suspension 3**Credits:** 1

In this course students will define the purpose and function of suspension systems and various components. Students will perform maintenance and repair on suspension systems.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-107)

Complete Course Listing

404-109 Steering & Suspension 4**Credits:** 1

In this course students will define the purpose and function of wheel alignment and perform wheel alignment. Students will also identify wheel alignment problems given various diagnostic scenarios.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-108)

Complete Course Listing

404-110 Engine Repair 1**Credits:** 1

In this course students will define the purpose and function of components of automobile engines and remove, inspect, and reinstall engines. Additionally, students will diagnose and repair cylinder head and valve train problems.

Aid Code: 10 - Associate Degree.

Complete Course Listing

404-111 Engine Repair 2**Credits:** 1

In this course students will define the purpose and function of components of automobile engine block assemblies. Students will practice diagnosing and repairing engine block assembly problems.

Aid Code: 10 - Associate Degree.**Co-requisites:** (404-110)

Complete Course Listing

404-112 Engine Repair 3**Credits:** 1

In this course students will define the purpose and function of components of engine lubrication and cooling systems. Students will practice diagnosing and repairing lubrication and cooling system assembly problems.

Aid Code: 10 - Associate Degree.**Co-requisites:** (404-111)

Complete Course Listing

404-113 Engine Repair 4**Credits:** 1

In this course students will define the purpose and function of components of engine ignition and fuel systems. Students will practice diagnosing engine condition, as well as inspecting and testing the impact of the ignition and fuel systems on engine performance.

Aid Code: 10 - Associate Degree.**Co-requisites:** (404-112)

Complete Course Listing

404-114 Drive Train Service 1

Credits: 1

In this course students will explore the principles and theory of the manual transmission transaxle system. Students will also define the function and purpose of components of the clutch system.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-115 Drive Train Service 2

Credits: 1

In this course students will practice diagnosis and maintenance of the manual transmission transaxle system.

Aid Code: 10 - Associate Degree.

Co-requisites: (404-114)

[Complete Course Listing](#)

404-116 Drive Train Service 3

Credits: 1

In this course students will define the function and purpose of components of drive shafts, axles, final drives, 4-wheel drive systems, and all-wheel drive systems. Students will practice inspection, repair, and maintenance of these systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (404-115)

[Complete Course Listing](#)

404-117 Heating & Air Conditioning Service 1

Credits: 1

In this course students will explore the principles and basic functions of automobile heating and air conditioning systems.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-118 Heating & Air Conditioning Service 2

Credits: 1

In this course students will practice and demonstrate their ability to inspect, repair, and maintain heating and air conditioning systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (404-117)

[Complete Course Listing](#)

404-119 Heating & Air Conditioning Service 3

Credits: 1

In this course students will define the function and purpose of components of electronic climate control systems. Students will demonstrate their ability to inspect, repair, and maintain electronic climate control systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (404-118)

[Complete Course Listing](#)

404-120 Heating & Air Conditioning Service 4

Credits: 1

In this course students will explore the function and principles behind air conditioning system refrigerant recovery and charging.

Aid Code: 10 - Associate Degree.

Co-requisites: (404-119)

[Complete Course Listing](#)

404-121 Electrical Service 1

Credits: 1

In this course students will define the purpose and function of different types of circuits, (series, parallel and series-parallel). Students will demonstrate how to calculate volts, amps and ohms.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-122 Electrical Service 2

Credits: 1

In this course, students will practice and demonstrate their ability to follow schematics and diagrams, use automotive information systems, and trace the flow of current from battery, through the load to ground.

Aid Code: 10 - Associate Degree.

Co-requisites: (404-121)

[Complete Course Listing](#)

404-123 Electrical Service 3

Credits: 1

In this course students will practice and demonstrate the use a digital meter to test and analyze vehicle circuits.

Aid Code: 10 - Associate Degree.

Pre-requisites: (404-122)

[Complete Course Listing](#)

404-124 Electrical Service 4

Credits: 1

In this course students will demonstrate their ability to analyze starting and charging circuit voltage drops, diagnose parasitic drain, and identify problems using schematics and digital meters. Students will be able to define the purpose and function of relays.

Aid Code: 10 - Associate Degree.

Pre-requisites: (404-123)

[Complete Course Listing](#)

404-125 Electronic Engine Control Fundamentals 1

Credits: 1

In this course students will practice and demonstrate the use of an automotive oscilloscope to view waveforms.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-126 Electronic Engine Control Fundamentals 2

Credits: 1

In this course students will define the purpose and function of scan tools, temperature sensors, and throttle position sensors. Students will demonstrate how to test temperature sensors and throttle position sensors using a scan tool and oscilloscope.

Aid Code: 10 - Associate Degree.

Pre-requisites: (404-125)

[Complete Course Listing](#)

404-127 Electronic Engine Control Fundamentals 3**Credits:** 1

In this course students will identify the application of manifold absolute pressure and barometric pressure to mass air flow sensors. Students will define how automotive computers use mass air flow sensors. Students will practice and demonstrate their ability to test these sensors using a scan tool and oscilloscope.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-126)

Complete Course Listing

404-128 Electronic Engine Control Fundamentals 4**Credits:** 1

In this course students will define the purpose and function of oxygen sensors. Students will practice and demonstrate how to test oxygen sensors using a scan tool and oscilloscope.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-127)

Complete Course Listing

404-129 Electronic Engine Control Diagnosis 1**Credits:** 1

In this course students will demonstrate their ability to diagnose and analyze vehicle emission and drivability problems by using a scan tool in conjunction with diagnostic codes and automotive computer modes.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-128 or 404-351)

Complete Course Listing

404-130 Electronic Engine Control Diagnosis 2**Credits:** 1

In this course students will practice and diagnose proper operation of vehicle computer control and engine systems using a scan tool and information from oxygen sensors, fuel trim, and automotive computer monitors.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-129)

Complete Course Listing

404-131 Computerized Fuel Systems Service 1**Credits:** 1

In this course students will define the purpose and function of components of computerized fuel systems. Students will practice and demonstrate their ability to diagnose, test, and repair mechanical and electrical components of computerized fuel systems.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-130 or 404-357)

Complete Course Listing

404-132 Computerized Fuel Systems Service 2**Credits:** 1

In this course students will define the purpose and function of various types of injectors. Students will explore the interaction between injector pulse width and the use of fuel trim as a diagnostic tool. Students will demonstrate their ability to test injector operation.

Aid Code: 10 - Associate Degree.**Co-requisites:** (404-131)

Complete Course Listing

404-133 Engine Performance Testing 1**Credits:** 1

In this course students will demonstrate their ability to diagnose and assess the operation of the ignition system.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-130 or 404-357)

Complete Course Listing

404-134 Engine Performance Testing 2**Credits:** 1

In this course students will define the purpose and function of the battery starting and charging system. Students will demonstrate their ability to test for parasitic drain and to test and diagnose the battery systems using an oscilloscope, scan tool, and multi-meter.

Aid Code: 10 - Associate Degree.**Co-requisites:** (404-133)

Complete Course Listing

404-135 Engine Performance Testing 3**Credits:** 1

In this course students will define the relationship of the engine control systems and emission monitors. Students will demonstrate their ability to repair drivability problems related to these systems, as well as how to diagnose them.

Aid Code: 10 - Associate Degree.**Co-requisites:** (404-134)

Complete Course Listing

404-136 Engine Performance Testing 4**Credits:** 1

In this course students will review and demonstrate comprehensive ability in the skills typically introduced during the first year of the program, including safety practices and the inspection and repair of brake systems, steering and suspension systems, engine systems, drive train systems, and heating and air conditioning systems.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-135)

Complete Course Listing

404-137 Drive Train/Transaxle Testing 1**Credits:** 1

In this course students will define the purpose and function of automatic transmissions and their components. Students will demonstrate their ability to inspect, diagnose, and maintain automatic transmissions.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-130 or 404-357)

Complete Course Listing

404-138 Drive Train/Transaxle Testing 2**Credits:** 1

In this course students will define the purpose and function of the torque converter clutch. Additionally, students will demonstrate the ability to diagnose automatic transmission problems using a scan tool, and to differentiate between engine and transmission drivability problems.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (404-137)

Complete Course Listing

404-139 Auto Machine Shop

Credits: 1

In this course students will practice and demonstrate essential machining skills used in automotive service facilities, including oxygen acetylene torch cutting and heating, repairing bolt threads, machining brake rotors on-and-off vehicle, and the use of a manual brake lathe.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-140 Service Simulation

Credits: 2

This course will allow students to visit dealerships, independent shops, and auto repair franchises to observe operations, procedures, and equipment of an operating shop or business.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-141 Service Management

Credits: 1

In this course students explore state and federal regulations concerning automotive servicing. Students will demonstrate their ability follow documentation procedures common to automotive service facilities.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-142 Emission Control Service and Certification

Credits: 1

In this course students will demonstrate the use of diagnostic equipment to diagnose, adjust, replace, and repair emission-related components and parts.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-143 ASE Certification

Credits: 1

In this course students demonstrate readiness to complete ASE Certification through review of suspension and steering systems, electrical reading, and brake systems.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-144 Service Internship

Credits: 2

This course provides students with the opportunity to demonstrate automotive inspection, repair, and maintenance skills in an operating service facility. Students will also complete a comprehensive report on their experiences after meeting the internship requirements.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-145 Customer Service Fundamentals

Credits: 2

In this course students will explore principles of successful customer service and relations. Students will demonstrate skills in relationship building and management through practical interviews and role-playing.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

404-338 Service Fundamentals

Credits: 2

Introduction to the automotive service facility. Safety, basic hand tool and power tools application is defined to help the prospective automobile technician work safely and efficiently. Students will learn how to use both comprehensive and manufacturer's shop manuals to perform basic under-hood and under-car services.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-339 Engine Service

Credits: 4

This course is designed to introduce the student to the theory of gasoline engine operation and design. The course also includes methods of diagnosis, disassembly, measurement, and reassembly. Emphasis is placed upon diagnostic ability and skill development.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-342 Heating & Air Conditioning Service

Credits: 4

This course provides a basic understanding of the automobile cooling and air conditioning system. Theory of air conditioning is defined. Emphasis is placed on laboratory performance and related skills development.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-343 Automotive Machine Shop

Credits: 1

This course is designed to acquaint the student with automotive machine shop practices. It gives the student an opportunity to correctly use tools such as the outside micrometer, telescoping gauge, drill press, brake rotor and drum lathe, and other measuring instruments. Both English and metric systems are covered in this course.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-345 Brake Service

Credits: 4

The student is introduced to the fundamentals of automotive brake systems including drum, disc, hydraulic, power, and antilock systems. Brake measurement is a high priority.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-346 Steering & Suspension Service

Credits: 4

The student is introduced to basic wheel alignment, suspension systems, and steering systems. Computerized four-wheel alignment is a high priority in this course.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-347 Drive Train Service 1**Credits:** 3

This course is designed to introduce the student to the fundamentals of the power train. Emphasis is placed on the diagnosis and repair of differentials and manual transmissions.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-348 Service Simulation**Credits:** 2

This course is designed to introduce the student to shop operating procedures. Students can obtain credit for part-time employment in an automotive related work environment.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-350 ASE Certification Review**Credits:** 1

This course is designed to prepare the student for ASE certification.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-351 Electronic Engine Control Fundamentals**Credits:** 4

This course is designed to introduce the student to computerized engine controls and related electrical components. Emphasis is placed on theory of operation and diagnostics using state of the art diagnostic equipment. Special emphasis will be placed on skillfully understanding and using shop manuals for related systems.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-352 Computerized Fuel Systems Service**Credits:** 2

The student is introduced to various computerized fuel systems. Topics covered are: electronic fuel injection, throttle body injection systems, port fuel injection, multi-port injection systems and sequential injection systems. Emphasis is placed on diagnostics and development of skills in using sophisticated diagnostic equipment.

Aid Code: 32 - Two-year Technical Diploma.**Pre-requisites:** (404-357)

Complete Course Listing

404-353 Emission Control Service and Certification**Credits:** 1

This course is designed to help the student develop skills necessary to diagnose, adjust, replace, or repair emission related component parts by skillfully demonstrating the use of diagnostic equipment.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-355 Drive Train/Transaxle Service II**Credits:** 2

This course is designed to introduce the student to automatic transmission and transaxle service.

Aid Code: 32 - Two-year Technical Diploma.**Pre-requisites:** (404-357)

Complete Course Listing

404-356 Electrical Service**Credits:** 4

This course is designed to help the students learn how to diagnose and repair electrical problems related to automobile accessories. Emphasis is placed on skillfully understanding and testing procedures necessary for repair.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-357 Electronic Engine Control Diagnosis**Credits:** 2

This course is a composite of all computerized systems. Emphasis is placed on electrical skills, diagnostic procedure, driveability problems, and repair. An over view of engine computer function, computerized fuel delivery, emission controls, and computer chassis control is included.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-351)

Complete Course Listing

404-358 Service Internship**Credits:** 2

Students wishing for hands-on shop experience can obtain two credits for on-the-job training related directly and in cooperation with a service facility. Prior consent of automotive instructor is required. The student completes a comprehensive study after successfully completing the intern requirements.

Aid Code: 32 - Two-year Technical Diploma.**Pre-requisites:** (404-357)

Complete Course Listing

404-612 Auto Mechanics For Women**Credits:** .65**Aid Code:** 60 - Adult Avocational.

Complete Course Listing

404-650 Service Fundamentals 1**Credits:** 1

In this course students will demonstrate basic hand tool applications, identify and practice service facility safety procedures, and identify careers and certifications in the automotive service sector.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-651 Service Fundamentals 2**Credits:** 1

In this course students will demonstrate basic power tool applications, identify and practice equipment and lift safety procedures, and use comprehensive and manufacturer shop manuals to perform basic under-hood and under-car services.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-100 or 404-650)

Complete Course Listing

404-652 Brake Service 1

Credits: 1

In this course students will define the purpose and function of hydraulic brake system components. Additionally, they will measure and inspect hydraulic brake system components to diagnose repairs. Students will practice safety protocols and general brake services and procedures.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-653 Brake Service 2

Credits: 1

In this course students will define the purpose and function of disc brake system components. Additionally, they will measure and inspect disc brake system components and perform repairs on those components.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-102 or 404-652)

[Complete Course Listing](#)

404-654 Brake Service 3

Credits: 1

In this course students will describe the purpose and function of drum brake system components. Additionally, they will measure and inspect drum brake system components and perform maintenance and repair on those components.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-103 or 404-653)

[Complete Course Listing](#)

404-655 Brake Service 4

Credits: 1

In this course students will define the purpose and function of wheel bearings and common electronic brake control systems. They will perform maintenance and repair tasks on wheel bearings and electronic brake control systems.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-104 or 404-654)

[Complete Course Listing](#)

404-656 Steering & Suspension 1

Credits: 1

In this course the student will define the functions and features of wheels and tires, including safety features, distortion, and center of gravity. They will perform tire maintenance and repair procedures.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-657 Steering & Suspension 2

Credits: 1

In this course students will define the functions and features of steering systems. They will perform diagnosis, maintenance, and repair on various steering systems.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-106 or 404-656)

[Complete Course Listing](#)

404-658 Steering & Suspension 3

Credits: 1

In this course students will define the purpose and function of suspension systems and various components. Students will perform maintenance and repair on suspension systems.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-107 or 404-657)

[Complete Course Listing](#)

404-659 Steering & Suspension 4

Credits: 1

In this course students will define the purpose and function of wheel alignment and perform wheel alignment. Students will also identify wheel alignment problems given various diagnostic scenarios.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-108 or 404-658)

[Complete Course Listing](#)

404-660 Auto Machine Shop

Credits: 1

In this course students will practice and demonstrate essential machining skills used in automotive service facilities, including oxygen acetylene torch cutting and heating, repairing bolt threads, machining brake rotors on-and-off vehicle, and the use of a manual brake lathe.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-661 Service Simulation

Credits: 2

This course will allow students to visit dealerships, independent shops, and auto repair franchises to observe operations, procedures, and equipment of an operating shop or business.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-662 Engine Repair 1

Credits: 1

In this course students will define the purpose and function of components of automobile engines and remove, inspect, and reinstall engines. Additionally, students will diagnose and repair cylinder head and valve train problems.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-663 Service Management

Credits: 1

In this course students explore state and federal regulations concerning automotive servicing. Students will demonstrate their ability follow documentation procedures common to automotive service facilities.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-664 Engine Repair 2**Credits:** 1

In this course students will define the purpose and function of components of automobile engine block assemblies. Students will practice diagnosing and repairing engine block assembly problems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-110 or 404-662)

Complete Course Listing

404-665 Engine Repair 3**Credits:** 1

In this course students will define the purpose and function of components of engine lubrication and cooling systems. Students will practice diagnosing and repairing lubrication and cooling system assembly problems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-111 or 404-664)

Complete Course Listing

404-666 Engine Repair 4**Credits:** 1

In this course students will define the purpose and function of components of engine ignition and fuel systems. Students will practice diagnosing engine condition, as well as inspecting and testing the impact of the ignition and fuel systems on engine performance.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-112 or 404-665)

Complete Course Listing

404-667 Drive Train Service 1**Credits:** 1

In this course students will explore the principles and theory of the manual transmission transaxle system. Students will also define the function and purpose of components of the clutch system.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-668 Drive Train Service 2**Credits:** 1

In this course students will practice diagnosis and maintenance of the manual transmission transaxle system.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-114 or 404-667)

Complete Course Listing

404-669 Drive Train Service 3**Credits:** 1

In this course students will define the function and purpose of components of drive shafts, axles, final drives, 4-wheel drive systems, and all-wheel drive systems. Students will practice inspection, repair, and maintenance of these systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-115 or 404-668)

Complete Course Listing

404-670 Heating & Air Conditioning Service 1**Credits:** 1

In this course students will explore the principles and basic functions of automobile heating and air conditioning systems.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-671 Heating & Air Conditioning Service 2**Credits:** 1

In this course students will practice and demonstrate their ability to inspect, repair, and maintain heating and air conditioning systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-117 or 404-670)

Complete Course Listing

404-672 Heating & Air Conditioning Service 3**Credits:** 1

In this course students will define the function and purpose of components of electronic climate control systems. Students will demonstrate their ability to inspect, repair, and maintain electronic climate control systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-118 or 404-671)

Complete Course Listing

404-673 Heating & Air Conditioning Service 4**Credits:** 1

In this course students will explore the function and principles behind air conditioning system refrigerant recovery and charging.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-119 or 404-672)

Complete Course Listing

404-674 ASE Certification Review**Credits:** 1

In this course students demonstrate readiness to complete ASE Certification through review of suspension and steering systems, electrical reading, and brake systems.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-675 Electrical Service 1**Credits:** 1

In this course students will examine the use of a digital multi-meter. Students will demonstrate how to diagnose, test and analyze vehicle circuits.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

404-676 Electrical Service 2**Credits:** 1

In this course, students will examine electrical theory as well as the purpose and function of the following types of circuits: series, parallel, and series-parallel. Students will calculate volts, and amps, using Ohms Law of Resistance.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-121 or 404-675)

Complete Course Listing

404-677 Electrical Service 3

Credits: 1

In this course students will examine automotive wiring schematics and diagrams. Students will demonstrate the ability to navigate automotive service information systems and trace the flow of current from the battery through and from the load to ground.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-122 or 404-676)

[Complete Course Listing](#)

404-678 Electrical Service 4

Credits: 1

In this course students will examine the starting and charging system, voltage drops, and parasitic drains. Students will identify electrical problems using schematics and a digital multi-meter by defining the purpose and functionality of relays.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-123 or 404-677)

[Complete Course Listing](#)

404-679 Electronic Engine Control Fundamentals 1

Credits: 1

In this course students will practice and demonstrate the use of an automotive oscilloscope to view waveforms.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-680 Electronic Engine Control Fundamentals 2

Credits: 1

In this course students will define the purpose and function of scan tools, temperature sensors, and throttle position sensors. Students will demonstrate how to test temperature sensors and throttle position sensors using a scan tool and oscilloscope.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-125 or 404-679)

[Complete Course Listing](#)

404-681 Electronic Engine Control Fundamentals 3

Credits: 1

In this course students will identify the application of manifold absolute pressure and barometric pressure to mass air flow sensors. Students will define how automotive computers use mass air flow sensors. Students will practice and demonstrate their ability to test these sensors using a scan tool and oscilloscope.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-126 or 404-680)

[Complete Course Listing](#)

404-682 Electronic Engine Control Fundamentals 4

Credits: 1

In this course students will define the purpose and function of oxygen sensors. Students will practice and demonstrate how to test oxygen sensors using a scan tool and oscilloscope.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-127 or 404-681)

[Complete Course Listing](#)

404-683 Electronic Engine Control Diagnosis 1

Credits: 1

In this course students will demonstrate their ability to diagnose and analyze vehicle emission and drivability problems by using a scan tool in conjunction with diagnostic codes and automotive computer modes.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-128 or 404-351 or 404-682)

[Complete Course Listing](#)

404-684 Electronic Engine Control Diagnosis 2

Credits: 1

In this course students will demonstrate their ability to diagnose and analyze vehicle emission and drivability problems by using a scan tool in conjunction with diagnostic codes and automotive computer modes.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-129 or 404-683)

[Complete Course Listing](#)

404-685 Emission Control Service and Certification

Credits: 1

In this course students will demonstrate the use of diagnostic equipment to diagnose, adjust, replace, and repair emission-related components and parts.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

404-686 Computerized Fuel Systems Service 1

Credits: 1

In this course students will define the purpose and function of components of computerized fuel systems. Students will practice and demonstrate their ability to diagnose, test, and repair mechanical and electrical components of computerized fuel systems.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-130 or 404-357 or 404-684)

[Complete Course Listing](#)

404-687 Computerized Fuel Systems Service 2

Credits: 1

In this course students will define the purpose and function of various types of injectors. Students will explore the interaction between injector pulse width and the use of fuel trim as a diagnostic tool. Students will demonstrate their ability to test injector operation.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-131 or 404-686)

[Complete Course Listing](#)

404-688 Engine Performance Diagnosis 1

Credits: 1

In this course students will demonstrate their ability to diagnose and assess the operation of the ignition system.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (404-130 or 404-357 or 404-684)

[Complete Course Listing](#)

404-689 Engine Performance Diagnosis 2**Credits:** 1

In this course students will define the purpose and function of the battery starting and charging system. Students will demonstrate their ability to test for parasitic drain and to test and diagnose the battery systems using an oscilloscope, scan tool, and multi-meter.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-133 or 404-688)[Complete Course Listing](#)**404-690 Engine Performance Diagnosis 3****Credits:** 1

In this course students will define the relationship of the engine control systems and emission monitors. Students will demonstrate their ability to repair drivability problems related to these systems, as well as how to diagnose them.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-134 or 404-689)[Complete Course Listing](#)**404-691 Engine Performance Diagnosis 4****Credits:** 1

In this course students will review and demonstrate comprehensive ability in the skills typically introduced during the first year of the program, including safety practices and the inspection and repair of brake systems, steering and suspension systems, engine systems, drive train systems, and heating and air conditioning systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-135 or 404-690)[Complete Course Listing](#)**404-692 Drive Train/Transaxle Service 1****Credits:** 1

In this course students will define the purpose and function of automatic transmissions and their components. Students will demonstrate their ability to inspect, diagnose, and maintain automatic transmissions.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-130 or 404-357 or 404-684)[Complete Course Listing](#)**404-693 Drive Train/Transaxle Service 2****Credits:** 1

In this course students will define the purpose and function of the torque converter clutch. Additionally, students will demonstrate the ability to diagnose automatic transmission problems using a scan tool, and to differentiate between engine and transmission drivability problems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (404-137 or 404-692)[Complete Course Listing](#)**404-694 Service Internship****Credits:** 2

This course provides students with the opportunity to demonstrate automotive inspection, repair, and maintenance skills in an operating service facility. Students will also complete a comprehensive report on their experiences after meeting the internship requirements.

Aid Code: 32 - Two-year Technical Diploma.[Complete Course Listing](#)**404-695 Customer Service Fundamentals****Credits:** 2

In this course students will explore principles of successful customer service and relations. Students will demonstrate skills in relationship building and management through practical interviews and role-playing.

Aid Code: 32 - Two-year Technical Diploma.[Complete Course Listing](#)

Business Management (102)

Information provided includes course descriptions by subject only.**For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).****102-100 Intro to Entrepreneurial Career****Credits:** 3

This course will incorporate lecture and discussion materials to improve students' understanding of basic business and entrepreneurship topics. It will include a hands-on component involving interaction with local employers, and community leaders will expose participants to business and management career opportunities available to AAS program graduates.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**102-109 Business Careers Planning and Communication****Credits:** 3

This course covers how to use professional and effective communication in business settings. Students learn and practice business oral communication, presentations, and various forms of written communication. Business career exploration, resume writing, and interviewing are also addressed in this course.

Aid Code: 10 - Associate Degree.**Co-requisites:** (103-106 or 103-128 or 102-138 or 103-116 or 106-146 or 103-138)[Complete Course Listing](#)**102-110 Business Careers Planning****Credits:** 1

In Business Career Planning, students will focus on personal and professional preparation for a career in business related occupations. The course covers interpersonal and intrapersonal success skills including self-esteem, understanding human behavior, creative problem solving and decision making, effective communication skills, time management, setting priorities, and organizational techniques. Job search strategies will be introduced.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)

102-114 Principles of Operations Planning

Credits: 3

Students will apply planning and decision-making techniques to ensure efficient and competitive management of business operations. Students will focus on the key operational activities of inventory controls, process design and management, and supply chain management. Students engage in examining and analyzing the following topics: product design processes, quality, facility design and capacity planning, inventory control, project management, supply chain management, cost control, and customer service management.

Aid Code: 10 - Associate Degree.

Pre-requisites: (102-148)

Co-requisites: (103-107)

[Complete Course Listing](#)

102-115 Management Principles

Credits: 3

Students will receive a comprehensive overview of the functions and principles of management that leads to success in the operating climate of modern businesses. The five functions of management will be introduced and applied to business operational problem-solving.

Aid Code: 10 - Associate Degree.

Pre-requisites: (102-148)

Co-requisites: (801-195 or 801-136 or 102-109)

[Complete Course Listing](#)

102-120 Small Business Management

Credits: 3

The course provides a detailed study of all phases of managing a small business. Specific problems of small operations such as financing, developing, staffing, and growing a small business are analyzed. Management topics such as quality, leadership, applications of technology, legal issues and more will be applied to isolating significant problems and implementing solutions. Current issues and trends in entrepreneurship will be included.

Aid Code: 10 - Associate Degree.

Pre-requisites: (102-115) and (104-102)

[Complete Course Listing](#)

102-121 Customer Service Management

Credits: 3

Customer Service Management examines the role of managing customer service to add value and achieve a firm's long-term goals. Topics include the purpose of customer service; development of customer service goals, policies and plans; training, development and evaluation of customer service staff; development of sales skills; and using conflict resolution techniques to handle difficult customer service situations. Emphasis is placed on management duties and communication to provide customer satisfaction for both internal and external customers.

Aid Code: 10 - Associate Degree.

Pre-requisites: 102-115

[Complete Course Listing](#)

102-122 Business Sustainability Planning

Credits: 3

Learners in this course will be introduced to current topics influencing business practices relative to business sustainability. Concepts include green business, planning business sustainability programs, and leading corporate social responsibility efforts that may provide a foundation for both business profitability and environmentally friendly processes. Learners will discuss green business practices, analyze case studies, and take away a management process for identifying and implementing sustainability projects, which also contribute to an organization's triple bottom.

Aid Code: 10 - Associate Degree.

Pre-requisites: (804-123 or 804-134 or 804-118)

[Complete Course Listing](#)

102-125 Business Management Internship

Credits: 2

This course is a work-based learning program involving actual business operations in the community. It is intended to provide students with actual work experience. Students will obtain a position at an approved worksite, and work a minimum of 144 hours under the supervision of both their instructor and an onsite supervisor. Students must have a minimum 2.0 overall GPA to enroll in the course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (102-110) and (102-115)

[Complete Course Listing](#)

102-126 Business Plan and Entrepreneurship

Credits: 2

This course is a learning program involving planning actual business operations. It is intended to provide students with the tools to start their own business. Students will improve their understanding of entrepreneurship topics. They will also research, develop, write, and present a business plan. Students must have a minimum 2.0 overall GPA to enroll in the course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (102-110) and (101-117) and (102-115) and (102-120) and (104-102)

[Complete Course Listing](#)

102-127 Business Management Internship

Credits: 3

This course is a work-based learning program involving actual business operations in the community. It is intended to provide students with actual work experience. Students will obtain a position at an approved worksite, and work a minimum of 144 hours under the supervision of both their instructor and an onsite supervisor. Students must have a minimum 2.0 overall GPA to enroll in the course.

Aid Code: 10 - Associate Degree.

Pre-requisites: ((102-109) and (102-115) and (196-193 or 116-193))

Co-requisites: (101-117 or 101-111) and (102-120) and (102-155) and (102-114 or 102-122)

[Complete Course Listing](#)

102-128 Business Plan and Entrepreneurship**Credits:** 3

The course is a learning program involving planning actual business operations. It is intended to provide students with the tools to start their own business. Students will improve their understanding of entrepreneurship topics. They will also research, develop, write, and present a business plan. Students must have a minimum 2.0 overall GPA to enroll in the course.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (101-117 or 101-111) and (102-109) and (102-115) and (102-120) and (104-102) and (801-195 or 801-136)[Complete Course Listing](#)**102-130 Business Finance and Budget Management****Credits:** 3

This is a basic finance course for managers and supervisors. The learner applies the skills necessary to achieve an understanding of the fiscal/monetary aspects of business. Each learner will demonstrate application of business types, cycles, forecasting, budgeting, expense control, and financial statement interpretation relevant to the supervisor as a non-accountant. These financial principles will then be applied to the manager's role in decision-making and includes problem-solving case studies.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (101-117 or 101-111) and (102-115 or 101-112) and (103-128 or 103-106 or 103-138) and (102-148) and (103-107)[Complete Course Listing](#)**102-131 Introduction to Business Sustainability****Credits:** 1

This course will provide an introduction of current topics that influence business practices relative to business sustainability. Concepts include developing business sustainability efforts, beginning corporate social responsibility efforts and planning for profitable and environmentally friendly processes. Learners will discuss green business practices, analyze case studies and discuss an organization's triple bottom line.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**102-132 Lean Operations****Credits:** 1

Upon completion of this course, learners will develop their understanding of how to assess a manufacturing process and review the transformation of inputs to outputs. Learners will analyze non-value added activities within work flows and consider the underlying values of a lean enterprise. Learners will explore the characteristics of an organizational culture necessary to develop a lean operation and study various production methods that will enable efficiencies including JIT (Just in Time), quality management, quality control, continuous improvement methodologies, statistical process control chart interpretation, material handling and production logistics.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**102-133 Lean Tools****Credits:** 1

In this course, learners will examine the lean tools available to identify and eliminate wastes from a process. Learners will examine the benefits and challenges of conducting a 5S implementation strategy, A3 Storyboard strategy, and root cause analysis. Learners will utilize process mapping to evaluate and develop plans to reduce and/or eliminate waste and evaluate the various approaches to continuous improvement.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**102-134 Lean Six Sigma****Credits:** 3

Upon completion of this course, learners will have developed a body of knowledge around Six Sigma concepts that qualify them to become Green Belt Certified. This includes an introduction to Six Sigma, recognition of the DMAIC methodology, and assessing a lean enterprise. Learners will develop their ability to do statistical evaluations to evaluate a production process. Learners will work through the Define, Measure, Analyze, Improve and Control phases to implement a problem solving or continuous quality improvement. Learners will examine the steps of planning and executing a kaizen event as well as utilize the seven SPC (statistic process control) tools to improve a process.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (103-106 or 623-622)[Complete Course Listing](#)**102-135 Lodging Management****Credits:** 3

This course takes a management perspective in introducing students to the organization and structure of hotels, restaurants, clubs, cruise ships, and casino hotels. Topics include: business ethics, franchising, management responsibility such as human resources, marketing and sales, and advertising.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**102-136 Hotel Operations Management****Credits:** 3

This course takes a management perspective in introducing students to lodging operations. There are chapters on Structure and service in the lodging industry, front office, housekeeping, sales, and marketing accounting human resources and maintenance departments. Also chapters in safety and security and careers in the lodging industry.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**102-137 Business Communications****Credits:** 1

In Business Communications, students will learn the basics of professional and effective communication in business settings. Students will receive instruction and feedback on oral communication as well as the use of written communications to include business emails, memos, and letters. The importance of favorable and appropriate communication with both internal and external parties will be covered. All written communication will require keyboard use.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)

102-139 Culinary Business Administration

Credits: 3

This course introduces the student to basic bookkeeping, and management reporting. The student is taught how to establish and maintain a basic bookkeeping system.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Pre-requisites: (316-104) and (316-107) and (316-114) and (316-119) and (316-164)

[Complete Course Listing](#)

102-148 Introduction to Business and Management

Credits: 3

Students will be introduced to business operations, focusing on a basic understanding of the activities, functions, and principles of business enterprises. This course covers the responsibilities and challenges of operating a business. The course emphasizes human relations, management, marketing, finance, human resources, global business, and starting a business.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

102-150 Global Business Fundamentals

Credits: 3

This course is designed to give students a fundamental understanding of the environment in which international business operates and of the business practices required to compete successfully in global markets. Topics include: country differences in political, economic, cultural, and ethical systems; cross-border trade and investment; global monetary systems; strategies involved in international business; and management challenges in global markets.

Aid Code: 10 - Associate Degree.

Pre-requisites: (102-148) and (801-195)

[Complete Course Listing](#)

102-155 Introduction to Project Management

Credits: 3

This course gives an overview of project management principles and covers the fundamental knowledge and skills needed to improve the outcome of any project. It focuses on the project management processes and knowledge areas. Students will learn how to plan, schedule, and control projects. Students will learn project management tools and techniques and use them to define project goals, objectives, costs and time, and manage project scope, schedule and resources.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

102-156 Project Leadership and Communications

Credits: 3

This course focuses on soft skills, including leadership, communications, team organization and development, and conflict management. It will provide students with the essential management and leadership skills to lead a project with confidence. Students will learn how to build high-performance project teams through effective leadership and influence, utilize management skills to encourage productivity and cooperation, and implement creative problem-solving techniques to ensure project success.

Aid Code: 10 - Associate Degree.

Co-requisites: (102-155 or 196-111)

[Complete Course Listing](#)

102-157 Managing Projects

Credits: 2

This course focuses on using the Microsoft Project software to plan, schedule and control projects. Students will define a project's scope and apply work breakdown structure (WBS), the foundation of project planning. Students will learn how to configure tools and options, set-up projects, estimate, schedule, and budget projects.

Aid Code: 10 - Associate Degree.

Co-requisites: (102-156) and (102-155 or 196-111)

[Complete Course Listing](#)

102-158 Project Management Capstone

Credits: 3

This course is designed to give students practical experiences in managing projects. Students will be given the opportunity to review, synthesize, and apply their project management knowledge and skills from prior courses and experience. Students will be working in a lab setting leading a real-life project and project management deliverables, including project charter, project plan, status reports, and post-project reviews. Students will facilitate meetings, track planned and actual values, and update project plans.

Aid Code: 10 - Associate Degree.

Co-requisites: (102-155 or 196-111) and (102-156) and (102-157)

[Complete Course Listing](#)

102-160 Business Law

Credits: 3

This course is designed to provide the student with a working knowledge of law as it relates to the rights and responsibilities of businesses and individuals. Emphasis is placed on torts, contracts, case analysis, ethics, and social responsibility, particularly in the business context.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

102-161 Principles of Manufacturing Management**Credits:** 3

Students will be Introduced to the operations environment and key manufacturing process activities including quality control, capacity management, and lean manufacturing techniques. Students will learn to design, operate, and improve the systems that deliver goods and services using tools such as process flow diagrams, lean management, and decision trees. Through discussion and interactive problem solving, participants will gain a functional competency of production activity control and management.

Aid Code: 10 - Associate Degree.

Complete Course Listing

102-406 Introduction to Project Management**Credits:** 4

This course gives an overview of project management principles and covers the fundamental knowledge and skills needed to improve the outcome of any project.

Aid Code: 47 - Occupational Adult.

Complete Course Listing

102-422 Second Career for New Retirees**Credits:** 2.4**Aid Code:** 42 - General Adult.

Complete Course Listing

Career Education (862)

Information provided includes course descriptions by subject only.**For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).****862-764 BSE Employability Skills/Career Decision 2****Credits:** 3

Develops general information involved with career choices including self-concept, values, needs and abilities. Occupational information and expansion of vocational choices are included. Outside speakers are invited to share information. Hands on experience includes filling out forms, interviews and study of resumes.

Aid Code: 74 - Interm ABE (6.0-8.9).**Pre-requisites:** (GED/ESL/BS Course Approval)

Complete Course Listing

Communication Skills (801)

Information provided includes course descriptions by subject only.**For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).****801-119 Mass Communications****Credits:** 3

This is a course designed for students who are interested in learning about music, radio, television, and film. However, the nature and scope of the course goes beyond mere media appreciation. The overall objective is to provide students with an understanding of the forms of Mass Communication and insure that the students learn how to communicate interpersonally about the films, television shows, and radio music that they see and hear. Main learning activities: movies, recorded music and television shows will be seen and heard regularly in class and discussed and critiqued formally outside of class.

Aid Code: 10 - Associate Degree.

Complete Course Listing

801-136 English Composition 1**Credits:** 3

This course is designed for learners to develop knowledge and skills in all aspects of the writing process. Planning, organizing, writing, editing, and revising are applied through a variety of activities. Students will analyze audience and purpose, use elements of research, and format documents using standard guidelines. Individuals will develop critical reading skills through analysis of written documents.

Aid Code: 10 - Associate Degree.

Pre-requisites: ((ASSET Writing Skills, 44 or COMPASS Writing Skills, 070 or AccuPlacer Sentence Skills, 083 or ACT English, 18 or Test Waived-College Degree or Next Gen AccuPlacer Writing, 255 or SAT Verbal, 330) or (831-103)) and ((COMPASS Reading Skills, 073 or AccuPlacer Reading Comp, 076 or ACT Reading, 16 or ASSET Reading Skills, 39 or Next Gen AccuPlacer Reading, 251 or SAT Reading, 330 or Reading-Credit Level Met or Test Waived-College Degree)) or ((COMPASS Reading Skills, 051 or AccuPlacer Reading Comp, 055 or ACT Reading, 12 or SAT Reading, 270 or Next Gen AccuPlacer Reading, 236)) or (838-104) or (801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196)

Co-requisites: (838-104)

801-195 Written Communication

Credits: 3

Develops writing skills which include prewriting, drafting, revising, and editing. A variety of writing assignments is designed to help the learner analyze audience and purpose, research and organize ideas, and format and design documents based on subject matter and content. Also develops critical reading and thinking skills through the analysis of a variety of written documents.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Writing Skills, 44 or COMPASS Writing Skills, 070 or ACT English, 18 or AccuPlacer Sentence Skills, 083 or Next Gen AccuPlacer Writing, 255 or SAT Verbal, 330 or Writing-Credit Level Met or Test Waived-College Degree) and (COMPASS Reading Skills, 073) or (ACT Reading, 16 or SAT Reading, 260 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251) and (COMPASS Writing Skills, 38) or (ACT English, 15 or SAT Verbal, 290 or AccuPlacer Sentence Skills, 63 or Next Gen AccuPlacer Writing, 242) and (COMPASS Reading Skills, 051) or (SAT Reading, 270 or ACT Reading, 12 or AccuPlacer Reading Comp, 055 or Next Gen AccuPlacer Reading, 236) or (801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

Co-requisites: (851-795) or (838-104)

Complete Course Listing

801-196 Oral/Interpersonal Communication

Credits: 3

Focuses upon developing speaking, verbal and nonverbal communication, and listening skills through individual presentations, group activities, and other projects.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or SAT Reading, 330 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 250 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55)

Co-requisites: (838-104)

Complete Course Listing

801-197 Technical Reporting

Credits: 3

The student will prepare and present oral and written technical reports. Types of reports may include lab and field reports, proposals, technical letters and memos, technical research reports, and case studies. Designed as an advanced communication course for students who have completed at least the prerequisite introductory writing course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (801-195 or 801-136 or Test Waived-College Degree)

Complete Course Listing

801-198 Speech

Credits: 3

Explores the fundamentals of effective oral presentation to small and large groups. Topic selection, audience analysis, methods of organization, research, structuring evidence and support, delivery techniques, and other essential elements of speaking successfully, including the listening process, form the basis of the course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or SAT Reading, 260 or Reading-Credit Level Met or Test Waived-College Degree or 838-104 or 838-104 or 801-195 or 801-136 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

Complete Course Listing

801-311 Communication

Credits: 2

This course reviews the grammar and writing skills that an adult learner needs to write clearly, concisely, and persuasively on the job. Students will produce a variety of job-related documents such as: business memos, letters, and short reports. The course will provide techniques that will improve the effectiveness with which learners communicate interpersonally, and within small groups. Students will learn to prepare and deliver oral presentations.

Aid Code: 31 - One-year Technical Diploma.

Complete Course Listing

801-422

Credits: 2.8

Aid Code: 47 - Occupational Adult.

Complete Course Listing

801-620

Credits: .5

Aid Code: 60 - Adult Avocational.

Complete Course Listing

801-621

Credits: .65

Computer Basics (860)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

860-764 Computer Basics**Credits:** 3

This course covers elementary computer skills such as file management; document formatting, creating and management; using the Internet; basic e-mail and information management.

Aid Code: 74 - Interim ABE (6.0-8.9).**Pre-requisites:** (GED/ESL/BS Course Approval)

Complete Course Listing

Computer Service Tech-Hardware (631)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

631-100 Microcomputer Fundamentals**Credits:** 3

This course covers the program environment and binary functionality of the personal computer. An in-depth look at PC component identification, use, and functions are then observed. The course relies heavily on hands-on construction and preparation of the PC hardware, followed by a review of the technical resources and proper troubleshooting methods. This course incorporates a hands-on lab and performance assessment, where students work with the instructor and one another to perfect their skills.

Aid Code: 10 - Associate Degree.

Complete Course Listing

631-101 PC Software Fundamentals**Credits:** 3

This course familiarizes the learner with Windows and Linux operating systems, popular business applications, and computer virus eradication. Students will learn how to properly install, use and troubleshoot each operating system and software package – to include software detailing, software utilities, and licensing. This course will help to ready students for the IC3 certification along with the CompTIA A+ certification.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-100)

Complete Course Listing

631-102 PC Peripherals and Troubleshooting**Credits:** 3

Students will apply the troubleshooting theory and repair various scenario-based problems involving computer hardware, software, and peripherals. Students will learn about the installation and setup of various computer peripherals, to include (but not limited to) various types of printers, scanners, and digital cameras.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-101) and (631-100)

Complete Course Listing

631-103 Apple Devices and Operating Systems**Credits:** 3

The Apple Devices & Operating Systems course provides a comprehensive overview of several pieces of Apple hardware and operating systems. Students will learn the installation, configuration, and troubleshooting of the operating systems and hardware. Network installation, configuration, and troubleshooting will also be included.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (631-112)

Complete Course Listing

631-104 Cyber Ethics**Credits:** 3

In this course students will examine situations that are considered to be in a “gray” area that many IT specialists face on a daily basis. Students will evaluate the situations presented to them and determine the best action plan based on a set decision-making process.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (631-111)

Complete Course Listing

631-105 Helpdesk Fundamentals**Credits:** 3

The student will gain knowledge and experience in applying the techniques used in problem troubleshooting, end-user support and customer service. The student will also become familiar with and apply the tools used in user supply and help desk operations.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 631-112

Complete Course Listing

631-106 IT Customer Service Fundamentals**Credits:** 3

This course is designed to instruct students on the principles of service calls and customer relations skills needed for success as a field service technician. Practical interviews and role playing are included in this course, with emphasis on phone and electronic support skills based on an Information Technology environment.

Aid Code: 10 - Associate Degree.

Complete Course Listing

631-107 Linux Operating Systems**Credits:** 3

An introduction to Linux desktop and server are covered. Topics include installation, administration, Linux commands, and troubleshooting. The learner will apply previous knowledge to set up a network that combines Linux, Windows, and Apple operating systems. This course prepares students for the CompTIA Linux+ certification.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (631-123)

Complete Course Listing

631-108 Manufacturing Communication Protocols

Credits: 3

This hands-on course focuses on the principles of network data communications. Serial and parallel protocols, network topologies and cabling media will be explored. Time will be spent studying ethernet TCP/IP, CIP, and other industrial protocols such as DeviceNet and ControlNet. Students will configure and troubleshoot networks and discuss the importance of network security.

Aid Code: 10 - Associate Degree.

Pre-requisites: (631-138)(631-115 or 620-115) and (631-138)

[Complete Course Listing](#)

631-109 Network Portfolio 1

Credits: 1

This is the first of two capstone courses for second year students. Students will create a portfolio based on a provided scenario. They will be required to provide items such as wireless assessments of the area, recommend required equipment, provide a Gantt chart, etc based on the knowledge they gained from the first semester. This is an individual project, and students will be able to use the portfolio to show to prospective employers.

Aid Code: 10 - Associate Degree.

Pre-requisites: (631-112)

Co-requisites: (631-150)

[Complete Course Listing](#)

631-110 Network Portfolio 2

Credits: 1

This is the second course of a two part capstone portfolio project that will require students to add new features, equipment and theories based on the knowledge they have gained throughout the four semesters of the Manufacturing Information Technology Specialist program. Students will be able to apply their knowledge in areas such as Linux operating systems, advanced wireless networking, mobile device and virtual machine fundamentals as would be needed in various scenarios on a manufacturing shop floor. This portfolio will give students an organized record to share with prospective employers their knowledge and skills they have obtained throughout all their courses in this program.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-165)

[Complete Course Listing](#)

631-111 PC Hardware Assessment

Credits: 1

This is the first of a two part capstone course project that will require students to use the information that they have gained throughout the first semester to collaborate on a group project. Students will be expected to develop a plan to produce a computerized machine by assessing their hardware needs, types of processors, circuit boards and controllers to be used as well as understand budgeting and invoicing procedures. Students will be able to apply this planning phase of the project in the second semester course, PC Hardware Interfacing.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-100 or 631-126) and (631-101 or 631-129) and (631-132)

[Complete Course Listing](#)

631-112 PC Hardware Interfacing

Credits: 1

This is the second of two part capstone course project that will require students to use information that they have gained throughout the second semester to collaborate on a group project. Students will combine the planning stage in the first semester capstone course, PC Hardware Assessment, to assemble a computerized machine, paying special attention to decision making as it pertains to choosing different operating systems and networking within a larger system. Students will also be expected to incorporate the ideals of Green IT (recycling) and cyber ethics throughout this production project.

Aid Code: 10 - Associate Degree.

Pre-requisites: (631-111)

[Complete Course Listing](#)

631-113 Virtual Machine Fundamentals

Credits: 3

This course is an introduction to virtual machines. Topics include various types of virtual machine software and their installation, administration, usefulness, and troubleshooting, as well as how these apply to IT and manufacturing.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-107) and (631-114) and (631-121)

[Complete Course Listing](#)

631-114 Mobile Device Fundamentals

Credits: 3

This course first provides students with a hands-on exploration of different mobile device hardware to gain an understanding of their functions. Students will then examine the different operating systems that are used in today's devices. The remaining sections of the course take the student through mobile device management, networking, security, and troubleshooting.

Aid Code: 10 - Associate Degree.

Pre-requisites: (631-107)

[Complete Course Listing](#)

631-115 Network Fundamentals

Credits: 3

This course covers the basic theories and technologies involved in Local Area Networks (LAN) and Wide Area Networks (WAN). Students gain knowledge in cabling schemes, specific hardware and software types, protocols and OSI layers. Both the physical and logical aspects of networks will be studied, giving students the ability to apply basic entry level technician skills in common office environments and manufacturing LANs.

Aid Code: 10 - Associate Degree.

Pre-requisites: (631-111)

[Complete Course Listing](#)

631-116 Troubleshooting Shared Network Resources**Credits:** 3

This course is designed to prepare the network technician for a variety of networked environments and focuses on the installation, configuration, and troubleshooting of network operating systems and network hardware. Security, resource sharing, cable installation, and troubleshooting are emphasized. The student will also create a basic network diagram and peer to peer network utilizing the operating systems installed on their lab PC.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-115)[Complete Course Listing](#)**631-118 Green IT****Credits:** 3

Green IT covers the history of the American Green Movement and definitions. We then examine policies and regulations, recycling laws and methods. We next examine how to make the data center, the office, and the organization "green," and what tools we can use to do this. Finally, the students are required to employ everything that they have learned and apply it by developing a plan for a scenario-based issue.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**631-119 Wireless Networking 1****Credits:** 3

This course introduces the student to wireless fundamentals. As a hands-on course, students will cover basic wireless installation, implementation, and troubleshooting for various types of wireless networks. Some topics that will be discussed are RF Basics, wireless networking devices, and the 802.11 standard. This course will help prepare students for the CWTS (Certified Wireless Technology Specialist) certification.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (631-103)[Complete Course Listing](#)**631-120 Ind Computer Applications****Credits:** 3

The Industrial Computer Applications course is designed to meet the need for foundational computer training in industrial occupations. Using a self-paced, modular format, the ICA course is flexible to meet the needs of students with varying backgrounds in computer usage. Topics covered include: PC parts identification (including communications ports), operating system usage, file management, word processing, spreadsheet usage, and Internet usage.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**631-121 Wireless Networking 2****Credits:** 3

The Wireless Networking 2 course builds from the knowledge gained in Wireless Networking 1. The hands-on learning continues as students will focus on advanced RF Technologies, learn regulations and standards, implement network security, and perform a wireless network survey and install, as well as configure a building-wide wireless network. This course will help prepare students for the CWNA (Certified Wireless Network Administrator) certification.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 631-119[Complete Course Listing](#)**631-122 Service Support Internship****Credits:** 1

This internship-style course provides an opportunity for the student to experience on the job training in which they will be able to apply concepts, principles and skills gained throughout the Computer Service Technician program. Students will engage in on the job training in areas such as installing operating systems, troubleshooting hardware and software issues, as well as reconfiguring small and large networking systems. Students will gain the practical knowledge necessary to be able to work collaboratively and apply their knowledge in the workplace.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**631-123 Malicious Software Fundmtls****Credits:** 3

Students will be introduced to various types of malicious software found throughout the Information Technology industry that infect various types of equipment. Through this course, they will be able to analyze malicious software, understand its functionality, and engage in removing the malicious software from several types of operating systems and machines.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**631-124 Microcomputer Fundamentals 1: PC Components****Credits:** 1

This course covers an in-depth look at PC component identification, use, and functions. Students will employ various methods to help learn this criteria and skills.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**631-125 Microcomputer Fundamentals 2: PC Assembly****Credits:** 1

The course relies heavily on hands-on construction and preparation of the PC hardware, followed by a review of the technical resources. This course incorporates a hands-on lab and performance assessment, where students work with the instructor and one another to perfect their skills.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-124)[Complete Course Listing](#)

631-126 Microcomputer Fundamentals 3: Intro to Web Programming
Credits: 1

This course is designed to provide the student with an introduction into foundational web programming knowledge and skills. The student will learn to plan, design, construct, and integrate basic web sites using HTML5 and CSS.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-125)

Complete Course Listing

631-127 PC Software Fundamentals 1: Operating Systems
Credits: 1

This course familiarizes the learner with Windows and Linux operating systems. Students will learn how to properly install and use each operating system to include software detailing, software utilities, and licensing. This course will help to ready students for the IC3 certification along with the CompTIA A+ certification.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-126)

Complete Course Listing

631-128 PC Software Fundamentals 2: Software Applications
Credits: 1

This course familiarizes the learner with popular business applications and computer virus eradication. Students will learn how to properly install and use each software package. This course will help to ready students for the IC3 certification along with the CompTIA A+ certification.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-127)

Complete Course Listing

631-129 PC Software Fundamentals 3: Troubleshooting Operating Systems
Credits: 1

This course familiarizes the learner with operating system and application software troubleshooting methods. This course will help to ready students for the IC3 certification along with the CompTIA A+ certification.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-128)

Complete Course Listing

631-130 PC Peripherals and Troubleshooting 1: Peripherals
Credits: 1

Students will learn about the installation and setup of various computer peripherals, to include (but not limited to) various types of printers, scanners, and digital cameras.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-129)

Complete Course Listing

631-131 PC Peripherals and Troubleshooting 2: Printers & Laptops
Credits: 1

Students will apply the troubleshooting theory and gain repair knowledge by reviewing laptops and printer hardware and software. Students will be required to disassemble and re-assemble working laser printers and laptops.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-130)

Complete Course Listing

631-132 PC Peripherals and Troubleshooting 3: Troubleshooting Hardware
Credits: 1

Students will apply the troubleshooting theory and repair various scenario-based problems involving computer hardware, software, and peripherals.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-131)

Complete Course Listing

631-133 IT Customer Service Fundamentals 1
Credits: 1

This course is designed to instruct students on the principles of service calls and customer relations skills needed for success as a professional IT service technician. Practical interviews and role playing are included in this course, with emphasis on phone and electronic support skills based on an Information Technology environment.

Aid Code: 10 - Associate Degree.

Complete Course Listing

631-134 IT Customer Service Fundamentals 2
Credits: 1

This course continues to instruct students on the principles of service calls and customer relations skills needed for success as a professional IT service technician. There is a heavy emphasis on business skills and working in teams in an Information Technology environment.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-133)

Complete Course Listing

631-135 IT Customer Service Fundamentals 3
Credits: 1

The student will gain knowledge and experience in applying the techniques used in problem troubleshooting, end-user support and customer service. The student will also become familiar with and apply the tools used in user supply and help desk operations.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-134)

Complete Course Listing

631-136 Network Fundamentals 1**Credits:** 1

This course covers the basic theories and technologies involved in Local Area Networks (LAN) and Wide Area Networks (WAN). Students gain knowledge in cabling schemes, specific hardware and software types, protocols and OSI layers. Both the physical and logical aspects of networks will be studied, giving students the ability to apply basic entry level technician skills in common office environments and manufacturing LANs.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-111)

Complete Course Listing

631-137 Network Fundamentals 2**Credits:** 1

This course is a continuation of the basic theories and technologies involved in Local Area Networks (LAN) and Wide Area Networks (WAN). Students will continue to gain knowledge in cabling schemes, specific hardware and software types, protocols and OSI layers. Both the physical and logical aspects of networks will be studied, giving students the ability to apply basic entry level technician skills in common office environments and manufacturing LANs.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-136)

Complete Course Listing

631-138 Network Fundamentals 3**Credits:** 1

This course is a culmination of the basic theories and technologies involved in Local Area Networks (LAN) and Wide Area Networks (WAN). Students will apply the gained knowledge in cabling schemes, specific hardware and software types, protocols and OSI layers. Both the physical and logical aspects of networks will be studied, giving students the ability to apply basic entry level technician skills in common office environments and manufacturing LANs.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-137)

Complete Course Listing

631-139 Troubleshooting Network Resources 1**Credits:** 1

This course is designed to prepare the network technician for a variety of networked environments and focuses on the installation, configuration, and troubleshooting of network operating systems and network hardware. Security, resource sharing, cable installation, and troubleshooting are emphasized. The student will also create a basic network diagram and peer to peer network utilizing the operating systems installed on their lab PC.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-138)

Complete Course Listing

631-140 Troubleshooting Network Resources 2**Credits:** 1

This course introduces network monitoring tools and techniques. Troubleshooting theory and methods will also be revisited and reinforced to help prepare the future network technician.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-139)

Complete Course Listing

631-141 Troubleshooting Network Resources 3**Credits:** 1

This course is a culmination of the competencies learned throughout the series. Students will use knowledge gained to develop, configure, and troubleshoot network operating systems and network hardware.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-140)

Complete Course Listing

631-142 Cyber Ethics 1**Credits:** 1

In this course students will examine situations that are considered to be in a "gray" area that many IT specialists face on a daily basis. Students will evaluate the situations presented to them and determine the best action plan based on a set decision-making process. Ethics and computer crime will be studied.

Aid Code: 10 - Associate Degree.

Complete Course Listing

631-143 Cyber Ethics 2**Credits:** 1

In this course students will continue to examine situations that are considered to be in a "gray" area that many IT specialists face on a daily basis. Students will evaluate the situations presented to them and determine the best action plan based on a set decision-making process. Main areas of study will include: Intellectual property, Privacy, freedoms, and software development.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-142)

Complete Course Listing

631-144 Cyber Ethics 3**Credits:** 1

In this course students will continue to examine situations that are considered to be in a "gray" area that many IT specialists face on a daily basis. Students will evaluate the situations presented to them and determine the best action plan based on a set decision-making process. Main areas of study will include: The ethical impact on IT and organization and social networking.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-143)

Complete Course Listing

631-145 Apple Devices and Operating Systems 1: Hardware
Credits: 1

The Apple Devices & Operating Systems course provides a comprehensive overview of several pieces of Apple hardware and operating systems. Students will learn the installation, configuration, and troubleshooting of Apple hardware.

Aid Code: 10 - Associate Degree.

Co-requisites: (150-157)

[Complete Course Listing](#)

631-146 Apple Devices and Operating Systems 2: Operating Systems
Credits: 1

The Apple Devices & Operating Systems course provides a comprehensive overview of several pieces of Apple hardware and operating systems. Students will learn the installation, configuration, and troubleshooting of the operating systems and software.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-145)

[Complete Course Listing](#)

631-147 Apple Devices and Operating Systems 3: Networking
Credits: 1

The Apple Devices & Operating Systems course provides a comprehensive overview of several pieces of Apple hardware and operating systems. Students will learn the installation, configuration, and troubleshooting of the operating systems and hardware. This course covers Apple network installation, configuration, and troubleshooting.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-146)

[Complete Course Listing](#)

631-148 Wireless Networking 1
Credits: 1

This course introduces the student to wireless fundamentals. As a hand-on course, students will cover basic wireless installation, implementation, and troubleshooting for various types of wireless networks. Some topics that will be discussed are RF Basics, wireless networking devices, and the 802.11 standard. This course will help prepare students for the CWTS (Certified Wireless Technology Specialist) certification.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-147)

[Complete Course Listing](#)

631-149 Wireless Networking 2
Credits: 1

This course continues the introduction to wireless fundamentals. As a hand-on course, students will cover basic wireless installation, implementation, and troubleshooting for various types of wireless networks. Some topics that will be discussed are RF Basics, wireless networking devices, and the 802.11 standard. This course will continue to help prepare students for the CWTS (Certified Wireless Technology Specialist) certification.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-148)

[Complete Course Listing](#)

631-150 Wireless Networking 3
Credits: 1

This course continues the introduction to wireless fundamentals by implementing advanced wireless topics. As a hand-on course, students will cover WLAN site surveys and troubleshooting for various types of wireless networks. This course will continue to help prepare students for the CWTS (Certified Wireless Technology Specialist) certification.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-149)

[Complete Course Listing](#)

631-151 Manufacturing Networking 1
Credits: 1

This course focuses on the principles of network data communications. Serial and parallel protocols, network topologies and cabling media will be explored. Time will be spent studying ethernet and the TCP/IP protocol.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-138)

[Complete Course Listing](#)

631-152 Manufacturing Networking 2
Credits: 1

This hands-on course focuses on the principles of network data communications. Students will configure and troubleshoot networks and discuss the importance of network security.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-151)

[Complete Course Listing](#)

631-153 Manufacturing Networking 3
Credits: 1

This hands-on course focuses on the principles of network data communications. Serial and parallel protocols, network topologies and cabling media will be explored. Students will create ethernet cables and install network cable in various areas.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-152)

[Complete Course Listing](#)

631-154 Wireless Networking Implementation 1
Credits: 1

This course builds from the knowledge gained in the Wireless Networking courses. The hands-on learning continues as students will focus on advanced RF Technologies, learn regulations and standards, and implement network security using a small home/office WAP. This course will continue to help prepare students for the CWTS (Certified Wireless Technology Specialist) certification.

Aid Code: 10 - Associate Degree.

Co-requisites: (631-109)

631-155 Wireless Networking Implementation 2**Credits:** 1

The course continues to build from the knowledge previously gained in Wireless Networking courses. The hands-on learning continues as students will focus on advanced RF Technologies, learn regulations and standards, implement network security, complete wireless surveys, as well as configure a building-wide wireless network. This course will continue to help prepare students for the CWTS (Certified Wireless Technology Specialist) certification.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-154)

Complete Course Listing

631-156 Wireless Networking Implementation 3**Credits:** 1

The course continues to build from the knowledge previously gained in Wireless Networking courses. The hands-on learning continues as students will focus on advanced RF Technologies, learn regulations and standards, implement network security, complete advanced wireless surveys, and configure a wireless network within a manufacturing lab for manufacturing equipment. This course will continue to help prepare students for the CWTS (Certified Wireless Technology Specialist) certification.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-155)

Complete Course Listing

631-157 Linux Operating Systems 1**Credits:** 1

An introduction to Linux desktop is covered. Topics include installation, administration, Linux commands, and troubleshooting. This course prepares students for the CompTIA Linux+ certification.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-156)

Complete Course Listing

631-158 Linux Operating Systems 2**Credits:** 1

This is an advanced course that is a continuation of the previous Linux desktop course. Advanced topics include configuration, administration, Linux commands, and troubleshooting. This course prepares students for the CompTIA Linux+ certification.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-157)

Complete Course Listing

631-159 Linux Operating Systems 3**Credits:** 1

This course will have the learner apply previous and newly gained knowledge to set up a Linux network that could include Windows, and Apple operating systems. This course prepares students for the CompTIA Linux+ certification.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-158)

Complete Course Listing

631-160 Malicious Software Fundamentals 1**Credits:** 1

Students will be introduced to various types of malicious software found throughout the Information Technology industry that infect various types of equipment. Through this course, they will be able to analyze malicious software, understand its functionality, and engage in removing the malicious software from several types of operating systems and machines.

Aid Code: 10 - Associate Degree.

Complete Course Listing

631-161 Malicious Software Fundamentals 2**Credits:** 1

Students will learn what the building blocks of various types of malicious software. Through this course, they will be able to analyze malicious software, understand its functionality, and engage in removing the malicious software from several types of operating systems and machines.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-160)

Complete Course Listing

631-162 Malicious Software Fundamentals 3**Credits:** 1

Students will be introduced to various types of malicious software found throughout the Information Technology industry that infect various types of equipment. Through this course, they will be able introduced to cryptography. They will learn the definition, and how it's used throughout the industry.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-161)

Complete Course Listing

631-163 Mobile Device Fundamentals 1**Credits:** 1

This course first provides students with a hands-on exploration of different mobile device hardware to gain an understanding of their functions. Students will then examine the different operating systems that are used in today's devices.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-159)

Complete Course Listing

631-164 Mobile Device Fundamentals 2**Credits:** 1

This is a continuation course that will provide students with a hands-on exploration of different mobile device hardware to gain an understanding of their functions. Students will then examine the different operating systems that are used in today's devices.

Aid Code: 10 - Associate Degree.**Co-requisites:** (631-163)

Complete Course Listing

631-165 Mobile Device Fundamentals 3

Credits: 1

This course provides students with a hands-on exploration of mobile device management, networking, security, and troubleshooting.

Aid Code: 10 - Associate Degree.

Co-requisites: 631-164

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

450-316 Microcomputer Software Service

Credits: 2

This course covers a number of different software topics: familiarization with popular business applications, computer virus eradication – to include malware and spyware, software detailing, software utilities, and licensing.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Computer Service Technician Program.

Co-requisites: 631-100

[Complete Course Listing](#)

450-317 Troubleshooting Microcomputers

Credits: 2

This course culminates the three core courses and the two previous Hardware Support courses in an advanced diagnosis and repair course that, on completion, will mark the achievement of the Computer Hardware Support Certificate for the learner. Hands-on PC troubleshooting skills are emphasized.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Computer Service Technician Program.

Co-requisites: (450-316) and (631-100) and (631-101) and (631-102)

[Complete Course Listing](#)

450-319 Microcomputer Peripherals

Credits: 2

This course focuses on printers, the specialized functions of various kinds of printers, and printer troubleshooting. Digital input and data protection devices will also be examined.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Computer Service Technician Program.

Pre-requisites: (450-316) and (450-317) and (631-100) and (631-101) and (631-102)

[Complete Course Listing](#)

450-321 Troubleshooting Network Hardware

Credits: 2

This course covers network hardware installation, configuration and troubleshooting in both peer-to-peer and server-based environments, cable installation, certification, and troubleshooting is emphasized. Wireless networking is also utilized.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Computer Service Technician Program.

Pre-requisites: (450-316) and (450-317) and (631-100) and (631-101) and (631-102)

Co-requisites: (450-319) and (450-320) and (631-115)

[Complete Course Listing](#)

450-322 Service Support Techniques

Credits: 1

This course provides an opportunity to apply concepts, principles and skills learned in the CST program in the workplace. Emphasis is placed on applying skills to job tasks, modeling core abilities and seeking a job.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Computer Service Technician Program.

Pre-requisites: (450-315) and (450-316) and (450-317) and (631-100) and (631-101) and (631-102)

Co-requisites: (450-319) and (450-320) and (450-321) and (631-115) and (631-116) and (631-117) or (631-118)

Culinary Arts (316)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

316-103 Food Service Industry and Menu Design

Credits: 2

An introduction to the Food Service industry, past and present, with an overview of all types of food service. Several facility tours are included. Menu terminology is stressed, and an actual working menu will be developed by each student.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Co-requisites: (316-147)

[Complete Course Listing](#)

316-104 Food Quantities and Measures**Credits:** 1

Study of standardized recipes, equivalents, abbreviations, weights and measures, food presentations, and appropriate substitutions. The technical aspects extending and reducing recipes and menu costing will also be a component.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Culinary Arts Program.

Complete Course Listing

316-105 Culinary Externship Adv I**Credits:** 2

BTC instructors will coordinate an advanced culinary lab experience with employers in approved culinary positions. Students will spend 144 hours further developing their culinary knowledge and skills by working at a selected site. Evaluation of a student's work will be influenced by the satisfaction expressed by employer who provides the externship experience.

Aid Code: 10 - Associate Degree.

Complete Course Listing

316-106 Culinary Externship Adv II**Credits:** 3

BTC instructors will coordinate an advanced culinary lab experience with employers in approved culinary positions. Students will spend 216 hours further developing their culinary knowledge and skills by working at a selected site. Evaluation of a student's work will be influenced by the satisfaction expressed by employer who provides the externship experience.

Aid Code: 10 - Associate Degree.

Complete Course Listing

316-107 Culinary Internship**Credits:** 1

BTC instructors will coordinate an extended culinary lab experience with employers in approved culinary positions. Students will spend 54 hours further developing their culinary knowledge and skills by working at a selected site. Evaluation of a student's work will be influenced by the satisfaction expressed by employer who provides the internship experience.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Culinary Arts Program.**Pre-requisites:** (316-108) and (316-114) and (316-147)**Co-requisites:** (316-164)

Complete Course Listing

316-108 Food Science I**Credits:** 3

An overview of the sciences involved in cooking and preparing food. The science involved with fruits, vegetables, eggs, cheese, meats, and meat cutting, fish, seafood, and baking will be discussed, demonstrated and experienced.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Culinary Arts Program.**Co-requisites:** 316-147

Complete Course Listing

316-109 Quantity Production of Soups, Salads, and Dressings**Credits:** 4

Included in this course is a study of the fundamentals and principles of preparing all types of soups, salads, and dressings and an understanding of the ingredients and terminology used in the quantity production of soups, salads, and salad dressings. The student will develop competence in production of soups, salads, garnishes, and salad dressings to meet industry standards.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Culinary Arts Program.**Co-requisites:** (316-104) and (316-108) and (316-147)

Complete Course Listing

316-111 Culinary Externship Adv I**Credits:** 4

Students will experience a coordinated, advanced culinary lab experience with employers in approved culinary positions. Students will spend 216 hours further developing their culinary knowledge and skills by working at a selected site. Evaluation of a student's work will be influenced by the satisfaction expressed by employer who provides the externship experience.

Aid Code: 10 - Associate Degree.

Complete Course Listing

316-112 Culinary Externship Adv II**Credits:** 5

Students will participate in an advanced culinary lab experience coordinated with employers in approved culinary positions. Students will spend 260 hours further developing their culinary knowledge and skills by working at a selected site. Evaluation of a student's work will be influenced by the satisfaction expressed by employer who provides the externship experience.

Aid Code: 10 - Associate Degree.

Complete Course Listing

316-114 Quantity Production of Entrees, Sauces and Vegetables**Credits:** 4

This course includes a study of the fundamentals and principles of preparing all types of entrees, sauces and vegetables. The student will gain a working knowledge of terminology and ingredients used in quantity production of these foods. The student will develop a competence in the production of entrees, sauces and vegetables to meet industry standards. Included in this class is a culinary related community involvement project termed "Go Serve, Go Green, Go Lead".

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Culinary Arts Program.**Pre-requisites:** (316-104) and (316-147) and (316-108)

Complete Course Listing

316-115 Nutrition

Credits: 2

This course is geared for the culinary field. Students will study and practice nutritional principals while evaluating and modifying menus and recipes. Students will also learn the importance of nutritive elements and the affect to the human body.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Pre-requisites: (316-147)

Complete Course Listing

316-119 Baking For Chefs

Credits: 3

Baking production from simple to artistic and complex will be taught, demonstrated to, and later produced by culinary students. Fundamentals and principals of baking are included with the production of yeast products, cakes, pies, cookies, and quick breads. Also included is the proper use and care of baking equipment. Competence in bakery production must meet industry standards.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Pre-requisites: (316-108) and (316-147) and (316-104)

Complete Course Listing

316-125 Beverage Management

Credits: 1

Beverage Management includes history, geography, and marketing as well as responsible beverage service, cost control, and the study of bar set-up and management. A review of equipment use and care, current products available, production standards, and merchandising principles is also included.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Complete Course Listing

316-131 Advanced Cuisine

Credits: 2

This course includes the analysis and study of franchising, specialty breakfast and lunch items, sandwich preparation, marketing of food and increased sales. Students will prepare Tapas and "quick food courses" utilizing "a la minute" cooking techniques.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Co-requisites: 316-114

Complete Course Listing

316-136 Catering, Special Events and Contract Food Service

Credits: 2

This course includes a study of all special facets of Food Service, analysis of challenges special to each one, organizing and managing the catering process, needs of specific segments of the population (i.e., elderly, children), government regulations for funded/reimbursed food service, satellite food service for central production area and banquet production.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Pre-requisites: (316-104) and (316-114) and (316-147) and (316-103)

Complete Course Listing

316-142 Ice Sculpturing and Decorative Food Display

Credits: 2

This course allows students to develop competence in ice sculpturing, designing and producing decorative items for food service and special events, applying aspic, and creating, arranging, and preserving food displays.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Pre-requisites: (316-114) and (316-119)

Co-requisites: (316-160) and (316-165)

Complete Course Listing

316-147 Food Service Sanitation

Credits: 2

This course includes a complete study of food service sanitation, safe food handling practices, high standards of personal health and hygiene and sanitation regulations and enforcement. ServSafe certification is a nationally recognized credential offered at the completion of the course and is required for program advancement.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Complete Course Listing

316-149 Culinary Supervision

Credits: 3

This course is designed to give the student an overview of supervision in a culinary setting. Included are leadership and supervision skills, interpersonal skills, motivation, communication, decision-making and training at the first-line supervision level. The duties and responsibilities of supervisors and the role of supervision in a culinary setting and making the transition to supervision are also included.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Complete Course Listing

316-159 Food Purchasing , Inventory and Cost Control

Credits: 2

This course examines the basic principles of food purchasing and purchasing procedures, including all foods and marketing forms. Students engage in procedures for inventory control, including the use of the computer, guidelines for selecting orders, procedures for receiving orders, basic storage principles, and accurate cost computations on a per order basis as well as a per serving basis.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Culinary Arts Program.

Pre-requisites: (316-104

Co-requisites: 102-148)

Complete Course Listing

316-160 Contemporary Stocks and Sauces**Credits:** 3

A concise study of mother sauces and their derivatives along with sauce history, making stocks for the specialty kitchen, and dessert sauces are covered.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Culinary Arts Program.**Pre-requisites:** (316-107) and (316-114) and (316-119) and (316-164)**Co-requisites:** (316-142) and (316-165)

Complete Course Listing

316-164 Global Cuisine**Credits:** 2

Global Cuisine is a study of Regional, International, and Contemporary cuisine. The learner will gain and demonstrate working industry knowledge of terminology and specialized ingredients used in contemporary cuisine.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Culinary Arts Program.**Pre-requisites:** (316-108) and (316-114) and (316-147)**Co-requisites:** (316-107)

Complete Course Listing

316-165 Contemporary Cuisine**Credits:** 3

Gourmet Foods are foods at their finest. Students will learn food terminology, the specialized methods of preparation and serving techniques associated with gourmet dining. A variety of gourmet appetizers, soups, salads, entrees, desserts, and beverages are prepared and served.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Culinary Arts Program.**Pre-requisites:** (316-107) and (316-114) and (316-119) and (316-164)**Co-requisites:** (316-142) and (316-160)

Complete Course Listing

316-409**Credits:** 1

Food Sanitation-Initial Qualifier prepares students to be safe food handlers and to take the Serve Safe exam to receive the credential to work in the industry.

Aid Code: 47 - Occupational Adult.

Complete Course Listing

Dental (508)

Information provided includes course descriptions by subject only. For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

508-101 Dental Health Safety**Credits:** 1

Prepares dental auxiliary students to respond proactively to dental emergencies, control infection, prevent disease, adhere to OSHA Standards, and safely manage hazardous materials. Students also take patient vital signs and collect patient medical/dental histories. CPR certification is a prerequisite; students will be required to show proof of certification before the beginning of the course.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105081, Dental Assistant Programs.**Pre-requisites:** (Background Check, P or Background Check, N)

Complete Course Listing

508-102 Oral Anatomy, Embry, Histology**Credits:** 4

Prepares Dental Hygienist students to apply detailed knowledge about oral anatomy to planning, implementation, assessment, and evaluation of patient care. Students identify distinguishing characteristics of normal and abnormal dental, head, and neck anatomy and its relationship to tooth development, eruption, and health.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105081, Dental Assistant Programs.**Pre-requisites:** (806-177)

Complete Course Listing

508-103 Dental Radiography**Credits:** 2

Prepares dental auxiliary students to operate x-ray units and expose bitewing, periapical, extra oral, and occlusal radiographs. Emphasis is placed on protection against x-ray hazards. Students also process, mount, and evaluate radiographs for diagnostic value. In this course students demonstrate competency on a manikin. In addition, students expose bite wing radiographs on a peer, role-play patient.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105081, Dental Assistant Programs.**Pre-requisites:** (Background Check, P or Background Check, N)**Co-requisites:** (508-101)

Complete Course Listing

508-105 Dental Hygiene Process I**Credits:** 4

Introduces Dental Hygiene students to the basic technical/clinical skills required of practicing Dental Hygienists including use of basic dental equipment, examination of patients, and procedures within the dental unit. Under the direct supervision of an instructor, students integrate hands-on skills with entry-level critical thinking and problem-solving skills. The course also reinforces the application of Dental Health Safety skills.

Aid Code: 10 - Associate Degree.

Complete Course Listing

508-106 Dental Hygiene Process 2

Credits: 4

This clinical course builds on and expands the technical/clinical skills student dental hygienists began developing in Dental Hygiene Process 1. Under the direct supervision of an instructor, students apply patient care assessment, planning, implementation, and evaluation skills to provide comprehensive care for calculus case type 1 and 2 patients and perio case patients. Dental Hygiene Process 2 introduces the application of fluoride and desensitizing agents, whole mouth assessments, comprehensive periodontal examinations, application of sealants, and patient classification. Students also begin performing removal of supragingival stain, dental plaque, calcified accretions, and deposits. In addition, they gain further experience in exposing radiographs on patients. The course also reinforces the application of Dental Health Safety skills.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to 105081, Dental Assistant Programs.

Pre-requisites: (508-102) and (508-103)

Co-requisites: (508-109)

[Complete Course Listing](#)

508-107 Dental Hygiene Ethics and Professionalism

Credits: 1

Helps student dental hygienists develop and apply high professional and ethical standards. Students apply the laws that govern the practice of dental hygiene to their work with patients, other members of a dental team and the community. Emphasis is placed on maintaining professionalism which includes confidentiality and informed consent.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to 105081, Dental Assistant Programs.

[Complete Course Listing](#)

508-108 Periodontology

Credits: 3

This course prepares student dental hygienists to assess the periodontal health of patients, plan prevention and treatment of periodontal disease, and to evaluate the effectiveness of periodontal treatment plans. Emphasis is placed on the recognition of the signs and causes of periodontal disease and on selection of treatments modalities that minimize risk and restore periodontal health.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to 105081, Dental Assistant Programs.

Pre-requisites: (806-186) and (508-102) and (508-103)

Co-requisites: (806-197) and (508-106)

[Complete Course Listing](#)

508-109 Cariology

Credits: 1

This course focuses on the characteristics and contributing factors of dental decay. Dental Hygiene students help patients minimize caries risk by developing treatment plans, communicating methods to patients, and evaluating treatment results.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to 105081, Dental Assistant Programs.

Pre-requisites: (806-186) and (806-197)

Co-requisites: (508-106)

[Complete Course Listing](#)

508-110

Credits: 2

Prepares student dental hygienists to counsel patients about diet and its impact on oral health. Students learn to distinguish between balanced and unbalanced diets and to construct diets that meet the needs of patients with compromised dental/oral health. Students also learn to counsel patients about the effect of eating disorders on dental health.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to 105081, Dental Assistant Programs.

Pre-requisites: (806-186)

Co-requisites: (508-109)

[Complete Course Listing](#)

508-111 General & Oral Pathology

Credits: 3

This course prepares the student dental hygienist to determine when to consult, treat or refer clients with various disease, infection or physiological conditions. Students learn to recognize the signs, causes, and implications of common pathological conditions including inflammatory responses, immune disorders, genetic disorders, developmental disorders of tissues and cysts, oral tissue trauma, and neoplasm of the oral cavity.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to 105081, Dental Assistant Programs.

Pre-requisites: (508-102) and (508-103)

[Complete Course Listing](#)

508-112 Dental Hygiene Process 3**Credits:** 5

This clinical course builds on and expands the technical/clinical skills student dental hygienists developed in Dental Hygiene Process II. In consultation with the instructor, students apply independent problem-solving skills in the course of providing comprehensive care for calculus case type 1, 2, and 3 patients and perio case type 0, I, II, and III patients. Dental Hygiene Process III introduces root detoxification using hand and ultra-sonic instruments, manipulation of files, use of oral irrigators, selection of dental implant prophylaxis treatment options, and administration of chemotherapeutic agents. Students also adapt care plans in order to accommodate patients with special needs.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105081, Dental Assistant Programs.**Pre-requisites:** (508-110) and (508-106) and (508-108) and (508-109)
Complete Course Listing**508-113 Dental Materials****Credits:** 2

Prepares dental auxiliary students to handle and prepare dental materials such as liners, bases, cements, amalgam, resin restorative materials, gypsum products, and impression materials. They also learn to take alginate impressions on manikins and clean removable appliances.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105081, Dental Assistant Programs.**Pre-requisites:** (Background Check, P or Background Check, N) and (508-101)
Complete Course Listing**508-114 Dental Pharmacology****Credits:** 2

Prepares student dental hygienists to select safe and effective patient premedication and within the scope of dental hygiene practice. Students will also learn to recognize potential pharmacological contraindications for specific patients and to take measures to avoid negative impact or alert other members of the dental team to possible negative impact.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105081, Dental Assistant Programs.**Pre-requisites:** (806-186) and (806-197)**Co-requisites:** (508-106 or 508-112)

Complete Course Listing

508-115**Credits:** 2

This course prepares the Dental Hygienist student to play a proactive role in improving the dental health of community members of all ages. Students perform and interpret dental health research to determine community dental health needs.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105081, Dental Assistant Programs.**Pre-requisites:** (508-101)**Co-requisites:** (508-112)

Complete Course Listing

508-117 Dental Hygiene Process 4**Credits:** 4

This clinical course builds on and expands the technical/clinical skills student dental hygienists developed in Dental Hygiene Process 3. With feedback from the instructor, students manage all aspects of cases in the course of providing comprehensive care for calculus case type 0, 1, 2, and 3 patients and for case type 0 I, II, and III patients. Emphasizes maximization of clinical efficiency and effectiveness. Prepares student dental hygienists to demonstrate their clinical skills in a formal examination situation.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105081, Dental Assistant Programs.**Pre-requisites:** (508-112)**Co-requisites:** (508-107) and (508-115)

Complete Course Listing

508-118 Dental Anxiety and Pain Management**Credits:** 2

This course prepares the student dental hygienist to work within the scope of dental hygiene practice to manage anxiety and pain for dental patients. Students learn to prepare and administer local anesthesia and nitrous oxide safely. The course also addresses the recommendation of alternative pain control measures.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105081, Dental Assistant Programs.**Pre-requisites:** (508-102)**Co-requisites:** (508-114 and 508-112)

Complete Course Listing

508-120 Dental Office Management**Credits:** 2

Prepares dental auxiliary students to manage telephones, appointments, recall systems, and inventory. Students also develop the skills needed to process accounts receivable and payable, collections and third party reimbursements.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (508-307)**Co-requisites:** (508-308) and (508-309) and (508-310) and (508-311)

Complete Course Listing

508-302 Dental Chairside

Credits: 5

Prepares dental assistant students to chart oral cavity structures, dental pathology, and restorations and to assist a dentist with basic dental procedures including examinations, pain control, amalgam restoration and cosmetic restoration. Students will also develop the ability to educate patients about preventive dentistry, brushing and flossing techniques, and dental procedures, using lay terminology. Throughout the course, students will apply decoding strategies to the correct use and interpretation of dental terminology.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Dental Assistant Program.

Pre-requisites: (Background Check, P or Background Check, N)

Co-requisites: (508-101) and (508-103) and (508-113) and (508-304) and (508-306) and (508-307)

Complete Course Listing

508-304 Dental & General Anatomy

Credits: 2

Prepares dental assistant students to apply fundamentals of general and dental anatomy to informed decision-making and to professional communication with colleagues and patients.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Dental Assistant Program.

Pre-requisites: (Background Check, P or Background Check, N)

Co-requisites: (508-101) and (508-103) and (508-113) and (508-302) and (508-306) and (508-307)

Complete Course Listing

508-306 Dental Assistant Clinical

Credits: 3

Students apply skills developed in Dental and General Anatomy, Dental Health Safety, Dental Chairside, Dental Materials, Dental Radiography, and professionalism in a clinical setting with patients. Emphasizes integration of core abilities and basic occupational skills.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Dental Assistant Program.

Pre-requisites: (Background Check, P or Background Check, N)

Co-requisites: (508-101) and (508-103) and (508-113) and (508-302) and (508-304) and (508-307)

Complete Course Listing

508-307 Dental Assistant Professionalism

Credits: 1

Prepares dental assistant students for professional success in a dental practice or another dental health care environment. Students develop professional appearance and image. More importantly, they learn to work within ethical guidelines and legal frameworks. In preparation for entering the work force, dental assistants customize or develop their portfolios and lay out an on-going professional development plan.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Dental Assistant Program.

Pre-requisites: (Background Check, P or Background Check, N)

Co-requisites: (508-101) and (508-103) and (508-113) and (508-302) and (508-304) and (508-306)

Complete Course Listing

508-308 Dental Chairside Advanced

Credits: 5

Prepares dental assistant students to adapt chairside skills to assisting with dental specialties as they are performed in general practice.

Focuses on pediatric dentistry, orthodontics, oral maxillofacial surgery, endodontics, periodontic, and prosthodontics. Students will also develop the ability to assist with sealants, perform coronal polishing, and apply topical fluoride and topical anesthetics.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (508-307)

Co-requisites: (508-120) and (508-309) and (508-310) and (508-311)

Complete Course Listing

508-309 Dental Laboratory Procedures

Credits: 4

Prepares Dental Assistant students to produce alginate impressions and fabricate diagnostic models, oral appliances, temporary restorations, and custom trays. Students also polish oral appliances.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (508-307)

Co-requisites: (508-120) and (508-308) and (508-310) and (508-311)

Complete Course Listing

508-310 Dental Radiography - Advanced

Credits: 1

Builds on principles and skills developed in Dental Radiography. Dental Assisting students expose full mouth series, and specialized radiographs on adult and child patients. Emphasis is placed on protection against x-ray hazards. Students will also process, mount, and evaluate radiographs for diagnostic value. In addition, they will use radiographs to explain dental health and treatment plans to patients.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (508-307)

Co-requisites: (508-120) and (508-308) and (508-309) and (508-311)

Complete Course Listing

508-311 Dental Assistant Clinical Advanced**Credits:** 2

Dental Assisting students apply skills developed in Dental Chairside-Advanced, Dental Lab Procedures, Dental Radiography-Advanced, and Dental Office Procedures in a clinical setting with patients. Emphasizes integration of core abilities and basic and advanced occupational skills.

Aid Code: 31 - One-year Technical Diploma.**Pre-requisites:** (508-307)**Co-requisites:** (508-120) and (508-308) and (508-309) and (508-310)

Complete Course Listing

508-998 Dental Hygiene Process I**Credits:** 4

Introduces Dental Hygiene students to the basic technical/clinical skills required of practicing Dental Hygienists including use of basic dental equipment, examination of patients, and procedures within the dental unit. Under the direct supervision of an instructor, students integrate hands-on skills with entry-level critical thinking and problem-solving skills. The course also reinforces the application of Dental Health Safety skills.

Aid Code: 10 - Associate Degree.

Complete Course Listing

Diesel Heavy Equipment I (070)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

070-318 Drive Train Service**Credits:** 4

This course introduces the learner to standard hydrostatic and power transmission driveline systems. Learners will engage in repairing automatic and standard transmissions, drive shafts, u-joints, differential equalizers, and differential assemblies. Learners will be able to perform maintenance and repairs per OEM/NATEF standards to several driveline systems that are found within the current diesel trucking industry.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

070-321 Heating, Cooling and Air Conditioning**Credits:** 3

This course focuses on the theory, operation, and troubleshooting of heating, cooling, and air conditioning systems in the diesel trucking industry. Learners examine system identification, diagnostic testing, and maintenance required per OEM/NATEF/EPA standards. Knowledge gained in this course will give the learner the ability to safely test and repair heating and air conditioning systems per OEM/EPA requirements within the diesel industry.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

070-341 Electrical Fundamentals**Credits:** 4

This course introduces the learner to the theory, operation, and function of electricity as it applies to the diesel industry. Learners will read schematics, wiring diagrams, basic functions of a DVOM as well as test batteries, charging systems and learn basic voltage drop theory. Within lab settings, learners will be able to use their knowledge to test electrical circuit boards, starting and charging systems, and lighting circuits.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-342) and (806-315)

Complete Course Listing

070-403**Credits:** 2.4

The 24 hour Tractor safety course is designed to instruct youth between the ages of 12-16 on safe use of farm equipment in accordance with Wisconsin act 455 that states " No person may direct or permit a child under age 16 years to operate a tractor/self-propelled implement of a husbandry on the high way unless the child has been certified as successfully completing tractor and machinery operation safety to use.

Aid Code: 47 - Occupational Adult.

Complete Course Listing

Diesel Heavy Equipment II (412)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

412-100 Introduction to Heavy Diesel**Credits:** 1

In this course students will be introduced to the heavy duty diesel field. Students will explore the definition, purpose, and function of heavy duty vehicles. Students will identify career paths within the diesel technician field. Students will identify and practice shop safety procedures.

Aid Code: 10 - Associate Degree.

Complete Course Listing

412-101 Brake Service 1**Credits:** 1

In this course students will explore the fundamental concepts of braking, including friction, heat, and pressure. Students will practice inspecting, testing, servicing, and repairing air brake circuits.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-100)

Complete Course Listing

412-102 Brake Service 2**Credits:** 1

In this course students will practice inspection, diagnosis, service, and repair of heavy duty vehicle s-cam and air disc brake systems.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-101)

Complete Course Listing

412-103 Brake Service 3

Credits: 1

In this course students will identify the purpose and function of anti-lock braking systems, stability control, and collision avoidance systems. Students will identify, test, diagnose, and repair these systems to manufacturer specifications.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-102)

[Complete Course Listing](#)

412-104 Brake Service 4

Credits: 1

In this course students will identify the purpose and function of heavy diesel hydraulic braking systems and air over hydraulic braking systems. Students will inspect, diagnose, adjust, and repair hydraulic brake systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-103)

[Complete Course Listing](#)

412-105 Steering & Suspension 1

Credits: 1

In this course students will define the purpose and function of wheel end components. Students will identify, inspect, test, adjust, and repair tires, wheels, rims and hubs to manufacturer specifications.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-100)

[Complete Course Listing](#)

412-106 Steering & Suspension 2

Credits: 1

In this course students will explore front-end, alignment factors, and frames as they pertain to heavy diesel vehicles. Students will inspect, test, and repair front axles, frames, and attaching hardware. Students will identify electronic alignment and alignment factors that contribute to heavy duty vehicle instability.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-105)

[Complete Course Listing](#)

412-107 Steering & Suspension 3

Credits: 1

In this course students will identify the purpose and function of heavy duty vehicle suspension systems and their components. Student will explore and identify air suspension, leaf spring suspension, aligning devices, equalizer systems, and all attaching hardware. Students will inspect, adjust, test and repair heavy duty vehicle suspension systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-106)

[Complete Course Listing](#)

412-108 Steering & Suspension 4

Credits: 1

In this course students will identify the purpose and function of steering systems and components. Students will practice diagnostic, inspection and repair procedures of heavy duty vehicle steering systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-107)

[Complete Course Listing](#)

412-109 Drivetrain 1

Credits: 1

In this course students will identify the purpose and function of heavy duty vehicle clutches and their components. Students will practice servicing, inspection, and replacement of several different types of heavy duty clutches.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-100)

[Complete Course Listing](#)

412-110 Drivetrain 2

Credits: 1

In this course students will identify supporting principles and functions of manual transmission and gear concepts. Students will explore different gearing concepts, and how these concepts apply to standard transmissions used in the heavy diesel industry. Students will inspect, diagnose, service and repair standard transmission auxiliary assemblies to manufacturer specification.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-109)

[Complete Course Listing](#)

412-111 Drivetrain 3

Credits: 1

In this course students identify the purpose and function of automated transmissions within the heavy duty industry. Students will explore controls associated with various types of modern automated transmissions.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-110)

[Complete Course Listing](#)

412-112 Drivetrain 4

Credits: 1

In this course students will identify the purpose and function of drive shafts and driven axles. Students will practice inspection, service, and repair of diesel and heavy duty vehicle drive shafts and drive axles.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-111)

[Complete Course Listing](#)

412-113 Electrical Fundamentals 1

Credits: 1

In this course students will explore applications of fundamental principles and theories of electricity within the heavy duty vehicle industry.

Aid Code: 10 - Associate Degree.

Co-requisites: (806-315)

[Complete Course Listing](#)

412-114 Electrical Fundamentals 2**Credits:** 1

In this course students identify the purpose and function of electrical circuits, circuit control devices, and electrical instrumentation. Students will practice testing individual and system circuits using a multimeter.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-113)

Complete Course Listing

412-115 Electrical Fundamentals 3**Credits:** 1

In this course students will identify the purpose and function of commercial vehicle batteries, as well as advanced battery technology and placement. Students will inspect, test, charge, and replace heavy duty commercial batteries to manufacturer specifications.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-114)

Complete Course Listing

412-116 Electrical Fundamentals 4**Credits:** 1

In this course students will identify the purpose and function of heavy duty vehicle starting and charging systems and their components. Students will practice testing, repairing, and replacing heavy duty vehicle starters, alternators and other electrical system components.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-115)

Complete Course Listing

412-117 Electrical Troubleshooting 1**Credits:** 1

In this course, students will explore heavy duty vehicle electrical wiring. Students will practice reading and interpreting electrical wiring schematics.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-116 or 070-341)

Complete Course Listing

412-118 Electrical Troubleshooting 2**Credits:** 1

In this course students practice inspecting, testing and repairing electrical lighting circuits and instrumentation on vehicles.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-117)

Complete Course Listing

412-119 Electrical Troubleshooting 3**Credits:** 1

In this course students will explore heavy duty vehicle electrical signal processing. Students will identify the purpose and function of sensors and sensor information, as well as control module processing of related information. Students will practice the use of electrical signal testing equipment.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-118)

Complete Course Listing

412-120 Electrical Troubleshooting 4**Credits:** 1

In this course students will identify the purpose and function of on-board vehicle diagnostic systems. Students will inspect, test diagnose, and repair multiple different systems to manufacturer specifications using information from control modules.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-119)

Complete Course Listing

412-121 Diesel HVAC 1**Credits:** 1

In this course students will explore basic principles of diesel vehicle heating and air conditioning, as well as heating and air conditioning controls and operation.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-120 or 412-342)

Complete Course Listing

412-122 Diesel HVAC 2**Credits:** 1

In this course students practice inspecting, diagnosing, and servicing diesel vehicle heating and air conditioning systems per manufacturer, EPA, and MVAC standards. This course will prepare students to become MVAC 609 certified.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-121)

Complete Course Listing

412-123 Diesel HVAC 3**Credits:** 1

In this course students identify the purpose and function of trailer refrigeration systems and their components.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-122)

Complete Course Listing

412-124 Advanced Safety Procedures**Credits:** 1

In this course students will identify and perform safe work practices in accordance with OSHA requirements. These practices will be applicable to diesel shops, as well as other environments in the diesel industry.

Aid Code: 10 - Associate Degree.

Complete Course Listing

412-125 Engine Fundamentals 1**Credits:** 1

In this course students will identify the purpose and function of various engines and their components. Students will practice calculating horsepower and torque, as well as identifying and describing unique features and characteristics of diesel engines.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-124 or 412-305)

Complete Course Listing

412-126 Engine Fundamentals 2

Credits: 1

In this course students will identify and describe the categories of noxious emissions from diesel engines, as well as the operations that produce them. Students will identify emissions standards for diesel vehicles and the various monitoring and controls systems used to manage emissions.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-125)

Complete Course Listing

412-127 Engine Fundamentals 3

Credits: 1

In this course students will explore and identify characteristics and components of diesel compression ignition systems. Students will practice inspecting and repairing these systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-126)

Complete Course Listing

412-128 Engine Fundamentals 4

Credits: 1

In this course students will identify characteristics and components of diesel lubrication systems. Students will practice inspecting and repairing these systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-127)

Complete Course Listing

412-129 Engine Service Repair I 1

Credits: 1

In this course students will practice diesel engine service and troubleshooting, including cleaning, inspecting, and determining corrective action for a variety of components.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-128 or 070-308)

Complete Course Listing

412-130 Engine Service Repair I 2

Credits: 1

In this course students will practice inspecting, troubleshooting, diagnosing, and repairing diesel engine cylinder block and crankshaft assemblies.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-129)

Complete Course Listing

412-131 Engine Service Repair I 3

Credits: 1

In this course students will identify the purpose and function of cylinder heads and associated components. Students will practice inspecting, troubleshooting, diagnosing, and repairing diesel engine cylinder heads.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-130)

Complete Course Listing

412-132 Engine Service Repair II 1

Credits: 1

In this course students will identify the purpose and function of air intake and crankcase ventilation systems and their components. Students will practice performing inspections and diagnostic procedures for these systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-131 or 070-308)

Complete Course Listing

412-133 Engine Service Repair II 2

Credits: 1

In this course students will identify the purpose and function of turbochargers and their components. Students will practice inspection, testing, and diagnostic procedures for turbocharger systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-132)

Complete Course Listing

412-134 Engine Service Repair II 3

Credits: 1

In this course students will identify the purpose and function of diesel engine exhaust gas recirculation systems and their components. Students will practice performing inspection and diagnostic procedures on these systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-133)

Complete Course Listing

412-135 Hydraulics I 1

Credits: 1

In the course students will identify the purpose and function of hydraulic systems, as well as everyday applications of those systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (806-315)

Complete Course Listing

412-136 Hydraulics I 2

Credits: 1

In this course students will read and interpret hydraulic system diagrams and schematics. Students will perform temperature, pressure, flow, and cycle time tests on hydraulic systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-135)

Complete Course Listing

412-137 Hydraulics II 1

Credits: 1

In this course students will practice the inspection, tear down, and reassembly of major hydraulic components.

Aid Code: 10 - Associate Degree.

Co-requisites: (412-136 or 070-340) and (806-315)

Complete Course Listing

412-138 Hydraulics II 2**Credits:** 1

In this course students will identify the purpose and function of automatic transmission systems and their components. Students will compare automatic and manual transmission systems.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-137)

Complete Course Listing

412-139 Diesel Fuel Systems 1**Credits:** 1

In this course students will identify and describe the properties and characteristics of diesel fuel, fuel additives, and fuel systems. Students will practice inspection and servicing problems associated with low-pressure fuel systems.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-138) and (412-136 or 070-340)

Complete Course Listing

412-140 Diesel Fuel Systems 2**Credits:** 1

In this course students will identify the purpose and function of high-pressure fuel injection systems in diesel applications. Students will practice inspection and diagnostic procedures for these systems.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-139)

Complete Course Listing

412-141 Diesel Fuel Systems 3**Credits:** 1

In this course students will identify the purpose and function of various fuel pumps. Students will practice maintenance and repair of various fuel pumps.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-140)

Complete Course Listing

412-142 Diesel Fuel Systems 4**Credits:** 1

In this course students will identify the function and construction of various fuel systems. Students will practice maintenance, reconditioning, and repairs of common fuel systems.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-141)

Complete Course Listing

412-143 Inspection & Maintenance Procedures 1**Credits:** 1

In this course students will define preventative maintenance practices. Students will identify regulations related to the maintenance and operation of commercial vehicles, and identify best practices for establishing preventative maintenance and inspection schedules.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-304 or 412-142) and (412-138 or 070-342) and (412-120 or 412-342) and (412-104 or 412-310) and (412-112 or 070-318) and (412-108 or 412-311) and (412-123 or 070-321) and (412-124 or 412-305)

Complete Course Listing

412-144 Inspection & Maintenance Procedures 2**Credits:** 1

In this course students will define the importance of preventative maintenance and practice following a preventative maintenance schedule, including reviewing inspection requirements and performing inspections and maintenance.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-143)

Complete Course Listing

412-145 Inspection & Maintenance Procedures 3**Credits:** 1

In this course students will identify the requirements of preventative maintenance and inspection plans and programs. Students will practice preventative maintenance record keeping. Students will identify the qualifications for vehicle inspectors and brake inspectors.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-144)

Complete Course Listing

412-146 Inspection & Maintenance Procedures 4**Credits:** 1

In this course students will practice activities that make up the preventative maintenance inspection process, such as locating information about recalls, distinguishing between shop and vehicle rules, and identifying specialty tools.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-145)

Complete Course Listing

412-147 NATEF Certification Review**Credits:** 1

In this course students will apply standards practiced throughout the program in preparation for ASE certification and the diesel technician career field.

Aid Code: 10 - Associate Degree.**Co-requisites:** (412-146 or 412-347)

Complete Course Listing

412-304 Diesel Fuel Systems**Credits:** 4

This course focuses on diesel fuel system designs and principles. Learners will analyze the basics of diesel fuel system injection pumps, injectors, and injection system operation, as well as the maintenance and troubleshooting of electronic fuel systems per OEM/NATEF standards. Learners will be able to perform diagnostic service and repairs on current medium and heavy diesel engine fuel systems within the trucking industry.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

412-305 Advanced Safety Procedures

Credits: 1

This course will focus on OSHA, and safety within a shop setting. Learners will work towards and receive a certificate for crane training per OSHA training requirements. Knowledge gained will give the learner the ability to operate a crane and to work safely within a diesel shop as well as other diesel industry environments.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

412-306 Diesel Engine Service Repair I

Credits: 3

This course is a continuation of the Engine Fundamentals course. Learners will apply their knowledge of diesel engine parts and functions to perform emissions tests (intakes and exhaust sensors) as well as troubleshoot electrical system issues. Learners will be able to perform these diagnostics to the level of EPA regulations and standards.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (070-308)

Complete Course Listing

412-307 Diesel Engine Service Repair II

Credits: 3

This course is a continuation of Diesel Engine Service Repair I. Learners will breakdown and put together complete diesel engine systems, applying knowledge of external parts and functions, while paying close attention to the internal parts and functions. Learners will be able to perform diagnostics on all systems combined, ensuring that intake and exhaust systems meet EPA standards and entire engine systems are rebuilt to full working capacity.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (070-308)

Complete Course Listing

412-308 NAETF Certification Review

Credits: 1

Applying the NATEF standards practiced throughout this program, this course is designed to prepare the learner for future ASE certifications while practicing in the field as a Diesel Technician.

Aid Code: 32 - Two-year Technical Diploma.

Pre-requisites: (412-349)

Complete Course Listing

412-310 Brake Service Fundamentals

Credits: 4

This course introduces the learner to current trucking industry braking systems. Using OEM/NATEF standards, learners perform diagnosis, service and repairs on air, hydraulic, manual, and electric parking brakes as well as antilock braking systems that include wheel-end procedures. Learners apply the fundamentals of braking systems to perform proper diagnostics and repairs to current diesel vehicles.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

412-311 Truck Steering & Suspension

Credits: 4

This course focuses on the multiple steering and suspension systems used on current medium and heavy duty diesel vehicles. Using OEM/NATEF standards and specifications, students engage in proper inspection and repairs on leaf spring, solid rubber, air ride, torsion bar suspension, and power steering as well as manual steering units. Learners will be able to perform electronic alignment procedures and repair suspension as well as steering problems commonly found within the diesel trucking industry.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

412-342 Electrical Systems Troubleshooting

Credits: 4

This course develops the learners' electrical troubleshooting skills. Learners analyze testing techniques for advanced electrical circuits using DVOM's and scan tools, and interpret results using OEM/NATEF standards. The learner will be able to perform advanced electrical diagnostics and repairs on current diesel vehicle electrical systems.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (070-341)

Complete Course Listing

412-413

Credits: 4.8

Course will include the basics of the learning cycle along with adult learning methods for trainers. Participants will learn how to develop a training program for employees using OSHA standards, and specific to safe operation of lift trucks in manufacturing settings.

Aid Code: 47 - Occupational Adult.

Complete Course Listing

412-450 Introduction to Heavy Diesel

Credits: 1

In this course students will be introduced to the heavy duty diesel field. Students will explore the definition, purpose, and function of heavy duty vehicles. Students will identify career paths within the diesel technician field. Students will identify and practice shop safety procedures.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

412-451

Credits: 1

In this course students will explore the fundamental concepts of braking, including friction, heat, and pressure. Students will practice inspecting, testing, servicing, and repairing air brake circuits.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-100 or 412-450)

Complete Course Listing

412-452

Credits: 2

In this course students will practice inspection, diagnosis, service, and repair of heavy duty vehicle s-cam and air disc brake systems.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-101 or 412-451)

Complete Course Listing

412-453**Credits:** 1

In this course students will identify the purpose and function of anti-lock braking systems, stability control, and collision avoidance systems. Students will identify, test, diagnose, and repair these systems to manufacturer specifications.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-102 or 412-452)

Complete Course Listing

412-454**Credits:** 1

In this course students will define the purpose and function of wheel end components. Students will identify, inspect, test, adjust, and repair tires, wheels, rims and hubs to manufacturer specifications.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-100 or 412-450)

Complete Course Listing

412-455**Credits:** 1

In this course students will explore front-end, alignment factors, and frames as they pertain to heavy diesel vehicles. Students will inspect, test, and repair front axles, frames, and attaching hardware. Students will identify electronic alignment and alignment factors that contribute to heavy duty vehicle instability.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-105 or 412-454)

Complete Course Listing

412-456**Credits:** 1

In this course students will identify the purpose and function of heavy duty vehicle suspension systems and their components. Student will explore and identify air suspension, leaf spring suspension, aligning devices, equalizer systems, and all attaching hardware. Students will inspect, adjust, test and repair heavy duty vehicle suspension systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-106 or 412-455)

Complete Course Listing

412-457**Credits:** 1

In this course students will identify the purpose and function of steering systems and components. Students will practice diagnostic, inspection and repair procedures of heavy duty vehicle steering systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-107 or 412-456)

Complete Course Listing

412-458**Credits:** 1

In this course students will identify the purpose and function of heavy duty vehicle clutches and their components. Students will practice servicing, inspection, and replacement of several different types of heavy duty clutches.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-100 or 412-450)

Complete Course Listing

412-459**Credits:** 1

In this course students will identify supporting principles and functions of manual transmission and gear concepts. Students will explore different gearing concepts, and how these concepts apply to standard transmissions used in the heavy diesel industry. Students will inspect, diagnose, service and repair standard transmission auxiliary assemblies to manufacturer specification.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-109 or 412-458)

Complete Course Listing

412-460**Credits:** 1

In this course students identify the purpose and function of automated transmissions within the heavy duty industry. Students will explore controls associated with various types of modern automated transmissions.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-110 or 412-451)

Complete Course Listing

412-461**Credits:** 1

In this course students will identify the purpose and function of drive shafts and driven axles. Students will practice inspection, service, and repair of diesel and heavy duty vehicle drive shafts and drive axles.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-111 or 412-460)

Complete Course Listing

412-462**Credits:** 1

In this course students will explore applications of fundamental principles and theories of electricity within the heavy duty vehicle industry.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** 806-315

Complete Course Listing

412-463**Credits:** 1

In this course students identify the purpose and function of electrical circuits, circuit control devices, and electrical instrumentation. Students will practice testing individual and system circuits using a multimeter.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-113 or 412-462)

Complete Course Listing

412-464

Credits: 1

In this course students will identify the purpose and function of commercial vehicle batteries, as well as advanced battery technology and placement. Students will inspect, test, charge, and replace heavy duty commercial batteries to manufacturer specifications.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-114 or 412-463)

[Complete Course Listing](#)

412-465

Credits: 1

In this course students will identify the purpose and function of heavy duty vehicle starting and charging systems and their components. Students will practice testing, repairing, and replacing heavy duty vehicle starters, alternators and other electrical system components.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-115 or 412-464)

[Complete Course Listing](#)

412-466

Credits: 1

In this course, students will explore heavy duty vehicle electrical wiring. Students will practice reading and interpreting electrical wiring schematics.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-116 or 070-341 or 412-465)

[Complete Course Listing](#)

412-467

Credits: 1

In this course students practice inspecting, testing and repairing electrical lighting circuits and instrumentation on vehicles.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-117 or 412-466)

[Complete Course Listing](#)

412-468

Credits: 1

In this course students will explore heavy duty vehicle electrical signal processing. Students will identify the purpose and function of sensors and sensor information, as well as control module processing of related information. Students will practice the use of electrical signal testing equipment.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-118 or 412-467)

[Complete Course Listing](#)

412-469

Credits: 1

In this course students will identify the purpose and function of on-board vehicle diagnostic systems. Students will inspect, test diagnose, and repair multiple different systems to manufacturer specifications using information from control modules.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-119 or 412-468)

[Complete Course Listing](#)

412-470

Credits: 1

In this course students will explore basic principles of diesel vehicle heating and air conditioning, as well as heating and air conditioning controls and operation.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-120 or 412-342 or 412-469)

[Complete Course Listing](#)

412-471

Credits: 1

In this course students practice inspecting, diagnosing, and servicing diesel vehicle heating and air conditioning systems per manufacturer, EPA, and MVAC standards. This course will prepare students to become MVAC 609 certified.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-121 or 412-470)

[Complete Course Listing](#)

412-472

Credits: 1

In this course students identify the purpose and function of trailer refrigeration systems and their components.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-122 or 412-471)

[Complete Course Listing](#)

412-473

Credits: 1

In this course students will identify and perform safe work practices in accordance with OSHA requirements. These practices will be applicable to diesel shops, as well as other environments in the diesel industry.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

412-474

Credits: 1

In this course students will describe the development of diesel technology, Students will identify the various applications of diesel engines and identify how major technologies and strategies are used to reduce diesel engine emissions.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-124 or 412-305 or 412-473)

[Complete Course Listing](#)

412-475

Credits: 1

In this course students will identify the purpose and function of various diesel engines and their components. Students will practice calculating horsepower and torque, as well as identifying and describing unique features and characteristics of diesel engines.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (412-125 or 412-474)

[Complete Course Listing](#)

412-476**Credits:** 1

In this course students will identify and describe the categories of noxious emissions from diesel engines, as well as the operations that produce them. Students will identify emissions standards for diesel vehicles and the various monitoring and controls systems used to manage emissions.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-126 or 412-475)

Complete Course Listing

412-477**Credits:** 1

In this course students will explore and identify characteristics and components of diesel compression ignition systems. Students will identify and explain the effects of fuel system properties on diesel combustion as well as practice inspecting and repairing these systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-127 or 412-476)

Complete Course Listing

412-478**Credits:** 1

In this course students will practice diesel engine service and troubleshooting, including cleaning, inspecting, and determining corrective action for a variety of components. Students will explore the repairing of diesel engine cylinder block and crankshaft assemblies.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (070-308 or 412-128 or 412-477)

Complete Course Listing

412-479**Credits:** 1

In this course students will identify the purpose and function of cylinder heads and valve train mechanisms. Students will practice inspecting, troubleshooting, diagnosing, and repairing diesel engine cylinder heads.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-129 or 412-478)

Complete Course Listing

412-480**Credits:** 1

In this course students will identify characteristics and components of diesel lubrication and cooling systems. Students will practice inspecting and repairing these systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-130 or 412-479)

Complete Course Listing

412-481**Credits:** 1

In this course students will identify the purpose and function of air intake and crankcase ventilation systems and their components. Students will practice performing inspections, diagnostic, maintenance procedures for these systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (070-308 or 412-128 or 412-477)

Complete Course Listing

412-482**Credits:** 1

In this course students will identify the purpose and function of turbochargers and their components. Students will practice inspection, testing, and diagnostic procedures for fixed and variable turbocharger systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-132 or 412-481)

Complete Course Listing

412-483**Credits:** 1

In this course students will identify the purpose and function of diesel engine exhaust gas re-circulation and after-treatment systems and their components. Students will practice performing inspection and diagnostic procedures on these systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-133 or 412-482)

Complete Course Listing

412-484**Credits:** 1

In the course students will identify the purpose and function of hydraulic systems, as well as everyday applications of those systems. Students will read and interpret hydraulic system diagrams and schematics and students will perform temperature, pressure, flow, and cycle time tests on hydraulic systems.

Aid Code: 32 - Two-year Technical Diploma.**Pre-requisites:** 806-315

Complete Course Listing

412-485**Credits:** 1

In this course students will practice the inspection, tear down, and reassembly of major hydraulic components. Students will identify the purpose and function of hydraulic braking systems used in on and off highway equipment.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-135 or 412-484)

Complete Course Listing

412-486**Credits:** 1

In this course students will identify the purpose and function of automatic transmission systems and their components. Students will identify the purpose and function of torque converters and the planetary gear concept.

Aid Code: 32 - Two-year Technical Diploma.**Pre-requisites:** (806-315)**Co-requisites:** 412-136 or 070-340 or 412-485)

Complete Course Listing

412-487**Credits:** 1

In this course students will identify the purpose and function of hydraulic and electronic controlled automatic transmission systems and their components. Students will practice maintenance and servicing the automatic transmission system.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-137 or 412-486)

Complete Course Listing

412-488**Credits:** 1

In this course students will identify and describe the properties and characteristics of diesel fuel, fuel additives, and fuel systems. Students will practice inspection and servicing problems associated with low-pressure fuel systems.

Aid Code: 32 - Two-year Technical Diploma.**Pre-requisites:** 806-315**Co-requisites:** (412-136 or 070-340 or 412-485)

Complete Course Listing

412-489**Credits:** 1

In this course students will identify the purpose and function of high-pressure fuel injection systems in diesel applications. Students will practice inspection and diagnostic procedures for these mechanical fuel injection systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-139 or 412-488)

Complete Course Listing

412-490**Credits:** 1

In this course students will identify the purpose and function of various electronic fuel injection systems. Students will practice maintenance and repair of various electronic fuel injection systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-140 or 412-489)

Complete Course Listing

412-491**Credits:** 1

In this course students will identify the function and construction of common rail fuel systems. Students will practice maintenance, reconditioning, and repairs of common rail fuel systems.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-141 or 412-490)

Complete Course Listing

412-492 Inspection & Maintenance Procedures 1**Credits:** 1

In this course students will define preventative maintenance practices. Students will identify regulations related to the maintenance and operation of commercial vehicles, and identify best practices for establishing preventative maintenance and inspection schedules.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-491 or 412-142 or 412-304) and (412-469 or 412-120 or 412-342) and (412-453 or 412-104 or 412-310) and (412-457 or 412-108 or 412-311) and (412-472 or 412-123)

Complete Course Listing

412-493 Inspection & Maintenance Procedures 2**Credits:** 1

In this course students will define the importance of preventative maintenance and practice following a preventative maintenance schedule, including reviewing inspection requirements and performing inspections and maintenance.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-143 or 412-492)

Complete Course Listing

412-494 Inspection & Maintenance Procedures 3**Credits:** 1

In this course students will identify the requirements of preventative maintenance and inspection plans and programs. Students will practice preventative maintenance record keeping. Students will identify the qualifications for vehicle inspectors and brake inspectors.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-144 or 412-493)

Complete Course Listing

412-495 Inspection & Maintenance Procedures 4**Credits:** 1

In this course students will practice activities that make up the preventative maintenance inspection process, such as locating information about recalls, distinguishing between shop and vehicle rules, and identifying specialty tools.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-145 or 412-494)

Complete Course Listing

412-496**Credits:** 1

In this course students will apply standards practiced throughout the program in preparation for ASE certification and the diesel technician career field.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (412-146 or 412-495)

Complete Course Listing

Early Childhood Education (307)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

307-108 ECE: Early Language & Literacy**Credits:** 3

This course explores strategies to encourage the development of early language and literacy knowledge and skill building in children birth to 8 years of age. Learners will investigate the components of literacy including; literacy and a source of enjoyment, vocabulary and oral language, phonological awareness, knowledge of print, letters and words, comprehension and an understanding of books and other texts. Theories and philosophies regarding children's language and literacy development will be addressed. Dual language learning will be examined within the context of developmentally appropriate practices. Assessment tools for early language and literacy acquisition will be reviewed.

Aid Code: 10 - Associate Degree.

Complete Course Listing

307-110 ECE: Social Studies, Art & Music**Credits:** 3

This 3-credit course will focus on beginning level curriculum development in the specific integrated content areas of social studies, art, music, & movement (SSAMM).

Aid Code: 10 - Associate Degree.

Complete Course Listing

307-112 ECE: STEM**Credits:** 3

This 3-credit course will focus on beginning level curriculum development in the specific integrated content areas of science, technology, engineering and mathematics.

Aid Code: 10 - Associate Degree.

Complete Course Listing

307-148 ECE: Foundations of Early Childhood Education**Credits:** 3

This 3-credit course introduces you to the early childhood profession. Course competencies include: explore the concepts of diversity, cultural responsiveness, and anti-bias as it relates to early childhood education, investigate the history of early childhood education, examine regulatory requirements for early childhood education programs in WI, summarize types of early childhood education settings, identify the components of a quality early childhood education program, summarize responsibilities of early childhood education professionals, explore early childhood curriculum models and examine the critical role of play as it relates to developmentally appropriate practice.

Aid Code: 10 - Associate Degree.

Complete Course Listing

307-151 ECE: Infant & Toddler Development**Credits:** 3

In this 3-credit course you will study infant and toddler development as it applies to an early childhood education setting. Course competencies include: integrate strategies that support diversity, cultural responsiveness, and anti-bias perspectives; analyze development of infants and toddlers (conception to thirty-six months); correlate prenatal and postnatal conditions with development; summarize child development theories; analyze the role of heredity and the environment; examine culturally and developmentally appropriate environments for infants and toddlers, examine the role of brain development in early learning (conception through thirty-six months); examine caregiving routines as curriculum; and examine developmental and environmental assessment strategies for infants and toddlers.

Aid Code: 10 - Associate Degree.

Complete Course Listing

307-166 ECE: Curriculum Planning**Credits:** 3

This 3-credit course examines the components of curriculum planning in early childhood education. Course competencies include: integrate strategies that support diversity and anti-bias perspectives; examine the critical role of play; establish a developmentally appropriate environment; integrate Developmentally Appropriate Practice (DAP) into curriculum; develop activity plans that promote child development and learning; develop curriculum plans that promote child development and learning across all content areas; analyze early childhood curriculum models.

Aid Code: 10 - Associate Degree.

Complete Course Listing

307-167 ECE: Health, Safety, and Nutrition**Credits:** 3

This 3-credit course examines the topics of health, safety, and nutrition within the context of the early childhood educational setting. Course competencies include: integrate strategies that support diversity, cultural responsiveness, and anti-bias perspectives; examine governmental regulations and professional standards as they apply to health, safety, and nutrition; plan a safe early childhood environment; plan a healthy early childhood environment; plan nutritionally sound menus; examine child abuse and neglect issues and mandates; apply Sudden Infant Death Syndrome (SIDS) risk reduction strategies, describe strategies to prevent the occurrence of Abusive Head Trauma (AHT) formerly known as Shaken Baby Syndrome (SBS); incorporate health, safety, and nutrition concepts into the children's curriculum.

Aid Code: 10 - Associate Degree.

Complete Course Listing

307-174 ECE: Introductory Practicum**Credits:** 3

In this 3-credit practicum course you will learn about and apply the course competencies in an actual early childhood setting. You will explore the standards for quality early childhood education, demonstrate professional behaviors, and meet the requirements for training in the Wisconsin Model Early Learning Standards.

Aid Code: 10 - Associate Degree.**Co-requisites:** (307-148) and (307-151) and (307-167)

Complete Course Listing

307-175 ECE: Preschool Practicum

Credits: 3

This course will apply as the capstone course in The Registry Preschool Credential. You will be placed or working in an early childhood setting with 3-5 year old children and create a portfolio that prepares you for The Registry commission. In this course you will be implementing regulations and standards for quality early childhood education, applying knowledge of child development and positive guidance, utilizing observation and assessment techniques, and assessing developmentally appropriate environments for preschoolers.

Aid Code: 10 - Associate Degree.

Pre-requisites: (307-177)

Co-requisites: (307-187) and (307-112)

[Complete Course Listing](#)

307-177 ECE: Intermediate Practicum

Credits: 3

In this 3-credit course you will be implementing regulations and standards for quality early childhood education, applying knowledge of child development and positive guidance, utilizing observation and assessment techniques, and assessing developmentally appropriate environments for children. Note: Before receiving a practicum placement students must be able to pass the DCF fingerprint background check process, have a current DCF Staff Health Report with a negative Tuberculosis Test result and complete CPR and First Aid.

Aid Code: 10 - Associate Degree.

Pre-requisites: (307-174)

Co-requisites: (307-179) and (307-188) and (307-108) and (307-110)

[Complete Course Listing](#)

307-178 ECE: Art Music & Language Arts

Credits: 3

This 3-credit course will focus on beginning level curriculum development in the specific content areas of art, music, and language arts. Course competencies include: integrate strategies that support diversity and anti-bias perspectives; examine the critical role of play as it relates to art, music, and language arts; establish a developmentally appropriate environment for art, music, and language arts; develop activity plans that promote child development and learning; analyze caregiving routines as curriculum; create developmentally appropriate language, literature, and literacy activities; create developmentally appropriate art activities; create developmentally appropriate music and movement activities.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

307-179 ECE: Child Development

Credits: 3

The 3-credit course examines child development within the context of the early childhood education setting. Course competencies include: integrate strategies that support diversity, cultural responsiveness, and anti-bias perspectives; analyze social, cultural, and economic influences on child development; summarize child development theories; analyze development of children ages three through five; analyze development of children ages five through eight; relate child development research findings to teaching practice; analyze the role of heredity and the environment; examine the role of brain development in early learning (ages 3-8); examine developmental and environmental assessment strategies for children ages 3-8.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

307-187 ECE: Children with Differing Abilities

Credits: 3

This 3-credit course focuses on the child with differing abilities in an early childhood education setting. Course competencies include: integrate strategies that support diversity, cultural responsiveness, and anti-bias perspectives; promote inclusive programs for young children; apply legal and ethical requirements including, but not limited to, ADA and IDEA; examine the consultation process to embed intervention in natural based settings; differentiate between typical and exceptional development; analyze the differing abilities of children with physical, cognitive, health/medical, communication, and/or behavioral/emotional disorders; identify community and professional resources; interpret an individual educational plan (IEP/IFSP) for children with developmental differences; adapt curriculum to meet the needs of children with developmental differences; examine strategies for cultivating partnerships with families who have children with developmental differences.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

307-188 ECE: Guiding Children's Behavior

Credits: 3

This 3-credit course examines positive strategies to guide children's behavior in the early childhood education setting. Course competencies include: integrate strategies that support diversity, cultural responsiveness, and anti-bias perspectives; analyze techniques for and effects of strong relationship-building with children and families; identify positive and proactive guidance principles and techniques to support children; analyze environmental influences on child behavior; identify strategies that support children's active engagement in the learning environment; identify strategies that proactively teach emotional literacy and regulation techniques; identify strategies that proactively teach friendship skills; identify strategies that proactively teach children calming, relaxation, and problem-solving techniques; utilize observation and assessment techniques to assess and interpret behavior; create a behavior support plan based on a functional behavior assessment; create a guidance philosophy. This course meets the requirements of the "24 hour Wisconsin" Pyramid Model training.

Aid Code: 10 - Associate Degree.

307-192 ECE: Practicum 2**Credits:** 3

In this 3-credit course you will learn about and apply the course competencies in an actual child care setting. The course competencies include: identify children's growth and development; maintain the standards for quality early childhood education; practice strategies that support diversity and anti-bias perspectives; implement student teacher-developed activity plans; identify the elements of a developmentally appropriate environment; implement positive guidance strategies; demonstrate professional behaviors; utilize caregiving routines as curriculum; utilize positive interpersonal skills with children; utilize positive interpersonal skills with adults.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (307-148) and (307-151) and (307-167) and (307-178) and (307-179)**Co-requisites:** (307-174) and (307-194)

Complete Course Listing

307-194 ECE: Math, Science, & Social Studies**Credits:** 3

This 3-credit course will focus on beginning level curriculum development in the specific content areas of math, science and social studies. Course competencies include: integrate strategies that support diversity and anti-bias perspectives; examine the critical role of play as it relates to math, science, and social studies; establish a developmentally appropriate environment for math, science, and social studies; develop activity plans that promote child development and learning; create developmentally appropriate science activities; create developmentally appropriate math activities; create developmentally appropriate social studies activities.

Aid Code: 10 - Associate Degree.

Complete Course Listing

307-195 ECE: Family and Community Relationships**Credits:** 3

In this 3-credit course you will examine the role of relationships with family and community in early childhood education. Course competencies include: implement strategies that support diversity, cultural responsiveness, and anti-bias perspectives when working with families and community; analyze contemporary family patterns and trends; identify strategies to strengthen and support families; explore effective communication strategies; discover strategies for developing respectful and reciprocal relationships with families; analyze strategies to promote family engagement in early childhood education programs; explore a variety of formats for meeting with families in their contexts; advocate for children and families; and explore community resources that provide a range of services for children and families.

Aid Code: 10 - Associate Degree.

Complete Course Listing

307-197 ECE: Practicum 3**Credits:** 3

In this 3-credit practicum course you will learn about and apply the course competencies in an actual child care setting. The course competencies include: assess children's growth and development; implement the standards for quality early childhood education; integrate strategies that support diversity and anti-bias perspectives; build meaningful curriculum; provide a developmentally appropriate environment; facilitate positive guidance strategies; evaluate one's own professional behaviors and practices; lead caregiving routines as curriculum; utilize positive interpersonal skills with children; utilize positive interpersonal skills with adults.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (307-192)**Co-requisites:** (307-198)

Complete Course Listing

307-198 ECE: Administering an ECE Program**Credits:** 3

This 3-credit course focuses on the administration of an early childhood education program. Course competencies include: integrate strategies that support diversity and anti-bias perspectives; analyze the components of an ECE facility; design an ECE program; analyze the aspects of personnel supervision; outline financial components of an ECE program; apply laws and regulations related to an ECE facility; advocate for the early childhood profession.

Aid Code: 10 - Associate Degree.

Complete Course Listing

307-199 ECE: Advanced Practicum**Credits:** 3

In this final 3-credit practicum course you will demonstrate competence in supporting child development through observation, assessment and implementation of teaching strategies as you work in and learn about and apply the course competencies in an actual early childhood setting. You will demonstrate a high level of skill in fostering relationships with children, families and early childhood professionals, and use skills learned in a lead teacher role to develop a career plan to transition from student to early childhood education professional. Note: Before receiving a practicum placement students must be able to pass the DCF fingerprint background check process, have a current DCF Staff Health Report with a negative Tuberculosis Test result and complete CPR and First Aid.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (307-175 or 307-197) and (307-177)**Co-requisites:** (307-195)

Electric Power Distribution (413)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).

413-303 Industrial Electricity for Line Technicians**Credits:** 2

Through this course, students gain basic knowledge of the fundamentals of electricity. Topics introduced in this course include magnetism, DC and AC fundamentals, principals of electricity, as well as an overview of transformer operation. Students will be able to apply theories learned in the maintenance and repair of electrical equipment as it applies to the electric utility industry.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Electric Power Distribution Program.

Complete Course Listing

413-304 Safety Procedures I-Line Technicians**Credits:** 1

This course introduces the student to safety in the electric utility industry. Students interpret safety precautions in multiple work situations, adhering to OSHA regulations. Students will be able to apply safety rules and procedures in simulated work situations.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Electric Power Distribution Program.**Co-requisites:** (804-304 or 804-306 or 804-113) and (413-303) and (413-306) and (413-310) and (413-315)

Complete Course Listing

413-305 Safety Procedures II-Line Technicians**Credits:** 1

This course continues and expands on topics introduced in Safety Procedures I. Students will increase their knowledge in safe handling of energized conductors and underground lines through the analysis of safe work practices and accident investigations. Students will understand a line technician's responsibility in protecting work areas and the public in everyday work and emergency situations.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Electric Power Distribution Program.**Pre-requisites:** (413-315)**Co-requisites:** (413-307) and (413-320) and (413-325)

Complete Course Listing

413-306 Commercial Driver's License (CDL) Preparation**Credits:** 1

This course prepares students to take the written portion of the Class A Commercial Driver's License test. Students, upon completion, will take the written test at the Department of Motor Vehicles' test center to acquire the instruction permit.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Electric Power Distribution Program.**Pre-requisites:** (413-303) and (413-304) and (413-310) and (413-315)

Complete Course Listing

413-307 EPD Mapping and Automation**Credits:** 1

This course introduces students to the basics of smart grids. Students will examine GPS mapping, utility system automation, and metering. Students will be able to identify different aspects of the smart grid and how it is used in the distribution of electricity to various consumers.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Electric Power Distribution Program.**Pre-requisites:** (413-315)**Co-requisites:** (413-305) and (413-320) and (413-325)

Complete Course Listing

413-310 Electric Power Distribution 1A**Credits:** 5

This course introduces students to the generation, transmission, and distribution systems used to supply power to consumers. Students will operate digger-derrick trucks, set and climb power poles, as well as engage in preparing ropes and knots for lifting and hoisting materials into the air. This course also strengthens the students' knowledge of the types and functions of basic materials used on the job as well as following the procedures for proper use of these materials in the field.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Electric Power Distribution Program.**Co-requisites:** (804-304 or 804-306 or 804-113) and (413-303) and (413-304) and (413-306) and (413-315)

Complete Course Listing

413-315 Electric Power Distribution 1B**Credits:** 5

This course is a continuation of Electric Power Distribution 1A where students will use their knowledge to construct overhead single and three-phase power lines. Emphasis will be placed on the student's ability to follow safety rules and construction standards in order to build power lines to specifications provided. In preparation for coursework in the second semester of this program, students examine the basics of transformer operation.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Electric Power Distribution Program.**Co-requisites:** (804-304 or 804-306 or 804-113) and (413-303) and (413-304) and (413-306) and (413-310)

Complete Course Listing

413-320 Electric Power Distribution 2A**Credits:** 5

This course is a continuation of Electric Power Distribution 1B. Students apply the theory of three-phase electrical power systems, including wye and delta systems, in order to maintain and construct transformer installations. Students engage in simulated troubleshooting situations and investigate problems which lead them to actively participate in solving the problem.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Electric Power Distribution Program.**Pre-requisites:** (413-315)**Co-requisites:** (413-305) and (413-325) and (413-307)

Complete Course Listing

413-325 Electric Power Distribution 2B**Credits:** 5

This course is a continuation of Electric Power Distribution 2A. Students apply the principles of construction and maintenance of an underground residential distribution (URD). Students will engage in the installation underground wire and related equipment of a URD system. They will also operate trenching equipment as well as perform the removal of overhead lines and structures. At the conclusion of this course, students will have the necessary knowledge and skills to begin work in the electric utility industry.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Electric Power Distribution Program.**Pre-requisites:** (413-315)**Co-requisites:** (413-305) and (413-320) and (413-307)

413-750 DC Electricity for Industrial Electricians
Credits: 1.75

This is the new aligned curriculum model for related instruction that is effective for the 2013-2014 school year. This program configuration adds the new green awareness module in 2012, and aligns related instruction with employer competencies which were prioritized in 2010. This model illustrates best practices from the WTCS colleges to deliver 720 hours of related instruction to apprentices in 4 years, accelerates the first year coursework, assumes a 16-week semester, and maintains 4 hours per week in class (or the equivalent). The colleges and employers will have flexibility to schedule each of the terms based on local needs.

Aid Code: 50 - Apprentice.

413-768 Industrial Electrician Solid State Electronics

Credits: 1.75

This course provides the apprentice with the skills and knowledge for troubleshooting basic solid-state devices and circuits. The construction, identification, and operating characteristics of solid-state devices is investigated. The apprentice builds test circuits, gathers and analyzes data, and follows safety procedures. Methods for locating defective components are applied. The replacement of printed circuit board components is performed. Also examined is the effect of temperature on the operation of solid-state devices.

Aid Code: 50 - Apprentice.

Electromechanical Technology (620)

Information provided includes course descriptions by subject only. For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

620-100 Hydraulics**Credits: 3**

This is a course in fundamental principles in the operation of fluid power, as it is used in the transmission of power through various components such as cylinders, motors, pumps, and valves.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Electro-Mechanical Technology Program.**Pre-requisites:** 804 110**Co-requisites:** (834-110 or 804-113)

Complete Course Listing

620-101 Fundamentals of DC circuits 1**Credits: 1**

This course is a study of the basic theories, concepts, elements, and principles of DC circuits. The student investigates voltage, current, resistance and power, and will measure these values. Topics covered include Ohm's Law, meter use and basic series circuits.

Aid Code: 10 - Associate Degree.**Pre-requisites:** ((or (804-113 and 804-114)) or (804-197))**Co-requisites:** (620-116) and (804-115)

Complete Course Listing

620-102 Fundamentals of DC Circuits 2**Credits: 1**

This course is a continuation of DC circuits 1. Students advance their knowledge and skill using series to parallel circuits and complex (series-parallel and parallel-series) circuits.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-101)

Complete Course Listing

620-103 Fundamentals of DC Circuits 3**Credits: 1**

This course is a continuation of DC circuits 2. The student will analyze voltage dividers and be introduced to capacitors and inductors, their DC charge and discharge time, and their applications. Students will work with magnetism and the operation of relays and solenoids.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-102)

Complete Course Listing

620-104 Digital Logic**Credits: 1**

Students define basic logic gate functions and basic Boolean logic expressions. Students will analyze logic voltage timing diagrams, and determine logic outputs given logic inputs. Students perform lab activities in relation to logic operations using switches and gates.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-101)

Complete Course Listing

620-105 Pneumatics

Credits: 2

This course uses fundamental principles of compressed gasses that operate and power industrial equipment. Principles are applied in transmission of power through the various components such as cylinders, motors, compressors, distribution systems and valves. It also includes the analysis of pneumatic circuits.

Aid Code: 10 - Associate Degree.

Co-requisites: 620-100

Complete Course Listing

620-106 Electric Motors 1

Credits: 1

The students perform, through lab activities, the basics of Motor & DC Permanent Magnet Theory and solid state DC Drives. The student will connect and operate DC Series, Shunt and Compound motors.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-101)

Complete Course Listing

620-107 Variable Speed Drives 1

Credits: 1

This course introduces students to the application of variable speed drives (VSD's). Students examine traditional and current methods of motor control in DC and AC drive installations. Students engage in power and control circuitry, troubleshooting principles, and programming of Variable Frequency Drives (VFDs) to control AC motors.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-108 Motors and Drives 3

Credits: 1

This course is a continuation of Motors & Drives 2. Students analyze poly-phase motors and troubleshooting control circuits. Students will engage in hands on activities which include Variable Frequency Drives and Shaft Coupling Alignment.

Aid Code: 10 - Associate Degree.

Pre-requisites: (620-123)

Complete Course Listing

620-109 Relay Logic

Credits: 1

Students analyze relay theory and operation and apply this to hardwired AND & OR circuits, as well as start/stop circuits using relays. Relay ladder diagrams and motor starter circuits are defined.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-101)

Complete Course Listing

620-110 Introduction to Programmable Logic Controllers (PLC)

Credits: 4

The student will study components that make up a programmable or microprocessor system and the various applications and operations used for digital and process controls in industry. The further use of programming is expanded to include ladder logic and diagrams. Diagnostic troubleshooting is applied along with analysis of interfacing microprocessors and programmable controllers to other control systems.

Aid Code: 10 - Associate Degree.

Co-requisites: 605-102

Complete Course Listing

620-111 Programming Fundamentals 1

Credits: 1

This course introduces students to the basics of programming fundamentals. Students analyze the fundamentals of computer operations, programming and logic principles, and empirical program design. Students will employ programming language to program microprocessors and other devices.

Aid Code: 10 - Associate Degree.

Pre-requisites: (620-124) or (620-101)

Complete Course Listing

620-112 Programming Fundamentals 2

Credits: 1

This is a continuation of Programming Fundamentals 1. Students advance their knowledge and skill with instructions and data manipulation. In a hands-on laboratory environment, language and instruction sets will be defined and used to control devices with a special emphasis on industrial applications.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-111)

Complete Course Listing

620-113 Fundamentals of AC Circuits 1

Credits: 1

Students explore the theory of alternating voltage and current, the sine wave and transformers. Students measure these values with meters and oscilloscopes in relation to reactance, impedance and phase differences.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-101)

Complete Course Listing

620-114 Fundamentals of AC Circuits 2

Credits: 1

This course is a continuation of AC circuits 1. Students analyze capacitive and inductive reactance, impedance and phase properties of AC waveforms. Students will examine basic RL, RC and RLC circuits, as well as basic 3 phase voltage measurement.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-113)

Complete Course Listing

620-115 Computer and Robotic Programming**Credits:** 4

This course is primarily for students with little or no programming background. The course includes the fundamentals of computer operations. Students will be exposed to programming and logic principles that apply to industrial programming applications. The programming language will be employed to program microprocessors and robotic controls. The language and instruction sets will be studied and used to control devices with a special emphasis on industrial applications. The course includes hands-on laboratory sessions.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 620-110

Complete Course Listing

620-116 Fluid Power 1: Basic Pneumatics**Credits:** 1

This course will introduce the student to pneumatics. Students will define the differences between hydraulics and pneumatics through observation of various circuit behavior. Hands-on learning will emphasize control theory of linear and rotary actuators and Vacuum technology will be examined.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-117 Fluid Power 2: Basic Hydraulics**Credits:** 1

This course is an introduction to Hydraulics. Students will examine the physical principles of confined fluids under pressure in both static and dynamic states. Hands-on learning will allow the student an opportunity to put together all of the components that comprise a hydraulic system.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-116)

Complete Course Listing

620-118 Fluid Power Applications**Credits:** 1

This course continues the study of pneumatics. Emphasis is placed on the electrical controls of pneumatic circuits while students analyze the operation of sequencing circuits and apply troubleshooting principles to identify faulted components.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-117)

Complete Course Listing

620-119 Fluid Power 4: Intermediate Hydraulics**Credits:** 1

This course continues in the study of hydraulics. Students engage in hands-on activities which allow further practice with hydraulic flow, directional and pressure controls. Students spend time analyzing fluid conditioning, system maintenance and troubleshooting.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-144)

Complete Course Listing

620-120 Motors and Drive Systems**Credits:** 2

This course covers principles for DC motors, AC motors, the drives and variable frequency drives (VFDs). Students will learn about motor types and drives in relationship with the appropriate application within industry. Also covered are electrical protective devices controls, single phase and three-phase power systems, and EMI. The student learns to design, install, and troubleshoot motor controls. Students learn more about electrical and electronic schematic diagrams to better understand the operation of drive control systems.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (605-106)**Co-requisites:** (620-135)

Complete Course Listing

620-121 Programmable Automation Controllers (PACs) 1**Credits:** 1

This course is a continuation of the Programmable Logic Controllers course. Introduction to PACs is defined, including Creating Tags & Bit Level Instructions, PAC operation of Timers & Counters, Program Control, Project Organization & Documentation Arrays. Students engage in hands on activities to apply the aforementioned concepts.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (620-124 or 620-101)

Complete Course Listing

620-122 Programmable Automation Controllers (PACs) 2**Credits:** 1

This course is a continuation of PACs 1 with further exploration into Analog Inputs/Outputs, connecting Math theories, comparisons, move instructions and data manipulation. Students engage in hands-on lab activities with the aforementioned concepts as well as Interface Wiring.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-121)

Complete Course Listing

620-123 Programmable Automation Controllers (PACs) 3**Credits:** 1

This class is a continuation of PACs 2 and includes study of Sequencers and Shift Registers. Students engage in lab activities which include the analysis of Function Block Programming, Structured Text and Sequential Function Chart programming.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-131)

Complete Course Listing

620-124 Programmable Logic Controllers - PLCs**Credits:** 1

This course is an introduction to PLCs. Students will learn the parts and operation of a Programmable Logic Controller. They will apply basic ladder logic programming and transfer programs from the PC to the PLC. Students explore start stop circuits, timers and counters as they relate to the aforementioned concepts.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-109)

Complete Course Listing

620-125 Servos and Process Controls

Credits: 2

Servomechanisms are used in various automated systems. Students will study principles and theories of servomechanisms and apply them in the laboratory. Process controls and instrumentation are applied to control loops systems in the laboratory. Electrical and electronic diagrams are studied to understand control loop systems. Some experiments are conducted on: hydraulic servo controls systems, DC motors, AC motors, stepper motors, and other controls systems.

Aid Code: 10 - Associate Degree.

Pre-requisites: (605-106)

Co-requisites: (620-135)

Complete Course Listing

620-126 Robotics 1

Credits: 1

The students are introduced to the basics of robotics in this course. This includes defining specific terminology, types, configurations, specifications and application characteristics of robots. The student examines the basic parts of the robot and demonstrates their knowledge through the operation of these systems in laboratory exercises.

Aid Code: 10 - Associate Degree.

Pre-requisites: (620-112)

Co-requisites: (620-121)

Complete Course Listing

620-127 Robotics 2

Credits: 1

This course is a continuation of Robotics 1. Student engage in more advanced programming, using subroutines, Inputs and outputs, as well as data manipulation. Students are exposed to and use schematics as well as examine robotic troubleshooting.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-126)

Complete Course Listing

620-128 Servo systems Introduction

Credits: 1

This course moves the student into further exploration of the automation process by introducing them to Servos and Feedback Devices. Hands-on lab activities engage the student in working with basic servo systems and Servo Fluid Power control.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-136)

Complete Course Listing

620-129 Servo Motion Programming

Credits: 1

This course is a continuation of Servo Systems Introduction in which students learn programming motion control using servo systems. The student will create a motion profile, incorporating Registration and Camming techniques.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-141)

Complete Course Listing

620-130 Automated Cell Design and Planning

Credits: 2

The student learns the parameters and scope under which a project must function and be constructed. Based on these parameters, the student will design, plan and learn the steps of execution in building an automated robotic cell. Students will learn planning and the use of control tools such as: work breakdown schedule (WBS) and Gantt charts. These tools assist the student in the design, plan, and execution of their work cell. These tools also assist the student in keeping their project on schedule and on budget.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Electro-Mechanical Technology Program.

Pre-requisites: (620-115) and (605-106)

Co-requisites: (620-125)

Complete Course Listing

620-131 Solid State Devices 1

Credits: 1

This course introduces the student to semiconductor materials, the operation of diodes, Zener diodes and the construction of rectifier and filter circuits. Students perform laboratory experiments that include fundamental transistor construction and switching operation in order to verify the theory.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-114)

Complete Course Listing

620-132 Solid State Devices 2

Credits: 1

This course is a continuation of Solid State Devices 1. Students examine BJT amplifier circuits. JFETs and MOSFETs as well as their uses application in industry. Specifications and schematics of all devices are analyzed.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-131)

Complete Course Listing

620-133 Solid State Devices 3

Credits: 1

This course is a continuation of Solid State Devices 1. SCRs and Triacs operation and applications are introduced to the student as well as an analysis of control circuitry and phase angle firing properties.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-128)

Complete Course Listing

620-134 Sensors

Credits: 1

Covers various types of sensors used in industrial operations such as inductive and capacitive proximity detectors, Hall-effect devices and various optical sensing modes. Applications are explored, and connection modes are verified with hands-on activities.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-124)

Complete Course Listing

620-135 Power Devices**Credits:** 3

This course is an essential study of the various types of power handling solid-state devices found in automation and other electronic equipment. The devices include SCR's, DIAC's and TRIAC's. Regulated and unregulated design power supplies are covered, which include analog and switching types. This course will introduce the student to the design of circuits using power handling devices and the ratings for these types of components. Students will learn to read and interpret schematics used in the electronics industry. This course teaches the study of electronic machine elements, which includes electrical, and electronics drawings and the associated symbols.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 605-106

Complete Course Listing

620-136 Automation 1**Credits:** 1

This course expands the student's knowledge from program courses by exploring Thermocouple and RTD I/O functions in a processor format. Students engage in formatting and using trend charts and high speed counters.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-148)

Complete Course Listing

620-137 Automation 2**Credits:** 1

This course is a continuation of Automation 1, expanding the student's knowledge base by introducing DNET (device net) ENET (EtherNET) communication and Configuring Devices in RSNetworx. Through the use of RSNetworx, students perform these concepts through barcode scanning and RFID functioning.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (620-139)

Complete Course Listing

620-138 Automation 3**Credits:** 1

This course is a continuation of Automation 2 and further explores processing functions of locating and editing I/O Tags and Devices, and forcing bits. Students engage in hands on activities which include troubleshooting PAC Systems through analyzing digital, analog and distributed I/O.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-142)

Complete Course Listing

620-139 Machine Vision Systems**Credits:** 1

This course gives students an introduction to vision systems. Students perform activities which include camera setup, lighting parameters, lenses and study their applications. Students program vision systems and integrate them into PAC systems.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-133)

Complete Course Listing

620-140 Robotic Systems**Credits:** 3

The basics of robotics are introduced. This includes terminology, types, configurations, specifications and application characteristics of robots. Mechanical drive systems, along with control systems for automation, are studied. The student learns the basic parts of the robot and will operate these systems in laboratory exercises.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Electro-Mechanical Technology Program.**Pre-requisites:** (605-104) and (620-105) and (620-115)

Complete Course Listing

620-141 Process Control 1**Credits:** 1

This course introduces students to process control concepts through Open Loop Discrete Control, PID function, and Temperature Control activities performed in the lab.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-122)

Complete Course Listing

620-142 Process Control 2**Credits:** 1

This course is a continuation of Process Control 1, and analyzes more concepts through lab experiments in Process Level Control, Flow Control, and Pressure Control.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-141)

Complete Course Listing

620-143 Process Control 3**Credits:** 1

This class is a continuation of Process Control 2. The student explores more indepth concepts in the process field by analyzing Weight Control and Loop Calibrations. Hands-on lab activities engage the student in Function Block programming of PID instructions.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-142)

Complete Course Listing

620-144 Human Machine Interfaces (HMI)**Credits:** 1

This course analyzes the configuring and programming of Human Machine Interface (HMI) devices such as panel view touch screens. Students will work with the Allen Bradley FactoryTalk View Application to display and manipulate graphic objects as well as run-time files in a lab environment.

Aid Code: 10 - Associate Degree.**Co-requisites:** (620-121) and (620-122)

Complete Course Listing

620-145 Program Controllers and Human Interfacing Modules (HIM) Devices
Credits: 4

The student will study system components and devices that make up a programmable or microprocessor system. Various applications and operations used for digital and process controls in industry will be studied. Further use of programming is expanded to include ladder logic, function flow control, and block instructions. Networking and interfacing to other computer systems and remote inputs and outputs modules are studied and applied. Human Interfacing Modules (HIM's) are studied and programmed. HIM's are setup to connect with the network or PLC's. Diagnostic troubleshooting of PLC's and HIM's is applied to real world control systems.

Aid Code: 10 - Associate Degree.

Pre-requisites: (620-110) and (620-115)

Complete Course Listing

620-146 Mechanics 1
Credits: 1

This course will examine the proper use of basic hand and power tools. Drilling, tapping, saw use, and semi-precision measurement are demonstrated and performed by the student. Fastener types and specifications are explored. Students analyze and operate simple machines such as levers and pulleys, as well as gears and linkages.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-147 Mechanics 2
Credits: 1

This course is a continuation of Mechanics 1. Students engage in further shop practices, such as precision measurement, precision drilling, and basic manual milling operations. Students will examine basic print reading and design.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-148 Industrial Integration
Credits: 1

Students analyze the interconnection and communication of industrial devices in this course. Discrete and network I/O communication is examined using Robots and PLCs. Students create a basic system comprised of various industrial devices.

Aid Code: 10 - Associate Degree.

Pre-requisites: (620-122) and (620-127)

Complete Course Listing

620-149 Project Planning
Credits: 1

The student examines the parameters and scope under which a project must function and be constructed. Students will engage in planning and the use of control tools such as: a Statement of Work (SOW), a Work Breakdown Schedule (WBS) and Gantt charts. These tools assist the student as they design, plan, and perform the execution of a work cell.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-137) and (809-196)

Complete Course Listing

620-150 Interfacing Robotic Devices
Credits: 4

This course focuses on the integration of a complete automated robotic cell. Many component parts are interconnected in order for the cell to operate properly. Student will interface: PLC's, robots, personal computers, vision systems, sensors, motor drives, conveyors, fluid power devices, and other programmable or hard automation. Topologies for networking, architectures and protocols are covered and employed in industrial control systems. In addition, wireless network technologies, and related hardware will be explored. Student will construct, wire, program, network, troubleshoot and document the complete automated robotic cell.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Electro-Mechanical Technology Program.

Pre-requisites: (620-125) and (620-130) and (620-140)

Co-requisites: (620-155)

Complete Course Listing

620-151 Automation Capstone
Credits: 4

This course focuses on the integration of a complete automated robotic cell with the many component parts interconnected in order for the cell to operate properly. Student will interface PLC's, robots, personal computers, vision systems, sensors, motor drives, conveyors, fluid power devices, and other programmable or hard automation.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-149) and (809-198)

Complete Course Listing

620-152 Circuit Connection Techniques
Credits: 1

The basic construction of circuit boards is examined, as well as the acceptability of soldered components. Through hole and surface mount soldering activities, students fuse parts together with tin lead solder and lead free solder techniques.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-119)

Complete Course Listing

620-155 Automated Robotic Cells**Credits:** 4

The student will apply the concepts of robots and automation by building a small automation system. This automation cell will be accomplished within the framework of an assigned team of students. Student will apply learned concepts studied in previous classes. These concepts will assist in building, testing, and running their automated work cell. Student will develop, and apply project planning, time management and cooperative methods with their team members to build their work cell. Student will learn how to design and make parts for this project. They also will specify and purchase parts as well as, analyze system malfunctions, which may occur to the modular level. Student will practice the skills needed to interface and make repairs. By using such organizational tools as WBS and Gantt charts, the student team will learn how to finish the project on time and on budget.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Electro-Mechanical Technology Program.**Pre-requisites:** (620-120) and (620-130) and (620-140)**Co-requisites:** (620-150)

Complete Course Listing

620-166 Conveyor Systems 1**Credits:** 1

In this course, students examine multiple facets of different conveyor systems, components and operation. Students analyze the different aspects of a conveyor system and demonstrate proper fittings for components and operational procedures.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-167 Conveyor Systems 2**Credits:** 1

In this course, students examine multiple facets of different conveyor systems, including the screw, flat belt, and roller conveyors. While incorporating conveyors safety procedures, students will analyze the different systems used to make up an effective belt conveyor and be able to apply standard applications, preventive maintenance, and repair principles when working with various types of conveyors.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-168 Lathe Operations for Industrial Technicians**Credits:** 1

This course examines the basics of lathe fabrication processes that are common to the Electro Mechanical and Industrial Maintenance field. Students will demonstrate the basics of metal turning techniques.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-169 Milling Operations for Industrial Technicians**Credits:** 1

This course is designed to outline for students the basics of milling fabrication processes that are common to the Electro-Mechanical and Industrial Maintenance field. Through demonstration and practice, students will be able to identify machine parts, analyze their function, and perform simple milling operations. Students will be able to demonstrate the basic use of mills, related safety, maintenance, metal cutting theory, cutting tools, and work holding for the mill.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-170 Valves, Gaskets and Seals**Credits:** 1

Students will examine and demonstrate standard procedures related to installing, maintaining, and replacing valves, gaskets, and seals in industrial applications.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-171 Human Relations in the Industrial Setting Internship**Credits:** 2

This course is designed to give students insight into how an individual's behaviors and abilities affect their relationships with others at work and with customers. Areas stressed include presenting a professional image in seeking employment, developing a positive work attitude, reliability on the job and an awareness of personal adjustments required for gainful employment.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-172 Machine Setup & Installation 1**Credits:** 1

This course examines standard applications of rigging, machine leveling, and alignment of shafts, couplings, and bearings. Students will be able to identify types of rigging equipment, estimate loads, and demonstrate proper construction of ropes and slings while practicing standard safety procedures.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-173 Blueprint Reading for Machine Prints**Credits:** 1

This course is designed to demonstrate the basics of machine print reading. Students will be able to analyze and recognize unique features of machining assembly prints. The student will interpret orthographic projection drawings including sectional, auxiliary views, threads, surface finishes, geometric dimensions, and tolerances.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-174 Mechanical Power Transmission

Credits: 1

This course engages students in the application of gears, belts, bearings, chain drives, and lubrication processes used in industry. Students will interpret and apply the basic industry standard principles of operation, installation, preventative maintenance, and repair procedures.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

620-175 Servomechanisms 1

Credits: 1

Servomechanisms employ closed-loop feedback to improve control of various automated systems. In this course, students analyze principles of open and closed-loop systems, including the fundamental coverage of PID control modes. Feedback sensing devices such as encoders, tachometers, resolvers and LVDTs are examined, and the operation of position and velocity control systems is demonstrated in the lab. Experiments are conducted on DC motors, AC motors, stepper motors, and hydraulic servo control systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-121)

[Complete Course Listing](#)

620-600

Credits: 1

Aid Code: 60 - Adult Avocational.

[Complete Course Listing](#)

620-702 Mechatronic Principles

Credits: 2

This program configuration represents a statewide model for class cohorts in the related instruction portion of the mechatronics technician apprenticeship. The model outlines related instruction for 3 years and 6 semesters (terms). It reflects a total of 864 hours of combined on-campus lecture, demonstration, shop, and hands-on learning aligned with DWD-BAS apprenticeship training standards. This model is designed for class meetings one day per week, and every week during 2 semesters per year. This model provides foundational skills apprentices will need in on-the-job learning during the final 2 years of their apprenticeship. The model provides 288 hours of learning in each of the following disciplines: mechanical, electrical, and automation. This model aligns WTCS learning outcomes with relevant industry/manufacturing standards as identified by an industry validated DACUM and Exhibit A work processes approved by the state trade committee. Supporting documentation may be found in the BAS Mechatronics Technician Job Book pending in 2016-7. The model also aligns common and consistent course numbers that colleges may use across the WTCS (along with recommended hours, credits and pre-requisites). This curriculum model may be interpreted and implemented by the colleges as required to meet local needs and in support of local work processes approved by the trade and DWD-BAS.

Aid Code: 50 - Apprentice.

The model provides 288 hours of learning in each of the following disciplines: mechanical, electrical, and automation. This model aligns WTCS learning outcomes with relevant industry/manufacturing standards as identified by an industry validated DACUM and Exhibit A work processes approved by the state trade committee. Supporting documentation may be found in the BAS Mechatronics Technician Job Book pending in 2016-7. The model also aligns common and consistent course numbers that colleges may use across the WTCS (along with recommended hours, credits and pre-requisites). This curriculum model may be interpreted and implemented by the colleges as required to meet local needs and in support of local work processes approved by the trade and DWD-BAS.

620-705 Motors & Motor Control for Mechatronics**Credits:** 2

This program configuration represents a statewide model for class cohorts in the related instruction portion of the mechatronics technician apprenticeship. The model outlines related instruction for 3 years and 6 semesters (terms). It reflects a total of 864 hours of combined on-campus lecture, demonstration, shop, and hands-on learning aligned with DWD-BAS apprenticeship training standards. This model is designed for class meetings one day per week, and every week during 2 semesters per year. This model provides foundational skills apprentices will need in on-the-job learning during the final 2 years of their apprenticeship. The model provides 288 hours of learning in each of the following disciplines: mechanical, electrical, and automation. This model aligns WTCS learning outcomes with relevant industry/manufacturing standards as identified by an industry validated DACUM and Exhibit A work processes approved by the state trade committee. Supporting documentation may be found in the BAS Mechatronics Technician Job Book pending in 2016-7. 620-900 Safety 1**Credits: 1**

This course focuses on workplace safety, health and inspections. OSHA standards are introduced, how to prepare for and conduct inspections, how to become acutely aware of various hazards and ways in which to effectively communicate to others that they exist. Students will demonstrate the proper use of personal protective equipment (PPE), and fire and safety emergency responsiveness.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-902 Mechanics of Learning for Industrial Technologies**Credits: 1**

This course is designed for students enrolled in industrial maintenance, electro-mechanical technology, automation technology, and manufacturing engineering technology programs at BTC. Students explore strategies to develop study skills for success in their programs. Through hands-on experience, learners apply study skills, learn how to think critically, and use information resources and technology. Focus will be on the use of college resources, goal setting, time management, flexible learning success strategies, and Flex Lab processes and procedures at the Advanced Manufacturing Training Center. Students will complete this course prior to starting other courses in their program.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-903 Troubleshooting Integrated Manufacturing Systems 1

Credits: 1

This course is an introduction to Integrated Manufacturing Systems, providing context for future coursework in maintenance and automation programs. Students analyze the sequence of operations in a manufacturing system, explore fundamentals of PLC programming, and apply a troubleshooting methodology that is used in sequencing machines.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-904 Fluid Power 3: Intermediate Pneumatics

Credits: 1

This course continues the study of pneumatics. Emphasis is placed on the electrical controls of pneumatic circuits while students analyze the operation of sequencing circuits and apply troubleshooting principles to identify faulted components.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-117)

Complete Course Listing

620-905

Credits: 1

This course is a continuation of Machine Setup & Installation 1. By the end of this course, students will be able to move a load with a crane, level and align equipment, and set anchoring devices. Emphasis is placed on standard safety procedures for all machine setup operations.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-172)

Complete Course Listing

620-906 Fluid Power 4: Intermediate Hydraulics

Credits: 1

This course continues the study of hydraulics. Students will analyze the design and function of hydraulic pumps, flow control valves, and actuators.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-117)

Complete Course Listing

620-907 Fluid Power 5: Advanced Hydraulics

Credits: 1

In this course, students examine characteristics of fluid conductors, selection of hydraulic fluids, troubleshooting of hydraulic systems, and repair of hydraulic components.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-906)

Complete Course Listing

620-908

Credits: 1

This course explores basic principles of maintenance management, including preventive maintenance, predictive maintenance, work order management, and project management. Students perform the duties of scheduling, purchasing, inventory management, and stakeholder communication with internal and external customers.

Aid Code: 10 - Associate Degree.

Complete Course Listing

620-910

Credits: 1

In this course, students examine single and 3-phase AC induction motor performance and operating characteristics, and three-phase power systems.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-106)

Complete Course Listing

620-911

Credits: 1

In this course, students build on skills obtained in Variable Speed Drives 1 to program and troubleshoot AC drives.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-107)

Complete Course Listing

620-913

Credits: 1

This course is a continuation of Servomechanisms 1. Students build servo systems from schematics, demonstrate calibration and span procedures for instrumentation, and program servo motion systems to complete basic motion tasks.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-175)

Complete Course Listing

620-914 Supervisory Control and Data Acquisition (SCADA) Systems

Credits: 1

Students identify the basic components of Supervisory Control and Data Acquisition (SCADA). Current manufacturer specific software is used to monitor and operate servo controllers and PID controllers from an HMI screen. In addition, students create and configure data trending tools and run-time files.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-144)

Complete Course Listing

620-915 Troubleshooting Integrated Manufacturing Systems 2

Credits: 2

This capstone course challenges students to apply the full range of their Automation Engineering Technology skills in order to perform advanced troubleshooting and repair of various faults in a fully integrated manufacturing system. Students combine and apply their knowledge and skill in electrical, hydraulic and pneumatic systems, as well as PLC programming and robot control.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-122) and (620-127)

Electronic Technology (605)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

605-102 Fundamentals of DC Circuits**Credits:** 3

This course is a study of the basic theories, concepts, elements, and principles of DC circuits. The student advances from simple to complex circuits. Topics covered include Ohm's Law, series and parallel circuits, circuit theorems and circuit analysis. The course combines both lecture and laboratory work.

Aid Code: 10 - Associate Degree.**Co-requisites:** 804-113

Complete Course Listing

605-104 Fundamentals of AC Circuits**Credits:** 3

This course is a study of the basic theories, concepts, elements, and principles of AC circuits. The student advances from simple to complex circuits. Topics covered include reactance, impedance, resonance, transformers, inductors, and capacitors. The course combines both lecture and laboratory work.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (605-102)**Co-requisites:** (804-114)

Complete Course Listing

605-106 Analog Circuits**Credits:** 3

This course provides the student with the concepts and fundamental circuit design material to create several types of analog circuits. This course also explores the principles and concepts needed for solid-state devices to operate correctly. Course study includes: the use of solid-state devices such as diodes, transistors field-effect devices, and op-amps. Areas covered include: amplification, comparing, summing, wave shaping, regulating, and oscillation circuits. Analog to digital conversion and several types of integrated circuits are investigated and applied. Characteristics and application of each device type is verified in laboratory experiments.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (605-102)**Co-requisites:** (605-104)

Complete Course Listing

605-406 Introduction to Soldering**Credits:** 2.4

This course is designed to provide participants with foundational skills in soldering.

Aid Code: 47 - Occupational Adult.

Complete Course Listing

605-419 Introduction to Programmable Logic Controllers**Credits:** 10

Participants will study components that make up a programmable or microprocessor system and the various applications and operations used for digital and process controls in industry.

Aid Code: 47 - Occupational Adult.

Emergency Medical Service (531)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

531-102 Emergency Procedure-Work Place**Credits:** 1

This course prepares the individual for common emergencies in the work place. It includes the American Heart Association Adult, Child and Infant CPR, First Aid and Fire Prevention and Safety.

Aid Code: 10 - Associate Degree.

Complete Course Listing

531-104 EMT Basic/FPT**Credits:** 4

The course is for Fire Protection Technician program students only. This course prepares individuals to care for patients at accident scenes and transport by ambulance to the hospital under medical direction. The course emphasizes emergency skills such as managing respiratory and cardiac emergencies, medical emergencies, trauma emergencies and patient assessment, and teaches these skills in a job-related context. The National Registry of EMT's test is required at the completion of the course for licensure in the State of Wisconsin.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 531 434

Complete Course Listing

531-105 EMT Intermediate Technician**Credits:** 3

The EMT Intermediate Technician course will take you to the next level of training after EMT-Basic. Students will learn clinical decision making skills, basic pharmacology, intravenous therapy, and management of cardiovascular, diabetic, drug overdose, and shock cases. The class includes a combination of classroom and practical skills training that includes clinical time in a hospital setting. Demonstrated skill competencies are required to successfully complete this class in order to be eligible to take the Wisconsin State licensure examination. EMT-Basic and a current EMT-B license are pre-requisites for this class.

Aid Code: 10 - Associate Degree.

Complete Course Listing

531-110 Emerg Med Tech/EMT-B

Credits: 5

Prepares students for the National Registry of EMTs Emergency Medical Technician level test which leads to licensure as an EMT in Wisconsin. The course emphasizes emergency medical skills needed to stabilize both trauma and medical patients in a prehospital setting within the guidelines of Medical Control. The course covers basic anatomy and physiology, patient and scene assessment, patient stabilization and intervention techniques, medical-legal aspects, and patient packaging and transportation to the hospital. This course is a prerequisite for Advanced EMT and includes 180 hours of instruction that includes lecture, practical skill development, simulation learning, and clinical time. The course includes the American Heart Association Healthcare Provider CPR as a course introduction. Failure to successfully complete this portion of the course disqualifies students from continuing. There is an additional course fee that covers required class materials with the exception of books. This course fee is non refundable after the first day of class.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Writing Skills, 44 or COMPASS Writing Skills, 070 or ACT English, 18 or Next Gen AccuPlacer Writng, 255 or SAT Verbal, 330 or AccuPlacer Sentence Skills, 083 or Test Waived-College Degree or 831-103 or 831-103 or 801-136 or 801-195) and (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or Next Gen AccuPlacer Reading, 251 or SAT Reading, 251 or AccuPlacer Reading Comp, 076 or Test Waived-College Degree or 838-104 or 838-104 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-109 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

[Complete Course Listing](#)

531-111 Advanced EMT/Int-Tech

Credits: 4

Prepares students for the National Registry of EMTs Advanced Emergency Medical Technician level test which leads to licensure as an AEMT in Wisconsin. The course emphasizes more advanced emergency medical skills needed to stabilize both trauma and medical patients in a prehospital setting within the guidelines of Medical Control. The course covers additional anatomy and physiology needed for more advanced patient assessment and treatment skills. Patient stabilization and intervention techniques at this more advanced level are also covered. This course includes 180 hours of instruction that includes lecture, practical skill development, simulation learning, and clinical time. Prerequisite: Wisconsin licensed EMT.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

531-301 Emergency Medical Responder/Emergency Medical Technician Part 1

Credits: 3

Provides the foundational knowledge for future Emergency Medical Technicians and Emergency Medical Responders. Topics include: basic human anatomy, performing a patient assessment, traumatic injury management, airway management, and Basic Life Support cardiac resuscitation. Upon successful completion, candidates will be eligible to participate in the National Registry of EMTs Emergency Medical Responder exams for Wisconsin EMR certification.

Aid Code: 30 - Short-term.

[Complete Course Listing](#)

531-302 Emergency Medical Technician Part 2

Credits: 3

Advances on the foundation concepts of Part 1 to include pharmacology, pathophysiology, operating an ambulance, and medication administration. Students will also complete a clinical rotation in a hospital Emergency Department. Upon successful completion, candidates will be eligible to participate in the National Registry of EMTs Emergency Medical Technician exams for Wisconsin EMT licensure.

Aid Code: 30 - Short-term.

Co-requisites: (531-301)

[Complete Course Listing](#)

531-304 EMT - Intermediate 99 I

Credits: 5

Students learn advanced patient assessment, communication skills and advanced life support interventions through lecture and in class practical application. This course is the first of two class needed to meet the requirements for certification with the National Registry of Emergency Medical Technicians and educational requirements for licensure in Wisconsin.

Aid Code: 30 - Short-term.

[Complete Course Listing](#)

531-305 EMT - Intermediate 99 II

Credits: 5

Students learn advanced patient assessment, communication skills and advanced life support interventions through lecture and clinical and field experience. This course is the second of two classes needed to meet the requirements for certification with the National Registry of Emergency Medical Technicians and educational requirements for licensure in Wisconsin.

Aid Code: 30 - Short-term.

Information provided includes course descriptions by subject only.**For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).****851-713 BSE Communications I****Credits:** 3

Introductory course includes basics of punctuation, spelling, capitalization as needed for written expression in everyday situations. Basic sentence and paragraph construction will be included.

Aid Code: 73 - Beg ABE (0-5.9).**Pre-requisites:** (GED/ESL/BS Course Approval)

Complete Course Listing

851-764 Communication 2 GED Review

Credits: 3

This course develops conventions of English structure, usage, mechanics, and spelling in order to write and expand ideas. It includes practice in writing, correcting and revising for the GED test at the pre-GED level.

Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.

Aid Code: 74 - Interm ABE (6.0-8.9).

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

851-772 Communication 3 GED Review

Credits: 3

This course further develops conventions of English structure, usage, mechanics, and spelling in order to write and expand ideas. It includes practice in writing, correcting, and revising for the Reasoning Through Language Arts GED test. This course may also develop communication skills as needed for the Mathematical Reasoning, Social Studies, and Science GED tests. *Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.*

Aid Code: 76 - HS Dip, GED, HSED (9.0-12.9).

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

851-795 Writing Studio

Credits: 1

A small group and individualized instruction course that helps students develop college-level writing skills. Emphasizes writing process strategies. Must be taken concurrently with Written Communication or English Composition 1.

Aid Code: 77 - ASE Developmental.

Pre-requisites: (ACT English, 15 or COMPASS Writing Skills, 038 or SAT Writing, 290 or AccuPlacer Sentence Skills, 063 or Next Gen AccuPlacer Writing, 242) or (851-781)

Complete Course Listing

851-798 Writing Foundations

Credits: 1

A small group and individualized instruction course that helps students develop precollege writing skills. Emphasizes writing conventions (grammar, punctuation, capitalization, spelling) and sentence and paragraph skills. Must be taken concurrently with Intro to College Writing.

Aid Code: 77 - ASE Developmental.

Pre-requisites: (COMPASS Writing Skills, 24 or ACT English, 11 or SAT Verbal, 200 or AccuPlacer Sentence Skills, 30 or Next Gen AccuPlacer Writing, 220)

Complete Course Listing

English Language Learners (861)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

861-400 English Language Learner College Transition Course

Credits: 3.6

This 36-hour course will assist English Language Learners (ELL) in bridging the gap between ELL program completion and readiness for success in a postsecondary program. Students will develop basic computer and academic skills, as well as identify and explore career interests. Students must have instructor recommendation to enroll.

Aid Code: 75 - ESL W/Instl Area 861.

Complete Course Listing

861-701 English as a Second Language, Advanced Communication

Credits: 3

Learners will discriminate common stress patterns, reductions, intonation, pitch patterns, and thought groups. Learners will utilize rules of grammar to form affirmative and negative statements and questions using simple, continuous, perfect and perfect continuous tenses. The use of conditional sentences and active/passive voice will be explored. Learners will be expected to use sustained speech to participate in discussions about unfamiliar topics, share experiential stories, and present oral reports of various types.

Aid Code: 75 - ESL W/Instl Area 861.

Complete Course Listing

861-711 English as a Second Language, Beginning Literacy, Communication

Credits: 3

Instruction and practice in the use of formal and informal conversational language. Students build vocabulary and learn to use numbers, emergency and health language, identify types of jobs and classroom objects. Basic pronunciation, speaking, and listening strategies are developed. Basic grammar and writing skills are introduced and practiced. Programs are infused with and enhanced by technology.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-715 English as a Second Language, Beginning Literacy

Credits: 3

Students develop basic language skills in the area of speaking, listening, reading and writing in the context of real-life survival skills. It is aimed at developing the listening comprehension and oral skills of beginning level learners of English. Students at this level function minimally, if at all, in English.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-718 English as a Second Language, Beginning Literacy, Reading

Credits: 3

Instruction to teach discrimination and correct orientation of the English alphabet, to introduce symbol/sound relationships, and the meaning of common signs and symbols. Students learn to recognize personal information print, use maps, calendars, and picture dictionaries. Students also begin to develop basic comprehension strategies at this level.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-731 English as a Second Language, Low Beginning, Communication
Credits: 3

Instruction to improve basic communication skills including: speaking, listening, pronunciation, writing, and grammar. Students learn to write and speak using simple past, present and future verb forms, generate simple affirmative and negative statements and questions, discriminate sounds, and respond to simple imperatives. Computer technology will assist students.

Aid Code: 75 - ESL W/Instl Area 861.

Complete Course Listing

861-735 English as a Second Language, Low Beginning
Credits: 3

Classes at this level provide relevant language in real-life contexts. This class uses an experience centered approach to give student survival skills as quickly as possible. This program provides plenty of opportunity to use language, while developing grammatical skills. Students at this level will begin to form simple sentences and be able to communicate with others. Students learn about standard social norms in the United States, the work ethic in the United States, and how to apply basic study skills.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-738 English as a Second Language, Low Beginning, Reading
Credits: 3

Instruction to improve basic reading skills and expand vocabulary. Students learn to comprehend and respond to a range of printed material, employ a variety of comprehension strategies, recognize formal and informal language, and develop fluency.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-751 English as a Second Language, High Beginning, Communication
Credits: 3

Instruction to improve speaking, listening, pronunciation, writing, and grammar skills. Students learn to use the writing process to compose short paragraphs and workplace reports, develop an awareness of language patterns, utilize rules of grammar, use formal and informal conversational language and respond to multi-step process directions. Computer technology is used to enhance the learning experience. Students will learn to use word processing tools.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-755 English as a Second Language, High Beginning
Credits: 3

Students learn about school services and how to access them. They will participate in formal and informal conversations about legal and basic human rights. Students learn to write cover letters, resumes, and to complete job applications. Development of study skills is stressed, and students will learn to apply learning and test taking skills and strategies and actively participate in the learning process.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-758 English as a Second Language, High Beginning Reading
Credits: 3

Instruction to improve reading skills and expand vocabulary. Students improve comprehension skills and learn to respond critically to a range of printed material. Employability vocabulary and the use of workplace terminology are expanded. Students develop greater fluency and increase their reading rate.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-771 English as a Second Language, Low Intermediate Communication
Credits: 3

Learners will identify sounds of English, use basic pronunciation strategies, and discriminate speech. Formal and informal conversational language skills will be developed through participation in a variety of activities. Learners will use sustained speech to give short explanations, descriptions, and process directions.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-775 English as a Second Language, Low Intermediate
Credits: 3

Learners will use pre-employment resources such as classified ads, employment agencies, web sites and the Rock County Job Center to complete a variety of assignments and tasks. Employer expectations such as punctuality, attitude, team work, and appreciation for diversity will be discussed. Learners will participate in activities to prepare for interviews.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-778 English as a Second Language, Low Intermediate Reading
Credits: 3

Learners will demonstrate comprehension of a range of printed materials including road signs, safety signs, newspaper articles, rhythm chants, short narratives, and fairy tales. Comprehension strategies studies will include recognition of compound words, homonyms, prefixes, and suffixes. Learners will demonstrate an awareness of a variety of language patterns and utilize rules of grammar to form statements and questions in simple and continuous tenses.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)
Complete Course Listing

861-795 English as a Second Language, High Intermediate
Credits: 3

Learners will identify the raise-promotion process, discuss the purpose of personnel files, discuss employer expectations, and identify discriminatory practices. Interview etiquette will be discussed and practiced. Activities will lead to greater understanding of American cultural practices such as volunteerism, competitiveness, parenting, and neighborhood interaction.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)
Complete Course Listing

Environmental (506)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

506-101 Beginning Laboratory Skills
Credits: 3

This class introduces general laboratory concepts and procedures. Emphasis will be placed on laboratory safety, equipment utilization, and maintenance. An introduction to scientific inquiry will be addressed. Proper techniques in specimen collection, record keeping, and quality control will be introduced. Basic laboratory mathematics will be discussed and applied.

Aid Code: 10 - Associate Degree.

Co-requisites: (804-106 or 804-107)
Complete Course Listing

506-102 Intermediate Laboratory Skills
Credits: 3

The learner will begin to apply laboratory procedures and the scientific method to the analysis of samples and the performance of simple experiments. The learner will develop and apply data analysis and management techniques. The learner will develop the necessary methodology to deal with chemical and bio-hazardous materials.

Aid Code: 10 - Associate Degree.

Pre-requisites: (506-110 or 513-113 or 513-110)
Complete Course Listing

506-103 Basic Laboratory Skills II
Credits: 2

This class continues the introduction of general laboratory concepts and procedures learned in 513-110 Basic Lab Skills. Emphasis will be placed on laboratory safety, equipment, utilization, and maintenance. An introduction to scientific inquiry will be addressed. Proper techniques in specimen collection, record keeping, and quality control will be introduced. Basic laboratory mathematics will be discussed and applied.

Aid Code: 10 - Associate Degree.

Co-requisites: 513-110
Complete Course Listing

506-105 Quality Concepts in Laboratories
Credits: 3

The student will become familiar with quality concepts and their application within the laboratory environment. This will include understanding of the meaning and benefits of quality, quality systems and processes, and the cost/impact of quality. How to apply problem solving skills for continuous improvement will be explored.

Aid Code: 10 - Associate Degree.

Complete Course Listing

506-108 Laboratory Safety and Hazardous Materials
Credits: 1

The learner will become familiar with the fundamental aspects of safety and hazardous materials in the laboratory environment, as well as safety/hazardous materials regulations and their applications. The learner will develop an awareness of their responsibility for safety within the workplace.

Aid Code: 10 - Associate Degree.

Complete Course Listing

506-109 Data Management for Laboratory Assistants
Credits: 1

This class introduces the fundamental concepts and approaches for data management in a laboratory environment. Both manual and automated data collection and management will be covered with particular emphasis on "best practice" approaches for reliability, accuracy, and integrity within data management systems and their use.

Aid Code: 10 - Associate Degree.

Complete Course Listing

506-111 Food Microbiology
Credits: 4

This course focuses on interactions of microorganisms and our food supply as it pertains to food processing and packaging in order to control food-borne disease, infections and toxins. Students will analyze what conditions affect the growth, death and survival of microorganisms in food. Students isolate and identify the primary food pathogens. Students will experience both positive interactions with microbes (such as fermentation) and negative interactions (such as spoilage and disease).

Aid Code: 10 - Associate Degree.

Pre-requisites: (806-199) and (806-197)
Complete Course Listing

506-112 Food and Nutritional Science**Credits:** 3

This course examines the biochemical processes of digestion and absorption as it pertains to the macromolecules, carbohydrates, lipids, and amino acids. Learners will analyze enzymes, vitamins, and co-factors. Learners will define the most common sources and functions of nutrients and nutritional needs by examining such items as caloric contents in food. Contemporary and emerging issues in nutrition will be examined.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 806-199

Complete Course Listing

506-113 Excel and Access for the Laboratory**Credits:** 3

In this course students input data into Excel and Access, as well as analyze data using the software and its specific features. Students will learn how to control and share the data they have created. Students research different types of labs that utilize this software, and how data from these programs is and can be incorporated into a Laboratory Information Management System (LIMS).

Aid Code: 10 - Associate Degree.

Complete Course Listing

506-114 Introduction to the USDA and FDA**Credits:** 2

The United States Department of Agriculture (USDA) and Food and Drug Administration (FDA) are the major governing bodies involved in regulating our food supply. In this course, students will study the establishment of these government entities and analyze how they coexist. Students will define which areas of our food supply are governed by each entity. Learners will study the types of documents each facility must maintain in accordance with these governing bodies' regulations. Students will have the opportunity to participate in mock audits of a variety of production facilities during the course.

Aid Code: 10 - Associate Degree.

Complete Course Listing

506-115 Food Production Regulations / HACCP, GFSI, FSMA**Credits:** 2

The regulations governing food production are a necessary part of ensuring safety of our food supply. The primary focus of this course will be for students to learn and apply the Hazard Analysis Critical Control Point (HACCP) system. Students will explore the relevant elements and the application of both the Global Food Safety Initiative (GFSI) and the Food Safety Modernization Act (FSMA). Students will evaluate how each regulation can influence the development of a strong quality assurance program within a food production facility. Upon completion of the course, students will be prepared to become HACCP- certified. (The certification is taken outside of the course).

Aid Code: 10 - Associate Degree.

Complete Course Listing

506-117 Food Laboratory Occupational Experience**Credits:** 2

Students will be placed in a field experience where they will participate in the day to day operations of a food lab or food production facility. Students will be matched with an employee mentor at the facility and demonstrate skills in both the technical side of the industry as well as professional work behaviors.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (806-199) and (806-197)

Complete Course Listing

506-120 ServSafe Certification Preparation**Credits:** 1

This course will introduce the learners to food preparation and storage conditions that promote safety to the consumer. Learners will prepare for and take a practice test of the ServSafe Certification. Upon successful completion of the course, students may elect to take the ServSafe Certification exam.

Aid Code: 10 - Associate Degree.

Complete Course Listing

Farm Business Management (090)

Information provided includes course descriptions by subject only.**For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).****090-303 Agricultural Commodity Marketing for Farm Operators****Credits:** 1

Learners will develop an understanding of the principles of marketing relative to basic economic theory. Learners will analyze a variety of topics, including product differentiation, direct marketing, and competitive advantage. Learners will examine the marketing process from production through delivery and ultimately to the consumer.

Aid Code: 30 - Short-term.

Complete Course Listing

090-305 Nutrient Management Planning for Farm Operators**Credits:** 3

Students focus on profitable crop production methods using commercial products, nutrient credits, and rotational practices. Students learn how to interpret soil test reports, balance soil pH, meet nutrient requirements, and make product recommendations based upon economic, environmental, and legal criteria. Students will study field mapping based on global positioning systems and variable rate technology.

Aid Code: 30 - Short-term.

Complete Course Listing

090-381 Operating the Farm Business

Credits: 3

Emphasizes the management skills and concepts necessary for the first year student to continue farming with today's changing technology and farm business financing. Special emphasis is given to establishing and recording farm business and family goals. The student will organize and maintain the farm business records, as well as interpret and analyze the records to assist in making sound farm business management decisions. Each student's farming operation is assessed and plans are developed based on needs, goals, and objectives. Students will evaluate their goals and objectives upon completion of the course.

Aid Code: 30 - Short-term.

Complete Course Listing

090-382 Soils Management for Farm Operators

Credits: 3

Instruction is provided on preparation and implementation of a land-use plan, and soil testing procedures and reports. Students will receive instruction on fertilizer recommendations and budgets. Included are instruction on the application of farm manures, chemicals, soil conservation practices, and the management and safe use of farm machinery and equipment. Soil management emphasizes the analysis of the farm business and planning cropping strategies to meet the student's needs.

Aid Code: 30 - Short-term.

Complete Course Listing

090-383 Crop Management for Farm Operators

Credits: 3

Instruction is provided on all phases of crop production, management and economics. Specific topics relate to variety, selection, planning, pest control, harvesting, storage, and marketing. In addition, the cropping program is related to the total farm enterprise on a short-term and long-term basis. Crop management emphasizes the analysis of the farming business and planning of cropping practices and strategies to meet student's needs.

Aid Code: 30 - Short-term.

Complete Course Listing

090-384 Livestock Nutrition for Farm Operators

Credits: 3

This course emphasizes the skills, techniques and concepts necessary for sound feeding management. Feed values, pricing, terminology, requirements, and consumption are covered. Evaluation of feed tag labels, base feeds and feeding programs are also covered. Attention is given to the metabolic diseases of lactating animals. Livestock feeding efficiency is measured by use of the farm business analysis.

Aid Code: 30 - Short-term.

Complete Course Listing

090-385 Livestock Management for Farm Operators

Credits: 3

Livestock management provides instruction on the various aspects of selection, breeding, herd health, raising of replacement stock, and marketing of livestock and livestock products. It includes the selection, operation, and maintenance of farm buildings and milking, feeding, ventilation and manure handling equipment. Efficiency of the livestock program will be measured through use of the farm business analysis.

Aid Code: 30 - Short-term.

Complete Course Listing

090-386 Records & Business Management for Farm Operators

Credits: 3

Instruction emphasizes the practical use of a farm record system in managing the farm through farm and financial analysis. It includes the establishment of farm business goals, selection, and use of farm credit, farm business arrangements, farm estate planning, and farm income taxes. Instruction is provided on the use of computers and/or computer records and farm financial analysis of the farm business. Production and financial decisions will be based on the student's farm business analysis.

Aid Code: 30 - Short-term.

Complete Course Listing

Fire Technology (503)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

503-108 Bldg Constr & Fire Ordinances

Credits: 4

The basic principles of structural design, masonry, frame, veneer, structural steel and reinforced construction are studied, with fire ordinances that apply during construction.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-109 Intro to Hazardous Materials

Credits: 3

This course provides an introduction to the Hazardous materials problem by presenting the foundation needed to go further in the study of hazardous materials, such as "hands on" courses and incident-command courses. The chemistry presented in this course is designed to be the minimum a firefighter will need to understand and recognize in each hazard class. In general, each hazard class shows what a firefighter can expect in fire and non-fire situations.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-113 Supervisory Techniques-FS

Credits: 3

This course is designed to give the student an over view of such supervisory skills as leadership and interpersonal skills, planning, staffing, organizing, and control at the first-time supervision level. The duties and responsibilities of supervisors, the role of supervision in an organization and making the transition to supervisor are also included.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-115 Handling Hazardous Materials**Credits:** 3

This is a study of the properties, derivations, and uses of explosives and other dangerous chemicals such as flammable liquids, flammable solids, oxidizing materials, corrosive liquids and solids, compressed gasses, radioactive materials, poisons and their modes of transportation and storage. The procedures as to dealing with these chemicals on the foreground are also studied.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-117 Fire Prevention/Systems****Credits:** 4

This course discusses the organization and function of fire prevention and fire protection systems. Topics include inspection, surveying and mapping procedures, recommendations for correction of fire hazards, engineering as a solution to fire hazards, code enforcement at the federal, state, and local levels, public relations as affected by fire prevention, portable fire extinguisher equipment, sprinkler systems, standpipe systems, protection systems for special hazards, and fire alarm and protection systems. Students will visit local facilities to make mock inspections and to see how fire protection equipment and systems work in order that critical appraisals can be made.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-118****Credits:** 3

Fire fighting problems are presented that are commonly encountered by the firefighter at the company level. Fundamental strategy and methods of attack employed for each fire problem presented are thoroughly reviewed.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-122 Fire Service Hydraulics****Credits:** 3

This course is designed to give the student a basic knowledge of hydraulics relative to the fire service field. The theoretical aspects as well as the practical fire ground approach is studied.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-125 Emergency Medical Technician Fundamentals****Credits:** 2

This 2 credit, 8 week course covers the basics of the Emergency Medical Technician-Basic certification course to include CPR, airways, anatomy, hazmat response requirements, lifting and moving patients, incident command, and other technical information. It is the first part of a two course system to prepare students for national certification testing for EMT-Basic.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Pre-Algebra Skills, 044 or ACT Math, 17 or ASSET Numerical Skills, 40 or Test Waived-College Degree or 834-109 or 834-109 or 804-107 or (AccuPlacer Arithmetic, 089 or AccuPlacer Arithmetic, 065 and AccuPlacer Elem Algebra, 030)) and (COMPASS Writing Skills, 070 or ACT English, 18 or ASSET Writing Skills, 44 or AccuPlacer Sentence Skills, 083 or Test Waived-College Degree or 851-782 or 851-782 or 851-783 or 851-783 or 831-103 or 831-103 or 801-195) and (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Test Waived-College Degree or 838-104 or 838-104 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

[Complete Course Listing](#)**503-126 Fire Department Administration****Credits:** 3

The scope and functions of administrative management personnel in the fire department are studied. Discussions include fire service role in the community, selection, training and advancement, line and staff functions, and developing and conducting short courses on fire protection subjects.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-128 Emergency Medical Technician Applications****Credits:** 3

This course is an extension of, and completion of, the EMT Fundamental course. This course covers the bulk of the Emergency Medical Technician-Basic certification course to include the handling of cervical and spine injuries, burn injuries, heart and breathing related problems, shock, and other trauma injuries. This course includes several lab days to practice and perfect skills, clinical time, and extensive hands-on activities. This course prepares students for national certification testing for EMT-Basic. Admittance into this course must be within 2 years of completing Course # 503-125, EMT Fundamentals.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (503-125)[Complete Course Listing](#)**503-135****Credits:** 3

Problems and techniques of fire and arson investigation are studied with emphasis on the application and assistance of various aids to the investigation.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)

503-139

Credits: 3

Provides an overview to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection/service; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; and fire service nomenclature.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-142 Fire Fighting Principles

Credits: 4

Describes basic fire behavior, techniques used to control structural and related fire emergencies, and life safety practices. Students perform all practical evolutions necessary to control and extinguish fires and otherwise meet all requirements for Firefighter I certification with the State of Wisconsin.

Aid Code: 10 - Associate Degree.

Pre-requisites: 503 721)

Co-requisites: (503-153

Complete Course Listing

503-143 Building Construction for Fire Protection

Credits: 3

Provides the components of building construction that relate to fire and life safety.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-144 Direct Independ Research I

Credits: 3

This course is designed to allow a student to research and dissect a problem area in Fire Science.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-146 Direct Independ Research II

Credits: 2

This course is designed to allow a student to research and dissect a second problem area in Fire Science.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-147 Fire Protection Systems

Credits: 4

Provides information relating to the features of design and operation of fire detection and suppression systems.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-148 Tactical Prob & Disaster Plan

Credits: 3

This course allows the student to make knowledgeable decisions regarding fire ground tactics both from a battalion and company level, and provides insight into unusual circumstances often encountered in the fire service. The student will also learn the procedures used in the development of disaster planning and the relationship between various local, state, and federal agencies from an administrative viewpoint.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-150 Personnel Mgt For Fire Service

Credits: 3

Students need to understand how officers and personnel units work together to manage firefighters. This course presents basic ideas that all officers need to effectively manage personnel activities.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-151 Fire Prevention

Credits: 4

Provides fundamental information regarding the history and philosophy of fire prevention, organization and operation of a fire prevention bureau, use of fire codes, and identification and correction of fire hazards. Meets all requirements for Fire Inspector I certification with the State of Wisconsin.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-153 Hazardous Materials Awareness & Operations

Credits: 1

In this course, students will learn characteristics relating to hazardous materials including problems of recognition and defensive operations. The course is designed to prepare students for the Hazardous Materials Awareness and Operations level of NFPA 472.

Aid Code: 10 - Associate Degree.

Pre-requisites: 503 780)

Co-requisites: (503-142

Complete Course Listing

503-154 Hazardous Materials Chemistry

Credits: 2

This course provides basic chemistry relating to the categories of hazardous materials including recognition, identification, reactivity, and health hazards encountered by emergency services.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-156 Strategies, Tactics & Inc Mgmt

Credits: 4

Provides an in-depth analysis of the principles of emergency response through utilization of an incident management system. Prepares students to pursue current national ICS training requirements.

Aid Code: 10 - Associate Degree.

Complete Course Listing

503-157 Fire Investigation**Credits:** 3

Provides learners with the fundamentals and technical knowledge needed for proper fire scene investigations.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-159 Fire Fighting Principles II****Credits:** 2

Builds on the basic skills learned in Fire Fighting Principles with an emphasis on scene management, communication, and fire operations processes.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (503-142) and (503-153)[Complete Course Listing](#)**503-160 Fire Protection Technician Internship****Credits:** 3

The Fire Protection Technician Internship is designed for students who meet the required prerequisites in order to serve at district fire departments as a responder. This opportunity affords each intern with the learning and understanding of the day-to-day worklife and culture of fire service. Included in the student intern's responsibilities will be station duties of cleaning, maintenance of fire equipment and apparatus, response to EMS and fire emergencies and fire inspections under the supervision of a designated Fire Department supervisor. FPT interns may also be involved in public relations and fire prevention, responsibilities of a subordinate, chain of command, organizational requirements, and the formal and informal relationships, work climate, and complexities of fire service culture. The total time on the job as an intern is 216 hours and is designed to be served in the assigned fire station, under supervision. The shift schedule will be determined by the Fire Coordinator, student, and hosting fire department based on program outcomes and student needs but must be completed in one semester. Completion requires satisfactory reporting from assigned agency fire chief, Fire Coordinator, and a passing grade on the final portfolio submitted by the student for the internship.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (503-142 or 503-721) and (503-153) and (503-128 or 531-110)[Complete Course Listing](#)**503-191 Principles of Emergency Services****Credits:** 2

This course introduces the student to the organization and management of a fire and emergency services department and the relationship of government agencies to the fire service. Emphasis is placed on fire and emergency service, ethics, and leadership from the perspective of the company officer.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-192 Principles of Emergency Services Safety & Survival****Credits:** 3

This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-193 Fire Protection Systems****Credits:** 3

This course provides information relating to the features of design and operation of fire alarm systems, water-based fire suppression systems, special hazard fire suppression systems, water supply for fire protection and portable fire extinguishers.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-194 Fire Protection Hydraulics****Credits:** 3

This course provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-195 Fire Behavior and Combustion****Credits:** 3

This 3 credit course provides an in-depth look at the combustion process and chemical reaction along with an analysis of fire behavior, principles, and theories. This course will also examine the physics of the combustion process, the products of combustion, and the effects of fire and combustion inside a structure, and the impact on the firefighter and victims who are involved in the fire environment. A key component to this course will be observations of fire and the products of combustion within scale models.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**503-453****Credits:** 10.8

Course is designed to allow students an opportunity to discuss, perform hands-on practice, and master the practical skills taught in the curriculum sequence of the Fire Academy. Directed group activities enhance the retention of key concepts and skills needed to successfully pass the certification testing for both Fire Fighter I and Fire Fighter II.

Aid Code: 47 - Occupational Adult.[Complete Course Listing](#)**503-454 Health and Safety Officer****Credits:** 1.8

This two-day course examines the Health and Safety Officer's role in identifying, evaluating and implementing policy and procedures that affect health and safety aspects for emergency responders. Risk analysis, wellness, and other occupational safety issues will be the main emphasis of this course.

Aid Code: 47 - Occupational Adult.[Complete Course Listing](#)

503-462

Credits: 4

This 40 hour class is intended for those who are seeking NFPA 472 Hazardous Material Technician level training as part of an emergency response team. Students must have documented training at the Hazardous Materials Operations level to enroll in this class. Concurrent enrollment in an Operations level class may be allowed with instructor permission.

Aid Code: 47 - Occupational Adult.

Human Resources (116)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).

116-102 Training and Development
Credits: 3

This course explains the fundamentals of training and development coordination. It includes terminology, levels of learning, matching training providers with organizational needs, organizing materials and environments to maximize learning, measuring completion of objectives, and communication with employees. Through a simulation, teams will assess learning needs, develop training plans and objectives, create a training plan, use the plan to train the class on a new skill or process and then assess the transfer of knowledge afterwards. This course is a pre-requisite for Human Resource Practicum 116-138.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

116-103 Employment Law
Credits: 3

This course introduces and explores legal issues concerning employment and their effect on the workplace. Through in-depth case analyses, oral presentations and debates, learners will examine the intricacies of Federal and Wisconsin Equal Employment Opportunity laws. Topics include legislation and Supreme Court decisions related to civil rights, age discrimination, disabilities, pay equity, affirmative action, etc.

Aid Code: 10 - Associate Degree.

Pre-requisites: (801-195 or 801-136)

[Complete Course Listing](#)

116-108 Health and Safety
Credits: 3

Learners will analyze the safety and health issues affecting today's business organizations in a variety of industries. OSHA and EPA regulations and reporting will be explored and applied to hypothetical situations. Learners will examine security issues in the workplace and present mitigation methods. Learners conduct research on a specific safety topic and make a presentation based on their research. Upon completion, learners will be prepared to test for OSHA 10 hour certification.

Aid Code: 10 - Associate Degree.

Pre-requisites: 116-102

[Complete Course Listing](#)

116-115 Compensation and Benefits**Credits:** 3

This course focuses on the compensation and benefit elements that make up a total rewards system and how an organization utilizes these elements to be competitive in their market. Learners will create a compensation structure and propose benefit programs. Focus will be on the major categories of benefits, including planning and administration, regulation compliance, insurance, retirement plans, paid time off, etc. This course is a pre-requisite for Payroll Administration 116-137 and Human Resource Practicum 116-138.

Aid Code: 10 - Associate Degree.

Complete Course Listing

116-116 Staffing Organizations**Credits:** 3

Learners will explore best practices in recruitment, retention, interviewing, selection, and hiring as it applies to an organization's staffing needs. Learners practice the skills necessary for interviewing individuals in a variety of settings. Behavior-based questioning is emphasized. This material supplements the legal aspects of the employment process. This course is a pre-requisite for Human Resource Practicum 116-138.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (116-193) or (196-193)

Complete Course Listing

116-119 Labor Relations**Credits:** 3

Learners are introduced to the history of the American Labor force and explore specific laws concerning the regulation of employment. Through discussions and case analyses, students interpret the legal requirements and restrictions for labor and management. Topics explored include the legalities of union certification and de-certification, negotiation and administration of labor agreements, strikes, lockouts, mediation, and arbitration. Learners will author contract proposals, negotiate changes to an existing labor agreement, and learn to administer specific labor contract language.

Aid Code: 10 - Associate Degree.

Complete Course Listing

116-138 Human Resource Practicum**Credits:** 3

Learners further develop their HR knowledge and skills by working with HR professionals to complete human resource projects for area organizations. The students are provided actual HR related projects from local organizations. Project management tools are applied to the project for effective results. This course is the HR program capstone and requires the following pre-requisite courses: 116-193, 116-116, 116-102, 116-115.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (116-102 or 196-102) and (116-115 or 196-115) and (116-116 or 196-116) and (116-193 or 196-193)

Complete Course Listing

116-168 Organizational Development**Credits:** 3

This course introduces the learner to the different motivational mechanics that affect individuals, teams, and organizations. Focus is placed on understanding individual differences and how they are manifested within an organization. Learners will compare leadership theories, power and organizational structures, organizational cultures, and decision-making processes. Communication during workplace changes and career management is practiced and explored.

Aid Code: 10 - Associate Degree.

Complete Course Listing

116-193 Human Resource Management**Credits:** 3

This course establishes the foundation for effectively managing people in an organization. All of the Human Resource functions are examined such as: Recruitment, Interviewing and Selection, Orientation, Training, Performance Review, Compensation and Benefits within the context of a typical business. Learners explore labor forecasting and strategy and analyze impacts on the organization. This course is a pre-requisite for Human Resource Practicum 116-138.

Aid Code: 10 - Associate Degree.

Complete Course Listing

116-400 Introduction to Organizational Culture**Credits:** 4

This course introduces participants to the different motivational mechanics that affect individuals, teams and organizations. Focus is placed on understanding individual differences and how they are manifested within an organization.

Aid Code: 47 - Occupational Adult.

Complete Course Listing

Human Services (520)

Information provided includes course descriptions by subject only. For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

520-100 Introduction to Human Services**Credits:** 3

This course examines the scope, values, and principles of the Human Service profession. Students are introduced to the typical roles and duties of various human service workers and will analyze the role they play within organizations, as well as with the people and communities they serve.

Aid Code: 10 - Associate Degree.

Complete Course Listing

520-101 Community Resources and Services**Credits:** 3

This course will introduce the learner to a wide variety of community agencies, resources, and programs. The functions, funding, clients served, eligibility requirements, and referral procedures of the agency will be explored. Learners will have a chance to participate in site visits and learn about various agencies through guest speakers.

Aid Code: 10 - Associate Degree.

Complete Course Listing

520-102 Introduction to Gerontology

Credits: 3

The learner will identify basic theories and facts about the aging process and will analyze the psychological and sociological experience of the older adult population. Learners will be able to apply this knowledge towards methods and techniques for serving the aged.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

520-103 Interviewing Principles & Documentation

Credits: 3

The learner develops techniques for interviewing and applies record-keeping skills as practiced in human services agencies. Skills to be practiced include social history and summary recording, case assessment and management, as well as intervention plan development.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

520-104 Racial and Cultural Diversity in Human Services

Credits: 3

This course examines the importance of understanding diversity in mental health careers and the helping professions. The learner analyzes culturally-based, help-seeking behaviors among racial, ethnic, and other sub-populations. General diversity issues are also presented in order to aid students in developing cultural competence in the helping professions.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

520-105 Intro to Addiction and Substance Abuse Disorders

Credits: 3

The learner examines the history of drug use along with the changing historical trends of abuse. The learner will explore various types of addictions and how they are similar and dissimilar to chemical addictions. Learners will analyze the biology of psychoactive drugs and how they can cause addiction.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

520-106 Professional Practices in Human Services

Credits: 3

This course prepares learners to enter the human services profession and abide by a working knowledge of professional codes of ethics. Learners will explore social/ethical issues that impact the profession. Professional credentialing, continuing education, and maintaining vitality within the field will be analyzed.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

520-107 Field Experience / Human Services 1

Credits: 3

Learners develop skills as human services workers by working directly or indirectly with clients through placement in a local social services agency under professional supervision. Students will gain experience through on-the-job training by integrating human services theories and professional skills. Students will explore job responsibilities that relate to a human services agency including client/staff interaction and employee accountability.

Aid Code: 10 - Associate Degree.

Pre-requisites: (520-100) and (520-106)

[Complete Course Listing](#)

520-108 Children and Family Services

Credits: 3

This course introduces the learner to the human service professional's role when working with children, families and groups. Issues impacting the family system will be analyzed, including child abuse, divorce, mental health, juvenile delinquency, bereavement and physical health problems.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

520-109 Group Facilitation

Credits: 3

The learner develops skills and techniques needed to lead informational and supportive groups. Various counseling approaches and their application to group work will be identified along with the developmental stages of groups.

Aid Code: 10 - Associate Degree.

Pre-requisites: (520-100) and (520-103)

[Complete Course Listing](#)

520-110 People with Disabilities

Credits: 3

This course prepares students to work with individuals and families impacted by disabilities. The learner explores a variety of disabilities and issues common to persons with disabilities. Students apply methods and techniques to work with this sub-population.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

520-111 Field Experience / Human Services 2

Credits: 3

The learner is given the opportunity to demonstrate understanding of more advanced social work skills and techniques used in the field. Learners examine the operations of a human services agency including client/staff interaction and employee responsibilities. Learners will be able to apply the experience gained in this course with what they have learned in the program to enter the profession as an entry-level human services worker.

Aid Code: 10 - Associate Degree.

Pre-requisites: (520-107)

[Complete Course Listing](#)

520-112 Human Services Organizational Operations**Credits:** 3

This course focuses on characteristics and functions of human services organizations and the roles of human service workers in those organizations. Learners apply their skill in organizational assessment methods, planning, budgeting, grant writing, evaluation and consulting – all part of the Human Service Profession.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (520-100) and (520-107)

Complete Course Listing

520-113 Rehabilitation Services**Credits:** 3

This course gives the learner a fundamental knowledge base in the drug and alcohol addiction field. Learners examine information about pharmacology, self-help groups, levels of care, symptom identification and assessments. Through the use of case studies the student applies knowledge and skills towards serving those in need of rehabilitation services.

Aid Code: 10 - Associate Degree.

Complete Course Listing

520-114 Victimology**Credits:** 3

This course will provide the student with an analysis of how human services and criminal justice professionals, regardless of their role, come in contact with victims of crime. It will examine criminal victimization in the United States via an overview of current theory, research, and trends of victimization. It will analyze specific crimes types, the impact of crime on victims and society, the role of victims within the criminal justice system, specific remedies, and victim rights and services. It will explore victimization with a context of current events and local models of crime victim services.

Aid Code: 10 - Associate Degree.

Complete Course Listing

520-115 Understanding Addiction**Credits:** 2

This course provides an overview of addiction, including classification and basic pharmacology of drugs, basic physiology and effects of drug use on the human body and patient, client learning styles and group teaching methods, delivery of educational programs, health and behavior problems related to substance use and basic life skills such as stress management, communication and assertiveness.

Aid Code: 10 - Associate Degree.

Complete Course Listing

520-118 AODA Case Management**Credits:** 3

This course includes studies in implementing treatment plans including continuing assessment, the referral process, service coordination, including for co-occurring medical and psychological disorders, record management and documentation and utilizing the written client record to guide and monitor services to reach measurable goals and objectives.

Aid Code: 10 - Associate Degree.

Complete Course Listing

520-119 AODA Counseling**Credits:** 3

Includes studies of understanding addiction, recognized treatment theory and practice, the recovery process, effective strategies for meeting the counseling needs of diverse clients, crisis management skills, and treatment of co-occurring medical and psychological disorders.

Aid Code: 10 - Associate Degree.

Complete Course Listing

520-120 Psychopharmacology**Credits:** 3

Provides a historical and cultural perspective on alcohol and drug use and abuse, and abuse preventions. It incorporates an overview of drugs including their actions, effects, abuse, and psychopharmacology.

Aid Code: 10 - Associate Degree.

Complete Course Listing

520-139 AODA Internship 2**Credits:** 4

Provides the learner with the opportunity to assume greater responsibility and more of the duties of a substance abuse counselor in actual clinical practice. The course provides the learner with opportunities to strengthen skills and to experience the full range of responsibilities assumed by an AODA counselor while being supervised by an experienced substance abuse professional.

Aid Code: 10 - Associate Degree.

Complete Course Listing

520-160 AODA Internship 1**Credits:** 3

An on-site experience during which the learner is oriented to the environment of substance abuse treatment. Supervised practice in the 12 core functions of counseling including assessment, group and individual counseling, case management, and consultation is offered.

Aid Code: 10 - Associate Degree.

Complete Course Listing

520-432**Credits:** .5

Signs of Substance Abuse Impairment in the Workplace.

Aid Code: 47 - Occupational Adult.

Complete Course Listing

Industrial Engineering Tech (623)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

623-121 Engineering Drawing and Measurement

Credits: 3

This self-paced course provides the foundation skills needed to interpret industrial blueprints and perform basic metrological measurements. Orthographic projection, pictorial drawings, sections, auxiliary views, dimensions and tolerances, title blocks, revisions, basic GD&T symbols, and similar topics are covered. Students will also examine measurement concepts as they apply to the manufacturing environment, and perform hands-on activities using precision measuring tools.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

623-122 Ergonomics and Workplace Safety

Credits: 2

The health and safety of employees within Industrial and Manufacturing facilities has been a major concern for industry across the country. How the physical tasks within a job duty are performed can impact the health of an employee. The setup of a manufacturing line, the process of material handling or the procedures to follow when working within a facility must be considered for safety and health. In Ergonomics and Workplace Safety you will identify factors that can lead to musculoskeletal disorders (MSDs), analyze and suggest improvements to job hazards on an employee's workstation, look at costs and benefits of ergonomic improvements and investigate accident reports for causes and problems related to work safety.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

623-123 Quality Improvement

Credits: 3

This course investigates how to improve process and product quality through the design of experiments to find the adverse factors within a process and correct them. Students will also learn about the 7 basic quality tools, 8D problem solving and failure mode effect analysis (FMEA).

Aid Code: 10 - Associate Degree.

Co-requisites: (623-169)

[Complete Course Listing](#)

623-147 Manufacturing System Design

Credits: 3

In this course students will learn and experiment with different designs of manufacturing systems. Simulation tools will be used to analyse the performance of these different systems and improve their efficiency.

Aid Code: 10 - Associate Degree.

Pre-requisites: (606-176)

[Complete Course Listing](#)

623-155 Statistical Process Control (SPC)

Credits: 3

This course offers an in-depth exploration of the principles and applications of statistical process control. Specific subject areas covered include background, basic principles, variation, histograms, probability, variable and attribute control charts, and machine and process capability. Lectures will be supplemented with in-class exercises designed to make the concepts and their application more easily understandable. These individual and group activities will be drawn from the student workbooks and from additional materials to be distributed by the instructor.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

623-160 Manufacturing Materials and Processes

Credits: 3

A study is made of the various materials used in industry today and how those materials can be altered or worked to create a specific product. Various areas such as forming, casting, forging and machining are discussed.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

623-165 Facilities Planning

Credits: 3

This course covers the essential elements of plant layout and materials handling. Flow patterns, material handling requirements, equipment, and storage and retrieval methods are explored. The many factors affecting an efficient facility layout are examined, as are the decision-making tools for dealing with them. The course concludes with a group project, in which learners design an actual facility to satisfy given criteria. Each group will then present its design to the rest of the class for analysis and discussion.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

623-166 Industry and Quality Control

Credits: 3

This self-paced course is an overview of quality issues in the modern industrial environment. Topics include basic quality concepts, sampling and inspection, fundamentals of measurement, statistical tools, quality policies and costs, improvement projects, and comparisons of popular quality philosophies.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

623-169 Lean Manufacturing Systems

Credits: 3

In this course, learners will examine the lean tools available to identify and eliminate wastes from a process. Learners will examine the benefits and challenges of conducting a 5S implementation strategy, A3 Storyboard strategy, and root cause analysis. Learners will utilize process mapping to evaluate and develop plans to reduce and/or eliminate waste and evaluate the various approaches to continuous improvement.

Aid Code: 10 - Associate Degree.

Pre-requisites: (623-622)

[Complete Course Listing](#)

623-170 Industrial Organization and Structure**Credits:** 3

This course examines the structure of the modern manufacturing organization, and provides an overview of the interrelationship between the various functional departments and their activities. Historical background, management philosophy, planning and control requirements, labor, and human aspects of the organization are discussed.

Aid Code: 10 - Associate Degree.

Complete Course Listing

623-180 Manufacturing Engineering Technology Capstone**Credits:** 3

In this course students will demonstrate the use of all the skills they have learned in the program to complete an all-inclusive project.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (623-169)**Co-requisites:** (664-189 or 623-123 or 606-152)

Complete Course Listing

623-192 Process Planning**Credits:** 3

A study is made of the principles, practices, and techniques of process planning. Using the part drawing, the student learns through systematic analysis to select the most practical and economical processes and to determine the properly sequenced series of operations to transform materials into useful products. The students also select the type of tooling and equipment needed in terms of materials, quantity, tolerances, and surface quality requirements.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 623-121

Complete Course Listing

623-196 Standards and+C1126 Regulations**Credits:** 1

This self-paced course provides an overview of state and federal standards and regulations governing workplace safety and the environment. Students will learn to recognize hazards and identify applicable regulations. Emphasis is on locating standards in the code of federal regulations (CFR), applying safety and environmental standards in the workplace, and interpreting material safety data sheets (MSDS).

Aid Code: 10 - Associate Degree.

Complete Course Listing

623-465 Manufacturing Engineering Technology Internship**Credits:** 1

In this course students will demonstrate the use of all the skills they have learned in the program to complete an internship at a local business, or complete the internship at the college.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (623-622)

Complete Course Listing

623-814 Reliability Engineering**Credits:** 3

In this course reliability and availability modeling and analysis methods are used to perform cost-effectiveness analysis during development of manufacturing systems, processes, and products. Preventative maintenance is also explored.

Aid Code: 10 - Associate Degree.**Co-requisites:** (623-169)

Complete Course Listing

Industrial Equipment Mechanic (462)

Information provided includes course descriptions by subject only.**For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).****462-301 Electrical Fundamentals****Credits:** 3

This course is designed to introduce students to the basic concepts of DC electricity, single phase AC electricity, and three phase AC electricity. Students demonstrate proper safety procedures while examining basic electrical components such as resistors, capacitors, inductors, switches, indicators, relays, and basic test equipment. Students will be able to analyze and construct circuits, measure voltage, current, resistance, capacitance, and inductance as they apply to circuits.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

462-302 Electrical Control System**Credits:** 3

In this course, students apply the basic principles related to electro-mechanical systems, as well as motors, transformers, frequency drives, and various electro-mechanical devices in order to enhance control systems. Students will be able to construct and troubleshoot starter and control circuits, utilizing both line and low voltage circuits. This course covers the fundamentals of National Electrical Code wiring, soldering, relay ladder logic, and lock-out-tag-out procedures.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

462-303 Programmable Logic Controllers**Credits:** 4

This course is designed to introduce students to the basics of Programmable Logic Controllers (PLC's) used in industry. PLC's in both the online and offline modes, as well as ladder logic, logic gates, Boolean equations and truth tables will be explained and utilized in course demonstrations. While practicing proper safety procedures, students will examine discrete and analog input and outputs, hardware sensor interfacing and troubleshooting techniques, so they can program PLC's using timer, counter, latch, data movement, sequencing, and other instructions.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

462-304 Electro-Mechanical Prints

Credits: 2

This course illustrates for students the basic symbols related to electro-mechanical prints. Students will analyze and interpret electro-mechanical prints and line diagrams to understand the sequence of operations and troubleshoot systems.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

462-306 Machining Prints

Credits: 2

This course is designed to illustrate the basics of machining prints. Students will be able to breakdown machining prints and model isometric sketches as well as interpret orthographic projection drawings which include sections, auxiliary views, threads, fasteners, surface finishes, geometric dimensions, tolerances, and assembly points.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

462-307 Maintenance Milling

Credits: 3

This course is designed to outline for students the basics of milling fabrication processes that are common to the industrial maintenance field. Through demonstration and practice, emphasis will be placed on knowing the machine parts, their function, and performing simple milling operations for the student. Students will be able to demonstrate the basic use of mills, related safety, maintenance, metal cutting theory, cutting tools, and work holding for the mill.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

462-308 Industrial Maintenance Metallurgy & Metrology

Credits: 2

This course emphasizes the basics of metallurgy and metrology. The properties of iron and metals, testing and heat treating of metals, steel designations, and cast iron as well as non-ferrous metals are examined. Through the integration of mathematic skills, students will demonstrate the use of semi-precision measuring tools such as steel rules and screw thread gauges, as well as precision measuring instruments such as micrometers, go/no go plug gauges, go/no go thread gauges and assorted calipers.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

462-309 Lathe Fabrication Processes

Credits: 3

This course emphasizes the basics of lathe fabrication processes that are common to the industrial maintenance field. Students will practice the basics of metal turning techniques. Students will engage in the basic use of lathes, associated processes, while adhering to related safety standards as well as demonstrating the ability to work with lathe tools, and addressing maintenance issues.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

462-311 Fluid Systems

Credits: 4

Students in this course will investigate the theory of fluid power. Common fluid principles will be analyzed and the basic system of the hydraulic unit will be the focus. Students will explore the theory of fluid pumping applications common in industry. While incorporating troubleshooting techniques, maintenance, filtration and safety procedures, students will be able to perform the construction of fluid systems including the basic plumbing, layout, cutting, threading, and installation of systems.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

462-312 Pneumatic Systems

Credits: 3

This course is designed to inform students of the basics of pneumatics, while analyzing the advantages, disadvantages and inherent problems of this system. While incorporating safety principles, students will analyze the various parts of a pneumatic circuit for their use, which includes: examining the main parts of a pneumatic system, evaluating the characteristics of physical laws that apply to pneumatics, summarizing the laws governing pneumatics, identifying air conditioning and distribution equipment, adjusting pressure regulators to specified pressure, evaluating the characteristics and terms of pressure drop versus flow relationship, as well as the characteristics and terms of vacuum generation. Pneumatic safety principles will be introduced.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

462-313 Facility Prints

Credits: 3

This course focuses on basic facility print reading fundamentals, and students will engage in understanding, interpreting, and utilizing architectural drawings and symbols. Students will visualize facility structures and interpret elevations, plan views, details, and sections from drawings as well as interpreting building specifications. This course will emphasize students' ability to analyze and interpret facility prints.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

462-314 Maintenance Management

Credits: 2

Students in this course will engage in basic maintenance management and customer service skills. The basic principles of maintenance management and quality control are explored and practiced by students. Students will perform the duties of maintenance record keeping, ordering parts, shop operation, and customer service principles for both internal and external customers.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

462-316 Conveyor Systems**Credits:** 3

In this course, students examine multiple facets of different conveyor systems, including the screw, flat belt, and roller conveyor. While incorporating conveyor safety procedures, students will investigate the different systems used to make up an effective belt conveyor and be able to apply standard applications, preventive maintenance, and repair principles.

Aid Code: 32 - Two-year Technical Diploma.[Complete Course Listing](#)**462-317 Basic Welding for Industrial Maintenance****Credits:** 3

This course is designed to acquire the skills needed to perform routine welding repairs in the maintenance profession. Safety procedures, layout and measuring, oxy-acetylene welding, oxy-acetylene brazing and cutting, shielded metal arc welding (SMAW), and gas metal arc welding (GMAW) will be explored and practiced.

Aid Code: 32 - Two-year Technical Diploma.[Complete Course Listing](#)**462-318 Mechanical Power Transmission Systems****Credits:** 3

This course is designed to engage students in the applications of gears, belts bearings, chain drives, and lubrication processes used in industry. Students will interpret the basic industry standard principles of operation, installation, preventive maintenance, and repair procedures of these components. Industry safety procedures will be examined and practiced throughout the course.

Aid Code: 32 - Two-year Technical Diploma.[Complete Course Listing](#)**462-319 Valves, Gaskets, Seals****Credits:** 1

Students will examine and practice standard procedures related to installing, maintaining, and replacing valves, gaskets, and seals in industry applications. Students will be able to perform these procedures while adhering to industry safety standards.

Aid Code: 32 - Two-year Technical Diploma.[Complete Course Listing](#)**462-321 Machine Setup and Installation****Credits:** 3

This course is designed to examine standard applications of rigging, machine leveling, alignment of shafts, couplings, bearings, and machines which are common to industry. Students will be able to perform several leveling and alignment procedures and the common components used to lift and move machinery and equipment while practicing standard safety procedures.

Aid Code: 32 - Two-year Technical Diploma.[Complete Course Listing](#)**462-322 Human Relations in the Industrial Setting****Credits:** 2

This course is designed to give students insight into how an individual's behaviors and abilities affect their relationships with others at work and with customers. Areas stressed include presenting a professional image in seeking employment, developing a positive work attitude, reliability on the job and an awareness of personal adjustments needed to succeed in the workplace. During this course, students will engage in an internship opportunity on or off campus.

Aid Code: 32 - Two-year Technical Diploma.[Complete Course Listing](#)

IT Application Development&Web (152)

Information provided includes course descriptions by subject only.**For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).****152-119 Introduction to Programming with JavaScript****Credits:** 3

Teaches the basic concepts of programming using the JavaScript language. Topics include: embedding JavaScript in HTML, event-driven programming techniques, program control logic, pseudocode, and an introduction to object-oriented programming.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (631-111)[Complete Course Listing](#)**152-133 Advanced Systems Documentation****Credits:** 2

This lecture/lab course will focus on technical writing and documentation skills. Hands-on work will include writing and editing business letters and memos, persuasive documents, technical reports and html documentation. The course will culminate in a short research paper and oral presentation.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (150-120) and (801-195 or 801-136 or Test Waived-College Degree)[Complete Course Listing](#)**152-139 Current Issues and Trends in Information Technology****Credits:** 3

Current Issues & Trends is a course designed to cover a "hot" computer area. Possible topics include: advanced applications; object orientated programming; computer security, computer ethics; and Internet programming.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)

152-142 Introduction to .NET Programming

Credits: 3

This lecture/lab course uses the Visual Basic .NET (VB.NET) and/or C# programming language to teach problem-solving principles and demonstrates how to apply said principles in the development of algorithms designed to solve typical business problems. Structured programming (sequence, selection, and iteration) utilizing pseudocode is covered in detail. Introductions to database concepts, database design, and object-oriented programming (OOP) are also given. 152-119 Learning to Program with Java Script is a recommended pre requisite.

Aid Code: 10 - Associate Degree.

Pre-requisites: (152-119) and (152-157) and (152-163)

[Complete Course Listing](#)

152-143 Introduction to Java Programming

Credits: 3

Introduction to Java Programming introduces programming and object-oriented design concepts using the Java programming language. Students examine Java programming basics and use a text editor in a development environment. Design concepts and programming tools will be integrated with an emphasis on practical business solutions.

Aid Code: 10 - Associate Degree.

Pre-requisites: 152-119

[Complete Course Listing](#)

152-145 Advanced Java Programming

Credits: 3

This course is a continuation of Introduction to Java Programming. Students will further analyze inheritance, exception handling, files, database access, advanced GUI applications and array lists.

Aid Code: 10 - Associate Degree.

Pre-requisites: 152-143

[Complete Course Listing](#)

152-147 Relational Database Development

Credits: 3

Relational Database Development is a lecture/lab class split into two parts: 1) A general overview of database theory, including: relational database management systems (RDBMSs) and normalization. 2) The fundamentals of the structured query language (SQL) data definition language (DDL) and data manipulation language (DML) commands, utilizing client/server based database software. For IT-Web Analyst/ Programmer students, 152-163 (Relational Database Design) is a recommended pre req for this course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (152-163) and (804-133)

[Complete Course Listing](#)

152-148 Relational Database Coding

Credits: 3

Students will engage in hands-on training, utilizing a relational database management system (e.g., MySQL) in a client/server web based environment which uses PHP on the server side. Students will analyze advanced structured query language (SQL) commands and concepts, and web site development utilizing the PHP programming language.

Aid Code: 10 - Associate Degree.

Pre-requisites: (152-157) and (152-182)

[Complete Course Listing](#)

152-149 Secure Coding

Credits: 3

Secure coding involves concepts such as: 1) The validation of computer program input. 2) The heeding of computer compiler warnings. 3) The internal and external sanitization of any and all computer program data. 4) The adherence to the principle of least privilege. 5) The adoption of a secure coding standard. The Secure Coding course will teach students how to adhere to practices such as these and others to build secure code from the onset of an information technology project.

Aid Code: 10 - Associate Degree.

Pre-requisites: (152-148) and (152-158) and (152-161)

[Complete Course Listing](#)

152-150 Systems Analysis and Design

Credits: 3

Systems Analysis & Design is a lecture/lab course for second year students, intended to introduce the concepts involved in a small-to-medium sized information systems project from inception to implementation. Traditional analysis and design methodologies as well as object-oriented methodologies will be covered. Throughout the life cycle of the analysis and design process, Microsoft Project will be used. Students will use Microsoft Visio as a tool to diagram various components of the system during the analysis phase. Additional concepts covered will be verbal and written communication with users and team members, professional behavior, professional attire, problem identification, and problem solving. Systems Analysis and Design will draw on knowledge obtained from previous classes, and require the student to synthesize and apply that knowledge.

Aid Code: 10 - Associate Degree.

Pre-requisites: (150-127)

[Complete Course Listing](#)

152-153 Mobile Web App Development - iPhone

Credits: 3

Students in this course will analyze the basics of creating Mobile Web applications for an iPad/iPhone. The basics of the Objective-C language are presented, and students will engage in building an actual working iPhone/iPad application.

Aid Code: 10 - Associate Degree.

Pre-requisites: (152-148) and (152-158) and (152-161) and (152-145)

[Complete Course Listing](#)

152-156 Mobile Web App Development - Android

Credits: 3

This course examines the basics of creating Mobile Web applications for an Android phone. The associated android basic programming constructs defined, using the Java programming language. Students will build an actual working Android application.

Aid Code: 10 - Associate Degree.

Pre-requisites: (152-148) and (152-158) and (152-145)

[Complete Course Listing](#)

152-157 Website Development-XHTML/CSS**Credits:** 3

Website Development - XHTML/CSS is a beginning class in client-side Web development. Topics covered include: The fundamentals of the Hypertext Markup Language (HTML) and XHTML, Cascading Style Sheets (CSS), an introduction to JavaScript.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (631-111)

Complete Course Listing

152-158 Advanced Website Development**Credits:** 3

In this course, students will engage in the development of client-side web sites using frameworks such as Bootstrap to simplify development, allow development of responsive web sites, and greatly increase the appeal and functionality of the site. Students will analyze other concepts which include Content Management systems, such as Git and Github.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (152-182)

Complete Course Listing

152-161 Web Application Development Using ASP.NET**Credits:** 3

Students develop Microsoft ASP.NET applications that deliver dynamic content to the Web. An emphasis is placed on server-side programming and the role ASP.NET plays. As part of this course, students create Web forms with server controls, display dynamic data from a database using Microsoft ADO.NET, read XML configuration files and learn to debug ASP.NET web pages.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (152-147) and (152-167)

Complete Course Listing

152-163 Relational Database Design**Credits:** 3

Relational database design is a beginning course in database concepts and design, utilizing Microsoft Access. Students will design, normalize and develop a database and program the associated interface in a realistic environment.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (631-111)

Complete Course Listing

152-164 Design and Implementation Projects**Credits:** 3

This capstone course is designed to have the student utilize all concepts learned in this program in a real world application setting. Students work with a team to develop an integrated Information Solution for a large scale project. Students will be involved in defining their own skills in both technical and cooperative team interaction areas.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (152-161) and (152-148) and (152-145)

Complete Course Listing

152-167 AJAX and JavaScript Website Development**Credits:** 3

Students in this course are introduced to the basics of DHTML, JavaScript, and the XMLHttpRequest call. Students create web sites using JavaScript and AJAX to enable them to be responsive and feature-rich.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (152-157) and (152-163)

Complete Course Listing

152-178**Credits:** 1

This advanced level course will focus on the most recent developments to markup basics and explore it's uses.

Aid Code: 10 - Associate Degree.**Co-requisites:** (152-196)

Complete Course Listing

152-181 Supervisory Occupational Experience-Web Analyst**Credits:** 2

Micro Programmer Internship prepares student for the transition from the classroom to the work place. Students will be employed in actual jobs in their field. They will use this opportunity to apply learned concepts and skills in practical situations and acquire the knowledge and experience of current techniques, methods, and theories in a data processing environment. The intern's progress will be monitored and evaluated by the sponsoring employer and a BTC Internship Advisor. The desired outcome of the course is to qualify the student for eventual employment in an entry-level IT position.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 152-150

Complete Course Listing

152-182 Web Analyst Field Study**Credits:** 1

The Web Analyst Field Study is a course designed to equip the student with the skills necessary to plan and execute an active job search. Topics covered include: resumes; personal data files; letters of application; and interviewing techniques. Students will prepare a strategy for finding and obtaining a position that best fits their goals and interests. Students will also cover the organization of a typical data processing department.

Aid Code: 10 - Associate Degree.**Co-requisites:** (152-147) and (152-142) and (152-137)

Complete Course Listing

152-191 Secure e-Commerce Concepts**Credits:** 3

This course is a review of Internet/Worldwide Web/e-Commerce concepts, including Internet development, internetworking principles, Internet services, Web programming, site administration, and business and security concepts, including both human and technological factors.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-192 Designing Secure Websites

Credits: 3

This course is designed to educate students about the security issues of the Worldwide Web, Web servers and Web applications. The learner will be introduced to client and server-side security principles and programming. At course completion, the student will be able to define, design and implement a secure Web site. Successful completion of 152-191 "Secure e-Commerce Concepts" is highly recommended prior to this course.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

152-193 Client/Server Systems Security

Credits: 3

This course provides an overview of the most critical topic in the Information Assurance arena: secure data exchange between internetworked systems. Topics include client/server security system design concepts; developing a database security and audit plan; system design and development; user-, group-, and application-level permissions; data integrity enhancement and maintenance; and the role of the database administrator. A methodology for anticipating, detecting, reacting to, and response to network attacks will be a significant part of the course material.

Aid Code: 10 - Associate Degree.

Pre-requisites: (150-151 and (152-143

Co-requisites: 150-151) or 152-143)

[Complete Course Listing](#)

152-195

Credits: 1

Students will analyze the foundation of web pages - markup languages. Students analyze the basics of how web browsers read markup language to display web pages. Students will organize text and add images or videos to create useful and engaging web pages.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

152-196

Credits: 1

This course is a continuation of 152-195 Markup Basics and will focus on how to create interactive web pages, showcase tabular data effectively, and use markup code to make content more accessible.

Aid Code: 10 - Associate Degree.

Co-requisites: 152-195

[Complete Course Listing](#)

152-197 Design Basics for Front End Development 1

Credits: 1

This course will analyze the elements of good design while also learning the basics of design and style coding. Students will use scripting to add color and background images and stylize fonts.

Aid Code: 10 - Associate Degree.

Co-requisites: 152-196

[Complete Course Listing](#)

152-198 Design Basics for Front End Development 2

Credits: 1

This course will further analyze design elements of web pages and evaluate more advanced level layout creation and customization with scripting.

Aid Code: 10 - Associate Degree.

Co-requisites: 152-197

[Complete Course Listing](#)

152-199 Fundamentals of High-Level Scripting

Credits: 1

Student apply the basics of high-level scripting in this course that covers syntax, variables, conditionals and functions, along with a focus on scripting for the web with Javascript.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

152-200 Design Basics for Front End Development 3

Credits: 1

Students will investigate advanced scripting techniques related to CSS. They will analyze updates to current standards, and develop skills in actively staying connected with new versions of software standards.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

152-201 Programming Language History and Exploration

Credits: 1

Students will examine the history of programming languages. They will analyze the standards of basic programming language, learn the standards for a simple programming language, and put those skills to use in writing simple programs.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

152-202 Intermediate High-Level Scripting

Credits: 1

This course provides an overview and analysis of the JavaScript application architecture and student analyze solutions like jquery, Node, Javascript with HTML5, authentication, authorization, and modern JS Libraries.

Aid Code: 10 - Associate Degree.

Co-requisites: 152-199

[Complete Course Listing](#)

152-205 Advanced High-Level Scripting

Credits: 1

This course provides students with an advanced understanding of the core mechanics of how JavaScript compiles, optimizes, and executes in the browser, enabling students to better analyze Javascript security concerns like XSS (cross site scripting) and CSRF (cross site request forgery).

Aid Code: 10 - Associate Degree.

Co-requisites: 152-202

[Complete Course Listing](#)

152-206**Credits: 1**

This course gives students a beginning knowledge base in database concepts and design. Students will design and then develop a database in a virtual environment.

Aid Code: 10 - Associate Degree.**Co-requisites:** 152-196

Complete Course Listing

152-207 Relational Database Development**Credits: 1**

This course evaluates the fundamentals of the structured query language (SQL) data definition language (DDL) and data manipulation language (DML) commands, utilizing open source database software.

Aid Code: 10 - Associate Degree.**Co-requisites:** 152-206

Complete Course Listing

152-208**Credits: 1**

In this continued exploration of server-side site development, the student will connect to a database on a virtual server and allow a client application to read, write and update the database. Students will also develop skills in analyzing and evaluating how web server cookies function.

Aid Code: 10 - Associate Degree.**Co-requisites:** 152-207

Complete Course Listing

152-209 Web Server Basics**Credits: 1**

In this course, students will prepare an environment for, and then install and configure, an open source web server.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-210**Credits: 1**

In this course, students will configure their server and install services to use for projects during the remainder of the semester. Students will also use DNS to connect a URL to the virtual server space they've created.

Aid Code: 10 - Associate Degree.**Co-requisites:** 152-209

Complete Course Listing

152-211 Project & Framework Management 1**Credits: 1**

In this course, students will evaluate various tools used in web development to plan, organize, and execute digital projects. Storyboarding, wireframes, and usability testing will be demonstrated.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-212 Project & Framework Management 2**Credits: 1**

In this course, students will continue their knowledge and use of tools for managing and streamlining digital projects, analyzing which tools are best suited for various situations.

Aid Code: 10 - Associate Degree.**Co-requisites:** 152-211

Complete Course Listing

152-213**Credits: 1**

This course has the students explore the basics of software version control (SVC), including process management. Students will evaluate a brief history of SVC and analyze the fundamental concepts of check-in/checkout, forking, merging, commits, and distribution.

Aid Code: 10 - Associate Degree.**Co-requisites:** 152-212

Complete Course Listing

152-214**Credits: 1**

In this course, students will evaluate and apply software version control systems to complete various sophisticated tasks.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-215 Content Management Systems 1**Credits: 1**

This course will review the many available options for content management systems, both proprietary and open source. Students will evaluate the options for systems and identify the best solution for different scenarios.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-216 Content management systems 2**Credits: 1**

In this course, students will install and configure an open source content management system, along with user training and roll out.

Aid Code: 10 - Associate Degree.**Co-requisites:** 152-215

Complete Course Listing

152-218 Search Engine Optimization 1**Credits: 1**

In this course, student will identify what search engine optimization (SEO) is and why its an important skill for front end developers to possess. Students will analyze free and paid keyword search tools, identify keywords rank, and generate a keyword plan.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-222**Credits: 1**

Student will develop the skills and knowledge they need to code with front end framework.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-223

Credits: 1

Students in this course identify and apply learning of how mobile technology works, including tools for development, specifications, and implementation.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-224

Credits: 1

In this course, students will identify a problem that can be solved by technology and research the options for solving the problem using a specified programming language or web tool.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-225

Credits: 1

Students in this course identify and apply the foundations of programming on the LAMP stack (Linux, Apache, MySQL, and PHP), from a general overview of a server-side programming language..

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-226

Credits: 1

In this course, students will create dynamic, data driven websites using the LAMP stack (Linux, Apache, MySQL, and PHP).

Aid Code: 10 - Associate Degree.

Co-requisites: 152-225

Complete Course Listing

152-227

Credits: 1

Students analyze server side programming, including functions, debugging and logging, functions, extensions, and application repositories.

Aid Code: 10 - Associate Degree.

Co-requisites: 152-226

Complete Course Listing

152-228

Credits: 1

Students examine the uses of social media and the tools that are available to manage it. Students integrate social media and respective tools with web sites.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-229

Credits: 1

Students explore and analyze options in social media for advertising, including creating ads and identifying audiences.

Aid Code: 10 - Associate Degree.

Co-requisites: 152-228

Complete Course Listing

152-230

Credits: 1

In this course, students explore open Application Programming Interfaces (APIs) within social media software and build a functioning program that connects to a social media platform.

Aid Code: 10 - Associate Degree.

Co-requisites: 152-229

Complete Course Listing

152-231

Credits: 1

Students analyze the mobile first responsive design method, outlining the basics of creating web sites that are functional cross platform.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-232

Credits: 1

Students create responsive components within web pages including mobile web forms and breakpoints.

Aid Code: 10 - Associate Degree.

Co-requisites: 152-231

Complete Course Listing

152-233 Responsive Design for Accessibility

Credits: 1

Students examine the meaning of accessibility and how it applies to the web sites. Students will learn strategies for how to make web sites accessible and usable for a wide variety of audiences.

Aid Code: 10 - Associate Degree.

Co-requisites: 152-232

Complete Course Listing

152-234 Resume and Portfolio Development for Web Developers

Credits: 1

Students review the body of work they've completed during their time in the program and use this review to develop a full portfolio website. From this website portfolio review, students will also engage in resume writing and employment readiness skills.

Aid Code: 10 - Associate Degree.

Complete Course Listing

152-235 Emerging Technologies Capstone

Credits: 3

In this capstone course, students will use the skills learned in the program to identify a digital solution to a complex problem. They will then outline the problem, find a solution, present their findings for peer review and collaboration.

Aid Code: 10 - Associate Degree.

Co-requisites: 152-224

Complete Course Listing

152-236 Intro to Web Programming**Credits:** 1

Designed for students with little or no prior programming experience, this course introduces the fundamental concepts of object oriented programming. Students engage in topics which include integers, strings, and variables, and objects. Students will analyze the core elements of programs, run them at the command line, spend some time debugging, and create a simple program of their own.

Aid Code: 10 - Associate Degree.

Complete Course Listing

IT-Microcomputer Specialist (154)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

154-113 Desktop and Server Hardware**Credits:** 3

This is a lecture/hands-on course designed to teach students desktop and server hardware fundamentals. Topics include: hardware identification and specifications, basic desktop/server setup, installation of desktop/server operating systems, manual installation of driver software, and desktop/server hardware installation and troubleshooting.

Aid Code: 10 - Associate Degree.

Complete Course Listing

154-121 Information Technology Helpdesk and Customer Service**Credits:** 3

This course will explore the fundamentals of customer service required in order to successfully satisfy customer technology needs. Topics included in this course will be techniques for positive communication, effective listening skills, dealing with difficult customers as well as developing proficiency in time and stress management. Troubleshooting hardware, software, and basic networking problems will also be a focus of this course.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (154-120) and (150-130) and (154-113)

Complete Course Listing

IT-Networking & Info Security (150)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

150-113 Computer Forensics**Credits:** 3

This is a lecture/hands-on course designed to teach students desktop and server hardware fundamentals. Topics include: hardware identification and specifications, basic desktop/server setup, installation of desktop/server operating systems, manual installation of driver software, and desktop/server hardware installation and troubleshooting.

Aid Code: 10 - Associate Degree.

Complete Course Listing

150-117 Local Area Network Switching and Wireless**Credits:** 3

LAN Switching and Wireless is a lecture/lab course in which students build multi-platform and multi-protocol networks. Topics include: IPv6, installation and configuration of VLANs, multi-layer switches, routers, interior gateway routing protocols, and enterprise wireless solutions.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 150-131

Complete Course Listing

150-118 Server and Data Center Virtualization**Credits:** 3

Server and Data Center Virtualization is a lecture/lab course that will introduce advanced topics in server virtualization and SANs. Students will configure vNetwork standard switches, install and configure VMWare ESXi, manage shared storage, deploy virtual servers in an enterprise environment. They will also engage in the back up, recovery, and migration of virtual machines.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (150-127)**Co-requisites:** (150-128)

Complete Course Listing

150-120 Configuring Desktop Operating Systems**Credits:** 3

Configuring Desktop Operating Systems is a lecture/hands-on course designed to teach the configuration of desktop operating systems. Topics include operating system installation and troubleshooting, configuration, sharing and file system permissions, and users, groups, profiles, and policies. An introduction to the use of VMware Workstation is also provided to enable students further practice with operating system configurations learned in class.

Aid Code: 10 - Associate Degree.

Complete Course Listing

150-127 Introduction to Enterprise Virtualization**Credits:** 3

This lecture/hands-on course concentrates on using Enterprise Virtualization and administering Network Operating Systems such as Windows Server. Topics include: enterprise virtualization, server administration, network administrator responsibilities, login security, file system security and design, Active Directory, user administration and client installation, configuration, troubleshooting, and print management.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 150-120

Complete Course Listing

150-128 Windows Enterprise Server Administration**Credits:** 3

Windows Enterprise Server Administration is a lecture/lab course designed to introduce advanced Windows Server administration. The student will learn GPOs, Active Directory Design, DFS, Terminal Services, CA configuration, IIS, VPNs, DHCP, DNS, software deployment, PowerShell, and utilities like NTDSutil.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (150-127)**Co-requisites:** (150-118)

Complete Course Listing

150-130 Introduction to Enterprise Networks

Credits: 3

Intro to Enterprise Networks is a lecture/hands-on lab course designed to introduce students to configuring protocols and devices needed for network communication. Topics covered include: OSI Reference Model; LAN/WAN topologies; cabling systems; access methods; protocols; ip addressing; introduction to various network clients; use of network devices (switches, routers); fundamentals of network design; and basic troubleshooting tools.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

150-131 Routers and Routing Protocols

Credits: 3

Routers and Routing Protocols is a lecture/lab course that is designed to introduce the student to routing and switching infrastructures, basic Cisco router and switch configurations, troubleshooting methodologies, OSI 7 layer concepts, integration of basic network components, and integration of desktop and server-based operating systems with infrastructure in an enterprise network.

Aid Code: 10 - Associate Degree.

Pre-requisites: (150-130) and (150-146)

[Complete Course Listing](#)

150-132 IT-Project Management

Credits: 3

This is a capstone project course, for second year students, that culminates the experience of the two-year program. The focus will be an integration of all of the networking skills acquired throughout the program with hands-on applications including problem-solving, troubleshooting, and technical documentation. Network troubleshooting, server design, network analysis, network design, security, recovery models, project management, network planning, and business models relating to computer networking and IT will be stressed.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

150-133 Network Security

Credits: 3

This course introduces learners to the fundamentals of network security. The course covers various topical areas involved in network security, including security topology, intrusion detection, device configurations, access lists, authentication, and encryption. Different methods of attacks, such as viruses, Trojan horses, and worms are also reviewed. This course also introduces wireless security concepts.

Aid Code: 10 - Associate Degree.

Pre-requisites: (150-130) and (150-151)

[Complete Course Listing](#)

150-134 Internetwork Security

Credits: 3

This course covers how to secure internetworked information systems (i.e., those connected by hubs, switches, routers, etc.), including defense against methods used by hackers to enter dedicated systems. Topics covered include confidentiality, integrity and reliability; user and group authentication; authorization and accounting; encryption replication; and security enhancement features.

Aid Code: 10 - Associate Degree.

Pre-requisites: (150-133) and (150-135)

[Complete Course Listing](#)

150-135 Operating Systems Security

Credits: 3

Students will cover the essentials of securing popular operating workstations and networks. Topics include authentication, group security, remote access security, security file resources, Internet Protocol security, and more. Active Directory and similar topics are also covered.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

150-136 Perimeter Security

Credits: 3

This course covers internetworked systems security management and configuration, integrated system security software, configuring network access servers for enhanced security, and an understanding of systems security support and management. Students will learn how to use Active Director, or a similar service, to create and maintain secure perimeters within a network.

Aid Code: 10 - Associate Degree.

Pre-requisites: 150-134

[Complete Course Listing](#)

150-139 Current Issues in Networking

Credits: 3

Current Issues & Trends is a course designed to cover a "hot" computer area. Possible topics include: advanced applications; object orientated programming; computer security; computer ethics; and Internet programming.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

150-140 Data and Control Structures

Credits: 3

Data and Control Structures is a lecture/hands-on course designed to teach students to think the way that the computer thinks and how data is stored and retrieved. Topics include: structured programming (i.e. sequence, selection, and iteration), database design, query building, form design, and report design.

Aid Code: 10 - Associate Degree.

Pre-requisites: 150-120

[Complete Course Listing](#)

150-141 Linux**Credits:** 3

Linux is a lecture/hands on course designed to teach basic Linux commands and system administration. Linux desktop operating system installation, users, groups and file security will be examined. Linux server installation, configuration, troubleshooting and security topics will also be addressed.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 150-127

Complete Course Listing

150-142 Advanced Local Area Network/Wide Area Network Topics**Credits:** 3

Advanced LAN/WAN Topics is a lecture/lab course. Topics include configuring and troubleshooting WAN protocols, BGP, QoS, HSRP, Secure Routing, RADIUS and TACACs Servers, VPNs, Firewalls, and Access-Lists.

Aid Code: 10 - Associate Degree.

Complete Course Listing

150-143 Exchange and SQL Server**Credits:** 3

Exchange and SQL Server is a lecture/hands-on course that is designed to introduce the student to Microsoft Exchange Server and Microsoft SQL Server Administration. Topics include: SQL Server installation, Exchange Server installation, Exchange and SQL configuration, managing the directory, managing distribution lists, managing information stores, writing advanced SQL queries, database design, normalization, and backing up and restoring Exchange and SQL Servers.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 150-128

Complete Course Listing

150-144 Introduction to Enterprise Networks-1**Credits:** 1

Intro to Enterprise Networks-1 is designed to introduce students to basic network concepts. Topics covered include basic terminology, the OSI Reference Model, network protocols, and an introduction to network device configuration.

Aid Code: 10 - Associate Degree.

Complete Course Listing

150-145 Introduction to Enterprise Networks-2**Credits:** 1

Intro to Enterprise Networks-2 is designed to introduce students to media types, network access methods, LAN/WAN topologies, and the basic function of routers and routing protocols.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (150-144)

Complete Course Listing

150-146 Introduction to Enterprise Networks-3**Credits:** 1

Intro to Enterprise Networks-3 is designed to cover the basics of IP addressing, the fundamentals of network design, and basic network troubleshooting techniques.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (150-145)

Complete Course Listing

150-151 Information Security Principles**Credits:** 3

This course will explore Information Security Principles as they relate to managing a computer network and securing business resources. Common threats to data confidentiality, integrity and availability will be discussed along with appropriate countermeasures.

Aid Code: 10 - Associate Degree.

Complete Course Listing

150-152 Information Systems Security Practicum**Credits:** 3

Students will typically work in the field, with an external enterprise, to learn how to develop a security vision statement, write simple but effective security guidelines, policies, and procedures that protect information, people, and property, and comply with legal and other requirements. Students will evaluate information and systems, assign ownership and responsibilities, and develop appropriate documentation.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (150-151) and (801-195 or 801-136)

Complete Course Listing

150-153 Information Systems Security Management**Credits:** 3

Students will learn how to establish well-structured documentation systems for information security of both sanctioned and unsanctioned activities, including those reports required by law. They will learn to write technical guidelines and technical descriptions, and develop checklists. Students will also document the application of patches and configuration changes. A resume and portfolio, which is a culmination of all information security coursework, will be compiled.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (150-152) and (809-166)

Complete Course Listing

150-154 Information Systems Security Measures**Credits:** 3

IS Security Measures is a lecture/lab course. The course covers topics such as system identification, authentication, auditing and monitoring for compromise, reducing attack surfaces, limiting privileged access, keeping systems updated, identifying critical assets and prioritizing their security monitoring. Other topics to be explored are implementation and configuration management, reviewing compliance regularly, evaluating settings with each new hardware or software version, and securing Active Directory domain controllers.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (150-117) and (150-128) and (150-133)

Complete Course Listing

150-155 Current Issues and Trends in Information Assurance

Credits: 3

Disaster Recovery Planning is the current issues seminar topic and others are being planned. This seminar-format course is designed to cover "hot" topics in Information Assurance technology. Course emphasizes various current or emerging conditions/problems and possible responses/solutions to them. Topics change based on emerging current issues and potential future topics may include: Advanced OS Security; Introduction to Cryptography; Emerging Technologies, etc.

Aid Code: 10 - Associate Degree.

Pre-requisites: 150-151

[Complete Course Listing](#)

150-156 Network Forensics

Credits: 3

This course will cover both advanced endpoint forensics (i.e. as a continuation of 150-113) and network forensics. Students will learn how to capture and analyze data from a network interface, as well as where and how to preserve it. The topic of eDiscovery, as a new discipline, will also be examined.

Aid Code: 10 - Associate Degree.

Pre-requisites: 150-113

[Complete Course Listing](#)

150-157 IT Project Management 1

Credits: 1

In this course students will explore fundamental concepts and principles of project management, such as project life cycles, knowledge areas, and the fundamental documents used in planning and executing projects.

Aid Code: 10 - Associate Degree.

Co-requisites: 631-141

[Complete Course Listing](#)

150-158 IT Project Management 2

Credits: 1

In this course students will begin to apply project management principles in information technology settings. Students will practice identifying risks and managing costs and communications in projects.

Aid Code: 10 - Associate Degree.

Co-requisites: (150-157)

[Complete Course Listing](#)

150-159 IT Project Management 3

Credits: 1

In this course students will explore more advanced topics in project management such as quality assurance, transitioning and closing projects, and procurement.

Aid Code: 10 - Associate Degree.

Co-requisites: (150-158)

[Complete Course Listing](#)

150-169 Introduction to Enterprise Virtualization 1

Credits: 1

In this course students will practice the fundamentals of working with virtual machines, including the creation of new virtual machines, modifying virtual machines, and working with virtualization software tools.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

150-170 Introduction to Enterprise Virtualization 2

Credits: 1

In this course students will practice more advanced processes related to virtualization, such as creating group and audit policies and remotely managing servers.

Aid Code: 10 - Associate Degree.

Co-requisites: (150-169)

[Complete Course Listing](#)

150-171 Introduction to Enterprise Virtualization 3

Credits: 1

In this course students will build and test a virtual environment that incorporates components addressed in earlier Enterprise Virtualization courses.

Aid Code: 10 - Associate Degree.

Co-requisites: (150-170)

[Complete Course Listing](#)

150-181 Supervised Occupational Experience-Network Specialist

Credits: 2

Supervised Occupational Experience - Networking is a course that prepares the student for the transition from the classroom to the work place. Students will be employed in actual jobs in their field. They will use this opportunity to apply learned concepts and skills in practical situations and acquire the knowledge and experience of current techniques, methods, and theories in a data processing environment. The intern's progress will be monitored and evaluated by the sponsoring employer and a BTC internship advisor. The desired outcome of the course is to qualify the student for eventual employment in an entry-level IT position.

Aid Code: 10 - Associate Degree.

Pre-requisites: 152-150

[Complete Course Listing](#)

150-182 Information Technology Career Preparation

Credits: 1

This is a course designed to prepare second year students with the skills necessary to plan and execute an active job search. Topics covered include: resumes; personal data files; letters of application; and interviewing techniques. Students will prepare a strategy for finding and obtaining a position that best fits their goals and interests.

Aid Code: 10 - Associate Degree.

Pre-requisites: (150-117) and (150-128) and (152-150)

[Complete Course Listing](#)

150-183 Windows Enterprise Server Administration 1**Credits:** 1

In this course students will explore concepts and principles of advanced Active Directory Administration. Students will have the opportunity to design and create a directory structure based on a given scenario, as well as utilize Active Directory and command line utilities.

Aid Code: 10 - Associate Degree.

Complete Course Listing

150-184 Windows Enterprise Server Administration 2**Credits:** 1

In this course students will practice creating industry-standard technical documentation and user group policy, as it pertains to Active Directory administration. Students will also practice creating an AD replication plan.

Aid Code: 10 - Associate Degree.

Complete Course Listing

150-185 Windows Enterprise Server Administration 3**Credits:** 1

In this course students will practice and demonstrate their ability to manage storage and file services, as well as manage file server roles and features.

Aid Code: 10 - Associate Degree.

Complete Course Listing

150-186 LAN Switching & Wireless 1**Credits:** 1

In this course students will explore concepts and principles of wireless fundamentals. Students will identify various network standards and related certifications. Students will also identify components of wireless infrastructure and client devices used in wireless networking.

Aid Code: 10 - Associate Degree.**Co-requisites:** (150-185)

Complete Course Listing

150-187 LAN Switching & Wireless 2**Credits:** 1

In this course students will explore antenna technology, communication, and security fundamentals for wireless networking.

Aid Code: 10 - Associate Degree.**Co-requisites:** (150-186)

Complete Course Listing

150-188 LAN Switching & Wireless 3**Credits:** 1

In this course students will practice design for wireless networks, as well as installing, configuring, and troubleshooting a wireless network.

Aid Code: 10 - Associate Degree.**Co-requisites:** (150-187)

Complete Course Listing

150-189 System Analysis & Design 1**Credits:** 1

In this course students will explore concepts involved in a small-to-medium sized information systems project from inception to implementation. Students will practice using Microsoft Project.

Aid Code: 10 - Associate Degree.

Complete Course Listing

150-190 System Analysis & Design 2**Credits:** 1

In this course students will examine and compare traditional analysis and design methodologies as well as object-oriented methodologies.

Aid Code: 10 - Associate Degree.**Co-requisites:** (150-189)

Complete Course Listing

150-191 System Analysis & Design 3**Credits:** 1

In this course students will practice using Microsoft Visio to diagram various components of systems as part of systems analysis. Students will also practice verbal and written communication processes in support of users and team members.

Aid Code: 10 - Associate Degree.**Co-requisites:** (150-190)

Complete Course Listing

150-192 Server & Data Center Virtualization 1**Credits:** 1

In this course students will explore fundamental concepts of virtualization software. Students will practice planning for, installing, and configuring this software.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (150-191)

Complete Course Listing

150-193 Server & Data Center Virtualization 2**Credits:** 1

In this course students will configure standard switches, install and configure virtualization software, manage shared storage, and deploy virtual servers in an enterprise environment.

Aid Code: 10 - Associate Degree.**Co-requisites:** (150-192)

Complete Course Listing

150-194 Server & Data Center Virtualization 3**Credits:** 1

In this course students will engage in the back up, recovery, and migration of virtual machines.

Aid Code: 10 - Associate Degree.**Co-requisites:** (150-193)

Complete Course Listing

150-195 Advanced LAN/WAN Topics 1

Credits: 1

In this course students will practice configuring WAN protocols, setting up a server in an enterprise environment, and installing and configuring BGP.

Aid Code: 10 - Associate Degree.

Co-requisites: (150-194)

Complete Course Listing

150-196 Advanced LAN/WAN Topics 2

Credits: 1

In this course students will practice configuring QoS in an enterprise environment, designing and IP installation and migration, and implementing secure routing updates.

Aid Code: 10 - Associate Degree.

Co-requisites: (150-195)

Complete Course Listing

150-197 Advanced LAN/WAN Topics 3

Credits: 1

In this course students will practice installing an enterprise level firewall, setting up VPN, and implementing VLAN in an enterprise network. Students will also practice creating documentation for these procedures.

Aid Code: 10 - Associate Degree.

Co-requisites: (150-196)

Complete Course Listing

Laboratory Assistant (513)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).

513-109 Blood Bank

Credits: 4

This course focuses on blood banking concepts and procedures including blood typing, compatibility testing, work ups for adverse reaction to transfusions, disease states and donor activities.

Aid Code: 10 - Associate Degree.

Pre-requisites: (513-110 or 506-101) and (513-115)

Complete Course Listing

513-110 Basic Laboratory Skills

Credits: 1

This course explores health career options and the fundamental principles and procedures performed in the clinical laboratory. You will utilize medical terminology and basic laboratory equipment. You will follow required safety and infection control procedures and perform simple laboratory tests.

Aid Code: 10 - Associate Degree.

Pre-requisites: (804-107 or 804-134 or 804-118)

Co-requisites: (513-113)

Complete Course Listing

513-111 Phlebotomy

Credits: 2

This course provides opportunities for learners to perform routine venipuncture, routine capillary puncture and special collection procedures.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Medical Laboratory Technician Program.

Pre-requisites: (Background Check, P or Background Check, N) and (513-113)

Co-requisites: (806-177)

Complete Course Listing

513-113 Quality Assurance Laboratory Math

Credits: 1

This course focuses on performing the mathematical calculations routinely used in laboratory settings. You will explore the concepts of quality control and quality assurance in the laboratory.

Aid Code: 10 - Associate Degree.

Complete Course Listing

513-114 Urinalysis

Credits: 2

This course prepares you to perform a complete urinalysis which includes physical, chemical and microscopic analysis. You will explore renal physiology and correlate urinalysis results with clinical conditions.

Aid Code: 10 - Associate Degree.

Pre-requisites: (513-110 or 506-101)

Complete Course Listing

513-115 Basic Immunology Concepts

Credits: 2

This course provides an overview of the immune system including laboratory testing methods for diagnosis of immune system disorders, viral and bacterial infections.

Aid Code: 10 - Associate Degree.

Pre-requisites: (Background Check, P or Background Check, N) and (513-113) or 506-101)

Co-requisites: (513-110 and (806-177 or 806-197)

Complete Course Listing

513-116 Principles of Phlebotomy**Credits:** 3

Principles of Phlebotomy prepares the learner to function as a member of the healthcare delivery team, performing the role of a phlebotomist. The Phlebotomist generally works in a clinical laboratory under the supervision of the appropriate professional. He/She is responsible for collection procedures in both outpatient clinical and hospital inpatient settings for the purpose of laboratory analysis, including emergency and routine collection procedures from veins and skin punctures areas on patients of all age groups. Specimen integrity is emphasized as dependent on collection procedures, proper choice of equipment and knowledge of patient variables. Positive patient identification protocol is an absolute requirement which is stressed throughout as well as transport and processing of specimens. This theory course is designed to prepare the student to enter the laboratory/practicum experience of the program.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Phlebotomy Technician Program.**Pre-requisites:** (Background Check, P or Background Check, N)**Co-requisites:** (501-101)

Complete Course Listing

513-120 Basic Hematology**Credits:** 3

This course covers the theory and principles of blood cell production and function, and introduces you to basic practices and procedures in the hematology laboratory.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (513-110 or 506-101)

Complete Course Listing

513-121 Coagulation**Credits:** 1

This course introduces the theory and principles of coagulation and explores mechanisms involved in coagulation disorders. Emphasis is placed upon laboratory techniques used to diagnose disease and monitor treatment.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (513-110 or 506-101)**Co-requisites:** (513-120)

Complete Course Listing

513-130 Advanced Hematology**Credits:** 2

This course explores mechanisms involved in the development of hematological disorders. Emphasis is placed upon laboratory techniques used to diagnose disorders and monitor treatment.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 513-120

Complete Course Listing

513-133 Clinical Microbiology**Credits:** 4

This course presents the clinical importance of infectious diseases with emphasis upon the appropriate collection, handling and identification of clinically relevant bacteria. Disease states, modes of transmission and methods of prevention and control, including antibiotic susceptibility testing, will also be discussed.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 806-197

Complete Course Listing

513-134 Clinical Chemistry**Credits:** 4

Introduces clinical chemistry techniques and procedures for routine analysis using photometric, potentiometric and separation techniques. Topics in this course include pathophysiology and methodologies for carbohydrate, lipids, proteins, renal function and blood gas analysis.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (513-110) and (806-177) and (806-199)

Complete Course Listing

513-140 Advanced Microbiology**Credits:** 2

This course provides an overview of acid fast organisms, fungi, parasites, and anaerobic bacteria. The organisms, their pathophysiology, epidemiology, the diseases and conditions that they cause, laboratory methods of handling, culturing and identification will be discussed.

Aid Code: 10 - Associate Degree.**Co-requisites:** 513-133

Complete Course Listing

513-147 Phlebotomy Practicum**Credits:** 4

Phlebotomy Practicum prepares the learner to function as a staff member in a medical laboratory setting performing venipuncture and other specimen collection procedures on actual patients. Students learn how to process and handle laboratory specimens as well as learning how to function in a busy medical laboratory environment.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Phlebotomy Technician Program.**Pre-requisites:** 513-116

Complete Course Listing

513-151 Clinical Experience 1**Credits:** 3

In this clinical you will practice the principles and procedures of laboratory medicine as an entry level Clinical Laboratory Technician in a clinical laboratory setting. You will learn to operate state of the art instruments and report results on Laboratory Information Systems.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (513-114) and (513-130) and (513-134) and (513-133)**Co-requisites:** (513-140)

Complete Course Listing

513-152 Clinical Experience 2

Credits: 4

Provides continuing practice for the principles and procedures of laboratory medicine as an entry level Clinical Laboratory Technician in a clinical laboratory setting. You will learn to operate state of the art instruments and report results on Laboratory Informations Systems.

Aid Code: 10 - Associate Degree.

Pre-requisites: (513-114) and (513-130) and (513-134) and (513-170) and (513-133)

Co-requisites: (513-140)

[Complete Course Listing](#)

513-153 Clinical Portfolio

Credits: 1

Students prepare a portfolio of professional experiences, assessments and evaluations, clinical reports, class project summaries, a log of community service or professional activities performed while in the MLT program and resume for MLT employment.

Aid Code: 10 - Associate Degree.

Co-requisites: (513-151) and (513-152)

[Complete Course Listing](#)

513-170 Introduction to Molecular Diagnostics

Credits: 2

The course will focus on normal flow of genetic information within the cell, as well as nucleic acid packaging and modification. Learners will analyze DNA and RNA structure and function. Basic genetic inheritance will be examined as well. Learners demonstrate isolation, amplification, and sequencing reactions in the lab. Learners use molecular techniques in the identification of microorganisms and the characterization of specific gene loci.

Aid Code: 10 - Associate Degree.

Pre-requisites: (806-199) and (806-197)

[Complete Course Listing](#)

513-445

Credits: 5.6

CLT/MLT Exam Review will prepare the recent CLT/MLT graduates and others wishing to prepare for the national certification exam. The course will include practice exam questions and activities designed to prepare students for the exam.

Aid Code: 47 - Occupational Adult.

Mathematics (804)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

804-107 College Mathematics

Credits: 3

This course is designed to review and develop fundamental concepts of mathematics pertinent to the areas of: 1) arithmetic and algebra; 2) geometry and trigonometry; and 3) probability and statistics. Special emphasis is placed on problem solving, critical thinking and logical reasoning, making connections, and using calculators. Topics include performing arithmetic operations and simplifying algebraic expressions, solving linear equations and inequalities in one variable, solving proportions and incorporating percent applications, manipulating formulas, solving and graphing systems of linear equations and inequalities in two variables, finding areas and volumes of geometric figures, applying similar and congruent triangles, converting measurements within and between U.S. and metric systems, applying Pythagorean Theorem, solving right and oblique triangles, calculating probabilities, organizing data and interpreting charts, calculating central and spread measures, and summarizing and analyzing data.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Numerical Skills, 40 or COMPASS Pre-Algebra Skills, 044 or ACT Math, 17 or Test Waived-College Degree or 834-109 or 834-109) or (AccuPlacer Arithmetic, 089 or (AccuPlacer Arithmetic, 065 and AccuPlacer Elem Algebra, 030))

[Complete Course Listing](#)

804-113 College Technical Mathematics 1A

Credits: 3

Topics include: solving linear, quadratic, and rational equations: graphing; formula rearrangement; solving systems of equations; percent; proportions; and operations on polynomials. Emphasis will be on the applications of skills to technical problems. Successful completion of College Technical Mathematics 1A and College Technical Mathematics 1B is the equivalent of College Technical Mathematics 1.

Aid Code: 10 - Associate Degree.

Pre-requisites: (804-110 or 834-110) and (ASSET Numerical Skills, 45 or Compass Algebra, 046 or ACT Math, 20 or SAT Mathematics, 390) or (AccuPlacer Arithmetic, 089 and AccuPlacer Elem Algebra, 050) or (Next Gen AccuPlacer Arithmetic, 272 and Next Gen AccuPlacer QRAS, 243)

[Complete Course Listing](#)

804-114 College Technical Mathematics 1B**Credits:** 2

This course is a continuation of College Technical Mathematics 1A. Topics include: measurement systems; computational geometry; right and oblique triangle trigonometry; and trigonometric functions on the unit circle. Emphasis will be on the application of skills to technical problems. Successful completion of or concurrent enrollment in College Technical Mathematics 1A is required for course enrollment. Successful completion of College Technical Mathematics 1A and College Technical Mathematics 1B is the equivalent of College Technical Mathematics 1.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 804-113

Complete Course Listing

804-115 College Technical Mathematics 1**Credits:** 5

Topics include: solving linear, quadratic, and rational equations; graphing; formula rearrangement; solving systems of equations; percent; proportions; measurement systems; computational geometry; right and oblique triangle trigonometry; trigonometric functions on the unit circle; and operations on polynomials. Emphasis will be on the application of skills to technical problems.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (ASSET Numerical Skills, 45 or Compass Algebra, 046 or Next Gen AccuPlacer Arithmetic, 272) and (Next Gen AccuPlacer QRAS, 243) or (ACT Math, 20 or 804-110 or 834-110 or (AccuPlacer Arithmetic, 089 and AccuPlacer Elem Algebra, 50))

Complete Course Listing

804-118 Intermediate Algebra with Applications**Credits:** 4

This course offers algebra content with applications. Topics include properties of real numbers, order of operations, algebraic solution for linear equations and inequalities, operations with polynomial and rational expressions, operations with rational exponents and radicals, algebra of inverse, logarithmic and exponential functions.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (ASSET Numerical Skills, 45 or Compass Algebra, 046 or ACT Math, 20 or 804-110 or 834-110 or AccuPlacer Arithmetic, 089 and AccuPlacer Elem Algebra, 050) or (Next Gen AccuPlacer Arithmetic, 272 and Next Gen AccuPlacer QRAS, 243)

Complete Course Listing

804-123 Math with Business Applications**Credits:** 3

This course covers...real numbers, basic operations, linear equations, proportions with one variable, percents, simple interest, compound interest, annuity, apply math concepts to the purchasing/buying process, apply math concepts to the selling process, and basic statistics with business/consumer applications.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Test Waived-College Degree or 809-198 or 809-199 or 838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198) and (ASSET Numerical Skills, 40 or COMPASS Pre-Algebra Skills, 044 or ACT Math, 17 or Test Waived-College Degree or 834-109 or 834-109) or (AccuPlacer Arithmetic, 089 or AccuPlacer Arithmetic, 065 and AccuPlacer Elem Algebra, 030) or (Next Gen AccuPlacer Arithmetic, 272) or (Next Gen AccuPlacer Arithmetic, 257 and Next Gen AccuPlacer QRAS, 210)

Complete Course Listing

804-133 Math and Logic**Credits:** 3

Students will apply mathematical problem solving techniques. Topics will include symbolic logic, sets, algebra, Boolean algebra, and number bases.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (ASSET Numerical Skills, 40 or COMPASS Pre-Algebra Skills, 044 or ACT Math, 17 or AccuPlacer Arithmetic, 089 or Test Waived-College Degree) or (AccuPlacer Arithmetic, 065 and AccuPlacer Elem Algebra, 030) and (COMPASS Reading Skills, 073) or (ACT Reading, 16 or ASSET Reading Skills, 39 or SAT Reading, 330 or 838-104 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Test Waived-College Degree) or (838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or ASSET Reading Skills, 55 or Next Gen AccuPlacer Reading, 236)**Co-requisites:** (838-104)

Complete Course Listing

804-134 Mathematical Reasoning**Credits:** 3

All college students, regardless of their college major, need to be able to make reasonable decisions about fiscal, environmental, and health issues that require quantitative reasoning skills. An activity based approach is used to explore numerical relationships, graphs, proportional relationships, algebraic reasoning, and problem solving using linear, exponential and other mathematical models. Students will develop conceptual and procedural tools that support the use of key mathematical concepts in a variety of contexts.

Aid Code: 10 - Associate Degree.

Complete Course Listing

804-189 Introductory Statistics

Credits: 3

Students taking Introductory Statistics display data with graphs, describe distributions with numbers perform correlation and regression analyses, and design experiments. They use probability and distributions to make predictions, estimate parameters, and test hypotheses. They draw inferences about relationships including ANOVA.

Aid Code: 10 - Associate Degree.

Pre-requisites: (804-106 or 804-107 or 804-118 or 804-110 or 834-110) and (ASSET Numerical Skills, 45 or Compass Algebra, 046 or ACT Math, 20 or SAT Mathematics, 390) or (AccuPlacer Arithmetic, 089 and AccuPlacer Elem Algebra, 050) or (Next Gen AccuPlacer Arithmetic, 272 and Next Gen AccuPlacer QRAS, 243)

[Complete Course Listing](#)

804-195 College Algebra w Apps

Credits: 3

This course covers those skills needed for success in Calculus and many application areas on a baccalaureate level. Topics include the real and complex number systems, polynomials, exponents, radicals, solving equations and inequalities (linear and nonlinear), relations and functions, systems of equations and inequalities (linear and nonlinear), matrices, graphing, conic sections, sequences and series, combinatorics, and the binomial theorem.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

804-196 Trigonometry w Apps

Credits: 3

Topics include circular functions, graphing of trigonometry functions, identities, equations, trigonometric functions of angles, inverse functions, solutions of triangles complex numbers, DeMoivre's Theorem, polar coordinates, and vectors.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Numerical Skills, 49 or Compass Algebra, 066 or ACT Math, 23 or 804-110)

[Complete Course Listing](#)

804-197 College Algebra and Trigonometry with Applications

Credits: 5

This course covers those skills needed for success in Calculus and many application areas on a baccalaureate level. Topics include the real and complex number systems, polynomials, exponents, radicals, solving equations and inequalities (linear and nonlinear), relations and functions, systems of equations and inequalities (linear and nonlinear), matrices, graphing, conic sections, sequences and series, combinatorics, and the binomial theorem.

Aid Code: 10 - Associate Degree.

Pre-requisites: (804-118) or (ACT Math, 22) or (Next Gen AccuPlacer Arithmetic, 276) or (AccuPlacer Arithmetic, 85)

[Complete Course Listing](#)

804-198 Calculus 1

Credits: 4

Analyze and graph algebraic expressions, especially conic sections. Develop an intuitive understanding of limits, derivatives and integrals. Apply the derivative and the integral to certain physical problems.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

804-304 Mathematic Fundamentals

Credits: 2

This course consists of instructional units that incorporate hands on activities and projects. It is intended to give students a review of the basic principles of arithmetic, including whole numbers, fractions, and decimals. Estimation of length, angles and mathematical results is also covered. Additional topics include ratios, proportions, powers, analyzing graphs and an introduction to algebra. Proper calculator usage will be discussed throughout the course.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (ASSET Numerical Skills, 35 or COMPASS Pre-Algebra Skills, 025 or ACT Math, 15 or AccuPlacer Arithmetic, 050 or Test Waived-College Degree or 854-781 or 854-781 or 854-782 or 854-782 or 854-783 or 854-783 or 854-784 or 854-784 or 854-785 or 854-785 or 854-786 or 854-786 or 854-787 or 854-787)

[Complete Course Listing](#)

804-306 Shop Mathematics I

Credits: 2

This course includes the basic principles of arithmetic beginning with whole numbers and common fractions, and continuing through decimals, percentages, ratios, proportions and averages, and measurements. These principles are applied to typical shop problems throughout the course.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (ASSET Numerical Skills, 35 or COMPASS Pre-Algebra Skills, 025 or ACT Math, 15 or AccuPlacer Arithmetic, 050 or Test Waived-College Degree or Next Gen AccuPlacer Arithmetic, 250)

[Complete Course Listing](#)

804-308 Shop Mathematics II

Credits: 2

This course is a continuation of Shop Mathematics I and includes the study of the properties of circles, volumes and surface areas of various solids, an introduction to practical algebra and trigonometric principles used in solving right triangles as well as applications of the sine and cosine law in solving oblique triangles.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: 804-306

[Complete Course Listing](#)

804-501 Math For Plumbing Appr

Credits: 1

Aid Code: 50 - Apprentice.

[Complete Course Listing](#)

Mathematics (854)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

854-713 BSE Mathematics 1**Credits:** 3

Develops number concepts, mathematical language and whole number topics. This level introduces fractions, decimals, measurements and geometric shapes. Students use critical thinking skills to problem solve, perform computations, estimate results, interpret and develop data, work with appropriate technology and apply mathematics to real-world situations.

Aid Code: 73 - Beg ABE (0-5.9).**Pre-requisites:** (GED/ESL/BS Course Approval)

Complete Course Listing

854-764 Math 2 GED Review**Credits:** 3

This course develops math skills needed for the Mathematical Reasoning GED test at the pre-GED level. This course reviews whole numbers and develops fractions, decimals, measurements, mathematical language, percents, ratios, and proportions. This level may introduce basic algebra and geometry concepts. *Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.*

Aid Code: 74 - Interm ABE (6.0-8.9).**Pre-requisites:** (GED/ESL/BS Course Approval)

Complete Course Listing

854-765 BSE Certified Nursing Assistant Mathematics**Credits:** 2

This course will provide instruction in math skills needed to be successful in the Certified Nursing Assistant Program.

Aid Code: 74 - Interm ABE (6.0-8.9).

Complete Course Listing

854-772 Math 3 GED Review**Credits:** 3

This course reviews whole numbers and develops fractions, decimals, measurements, mathematical language, percents, ratios, and proportions. It includes an introduction to algebra and geometry and provides more higher level thinking and problem solving skills needed for the Mathematical Reasoning GED test. It may also develop math skills needed for the Social Studies and Science GED tests. *Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.*

Aid Code: 76 - HS Dip, GED, HSED (9.0-12.9).**Pre-requisites:** (GED/ESL/BS Course Approval)

Complete Course Listing

854-778 BSE Mathematics 3, Nursing Mathematics**Credits:** 2

Designed for students entering the Associate Degree Nursing program. Topics will include decimals, fractions, percents, metric measurements, conversions, concentrations, significant figures, scientific notation, working with formulas, and solving for the unknown. Special emphasis will be placed on preparing for the math tests required by the ADN program. This course does NOT satisfy the Program Ready requirement for the ADN program. *Credits earned in this course will not be counted toward the number of credits needed for any degree.*

Aid Code: 77 - ASE Developmental.

Complete Course Listing

854-802 Math Foundations**Credits:** 1

A small group and individualized instruction course that helps students develop precollege math skills. Emphasizes number operations needed to define and solve algebra and geometry problems and mathematical learning strategies. Must be taken concurrently with Pre-Algebra.

Aid Code: 77 - ASE Developmental.**Pre-requisites:** (COMPASS Pre-Algebra Skills, 17 or ACT Math, 12 or SAT Mathematics, 230 or AccuPlacer Arithmetic, 20 or Next Gen AccuPlacer Arithmetic, 200)

Complete Course Listing

854-805 Math Studio**Credits:** 1

Highly interactive format providing small group and individualized mathematics instruction that helps students develop mathematical skills and strategies for succeeding in college-level math. Must be taken concurrently with Mathematical Reasoning.

Aid Code: 77 - ASE Developmental.**Pre-requisites:** 854 781 or COMPASS Pre-Algebra Skills, 025 or ACT Reading, 15 or SAT Reading, 340 or AccuPlacer Arithmetic, 050 or Next Gen AccuPlacer Arithmetic, 243

Complete Course Listing

Mechanical Drafting (421)

Information provided includes course descriptions by subject only.**For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).****421-380 Blueprint Reading(Welding)****Credits:** 2

This course is designed to help the student acquire the ability to visualize spatial relationships between two and three view drawings. Introduction to machine and welding terminology and concepts is acquired by reading a series of prints. A study of welding symbols is covered. The course emphasizes training in visualization and factual information as a means of gaining a working knowledge of the interpretation of prints related to the welding or fabrication industry.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Welding Program.**Co-requisites:** 804-306

Complete Course Listing

421-385 Blueprint Reading

Credits: 2

Blueprint reading is really learning a new language where much of it is presented in graphic or symbolic form. Students will learn about different types of drawings, proper drawing structure, and drawing terminology. They will learn to produce simple sketches and visualize two and three-dimensional parts. The experienced machine operator must be able to decipher blueprints in order to produce parts to proper specification.

Aid Code: 31 - One-year Technical Diploma.

Complete Course Listing

421-390 Blueprint Reading Maintenance

Credits: 3

This course focuses on reading and interpreting blueprints, drawings and graphic symbols used in industry. Students will gain experience in the ability to visualize spatial relationships between single and multiple-view drawings. Time is spent interpreting actual blueprints. Students will be able to interpret a variety of prints such as machining, mechanical, or assembly prints.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to 314622 Program.

Complete Course Listing

Mechanical Technology (606)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).

606-116 Program(s)

Credits: 3

In this course students will conduct load and stress analysis in the design of a machine. Students will learn about machine elements such as gears, bearings, and shafts and will incorporate these components in a machine design of their own.

Aid Code: 10 - Associate Degree.

Complete Course Listing

606-119 Introduction to SolidWorks

Credits: 3

Introduction to SolidWorks is intended to introduce the student to the concepts and commands of parametric solid modeling. Students create sketches and add relationships to the sketch segments, extrude the sketches to create models, add features such as fillets, cut/extrude, chamfers, holes, draft, shell, lofts and sweeps. Emphasis is placed on the design intent of parametric solid models. In addition, students extract 2D documentation from the 3D models and add details to the drawings.

Aid Code: 10 - Associate Degree.

Pre-requisites: 606-127

Complete Course Listing

606-120 Strength of Materials

Credits: 3

A study is made of the behavior of machine parts and structural members that are in service. Various types of loads and the effects of those loads are examined. Failure modes are examined and calculated to assure proper machine design and function.

Aid Code: 10 - Associate Degree.

Pre-requisites: 804-114

Complete Course Listing

606-123 Interpreting Engineering Graphics

Credits: 2

This is a course designed to introduce the student to the concepts, equipment and tools associated with Mechanical Drafting. The course is a precursor to more advanced subject matter discussed in later program classes.

Aid Code: 10 - Associate Degree.

Complete Course Listing

606-124 Orthographic Projection

Credits: 3

ANSI Standards, as related to drafting, are introduced. The principles for orthographic projection and techniques for layout of multi-view drawings are introduced. Subject areas include ANSI regulations/standards, primary planes of projection and applied orthographic projection. Dimensioning basics are covered.

Aid Code: 10 - Associate Degree.

Complete Course Listing

606-125 Drafting Representations

Credits: 2

Internal features expressed through sections and drafting conventions are examined. Auxiliary, successive auxiliary, revolution and applied descriptive geometry are used extensively in the course. A brief introduction to pictorials is covered.

Aid Code: 10 - Associate Degree.

Pre-requisites: (606-124) and (606-127)

Complete Course Listing

606-126 Fasteners and Processes

Credits: 3

An in-depth look at threaded fasteners and screw thread systems is taken. Working strength of various threads to assess mode of failure as well as specific stress and strain calculations are discussed. Welding terminology and symbology are introduced.

Aid Code: 10 - Associate Degree.

Pre-requisites: (606-124) and (606-127)

Complete Course Listing

606-127 Two-Dimensional Computer Aided Drafting (CAD)

Credits: 3

All aspects of two-dimensional computer aided drafting are explored. This is a foundation for more advanced editing and dimensioning as well as three-dimensional computer aided renderings.

Aid Code: 10 - Associate Degree.

Complete Course Listing

606-128 Three-Dimensional Computer Aided Drafting (CAD)**Credits:** 3

This is a hands-on drawing course in the latest Mechanical Design nuance known as 3-D drafting. The student will learn time saving techniques for constructing solid models for use in the industrial design field.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (606-124) and (606-127)

Complete Course Listing

606-129 Kinematics**Credits:** 3

The student takes an in-depth look at the study of motion as related to machines and the design and selection of belts, gears, cams and eccentrics. Linear and rotational motion is discussed as well as specific displacement. Also discussed are bearings and clutches/brakes.

Aid Code: 10 - Associate Degree.

Complete Course Listing

606-130 Actuators**Credits:** 3

In this course, the basics of creating movement through the use of electricity, electric motors, hydraulics and pneumatics are discussed. This course is intended to give the student a basic understanding of the various machine design applications he/she may encounter in industry.

Aid Code: 10 - Associate Degree.

Complete Course Listing

606-131 Geometric Dimensioning and Tolerancing**Credits:** 2

GD&T introduces the student to the differences between conventional tolerancing and geometrical tolerancing. An emphasis is put on interpretation and application of the proper GD&T symbology given the function of the part and according to ANSI Standards.

Aid Code: 10 - Associate Degree.

Complete Course Listing

606-132 Design Applications**Credits:** 2

A culmination of the total program is reached in this course. Multiple projects are assigned to strengthen the student's ability to perform in the design field. This course allows the student to be creative in their design selection, and to defend/explain the selection based on necessary criteria.

Aid Code: 10 - Associate Degree.

Complete Course Listing

606-133 Descriptive Geometry**Credits:** 2

Descriptive Geometry is designed to broaden the applicable knowledge of different techniques employed in the graphical solution of problems involving spatial relationships between points, lines, planes and solids. Within the course, special consideration is given to the techniques of rotation, auxiliary and surface development, as well as surface classification in the practical application of trade problems. The student learns when to use the most appropriate technique, given a specific problem, as well as alternate techniques to solve for the same problem.

Aid Code: 10 - Associate Degree.

Complete Course Listing

606-152 Engineering Graphics - Parametric Modeling**Credits:** 3

In this course solid modeling CAD software is utilized to design parts, assemblies, and blueprints to allow for effective communication between stake holders. Drafting methods are a focus to provide for efficient and flexible design, manufacturability, and quick turnaround. Finite element analysis will also be introduced to aid in design integrity, performance, and reliability.

Aid Code: 10 - Associate Degree.**Co-requisites:** (606-176)

Complete Course Listing

606-155 Statics & Dynamics 1**Credits:** 1

Students analyze and operate simple machines such as levers and pulleys, as well as gears and linkages. Students will be introduced to force calculations for trusses and frames, and free body diagrams.

Aid Code: 10 - Associate Degree.**Co-requisites:** (804-197)

Complete Course Listing

606-156 Statics & Dynamics 2**Credits:** 1

Students will examine kinematic analysis of rigid bodies, force-acceleration analysis, and work-energy analysis.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (804-197)**Co-requisites:** (606-155)

Complete Course Listing

606-157 Statics & Dynamics 3**Credits:** 1

Students will be examine impulse momentum analysis, impact, and forced vibrations.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (804-197)**Co-requisites:** (606-156)

Complete Course Listing

606-176

Credits: 1

Students use the basics of 3-D modeling software to create parts, assemblies and drawings that are in typical use in industry. Students also apply effective technical communication skills.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

606-310 GD&T Interpretations

Credits: 1

In this course students will practice the use of Geometric Dimensioning and Tolerancing as it pertains to mechanical specifications and relationships in technical drawings. Students will practice interpretation of these symbols, as well as basic inspection methodologies.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

606-311 Basic CAD - Solidworks and AutoCAD

Credits: 1

In this course students will demonstrate the use of CAD software to create blueprints for the manufacturing sector. SolidWorks and AutoCad will be used.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (422-312 or 422-117)

[Complete Course Listing](#)

606-312 Intermediate CAD - Solidworks and AutoCAD

Credits: 1

In this course students will demonstrate the use of CAD software to create complex blueprints for the manufacturing sector. SolidWorks and AutoCAD will be used.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (606-311 or 606-172)

[Complete Course Listing](#)

606-400

Credits: 3

This course is designed to provide participants with an understanding of three dimensional CAD engineering software technology.

Aid Code: 47 - Occupational Adult.

[Complete Course Listing](#)

606-480 CAD Fundamentals - 2D Drawing

Credits: 1

In this course students will demonstrate the use of CAD software to create blueprints for the manufacturing sector.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

Medical Administrative Coder (160)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

160-103 Medical Transcription

Credits: 4

This course provides the student with instruction using audio equipment and medically oriented materials. Emphasis is placed on developing the ability to use references to produce accurate, correctly formatted medical reports in an efficient manner, using correct spelling, punctuation, proofreading, and grammar. Medical report style and format are reviewed. The student will produce various medical and surgical reports representative of those typed in hospitals and clinics using a word processing program. Students should also have a strong background in grammar, punctuation, medical terminology, and medical document formatting.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-105 or 160-105) and (106-118 or 160-118)

[Complete Course Listing](#)

160-105 Medical Editing and the Electronic Medical Record

Credits: 3

The emphasis of this course is on the creation and editing of medically oriented documents. The AHDI Book of Style will be used during a module that will include an introduction to transcription. Analysis and summarization of medical records will be covered. Students will edit speech recognition files and transcribe dictated recordings. Work will be done to improve keyboard speed and accuracy through the use of timed writings.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Medical Admin Specialist, Medical Administrative Coder Programs.

Pre-requisites: (106-120 or 160-120 or 501-101) and (106-127) and (106-185 or 160-185)

[Complete Course Listing](#)

160-109 Medical Office Administration

Credits: 3

In this capstone course, second-year students demonstrate knowledge of skill learned in the Medical Administrative Coder program through the simulation, discussion, research, and teamwork. Units of instruction will also include career development, and professionalism in the health care setting. Students will create a resume package, develop interview skills through mock interview experiences, and create a professional portfolio.

Aid Code: 10 - Associate Degree.

Pre-requisites: (806-194 or 806-177) and (106-118 or 160-118) and (106-120 or 160-120 or 501-101)

[Complete Course Listing](#)

160-113 Health Insurance**Credits:** 3

The student will gain knowledge and practical skill development in the health care insurance area. This course provides an introduction to health insurance including understanding private and governmental payers, specific health insurance terminology and its meaning, understanding the role of medical coding in the billing of third-party payers for services and procedures received by the patient, linking of codes on the claim form demonstrating medical necessity, privacy and HIPAA, and effectively using technology and resources for problem solving. Student will apply third-party payer (private and governmental) rules when completing CMS-1500 claim forms. The student will also be able to better understand his/her personal insurance coverage.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Writing Skills, 44 or COMPASS Writing Skills, 070 or ACT English, 18 or AccuPlacer Sentence Skills, 083 or Test Waived-College Degree or 831-103 or 831-103 or 801-136 or 801-195) and (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Test Waived-College Degree or 838-104 or 838-104 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

[Complete Course Listing](#)**160-114 Healthcare Records Management****Credits:** 3

This course covers the systematic control of information in each phase of the record life cycle: creation, distribution, use, maintenance, and disposition. Topics will include systems of filing and storage (general and medical specific); organizing, managing, and controlling the system; potential careers; and trends in technology. Ethical/legal issues in the healthcare field will be addressed. Information on the EHR/EMR (electronic health record/electronic medical record) will also be covered. Simulations will provide hands-on experience with major filing classification systems in both paper and computer database (EHR) formats. Touch keyboarding and basic computers skills are necessary for this course.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-127)[Complete Course Listing](#)**160-118 Pharmacology for Medical Administrative Coder****Credits:** 2

Pharmacology for MAC (Medical Administrative Coder) will provide an introduction to the use of pharmacology terminology and context. Included is information on medication actions, dosage forms, routes of administration, and drug uses. Students will research and create presentations on the pathophysiology of the human body in conjunction with treatments used to combat various diseases and conditions. Emphasis is on the terminology necessary for medical reports used in transcription and coding.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-120 or 160-120 or 501-101) and (806-194 or 806-177)[Complete Course Listing](#)**160-120 Medical Terminology for Coding****Credits:** 3

This course provides a combination of the study of medical vocabulary and the application of that vocabulary in an office setting. Students will learn the pronunciation, spelling, definition, and correct usage of medical terms used in a variety of healthcare office applications, with an emphasis on terminology necessary for medical reports used in transcription and coding. Students will also learn how to divide medical words into their component parts: the root word, the suffix, the prefix, and the combining form.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Writing Skills, 44 or COMPASS Writing Skills, 070 or ACT English, 18 or AccuPlacer Sentence Skills, 083 or Test Waived-College Degree or 831-103 or 831-103 or 801-195 or 801-136) and (AccuPlacer Reading Comp, 076 or COMPASS Reading Skills, 073 or ACT Math, 16 or ASSET Reading Skills, 39 or Test Waived-College Degree or 838-104 or 838-104 or 801-195 or 801-196 or 801-198 or 804-123 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

[Complete Course Listing](#)**160-124 Supervised Occupational Experience-Medical Office****Credits:** 1

In this course, students apply and interview for medical office internship placements. Once selected, the student will apply the knowledge and skills obtained in the classroom to the work environment.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-114 or 160-114) and (106-136 or 160-136) and (106-185 or 160-185) and (530-102 or 530-150)

[Complete Course Listing](#)**160-136 Patient Billing and Reimbursement****Credits:** 4

This course emphasizes the accurate processing and trending of health insurance claims, the modifications in state and federal regulations affecting the health insurance industry, private, government, and workers' compensation payer requirements, and abstracting data from source documents. Students will research and analyze topics such as HIPAA privacy standards, HITECH security rule, Conditions of Participation, fraud and abuse, False Claims Act, Stark Law, Truth in Lending Act, and Quality Payment Program.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-113) and (106-120 or 501-101)[Complete Course Listing](#)

160-139

Credits: 3

This course provides an introduction to ICD-10-PCS, which is the inpatient coding system. Learners will construct procedure codes from the 17 sections of the ICD-10-PCS coding manual using a three- to seven-digit alphanumeric code to specify medical procedures. Students will be able to abstract data from the hospital records and use critical thinking skills to correctly select the PCS codes to enter in the appropriate forms (UB-04 and/or CMS1500 Form).

Aid Code: 10 - Associate Degree.

Pre-requisites: (530-150)

Complete Course Listing

160-185 Medical Microsoft Office Suites

Credits: 3

Students will learn to use word processing software to create, format, and edit medical documents. Course includes the development of proofreading skills for identifying and correcting punctuation, grammar, spelling, and usage errors. Work will also be done to improve speed and accuracy through the use of timed writings.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-127) and (Typing Score, 30)

Complete Course Listing

Medical Assistant (509)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

509-101 Medical Assistant Admin Procedures

Credits: 2

Introduces medical assistant students to office management, business administration, and the electronic medical record (EMR) in the medical office. Students learn to schedule appointments, perform filing, record keeping, telephone and reception duties, communicate effectively with patients and other medical office staff, and keep an inventory of supplies.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Medical Assistant Program.

Pre-requisites: (Background Check, P or Background Check, N)

Co-requisites: (501-101) and (501-107) and (801-136 or 801-195) and (509-102) and (509-109) and (509-303) and (509-304)

Complete Course Listing

509-102 Human Body in Health & Disease

Credits: 3

Students learn to recognize human body structure and function in health and disease states. Students explore the causes, signs, and symptoms of diseases of the major body systems as well as the diagnostic procedures, usual treatment, prognosis, and prevention of diseases commonly diagnosed and treated in the medical office setting.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Medical Assistant Program.

Pre-requisites: (Background Check, P or Background Check, N)

Co-requisites: (501-101) and (509-101) and (509-303) and (509-304) and (509-109) and (501-107) and (801-136 or 801-195)

Complete Course Listing

509-107 Med Office Insurance and Finance

Credits: 2

Introduces Medical Assistant students to health insurance and finance in the medical office. Students perform bookkeeping procedures, apply managed care guidelines, and complete insurance claim forms. Students use medical coding and managed care terminology to perform insurance-related duties.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Medical Assistant Program.

Pre-requisites: (501-101) and (501-107) and (509-101) and (509-102) and (801-136 or 801-195) and (509-303) and (509-304)

Complete Course Listing

509-109 Medical Law, Ethics and Professionalism

Credits: 2

Prepares students to display professionalism and perform within ethical and legal boundaries in the health care setting. Students maintain confidentiality, examine legal aspects of the medical record, perform quality improvement procedures, examine legal and bioethical issues, and demonstrate awareness of diversity.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Medical Assistant Program.

Co-requisites: (501-101) and (501-107) and (509-101) and (509-102) and (509-303) and (509-304) and (801-136 or 801-195)

Complete Course Listing

509-111 Pharmacology for Allied Health

Credits: 2

Introduces students to medication classification, basic pharmacology principles, and supplements. Students apply basic pharmacodynamics to identify common medications and calculate dosages in preparation for medication administration.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Medical Assistant Program.

Pre-requisites: (501-101) and (501-107) and (509-301) and (509-302) and (509-303) and (509-304) and (801-136 or 801-195)

Complete Course Listing

509-301 Medical Assistant Admin Procedures**Credits:** 2

Introduces medical assistant students to office management, business administration, and the electronic medical record (EMR) in the medical office. Students learn to schedule appointments, perform filing, record keeping, telephone and reception duties, communicate effectively with patients and other medical office staff, and keep an inventory of supplies.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Medical Assistant Program.**Co-requisites:** (501-107) and (501-101) and (509-302) and (509-303) and (509-304) and (501-104) and (509-309)

Complete Course Listing

509-302 Human Body in Health & Disease**Credits:** 3

Students learn to recognize human body structure and function in health and disease states. Students explore the causes, signs, and symptoms of diseases of the major body systems as well as the diagnostic procedures, usual treatment, prognosis, and prevention of diseases commonly diagnosed and treated in the medical office setting.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Medical Assistant Program.**Co-requisites:** (501-101) and (509-301) and (509-303) and (509-304) and (501-104) and (501-107) and (509-309)

Complete Course Listing

509-303 Medical Asst Lab Procedures 1**Credits:** 2

Introduces medical assistant students to laboratory procedures commonly performed by medical assistants in a medical office setting. Students perform CLIA waived routine laboratory procedures commonly performed in the ambulatory care setting. Students follow laboratory safety requirements and federal regulations while performing specimen collection and processing, microbiology and urinalysis testing.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Medical Assistant Program.**Pre-requisites:** (501-101) and (501-107) and (501-104 or 801-136 or 801-195)**Co-requisites:** (509-301) and (509-302) and (509-304) and (509-309)

Complete Course Listing

509-304 Medical Asst Clin Procedures 1**Credits:** 4

Introduces medical assistant students to the clinical procedures performed in the medical office setting. Students perform basic examining room skills including screening, vital signs, patient history, minor surgery and patient preparation for routine and specialty exams in the ambulatory care setting. Learner explores communication principles and psychology theories related to patient care.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Medical Assistant Program.**Pre-requisites:** (501-101) and (501-107) and (501-104 or 801-195 or 801-136) and (Background Check, P or Background Check, N)**Co-requisites:** (509-303)

Complete Course Listing

509-305 Medical Asst Lab Procedures 2**Credits:** 2

Prepares students to perform phlebotomy and Clinical Laboratory Improvement Amendment (CLIA) waived hematology, chemistry, immunology and laboratory procedures commonly performed by medical assistants in the ambulatory care setting.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Medical Assistant Program.**Pre-requisites:** (501-101) and (801-195) and (501-107) and (509-301) and (509-302) and (509-303) and (509-304)**Co-requisites:** (509-306) and (509-307) and (509-308) and (509-309) and (509-310)

Complete Course Listing

509-306 Medical Asst Clin Procedures 2**Credits:** 3

Prepares medical assistant students to perform patient care skills in the medical office setting. Students perform clinical procedures including administering medications, performing an electrocardiogram, assisting with respiratory testing, coaching patients, and assisting with emergency situations in an ambulatory care setting. Students learn preventive care and principles of nutrition.

Aid Code: 31 - One-year Technical Diploma.**Restrictions:** Restricted to students admitted to Medical Assistant Program.**Pre-requisites:** (501-101) and (801-136 or 801-195) and (501-107) and (509-301) and (509-302) and (509-303) and (509-304)**Co-requisites:** (509-305) and (509-307) and (509-308) and (509-309) and (509-310)

Complete Course Listing

509-307 Med Office Insurance and Finance

Credits: 2

Introduces Medical Assistant students to health insurance and finance in the medical office. Students perform bookkeeping procedures, apply managed care guidelines, and complete insurance claim forms. Students use medical coding and managed care terminology to perform insurance-related duties.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Medical Assistant Program.

Pre-requisites: (501-101) and (501-104) and (501-107) and (509-301) and (509-302) and (509-303) and (509-304)

Co-requisites: (509-309) and (509-305) and (509-306) and (509-308) and (509-310)

Complete Course Listing

509-308 Pharm for Allied Health

Credits: 2

Introduces students to medication classification, basic pharmacology principles, and supplements. Students apply basic pharmacodynamics to identify common medications and calculate dosages in preparation for medication administration.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Medical Assistant Program.

Pre-requisites: (501-101) and (501-107) and (501-104) and (509-301) and (509-302) and (509-303) and (509-304) and (509-309)

Co-requisites: (509-305) and (509-306) and (509-307) and (509-310)

Complete Course Listing

509-309 Medical Law, Ethics and Professionalism

Credits: 2

Prepares students to display professionalism and perform within ethical and legal boundaries in the health care setting. Students maintain confidentiality, examine legal aspects of the medical record, perform quality improvement procedures, examine legal and bioethical issues, and demonstrate awareness of diversity.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Medical Assistant Program.

Pre-requisites: (501-101) and (501-107) and (501-104) and (509-301) and (509-302) and (509-303) and (509-304) and (509-309)

Co-requisites: (509-305) and (509-306) and (509-307) and (509-308) and (509-310)

Complete Course Listing

509-310 Medical Assistant Practicum

Credits: 3

Requires medical assistant students to integrate and apply knowledge and skills from all previous medical assistant courses in actual ambulatory health care settings. Learners perform medical assistant administrative, clinical, and laboratory duties under the supervision of trained mentors to effectively transition to the role of a medical assistant. This is a supervised, unpaid, clinical experience.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Medical Assistant Program.

Pre-requisites: (501-101) and (801-195) and (501-107) and (509-301) and (509-302) and (509-303) and (509-304)

Co-requisites: (509-305) and (509-306) and (509-307) and (509-308) and (509-309)

Complete Course Listing

Medical Coding (530)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

530-102 Medical Office Coding I

Credits: 3

This course prepares learners to assign ICD-CM, CPT, and HCPCS level II medical codes with entry level proficiency. Learners will apply instructional notations, conventions, rules, and official coding guidelines for ICD-CM, CPT, and HCPCS Level II codes. Learners apply skills through coding application from medical documentation and various other coding exercises. Confidentiality and HIPAA will be reinforced throughout the course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-120 or 160-120 or 501-101) and (106-136) or 160-136 and (806-194 or 806-177)

Complete Course Listing

530-103 Medical Office Coding II

Credits: 3

This course is a continuation from 530-102 Medical Office coding I and will focus on coding ICD-CM, CPT, and HCPCS Level II codes for Anesthesia, Evaluation and Management, Radiology, and Medicine. Learners will review and apply coding instructional notations, conventions, rules and official coding guidelines in ICD-CM, CPT, and HCPCS Level II codes. Learners will complete research into the application of modifiers. Resources, including the Internet and coding software will be introduced. Confidentiality and HIPAA is reinforced through the course. An active role in team participation will be required.

Aid Code: 10 - Associate Degree.

Pre-requisites: (530-102 or 530-150)

Complete Course Listing

530-112 Disease Process and Treatment**Credits: 4**

Prepares learners to interpret clinical documentation that they will encounter in a variety of healthcare settings. Emphasis is placed on understanding the common disorders and diseases of each body system to include the etiology (cause), signs and symptoms, diagnostic tests and results, and medical treatments and surgical procedures.

Aid Code: 10 - Associate Degree.**Co-requisites:** (501-101) and (806-189 or 806-177)

Complete Course Listing

530-150 Medical Office Coding I**Credits: 4**

This course prepares learners to assign ICD-CM, CPT, and HCPCS Level II medical codes with entry level proficiency. Learners will apply instructional notations, conventions, rules, and official coding guidelines for ICD-CM, CPT, and HCPCS Level II codes. Learners apply skills through coding application from medical documentation and various other coding exercises. Confidentiality and HIPAA will be reinforced throughout the course.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-120 or 160-120 or 501-101) and (106-136 or 160-136) and (806-194 or 806-177)

Complete Course Listing

530-176 Health Data Management**Credits: 2**

Introduces the use and structure of health care data elements, data sets, data standards, their relationships to primary and secondary record systems and health information processing.

Aid Code: 10 - Associate Degree.**Co-requisites:** 530-181

Complete Course Listing

530-181 Intro to the Health Record**Credits: 1**

This course prepares learners to illustrate the flow of health information in various health care delivery systems and within the health information department. Prepares learners to retrieve data from health records. Professional ethics, confidentiality and security of information are emphasized.

Aid Code: 10 - Associate Degree.

Complete Course Listing

530-182 Human Disease for Health Professionals**Credits: 3**

Prepares learners to interpret clinical documentation that they will encounter in a variety of healthcare settings. Emphasis is placed on understanding the common disorders and diseases of each body system to include the etiology (cause), signs and symptoms, diagnostic tests and results, and medical treatments and surgical procedures.

Aid Code: 10 - Associate Degree.**Co-requisites:** (501-101) and (806-194 or 806-195 or 806-177 or 806-189)

Complete Course Listing

530-184 Current Procedural Terminology Coding**Credits: 3**

Prepares learners to assign CPT codes, supported by medical instructional notations, conventions, rules and official coding guidelines when assigning CPT codes to case studies and actual medical record documentation.

Aid Code: 10 - Associate Degree.**Co-requisites:** (501-101) and (530-181) and (530-182 or 530-112) and (806-194 or 806-177 or 806-195 or 806-189)

Complete Course Listing

530-185 HealthCare Reimbursement**Credits: 2**

This course prepares learners to compare and contrast health care payers, illustrate the reimbursement cycle, and to comply with regulations related to fraud and abuse. Learners assign Diagnosis Related Groups (DRGs), Ambulatory Payment Classifications (APCs) and Resource Utilization Groups (RUGs) with entry-level proficiency using computerized encoding and grouping software.

Aid Code: 10 - Associate Degree.**Co-requisites:** (501-101) and (530-181) and (530-182 or 530-112) and (806-194 or 806-177 or 806-195 or 806-189)

Complete Course Listing

530-195 Applied Coding**Credits: 2**

Prepares students to assign ICD and CPT/HCPCS codes supported by medical documentation with intermediate level of proficiency. Students will prepare appropriate physician queries in accordance with compliance guidelines and will assign codes to optimize appropriate reimbursement.

Aid Code: 10 - Associate Degree.**Co-requisites:** (530-197 or 530-197) and (530-199 or 530-199) and (530-184 or 530-184) and (530-185 or 530-185)

Complete Course Listing

530-197 International Classification of Disease (ICD) Diagnosis Coding**Credits: 3**

Prepares students to assign ICD diagnosis codes supported by medical documentation with entry level proficiency. Students apply instructional notations, conventions, rules, and official coding guidelines when assigning ICD diagnosis codes to case studies and actual medical record documentation.

Aid Code: 10 - Associate Degree.**Co-requisites:** (501-101) and (806-189 or 806-177) and (530-182 and 530-181)

Complete Course Listing

530-199 International Classification of Disease (ICD) Diagnosis Coding **Credits: 2**

Prepares students to assign ICD procedure codes supported by medical documentation with entry level proficiency. Students apply instructional notations, conventions, rules, and official coding guidelines when assigning ICD procedure codes to case studies and actual medical record documentation.

Aid Code: 10 - Associate Degree.

Co-requisites: (501-101 or 501-101) and (806-189 or 806-189 or 806-177 or 806-177) and (530-182 or 530-182) and (530-181 or 530-181)

[Complete Course Listing](#)

Medical Terminology (501)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).

501-101 Medical Terminology **Credits: 3**

Focuses on the component parts of medical terms: prefixes, suffixes and word roots. Students practice formation, analysis and reconstruction of terms. Emphasis on spelling, definition and pronunciation. Introduction to operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systematic and surgical terminology.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

501-104 Culture of Healthcare **Credits: 2**

This course is an introduction to the culture of healthcare for students interested in working in various healthcare settings. Learners examine professionalism, interpersonal and written communication skills, problem-solving skills and patient privacy and confidentiality issues as they relate to working in the healthcare industry.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

501-107 Digital Literacy for Health Care **Credits: 2**

This course provides an introduction to basic computer functions and applications utilized in contemporary healthcare settings. Students are introduced to the hardware and software components of modern computer systems and the application of computers in the workplace. The use of the common software packages, operating systems, file management, word processing, spreadsheet, database, Internet, and electronic mail is emphasized.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

Metallurgy (422)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).

422-100 Metallurgy **Credits: 3**

This course examines the nature, properties, and processing of metals. Subjects presented include history, occurrence, recovery from ores, manufacture, structure, heat treatment, theory of alloys, and basics of materials science. Steels, cast iron, and common non-ferrous metals receive the major emphasis.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

422-310 **Credits: 1**

In this course students will explore metrology, the study of measurement. Students will identify and practice methods of inspecting parts for size and accuracy of features using an assortment of precision and semi-precision measuring instruments. Students will also practice instrument care, calibration, handling, and instrument reading.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (444-105 or 444-331)

[Complete Course Listing](#)

422-311 **Credits: 1**

In this course students will practice using advanced inspection instruments to carry out high precision inspection, including surface plates, blocks, pins, and dial indicators.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (422-310) and (422-115)

[Complete Course Listing](#)

422-312 **Credits: 1**

In this course students will demonstrate the use of advanced measuring tools including hand tools and electronic devices. Students will practice proper setup of piece to measure and proper documentation of results.

Aid Code: 32 - Two-year Technical Diploma.

Co-requisites: (444-122 or 444-339)

[Complete Course Listing](#)

422-343 Welding Blueprint Reading 1 **Credits: 1**

This course covers the fundamentals of Blueprint reading. Students examine and analyze types of drawings, orthographic projection, library of lines, title block dimensions and produce sketching projects.

Aid Code: 31 - One-year Technical Diploma.

[Complete Course Listing](#)

422-344 Welding Blueprint Reading 2 **Credits: 2**

This course covers blueprint reading specific to the welding industry. Students examine and define welding symbols and abbreviations used on welding specific blueprints.

Aid Code: 31 - One-year Technical Diploma.

[Complete Course Listing](#)

422-401**Credits:** 5.4

Non-credit course focusing on basic metallurgy study and concepts.

Aid Code: 47 - Occupational Adult.

Complete Course Listing

Millwright (423)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).

423-510 Maintenance Mechanic/Millwright 1**Credits:** 2**Aid Code:** 50 - Apprentice.

Natural Science (806)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).

806-108 Applied Anatomy and Physiology**Credits:** 5

This course builds on a basic knowledge of skeletal, muscle and nervous systems and presents an in-depth study of their structure and functions. The integration of these systems to produce motion is studied. Critical thinking skills are encouraged as to analyze the relationships of these systems to normal movement, posture and gait. The development of observation and palpation skills is emphasized. Independent study of the pathophysiology of the major body systems is also included.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Physical Therapist Assistant Program.**Pre-requisites:** (806-154 or 806-139 or 806-140) and (806-177 or 806-131 or 806-195)

Complete Course Listing

806-110 Forensic Science (Criminalistics)**Credits:** 3

Forensic Science is a course designed to provide students of law enforcement with an appreciation of the capabilities and limitations of scientific analysis of crime scene evidence. All functions of a basic crime lab are discussed with emphasis on relating methods of analysis to the proper collection and packaging of evidence. Laboratory exercises are designed to expand upon and reinforce lecture material.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or SAT Reading, 330 or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)**Co-requisites:** (838-104)

Complete Course Listing

806-112 Principles of Sustainability

Credits: 3

Prepares the student to develop sustainable literacy, analyze the interconnections among the physical and biological sciences and environmental systems, summarize the effects of sustainability on health and well-being, analyze connections among social, economic, and environmental systems, employ energy conservation strategies to reduce the use of fossil fuels, investigate alternative energy options, evaluate options to current waste disposal and recycling in the U.S., and analyze approaches used by your community to promote and implement sustainability.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-118 Metal Science

Credits: 3

This is a one-semester course in basic physics and metallurgy principles for the Technical College student. The course reviews accuracy and precision of measurements, introduces calculations with units and conversions within and between systems of measurements, formula rearranging, and applications in problem solving. Basic topics include properties of matter, metallurgy, material properties, material testing, force, motion (linear and circular), energy, power, and simple machines. The topics of heat, electricity, and magnetism are also introduced in the class. Emphasis is placed on the application of the laws and principles of physics to practical problems found in the machine shop and industry.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Test Waived-College Degree) or Next Gen AccuPlacer Reading, 251 or SAT Reading, 330 or Reading-Credit Level Met and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or ASSET Reading Skills, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-134 General Chemistry

Credits: 4

Covers the fundamentals of chemistry. Topics include the metric system, problem-solving, periodic relationships, chemical reactions, chemical equilibrium, properties of water; acids, bases, and salts; and gas laws.

Aid Code: 10 - Associate Degree.

Pre-requisites: (Chemistry, 1.0 and 804-107) or 834-123 or 804-133 or 804-134 or 834-110 or 836-133 and (COMPASS Pre-Algebra Skills, 044 or ACT Math, 17 or ASSET Numerical Skills, 40 or Test Waived-College Degree) or (AccuPlacer Arithmetic, 089) or (AccuPlacer Arithmetic, 065 and AccuPlacer Elem Algebra, 030) or (Next Gen AccuPlacer Arithmetic, 272) and (COMPASS Reading Skills, 073) or (ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Test Waived-College Degree)

Complete Course Listing

806-139 Survey Of Physics

Credits: 3

This course emphasizes understanding basic physics concepts through laboratory investigation and applications. Topics include kinematics, dynamics, work, energy, power, temperature, heat, waves, electricity, magnetism, electromagnetic waves, optics, and atomic and nuclear physics.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or SAT Reading, 330 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 055 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-140 Physics

Credits: 3

This course is designed to acquaint the students with basic concepts of physics and their applications. Topics covered include algebra (a review), measurement, motion, forces, work, energy, power, simple machines, heat, and electricity. Laboratory exercises are designed to expand upon and reinforce lecture material.

Aid Code: 10 - Associate Degree.

Complete Course Listing

806-152 Technical Science II**Credits:** 3

This course is a continuation of Technical Science I with a study of heat, wave motion and sound, light and optics, and an introduction to electricity and magnetism. Sufficient mathematical treatment is given to the materials so the student can apply the principles in a quantitative manner. The laboratory work includes computer-aided study and the appropriate experiments to illustrate the application of the physical principles.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 806 151

Complete Course Listing

806-154 General Physics 1**Credits:** 4

Presents the applications and theory of basic physics principles. This course emphasizes problem-solving, laboratory investigation, and applications. Topics include unit conversion and analysis, vectors, translational and rotational kinematics, translational and rotational dynamics, heat and temperature, and harmonic motion and waves.

Aid Code: 10 - Associate Degree.

Pre-requisites: (804-197 or 804-114 or 804-115) or (ACT Reading, 16 and (COMPASS Reading Skills, 073 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or SAT Reading, 73 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104) or (801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-177 or 806-186 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51) or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-172 Basic Nutritional Science**Credits:** 3

This course provides an introduction into the science of nutrition. Basics concepts related to digestion and metabolism are presented. The significance of carbohydrates, lipids, proteins and vitamins to the human organism are discussed. The relationship of proper nutrition to selected pathological conditions throughout the human lifecycle is presented. The concept of sustainability and environmentally - conscious food production introduced.

Aid Code: 10 - Associate Degree.

Complete Course Listing

806-175 General Pathophysiology**Credits:** 3

This introductory course in pathophysiology covers topics related to alterations of homeostasis and the associated pathophysiological processes. The major emphasis will be on the physiological factors that underlie disease states. Course studies include the processes involved that generate illness; signs and symptoms of commonly occurring illness states and effects of disease processes on the cell. Review of normal homeostatic mechanisms is included. Study of the fundamental processes in relation to the pathophysiological processes can enable the students to apply this knowledge to clinical situations.

Aid Code: 10 - Associate Degree.

Pre-requisites: (806-179) and (COMPASS Reading Skills, 73 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251)

Complete Course Listing

806-177 General Anatomy and Physiology**Credits:** 4

Examines basic concepts of human anatomy and physiology as they relate to health sciences. Using a body systems approach, the course emphasizes the interrelationships between structure and function at the gross and microscopic levels of organization of the entire human body. It is intended to prepare health care professionals who need to apply basic concepts of whole body anatomy and physiology to informed decision-making and professional communication with colleagues and patients.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree or 838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (Chemistry, 1.0 or 856-787 or 806-199 or 806-134)

Complete Course Listing

806-179 Advanced Anatomy and Physiology**Credits:** 4

Advanced Anatomy and Physiology is the second semester in a two-semester sequence in which normal human anatomy and physiology are studied using a body systems approach with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. Instructional delivery within a classroom and laboratory setting. Experimentation within a science lab will include analysis of cellular metabolism, the individual components of body systems such as the nervous, neuro-muscular, cardiovascular, and urinary. Continued examination of homeostatic mechanisms and their relationship to fluid, electrolyte, acid-base balance and blood. Integration of genetics to human reproduction and development are also included in this course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (806-195 or 806-177 or 806-131) and (ACT Reading, 12) or (COMPASS Reading Skills, 51 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-186 Introduction to Biochemistry

Credits: 4

Provides students with skills and knowledge of organic and biological chemistry necessary for application within Nursing and other Allied Health careers. Emphasis is placed on recognizing the structure, physical properties and chemical reactions of organic molecules, body fluids, and acids. Additional emphasis is placed on biological functions and their relationships to enzymes, proteins, lipids, carbohydrates and DNA.

Aid Code: 10 - Associate Degree.

Pre-requisites: (Chemistry, 1.0 or 856-787 or 856-787 or 806-133 or 806-134) and (COMPASS Reading Skills, 073) or (ACT Reading, 16 or SAT Reading, 330 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Test Waived-College Degree or Reading-Credit Level Met) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-139 or 806-154 or 806-177 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51) or (ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-189 Basic Anatomy

Credits: 3

Examines concepts of anatomy and physiology as they relate to health careers. Learners correlate anatomical and physiological terminology to all body systems.

Aid Code: 10 - Associate Degree.

Complete Course Listing

806-194 Survey of Anatomy and Physiology

Credits: 3

This course is designed to provide a basic understanding of human anatomy, physiology, diseases, and terminology to assist with the transcription and coding of medical documents.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or SAT Reading, 330 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51) or (ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-197 Microbiology

Credits: 4

This course examines microbial structure, metabolism, genetics, growth and the relationship between humans and microorganisms. Disease production, epidemiology, host defense mechanisms and the medical impact of microbes in the environment, industry, and biotechnology are also addressed.

Aid Code: 10 - Associate Degree.

Pre-requisites: (806-177 or 806-195 or 806-196 or 806-179 or 806-199) and (COMPASS Reading Skills, 73) or (ACT Reading, 16 or SAT Reading, 330 or AccuPlacer Reading Comp, 76 or Next Gen AccuPlacer Reading, 251) and (COMPASS Reading Skills, 51) or (ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 055 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-199 General, Organic and Biological Chemistry

Credits: 4

A one semester course covering the fundamental aspects of inorganic and organic chemistry. Topics include lab safety, measurement, elementary problem solving, atomic structure, periodicity, chemical bonding, types of chemical reactions, properties of water, acid, bases, and salts, types of solutions and calculations of concentrations, gas laws, oxidation-reduction concepts, ionization, pH and buffers, hydrocarbons, types of organic compounds and functional groups, biochemical compounds including lipids, carbohydrates, proteins, and nucleic acids.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or SAT Reading, 330 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51) or (ACT Reading, 12 or SAT Reading, 270 or ASSET Reading Skills, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-315 Applied Science

Credits: 2

This one semester course in basic physics principles reviews accuracy and precision of measurements and introduces calculations with units and conversions within and between systems of measurements. Formula rearranging and applications to problem solving are reviewed. Basic physics topics such as properties of matter, mechanical principles of force, motion (linear and circular), energy, power and machines, heat, electricity, and magnetism are also studied. Emphasis is placed on the applications of the laws and principles of physics to practical problems. The use of vectors is demonstrated in forces, velocities, and electrical transformers.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (804-304 or 804-306)

Complete Course Listing

806-333 Aviation Physics**Credits:** 2

This is a one-semester course in basic physics principles for aviation maintenance technicians. It includes a review of the units of measurement and conversions along with the properties of fluids. Mechanics (linear motion, equilibrium, energy, power, circular motion and machines), heat (temperature scales, specific heats and transfer), along with sound (wavelength, frequency, speed and intensity) are included. Special emphasis is given to problems applying these principles to the particular area of technology.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

806-400 Mechanical Principles**Credits:** 1.25**Aid Code:** 47 - Occupational Adult.

Complete Course Listing

806-401 Light & Fiber Optics**Credits:** 1**Aid Code:** 47 - Occupational Adult.

Complete Course Listing

806-402 Science Principles/Mach Tool**Credits:** 1.25**Aid Code:** 47 - Occupational Adult.

Complete Course Listing

806-410 Weather Observation Certif**Credits:** 5.4**Aid Code:** 47 - Occupational Adult.

Complete Course Listing

806-451**Credits:** 1**Aid Code:** 47 - Occupational Adult.

Complete Course Listing

806-605**Credits:** .5**Aid Code:** 60 - Adult Avocational.

Complete Course Listing

Numerical Control (444)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).

444-100 Manual Milling 1**Credits:** 1

In this course students will explore the purpose and function of milling machines and their components. Students will practice simple mill operations such as squaring stock and basic drilling, as well as related skills such as maintenance, the use of cutting tools, and work holding. Students will also practice shop safety procedures.

Aid Code: 10 - Associate Degree.

Complete Course Listing

444-101 Manual Milling 2**Credits:** 1

In this course students will identify and use tool holding and advanced workholding concepts. Students will also explore alignment concepts as they practice using vises and fixtures, as well as aligning machine axes and using part datums to accurately locate holes and other component fixtures.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-100)

Complete Course Listing

444-102 Lathe - Manual Basic 1**Credits:** 1

In this course students will identify the purpose and function of manual lathe machines and their components. Students will practice and perform simple turn operations such as simple diameters and shoulder features. Students will also practice safety and maintenance procedures as they relate to manual lathes.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-101)

Complete Course Listing

444-103 Lathe - Manual Basic 2**Credits:** 1

In this course students will identify and practice tool holding and advanced workholding techniques. Students will explore and apply alignment concepts related to tools, centers, and fixtures, as well as aligning machine axes and using part datums to accurately locate radial and axial and other component features.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-102)

Complete Course Listing

444-104 Blueprint Reading 1**Credits:** 1

In this course students will identify the purpose and function of different types of technical drawings, as well as proper drawing structure and drawing terminology. Students will practice producing simple sketches and visualizing two and three-dimensional parts. Students will practice visualizing drawings and blueprints using the orthographic and isometric projections in first and third angle formats.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-103)

Complete Course Listing

444-105 Blueprint Reading 2**Credits:** 1

In this course students will identify the purpose and function of advanced projection types, section views, coordinate systems, and other interpretations of information found on standard industrial blueprints.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-104)

Complete Course Listing

444-106 Metrology - Basic

Credits: 1

In this course students will explore metrology, the study of measurement. Students will identify and practice methods of inspecting parts for size and accuracy of features using an assortment of precision and semi-precision measuring instruments. Students will also practice instrument care, calibration, handling, and instrument reading.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-105)

Complete Course Listing

444-107 Metrology - Table Techniques

Credits: 1

In this course students will practice using advanced inspection instruments to carry out high precision inspection, including surface plates, blocks, pins, and dial indicators.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-106)

Complete Course Listing

444-108 Layout & Benchwork

Credits: 1

In this course students will practice layout techniques, hand tool usage, and benchwork using hand tools. Students will also practice using bandsaws, drill presses, and other power tools.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-107 or 422-116)

Complete Course Listing

444-109 Secondary Operations - Drill Press

Credits: 1

In this course students will practice advanced hand tool and manual power tool use and operation, including the use of a drill press for production, pedestal grinder for tool maintenance, and sanders for various operations.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-108)

Complete Course Listing

444-110 CNC G-Code Programming 1

Credits: 1

In this course students will use a computer to create basic G-code CNC programs. Students will practice using CNC program codes, words, and functions to create basic drilling programs for a CNC mill.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-109 or 420-135)

Complete Course Listing

444-111 CNC G-Code Programming 2

Credits: 1

In this course students will practice creating G-code CNC programs for lathe (turning) processes.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-110)

Complete Course Listing

444-112 Lathe - Manual Intermediate

Credits: 1

In this course students will practice and perform advanced machining operations using various materials and work holding devices. Students will practice precision boring operation, as well as precision hole and taper feature locating and machining.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-111)

Complete Course Listing

444-113 Lathe - Manual Advanced

Credits: 1

In this course students will practice and perform advanced machining, using a variety of materials and holding devices, emphasizing speed and accuracy. Student will practice using advanced lathe features and setups to machine complex multi-process (mill/turn) lathe parts.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-112)

Complete Course Listing

444-114 Milling - Manual Intermediate

Credits: 1

In this course students will practice and perform advanced machining operations using various materials and work holding devices. Students will practice precision boring operation, as well as precision hole and taper feature locating and machining.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-113)

Complete Course Listing

444-115 Milling - Manual Advanced

Credits: 1

In this course students will practice and perform advanced machining, using a variety of materials and holding devices, emphasizing speed and accuracy. Student will practice using radial axes and dividing heads for advanced machining of precision components.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-114)

Complete Course Listing

444-116 CNC Mill Fundamentals

Credits: 1

In this course students will practice basic mill operation, setup, and the fundamentals of manual programming for CNC mills.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-115 or 420-139)

Complete Course Listing

444-117 CNC Lathe Fundamentals

Credits: 1

In this course students will practice basic lathe operation, setup, and the fundamentals of manual programming for CNC lathes.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-116)

Complete Course Listing

444-118 Surface Grinding Operations**Credits:** 1

In this course students will explore the use and purpose of grinding machines. Students will practice setting up and operating surface grinding machines to perform simple grinding operations to typical tolerances.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-117)

Complete Course Listing

444-119 Introduction to Gears & Gear Cutting**Credits:** 1

In this course students will explore tools and techniques used in the process of gearmaking. Students will practice cutting standard spur gears.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-118 or 420-140)

Complete Course Listing

444-120 Milling - Advanced Setups & Tooling**Credits:** 1

In this course students will practice selecting and applying work holding devices when operating a mill. Students will also practice gathering data using formulas and reference material to support machining operation.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-144)

Complete Course Listing

444-121 Lathe - Advanced Setups & Tooling**Credits:** 1

In this course students will practice selecting and applying work holding devices when operating a lathe. Students will also practice gathering data using formulas and reference material to support machining operation.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-120)

Complete Course Listing

444-122 CMM Concepts**Credits:** 1

In this course students will practice the use of a coordinate measuring machine. Students will identify their types and demonstrate their care, limits, setup, and applications.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-145)

Complete Course Listing

444-123 Advanced Metrology Concepts**Credits:** 1

In this course students will demonstrate the use of advanced measuring tools including hand tools and electronic devices. Students will practice proper setup of piece to measure and proper documentation of results.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-122)

Complete Course Listing

444-124 Basic CAD - Solidworks and AutoCAD**Credits:** 1

In this course students will demonstrate the use of CAD software to create blueprints for the manufacturing sector. SolidWorks and AutoCad will be used.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-123)

Complete Course Listing

444-125 Intermediate CAD - Solidworks and AutoCAD**Credits:** 1

In this course students will demonstrate the use of CAD software to create complex blueprints for the manufacturing sector. SolidWorks and AutoCAD will be used.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-124)

Complete Course Listing

444-126 CNC Turning Operations 1**Credits:** 1

In this course students will demonstrate machine familiarization, machine start-up procedures, program transfers, work holder preparation, tooling installation, setting tooling offsets, and establishing a part origin on a CNC Lathe.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-125 or 606-175)

Complete Course Listing

444-127 CNC Turning Operations 2**Credits:** 1

In this course students will demonstrate how to safely run the first part and make minor adjustments to create quality parts on a CNC Lathe.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-126)

Complete Course Listing

444-128 CNC Turning Operations & Programming 1**Credits:** 1

In this course students will demonstrate writing a simple program using correct structure and style. Students will start using the basic "G" codes necessary for program basic turned part features such as, faces, outside diameters, and holes on a CNC Lathe.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-127)

Complete Course Listing

444-129 CNC Turning Operations & Programming 2**Credits:** 1

In this course students will practice writing and editing simple programs in order to create common part features. Students will develop more advanced programs that are efficient, effective, and clearly written for the CNC Lathe.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-128)

Complete Course Listing

444-130 CNC Milling Operations 1

Credits: 1

In this course students will demonstrate machine familiarization, machine start-up procedures, program transfers, work holder preparation, tooling installation, setting tooling offsets, and establishing a part origin on a CNC Mill.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-129)

Complete Course Listing

444-131 CNC Milling Operations 2

Credits: 1

In this course students will demonstrate how to safely run the first part and make minor adjustments to create quality parts on a CNC Mill.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-130)

Complete Course Listing

444-132 CNC Milling Operations & Programming 1

Credits: 1

In this course students will demonstrate writing a simple program using correct structure and style. Students will start using the basic "G" codes necessary for program basic turned part features such as, faces, outside diameters, and holes on a CNC Mill.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-131)

Complete Course Listing

444-133 CNC Milling Operations & Programming 2

Credits: 1

In this course students will practice writing and editing simple programs in order to create common part features. Students will develop more advanced programs that are efficient, effective, and clearly written for the CNC Mill.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-132)

Complete Course Listing

444-134 CNC Milling Operations & Programming 3

Credits: 1

In this course students will practice writing more complex features utilizing more advanced programming methods. The learner will program and machine rectangular/circular pockets.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-133)

Complete Course Listing

444-135 CNC Milling Operations & Programming 4

Credits: 1

In this course students will demonstrate writing more complex features utilizing more advanced programming methods. The learner will program and machine internal and external threads, and will use cutter compensation.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-134)

Complete Course Listing

444-136 CNC Milling Problem Solving 1

Credits: 1

In this course students will practice solving basic CNC milling problems. They will use multiple work offsets, loops, subprograms, and use variables in programs to shorten and simplify programs.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-135)

Complete Course Listing

444-137 CNC Milling Problem Solving 2

Credits: 1

In this course students will practice solving complicated CNC milling problems utilizing tools and methods from previous courses.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-136)

Complete Course Listing

444-138 CNC Turning Problem Solving 1

Credits: 1

In this course students will demonstrate solving basic CNC Lathe problems. Students will practice using loops, subprograms, and variables in programs to shorten and simplify programs.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-137)

Complete Course Listing

444-139 CNC Turning Problem Solving 2

Credits: 1

In this course students will practice solving complicated CNC lathe problems utilizing tools and methods from previous courses.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-138)

Complete Course Listing

444-140 Basic CAM - MasterCAM

Credits: 1

In this course students will demonstrate the use of CAM software for creating CNC machine programs. MasterCam will be used.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-139) or (444-116)

Complete Course Listing

444-141 Intermediate CAM - MasterCAM

Credits: 1

In this course students will demonstrate the use of CAM software to create more complex programs for CNC machines. MasterCam will be used.

Aid Code: 10 - Associate Degree.

Co-requisites: (444-140)

Complete Course Listing

444-142 CNC Internship**Credits:** 1

In this course students will demonstrate the use of all the tools they have learned in the program to complete an internship at a local business, or complete the internship at the college.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-141)

Complete Course Listing

444-143 CNC Capstone**Credits:** 1

In this course students will demonstrate the use of all the tools they have learned in the program to complete an all exclusive project.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-142)

Complete Course Listing

444-144 GD&T Interpretations**Credits:** 1

In this course students will practice the use of Geometric Dimensioning and Tolerancing as it pertains to mechanical specifications and relationships in technical drawings. Students will practice interpretation of these symbols, as well as basic inspection methodologies.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-119) or (620-173)

Complete Course Listing

444-145 Manufacturing Support Systems**Credits:** 1

In this course students will explore part production and sequencing planning in manufacturing facilities. Students will identify the impact that sudden changes, such as scrapping and reworking, can have on these processes.

Aid Code: 10 - Associate Degree.**Co-requisites:** (444-121 or 420-142)

Complete Course Listing

444-150 Metal Science**Credits:** 3

Students engage in basic physics and metallurgy principles, applied to the manufacturing setting. Students review accuracy and precision of measurements, introduces calculations with units and conversions within and between systems of measurements, formula rearranging, and applications in problem solving. Emphasis is placed on the application of the laws and principles of physics to practical problems found in the machine shop and industry.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (804-308) and (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree or 838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

Complete Course Listing

444-300 Shop Computing**Credits:** 2

The ability to use a computer has become one of the most basic skills. In this course the learner will learn to use a computer to navigate through the learning process as well as being able to use the computer to operate an assortment of software. Students learn how to operate the computer's operating system to perform many common tasks such as opening, closing, saving, and printing files. They will practice these operating system functions on files created from software used in the machine shop.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

444-301 Metrology**Credits:** 2

Metrology is the study of measurement. The production of quality parts is impossible without adequate measurement. Therefore, this is a course that should be taken before any machining course. You will learn about an assortment of precision and semi-precision measuring instruments used for the job shop or where large numbers of parts are produced. Material will cover instrument care, types, components, scales, calibration, handling, and reading the instrument. You will have an opportunity to use and gain proficiency in most of the measuring instruments that are discussed.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

444-302 Semi-Precision Machining**Credits:** 2

This course is designed to acquaint the student with the semi-precision/fabrication machines in the machine shop. These machines are easier to operate and provide a good starting point for the beginner. These machines should not be considered to be less important in the machine shop or to require less skill to operate. These drill presses, pedestal grinders, bench tools, and saws are extremely important tools. The associated work holding, cutting tools, processes, and measuring instruments are also taught.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

444-303 Turning Fundamentals**Credits:** 2

This module covers the introduction to the engine lathe. Emphasis is on knowing the machine parts, their function, and performing simple lathe operations. Engine lathes are one of the basic machines with the ability to produce cylindrical parts to close tolerances. Introductory subjects such as related safety, maintenance, metal cutting theory, cutting tools, and work holding for lathes will be taught. There is an emphasis on safety. All of these subjects will be introduced and built upon as the learner progresses to higher levels of proficiency.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

444-304 Geometric Dimensioning and Tolerancing (GD&T) Interpretations **Credits: 1**

Geometric Dimensioning and Tolerancing is a system of symbols used to portray mechanical specifications and relationships on mechanical drawings. Industries using this system include large automotive, aircraft, and agricultural manufacturers, a growing number of smaller industries and most European manufacturers. Students will explore ANSI (American National Standard Institute) Standard symbols and methods of interpretation of these symbols to meet the expectations of the mechanical design engineer that specified them on the drawing.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

444-305 Milling Fundamentals **Credits: 2**

This module covers the introduction to the milling machines. Emphasis is on knowing the machine parts, their function, and performing simple lathe operations. Introductory subjects such as related safety, maintenance, metal cutting theory, cutting tools, and work holding for the mill will be taught. There is an emphasis on safety. All of these subjects will be introduced and built upon as the learner progresses to higher levels of proficiency.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

444-306 Turning Applications **Credits: 2**

This advanced turning course involves performing more difficult machining operations, using different materials, and using different work holding devices. The material, work holding devices and setups will present the learner with challenging situations that require them to apply their past experiences along with what they have learned in theory to produce quality parts. In situations where the student is performing previously learned operations, the learner will be expected to develop their speed and accuracy. One of the requirements of an advanced course is that students apply their knowledge to problems through the trouble shooting process.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

444-307 Manufacturing Support Systems **Credits: 1**

Producing machined parts routinely requires that components be cut on different machines in a specified sequence. While dozens to thousands of different parts may be at various stages of completion at any given instant within a manufacturing facility, it is necessary that these parts be sequenced properly and progress tracked so product can be shipped to the customer when expected. Students will be exposed to this environment and will learn to understand how sudden changes (scrap/rework) influence this critical manufacturing function.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

444-308 Milling Applications **Credits: 2**

The advanced milling course involves performing more difficult machining operations, using different materials, and using different work holding devices. The materials, work holding devices and setups will present the learner with challenging situations that require them to apply their past experiences along with what they have learned in theory to produce quality parts. In situations where the student is performing previously learned operations, the learner will be expected to develop their speed and accuracy. One of the requirements of an advanced course is that students apply their knowledge to problems through the trouble shooting process.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

444-309 Computer Numerical Control (CNC) Fundamentals **Credits: 2**

This class is geared for the beginner or the person wishing to brush up on the fundamentals. It will focus on NC terminology, basic machine operation, setup, and the fundamentals of manual programming for CNC lathes and mills. Participants will learn about rectangular systems, the word address programming format, and absolute/incremental tool positioning.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

444-310 Grinding and Gear Techniques **Credits: 2**

The grinding portion of this course will start you out at the beginning with grinding terminology, machine types, control names and functions, and processes. The related grinding information grinding theory, tooling, safety, and work holding will be taught. This course will result in the learner being able to setup and operate a surface grinding machine to perform simple grinding operation to typical grinding tolerances. The purpose of the gear cutting activity is to introduce the student to the terminology, math, tools, and techniques for cutting gears. Gear cutting besides being a specialized machining operation is an occupational discipline in itself. That is, students may find they would like to cut gears as a career. It is a highly specialized process so it is only possible for a student to get an introduction. This introduction should prepare the student adequately for a job entry level position.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

444-311 Computer Numerical Control (CNC) Turning Operations **Credits: 2**

CNC turning centers produce many of the cylindrical shapes machined in production machine shops today. This course is the introductory course for CNC Turning Centers and includes machine/control familiarization, machine startup procedures, program transfers, work holder preparation, tooling installation, setting tooling offsets, and establishing a part origin. In addition, students learn how to safely run the first part and make minor adjustments to create quality parts.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

444-312 Computer Numerical Control (CNC) Turning - Operations and Programming 1
Credits: 2

This course introduces the student to the programming process for CNC Turning Centers. The student will learn to create very simple programs and to run them on the machine. Students will learn about program structure and style. Students will start using the basic "G" codes necessary for program basic turned part features such as, faces, outside diameters, and holes. They will write/edit simple programs in order to create these common part features. The goal will be to start out simple and move to programs that are efficient, effective, and clearly written.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

444-313 Tooling and Workholding
Credits: 2

This module consists of competencies relating to work holding devices and methods. Students will learn about the basic work holding principles, work holding devices, and work holding methods. These topics will be discussed in depth so that the student will be able to select and apply the best work holding device for the situation. Advanced knowledge of work holding will promote safety, setup speed, and cutter/work rigidity. Cutting tool information is vital for an in-depth and complete understanding of the machining processes. The selection of cutting tools and cutting tool data may be one of the most complex areas of study. Students will learn to select tools based on part geometry and machining operation. The learner will acquire the cutting data from formulas along with using reference material to obtain the data. This is very important because one of the most common complaints from employers is that employees cannot set machine feeds and speeds resulting in either wasted time or damaged tooling. As the student becomes more proficient, they will gain the ability to troubleshoot machining problems that are related to cutting tools.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

444-314 Coordinate Measuring Machines (CMM) Techniques
Credits: 2

In this course you will learn about Coordinate Measuring Machines (CMM). You will learn about their types, care, limits, setup, and applications. The CMM is a high tech solution to many measuring situations with (as with all measuring instruments) limitations. Often it is as important to know when not to use a particular instrument as when to use it. Proper use of the CMM will result in good and consistent measurements. Students will be able to setup and measure parts.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

444-315 Computer Numerical Control (CNC) Milling- Operations
Credits: 2

CNC mills produce many of the prismatic shapes machined in production machine shops today. This course is the introductory course for CNC Machining Centers and includes machine/control familiarization, machine startup procedures, program transfers, work holding preparation, tooling installation, setting tooling offsets, and the part origin. In addition, students will learn how to safely run the first part and make minor tool offset adjustments to produce quality parts.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

444-316 Computer Numerical Control (CNC) Milling-Operations and Programming 1
Credits: 2

This course introduces the student to the programming process for CNC Machining Centers. The student will learn to create very simple programs and to run them on the machine. Students will learn about program structure and style. Students will start using the basic "G" codes necessary for program basic milled part features such as, faces, steps, slots, holes, improved holes, and circular contours. They will write/edit simple programs in order to create these common part features. The goal will be to start out simple and move to programs that are efficient, effective, and clearly written.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

444-318 Computer Numerical Control (CNC) Milling-Operations and Programming 2
Credits: 2

Students will learn to program and machine more complex features using more advanced programming methods. The learner will program and machine rectangular/circular pockets, mill internal threads, and will use cutter compensation.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

444-319 Computer Numerical Control (CNC) Turning-Operations and Programming 2
Credits: 2

Students will learn to program and machine more complex features. The learner will program and machine taper, radii, threads, use cutter compensation, and live tooling.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

444-320 Computer Numerical Control (CNC) Milling-Operations and Programming 3
Credits: 2

Students will learn the advantages of several advanced programming techniques. They will learn to use multiple work offsets, loops, subprograms, and use variables in programs to shorten and simplify programs. All these programming techniques will be performed on 3 axis and 4 axis machining centers. Students will also learn advanced techniques for making programs run more efficiently.

Aid Code: 32 - Two-year Technical Diploma.

[Complete Course Listing](#)

444-321 Basic Computer Aided Design (CAD) / Computer Assisted Manufacturing (CAM)
Credits: 2

Computer Aided Design (CAD) and Computer Assisted Manufacturing (CAM) have become standard tools used almost wherever CNC machines make parts. Students will use the Virtual Gibbs software to create geometry, setup tools, and produce machining operations. The learner will create machining operations for typical milled/turned part features such as faces, diameters, steps, slots, contours, holes, etc. Students will then post-process their CAD/CAM files to generate the CNC programs for specific CNC machines.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

444-324 Intermediate Computer Aided Design (CAD) / Computer Assisted Manufacturing (CAM)
Credits: 2

Using Virtual Gibbs, students will learn to create machining operations for additional milled/turned part features. They will create machining operations for threading, pockets, bored holes, and text. The student will then learn to create simple 3-D shapes (solids) and create the machining operations necessary to machine them. Once the file has been created and post processed, the student will run the part on a CNC machine.

Aid Code: 32 - Two-year Technical Diploma.
Complete Course Listing

444-330
Credits: 1

In this course students will identify the purpose and function of different types of technical drawings, as well as proper drawing structure and drawing terminology. Students will practice producing simple sketches and visualizing two and three-dimensional parts. Students will practice visualizing drawings and blueprints using the orthographic and isometric projections in first and third angle formats.

Aid Code: 32 - Two-year Technical Diploma.
Co-requisites: (420-134 or 420-313)
Complete Course Listing

444-331
Credits: 1

In this course students will identify the purpose and function of advanced projection types, section views, coordinate systems, and other interpretations of information found on standard industrial blueprints.

Aid Code: 32 - Two-year Technical Diploma.
Co-requisites: (444-104 or 444-331)
Complete Course Listing

444-332
Credits: 1

In this course students will practice layout techniques, hand tool usage, and benchwork using hand tools. Students will also practice using bandsaws, drill presses, and other power tools.

Aid Code: 32 - Two-year Technical Diploma.
Co-requisites: (422-311 or 422-116)
Complete Course Listing

444-333
Credits: 1

In this course students will use a computer to create basic G-code CNC programs. Students will practice using CNC program codes, words, and functions to create basic drilling programs for a CNC mill.

Aid Code: 32 - Two-year Technical Diploma.
Co-requisites: (420-314 or 420-135)
Complete Course Listing

444-334
Credits: 1

In this course students will practice creating G-code CNC programs for lathe (turning) processes.

Aid Code: 32 - Two-year Technical Diploma.
Co-requisites: (444-110 or 444-333)
Complete Course Listing

444-335
Credits: 1

In this course students will practice basic mill operation, setup, and the fundamentals of manual programming for CNC mills.

Aid Code: 32 - Two-year Technical Diploma.
Co-requisites: (420-318 or 420-139)
Complete Course Listing

444-336
Credits: 1

In this course students will practice basic lathe operation, setup, and the fundamentals of manual programming for CNC lathes.

Aid Code: 32 - Two-year Technical Diploma.
Co-requisites: (444-116 or 444-335)
Complete Course Listing

444-337 Introduction to Gears & Gear Cutting
Credits: 1

In this course students will explore tools and techniques used in the process of gearmaking. Students will practice cutting standard spur gears.

Aid Code: 32 - Two-year Technical Diploma.
Co-requisites: (444-117 or 444-336)
Complete Course Listing

444-338
Credits: 1

In this course students will explore part production and sequencing planning in manufacturing facilities. Students will identify the impact that sudden changes, such as scrapping and reworking, can have on these processes.

Aid Code: 32 - Two-year Technical Diploma.
Co-requisites: (420-321 or 420-142)
Complete Course Listing

444-339**Credits:** 1

In this course students will practice the use of a coordinate measuring machine. Students will identify their types and demonstrate their care, limits, setup, and applications.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-145 or 444-338)

Complete Course Listing

444-340**Credits:** 1

In this course students will demonstrate machine familiarization, machine start-up procedures, program transfers, work holder preparation, tooling installation, setting tooling offsets, and establishing a part origin on a CNC Lathe.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (606-312 or 606-175)

Complete Course Listing

444-341**Credits:** 1

In this course students will demonstrate how to safely run the first part and make minor adjustments to create quality parts on a CNC Lathe.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-126 or 444-340)

Complete Course Listing

444-342 CNC Turning Operations & Programming 1**Credits:** 1

In this course students will demonstrate writing a simple program using correct structure and style. Students will start using the basic "G" codes necessary for program basic turned part features such as, faces, outside diameters, and holes on a CNC Lathe.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-127 or 444-341)

Complete Course Listing

444-343 CNC Turning Operations & Programming 2**Credits:** 1

In this course students will practice writing and editing simple programs in order to create common part features. Students will develop more advanced programs that are efficient, effective, and clearly written for the CNC Lathe.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-128 or 444-342)

Complete Course Listing

444-344**Credits:** 1

In this course students will demonstrate machine familiarization, machine start-up procedures, program transfers, work holder preparation, tooling installation, setting tooling offsets, and establishing a part origin on a CNC Mill.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-129 or 444-343)

Complete Course Listing

444-345**Credits:** 1

In this course students will demonstrate how to safely run the first part and make minor adjustments to create quality parts on a CNC Mill.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-130 or 444-344)

Complete Course Listing

444-346 CNC Milling Operations & Programming 1**Credits:** 1

In this course students will demonstrate writing a simple program using correct structure and style. Students will start using the basic "G" codes necessary for program basic turned part features such as, faces, outside diameters, and holes on a CNC Mill.

Aid Code: 32 - Two-year Technical Diploma.

Complete Course Listing

444-347 CNC Milling Operations & Programming 2**Credits:** 1

In this course students will practice writing and editing simple programs in order to create common part features. Students will develop more advanced programs that are efficient, effective, and clearly written for the CNC Mill.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-132 or 444-346)

Complete Course Listing

444-348 CNC Milling Operations & Programming 3**Credits:** 1

In this course students will practice writing more complex features utilizing more advanced programming methods. The learner will program and machine rectangular/circular pockets.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-133 or 444-347)

Complete Course Listing

444-349 CNC Milling Operations & Programming 4**Credits:** 1

In this course students will demonstrate writing more complex features utilizing more advanced programming methods. The learner will program and machine internal and external threads, and will use cutter compensation.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-134 or 444-348)

Complete Course Listing

444-350**Credits:** 1

In this course students will practice solving basic CNC milling problems. They will use multiple work offsets, loops, subprograms, and use variables in programs to shorten and simplify programs.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-135 or 444-349)

Complete Course Listing

444-351**Credits:** 1

In this course students will practice solving complicated CNC milling problems utilizing tools and methods from previous courses.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-136 or 444-350)[Complete Course Listing](#)**444-352****Credits:** 1

In this course students will demonstrate solving basic CNC Lathe problems. Students will practice using loops, subprograms, and variables in programs to shorten and simplify programs.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-140 or 444-354)[Complete Course Listing](#)**444-356 CNC Internship****Credits:** 1

In this course students will demonstrate the use of all the tools they have learned in the program to complete an internship at a local business, or complete the internship at the college.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-141 or 444-355)[Complete Course Listing](#)**444-357****Credits:** 1

In this course students will demonstrate the use of all the tools they have learned in the program to complete an all exclusive project.

Aid Code: 32 - Two-year Technical Diploma.**Co-requisites:** (444-142 or 444-356)[Complete Course Listing](#)**444-401****Credits:** .3

Vision Measuring Equipment Utilization: A non-credit course to learn and apply concepts related to high-accuracy dimensional measurements using vision measuring machines.

Aid Code: 47 - Occupational Adult.[Complete Course Listing](#)**444-402****Credits:** .3

Coordinate Measuring Equipment Utilization: A non-credit course to learn and apply concepts related to dimensional measuring using X-Y-Z grid coordinate systems on coordinate measuring machines.

Aid Code: 47 - Occupational Adult.[Complete Course Listing](#)

Nursing (543)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

543-101 Nursing Fundamentals**Credits:** 2

This course focuses on basic nursing concepts that the beginning nurse will need to provide care to diverse patient populations across the lifespan. Current and historical issues impacting nursing will be explored within the scope of nursing practice. The nursing process will be introduced as a framework for organizing the care of patients with alterations in cognition, elimination, comfort, grief/loss, mobility, integument, and fluid/electrolyte balance.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Nursing Program.**Pre-requisites:** (806-177 or 806-195 or 806-131) and (801-195 or 801-136)**Co-requisites:** (809-188 or 809-120)[Complete Course Listing](#)**543-102****Credits:** 3

This course focuses on development of clinical skills and physical assessment across the lifespan. Content includes mathematic calculations and conversions related to clinical skills, blood pressure assessment, aseptic technique, wound care, oxygen administration, tracheostomy care, suctioning, management of enteral tubes, basic medication administration, glucose testing, enemas, ostomy care, and catheterization. In addition the course includes techniques related to obtaining a health history and basic physical assessment skills using a body systems approach.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Nursing Program.**Pre-requisites:** (806-177 or 806-195 or 806-131) and (801-195 or 801-136)**Co-requisites:** (809-188 or 809-120)[Complete Course Listing](#)

543-103**Credits:** 2

This course introduces the principles of pharmacology, including drug classifications and their effects on the body. Emphasis is on the use of the components of the nursing process when administering medications.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Nursing Program.**Pre-requisites:** (806-177 or 806-195 or 806-131) and (801-195 or 801-136)**Co-requisites:** (809-188 or 809-120)

Complete Course Listing

543-104**Credits:** 2

This introductory clinical course emphasizes basic nursing skills and application of the nursing process in meeting the needs of diverse clients. Emphasis is placed on performing basic nursing skills, the formation of nurse-client relationships, communication, data collection, documentation, and medication administration.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Nursing Program.**Pre-requisites:** (806-177 or 806-195 or 806-131) and (801-195 or 801-136)**Co-requisites:** (809-188 or 809-120)

Complete Course Listing

543-105**Credits:** 3

This course elaborates upon the basic concepts of health and illness as presented in Nursing Fundamentals. It applies theories of nursing in the care of clients through the lifespan, utilizing problem solving and critical thinking. This course will provide an opportunity to study conditions affecting different body systems and apply therapeutic nursing interventions. It will also introduce concepts of leadership, team building, and scope of practice.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-101) and (543-102) and (543-103) and (543-104)**Co-requisites:** (806-179) and (801-196)

Complete Course Listing

543-106**Credits:** 3

This course will cover topics related to health promotion in the context of the family. It will cover nursing care of the developing family, which includes reproductive issues, pregnancy, labor and delivery, post-partum, the newborn, and the child. Recognizing the spectrum of healthy families it will discern patterns associated with adaptive and maladaptive behaviors applying mental health principles. An emphasis is placed on teaching and supporting healthy lifestyle choices. Nutrition, exercise, stress management, empowerment, and risk reduction practices are highlighted. Study of the family will cover dynamics, functions, discipline styles, and stages of development.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-101) and (543-102) and (543-103) and (543-104)**Co-requisites:** (806-179) and (801-196)

Complete Course Listing

543-107**Credits:** 2

This clinical experience applies nursing concepts and therapeutic interventions to clients across the lifespan. It also provides an introduction to concepts of teaching and learning. Extending care to include the family is emphasized.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-101) and (543-102) and (543-103) and (543-104)**Co-requisites:** (806-179) and (801-196)

Complete Course Listing

543-108**Credits:** 2

This clinical experience applies nursing concepts and therapeutic nursing interventions to groups of clients. It also provides an introduction to leadership, management, and team building.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-101) and (543-102) and (543-103) and (543-104)**Co-requisites:** (806-179) and (801-196)

Complete Course Listing

543-109**Credits:** 3

Complex Health Alterations I prepares the learner to expand knowledge from previous courses in caring for clients across the life span with alterations in cardiovascular, respiratory, endocrine, and hematologic systems as well as clients with fluid/electrolyte and acid-base imbalance, and alterations in comfort.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-105) and (543-106) and (543-107) and (543-108)**Co-requisites:** (806-197) and (809-198)

Complete Course Listing

543-110**Credits:** 2

This course will cover topics related to the delivery of community and mental health care. Specific health needs of individuals, families, and groups will be addressed. Attention will be given to diverse and at-risk populations. Mental health concepts will concentrate on adaptive/maladaptive behaviors and specific mental health disorders. Community resources will be examined in relation to specific types of support offered to racial, ethnic, economically diverse individuals and groups.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-105) and (543-106) and (543-107) and (543-108)**Co-requisites:** (806-197) and (809-198)

Complete Course Listing

543-111**Credits:** 3

This intermediate level clinical course develops the RN role when working with clients with complex health care needs. A focus of the course is developing skills needed for managing multiple clients across the lifespan and priorities. Using the nursing process, students will gain experience in adapting nursing practice to meet the needs of clients with diverse needs and backgrounds.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-105) and (543-106) and (543-107) and (543-108)**Co-requisites:** (806-197) and (809-198)

Complete Course Listing

543-112**Credits:** 1

This course focuses on the development of advanced clinical skills. Content includes advanced IV skills, blood product administration, chest tube systems, basic EKG interpretation and nasogastric/feeding tube insertion.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-105) and (543-106) and (543-107) and (543-108)**Co-requisites:** (806-197) and (809-198)

Complete Course Listing

543-113**Credits:** 3

Complex Health Alterations II prepares the learner to expand knowledge and skills from previous courses in caring for clients with alterations in the immune, neuro-sensory, musculoskeletal, gastrointestinal, hepatobiliary, renal/urinary and the reproductive systems. The learner will also focus on management of care for clients with high-risk perinatal conditions, high-risk newborns and the ill child. Synthesis and application of previously learned concepts will be evident in the management of clients with critical/life threatening situations.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-109) and (543-110) and (543-111) and (543-112)**Co-requisites:** (809-196)

Complete Course Listing

543-114**Credits:** 2

This course covers nursing management and professional issues related to the role of the RN. Emphasis is placed on preparing for the RN practice.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-109) and (543-110) and (543-111) and (543-112)**Co-requisites:** (809-196)

Complete Course Listing

543-115**Credits:** 3

This advanced clinical course requires the student to integrate concepts from all previous courses in the management of groups of clients facing complex health alterations. Students will have the opportunity to further develop critical thinking skills using the nursing process in making clinical decisions. Continuity of care through interdisciplinary collaboration is emphasized.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-109) and (543-110) and (543-111) and (543-112)**Co-requisites:** (809-196)

Complete Course Listing

543-116**Credits:** 2

This clinical experience prepares the student to assume the role of graduate nurse. The course promotes clinical decision-making, delegation, and collaboration to achieve client and organizational outcomes. Continued professional development is fostered.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (543-109) and (543-110) and (543-111) and (543-112)**Co-requisites:** (809-196)

Complete Course Listing

543-200**Credits:** 2

This is a basic 75 hour Nursing Assistant course, using the current "Emergency Nurse Assistant Course Design", per the state of Wisconsin. Students who successfully complete this course will be eligible to take the competency evaluation for inclusion on the Wisconsin Nurse Aide Registry as a Nursing Assistant/Home Health Aide. The Nursing Assistant works under the supervision of an RN or LPN performing bedside and personal care, in a "practical setting", gathering data such as vital signs or in-take and out-put, and performing basic therapeutic interventions such as range of motion exercises. The course includes theory lecture (face-to-face or Hybrid), skills lab practice, and a clinical experience in a long-term care setting, which is currently in a "Practical Setting" lab.

Aid Code: 30 - Short-term.

Pre-requisites: ((Background Check, P) and (Health Forms Complete, P)) and ((COMPASS Pre-Algebra Skills, 025 or ACT Math, 14 or Pre ACT Math, 14 or TABE 10 D Math Composite, 551 or ASSET Numerical Skills, 35 or AccuPlacer Arithmetic, 040 or TABE Math, 080 or Next Gen AccuPlacer Arithmetic, 232 or SAT Mathematics, 300 or Test Waived-College Degree) and (COMPASS Reading Skills, 062 or ACT Reading, 13 or Pre ACT Reading, 13 or TABE 10 D Reading, 561 or AccuPlacer Reading Comp, 055 or ASSET Reading Skills, 31 or Next Gen AccuPlacer Reading, 209 or SAT Reading, 240 or Test Waived-College Degree or TABE Reading, 080)) or ((858-790 or 838-104 or 834-109 or 854-765))

Complete Course Listing

543-300 Nursing Assistant**Credits:** 3

This is a basic 120 hour Nursing Assistant course. Students who successfully complete this course will be eligible to take the competency evaluation for inclusion on the Wisconsin Nurse Aide Registry as a Nursing Assistant/Home Health Aide. The Nursing Assistant works under the supervision of an RN or LPN performing bedside and personal care, gathering data such as vital signs or in-take and out-put, and performing basic therapeutic interventions such as range of motion exercises.

The course includes theory lecture, skills lab practice, and a clinical experience in a long-term care setting.

Aid Code: 30 - Short-term.

Pre-requisites: ((Background Check, P) and (Health Forms Complete, P)) and ((COMPASS Pre-Algebra Skills, 025 or ACT Math, 14 or Pre ACT Math, 14 or TABE 10 D Math Composite, 551 or ASSET Numerical Skills, 35 or AccuPlacer Arithmetic, 040 or TABE Math, 080 or Next Gen AccuPlacer Arithmetic, 232 or SAT Mathematics, 300 or Test Waived-College Degree) and (COMPASS Reading Skills, 062 or ACT Reading, 13 or Pre ACT Reading, 13 or TABE 10 D Reading, 561 or AccuPlacer Reading Comp, 055 or ASSET Reading Skills, 31 or Next Gen AccuPlacer Reading, 209 or SAT Reading, 240 or Test Waived-College Degree or TABE Reading, 080)) or ((858-790 or 838-104 or 834-109 or 854-765))

[Complete Course Listing](#)**543-302A Nursing Assistant - Advanced****Credits:** 2

This is a 72 hour course that builds on the knowledge and skills of Nursing Assistant course and prepares a student to function in an Acute Care (Hospital) setting. Skills such as blood glucose values, pre and post-op patient care, assisting with sterile procedures and, blood pressure monitoring are learned. Students also receive a certification in advanced dementia care. The course combines theory lecture, skills lab demonstrations and a clinical experience in acute care. Evaluation of student performance includes a written exam, return demonstrations, clinical performance, a research paper and an oral presentation. Current American Heart Association Healthcare Provider CPR Certification is required for entry into this course.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (Background Check, P) and (Health Forms Complete, P) and (CPR for Health Students, P)

Co-requisites: (543-300)[Complete Course Listing](#)**543-309 Working w/Special Populations - Nsg Assist****Credits:** 1

This one credit course is intended to give a HealthCare student the opportunity to explore working with persons with Developmental Disabilities(DD). The course will include learning about several selected, commonly occurring DD types and what medical conditions are more likely to affect each population as well as techniques for successfully working with this population. The externship component will include following one DD person including time at their place of residence/group home as well as time at their place of employment (i.e. KANDU).

Aid Code: 30 - Short-term.**Pre-requisites:** 543-302A[Complete Course Listing](#)**543-311 Personal Care Worker****Credits:** 1

This course develops the learner's professional skills as a personal assistant, direct support professional and personal care aide. Learners will gain knowledge/skills in communication, nutrition and eating assistance, health care safety and basic hands-on caregiving. The curriculum will include textbook readings, workbook assignments, reviews of supporting material and weekly lab activities. The learner will demonstrate competency in a final written exam and selected client-care skills.

Aid Code: 30 - Short-term.[Complete Course Listing](#)

Office Technology (106)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

106-103 Medical Transcription**Credits:** 4

This course provides the student with instruction using audio equipment and medically oriented materials. Emphasis is placed on developing the ability to use references to produce accurate, correctly formatted medical reports in an efficient manner, using correct spelling, punctuation, proofreading, and grammar. Medical report style and format are reviewed. The student will produce various medical and surgical reports representative of those typed in hospitals and clinics using a word processing program. Touch keyboarding with an accurate speed level of 40 wpm or more, basic computer, and advanced word processing skills are needed. Students should also have a strong background in grammar, punctuation, medical terminology, and medical document formatting.

Aid Code: 10 - Associate Degree.

Pre-requisites: (160-105 or 106-105) and (106-118) and (Typing Score, 040)

[Complete Course Listing](#)**106-105 Medical Editing and the Electronic Medical Record****Credits:** 3

The emphasis of this course is on the creation and editing of medically oriented documents. The AHDI Book of Style will be used during a module that will include an introduction to transcription. Analysis and summarization of medical records will be covered. Students will edit speech recognition files and learn to take meeting minutes through role playing scenarios.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-120 or 501-101) and (106-127) and (106-185) and (806-194 or 806-177)

[Complete Course Listing](#)

106-107 Computerized Patient Billing

Credits: 3

This course emphasizes computerized patient billing procedures in the medical office environment. The students will input patient information, charges, payments, and appointments. In addition, reports and insurance forms are generated using a microcomputer-billing program. Confidentiality, claims adjudication, HIPAA, and compliance issues will be discussed.

Aid Code: 10 - Associate Degree.

Pre-requisites: 106-113

[Complete Course Listing](#)

106-109 Medical Office Administration

Credits: 3

In this capstone class students demonstrate their knowledge of all skills learned in the Medical Administrative Specialist program through simulation, discussion, research, and teamwork. Units of instruction will also include career development and professionalism in the health care setting.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-118) and (106-120 or 501-101) and (806-194 or 806-177 or 806-195)

[Complete Course Listing](#)

106-110 Legal Office Professionalism

Credits: 3

This course is a review of business English including spelling, capitalization, number usage, punctuation, word division, possessives, editing, and proofreading skills. Composition at the computer is also a part of this class. Specific legal office communication examples will be used. The course includes work on job finding skills, also. Resume writing, cover letter writing, and interviewing skills are included. A unit on using mail, the telephone, and e-mail in a legal office will be included as well as units on professional dress and ethics.

Aid Code: 10 - Associate Degree.

Pre-requisites: 106 180

[Complete Course Listing](#)

106-113 Health Insurance

Credits: 3

The student will gain knowledge and practical skill development in the health care insurance area. An introduction to insurance including understanding private and governmental providers; specific insurance terminology and their meaning; understanding the role of medical coding; privacy and HIPAA; and effectively using technology and resources for problem solving. The student will also be able to better understand his/her personal insurance coverage and some basic coding will be covered.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Test Waived-College Degree or 838-104) and (COMPASS Writing Skills, 070 or ACT English, 18 or ASSET Writing Skills, 44 or AccuPlacer Sentence Skills, 083 or Test Waived-College Degree or 831-103 or 801-195 or 801-136)

[Complete Course Listing](#)

106-114 Healthcare Records Management

Credits: 3

This course covers the systematic control of information in each phase of the record life cycle: creation, distribution, use, maintenance, and disposition. Topics will include systems of filing and storage (general and medical specific); organizing, managing, and controlling the system; potential careers; and trends in technology. Ethical/legal issues in the healthcare field will be addressed. Information on the EHR/EMR (electronic health record/electronic medical record) will also be covered. Simulations will provide hands-on experience with major filing classification systems in both paper and computer database (EHR) formats. Touch keyboarding and basic computers skills are necessary for this course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-127)

[Complete Course Listing](#)

106-116 Customer Service Essentials

Credits: 3

This course is intended to teach students to identify internal/external customers, develop verbal, nonverbal, and listening communication skills, develop problem-solving techniques, and ways of adding value to a customer interaction. Additionally, students will examine how technology and social media impacts customer service, examine the impact of service breakdowns, and examine campaigns for customer loyalty. Students will develop the ability to lead and expand the customer service process, learn techniques for dealing with unhappy customers, and build skills for analyzing and prioritizing customer needs. The course will utilize MS Outlook as a business communication tool.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

106-118 Pharmacology for Medical Administrative Specialist/Coder

Credits: 2

Pharmacology for MAS (Medical Administrative Specialists) will provide an introduction to the use of pharmacology terminology and context. Included is information on medication actions, dosage forms, routes of administration, and drug uses. Students will research and create presentations on the pathophysiology of the human body in conjunction with treatments used to combat various diseases and conditions. Emphasis is on the terminology necessary for medical reports used in transcription and coding.

Aid Code: 10 - Associate Degree.

Pre-requisites: (103-106) and (106-120 or 501-101) and (806-194 or 806-177)

[Complete Course Listing](#)

106-120 Medical Terminology for MAS**Credits:** 3

This course provides a combination of the study of medical vocabulary and the application of that vocabulary in an office setting. Students will learn the pronunciation, spelling, definition, and correct usage of medical terms used in a variety of healthcare office applications, with an emphasis on terminology necessary for medical reports used in transcription and coding. Students will also learn how to divide medical words into their component parts: the root word, the suffix, the prefix, and the combining form.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Writing Skills, 44 or COMPASS Writing Skills, 070 or ACT English, 18 or AccuPlacer Sentence Skills, 083 or Test Waived-College Degree or 801-195 and (COMPASS Reading Skills, 073 or 801-136) or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Test Waived-College Degree or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

[Complete Course Listing](#)**106-124 Supervised Occupational Experience-Medical Office****Credits:** 1

In this course, students apply and interview for medical office internship placements. Once selected, the student will apply the knowledge and skills obtained in the classroom to work environment.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-114 or 160-114) and (106-136 or 160-136) and (160-185) and (530-102 or 530-150)

[Complete Course Listing](#)**106-127 Administrative Office Communications****Credits:** 3

Students will develop proofreading skills for identifying and correcting punctuation, grammar, spelling, and usage errors. This course also includes editing skills for improving format, consistency, clarity, conciseness, and completeness by incorporating the study of Business English. Activities require applying proofreading and editing skills to realistic business communications in both print and electronic formats. Touch keyboarding and basic word processing skills are helpful.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Test Waived-College Degree) and (COMPASS Writing Skills, 070 or ACT English, 18 or ASSET Writing Skills, 44 or AccuPlacer Sentence Skills, 083 or Test Waived-College Degree) and (838-104 or 831-103 or 801-195 or 801-136)

[Complete Course Listing](#)**106-132 Legal Transcription****Credits:** 3

Instruction is given on the use of transcription with emphasis on the production of legal transcription. The goal in this class is the production of error free documents with periodic spelling checks. There is added emphasis on the improvement of the use of legal terminology, English, proofreading, and listening skills.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-133) and (106-152)[Complete Course Listing](#)**106-133 Business Writing and Document Formatting****Credits:** 3

Document Formatting further develops keyboarding skills and emphasizes the efficient production of correctly formatted professional business documents. Additionally, the class will focus on applying correct grammar/spelling/punctuation/word usage to business communications and the use of appropriate communication style. The ability to use word processing software is expected at the beginning of the course along with touch keyboarding skill (a minimum of 45 wpm for 5 minutes with 5 or fewer uncorrected errors).

Aid Code: 10 - Associate Degree.**Pre-requisites:** 106-146[Complete Course Listing](#)**106-134 Legal Research and Writing****Credits:** 3

This course covers citing federal and state cases, statutes, legislative history materials, treatises, law reviews, as well as some additional secondary sources. Finding materials from citations is included. The basics of computerized legal research and writing, along with the preparation of legal documents, are stressed.

Aid Code: 10 - Associate Degree.**Pre-requisites:** 106-152[Complete Course Listing](#)**106-136 Patient Billing and Reimbursement****Credits:** 4

This course emphasizes computerized patient billing procedures in the health-care environment utilizing practice management software and electronic health records. Reports and insurance forms are generated using microcomputer billing software for physician and hospital billing. The students will input patient information, charges, payments and appointments. Included in patient billing is the understanding of various collection practices, compliance, coding and linkage, and hospital billing. Correct use of telephone skills and being sensitive to confidentiality will be covered. Students will continue to build upon previous medical insurance and patient billing classes by reviewing in depth various medical insurance providers and completing proper documentation for billing.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-113) and (106-120 or 501-101)[Complete Course Listing](#)

106-138 Introduction to Law and Legal Terminology

Credits: 3

This course will familiarize students with the fundamental principles and procedures of the legal system and introduce them to legal terminology. The goal of the course is to prepare students with basic legal knowledge to progress to more advanced legal courses.

Aid Code: 10 - Associate Degree.

Complete Course Listing

106-139 Records Management for Law Offices

Credits: 3

This course will familiarize students with the fundamental principles and procedures of managing records in a legal environment. Students will work on their English and proofreading skills with paper and electronic records. Students will be introduced to records management systems related to the office environment.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-138) and (106-181)

Complete Course Listing

106-140 Keyboarding

Credits: 1

Students will master the computer keyboard by touch including the letters and numeric keypad. Computer software is used to begin development of acceptable speed and accuracy levels.

Aid Code: 10 - Associate Degree.

Complete Course Listing

106-141 Legal Document Processing

Credits: 3

During the first half of this course, students will learn WordPerfect. During the second half of this course, students will learn how to read, understand, and keyboard legal documents. They will acquire experience in formatting and creating a variety of documents, printed forms, and court papers. Proofreading habits will be refined.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-133) and (106-180 or 106-140)

Complete Course Listing

106-142 Customer Service Essentials

Credits: 1

This course is intended to teach students to identify internal/external customers, develop verbal, nonverbal, and listening communication skills, develop problem-solving techniques, and ways of adding value to a customer interaction. Students will develop the ability to lead and expand the customer service process, learn techniques for dealing with unhappy customers, and build skills for analyzing and prioritizing customer needs. The course will utilize MS Outlook as a business communication tool.

Aid Code: 10 - Associate Degree.

Pre-requisites: (103-128 or 103-106) and (106-127)

Complete Course Listing

106-143 Skillbuilding

Credits: 1

This course focuses on the development of keyboarding speed and accuracy. Diagnostic computer software allows students to determine their own particular weaknesses and error patterns and then select drills specifically designed to correct those weaknesses. The grading structure in this course is based on individual student speed/accuracy levels upon entering the course. A minimum touch (no finger or key watching) typing speed of 20 wpm/5 min is required for entry into the course. Students who are not touch typists should first enroll in 106-140 Keyboarding.

This course is a requirement for the Administrative Professional, Legal Administrative Professional, and the Medical Administrative Specialist programs. There is no test out available for this course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-140 or Typing Score, 020)

Complete Course Listing

106-144 Meeting and Event Planning

Credits: 2

This course introduces learners to planning activities, managing the finances, promoting the meeting/event, facilitating the on-site needs preparing minutes, and conducting follow-up activities while communicating effectively with all stakeholders. Learners complete several in-house and local meetings and events and plan complex meetings and events that include domestic and international ground and air travel and lodging for senior executives. Learners will prepare travel itineraries and items of special interest to the traveler.

Aid Code: 10 - Associate Degree.

Pre-requisites: (103-128) and (106-127) and (106-142)

Co-requisites: (101-111)

Complete Course Listing

106-145 Information Technology Essentials

Credits: 3

This course provides an introduction to computers and information processing terms, hardware, software, networks, and buying a computer. Major topics also include effective use of a web browser, Microsoft Outlook's electronic mail, calendar, and contacts modules, and the basics of Windows operating system. Touch keyboarding skills are recommended.

Aid Code: 10 - Associate Degree.

Complete Course Listing

106-146 Word Processing Applications

Credits: 3

Students use word processing software to create, format, and edit business documents applying features such as headers/footers, macros, merge, templates, tables, columns, outlines, fonts, and graphics. Software functions, theory and production will be assessed. Students will be prepared to take both the core level and expert level Microsoft Office Specialist certification exams. Touch keyboarding skills of 40 wpm for 5 minutes with 5 or fewer uncorrected errors are required for this course. Basic computer skills are recommended.

Aid Code: 10 - Associate Degree.

Pre-requisites: Typing Score, 040

Complete Course Listing

106-147 Administrative Office Management 1**Credits:** 1

This course introduces the administrative professional to their leadership role in the office setting as well as conflict resolution and problem solving techniques. Learners are also introduced to MS Access and process mapping tools.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (103-138) and (106-142) and (106-144)**Co-requisites:** (106-150)

Complete Course Listing

106-148 Administrative Professional Internship**Credits:** 1

This course is a work-based learning program at a business in the community. It is intended to provide students with actual work experience. Students will obtain a position at an approved worksite, and work a minimum of 48 hours under the supervision of both their instructor and an onsite supervisor.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-144) and (104-112) and (102-109) and (116-193)**Co-requisites:** (106-150) and (101-135) and (102-155)

Complete Course Listing

106-150 Administrative Office Management 2**Credits:** 1

In this course, learners practice problem solving, time management, professional communication, and conflict resolution skills through research and case studies. Learners practice using MS Access and process mapping tools. Learners also take the role as office leader, trainer, and coach for new employees. Learners develop a new employee onboarding plan that includes process maps for simulated complex office processes.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-144)**Co-requisites:** 106-147)

Complete Course Listing

106-151 Legal Office Procedures**Credits:** 4

This course is designed to cover the practical aspects of law office management, including the functions of management, administrative procedures, docket control, time and billing procedures, and case management. Job-seeking skills will be covered, including the preparation of a resume.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-176)

Complete Course Listing

106-152 Legal Document Production 1**Credits:** 3

This course coordinates with other courses to provide specialized training in the understanding and actual preparation of legal documents. Areas of specialization include civil litigation, real estate, and divorce. Other topics covered include ethics, client interviews and interview forms, and court structure.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-138) and (106-146) and (106-181)

Complete Course Listing

106-153 Administrative Office Procedures**Credits:** 3

This course covers office procedures concepts and practices. Students will develop proofreading skills for identifying and correcting punctuation, grammar, spelling, and usage errors. This course also includes editing skills for improving format, consistency, clarity, conciseness, and completeness. Activities require applying proofreading and editing skills to realistic business communications in both print and electronic formats. In addition, students learn the Association of Records Managers and Administrators (ARMA) filing rules through experience with various filing methods in a practice simulation. Students will also be introduced to file maintenance procedures, supplies, and equipment. Critical-thinking, problem-solving, and job performance skills in a global business environment are also included. Touch keyboarding and basic word processing skills are helpful.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-145 or 106-116)

Complete Course Listing

106-154 Legal Document Production 2**Credits:** 3

Advanced legal procedures intended to provide more in-depth training on the order of events in several fields of law are presented in this course. Attorneys with expertise in each of these areas of law assist in teaching the units. The primary course objective is to provide in-depth procedural information in each area of law.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-152)

Complete Course Listing

106-155 Publication Design and Production**Credits:** 3

Utilizing software such as Adobe InDesign, Photoshop, and Illustrator, this course introduces basic design principles related to business publications. Includes examination and use of technology tools most commonly used for publications in a business office. The focus of this course is based on touch keyboarding skills of 40 words per minute or higher in a 5 minute test with 5 or fewer errors and basic computer skills.

Aid Code: 10 - Associate Degree.

Complete Course Listing

106-156 Business Database**Credits:** 3

This course is designed to teach the basic elements of Microsoft Access. Applications will include the creation of a database; finding, displaying, and deleting records; providing listings and reports; making tables; and managing mailing lists. Students will be prepared to take the Microsoft Office Specialist certification exam. Basic computer skills are expected.

Aid Code: 10 - Associate Degree.

Complete Course Listing

106-158 Supervised Occupational Experience-Administrative Professional
Credits: 1

This course consists of 72 hours of practical experience in an office environment. Students will be expected to obtain a job and demonstrate technical and interpersonal skills necessary for office employment. BTC instructors will coordinate management of students in approved positions under the supervision and guidance of cooperating employers. Students will also finalize employment portfolios and other employment related documents.

Aid Code: 10 - Associate Degree.

Pre-requisites: (101-102) and (106-156) and (106-165) and (106-181) and (106-182) and (106-183)

Co-requisites: (106-160)

[Complete Course Listing](#)

106-159 Business Spreadsheets
Credits: 3

Using Microsoft Excel, students will learn the elements of a spreadsheet: worksheet capabilities (create, modify, enhance, save, print, and erase worksheets), graphing capabilities (create graphs, bar charts, and pie charts), and database capabilities (create, sort, and query). Students will be prepared to take both the core level and expert level Microsoft Office Specialist certification exams. Basic computer skills are expected.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

106-160 Administrative Office Management
Credits: 3

This capstone course focuses on the leadership role for office management and enhances skills necessary to provide organizational and technical support in a contemporary office setting. Topics covered include project management, research, and travel and meeting planning.

Aid Code: 10 - Associate Degree.

Pre-requisites: (103-106) and (106-116) and (106-181) and (106-183)

[Complete Course Listing](#)

106-165 Business Presentations and Training
Credits: 2

Microsoft PowerPoint software will be used to create dynamic, professional-looking presentations. Emphasis will be on providing training to administrative staff that will cover analyzing/determining training needs, understanding learning styles, development of resources/curriculum, using presentation/training technologies, and evaluating training success. Students will be prepared to take the Microsoft Office Specialist certification exam. Touch keyboarding and basic word processing skills are necessary.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

106-176 Legal Office Applications
Credits: 3

Legal Office Applications is a course designed to provide the student with the foundational skills needed to operate a computer in a law office environment and an introduction of some typical software applications used in a legal office.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-146) and (106-181)

[Complete Course Listing](#)

106-181 Office Professionalism
Credits: 3

The mission of the course is to empower students to enhance performance through personal self-management. The course, which is built around Tom Rath's "StrengthsFinder," provides an opportunity to develop both personally and professionally in effectively dealing with change. In addition, students will focus on the soft skills of team building and customer service through the use of problem-based video "field-trips". This course will utilize MS Outlook as a business communication tool.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

106-182 Office Project Management
Credits: 3

This course will introduce students to Microsoft Office Project and Visio. This project-based course will have students apply basic skills and strategies for making effective business decisions, explore theory and application of project management, develop business acumen, and apply problem solving tools/techniques to business situations through the integration of the software resources presented.

Aid Code: 10 - Associate Degree.

Pre-requisites: (106-145 or 106-116)

[Complete Course Listing](#)

106-183 Meeting and Event Planning
Credits: 3

This course provides knowledge in basic project management skills utilizing meeting and event planning as the primary focus. Topics include conducting the planning activities, managing the finances, promoting the meeting/event, facilitating the on-site needs, analyzing contracts, preparing minutes, and conducting follow-up activities while communicating effectively with all stakeholders. The focus of this course is based on touch keyboarding skills of 40 words per minute or higher in a 5 minute test with 5 or fewer errors and basic computer skills.

Aid Code: 10 - Associate Degree.

Co-requisites: (106-116) and (106-181)

[Complete Course Listing](#)

106-184 Web Technologies Office Management**Credits: 3**

Intended to introduce students to advanced applications used by office professionals, this course provides an introduction to programs such as Adobe Acrobat, Illustrator, and Dreamweaver, Microsoft Publisher, and/or other computer applications used by administrative professionals. Students will apply basic skills and strategies for designing and maintaining a website and/or class intranet while exploring web office processes and procedures.

Aid Code: 10 - Associate Degree.

Complete Course Listing

106-185 Medical Document Formatting**Credits: 3**

Students will learn to use word processing software to create, format, and edit medical documents. Course includes the development of proofreading skills for identifying and correcting punctuation, grammar, spelling, and usage errors. Work will also be done to improve speed and accuracy through the use of timed writings.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (106-127) and (Typing Score, 030)

Complete Course Listing

106-330 Intro to Medical Transcription**Credits: 3****Aid Code:** 31 - One-year Technical Diploma.

Pharmacy (536)

Information provided includes course descriptions by subject only. For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

536-302 Introduction to Pharmacy Practice**Credits: 1**

This course is an overview of the state and federal laws governing pharmacy practice. It will also provide an overview of the materials a student must master to work as a pharmacy technician. The student will learn the challenges associated with working as a healthcare professional. A thorough knowledge of weights and measures, and proficiency in the areas of fractions, ratios, proportions, decimals, and metric system conversions is strongly recommended for successful completion of this course.

Aid Code: 31 - One-year Technical Diploma.

Complete Course Listing

536-312 Therapeutic Agents**Credits: 4**

Students will learn the anatomy and physiology of the 13 systems in the human body. In addition, they will learn diseases that affect these systems. Students will be shown an overview of medicinal treatments for the diseases.

Aid Code: 31 - One-year Technical Diploma.**Pre-requisites:** (Background Check, P or Background Check, N)**Co-requisites:** (536-302)

Complete Course Listing

536-322 Pharmacy Calculations**Credits: 2**

The student will use basic algebra, ratios, conversions, and everyday mathematical formulas to complete pharmaceutical calculations.

Aid Code: 31 - One-year Technical Diploma.**Pre-requisites:** (Background Check, P or Background Check, N)**Co-requisites:** (536-302)

Complete Course Listing

536-332 Pharmacy Practice**Credits: 2**

Students will learn the day to day duties of a Pharmacy Technician in many different settings. Students will learn how to order medications, supplies, and devices from wholesalers. They will also learn how to maintain a profitable inventory and how to service pharmaceutical equipment. Students will learn the required record keeping necessary for maintaining a pharmacy with respect to state and federal laws.

Aid Code: 31 - One-year Technical Diploma.**Pre-requisites:** (Background Check, P or Background Check, N)**Co-requisites:** (536-302) and (536-312)

Complete Course Listing

536-342 Prescription Processing

Credits: 3

In this course, students will learn how to interpret prescription orders and enter the orders into a computer system. Students will learn the top 200 medications in brand and generic forms, as well as their strengths, uses, and auxiliary labels. Students will also learn which medications are controlled and how they need to be handled differently compared to non-controlled medications.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (536-302) and (536-312) and (536-322)

[Complete Course Listing](#)

536-352 Pharmacy Customer Service

Credits: 2

The main focus of this class is professionalism on the job. Students will learn the soft skills needed to deal with difficult situations. Working with customers, phone skills, and conflict resolution are keys to this course. Students will participate in role plays in the classroom to learn how to act during adverse situations that may arise in a pharmacy setting.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (536-302)

[Complete Course Listing](#)

536-362 Pharmaceutical Preparations

Credits: 4

This course covers the variety of medication preparations for patient use. Students will prepare IV solutions, IM and SQ injections, various compounded creams, ointments, capsules, and suppositories. Students will label final products correctly and will use appropriate auxiliary stickers. Students will also review mathematical calculations.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (536-302) and (536-322)

[Complete Course Listing](#)

536-372 Payment Processing

Credits: 2

In this course the student will learn how to bill different entities for prescriptions and prescription services. This includes cash paying customers as well as those with insurance. This course provides an introduction to the differences between HMOs, PPOs, state funded insurances, federally funded insurances, and workman's compensation claims. This course introduces students to the information needed from the patient and pharmacy to process third party claims. Students participate in role playing scenarios for contacting insurance companies when experiencing difficulties receiving payment for prescriptions.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (536-302) and (536-322)

Co-requisites: (536-342)

[Complete Course Listing](#)

536-382 Pharmacy Clinical Practice

Credits: 2

This course requires Pharmacy Technician students to integrate and apply knowledge and skills from all previous Pharmacy Technician courses in acute patient care settings. The settings include and are not limited to: retail pharmacies, hospital pharmacies, home infusion pharmacies, clinical pharmacies, compounding pharmacies, and nursing home pharmacies. The students will work under the direct supervision of pharmacists and certified technicians.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (536-312) and (536-322) and (536-332) and (501-107 or 103-106) and (501-101) and (801-390 or 801-311)

Co-requisites: (536-342) and (536-352) and (536-362) and (536-372)

[Complete Course Listing](#)

Physical Therapy Assistant (524)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

524-139 PTA Patient Interventions

Credits: 4

An introduction to basic skills and physical therapy interventions performed by the physical therapist assistant.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Physical Therapist Assistant Program.

[Complete Course Listing](#)

524-140 PTA Professional Issues 1

Credits: 2

Introduces the history and development of the physical therapy program, legal and ethical issues, the interdisciplinary health care team, and professional communication skills.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

524-142 PTA Therapeutic Exercise

Credits: 3

Provides instruction on the implementation of a variety of therapeutic exercise principles. Learners implement, educate, adapt, and assess responses to therapeutic exercises.

Aid Code: 10 - Associate Degree.

Pre-requisites: (524-156) and (524-157)

[Complete Course Listing](#)

524-143 PTA Therapeutic Modalities

Credits: 4

Develops the knowledge and technical skills necessary to perform numerous therapeutic modalities likely to be utilized as a PTA.

Aid Code: 10 - Associate Degree.

Pre-requisites: (524-139)

[Complete Course Listing](#)

524-144 PTA Principles of Neuromuscular Rehabilitation**Credits:** 4

Integrates concepts of neuromuscular pathologies, physical therapy interventions, and data collection in patient treatment.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (524-142)

Complete Course Listing

524-145 PTA Principles of Musculoskeletal Rehabilitation**Credits:** 4

Integrates concepts of musculoskeletal pathologies, physical therapy interventions, and data collection in patient treatment.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (524-138 or 524-156) and (524-139) and (524-141 or 524-157)**Co-requisites:** (524-142) and (524-143) and (524-147)

Complete Course Listing

524-146 PTA Principles of Cardiopulmonary & Integumentary Conditions**Credits:** 3

Integrates concepts of cardiopulmonary and integumentary pathologies, physical therapy interventions, and data collection in patient treatment.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (524-139) and (524-142)

Complete Course Listing

524-147 PTA Clinical Practice 1**Credits:** 2

Provides a part-time clinical experience to apply foundational elements, knowledge, and technical skills pertinent to physical therapy practice.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (524-139)**Co-requisites:** (524-142) and (524-143)

Complete Course Listing

524-148 PTA Clinical Practice 2**Credits:** 3

Provides another part-time clinical experience to apply foundational elements, knowledge, and technical skills required of the entry level physical therapist assistant in various practice settings.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (524-142) and (524-143) and (524-145) and (524-147)**Co-requisites:** (524-140) and (524-144) and (524-146)

Complete Course Listing

524-149 PTA Rehab Across the Lifespan**Credits:** 2

A capstone course that integrates concepts of pathology, physical therapy interventions and data collection across the lifespan. In addition the PTA's role in health, wellness and prevention; reintegration, and physical therapy interventions for special patient populations will be addressed.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (524-143) and (524-144) and (524-145) and (524-146) and (524-148)

Complete Course Listing

524-150 PTA Professional Issues 2**Credits:** 2

Incorporates professional development, advanced legal and ethical issues, healthcare management and administration, and further development of professional communication strategies.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (524-140) and (524-144) and (524-145) and (524-146) and (524-147)

Complete Course Listing

524-151 PTA Clinical Practice 3**Credits:** 5

Provides a full-time clinical experience to apply foundational elements, knowledge, and technical skills required of the entry level physical therapist assistant in various practice settings.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (524-140) and (524-144) and (524-146) and (524-148)**Co-requisites:** (524-149) and (524-150)

Complete Course Listing

524-156 PTA Applied Kinesiology 1**Credits:** 4

Introduces basic principles of musculoskeletal anatomy, kinematics, and clinical assessment. Students locate and identify muscles, joints, and other landmarks of the lower quadrant in addition to assessing range of motion and strength.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Physical Therapist Assistant Program.

Complete Course Listing

524-157 PTA Applied Kinesiology 2**Credits:** 3

Applies basic principles from PTA Kinesiology 1 to the axial skeleton and upper quadrant including location and identification of muscles, joints and other landmarks. Assess range of motion and strength of the axial skeleton and upper quadrant. Integrate analysis of posture and gait.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Physical Therapist Assistant Program.**Pre-requisites:** (801-195 or 801-136) and (801-196) and (804-107) and (806-139) and (806-177)**Co-requisites:** (524-156) and (524-139)

Radiologic Technology (526)

Information provided includes course descriptions by subject only. For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

526-122 CT Patient Interactions and Management
Credits: 1

This course prepares the student to proficiently assess, manage, and interact with patients during Computed Tomography examinations. Course content includes all aspects of patient assessment and preparation as well as venipuncture and contrast media administration.

Aid Code: 10 - Associate Degree.
Complete Course Listing

526-123 CT Radiation Safety and Dose
Credits: 1

This course prepares the student to proficiently manage all aspects of radiation safety in Computed Tomography as well as information related to the patient dose associated with Computed Tomography examinations. Course content includes a review of radiation physics as well as CT radiation protection principles.

Aid Code: 10 - Associate Degree.
Complete Course Listing

526-124 CT Image Formation
Credits: 1

This course provides the student with information relative to CT system principles, operation, and components as well as the imaging parameters and data acquisition parameters the technologist can manipulate. Course content includes all of the image processing steps required to produce acceptable CT images.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Computed Tomography Program.
Complete Course Listing

526-125 CT Image Evaluation and Archiving
Credits: 1

This course provides the student with information relative to the evaluation and archiving of CT images. Course content includes the components of the image display, factors affecting image quality, and the recognition and reduction of image artifacts. This course also includes content related the informatics necessary for the storage of CT images.

Aid Code: 10 - Associate Degree.
Complete Course Listing

526-126 CT Procedures of the Head, Spine, & Musculoskeletal System
Credits: 1

This course provides students with instruction on the performance CT procedures of the Head, Spine, and Musculoskeletal System. Course content includes information related to procedure indications and contraindications, patient orientation, contrast media usage and positioning in these areas as well as differentiation of specific structures, patient symptomology and pathology.

Aid Code: 10 - Associate Degree.
Complete Course Listing

526-127 CT Procedures of the Neck and Chest
Credits: 1

This course provides students with instruction on the performance CT procedures of the Neck and Chest. Course content includes information related to procedure indications and contraindications, patient orientation, contrast media usage and positioning in these areas as well as differentiation of specific structures, patient symptomology and pathology.

Aid Code: 10 - Associate Degree.
Complete Course Listing

526-128 CT Procedures of the Abdomen and Pelvis
Credits: 1

This course provides students with instruction the performance CT procedures of the Abdomen and Pelvis. Course content includes information related to procedure indications and contraindications, patient orientation, contrast media usage and positioning in these areas as well as differentiation of specific structures, patient symptomology and pathology.

Aid Code: 10 - Associate Degree.
Complete Course Listing

526-130 Introduction to Diagnostic Medical Sonography**Credits:** 2

This course introduces the student to the history of ultrasound and the evolution of its medical applications. Topics include licensure, use and maintenance of ultrasound equipment, ergonomics, communication and critical thinking skills, and the responsibilities of Diagnostic Medical Sonographers in the workplace. Program policy and procedures, program curriculum and student rights and responsibilities are also included in this course.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Co-requisites:** (526-132)

Complete Course Listing

526-131 DMS General Procedures 1**Credits:** 4

This course prepares the Diagnostic Medical Sonography student to perform ultrasound evaluation of the liver, gall bladder, biliary tree, pancreas, kidneys, spleen, abdominal vascular system, and introduction to the female pelvis. The abdominal portion of this course will cover the anatomy, physiology, and the sonographic appearance of the peritoneal space, prevertebral vessels, biliary, liver and pancreas. Testicular small parts will discuss anatomy, physiology, pathology and pathophysiology of the scrotum. The gynecological portion of this course will cover normal anatomy and physiology of the female pelvis including the bony pelvis, vascular anatomy, muscles, ligaments, physiology of the menstrual cycle. The laboratory portion of this course permits the student to simulate ultrasound examinations of anatomical structures for the purposes of identification of structures and pathology, and to reinforce scanning technique in preparation for performing these examinations in the clinical setting. The diagnostic medical sonography student will be familiarized with the scanning protocols and normal and abnormal sonographic findings.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Pre-requisites:** (526-132 and 526-130)**Co-requisites:** 526-136 and 526-134 and 526-205)

Complete Course Listing

526-132 DMS Clinical 1**Credits:** 2

In the first clinical course for the Diagnostic Medical Sonography Program, students become acclimated to the clinical environment, become familiar with policies, procedures and protocols at the departmental and institutional level. Students begin the performance of Diagnostic Medical Sonography procedures under the direction of staff sonographers or program faculty in accordance with all program and institutional requirements.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Co-requisites:** (526-130)

Complete Course Listing

526-133 DMS General Procedures 2**Credits:** 4

This course prepares Diagnostic Medical Sonography Students to perform ultrasound evaluations of the male and female pelvis, first trimester obstetrics, introduction to second and third trimester obstetrics and thyroid exams. The gynecological portion of this course will cover normal anatomy and physiology of the female pelvis including the bony pelvis, vascular anatomy, muscles, ligaments, physiology of the menstrual cycle and normal anatomy of the pediatric and postmenopausal pelvis. The introduction to obstetrics will cover the physiology of pregnancy, embryology, spermatogenesis, oogenesis and the development of the fetus as visualized on ultrasound during the first trimester. This course will give the sonography students obstetrical ultrasound protocols and familiarize the student with normal fetal anatomy, as demonstrated on ultrasound. The laboratory portion of this course permits the student to simulate ultrasound examinations of anatomical structures for the purposes of identification of structures and pathology, and to reinforce scanning technique in preparation for performing these examinations in the clinical setting.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Pre-requisites:** (526-131) and (526-134) and (526-136) and (526-205)**Co-requisites:** (526-139) and (526-137) and (526-206)

Complete Course Listing

526-134 DMS Clinical 2**Credits:** 2

The second clinical course for the Diagnostic Medical Sonography Program builds on the knowledge and skills acquired during the first clinical course. Students continue to perform basic sonographic examinations of the abdomen, pelvis, and OB/GYN structures under the direct supervision of a registered sonographer, and begin to perform examinations with increased independence.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Pre-requisites:** (526-132) and (526-130)**Co-requisites:** (526-136) and (526-131) and (526-205)

Complete Course Listing

526-135 DMS General Procedures 3

Credits: 3

This course prepares Diagnostic Medical Sonography Students to perform ultrasound evaluations of the adrenals, male pelvis, gastrointestinal tract, anterior abdominal wall, musculoskeletal system, thyroid, breast, scrotum and the gravid uterus. The abdominal portion of this course will cover the anatomy, physiology, pathology, pathophysiology, and the sonographic appearance of the adrenals, male pelvis, GI tract, anterior abdominal wall and musculoskeletal ultrasound. The small parts portion will discuss the anatomy, physiology, pathology and pathophysiology of the thyroid, breast and scrotum as visualized on ultrasound. The diagnostic medical sonography student will be familiarized with the scanning protocols and normal and abnormal sonographic findings. The obstetrical portion will cover fetal anomalies as visualized on ultrasound during the first trimester, second trimester, and third trimester. This course will cover abnormal fetal development to include discussion of pathology, pathophysiology and teratogens. The laboratory portion of this course permits the student to simulate ultrasound examinations of anatomical structures for the purposes of identification of structures and pathology, and to reinforce scanning technique in preparation for performing these examinations in the clinical setting.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Diag Med Sonography Vascular Program.

Pre-requisites: (526-133) and (526-137) and (526-139) and (526-206)

Co-requisites: (526-140)

Complete Course Listing

526-136 DMS Physics I

Credits: 3

This course explores the principles of general wave physics as they apply to the application of Diagnostic Medical Sonography. The student will learn the physical factors that make the production necessary for the performance of diagnostic sonographic examinations. Topics also include transducer construction and operation, components of the ultrasound machine, display modes, image recording systems.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Diag Med Sonography Vascular Program.

Pre-requisites: (526-132) and (526-130)

Co-requisites: (526-134) and (526-131) and (526-205)

Complete Course Listing

526-137 DMS Clinical 3

Credits: 2

In the third clinical education course for the Diagnostic Medical Sonography Program, students continue the process of performing routine examinations of the abdomen, pelvis, small parts, and OB/GYN structures more independently, continuing the process of attaining clinical competency in these various procedures.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Diag Med Sonography Vascular Program.

Pre-requisites: (526-131) and (526-134) and (526-136) and (526-205)

Co-requisites: (526-133) and (526-139) and (526-206)

Complete Course Listing

526-138 DMS General Procedures 4

Credits: 4

This final general DMS procedures course permits the student to attain mastery of all sonographic anatomy, physiology, and pathophysiology of all anatomical parts and systems of the abdomen, small parts, and OB/GYN systems. The anatomy, physiology, pathology and pathophysiology of the breast will be discussed along with sonographic visualization and protocol. The abdomen and abdominal vasculature pathology and pathophysiology will be studied including the gastrointestinal tract and abdominal wall. The laboratory portion of this course permits the student to attain mastery of the scanning techniques of all ultrasound examinations of anatomical structures and associated with the abdomen, small parts, and OB/GYN systems.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Diag Med Sonography Vascular Program.

Pre-requisites: (526-135) and (526-140)

Co-requisites: (526-245) and (526-142)

Complete Course Listing

526-139 DMS Physics 2 Instrumentation

Credits: 2

This course continues building on the principles of general wave physics as they apply to the application of Diagnostic Medical Sonography. Topics include Doppler applications, imaging artifacts, and performance & safety. Biological effects of ultrasound energy are also explored. SPI registry review is the final component of this course.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Diag Med Sonography Vascular Program.

Pre-requisites: (526-131) and (526-134) and (526-136) and (526-205)

Co-requisites: (526-133) and (526-206) and (526-137)

Complete Course Listing

526-140 DMS Clinical 4

Credits: 1

In the fourth clinical education course for the Diagnostic Medical Sonography Program, students work towards attaining mastery of all ultrasound procedures of the abdomen and pelvis, small parts, and OB/GYN structures by performing these examinations with increased independence.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Diag Med Sonography Vascular Program.

Pre-requisites: (526-133) and (526-137) and (526-139) and (526-206)

Co-requisites: (526-135)

Complete Course Listing

526-141 DMS Vascular Procedures 1**Credits:** 4

This course introduces the Diagnostic Medical Sonography student to the principles of vascular sonographic imaging. Topics include vascular physics and terminology, arterial, venous, and cerebrovascular applications of ultrasound, and normal, abnormal and pathologic sonographic presentation of vascular anatomy. The laboratory portion of this course permits the student to simulate ultrasound examinations of anatomical structures for the purposes of identification of structures and pathology, and to reinforce scanning technique in preparation for performing these examinations in the clinical setting.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105262, Diag Med Sonography Vascular Programs.**Pre-requisites:** (526-135) and (526-140)**Co-requisites:** (526-138) and (526-142)

Complete Course Listing

526-142 DMS Clinical 5**Credits:** 2

In the fifth clinical education course for the Diagnostic Medical Sonography Program, students continue the process of performing routine examinations of the abdomen and pelvis, small parts, and OB/GYN structures. Students also begin the process of observing and performing examinations of the peripheral vascular system under the direct supervision of a registered sonographer.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Pre-requisites:** (526-135) and (526-140)**Co-requisites:** (526-138) and (526-245)

Complete Course Listing

526-143 DMS Vascular Procedures 2**Credits:** 3

This is the second course designed to prepare the Diagnostic Medical Sonography student to perform ultrasonic evaluation of vascular sonographic structures. Topics include vascular anatomy, physiology, and terminology related to imaging of arterial, venous, and cerebrovascular structures. The laboratory portion of this course permits the student continued and advanced opportunity to simulate ultrasound examinations of anatomical structures for the purposes of identification of structures and pathology, and to reinforce scanning technique in preparation for performing these examinations in the clinical setting.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105262, Diag Med Sonography Vascular Programs.**Pre-requisites:** (526-138) and (526-141) and (526-142)**Co-requisites:** (526-144) and (526-145)

Complete Course Listing

526-144 DMS Clinical 6**Credits:** 2

In this final clinical education course for the Diagnostic Medical Sonography Program, the student completes the process of becoming competent in all general and abdominal, small parts, OB/GYN, and vascular sonographic procedures, and can perform all examinations required for graduation independently.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Pre-requisites:** (526-138) and (526-207) and (526-142)**Co-requisites:** (526-208) and (526-145) and (526-209)

Complete Course Listing

526-145 DMS Registry Review**Credits:** 2

This course is a review of all program curricula and musculoskeletal ultrasound, preparing the student to successfully sit for the certification examinations in Diagnostic Medical Sonography prepared by the American Registry of Diagnostic Medical Sonographers (ARDMS,) or the examination in Ultrasound prepared by the American Registry of Radiologic Technologists (ARRT). Various methods of preparation, including the use of mock examinations will be utilized.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Pre-requisites:** (526-138) and (526-207) and (526-142)**Co-requisites:** (526-208) and (526-144) and (526-209)

Complete Course Listing

526-146 DMS Cross Sectional Anatomy**Credits:** 2

This course challenges students who have an interest in sonography to apply their current knowledge of human anatomy and to reference the cross sectional world of imaging to that of ultrasound imaging. Students will learn to visualize anatomical structures in sonographic images as well as other imaging modalities such as computed tomography (CT scan) and magnetic resonance imaging (MRI). Anatomical structures will be studied in axial, sagittal, and coronal body planes. This course is designed to enhance the sonographer's scanning abilities in an attempt to reinforce knowledge of human anatomy.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to 105262, Diag Med Sonography Vascular Programs.**Co-requisites:** (526-130) and (526-132)

Complete Course Listing

526-147 CT Clinical 1

Credits: 1

The first CT clinical education course allows the student to obtain the clinical experience requirements necessary to be eligible to sit for the post-primary ARRT certification examination in Computed Tomography (CT). This course is also intended to develop learner competence and expertise in a variety of CT procedures. Students may obtain CT examination only after completing corresponding CT Procedures courses.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Computed Tomography Program.

Co-requisites: (526-126) and (526-127) and (526-128)

Complete Course Listing

526-148 CT Clinical 2

Credits: 1

The second CT clinical education course allows the student to obtain any clinical experience requirements they have yet to complete that are necessary to be eligible to sit for the post-primary ARRT certification examination in Computed Tomography (CT). As with CT Clinical 1, this course is also intended to develop learner competence and expertise in a variety of computed tomography procedures. Students may obtain CT examination only after completing corresponding CT Procedures courses.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Computed Tomography Program.

Co-requisites: (526-126) and (526-127) and (526-128)

Complete Course Listing

526-149 Radiographic Procedures 1

Credits: 5

Prepares radiography students to perform routine radiographic procedures of the chest, abdomen, upper and lower extremities, and pelvis. Course includes considerations for mobile and trauma procedures. Students apply knowledge of human anatomy to position the patient correctly to achieve and evaluate optimal diagnostic quality images which includes identifying radiographically significant anatomy.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Radiography Program.

Pre-requisites: (526-158)

Co-requisites: (526-159) and (526-192)

Complete Course Listing

526-150 Computed Tomography Sectional Anatomy and Pathology

Credits: 3

Presentation of anatomical structures as they appear in Computed Tomography (CT) images produced in axial, sagittal, coronal, and oblique sections. This course will also explore pathological conditions commonly diagnosed through the use of CT.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Computed Tomography Program.

Complete Course Listing

526-151 Computed Tomography Procedures

Credits: 3

This course provides instruction of specific computed tomographic procedures and includes content related to procedure indications and contraindications, patient preparation, orientation, contrast media usage and positioning. Information related to patient history, assessment, and education is also included. CT procedures will be taught for differentiation of specific structures, patient symptomology and pathology. CT images studied will be reviewed for quality, anatomy and pathology.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Computed Tomography Program.

Complete Course Listing

526-152 CT Physics and Instrumentation

Credits: 3

This course is designed to promote an understanding of the physics of computed tomography. Topics covered include the characteristics of x-radiation and CT beam attenuation, as well as data acquisition and manipulation techniques. Computed tomography systems will be explored covering topics including CT tube configuration, collimator and detector design, and characteristics and functions and the CT computer. Lastly, CT image processing and display will be examined from data acquisition through post processing, archiving and communication.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Computed Tomography Program.

Complete Course Listing

526-153 Computed Tomography Clinical

Credits: 2

The CT clinical education course allows the student to complete the clinical experience requirements to be eligible to sit for the post-primary ARRT certification examination in Computed Tomography (CT). This course is also intended to develop competence and expertise in a variety of computed tomography procedures in the learner.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Computed Tomography Program.

Pre-requisites: (526-150) and (526-151)

Complete Course Listing

526-158 Introduction to Radiography

Credits: 3

Introduces students to the role of radiography in health care. Students apply healthcare communication techniques. Students are introduced to legal and ethical considerations, patient interactions and management, patient and provider safety, and pharmacology.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Radiography Program.

Co-requisites: (526-168)

Complete Course Listing

526-159 Radiographic Imaging**Credits:** 3

Introduces radiography students to the process and components of imaging. Students determine the factors that affect image quality including contrast, receptor exposure, spatial resolution and distortion.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Radiography Program.**Pre-requisites:** (526-158)**Co-requisites:** (526-149) and (526-192)

Complete Course Listing

526-168 Radiography Clinical 1**Credits:** 2

This beginning level clinical course prepares radiography students to perform radiologic procedures on patients with extensive supervision and direction. Students apply radiation protection and standard precautions in the production of radiographs in a health care setting while adhering to legal and ethical guidelines. An emphasis of the course is the development of communication and critical thinking skills appropriate to the clinical setting.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Radiography Program.**Co-requisites:** (526-158)

Complete Course Listing

526-170 Radiographic Imaging 2**Credits:** 3

Explores film processing components as well as the principles and operation of digital imaging systems found in diagnostic radiology. Factors that impact image acquisition, display, archiving and retrieval are discussed. Guidelines for selecting exposure factors and evaluating images within analog and digital systems. Principles of digital system quality assurance and maintenance are presented.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Radiography Program.**Pre-requisites:** 526-159

Complete Course Listing

526-174 ARRT Certification Seminar**Credits:** 2

Provides preparation for the for the national certification examination prepared by the American Registry of Radiologic Technologists. Emphasis is placed on the weak areas of the individual students. Simulated registry examinations are utilized.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Radiography Program.**Pre-requisites:** (526-194)**Co-requisites:** (526-189) and (526-197) and (526-198)

Complete Course Listing

526-189 Radiographic Pathology**Credits:** 1

Prepares radiography students to determine the basic radiographic manifestations of pathological conditions. Students classify trauma related to site, complications, and prognosis and locate the radiographic appearance of pathologies.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Radiography Program.**Pre-requisites:** (526-231)**Co-requisites:** (526-197) and (526-174) and (526-198)

Complete Course Listing

526-190 Radiography Clinical 5**Credits:** 2

This fifth level clinical course prepares radiography students to perform radiologic procedures on patients with some supervision. Students apply radiation protection and standard precautions in the production of radiographs in a health care setting while adhering to legal and ethical guidelines. Students are encouraged to demonstrate independent judgment in the performance of clinical competencies.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (526-199)**Co-requisites:** (526-231) and (526-195)

Complete Course Listing

526-191 Radiographic Procedures 2**Credits:** 5

Prepares radiography students to perform routine radiographic procedures of the skull, facial bones, sinus, spine, bony thorax, gastrointestinal, urological, and special studies. Course includes considerations for contrast, mobile, surgical and trauma procedures. Students apply knowledge of human anatomy to position the patient correctly to achieve and evaluate optimal diagnostic quality images which includes identifying radiographically significant anatomy.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Radiography Program.**Pre-requisites:** (526-149)**Co-requisites:** (526-230) and (526-193)

Complete Course Listing

526-192 Radiography Clinical 2**Credits:** 3

This second level clinical course continues to prepare radiography students to perform radiologic procedures on patients with considerable direct and limited indirect supervision. Students apply radiation protection and standard precautions in the production of radiographic images in a health care setting while adhering to legal and ethical guidelines. An emphasis of the course is the development of communication and critical thinking skills appropriate to the clinical setting.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (526-168)**Co-requisites:** (526-149) and (526-159)

Complete Course Listing

526-193 Radiography Clinical 3

Credits: 3

This third level clinical course prepares radiography students to perform radiologic procedures on patients with varying degrees of direct and indirect supervision. Students apply radiation protection and standard precautions in the production of radiographic images in a health care setting while adhering to legal and ethical guidelines. An emphasis of the course is the demonstration of communication and critical thinking skills appropriate to the clinical setting.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Radiography Program.

Pre-requisites: (526-192)

Co-requisites: (526-191) and (526-230)

Complete Course Listing

526-194 Imaging Equipment Operation

Credits: 3

Introduces radiography students to the principles and application of x-ray technology. Students analyze how x-rays are produced and determine the corrective actions necessary for common equipment malfunctions.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Radiography Program.

Pre-requisites: (526-230 or 526-170)

Co-requisites: (526-195) and (526-190)

Complete Course Listing

526-195 Radiographic Image Analysis

Credits: 2

Prepares radiography students to analyze radiographic images for quality. Students apply quality control tests to determine the causes of image problems including equipment malfunctions and procedural errors.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Radiography Program.

Pre-requisites: (526-191)

Co-requisites: (526-231) and (526-190)

Complete Course Listing

526-196 Modalities

Credits: 3

Introduces radiography students to imaging modalities with an emphasis in computed tomography and cross-sectional anatomy.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Radiography Program.

Complete Course Listing

526-197 Radiation Protection and Biology

Credits: 3

Prepares radiography students to protect themselves and others from exposure to radioactivity. Students examine the characteristics of radiation and how radiation affects cell biology. Students apply standards and guidelines for radiation exposure.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Radiography Program.

Pre-requisites: (526-194)

Co-requisites: (526-189) and (526-174) and (526-198)

Complete Course Listing

526-198 Radiography Clinical 6

Credits: 2

This final clinical course requires students to integrate and apply all knowledge learned in previous courses to the production of high quality images in the clinical setting with minimal direct and primarily indirect supervision. Students apply radiation protection and standard precautions in the production of images in a health care setting while adhering to legal and ethical guidelines. Students are encouraged to demonstrate independent judgment in the performance of clinical competencies.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Radiography Program.

Pre-requisites: (526-190)

Co-requisites: (526-189) and (526-197) and (526-174)

Complete Course Listing

526-199 Radiography Clinical 4

Credits: 3

This fourth level clinical course prepares radiography students to perform radiologic procedures on patients. The student transitions from direct to indirect supervision as competency performance increases. Students apply radiation protection and standard precautions in the production of radiographic images in a health care setting while adhering to legal and ethical guidelines. Students are encouraged to demonstrate independent judgment in the performance of clinical competencies.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Radiography Program.

Pre-requisites: (526-193)

Complete Course Listing

526-205

Credits: 2

This course introduces the Diagnostic Medical Sonography student to the principles of vascular sonographic imaging. Topics include vascular physics, terminology, hemodynamics, and cerebrovascular applications of ultrasound, and normal, abnormal and pathologic sonographic presentation of vascular anatomy. The laboratory portion of this course permits the student to simulate ultrasound examinations of anatomical structures for the purposes of identification of structures and pathology, and to reinforce scanning technique in preparation for performing these examinations in the clinical setting.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Diag Med Sonography Vascular Program.

Pre-requisites: (526-130) and (526-132)

Co-requisites: (526-131) and (526-134) and (526-136)

Complete Course Listing

526-206**Credits:** 2

This is the second vascular course designed to prepare the Diagnostic Medical Sonography student to perform ultrasonic evaluation of vascular sonographic structures. Topics include vascular anatomy, physiology, and terminology related to imaging of arterial, venous peripheral vascular structures. The laboratory portion of this course permits the student continued and advanced opportunity to simulate ultrasound examinations of anatomical structures for the purposes of identification of structures and pathology, and to reinforce scanning technique in preparation for performing these examinations in the clinical setting.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Pre-requisites:** (526-131) and (526-134) and (526-136) and (526-205)**Co-requisites:** (526-133) and (526-137) and (526-139)

Complete Course Listing

526-230 Advanced Radiographic Imaging**Credits:** 2

Explores the factors that impact image acquisition, display, archiving and retrieval. Guidelines for selecting exposure factors and evaluating images within digital systems are discussed. Principles of digital system quality assurance and maintenance are presented.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Radiography Program.**Pre-requisites:** (526-159)**Co-requisites:** (526-191) and (526-193)

Complete Course Listing

526-231 Imaging Modalities**Credits:** 2

Introduces radiography students to imaging modalities with an emphasis in computed tomography and cross-sectional anatomy.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Radiography Program.**Pre-requisites:** ((526-230) or (526-170))**Co-requisites:** (526-195) and (526-190)

Complete Course Listing

526-245**Credits:** 3

This is the third vascular course designed to prepare the Diagnostic Medical Sonography student to perform ultrasonic evaluation of vascular sonographic structures. Topics include and continuation of peripheral vascular structures and vascular anatomy, physiology, and terminology related to imaging of abdominal vascular structures. The laboratory portion of this course permits the student continued and advanced opportunity to simulate ultrasound examinations of anatomical structures for the purposes of identification of structures and pathology, and to reinforce scanning technique in preparation for performing these examinations in the clinical setting.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Pre-requisites:** (526-135) and (526-140)**Co-requisites:** (526-138) and (526-142)

Complete Course Listing

526-246**Credits:** 1

This is the fourth vascular course designed to prepare the Diagnostic Medical Sonography student to perform ultrasonic evaluation of vascular sonographic structures. Topics include US guided procedures, surgery, QA, statistical testing and lab accreditation. This courses will also cover VT registry review and board preparation.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Pre-requisites:** (526-138) and (526-245) and (526-142)**Co-requisites:** (526-144) and (526-247) and (526-145)

Complete Course Listing

526-247**Credits:** 1

A capstone course that prepares the student for the transition from student to staff sonographer. Current issues that challenge the entry-level sonographer along with new and future sonographic techniques will be discussed. Other topics covered include resume writing, job interviewing, networking and professional development.

Aid Code: 10 - Associate Degree.**Restrictions:** Restricted to students admitted to Diag Med Sonography Vascular Program.**Pre-requisites:** (526-138) and (526-245) and (526-142)**Co-requisites:** (526-144) and (526-246) and (526-145)

Complete Course Listing

Reading (858)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

858-764 Reading 2 GED Review**Credits:** 3

The course focuses on reading in the GED content areas. It includes skills of comprehension, application, and analysis as needed for the GED content area tests at the pre-GED level. *Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.*

Aid Code: 74 - Interm ABE (6.0-8.9).**Pre-requisites:** (GED/ESL/BS Course Approval)

Complete Course Listing

858-771 Reading 3 GED Review**Credits:** 3

This course further develops reading in the GED content areas. It includes continued work in comprehension, application and analysis as needed for the GED content area tests. *Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.*

Aid Code: 76 - HS Dip,GED.HSED (9.0-12.9).

Complete Course Listing

858-795 Reading Foundations

Credits: 1

A small group and individualized instruction course that helps students develop precollege reading skills. Emphasizes reading comprehension and learning strategies. Must be taken concurrently with Intro to College Reading.

Aid Code: 77 - ASE Developmental.
Complete Course Listing

Science (856)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

856-779 BSE Science 3 Pharmacology Preparation

Credits: 2

Designed for students entering the Associate Degree Nursing program. The course will be an introduction to pharmacology, one of the hardest courses taken by nursing students. In addition, students will develop other skills needed for success (and survival) in the nursing program, such as test taking strategies and writing papers in APA format. *Credits earned in this course will not be counted toward the number of credits needed for any degree.*

Aid Code: 77 - ASE Developmental.
Complete Course Listing

Social Science (809)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

809-103 Think Critically and Creatively

Credits: 3

This course provides instruction in the vital, realistic and practical methods of thinking which are in high demand in all occupations of substance today. Decision making, problem solving, detailed analysis of ideas, troubleshooting, argumentation, persuasion, creativity, setting goals and objectives, and more are considered in depth as the student applies specific thinking strategies and tools to situations in a wide variety of workplace, personal, academic, and cultural situations. Classroom instruction is demonstrations, discussions, project and teamwork based. Assignments range from the short and simple to the detailed and complex. Reality and practicality are the focuses all through the course.

Aid Code: 10 - Associate Degree.

196-118 Human Resource Information Systems

Credits: 3

Learns will cover the fundamentals of human resource record-keeping. Topics include organizing records, federal and state retention requirements, documentation, employee access to records, privacy issues, and developing policies. Students learn to use the integrated human resource information components of a relational database (such as Access or PeopleAdmin) to perform human resource database tasks related to administration, performance management, compensation, recruitment, and more. In a series of exercise, students process the HR information related to groups of employees as these employees move through the application selection, promotion, retention and retirement phases of employment.

Aid Code: 10 - Associate Degree.

Pre-requisites: 103-106

[Complete Course Listing](#)

196-119 Labor and Employee Relations

Credits: 3

Students author contract proposals, negotiate changes to an existing labor agreement, and administer specific labor contract language. Through discussion and case analyses, students learn the legal requirements and restriction for labor and management. Topics include the legalities of union certification and decertification, negotiation and administration of labor agreements, strikes, lockouts, mediation, and arbitration. Enhances the ability to understand and develop employee-focused programs, policies and procedures such as company orientation, formal and informal communications, employee recognition programs and community relations, complaint investigation and resolution, and disciplinary procedures.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

196-128 Leadership Internship

Credits: 3

Students further develop their knowledge and skills by working with professionals to complete projects for area organizations. Evaluation of students' work will be heavily influenced by the satisfaction expressed by representatives of the organizations served.

Aid Code: 10 - Associate Degree.

Pre-requisites: Need Dean Approval

[Complete Course Listing](#)

196-135 Leadership: Individual to Team

Credits: 3

This course focuses on how to build and lead successful teams to strengthen the overall performance of organizations. Team building models will be analyzed with emphasis on steps that can be taken to overcome common hurdles and build cohesive, high performing teams. An emphasis will be placed on the stages of team development, roles of the leader in developing successful work and project teams. Facilitation tools, problem-solving strategies, facilitation tools and conflict resolution techniques will be introduced during an in-class team simulation.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

196-137 Payroll Administration

Credits: 3

This course provides you with a framework and the knowledge of administering a payroll system within the context of a business. An overview of interpreting financial statements and preparing budgets is included. The topics covered include the following: maintaining payroll records; salaried, hourly, commission, piecework, and contract workers; taxable benefits; statutory and other deductions; preparation of payroll journal entries; preparation of record of employment; preparation of W2s, W4s, and W2 Summary; workers' compensation; employment standards; pay equity; computerized payroll using both a personal computer database and using an outside payroll service.

Aid Code: 10 - Associate Degree.

Pre-requisites: 196-115

[Complete Course Listing](#)

196-138 Human Resource Practicum

Credits: 3

Students further develop their HR knowledge and skills by working with HR professionals to complete human resource projects for area organizations. Teams of students are provided actual problems or projects from local organizations. Evaluation of student's work will be heavily influenced by the satisfaction expressed by representatives of the organizations served.

Aid Code: 10 - Associate Degree.

Pre-requisites: (196-102) and (196-115) and (196-116) and (196-193)

[Complete Course Listing](#)

196-139 Introduction to Global Human Resource

Credits: 3

In this course, students will examine human capital in a global business environment. The topics cover major cultural difference in values and attitudes which may affect international HRM effectiveness, global staffing international compensation, employee relations, labor law, and encourage students to identify the future issues of international HRM of their organizations.

Aid Code: 10 - Associate Degree.

Pre-requisites: 196-193

[Complete Course Listing](#)

196-140 Supervision 2**Credits:** 1

Learners will determine how to increase personal productivity every day, and how to get the most productivity from the team while maintaining quality and employee well-being. Topics include planning and preparation for the day, goal-setting, time management, delegating work, eliminating distractions, taking breaks, and more, to attain productivity and quality goals. Learners will determine how to identify, measure, and influence successful outcomes of individual productivity as well as department productivity.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**196-152 Talent Management****Credits:** 3

This course focuses on improvement or correction of employee performance. Methods will be practiced concerning performance evaluation, coaching skills, career counseling, termination, facilitating change in work procedures and job design and managing the conflict that often results from change. Students will obtain a better understanding of how to clearly communicate performance expectations to an employee while maintaining dignity in the process.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**196-153 Supervision 3****Credits:** 1

Learners will learn how to deal with difficult employees while maintaining composure. Learners will determine the difference between counseling and correcting employees along with effective methods for each. Learners will understand accountability for themselves and the employees who report to them. Discussions provide understanding of the employee evaluation process and the discipline process. Focus is "When a supervisor does a good job of leading, problem-solving, communicating, and motivating, MOST employees will perform well".

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**196-154 Leadership 1****Credits:** 1

Learners are introduced to leadership theories and practices. The roles of management vs. leadership are explored with a focus on proactive leadership. Learners complete a self-test to determine their own leadership behavior style; and also explore these topics for building effective relationships in the workplace: trust, positive and open communication, expecting the best from your team, creating team spirit, giving recognition and appreciation, giving credit and taking responsibility, being proactive, creating a positive physical work environment, making staff evaluations positive, and having fun at work. Learners understand the characteristics of an effective leader and learn how to adapt leadership styles for a variety of situations.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**196-155 Leadership 2****Credits:** 1

Learners will review the anatomy of a conflict and complete a self-test to determine their conflict management style to improve performance. Learners study how emotions escalate a conflict situation and how to manage emotions to prevent further conflicts including how to have difficult conversations with employees. Learners will understand how change and change management plays a significant role in effective leadership. Recognizing that effective change requires a holistic view of the team, or organization, learners will explore an 8-step process for leading change in the workplace.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**196-156 Leadership 3****Credits:** 1

Learners explore the characteristics of effective and influential leadership that encourages rather than discourages. Many topics will be studied such as personal branding, communication, and approachability. Learners will develop a strong understanding of how image (words and behavior) affects professional presence, personal reputation, and company brand. Focus in this course is on leadership roles, empowering employees, and recognizing employees for their good work and positive contributions. Learners will determine how to set-up performance expectations, and how the role of empowerment motivates employees to achieve company goals.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**196-157 Essentials of Quality 1****Credits:** 1

In this first course, learners examine the role of the supervisor in assisting an organization to produce a quality product and/or service. Learners are introduced to Total Quality Management concepts and tools needed in the workplace to stay competitive.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**196-158 Essentials of Quality 2****Credits:** 1

In this second course, learners begin to develop a personal philosophy of quality, identifying stakeholder relationships, and determining how to meet/exceed customer expectations. Learners will begin to evaluate process weaknesses to select specific time based improvement techniques.

Aid Code: 10 - Associate Degree.**Co-requisites:** (196-157)[Complete Course Listing](#)**196-159 Essentials of Quality 3****Credits:** 1

In this third course, learners will map and evaluate processes, looking for areas of improvement by reducing internal time and effort, reducing opportunities for defects, and areas that will increase overall customer satisfaction.

Aid Code: 10 - Associate Degree.**Co-requisites:** (196-158)[Complete Course Listing](#)

196-161 Teambuilding and Communication 1

Credits: 1

Learners explore the components of an effective team environment. Individual roles within the team and team problem-solving are examined and applied. The role of effective communications and its importance to team success is introduced. Learners will understand how to recognize and manage the stages of team development by focusing on team goals, and how to encourage and honor the strengths of each individual and the contributions to team success. Emphasis is placed on how an inviting, kind, and encouraging workplace culture can engage and retain employees. Focus is on individual strengths, meeting individual needs for success, and team focus on goals and expectations.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

196-162 Teambuilding and Communication 2

Credits: 1

Learners will explore several motivation theories in this course including to influence workers to become more productive or perform at higher levels of quality. Learners will determine how to influence employees by helping to set SMART goals, by using energizing techniques, and by rewarding the positive behavior desired in the workplace. Learners understand how behavior as a leader can truly motivate the team on a daily basis. In addition, learners will gain knowledge in how to set goals with "SPIRIT" in order to guide employees through annual professional development planning; explore an effective format for interviewing employees during performance reviews; and, how to develop probing questions to encourage the employee to take an active role in the discussions on job performance.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

196-163 Teambuilding and Communication 3

Credits: 1

Learners will understand how to take a team from good to great by effectively engaging them in their work on a daily basis. This course provides insight on how to encourage the heart of every employee to feel belonging in the work community through friendly interaction, constructive conflict, and creative problem solving. Employee engagement leads to long-term retention, so this course is critical in understanding how to prevent employee turn-over. Learners will understand how Emotional Intelligence (maturity) plays a significant role in how we manage our emotions in connection with the people we work with. Learners will explore ways to better understand human emotions, keep them in control, and work effectively to move forward productively.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

196-164 Leadership Practicum

Credits: 1

Learners will obtain a practicum with area business leaders in order to job shadow for two to three hours per week. Learners will observe and document how working professionals manage their responsibilities, and handle the day-to-day issues of the workplace. Learners may perform tasks while under the supervision of the leaders and provide weekly reports tying the experiences to the Organizational Leadership Program topics.

Aid Code: 10 - Associate Degree.

Pre-requisites: (196-100) and (196-154) and (196-157) and (196-140) and (196-155) and (196-161) and (196-158) and (196-153) and (196-162) and (196-156) and (196-159) and (196-163) and (116-102) and (116-168)

[Complete Course Listing](#)

196-168 Organizational Development

Credits: 3

This course introduces the Human Resources student to the different motivational mechanics that affect individuals, teams and organizations. Focus is placed on understanding individual differences and how they are manifested within an organization. Students will practice methods to improve communication and managing conflicts that occur at different levels within an organization.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

196-190 Leadership Development

Credits: 3

Learners are introduced to leadership theories and practices. The roles of management vs. leadership are explored with a focus on proactive leadership. Other topics include: conflict management style and dealing with conflict; adapting leadership styles to different situations; difficult conversations with employees; change management; and motivating employees to achieve company goals. The importance and value of diversity will be emphasized.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

196-191 Supervisor as Leader

Credits: 3

As Organizations reduce management levels, the frontline supervisor will become a major component in effective delivery of products and services maximizing organizational results. This course is designed to help participants identify and develop personal leadership style and the skills necessary to effectively lead the work of others within the structure of an organization. Emphasis is placed on leading teams, communication and decision-making, managing conflict, supporting innovative thinking, influencing organizational culture, employee development, performance management and related topics that affect the leaders' role in the organization.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

196-192 Managing For Quality**Credits:** 3

Examines the role of the supervisor in assisting an organization to produce a quality product or service. The meaning and benefits of quality, the cost of quality systems, how to interact with customers, and data collection tools for continuous improvement will be explored.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**196-193 Human Resource Management****Credits:** 3

Establishes a foundation for development of employee effectiveness by focusing on the supervisor's role in understanding, communicating, and implementing organizational policies. Focus is placed on: employee hiring; orientation and training; performance management; motivating employees and related topics that affect the supervisor's work group.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**196-199 Warehouse Worker Safety****Credits:** 3

Students will learn and demonstrate workplace practices that enable the safe movement of employees, equipment and materials. The course will focus on protective equipment (PPE), OSHA work standards, hazardous material handling, forklift safety and commercial driver guidelines.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**196-403 Effective Meeting Management****Credits:** 2.4

This course is designed to provide participants with practical techniques and process tools for conducting effective meetings in the workplace.

Aid Code: 47 - Occupational Adult.[Complete Course Listing](#)**196-404****Credits:** 4

This course will provide participants with the necessary steps to conduct a targeted Risk Analysis and build a relevant Succession Plan. As a result of applying the tools covered in this course, business leaders should be able to reduce the impact turnover will have on the organization. This course offers tools that leaders can take with them and apply on the job the next day.

Aid Code: 47 - Occupational Adult.[Complete Course Listing](#)**196-461 Introduction to Lean for Leaders****Credits:** 2.4

This course is designed to provide participants with a foundation in Lean process improvement concepts and an introduction to continuous process improvement tools useful in the workplace.

Aid Code: 47 - Occupational Adult.[Complete Course Listing](#)**196-496****Credits:** 4.8

Course will include the basics of the learning cycle along with adult learning methods for trainers. Participants will learn how to develop a training needs analysis as well as develop onboarding/orientation to aid in retention of new employees.

Aid Code: 47 - Occupational Adult.[Complete Course Listing](#)

Surgical Technology (512)

Information provided includes course descriptions by subject only.**For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).****512-125 Introduction to Surgical Technology****Credits:** 4

Provides the foundational knowledge of the occupational environment. Principles of sterilization and disinfection are learned. Surgical instruments are introduced. Preoperative patient care concepts are simulated. Lab practice is included.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (806-177)**Co-requisites:** (501-101)[Complete Course Listing](#)**512-126 Surgical Technology Fundamentals 1****Credits:** 4

Focuses on preparing the patient and operating room for surgery. Principles of sterile technique are emphasized as the student moves into the scrub role. Lab practice is included.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (806-177) and (501-101)[Complete Course Listing](#)**512-127 Exploring Surgical Issues****Credits:** 2

Explores a variety of issues related to surgical technology. Emphasis is placed is on becoming a professional member of the surgical team.

Aid Code: 10 - Associate Degree.[Complete Course Listing](#)**512-128 Surgical Technology Fundamentals 2****Credits:** 4

Focuses on enhancing surgical technology skills while functioning as a sterile team member. Lab is included.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (501-101) and (512-127)**Co-requisites:** (806-179) and (806-197)[Complete Course Listing](#)

512-129 Surgical Pharmacology

Credits: 2

Basic study of drug classifications, care, and handling of drugs and solutions, application of mathematical principles in dosage calculations, terminology related to pharmacology, anesthesia, and drugs used in surgery.

Aid Code: 10 - Associate Degree.

Pre-requisites: (512-127)

Co-requisites: (806-179) and (806-197)

Complete Course Listing

512-130 Surgical Skills Application

Credits: 2

Provides a transition from the academic to the clinical setting. Learners integrate the surgical technologist skills as they apply to various surgical procedures.

Aid Code: 10 - Associate Degree.

Pre-requisites: (512-127)

Co-requisites: (806-179) and (806-197)

Complete Course Listing

512-131 Surgical Interventions 1

Credits: 4

Provides the foundational knowledge of surgical core and specialty procedures. Examines the pathophysiology, diagnostic interventions, health sciences, and surgical techniques for a variety of procedures.

Aid Code: 10 - Associate Degree.

Pre-requisites: (512-130) and (806-197) and (806-179)

Complete Course Listing

512-132 Surgical Technology Clinical 1

Credits: 3

Apply basic surgical theories, principles, and procedural techniques in the operating room. Students begin to function as team members under the guidance of the instructor and authorized clinical personnel.

Aid Code: 10 - Associate Degree.

Pre-requisites: (512-130) and (806-197) and (806-179)

Complete Course Listing

512-133 Surgical Technology Clinical 2

Credits: 3

Further experience in a clinical setting allows the student to continue to improve technical skills while accepting more responsibilities during surgical procedures.

Aid Code: 10 - Associate Degree.

Pre-requisites: (512-130) and (806-197) and (806-179)

Complete Course Listing

512-135 Surgical Technology Clinical 3

Credits: 3

Further experience in a clinical setting allows the student to continue to improve technical skills while accepting more responsibilities during surgical procedures.

Aid Code: 10 - Associate Degree.

Pre-requisites: (512-133)

Complete Course Listing

512-136 Surgical Technology Clinical 4

Credits: 3

During this clinical course the student will function relatively independently. Serves as a transition from a student perspective to an employee by utilizing advanced skills for an entry level Surgical Technologist.

Aid Code: 10 - Associate Degree.

Pre-requisites: (512-133)

Complete Course Listing

512-142 Surgical Interventions 2

Credits: 4

Expands knowledge of core and specialty surgical procedures by incorporating pathophysiology, diagnostic interventions, health sciences, and surgical techniques.

Aid Code: 10 - Associate Degree.

Pre-requisites: (512-133)

Complete Course Listing

Technical Communications (699)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

699-122 Practicum in Technical Comm

Credits: 3

The course fulfills a course requirement in the Technical Studies (AAS Only) component of the Technical Communications program. This course provides practical experience working as a technical writer. Students will be assigned to work with, and learn from, an area employer. Specific tasks and focuses will be tailored to the interests of the student and the needs of area employers. Evaluation of the student's performance will be a cooperative effort between the employer and the instructor.

Aid Code: 10 - Associate Degree.

Pre-requisites: (699-101) and (699-110) and (699-112) and (699-114) and (699-116)

Complete Course Listing

Welding (442)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

442-100 Pipe Welding - Prep

Credits: 1

This course covers various ways to cut and bevel pipe as well as proper cleaning, fitment and tacking techniques on various size and thicknesses of pipe.

Aid Code: 10 - Associate Degree.

Complete Course Listing

442-101 Pipe Welding - Shielded Metal Arc Welding 1**Credits:** 1

This class covers SMAW welding of 6" schedule 80 steel pipe. This will include welding open roots with E6010 and fill and cover passes using E7018 in a 1G position.

Aid Code: 10 - Associate Degree.

Complete Course Listing

442-102 Pipe Welding - Shielded Metal Arc Welding 2**Credits:** 1

This class covers SMAW welding of 6" schedule 80 steel pipe. This will include welding open roots with E6010 and fill and cover passes using E7018 in a 5G position.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-101)

Complete Course Listing

442-103 Pipe Welding - Shielded Metal Arc Welding 3**Credits:** 1

This class covers SMAW welding of 6" schedule 80 steel pipe. This will include welding open roots with E6010 and fill and cover passes using E7018 in a 2G position.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-102)

Complete Course Listing

442-104 Pipe Welding - Shielded Metal Arc Welding 4**Credits:** 1

This class covers SMAW welding of 6" schedule 80 steel pipe. This will include welding open roots with E6010 and fill and cover passes using E7018 in a 6G position.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-103 or 420-134)

Complete Course Listing

442-105 Pipe Welding - Gas Tungsten Arc Welding 1**Credits:** 1

This class covers GTAW welding of 6" schedule 40 steel pipe. This will include welding open roots, fill and cover passes using the cup walking technique in a 1G position.

Aid Code: 10 - Associate Degree.

Complete Course Listing

442-106 Pipe Welding - Gas Tungsten Arc Welding 2**Credits:** 1

This class covers GTAW welding of 6" schedule 40 steel pipe. This will include welding open roots, fill and cover passes using the cup walking technique in a 5G position.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-105)

Complete Course Listing

442-107 Pipe Welding - Gas Tungsten Arc Welding 3**Credits:** 1

This class covers GTAW welding of 6" schedule 40 steel pipe. This will include welding open roots, fill and cover passes using the cup walking technique in a 2G position.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (442-106)

Complete Course Listing

442-108 Pipe Welding - Gas Tungsten Arc Welding 4**Credits:** 1

This class covers GTAW welding of 6" schedule 40 steel pipe. This will include welding open roots, fill and cover passes using the cup walking technique in a 2G position.

Aid Code: 10 - Associate Degree.

Complete Course Listing

442-109 Mechanics of Learning for Welding**Credits:** 1

This course provides learners with strategies to develop study skills for success in college and the Welding Program. Through hands-on experience, learners apply study skills, learn how to think critically, and use information resources and technology. Focus will be on the use of college resources, goal setting, time management, flexible learning success strategies, and BTC Welding Program processes and procedures. Students will complete this course prior to starting other program welding courses.

Aid Code: 10 - Associate Degree.

Complete Course Listing

442-116 Welding Metal Fabrication**Credits:** 1

This course is designed to provide students with the knowledge and skills required to fabricate simple projects or parts of a project found on engineering drawings. The use and care of fabricating tools, along with safety, is stressed.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (442-113)

Complete Course Listing

442-117 Welding Metal Fabrication 2**Credits:** 1

This course is designed to teach proper layout, fitment and tacking of complex projects found on engineering drawings. Students will assemble advanced weldments and use welding skills learned in previous welding classes to build those weldments in position and within tolerances listed on the drawing.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-122)

Complete Course Listing

442-118 GTAW Stainless Steel 1

Credits: 1

This course covers GTAW, equipment, consumables and machine settings in addition to producing groove and fillet welding of stainless steel in the flat position using GTAW. Emphasis is put on welding safety and common joint identification.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-119 GTAW Stainless Steel 2

Credits: 1

This course covers groove and fillet welding of stainless steel in the horizontal position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-120 GTAW Stainless Steel 3

Credits: 1

This course covers groove and fillet welding of stainless steel in the vertical position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-121 GTAW Stainless Steel 4

Credits: 1

This course covers groove and fillet welding of stainless steel in the overhead position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-122 GTAW Stainless Steel 5

Credits: 1

This course covers fillet welding of stainless steel pipe and pipe to plate in the 1F, 2F and 5F position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-123 GTAW Stainless Steel 6

Credits: 1

This course uses skills developed in previous GTAW stainless steel courses and fabrication courses to produce a project made from stainless steel by following a blueprint.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-124 GTAW Pipe Welding 1 – Stainless Steel

Credits: 1

This course covers equipment, consumables and machine settings needed to produce welds in Schedule 40 stainless steel pipe. Students will learn to produce groove welds on schedule 40 stainless steel pipe in the 1G position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-125 GTAW Pipe Welding 2 – Stainless Steel

Credits: 1

This course will teach students to produce groove welds on schedule 40 stainless steel pipe in the 2G position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-126 GTAW Pipe Welding 3 – Stainless Steel

Credits: 1

This course will teach students to produce groove welds on schedule 40 stainless steel pipe in the 5G position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-127 GTAW Pipe Welding 4 – Stainless Steel

Credits: 1

This course will teach students to produce groove welds on schedule 40 stainless steel pipe in the 6G position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-128 GTAW Stainless Sanitary Tube Welding 1

Credits: 1

This course covers equipment, consumables and machine settings needed to produce welds in stainless steel sanitary tubing. Students will learn to produce groove welds on .065" wall stainless steel tubing with no filler metal in the 1G position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-129 GTAW Stainless Sanitary Tube Welding 2

Credits: 1

This course will teach students to produce groove welds on .065" wall stainless steel tubing with no filler metal in the 2G position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-130 GTAW Stainless Sanitary Tube Welding 3

Credits: 1

This course will teach students to produce groove welds on .065" wall stainless steel tubing with no filler metal in the 5G position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-131 GTAW Stainless Sanitary Tube Welding 4

Credits: 1

This course will teach students to produce groove welds on .065" wall stainless steel tubing with no filler metal in the 6G position using GTAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-132 GMAW Stainless Steel 1**Credits:** 1

This course covers GMAW, equipment, consumables and machine settings in addition to producing groove and fillet welding of stainless steel in the flat position using GMAW. Emphasis is put on welding safety and common joint identification.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-133 GMAW Stainless Steel 2**Credits:** 1

This course covers groove and fillet welding of stainless steel in the horizontal position using GMAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-134 GMAW Stainless Steel 3**Credits:** 1

This course covers groove and fillet welding of stainless steel in the vertical position using GMAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-135 GMAW Stainless Steel 4**Credits:** 1

This course covers groove and fillet welding of stainless steel in the overhead position using GMAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-136 GMAW Stainless Steel 5**Credits:** 1

This course covers fillet welding of stainless steel pipe and pipe to plate in the 1F, 2F and 5F position using GMAW.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-137 GMAW Stainless Steel 6**Credits:** 1

This course uses skills developed in previous GMAW stainless steel courses and fabrication courses to produce a project made from stainless steel by following a blueprint.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-139 Metal Finishing-General Fabrication**Credits:** 1

This course covers metal finishing that occurs after welding. Students will learn to identify grades of finishes as well as the proper equipment needed to achieve those finishes. Students will learn to finish welds mechanically with hand held power tools.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-140 Metal Finishing-Food Grade**Credits:** 1

This course covers metal finishing that occurs after welding in the food industry. Students will learn to identify grades of finishes as well as the proper equipment needed to achieve those finishes. Students will learn to finish welds mechanically with hand held power tools to achieve finishes that are acceptable by food grade standards.

Aid Code: 10 - Associate Degree.
Complete Course Listing

442-141 Welding Shop Safety**Credits:** 1

This course will familiarize students with all necessary national safety rules and regulations of the welding industry, in addition to personal protective equipment and machine operation.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-109)
Complete Course Listing

442-142 Introduction to Welding**Credits:** 1

The introduction to welding course will introduce students to the history of welding, basic metallurgy, weld defects and discontinuities, codes and standards and common welding processes and practices.

Aid Code: 10 - Associate Degree.

Co-requisites: (620-165 or 442-141 or 442-317)
Complete Course Listing

442-143 Shielded Metal Arc Welding 1**Credits:** 1

This course examines the theory and operation of Shielded Metal Arc Welding (SMAW). Safety protocols are reviewed and practiced. Proper machine settings and common filler metals are used to produce flat position welds on carbon steel.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-318 or 442-142)
Complete Course Listing

442-144 Shielded Metal Arc Welding 2**Credits:** 1

This course examines the theory and operation of Shielded Metal Arc Welding (SMAW). Safety protocols are reviewed and practiced. Proper machine settings and common filler metals are used to produce horizontal position welds on carbon steel.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-336 or 442-143)
Complete Course Listing

442-145 Shielded Metal Arc Welding 3**Credits:** 1

This course examines the theory and operation of Shielded Metal Arc Welding (SMAW). Safety protocols are reviewed and practiced. Proper machine settings and common filler metals are used to produce vertical position welds on carbon steel.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-337 or 442-144)
Complete Course Listing

442-146 Shielded Metal Arc Welding 4

Credits: 1

This course examines the theory and operation of Shielded Metal Arc Welding (SMAW). Safety protocols are reviewed and practiced. Proper machine settings and common filler metals are used to produce overhead position welds on carbon steel.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-338 or 442-145)

Complete Course Listing

442-147 Shielded Metal Arc Welding 5

Credits: 1

This course applies the theory and operation of Shielded Metal Arc Welding (SMAW) learned in prior courses through completion of projects. Safety protocols are reviewed and practiced.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-339 or 442-146)

Complete Course Listing

442-148 Flux Cored Arc Welding 1

Credits: 1

This course examines the theory and practical operation of Flux Cored Arc Welding (FCAW). Safety protocols are reviewed and practiced. Proper machine settings and filler metals are used to produce flat position welds on carbon steel using Gas Shielded and Self Shielded FCAW.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-118 or 442-142)

Complete Course Listing

442-149 Flux Cored Arc Welding 2

Credits: 1

This course examines the theory and practical operation of Flux Cored Arc Welding (FCAW). Safety protocols are reviewed and practiced. Proper machine settings and filler metals are used to produce horizontal position welds on carbon steel using Gas Shielded and Self Shielded FCAW.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-331 or 442-148)

Complete Course Listing

442-150 Flux Cored Arc Welding 3

Credits: 1

This course examines the theory and practical operation of Flux Cored Arc Welding (FCAW). Safety protocols are reviewed and practiced. Proper machine settings and filler metals are used to produce vertical position welds on carbon steel using Gas Shielded and Self Shielded FCAW.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-332 or 442-149)

Complete Course Listing

442-151 Flux Cored Arc Welding 4

Credits: 1

This course examines the theory and practical operation of Flux Cored Arc Welding (FCAW). Safety protocols are reviewed and practiced. Proper machine settings and filler metals are used to produce overhead position welds on carbon steel using Gas Shielded and Self Shielded FCAW.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-333 or 442-150)

Complete Course Listing

442-152 Flux Cored Arc Welding 5

Credits: 1

This course applies the theory and operation of Flux Cored Arc Welding (FCAW) learned in prior courses through completion of projects. Safety protocols are reviewed and practiced.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-334 or 442-151)

Complete Course Listing

442-153 Welding Blueprint Reading 1

Credits: 1

This course covers blueprint reading specific to the welding industry. Students examine and define welding symbols and abbreviations used on welding specific blueprints.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-318 or 442-109)

Complete Course Listing

442-154 Thermal Cutting

Credits: 1

Students will perform oxy-fuel cutting set up and operations, line burner operation, plasma cutting operations, carbon arc cutting and gouging and coupon preparations used for practice and testing.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-318 or 442-142)

Complete Course Listing

442-155 Gas Metal Arc Welding 1

Credits: 1

This course examines Gas Metal Arc Welding (GMAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make welds in the flat position on carbon steel.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-343 or 442-142)

Complete Course Listing

442-156 Gas Metal Arc Welding 2

Credits: 1

This course examines Gas Metal Arc Welding (GMAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make welds in the horizontal position on carbon steel.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-320 or 442-155)

Complete Course Listing

442-157 Gas Metal Arc Welding 3

Credits: 1

This course examines Gas Metal Arc Welding (GMAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make welds in the vertical position on carbon steel.

Aid Code: 10 - Associate Degree.

Co-requisites: (442-321 or 442-156)

Complete Course Listing

442-158 Gas Metal Arc Welding 4**Credits:** 1

This course examines Gas Metal Arc Welding (GMAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make welds in the overhead position on carbon steel.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-322 or 442-157)

Complete Course Listing

442-159 Gas Metal Arc Welding 5**Credits:** 1

This course examines Pulsed Gas Metal Arc Welding (GMAW-P) machine settings, theory, filler metals, safety protocol and welding process.

Students will make welds in the flat position on carbon steel.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-323 or 442-158)

Complete Course Listing

442-160 Gas Metal Arc Welding 6**Credits:** 1

This course examines Pulsed Gas Metal Arc Welding (GMAW-P) machine settings, theory, filler metals, safety protocol and welding process.

Students will make welds in the horizontal and vertical positions on carbon steel.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-324 or 442-159)

Complete Course Listing

442-161 Gas Tungsten Arc Welding 1**Credits:** 1

This course covers Gas Tungsten Arc Welding (GTAW) machine settings, theory, filler metals, polarities, safety protocol and welding process.

Students will make flat position welds on carbon steel.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-318 or 442-142)

Complete Course Listing

442-162 Gas Tungsten Arc Welding 2**Credits:** 1

This course covers Gas Tungsten Arc Welding (GTAW) machine settings, theory, filler metals, polarities, safety protocol and welding process.

Students will make horizontal position welds on carbon steel.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-326 or 442-161)

Complete Course Listing

442-163 Gas Tungsten Arc Welding 3**Credits:** 1

This course covers Gas Tungsten Arc Welding (GTAW) machine settings, theory, filler metals, polarities, safety protocol and welding process.

Students will make vertical position welds on carbon steel.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-327 or 442-162)

Complete Course Listing

442-164 Gas Tungsten Arc Welding 4**Credits:** 1

This course covers Gas Tungsten Arc Welding (GTAW) machine settings, theory, filler metals, polarities, safety protocol and welding process.

Students will make flat and horizontal position welds on aluminum.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-328 or 442-163)

Complete Course Listing

442-165 Gas Tungsten Arc Welding 5**Credits:** 1

This course covers Gas Tungsten Arc Welding (GTAW) machine settings, theory, filler metals, polarities, safety protocol and welding process.

Students will make vertical position welds on aluminum.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-329 or 442-164)

Complete Course Listing

442-166 Welding Certification**Credits:** 1

This course covers destructive and non-destructive testing methods and welding procedure creation and implementation as it relates to welding code work. Participants will write a procedure, fabricate, weld and test two pre-qualified specimens in accordance with a specified welding code.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-330 or 442-165) and (442-335 or 442-152) and (442-340 or 442-147) and (442-325 or 442-160)

Complete Course Listing

442-167 Advanced Welding Techniques**Credits:** 1

Students construct various welding projects in accordance with the American Welding Society (AWS) SENCE program and EG2.0.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-341 or 442-166)

Complete Course Listing

442-168 Welding Blueprint Reading 2**Credits:** 1

This course covers the fundamentals of Blueprint reading. Students examine and analyze types of drawings, orthographic projection, library of lines, title block dimensions and produce sketching projects.

Aid Code: 10 - Associate Degree.**Co-requisites:** (442-343 or 442-153)

Complete Course Listing

442-169 FCAW-G and GMAW-S Welding**Credits:** 1

This course examines Gas Metal Arc Welding Short Circuit Transfer and Flux Cored Arc Welding with Gas Shielding machine settings, theory, filler metals, polarities, safety protocol and welding processes. Students will make welds in the flat position on carbon steel.

Aid Code: 10 - Associate Degree.

Complete Course Listing

442-170 Pipe Welding – GMAW-S and FCAW-G

Credits: 1

This class covers welding of 6" schedule 80 steel pipe with GMAW-S root passes and FCAW-G fill and cover passes in the 1 G position.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

442-171 Pipe Welding - GTAW and SMAW

Credits: 1

This class covers GTAW and SMAW welding of 2" and 6" steel pipe. This will include welding open roots, fill and cover passes in various positions.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

442-307 Gas Metal Arc Welding (GMAW)

Credits: 5

This is an introductory course designed for students who desire to learn the theories and skills of welding. The theoretical principals learned in Welding Processes & Safety are put into practice. Students will learn to make sound welds with the Gas Metal Arc process (GMAW) on mild steel in all positions using short circuiting transfer mode. Students will also make sound welds in the Spray Transfer Mode on mild steel in the flat and horizontal positions. Industry standards and codes will be explored as visual and destructive testing of welded samples are carried out by students as an introduction to aspects of weld quality assurance and weld quality control. Health hazards and safety rules are discussed along with grinding, shearing, joint design and welding certification procedures.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Welding Program.

Co-requisites: (804-306)

[Complete Course Listing](#)

442-308 Flux Cored Arc Welding (FCAW)

Credits: 5

This is an introductory course designed for students who desire to learn the theories and skills of welding. The theoretical principals learned in Welding Processes & Safety are put into practice. Students will learn to make sound welds with the Flux Cored Arc Welding process (FCAW) and Metal Cored Arc Welding Process (MCAW) on mild steel in all positions using short circuiting, spray and semi-spray transfer modes. Industry standards and codes will be explored as visual and destructive testing of welded samples are carried out by students as an introduction to aspects of weld quality assurance and weld quality control. Health hazards and safety rules are discussed along with grinding, shearing, joint design and welding certification procedures. Library research, written assignments and tests, and basic metallurgy and certification preparation are all units of instruction involved in the above areas.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Welding Program.

Co-requisites: (804-306)

[Complete Course Listing](#)

442-310 Shielded Metal Arc Weld (SMAW)

Credits: 5

This is an introductory course designed for students who desire to learn the theories and skills of welding. The theoretical principals learned in Industrial Welding Procedures-Codes & Specifications are put into practice. Students will learn to make sound welds with the Shielded Metal Arc Welding Process (SMAW) on mild steel in all positions with non low hydrogen electrodes such as E6010, E6011, E6013, and E7014. Health hazards and safety rules are discussed along with metal weldability, electrode classification and weld inspection. Industry standards and codes will be explored as visual and destructive testing of welded samples are carried out by students as an introduction to aspects of weld quality assurance and weld quality control. Library research, written assignments and tests, and basic metallurgy and certification preparation are all units of instruction involved in the above areas.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Welding Program.

Co-requisites: (804-306) and (801-311)

[Complete Course Listing](#)

442-312 Gas Tungsten Arc Weld (GTAW)

Credits: 5

This is an introductory course designed for students who desire to learn the theories and skills of welding. The theoretical principals learned in Industrial Welding Procedures - Codes & Specifications are put into practice. Students will learn to make sound welds with the Gas Tungsten Arc Welding Process (GTAW) on mild steel, stainless steel and aluminum alloys. Industry standards and codes will be explored as visual and destructive testing of welded samples are carried out by students as an introduction to aspects of weld quality assurance and weld quality control. Health hazards and safety rules are discussed along with weldability, tungsten electrode selection, shielded gasses, grinding, shearing, joint design and welding certification procedures. Library research, written assignments and tests, basic metallurgy and certification preparation are all units of instruction involved in the above areas.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Welding Program.

Co-requisites: (804-306) and (801-311)

[Complete Course Listing](#)

442-315 Metal Fabrication-Structural

Credits: 3

This course is designed to include basic light and heavy duty structural steel fabrication skills. The class will link the student's understanding of welding processes with real world fabrication techniques used in the industry today. The class will introduce a variety of skills needed to perform in today's fast pace and highly skilled work force that will include, tools of the trade, measuring, cutting and bolting principals, layout and design, drilling, bending, shaping and actual construction of light and heavy duty structural steel projects. This class will also involve exposure to riveting, automated CNC cutting equipment, basic manufacturing principals, and promotion of teamwork and communication skills as learners. Students will design, layout, and fabricate real projects.

Aid Code: 31 - One-year Technical Diploma.

Restrictions: Restricted to students admitted to Welding Program.

Co-requisites: (442-307 or 442-308 or 442-310 or 442-312)

[Complete Course Listing](#)

442-316 Metal Fabrication-Sheet Metal**Credits:** 3

This course is designed to introduce the basic skills involved in the sheet metal fabrication industry. The class will involve design and layout, tools of the trade, measuring and location techniques, forming and "shaping" of sheet metal. The class will involve specialty equipment used in the aviation industry, the custom auto and motorcycle industry, food industry and other specialty sheet metal industries. This class will also include exposure to fastener types, riveting, CNC cutting equipment, and promotion of teamwork and communication skills required in this highly skilled industry. Some of the specialty tools presented will include English wheels, Shot bag and mallets, shrinking and stretching equipment, bead rollers and hammer's and dollies, the Pullmax machine and the techniques used with them. Students will design, layout and construct real sheet metal projects in groups and individually.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-307 or 442-308 or 442-310 or 442-312)

Complete Course Listing

442-317 Welding Shop Safety**Credits:** 1

This course will familiarize students with all necessary national safety rules and regulations of the welding industry, in addition to personal protective equipment and machine operation.

Aid Code: 31 - One-year Technical Diploma.

Complete Course Listing

442-318 Introduction to Welding**Credits:** 1

The introduction to welding course will introduce students to the history of welding, basic metallurgy, weld defects and discontinuities, codes and standards and common welding processes and practices.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-317 or 412-124 or 412-305 or 620-164)

Complete Course Listing

442-320 Gas Metal Arc Welding 1**Credits:** 1

This course examines Gas Metal Arc Welding (GMAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make welds in the flat position on carbon steel.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-343)

Complete Course Listing

442-321 Gas Metal Arc Welding 2**Credits:** 1

This course examines Gas Metal Arc Welding (GMAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make welds in the horizontal position on carbon steel.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-320)

Complete Course Listing

442-322 Gas Metal Arc Welding 3**Credits:** 1

This course examines Gas Metal Arc Welding (GMAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make welds in the vertical position on carbon steel.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-321)

Complete Course Listing

442-323 Gas Metal Arc Welding 4**Credits:** 1

This course examines Gas Metal Arc Welding (GMAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make welds in the overhead position on carbon steel.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-322)

Complete Course Listing

442-324 Gas Metal Arc Welding 5**Credits:** 1

This course examines Pulsed Gas Metal Arc Welding (GMAW-P) machine settings, theory, filler metals, safety protocol and welding process. Students will make welds in the flat position on carbon steel.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-323)

Complete Course Listing

442-325 Gas Metal Arc Welding 6**Credits:** 1

This course examines Pulsed Gas Metal Arc Welding (GMAW-P) machine settings, theory, filler metals, safety protocol and welding process. Students will make welds in the horizontal and vertical positions on carbon steel.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-324)

Complete Course Listing

442-326 Gas Tungsten Arc Welding 1**Credits:** 1

This course covers Gas Tungsten Arc Welding (GTAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make flat position welds on carbon steel.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-343)

Complete Course Listing

442-327 Gas Tungsten Arc Welding 2**Credits:** 1

This course covers Gas Tungsten Arc Welding (GTAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make horizontal position welds on carbon steel.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-326)

Complete Course Listing

442-328 Gas Tungsten Arc Welding 3

Credits: 1

This course covers Gas Tungsten Arc Welding (GTAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make vertical position welds on carbon steel.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-327)

Complete Course Listing

442-329 Gas Tungsten Arc Welding 4

Credits: 1

This course covers Gas Tungsten Arc Welding (GTAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make flat and horizontal position welds on aluminum.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-328)

Complete Course Listing

442-330 Gas Tungsten Arc Welding 5

Credits: 1

This course covers Gas Tungsten Arc Welding (GTAW) machine settings, theory, filler metals, polarities, safety protocol and welding process. Students will make vertical position welds on aluminum.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-329)

Complete Course Listing

442-331 Flux Cored Arc Welding 1

Credits: 1

This course examines the theory and practical operation of Flux Cored Arc Welding (FCAW). Safety protocols are reviewed and practiced. Proper machine settings and filler metals are used to produce flat position welds on carbon steel using Gas Shielded and Self Shielded FCAW.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-318)

Complete Course Listing

442-332 Flux Cored Arc Welding 2

Credits: 1

This course examines the theory and practical operation of Flux Cored Arc Welding (FCAW). Safety protocols are reviewed and practiced. Proper machine settings and filler metals are used to produce horizontal position welds on carbon steel using Gas Shielded and Self Shielded FCAW.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-331)

Complete Course Listing

442-333 Flux Cored Arc Welding 3

Credits: 1

This course examines the theory and practical operation of Flux Cored Arc Welding (FCAW). Safety protocols are reviewed and practiced. Proper machine settings and filler metals are used to produce vertical position welds on carbon steel using Gas Shielded and Self Shielded FCAW.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-332)

Complete Course Listing

442-334 Flux Cored Arc Welding 4

Credits: 1

This course examines the theory and practical operation of Flux Cored Arc Welding (FCAW). Safety protocols are reviewed and practiced. Proper machine settings and filler metals are used to produce overhead position welds on carbon steel using Gas Shielded and Self Shielded FCAW.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-333)

Complete Course Listing

442-335 Flux Cored Arc Welding 5

Credits: 1

This course applies the theory and operation of Flux Cored Arc Welding (FCAW) learned in prior courses through completion of projects. Safety protocols are reviewed and practiced.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-334)

Complete Course Listing

442-336 Shielded Metal Arc Welding 1

Credits: 1

This course examines the theory and operation of Shielded Metal Arc Welding (SMAW). Safety protocols are reviewed and practiced. Proper machine settings and common filler metals are used to produce flat position welds on carbon steel.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-318)

Complete Course Listing

442-337 Shielded Metal Arc Welding 2

Credits: 1

This course examines the theory and operation of Shielded Metal Arc Welding (SMAW). Safety protocols are reviewed and practiced. Proper machine settings and common filler metals are used to produce horizontal position welds on carbon steel.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-336)

Complete Course Listing

442-338 Shielded Metal Arc Welding 3

Credits: 1

This course examines the theory and operation of Shielded Metal Arc Welding (SMAW). Safety protocols are reviewed and practiced. Proper machine settings and common filler metals are used to produce vertical position welds on carbon steel.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-337)

Complete Course Listing

442-339 Shielded Metal Arc Welding 4

Credits: 1

This course examines the theory and operation of Shielded Metal Arc Welding (SMAW). Safety protocols are reviewed and practiced. Proper machine settings and common filler metals are used to produce overhead position welds on carbon steel.

Aid Code: 31 - One-year Technical Diploma.

Co-requisites: (442-338)

Complete Course Listing

442-340 Shielded Metal Arc Welding 5**Credits:** 1

This course applies the theory and operation of Shielded Metal Arc Welding (SMAW) learned in prior courses through completion of projects. Safety protocols are reviewed and practiced.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-339)

Complete Course Listing

442-341 Welding Certification**Credits:** 1

This course covers destructive and non-destructive testing methods and welding procedure creation and implementation as it relates to welding code work. Participants will write a procedure, fabricate, weld and test two pre-qualified specimens in accordance with a specified welding code.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-325) and (442-330) and (442-335) and (442-340)

Complete Course Listing

442-342 Advanced Welding Techniques**Credits:** 1

Students construct various welding projects in accordance with the American Welding Society (AWS) SENCE program and EG2.0.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-341)

Complete Course Listing

442-343 Welding Blueprint Reading 1**Credits:** 1

This course covers the fundamentals of Blueprint reading. Students examine and analyze types of drawings, orthographic projection, library of lines, title block dimensions and produce sketching projects.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-318)

Complete Course Listing

442-344 Welding Blueprint Reading 2**Credits:** 1

This course covers blueprint reading specific to the welding industry. Students examine and define welding symbols and abbreviations used on welding specific blueprints.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-343)

Complete Course Listing

442-345 Structural Fab Welding 1**Credits:** 1

This course covers the fundamentals of structural steel fabrication for the welding industry. Included in this course is safety, introduction to structural fabrication equipment and techniques.

Aid Code: 31 - One-year Technical Diploma.**Pre-requisites:** (442-319)

Complete Course Listing

442-352 Thermal Cutting**Credits:** 1

Students will perform oxy-fuel cutting set up and operations, line burner operation, plasma cutting operations, carbon arc cutting and gouging and coupon preparations used for practice and testing.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (442-318)

Complete Course Listing

442-510 Welding Plumbers**Credits:** 1**Aid Code:** 50 - Apprentice.

Complete Course Listing

442-511 Print Reading, Math, Cutting & Inspection**Credits:** 2

The program configuration model for the Welder Fabricator apprenticeship related instruction provides xx semesters of coursework and the Transition-to-Trainer course in the last year. Courses listed here were developed by instructors and subject matter experts from industry. Each semester includes 72 hours of instruction (4 hours per week, or the equivalent, each term).

Aid Code: 50 - Apprentice.

Complete Course Listing

442-513 Advanced Fabrication and Layout with Soldering and Brazing**Credits:** 2

The program configuration model for the Welder Fabricator apprenticeship related instruction provides xx semesters of coursework and the Transition-to-Trainer course in the last year. Courses listed here were developed by instructors and subject matter experts from industry. Each semester includes 72 hours of instruction (4 hours per week, or the equivalent, each term).

Aid Code: 50 - Apprentice.

Complete Course Listing

442-515 Welding & Fabrication Troubleshooting**Credits:** 2

The program configuration model for the Welder Fabricator apprenticeship related instruction provides xx semesters of coursework and the Transition-to-Trainer course in the last year. Courses listed here were developed by instructors and subject matter experts from industry. Each semester includes 72 hours of instruction (4 hours per week, or the equivalent, each term).

Aid Code: 50 - Apprentice.

Complete Course Listing

442-522 Layout & Fabrication Basics with SMAW and GMAW Welding**Credits:** 2

The program configuration model for the Welder Fabricator apprenticeship related instruction provides xx semesters of coursework and the Transition-to-Trainer course in the last year. Courses listed here were developed by instructors and subject matter experts from industry. Each semester includes 72 hours of instruction (4 hours per week, or the equivalent, each term).

Aid Code: 50 - Apprentice.

Complete Course Listing

442-524 Metallurgy & FCAW and GTAW Welding

Credits: 2

The program configuration model for the Welder Fabricator apprenticeship related instruction provides xx semesters of coursework and the Transition-to-Trainer course in the last year. Courses listed here were developed by instructors and subject matter experts from industry. Each semester includes 72 hours of instruction (4 hours per week, or the equivalent, each term).

Aid Code: 50 - Apprentice.

[Complete Course Listing](#)

442-526 Introduction to Automation, CNC and Lean Manufacturing

Credits: 2

The program configuration model for the Welder Fabricator apprenticeship related instruction provides xx semesters of coursework and the Transition-to-Trainer course in the last year. Courses listed here were developed by instructors and subject matter experts from industry. Each semester includes 72 hours of instruction (4 hours per week, or the equivalent, each term).

Aid Code: 50 - Apprentice.

Communication Skills (801)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

801-119 Mass Communications

Credits: 3

This is a course designed for students who are interested in learning about music, radio, television, and film. However, the nature and scope of the course goes beyond mere media appreciation. The overall objective is to provide students with an understanding of the forms of Mass Communication and insure that the students learn how to communicate interpersonally about the films, television shows, and radio music that they see and hear. Main learning activities: movies, recorded music and television shows will be seen and heard regularly in class and discussed and critiqued formally outside of class.

Aid Code: 10 - Associate Degree.

[Complete Course Listing](#)

801-136 English Composition 1

Credits: 3

This course is designed for learners to develop knowledge and skills in all aspects of the writing process. Planning, organizing, writing, editing, and revising are applied through a variety of activities. Students will analyze audience and purpose, use elements of research, and format documents using standard guidelines. Individuals will develop critical reading skills through analysis of written documents.

Aid Code: 10 - Associate Degree.

Pre-requisites: ((ASSET Writing Skills, 44 or COMPASS Writing Skills, 070 or AccuPlacer Sentence Skills, 083 or ACT English, 18 or Test Waived-College Degree or Next Gen AccuPlacer Writing, 255 or SAT Verbal, 330) or (831-103)) and ((COMPASS Reading Skills, 073 or AccuPlacer Reading Comp, 076 or ACT Reading, 16 or ASSET Reading Skills, 39 or Next Gen AccuPlacer Reading, 251 or SAT Reading, 330 or Reading-Credit Level Met or Test Waived-College Degree)) or ((COMPASS Reading Skills, 051 or AccuPlacer Reading Comp, 055 or ACT Reading, 12 or SAT Reading, 270 or Next Gen AccuPlacer Reading, 236)) or (838-104) or (801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196)

Co-requisites: (838-104)

[Complete Course Listing](#)

801-195 Written Communication

Credits: 3

Develops writing skills which include prewriting, drafting, revising, and editing. A variety of writing assignments is designed to help the learner analyze audience and purpose, research and organize ideas, and format and design documents based on subject matter and content. Also develops critical reading and thinking skills through the analysis of a variety of written documents.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Writing Skills, 44 or COMPASS Writing Skills, 070 or ACT English, 18 or AccuPlacer Sentence Skills, 083 or Next Gen AccuPlacer Writing, 255 or SAT Verbal, 330 or Writing-Credit Level Met or Test Waived-College Degree) and (COMPASS Reading Skills, 073) or (ACT Reading, 16 or SAT Reading, 260 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251) and (COMPASS Writing Skills, 38) or (ACT English, 15 or SAT Verbal, 290 or AccuPlacer Sentence Skills, 63 or Next Gen AccuPlacer Writing, 242) and (COMPASS Reading Skills, 051) or (SAT Reading, 270 or ACT Reading, 12 or AccuPlacer Reading Comp, 055 or Next Gen AccuPlacer Reading, 236) or (801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

Co-requisites: (851-795) or (838-104)

[Complete Course Listing](#)

801-196 Oral/Interpersonal Communication**Credits:** 3

Focuses upon developing speaking, verbal and nonverbal communication, and listening skills through individual presentations, group activities, and other projects.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or SAT Reading, 330 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 250 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55)

Co-requisites: (838-104)

Complete Course Listing

801-197 Technical Reporting**Credits:** 3

The student will prepare and present oral and written technical reports. Types of reports may include lab and field reports, proposals, technical letters and memos, technical research reports, and case studies. Designed as an advanced communication course for students who have completed at least the prerequisite introductory writing course.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (801-195 or 801-136 or Test Waived-College Degree)

Complete Course Listing

801-198 Speech**Credits:** 3

Explores the fundamentals of effective oral presentation to small and large groups. Topic selection, audience analysis, methods of organization, research, structuring evidence and support, delivery techniques, and other essential elements of speaking successfully, including the listening process, form the basis of the course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or SAT Reading, 260 or Reading-Credit Level Met or Test Waived-College Degree or 838-104 or 838-104 or 801-195 or 801-136 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

Complete Course Listing

801-311 Communication**Credits:** 2

This course reviews the grammar and writing skills that an adult learner needs to write clearly, concisely, and persuasively on the job. Students will produce a variety of job-related documents such as: business memos, letters, and short reports. The course will provide techniques that will improve the effectiveness with which learners communicate interpersonally, and within small groups. Students will learn to prepare and deliver oral presentations.

Aid Code: 31 - One-year Technical Diploma.

Mathematics (804)

Information provided includes course descriptions by subject only. For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

804-107 College Mathematics

Credits: 3

This course is designed to review and develop fundamental concepts of mathematics pertinent to the areas of: 1) arithmetic and algebra; 2) geometry and trigonometry; and 3) probability and statistics. Special emphasis is placed on problem solving, critical thinking and logical reasoning, making connections, and using calculators. Topics include performing arithmetic operations and simplifying algebraic expressions, solving linear equations and inequalities in one variable, solving proportions and incorporating percent applications, manipulating formulas, solving and graphing systems of linear equations and inequalities in two variables, finding areas and volumes of geometric figures, applying similar and congruent triangles, converting measurements within and between U.S. and metric systems, applying Pythagorean Theorem, solving right and oblique triangles, calculating probabilities, organizing data and interpreting charts, calculating central and spread measures, and summarizing and analyzing data.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Numerical Skills, 40 or COMPASS Pre-Algebra Skills, 044 or ACT Math, 17 or Test Waived-College Degree or 834-109 or 834-109) or (AccuPlacer Arithmetic, 089 or (AccuPlacer Arithmetic, 065 and AccuPlacer Elem Algebra, 030))

[Complete Course Listing](#)

804-113 College Technical Mathematics 1A

Credits: 3

Topics include: solving linear, quadratic, and rational equations; graphing; formula rearrangement; solving systems of equations; percent; proportions; and operations on polynomials. Emphasis will be on the applications of skills to technical problems. Successful completion of College Technical Mathematics 1A and College Technical Mathematics 1B is the equivalent of College Technical Mathematics 1.

Aid Code: 10 - Associate Degree.

Pre-requisites: (804-110 or 834-110) and (ASSET Numerical Skills, 45 or Compass Algebra, 046 or ACT Math, 20 or SAT Mathematics, 390) or (AccuPlacer Arithmetic, 089 and AccuPlacer Elem Algebra, 050) or (Next Gen AccuPlacer Arithmetic, 272 and Next Gen AccuPlacer QRAS, 243)

[Complete Course Listing](#)

804-114 College Technical Mathematics 1B

Credits: 2

This course is a continuation of College Technical Mathematics 1A. Topics include: measurement systems; computational geometry; right and oblique triangle trigonometry; and trigonometric functions on the unit circle. Emphasis will be on the application of skills to technical problems. Successful completion of or concurrent enrollment in College Technical Mathematics 1A is required for course enrollment. Successful completion of College Technical Mathematics 1A and College Technical Mathematics 1B is the equivalent of College Technical Mathematics 1.

Aid Code: 10 - Associate Degree.

Pre-requisites: 804-113

[Complete Course Listing](#)

804-115 College Technical Mathematics 1

Credits: 5

Topics include: solving linear, quadratic, and rational equations; graphing; formula rearrangement; solving systems of equations; percent; proportions; measurement systems; computational geometry; right and oblique triangle trigonometry; trigonometric functions on the unit circle; and operations on polynomials. Emphasis will be on the application of skills to technical problems.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Numerical Skills, 45 or Compass Algebra, 046 or Next Gen AccuPlacer Arithmetic, 272) and (Next Gen AccuPlacer QRAS, 243) or (ACT Math, 20 or 804-110 or 834-110 or (AccuPlacer Arithmetic, 089 and AccuPlacer Elem Algebra, 50))

[Complete Course Listing](#)

804-118 Intermediate Algebra with Applications

Credits: 4

This course offers algebra content with applications. Topics include properties of real numbers, order of operations, algebraic solution for linear equations and inequalities, operations with polynomial and rational expressions, operations with rational exponents and radicals, algebra of inverse, logarithmic and exponential functions.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Numerical Skills, 45 or Compass Algebra, 046 or ACT Math, 20 or 804-110 or 834-110 or AccuPlacer Arithmetic, 089 and AccuPlacer Elem Algebra, 050) or (Next Gen AccuPlacer Arithmetic, 272 and Next Gen AccuPlacer QRAS, 243)

[Complete Course Listing](#)

804-123 Math with Business Applications

Credits: 3

This course covers...real numbers, basic operations, linear equations, proportions with one variable, percents, simple interest, compound interest, annuity, apply math concepts to the purchasing/buying process, apply math concepts to the selling process, and basic statistics with business/consumer applications.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Test Waived-College Degree or 809-198 or 809-199 or 838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198) and (ASSET Numerical Skills, 40 or COMPASS Pre-Algebra Skills, 044 or ACT Math, 17 or Test Waived-College Degree or 834-109 or 834-109) or (AccuPlacer Arithmetic, 089 or AccuPlacer Arithmetic, 065 and AccuPlacer Elem Algebra, 030) or (Next Gen AccuPlacer Arithmetic, 272) or (Next Gen AccuPlacer Arithmetic, 257 and Next Gen AccuPlacer QRAS, 210)

[Complete Course Listing](#)

804-133 Math and Logic**Credits:** 3

Students will apply mathematical problem solving techniques. Topics will include symbolic logic, sets, algebra, Boolean algebra, and number bases.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Numerical Skills, 40 or COMPASS Pre-Algebra Skills, 044 or ACT Math, 17 or AccuPlacer Arithmetic, 089 or Test Waived-College Degree) or (AccuPlacer Arithmetic, 065 and AccuPlacer Elem Algebra, 030) and (COMPASS Reading Skills, 073) or (ACT Reading, 16 or ASSET Reading Skills, 39 or SAT Reading, 330 or 838-104 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Test Waived-College Degree) or (838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or ASSET Reading Skills, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

804-134 Mathematical Reasoning**Credits:** 3

All college students, regardless of their college major, need to be able to make reasonable decisions about fiscal, environmental, and health issues that require quantitative reasoning skills. An activity based approach is used to explore numerical relationships, graphs, proportional relationships, algebraic reasoning, and problem solving using linear, exponential and other mathematical models. Students will develop conceptual and procedural tools that support the use of key mathematical concepts in a variety of contexts.

Aid Code: 10 - Associate Degree.

Complete Course Listing

804-189 Introductory Statistics**Credits:** 3

Students taking Introductory Statistics display data with graphs, describe distributions with numbers perform correlation and regression analyses, and design experiments. They use probability and distributions to make predictions, estimate parameters, and test hypotheses. They draw inferences about relationships including ANOVA.

Aid Code: 10 - Associate Degree.

Pre-requisites: (804-106 or 804-107 or 804-118 or 804-110 or 834-110) and (ASSET Numerical Skills, 45 or Compass Algebra, 046 or ACT Math, 20 or SAT Mathematics, 390) or (AccuPlacer Arithmetic, 089 and AccuPlacer Elem Algebra, 050) or (Next Gen AccuPlacer Arithmetic, 272 and Next Gen AccuPlacer QRAS, 243)

Complete Course Listing

804-195 College Algebra w Apps**Credits:** 3

This course covers those skills needed for success in Calculus and many application areas on a baccalaureate level. Topics include the real and complex number systems, polynomials, exponents, radicals, solving equations and inequalities (linear and nonlinear), relations and functions, systems of equations and inequalities (linear and nonlinear), matrices, graphing, conic sections, sequences and series, combinatorics, and the binomial theorem.

Aid Code: 10 - Associate Degree.

Complete Course Listing

804-196 Trigonometry w Apps**Credits:** 3

Topics include circular functions, graphing of trigonometry functions, identities, equations, trigonometric functions of angles, inverse functions, solutions of triangles complex numbers, DeMoivre's Theorem, polar coordinates, and vectors.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Numerical Skills, 49 or Compass Algebra, 066 or ACT Math, 23 or 804-110)

Complete Course Listing

804-197 College Algebra and Trigonometry with Applications**Credits:** 5

This course covers those skills needed for success in Calculus and many application areas on a baccalaureate level. Topics include the real and complex number systems, polynomials, exponents, radicals, solving equations and inequalities (linear and nonlinear), relations and functions, systems of equations and inequalities (linear and nonlinear), matrices, graphing, conic sections, sequences and series, combinatorics, and the binomial theorem.

Aid Code: 10 - Associate Degree.

Pre-requisites: (804-118) or (ACT Math, 22) or (Next Gen AccuPlacer Arithmetic, 276) or (AccuPlacer Arithmetic, 85)

Complete Course Listing

804-198 Calculus 1**Credits:** 4

Analyze and graph algebraic expressions, especially conic sections. Develop an intuitive understanding of limits, derivatives and integrals. Apply the derivative and the integral to certain physical problems.

Aid Code: 10 - Associate Degree.

Complete Course Listing

804-304 Mathematic Fundamentals

Credits: 2

This course consists of instructional units that incorporate hands on activities and projects. It is intended to give students a review of the basic principles of arithmetic, including whole numbers, fractions, and decimals. Estimation of length, angles and mathematical results is also covered. Additional topics include ratios, proportions, powers, analyzing graphs and an introduction to algebra. Proper calculator usage will be discussed throughout the course.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (ASSET Numerical Skills, 35 or COMPASS Pre-Algebra Skills, 025 or ACT Math, 15 or AccuPlacer Arithmetic, 050 or Test Waived-College Degree or 854-781 or 854-781 or 854-782 or 854-782 or 854-783 or 854-783 or 854-784 or 854-784 or 854-785 or 854-785 or 854-786 or 854-786 or 854-787 or 854-787)

[Complete Course Listing](#)

804-306 Shop Mathematics I

Credits: 2

This course includes the basic principles of arithmetic beginning with whole numbers and common fractions, and continuing through decimals, percentages, ratios, proportions and averages, and measurements. These principles are applied to typical shop problems throughout the course.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (ASSET Numerical Skills, 35 or COMPASS Pre-Algebra Skills, 025 or ACT Math, 15 or AccuPlacer Arithmetic, 050 or Test Waived-College Degree or Next Gen AccuPlacer Arithmetic, 250)

[Complete Course Listing](#)

804-308 Shop Mathematics II

Credits: 2

This course is a continuation of Shop Mathematics I and includes the study of the properties of circles, volumes and surface areas of various solids, an introduction to practical algebra and trigonometric principles used in solving right triangles as well as applications of the sine and cosine law in solving oblique triangles.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: 804-306

[Complete Course Listing](#)

804-501 Math For Plumbing Appr

Credits: 1

Aid Code: 50 - Apprentice.

[Complete Course Listing](#)

Natural Science (806)

**Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).**

806-108 Applied Anatomy and Physiology

Credits: 5

This course builds on a basic knowledge of skeletal, muscle and nervous systems and presents an in-depth study of their structure and functions. The integration of these systems to produce motion is studied. Critical thinking skills are encouraged as to analyze the relationships of these systems to normal movement, posture and gait. The development of observation and palpation skills is emphasized. Independent study of the pathophysiology of the major body systems is also included.

Aid Code: 10 - Associate Degree.

Restrictions: Restricted to students admitted to Physical Therapist Assistant Program.

Pre-requisites: (806-154 or 806-139 or 806-140) and (806-177 or 806-131 or 806-195)

[Complete Course Listing](#)

806-110 Forensic Science (Criminalistics)

Credits: 3

Forensic Science is a course designed to provide students of law enforcement with an appreciation of the capabilities and limitations of scientific analysis of crime scene evidence. All functions of a basic crime lab are discussed with emphasis on relating methods of analysis to the proper collection and packaging of evidence. Laboratory exercises are designed to expand upon and reinforce lecture material.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or SAT Reading, 330 or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

[Complete Course Listing](#)

806-112 Principles of Sustainability**Credits:** 3

Prepares the student to develop sustainable literacy, analyze the interconnections among the physical and biological sciences and environmental systems, summarize the effects of sustainability on health and well-being, analyze connections among social, economic, and environmental systems, employ energy conservation strategies to reduce the use of fossil fuels, investigate alternative energy options, evaluate options to current waste disposal and recycling in the U.S., and analyze approaches used by your community to promote and implement sustainability.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-118 Metal Science**Credits:** 3

This is a one-semester course in basic physics and metallurgy principles for the Technical College student. The course reviews accuracy and precision of measurements, introduces calculations with units and conversions within and between systems of measurements, formula rearranging, and applications in problem solving. Basic topics include properties of matter, metallurgy, material properties, material testing, force, motion (linear and circular), energy, power, and simple machines. The topics of heat, electricity, and magnetism are also introduced in the class. Emphasis is placed on the application of the laws and principles of physics to practical problems found in the machine shop and industry.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Test Waived-College Degree) or Next Gen AccuPlacer Reading, 251 or SAT Reading, 330 or Reading-Credit Level Met and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or ASSET Reading Skills, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-134 General Chemistry**Credits:** 4

Covers the fundamentals of chemistry. Topics include the metric system, problem-solving, periodic relationships, chemical reactions, chemical equilibrium, properties of water; acids, bases, and salts; and gas laws.

Aid Code: 10 - Associate Degree.

Pre-requisites: (Chemistry, 1.0 and 804-107) or 834-123 or 804-133 or 804-134 or 834-110 or 836-133 and (COMPASS Pre-Algebra Skills, 044 or ACT Math, 17 or ASSET Numerical Skills, 40 or Test Waived-College Degree) or (AccuPlacer Arithmetic, 089) or (AccuPlacer Arithmetic, 065 and AccuPlacer Elem Algebra, 030) or (Next Gen AccuPlacer Arithmetic, 272) and (COMPASS Reading Skills, 073) or (ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Test Waived-College Degree)

Complete Course Listing

806-139 Survey Of Physics**Credits:** 3

This course emphasizes understanding basic physics concepts through laboratory investigation and applications. Topics include kinematics, dynamics, work, energy, power, temperature, heat, waves, electricity, magnetism, electromagnetic waves, optics, and atomic and nuclear physics.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or SAT Reading, 330 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 055 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-140 Physics**Credits:** 3

This course is designed to acquaint the students with basic concepts of physics and their applications. Topics covered include algebra (a review), measurement, motion, forces, work, energy, power, simple machines, heat, and electricity. Laboratory exercises are designed to expand upon and reinforce lecture material.

Aid Code: 10 - Associate Degree.

Complete Course Listing

806-152 Technical Science II

Credits: 3

This course is a continuation of Technical Science I with a study of heat, wave motion and sound, light and optics, and an introduction to electricity and magnetism. Sufficient mathematical treatment is given to the materials so the student can apply the principles in a quantitative manner. The laboratory work includes computer-aided study and the appropriate experiments to illustrate the application of the physical principles.

Aid Code: 10 - Associate Degree.

Pre-requisites: 806 151

Complete Course Listing

806-154 General Physics 1

Credits: 4

Presents the applications and theory of basic physics principles. This course emphasizes problem-solving, laboratory investigation, and applications. Topics include unit conversion and analysis, vectors, translational and rotational kinematics, translational and rotational dynamics, heat and temperature, and harmonic motion and waves.

Aid Code: 10 - Associate Degree.

Pre-requisites: (804-197 or 804-114 or 804-115) or (ACT Reading, 16 and (COMPASS Reading Skills, 073 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or SAT Reading, 73 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104) or (801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-177 or 806-186 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51) or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-172 Basic Nutritional Science

Credits: 3

This course provides an introduction into the science of nutrition. Basics concepts related to digestion and metabolism are presented. The significance of carbohydrates, lipids, proteins and vitamins to the human organism are discussed. The relationship of proper nutrition to selected pathological conditions throughout the human lifecycle is presented. The concept of sustainability and environmentally - conscious food production introduced.

Aid Code: 10 - Associate Degree.

Complete Course Listing

806-175 General Pathophysiology

Credits: 3

This introductory course in pathophysiology covers topics related to alterations of homeostasis and the associated pathophysiological processes. The major emphasis will be on the physiological factors that underlie disease states. Course studies include the processes involved that generate illness; signs and symptoms of commonly occurring illness states and effects of disease processes on the cell. Review of normal homeostatic mechanisms is included. Study of the fundamental processes in relation to the pathophysiological processes can enable the students to apply this knowledge to clinical situations.

Aid Code: 10 - Associate Degree.

Pre-requisites: (806-179) and (COMPASS Reading Skills, 73 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251)

Complete Course Listing

806-177 General Anatomy and Physiology

Credits: 4

Examines basic concepts of human anatomy and physiology as they relate to health sciences. Using a body systems approach, the course emphasizes the interrelationships between structure and function at the gross and microscopic levels of organization of the entire human body. It is intended to prepare health care professionals who need to apply basic concepts of whole body anatomy and physiology to informed decision-making and professional communication with colleagues and patients.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree or 838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (Chemistry, 1.0 or 856-787 or 806-199 or 806-134)

Complete Course Listing

806-179 Advanced Anatomy and Physiology

Credits: 4

Advanced Anatomy and Physiology is the second semester in a two-semester sequence in which normal human anatomy and physiology are studied using a body systems approach with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. Instructional delivery within a classroom and laboratory setting. Experimentation within a science lab will include analysis of cellular metabolism, the individual components of body systems such as the nervous, neuro-muscular, cardiovascular, and urinary. Continued examination of homeostatic mechanisms and their relationship to fluid, electrolyte, acid-base balance and blood. Integration of genetics to human reproduction and development are also included in this course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (806-195 or 806-177 or 806-131) and (ACT Reading, 12) or (COMPASS Reading Skills, 51 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-186 Introduction to Biochemistry**Credits:** 4

Provides students with skills and knowledge of organic and biological chemistry necessary for application within Nursing and other Allied Health careers. Emphasis is placed on recognizing the structure, physical properties and chemical reactions of organic molecules, body fluids, and acids. Additional emphasis is placed on biological functions and their relationships to enzymes, proteins, lipids, carbohydrates and DNA.

Aid Code: 10 - Associate Degree.

Pre-requisites: (Chemistry, 1.0 or 856-787 or 856-787 or 806-133 or 806-134) and (COMPASS Reading Skills, 073) or (ACT Reading, 16 or SAT Reading, 330 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Test Waived-College Degree or Reading-Credit Level Met) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-139 or 806-154 or 806-177 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51) or (ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-189 Basic Anatomy**Credits:** 3

Examines concepts of anatomy and physiology as they relate to health careers. Learners correlate anatomical and physiological terminology to all body systems.

Aid Code: 10 - Associate Degree.

Complete Course Listing

806-194 Survey of Anatomy and Physiology**Credits:** 3

This course is designed to provide a basic understanding of human anatomy, physiology, diseases, and terminology to assist with the transcription and coding of medical documents.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or SAT Reading, 330 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51) or (ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-197 Microbiology**Credits:** 4

This course examines microbial structure, metabolism, genetics, growth and the relationship between humans and microorganisms. Disease production, epidemiology, host defense mechanisms and the medical impact of microbes in the environment, industry, and biotechnology are also addressed.

Aid Code: 10 - Associate Degree.

Pre-requisites: (806-177 or 806-195 or 806-196 or 806-179 or 806-199) and (COMPASS Reading Skills, 73) or (ACT Reading, 16 or SAT Reading, 330 or AccuPlacer Reading Comp, 76 or Next Gen AccuPlacer Reading, 251) and (COMPASS Reading Skills, 51) or (ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 055 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-199 General, Organic and Biological Chemistry**Credits:** 4

A one semester course covering the fundamental aspects of inorganic and organic chemistry. Topics include lab safety, measurement, elementary problem solving, atomic structure, periodicity, chemical bonding, types of chemical reactions, properties of water, acid, bases, and salts, types of solutions and calculations of concentrations, gas laws, oxidation-reduction concepts, ionization, pH and buffers, hydrocarbons, types of organic compounds and functional groups, biochemical compounds including lipids, carbohydrates, proteins, and nucleic acids.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 073 or ACT Reading, 16 or ASSET Reading Skills, 39 or AccuPlacer Reading Comp, 076 or SAT Reading, 330 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51) or (ACT Reading, 12 or SAT Reading, 270 or ASSET Reading Skills, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

806-315 Applied Science**Credits:** 2

This one semester course in basic physics principles reviews accuracy and precision of measurements and introduces calculations with units and conversions within and between systems of measurements. Formula rearranging and applications to problem solving are reviewed. Basic physics topics such as properties of matter, mechanical principles of force, motion (linear and circular), energy, power and machines, heat, electricity, and magnetism are also studied. Emphasis is placed on the applications of the laws and principles of physics to practical problems. The use of vectors is demonstrated in forces, velocities, and electrical transformers.

Aid Code: 31 - One-year Technical Diploma.**Co-requisites:** (804-304 or 804-306)

Complete Course Listing

806-333 Aviation Physics

Credits: 2

This is a one-semester course in basic physics principles for aviation maintenance technicians. It includes a review of the units of measurement and conversions along with the properties of fluids. Mechanics (linear motion, equilibrium, energy, power, circular motion and machines), heat (temperature scales, specific heats and transfer), along with sound (wavelength, frequency, speed and intensity) are included. Special emphasis is given to problems applying these principles to the particular area of technology.

Aid Code: 32 - Two-year Technical Diploma.

Social Science (809)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to
Academic Programs (p. 25).

809-103 Think Critically and Creatively

Credits: 3

This course provides instruction in the vital, realistic and practical methods of thinking which are in high demand in all occupations of substance today. Decision making, problem solving, detailed analysis of ideas, troubleshooting, argumentation, persuasion, creativity, setting goals and objectives, and more are considered in depth as the student applies specific thinking strategies and tools to situations in a wide variety of workplace, personal, academic, and cultural situations. Classroom instruction is demonstrations, discussions, project and teamwork based. Assignments range from the short and simple to the detailed and complex. Reality and practicality are the focuses all through the course.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or Test Waived-College Degree or 838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199)

[Complete Course Listing](#)

809-122 Intro to American Government

Credits: 3

Introduces American political processes and Institutions. Focuses on rights and responsibilities of citizens and the process of participatory democracy. Learners examine the complexity of the separation of powers and checks and balances. Explores the role of the media, interest groups, political parties and public opinion in the political process. Also explores the role of state and national government in our federal system.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 73 or ACT Reading, 16 or AccuPlacer Reading Comp, 76 or Next Gen AccuPlacer Reading, 251 or SAT Reading, 330) and (COMPASS Reading Skills, 51) or (ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

[Complete Course Listing](#)

809-143 Microeconomics

Credits: 3

This course examines the behavior of individual decision makers, primarily consumers and firms. Topics include choices of how much to consume and to produce, the functioning of perfectly and imperfectly competitive markets, the conditions under which markets may fail, and arguments for and against government intervention. The student applies the fundamental tools of economics to real world problems.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 250 or SAT Reading, 330 or Test Waived-College Degree) or Reading-Credit Level Met or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51) or (AccuPlacer Reading Comp, 55 or ACT Reading, 12 or SAT Reading, 270 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

[Complete Course Listing](#)

809-144 Macroeconomics

Credits: 3

Macroeconomics is an introductory course. Basic social choices regarding economic systems, basic economic aggregates, fiscal policy, the banking system, monetary policy, and international trade are the principle topics discussed in the course. Balance is drawn between theory, analysis, and a critique of the institutions that characterize modern mixed-capitalist economies. Conflicting social goals, economic constraints, and environmental concerns provide the framework through which the macroeconomy is analyzed.

Aid Code: 10 - Associate Degree.

Pre-requisites: (COMPASS Reading Skills, 73 or ACT Reading, 16 or AccuPlacer Reading Comp, 76 or Next Gen AccuPlacer Reading, 251) and (COMPASS Reading Skills, 51) or (ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

[Complete Course Listing](#)

809-159 Abnormal Psychology**Credits:** 3

The course in Abnormal Psychology surveys the essential features, possible causes, and assessment and treatment of the various types of abnormal behavior from the viewpoint of the major theoretical perspectives in the field of abnormal psychology. Students will be introduced to the diagnosis system of the Diagnostic and Statistical Manual of Mental Disorders (DSM-IV). In addition, the history of the psychology of abnormality will be traced. Cultural and social perspectives in understanding and responding to abnormal behavior will be explored as well as current topics and issues within abnormal psychology.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (809-198) and (801-195 or 801-136 or ACT Reading, 16 or COMPASS Reading Skills, 73 or AccuPlacer Reading Comp, 76 or Next Gen AccuPlacer Reading, 251 or Test Waived-College Degree)

Complete Course Listing

809-166 Introduction to Ethics: Theory and Application**Credits:** 3

This course provides a basic understanding of the theoretical foundations of ethical thought. Diverse ethical perspectives will be used to analyze and compare relevant issues. Students will critically evaluate individual, social and/or professional standards of behavior, and apply a systematic decision-making process to these situations.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or SAT Reading, 330 or Reading-Credit Level Met or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-172 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (AccuPlacer Reading Comp, 55 or COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or Next Gen AccuPlacer Reading, 236)**Co-requisites:** (838-104)

Complete Course Listing

809-172 Introduction to Diversity Studies**Credits:** 3

Introduces learners to the study of diversity from a local to a global environment using a holistic, interdisciplinary approach. Encourages self-exploration and prepares the learner to work in a diverse environment. In addition to an analysis of majority/minority relations in a multicultural context, the primary topics of race, ethnicity, age, gender, class, sexual orientation, disability, and religion are explored.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or SAT Reading, 330 or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-188 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 051 or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 055 or Next Gen AccuPlacer Reading, 236)**Co-requisites:** (838-104)

Complete Course Listing

809-174 Social Problems**Credits:** 3

Explores the causes of and possible solutions to selected social problems such as inequality, crime and deviance, and poverty. Students will examine the interrelationship of social problems and their roots in fundamental societal institutions.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (809-196 or Test Waived-College Degree)

Complete Course Listing

809-188 Developmental Psychology**Credits:** 3

Developmental Psychology is the study of human development throughout the lifespan. This course explores developmental theory and research with an emphasis on the interactive nature of the biological, cognitive, and psychosocial changes that affect the individual from conception to death. Application activities and critical thinking skills will enable students to gain an increased knowledge and understanding of themselves and others.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or SAT Reading, 330 or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-195 or 809-143 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or AccuPlacer Reading Comp, 55 or Next Gen AccuPlacer Reading, 236)**Co-requisites:** (838-104)

Complete Course Listing

809-195 Economics

Credits: 3

This course is designed to give an overview of how a market-oriented economic system operates, and it surveys the factors which influence national economic policy. Basic concepts and analyses are illustrated by reference to a variety of contemporary problems and public policy issues. Concepts include scarcity, resources, alternative economic systems, growth, supply and demand, monetary and fiscal policy, inflation, unemployment and global economic issues.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or SAT Reading, 330 or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-196 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or ASSET Reading Skills, 55)

Co-requisites: (838-104)

Complete Course Listing

809-196 Introduction to Sociology

Credits: 3

Introduces students to the basic concepts of sociology: culture, socialization, social stratification, multi-culturalism, and the five institutions, including family, government, economics, religion, and education. Other topics include demography, deviance, technology, environment, social issues, social change, social organization, and workplace issues.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or SAT Reading, 330 or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-143 or 809-198 or 809-199) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or ASSET Reading Skills, 55)

Co-requisites: (838-104)

Complete Course Listing

809-198 Introduction to Psychology

Credits: 3

This introductory course in psychology is a survey of the multiple aspects of human behavior. It involves a survey of the theoretical foundations of human functioning in such areas as learning, motivation, emotions, personality, deviance and pathology, physiological factors, and social influences. It directs the student to an insightful understanding of the complexities of human relationships in personal, social, and vocational settings.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or SAT Reading, 330 or Test Waived-College Degree) or (801-195 or 801-136) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or ASSET Reading Skills, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

809-199 Psychology of Human Relations

Credits: 3

Explores the relationship between the general principles of psychology and our everyday lives. Students are given the opportunity to achieve a deepened sense of awareness of themselves and others. This understanding enables students to improve their relationships with others at work, in the family, and in society.

Aid Code: 10 - Associate Degree.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or AccuPlacer Reading Comp, 076 or Next Gen AccuPlacer Reading, 251 or Reading-Credit Level Met or SAT Reading, 330 or Test Waived-College Degree) or (838-104 or 838-104 or 801-195 or 801-136 or 801-196 or 801-198 or 804-133 or 806-110 or 806-112 or 806-118 or 806-134 or 806-139 or 806-154 or 806-177 or 806-186 or 806-194 or 806-199 or 809-103 or 809-166 or 809-172 or 809-188 or 809-195 or 809-196 or 809-198) and (COMPASS Reading Skills, 51 or ACT Reading, 12 or SAT Reading, 270 or ASSET Reading Skills, 55 or Next Gen AccuPlacer Reading, 236)

Co-requisites: (838-104)

Complete Course Listing

809-352 Skills for Successful Employee

Credits: 2

This course seeks to ready the student for employment by discussing specific "human" skills that lead to success on the job. The topics presented may include: the importance of having a good attitude; the need to recognize that customers "buy" much more than a clearly defined product or service; and knowing how to treat customers, how to influence them, how to handle complaints, and how to sell. Students will also become aware of the need for self-organization, for innovation, for teamwork, and for effective management.

Aid Code: 31 - One-year Technical Diploma.

Pre-requisites: (ASSET Reading Skills, 39 or COMPASS Reading Skills, 073 or ACT Reading, 16 or Test Waived-College Degree or 838-104 or 838-104)

Complete Course Listing

809-700 Growth, Relationships, Information & Technology**Credits:** 1

GRIT is a course that is designed to support students in their first semester to recognize their ability to grow and persist in college. Students will become more familiar with various academic and non-academic support services available to them such as career guidance, tutoring, financial assistance and academic counseling. Computer technology skills and college readiness skills such as time management, critical thinking/reading and student strategies will be emphasized to support student success.

Aid Code: 10 - Associate Degree.

Information provided includes course descriptions by subject only.**For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).****834-109 Pre-Algebra****Credits:** 3

Provides an introduction to algebra. Includes operations on real numbers, solving linear equations, percent and proportion, and an introduction to polynomials and statistics. Prepares students for elementary algebra and subsequent algebra related courses. *Credits earned in this course will not be counted toward the number of credits needed for any degree.*

Aid Code: 10 - Associate Degree.**Pre-requisites:** (854-781) and (ASSET Numerical Skills, 35 or COMPASS Pre-Algebra Skills, 025 or ACT Math, 15 or AccuPlacer Arithmetic, 050 or Next Gen AccuPlacer Arithmetic, 243)

Complete Course Listing

834-110 Elementary Algebra with Applications**Credits:** 3

This course offers traditional algebra topics with applications. Learners develop algebraic problem solving techniques needed for technical problem solving and for more advanced algebraic studies. Topics include linear equations, exponents, polynomials, rational expressions, and roots and radicals. Successful completion of this course prepares learners to succeed in technical mathematics courses.

Aid Code: 10 - Associate Degree.**Pre-requisites:** (834-109) or (ASSET Numerical Skills, 40 or COMPASS Pre-Algebra Skills, 044 or ACT Math, 17 or Test Waived-College Degree) or (AccuPlacer Arithmetic, 089) or (AccuPlacer Arithmetic, 065 and AccuPlacer Elem Algebra, 030) or (Next Gen AccuPlacer Arithmetic, 272) or (Next Gen AccuPlacer Arithmetic, 257 and Next Gen AccuPlacer QRAS, 210)

English (851)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

851-713 BSE Communications I **Credits: 3**

Introductory course includes basics of punctuation, spelling, capitalization as needed for written expression in everyday situations. Basic sentence and paragraph construction will be included.

Aid Code: 73 - Beg ABE (0-5.9).

Pre-requisites: (GED/ESL/BS Course Approval)
Complete Course Listing

851-764 Communication 2 GED Review **Credits: 3**

This course develops conventions of English structure, usage, mechanics, and spelling in order to write and expand ideas. It includes practice in writing, correcting and revising for the GED test at the pre-GED level.

Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.

Aid Code: 74 - Interm ABE (6.0-8.9).

Pre-requisites: (GED/ESL/BS Course Approval)
Complete Course Listing

851-772 Communication 3 GED Review **Credits: 3**

This course further develops conventions of English structure, usage, mechanics, and spelling in order to write and expand ideas. It includes practice in writing, correcting, and revising for the Reasoning Through Language Arts GED test. This course may also develop communication skills as needed for the Mathematical Reasoning, Social Studies, and Science GED tests. *Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.*

Aid Code: 76 - HS Dip, GED, HSED (9.0-12.9).

Pre-requisites: (GED/ESL/BS Course Approval)
Complete Course Listing

851-795 Writing Studio **Credits: 1**

A small group and individualized instruction course that helps students develop college-level writing skills. Emphasizes writing process strategies. Must be taken concurrently with Written Communication or English Composition 1.

Aid Code: 77 - ASE Developmental.

Pre-requisites: (ACT English, 15 or COMPASS Writing Skills, 038 or SAT Writing, 290 or AccuPlacer Sentence Skills, 063 or Next Gen AccuPlacer Writing, 242) or (851-781)
Complete Course Listing

851-798 Writing Foundations **Credits: 1**

A small group and individualized instruction course that helps students develop precollege writing skills. Emphasizes writing conventions (grammar, punctuation, capitalization, spelling) and sentence and paragraph skills. Must be taken concurrently with Intro to College Writing.

Aid Code: 77 - ASE Developmental.

Pre-requisites: (COMPASS Writing Skills, 24 or ACT English, 11 or SAT Verbal, 200 or AccuPlacer Sentence Skills, 30 or Next Gen AccuPlacer Writing, 220)
Complete Course Listing

- * A **TBA Class** is an individualized class that meets in the indicated Learning Lab during Lab hours. The hours are flexible, and students work at their own pace. These classes require approximately 4-6 hours per week in the Learning Lab to be successful. English Language Learners (861)

Information provided includes course descriptions by subject only.
For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

861-701 English as a Second Language, Advanced Communication
Credits: 3

Learners will discriminate common stress patterns, reductions, intonation, pitch patterns, and thought groups. Learners will utilize rules of grammar to form affirmative and negative statements and questions using simple, continuous, perfect and perfect continuous tenses. The use of conditional sentences and active/passive voice will be explored. Learners will be expected to use sustained speech to participate in discussions about unfamiliar topics, share experiential stories, and present oral reports of various types.

Aid Code: 75 - ESL W/Instl Area 861.

Complete Course Listing

861-711 English as a Second Language, Beginning Literacy, Communication
Credits: 3

Instruction and practice in the use of formal and informal conversational language. Students build vocabulary and learn to use numbers, emergency and health language, identify types of jobs and classroom objects. Basic pronunciation, speaking, and listening strategies are developed. Basic grammar and writing skills are introduced and practiced. Programs are infused with and enhanced by technology.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-715 English as a Second Language, Beginning Literacy
Credits: 3

Students develop basic language skills in the area of speaking, listening, reading and writing in the context of real-life survival skills. It is aimed at developing the listening comprehension and oral skills of beginning level learners of English. Students at this level function minimally, if at all, in English.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-718 English as a Second Language, Beginning Literacy, Reading
Credits: 3

Instruction to teach discrimination and correct orientation of the English alphabet, to introduce symbol/sound relationships, and the meaning of common signs and symbols. Students learn to recognize personal information print, use maps, calendars, and picture dictionaries. Students also begin to develop basic comprehension strategies at this level.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-731 English as a Second Language, Low Beginning, Communication
Credits: 3

Instruction to improve basic communication skills including: speaking, listening, pronunciation, writing, and grammar. Students learn to write and speak using simple past, present and future verb forms, generate simple affirmative and negative statements and questions, discriminate sounds, and respond to simple imperatives. Computer technology will assist students.

Aid Code: 75 - ESL W/Instl Area 861.

Complete Course Listing

861-735 English as a Second Language, Low Beginning
Credits: 3

Classes at this level provide relevant language in real-life contexts. This class uses an experience centered approach to give student survival skills as quickly as possible. This program provides plenty of opportunity to use language, while developing grammatical skills. Students at this level will begin to form simple sentences and be able to communicate with others. Students learn about standard social norms in the United States, the work ethic in the United States, and how to apply basic study skills.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-738 English as a Second Language, Low Beginning, Reading
Credits: 3

Instruction to improve basic reading skills and expand vocabulary. Students learn to comprehend and respond to a range of printed material, employ a variety of comprehension strategies, recognize formal and informal language, and develop fluency.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-751 English as a Second Language, High Beginning, Communication
Credits: 3

Instruction to improve speaking, listening, pronunciation, writing, and grammar skills. Students learn to use the writing process to compose short paragraphs and workplace reports, develop an awareness of language patterns, utilize rules of grammar, use formal and informal conversational language and respond to multi-step process directions. Computer technology is used to enhance the learning experience. Students will learn to use word processing tools.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-755 English as a Second Language, High Beginning
Credits: 3

Students learn about school services and how to access them. They will participate in formal and informal conversations about legal and basic human rights. Students learn to write cover letters, resumes, and to complete job applications. Development of study skills is stressed, and students will learn to apply learning and test taking skills and strategies and actively participate in the learning process.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

861-758 English as a Second Language, High Beginning Reading
Credits: 3

Instruction to improve reading skills and expand vocabulary. Students improve comprehension skills and learn to respond critically to a range of printed material. Employability vocabulary and the use of workplace terminology are expanded. Students develop greater fluency and increase their reading rate.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)
Complete Course Listing

861-771 English as a Second Language, Low Intermediate Communication
Credits: 3

Learners will identify sounds of English, use basic pronunciation strategies, and discriminate speech. Formal and informal conversational language skills will be developed through participation in a variety of activities. Learners will use sustained speech to give short explanations, descriptions, and process directions.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)
Complete Course Listing

861-775 English as a Second Language, Low Intermediate
Credits: 3

Learners will use pre-employment resources such as classified ads, employment agencies, web sites and the Rock County Job Center to complete a variety of assignments and tasks. Employer expectations such as punctuality, attitude, team work, and appreciation for diversity will be discussed. Learners will participate in activities to prepare for interviews.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)
Complete Course Listing

861-778 English as a Second Language, Low Intermediate Reading
Credits: 3

Learners will demonstrate comprehension of a range of printed materials including road signs, safety signs, newspaper articles, rhythm chants, short narratives, and fairy tales. Comprehension strategies studies will include recognition of compound words, homonyms, prefixes, and suffixes. Learners will demonstrate an awareness of a variety of language patterns and utilize rules of grammar to form statements and questions in simple and continuous tenses.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)
Complete Course Listing

861-795 English as a Second Language, High Intermediate
Credits: 3

Learners will identify the raise-promotion process, discuss the purpose of personnel files, discuss employer expectations, and identify discriminatory practices. Interview etiquette will be discussed and practiced. Activities will lead to greater understanding of American cultural practices such as volunteerism, competitiveness, parenting, and neighborhood interaction.

Aid Code: 75 - ESL W/Instl Area 861.

Pre-requisites: (GED/ESL/BS Course Approval)
Complete Course Listing

Mathematics (854)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

854-713 BSE Mathematics 1**Credits:** 3

Develops number concepts, mathematical language and whole number topics. This level introduces fractions, decimals, measurements and geometric shapes. Students use critical thinking skills to problem solve, perform computations, estimate results, interpret and develop data, work with appropriate technology and apply mathematics to real-world situations.

Aid Code: 73 - Beg ABE (0-5.9).**Pre-requisites:** (GED/ESL/BS Course Approval)

Complete Course Listing

854-764 Math 2 GED Review**Credits:** 3

This course develops math skills needed for the Mathematical Reasoning GED test at the pre-GED level. This course reviews whole numbers and develops fractions, decimals, measurements, mathematical language, percents, ratios, and proportions. This level may introduce basic algebra and geometry concepts. *Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.*

Aid Code: 74 - Interm ABE (6.0-8.9).**Pre-requisites:** (GED/ESL/BS Course Approval)

Complete Course Listing

854-765 BSE Certified Nursing Assistant Mathematics**Credits:** 2

This course will provide instruction in math skills needed to be successful in the Certified Nursing Assistant Program.

Aid Code: 74 - Interm ABE (6.0-8.9).

Complete Course Listing

854-772 Math 3 GED Review**Credits:** 3

This course reviews whole numbers and develops fractions, decimals, measurements, mathematical language, percents, ratios, and proportions. It includes an introduction to algebra and geometry and provides more higher level thinking and problem solving skills needed for the Mathematical Reasoning GED test. It may also develop math skills needed for the Social Studies and Science GED tests. *Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.*

Aid Code: 76 - HS Dip, GED, HSED (9.0-12.9).**Pre-requisites:** (GED/ESL/BS Course Approval)

Complete Course Listing

854-778 BSE Mathematics 3, Nursing Mathematics**Credits:** 2

Designed for students entering the Associate Degree Nursing program. Topics will include decimals, fractions, percents, metric measurements, conversions, concentrations, significant figures, scientific notation, working with formulas, and solving for the unknown. Special emphasis will be placed on preparing for the math tests required by the ADN program. This course does NOT satisfy the Program Ready requirement for the ADN program. *Credits earned in this course will not be counted toward the number of credits needed for any degree.*

Aid Code: 77 - ASE Developmental.

Complete Course Listing

854-802 Math Foundations**Credits:** 1

A small group and individualized instruction course that helps students develop precollege math skills. Emphasizes number operations needed to define and solve algebra and geometry problems and mathematical learning strategies. Must be taken concurrently with Pre-Algebra.

Aid Code: 77 - ASE Developmental.**Pre-requisites:** (COMPASS Pre-Algebra Skills, 17 or ACT Math, 12 or SAT Mathematics, 230 or AccuPlacer Arithmetic, 20 or Next Gen AccuPlacer Arithmetic, 200)

Complete Course Listing

854-805 Math Studio**Credits:** 1

Highly interactive format providing small group and individualized mathematics instruction that helps students develop mathematical skills and strategies for succeeding in college-level math. Must be taken concurrently with Mathematical Reasoning.

Aid Code: 77 - ASE Developmental.**Pre-requisites:** 854 781 or COMPASS Pre-Algebra Skills, 025 or ACT Reading, 15 or SAT Reading, 340 or AccuPlacer Arithmetic, 050 or Next Gen AccuPlacer Arithmetic, 243

Complete Course Listing

* A **TBA Class** is an individualized class that meets in the indicated Learning Lab during Lab hours.

The hours are flexible, and students work at their own pace. These classes require approximately 4-6 hours per week in the Learning Lab to be successful.

Social Science (859)

Information provided includes course descriptions by subject only.

For complete 2021-2022 programs/academic plans, please refer to Academic Programs (p. 25).

859-000

Credits: 3

The course focuses on several aspects of positive parenting. It includes exploring human growth and development, building self-esteem, learning positive parenting skills, establishing listening skills, engaging in effective discipline, and identifying bullying behavior. *Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.*

Aid Code: 74 - Interm ABE (6.0-8.9).

Complete Course Listing

859-740 Parenting

Credits: 3

The course focuses on several aspects of positive parenting. It includes exploring human growth and development, building self-esteem, learning positive parenting skills, establishing listening skills, engaging in effective discipline, and identifying bullying behavior. *Credits earned in this course will not be counted toward the number of credits needed for any degree. This course is not eligible for financial aid, and the credits do not count in enrollment status for financial aid eligibility.*

Aid Code: 74 - Interm ABE (6.0-8.9).

Complete Course Listing

859-762 BSE Social Science 2 Review - Storefront

Credits: 3

This course allows students to work on any area in the social sciences that they need to review to be successful in later course work, on the GED tests, or in their career.

Aid Code: 74 - Interm ABE (6.0-8.9).

Pre-requisites: (GED/ESL/BS Course Approval)

Complete Course Listing

859-773 BSE Social Science, Civics, HSED

Credits: 2

This course is an overview of the American government and how it impacts and influences the lives of American citizens. Areas of concentration are colonization, the constitution, branches of government, checks and balances, the Bill of Rights, state and local governments and citizen responsibility. Students who finish 30 hours of instruction in this course meet the citizenship requirement for the HSED certification.

Aid Code: 76 - HS Dip,GED,HSED (9.0-12.9).

Complete Course Listing

- * A **TBA Class** is an individualized class that meets in the indicated Learning Lab during Lab hours. The hours are flexible, and students work at their own pace. These classes require approximately 4-6 hours per week in the Learning Lab to be successful. Please stop by Room 2216, or call 608-757-7676, if you have any questions, or would like to set up a schedule.

STUDENT SUPPORT SERVICES

If you are a prospective or enrolled student interested in Blackhawk Technical College, you've come to the right place. Our Student Services team is here to help you throughout your educational journey. Our job is to help you from getting started all the way to graduation.

Academic Advising

Academic Advising focuses on the development of students. The purpose is to assist students in achieving their academic, career, and personal goals while at the College.

Students are encouraged to consult with their assigned Academic Advisor about any academic or personal problems. Their advisor can help them explore their aspirations, attitudes, and interests. Services include vocational guidance, career information, and assistance with academic and study problems.

Academic Advisors are located within the Student Services Department at the Central Campus and at our other campuses (schedules vary). Academic Advising assistance is also available on a drop-in basis but it is highly recommended to schedule an appointment. Services are also available at the outreach centers and in the evenings on a limited schedule.

Students can schedule an appointment with an Academic Advisor in Starfish.

For more information about Academic Advising call (608) 757-7668.

Advising, Registration and Orientation Sessions (ARO)

All new students will be required to attend an Advising, Registration, and Orientation (ARO) session prior to registering in courses. During the ARO sessions, students will learn more about policies and procedures at Blackhawk Technical College, receive assistance with technology, meet with an advisor and financial aid specialist and register for courses.

In the first semester after attending an ARO session, students will be required to meet with their assigned Academic Advisor to create an individualized Master Academic Plan (MAP). Students are encouraged to work closely with their assigned Academic Advisor to create a plan that will help them reach their goals.

Pathway Checkpoint

Pathway Checkpoint sessions occur during the first week of registration each semester. These sessions are optional but provide students with an opportunity to meet with an advisor and check their progress toward their degree. Students are required to bring a copy of their unofficial transcript and Master Academic Plan (MAP) to the Pathway Checkpoint. Advisors will verify that students are on track to graduation and assist with registration.

Bookstore

Students are required to purchase their own textbooks and supplies. While it is not mandatory, students will usually find it convenient to purchase materials from the campus bookstore. The policy for a refund on book purchases is posted at the Bookstore. The receipt of purchase is required for any refund. A full refund on books used for full-semester courses is available up to one week after the first day of class. Full refunds are available for all other courses within 48 hours of the first class. The Bookstore does have a book buyback program approximately one week prior to the end of the semester.

The Bookstore has available a wide range of textbooks, educational materials, and school supplies. The Bookstore is typically open for additional hours during peak times. Visit www.blackhawk.edu/bookstore or call (608) 757-7672 for more specific information. Services you can access via their website include reserving and pre-paying online and then picking up in the store, buying online and having your books shipped, and purchasing software at student discount prices. You must have a credit card to pre-pay or have the books shipped.

Campus Safety

The Safety and Security Office is located on the College's Central Campus.

The College prepares an Annual Security Report in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act, as well as Wisconsin state statutes. A copy of this report may be found at [www.blackhawk.edu/about/safety-security](https://blackhawk.edu/about/safety-security) (<https://blackhawk.edu/About/Safety-Security/>). A copy can also be obtained from the Safety and Security Office.

Non-Emergency Contact Numbers

- BTC Campus Security Department (608) 757-7617
- Central Campus Welcome Center (608) 758-6900
- Monroe Campus (608) 328-1660
- Center for Transportation Studies (608) 743-4471
- Advanced Manufacturing Training Center (608) 757-7628

It is the intent of BTC to provide a safe, secure, and appropriate environment in which students can learn and employees can work. However, like all segments of society, situations may occur which threaten the security and safety of property and people. Assistance phones are located throughout the hallways at Central, Milton, and Monroe campuses. These phones can be used to report an emergency by following the posted instructions. Deaf/hh, please call through Relay 9-711.

If you feel threatened, see criminal actions, or observe behavior that jeopardizes the safety and security of property and/or persons at BTC, you should report the incident immediately to 911 and the Security Office or BTC staff. BTC security or a staff member will assess the situation and determine if an emergency response is necessary. If the situation warrants emergency intervention, local law enforcement will be contacted to resolve the problem and investigate the incident. Any non-emergency incident of property damage, theft, burglary, or other criminal actions should be reported to the Security Office and local law enforcement for investigation and disposition.

For the Visitors and Guests Code of Conduct, visit <https://www.blackhawk.edu/About/Safety-Security/Code-of-Conduct-for-Visitors-Guests>.

Behavior Intervention Team (BIT)

The Behavioral Intervention Team (BIT) has been established to serve as a central network focused on prevention and early intervention in college situations involving students showing signs of serious distress or engaging in harmful or disruptive behaviors. The Team develops strategies for, and provides referrals or consultations to, college resources when concerns arise about students' well-being or when there is behavior that seems potentially harmful to self and/or others or may be disruptive or threatening. This Team will regularly assess situations in the college community, monitor students for an appropriate period of time, and will recommend actions in accordance with existing college policies.

To reach a BIT Team member, please contact (608) 757-7660.

Criminal Offense Statistics at BTC Facilities

Blackhawk Technical College prepares an Annual Security Report in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act, as well as Wisconsin state statutes. A copy of this report may be found at www.blackhawk.edu/safety. A copy can also be obtained in the Safety and Security Office located on Central Campus.

Security of and Access to BTC Facilities

The college has Campus Security; however, they do not have arrest powers. Security officers have the authority to ask persons for identification and to determine whether individuals have lawful business at the college. College security officers have the authority to enforce college and administrative policies as well as the Student Code of Conduct.

The college uses local law enforcement agencies that have jurisdiction over the campuses and center to investigate and enforce ordinances and criminal laws.

Access to and use of BTC facilities is governed by institutional policies and local statutes. Access to facilities is limited to BTC students, faculty, and staff for work, education, or other related purposes. Outside groups may use the facilities with special permission in accordance with district policy. Loitering or wandering through the facilities for unapproved reasons is prohibited.

Sex Offender Registry

Federal law requires BTC to provide details on where students can obtain information about registered sex offenders in the state or community. The Wisconsin Sex Offender Registry is maintained by the Wisconsin Department of Corrections. Information is available on the department's website: <http://www.widocoffenders.org>.

Timely Warnings of Potential Threats

A timely warning will be issued by Campus Security and/or College officials in the event that a situation arises on or off-campus that is considered a significant emergency or a continuing threat to the personal safety of students and staff. The decision to issue a timely warning will be based on information received by the College and, if possible, verified by outside agencies such as law enforcement, Emergency Management, Health Department, National Weather System, etc. Campus Security or College officials will determine the content of the notification and initiate the notification system.

However, a notification may be delayed if outside emergency response agencies believe immediate notification may compromise the safety and security of students and staff.

Campus Security and College officials issue warnings through the College's Safe Alert System and/or the Informacast System and/or email system to students and staff. Other notifications may be used (Blackboard posting, fire alarms, tornado sirens, media releases, etc.) depending on the situation. Campus Security or College officials may determine there is a specific segment of the student and staff population that warrants notification. This decision shall be made in conjunction with the appropriate outside agency. In this case, Campus Security or College officials will determine the best way to notify the specific segment of the campus population.

Anyone with information warranting a timely warning should contact Campus Security or College officials at the Welcome Center or by dialing 6900 on a campus phone.

In situations that may pose an immediate physical threat to members of the campus community, the Campus Security or College Officials may issue warnings through the College's Safe Alert System and/or the Informacast System and/or email system to students and employees. Depending on the situation, other notification processes may be used (i.e. Blackboard posting, fire alarms, tornado sirens, media releases, etc.).

Campus Security or College Officials may also determine there is a specific segment of students and staff who need notification. This decision will be made in conjunction with the appropriate outside agency. If that is the case, Campus Security or College Officials will make the determination of how to best convey that information to the specific segment of the campus population.

Anyone with information warranting a timely warning should report the circumstances to Campus Security or College Officials. Campus Security or College Officials can be contacted through the Welcome Center (information desk) or by dialing 6900 on a campus phone.

Career Services and Leadership Development

Blackhawk takes great pride in offering a wide range of career and professional development services.

Resources include WisconsinTechConnect (<https://www.wisconsintechconnect.com/>) (the Wisconsin Technical College student and alumni employment website), individual appointments on resume writing, and interviewing skills, workshops, and internship search strategies. The Certificate of Professional Development is a non-credit program that allows students and alumni to develop and improve professional skills which will provide them the edge in their job search. Computers (with access to the Internet) are also available for resume preparation and job searches. Career Services assistance is available in Room 2225, Monday through Friday, 8 a.m. to 4:30 p.m., on the Central Campus. These services are also available at all other BTC sites. Prospective graduates are encouraged to contact Alicia Acker – Career Services Coordinator at aacker@blackhawk.edu or (608) 743-4423 for more information.

Computers on Campus

BTC students have access to approximately 1,600 computers at our various locations. In addition to over 35 computer-equipped classrooms, there are open computer labs on all campuses. The BTC Library, located in the Student Success Center on Central Campus, also operates an equipment loan program where students can check out laptops, hotspots, and other devices.

All BTC facilities are equipped with wireless Internet access, so students may bring their own devices.

IT Help Desk support is available both during and between semesters and can be reached at (608) 757-7711 or in room 2506 at Central Campus. Typical support hours are below.

Fall/Spring Semester Support Hours:

Monday-Thursday: 7:30 a.m. - 9:00 p.m.

Friday: 7:30 a.m. - 5:00 p.m.

Saturday: 8:00 a.m. - 1:00 p.m.

Between Semesters:

Monday-Friday: 7:30 a.m. - 5:00 p.m.

Summer Semester Support Hours:

Monday-Thursday: 7:30 a.m. - 7:00 p.m.

Friday: 7:30 a.m. - 5:00 p.m.

Computer Use

Computers and computer systems owned by BTC are to be used only for academic/instructional activities, and other official college business. They are intended for use by BTC students and employees.

Students will be provided login identification and a temporary password at the time of the initial student registration. Usernames and passwords are unique to individuals and must not be shared. Every student is responsible for any activity under his/her username and password. Therefore, students should always log off a computer after each use. Computer users will be prompted every 180 days to change passwords.

Any use of college computer equipment and systems for illegal, unethical, or fraudulent purposes is prohibited. Displaying on college equipment or systems, or transmitting or distributing any material that is demeaning to persons of a particular gender, race, creed, ethnicity, disability, sexual orientation, or other protected class is considered harassment and is prohibited.

Students who violate computer use policies may lose privileges to the college equipment and systems, and/or may be subject to disciplinary action. BTC reserves the right to monitor the computer system and computer network use.

Library

The Blackhawk Technical College Library is located at Central Campus as part of the Student Success Center. Students at all Blackhawk locations have full access to library resources 24/7 via the MyBTC student portal. Staff is available on Central Campus to help support information literacy, research, reference, citations, and more.

For information about Library resources, times of operation, services, staff, and a complete list of library hours—please call the circulation desk (608) 757-7671, or visit the library web page: <https://blackhawk.edu/Student-Resources/Academic-Support-Tutoring/Library-Services> (<https://blackhawk.edu/Student-Resources/Academic-Support-Tutoring/Library-Services/>)

Lockers

A limited number of lockers are available for students on Central Campus. Lockers may be rented from the Student Services Office located inside the main entrance of Central Campus.

Students may rent lockers on a semester or yearly basis for \$3.00 per semester (Summer, Fall or Spring) or \$5.00 per year. Policies related to locker rental and use may be obtained from Student Services.

For more information regarding lockers at other BTC sites, please contact the front desk at that site.

Lost and Found

The Lost and Found is located at the Security Office (Room 2105) on Central Central Campus. It is generally open from 7:30 a.m. to 10 p.m. Monday through Thursday and from 7:30 a.m. to 4:30 p.m. on Fridays and 7:30 a.m. to 4 p.m. on Saturdays.

Anyone finding an item should turn it into the Security Office. If you have lost an item, please file a report with security so, if found, the item can be returned. If no one is available in the Security Office, please see the attendant in the Welcome Center to assist you. All items will be stored for 90 days and then donated to charity.

For more information regarding lost and found at other Blackhawk sites, please contact the front desk at that site.

Services for Students with Disabilities

In compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act Amendments Act of 2008 (ADAAA), Blackhawk Technical College provides reasonable accommodations and support services to students with disabilities, students seeking Title IX pregnancy/parenting accommodations and students with temporary, non-chronic impairments.

Students are required to provide written documentation of their disability. Services that are available include, but are not limited to, testing accommodations, tutoring, note-taking, texts in an alternate format, sign language interpreters, and assistive technology. If you have a disability for which you are requesting accommodations, please contact Access & Accommodations at (608) 757-7796, deaf/hh call Relay 711. Please request accommodations at least three (3) weeks prior to the start of classes to ensure services are in place. Standards regarding course quality and academic progress must be maintained.

Transition Services are available to assist potential students with career exploration and developing a plan that outlines the steps that lead to a successful transition into BTC. Accommodations for the college placement test may be available. Transition Services can be coordinated by calling (608) 757-7796, deaf/hh call Relay 711.

BTC also provides accommodations for students and guests with disabilities participating in activities offered through BTC. If you require an accommodation, you should contact the Access & Accommodations Office at (608) 757-7796. Please request accommodations at least two (2) weeks prior to the event; however, requests with shorter notice will be provided whenever possible.

Starfish

Starfish is part of student support services and located in MyBTC. The Starfish tool can assist students in making appointments with individuals and/or offices around campus. Students can also use the Starfish kiosks to keep track of their attendance in labs and time in appointments.

Students can see their Success Network in Starfish and easily connect with faculty, advisors and other support staff and locate their contact information (i.e., phone number and email address).

Throughout the semester, the faculty will use Starfish to identify positive student behaviors through kudos or student attendance and/or other academic concerns through flags. The student's assigned academic advisor will be notified of any concerns via a flag within Starfish. The advisor will then contact the student to share resources to help keep the student on track (i.e., counseling, tutoring, academic planning, emergency financial assistance, time management, etc.).

Progress Surveys, Flags, and Kudos

Students experiencing problems completing program or course requirements should seek help immediately. All faculty will complete an Early Alert Progress Survey through Starfish. Faculty identify attendance and/or other academic concerns early in the semester. The student's assigned academic advisor will be notified of the concern via a flag within Starfish. The advisor will then contact the student to share resources to help keep the student on track (i.e. counseling, tutoring, academic planning, emergency financial assistance, time management, etc.).

During the semester, if the faculty has concerns about a student, the faculty member can raise a flag in Starfish that will notify the student and the assigned academic advisor of the area of concern. The assigned advisor will again contact the student to share resources and/or create a plan for the rest of the semester. Faculty are encouraged to speak with the student first regarding the concern(s) and inform the student that the advisor will be contacting him/her.

Flags raised in Starfish either through Progress Surveys or throughout the semester will be cleared after the advisor has contacted the student. The advisor will identify how they closed the loop (i.e., student reached out to advisor, call made to student-no response, etc.). All interactions will be tracked in Starfish.

Faculty also have the ability to raise Kudos through Starfish and encourage the good work students are doing to progress in their class or college. Students are notified of these Kudos; no follow-up is needed. The use of Kudos is highly encouraged.

Student Engagement

Awards Program

The honors recognition program culminates in late April and is sponsored by the Career Services and Leadership Development Office. During the program, individuals are recognized for their academic achievements, participation in student organizations, and contributions within the college community.

Fitness Center

The Blackhawk Fitness Center is located on the Central Campus and features cardio and strength training equipment. Credit students receive a free Fitness Center membership. All non-credit student memberships cost \$25 per year. Blackhawk staff can use the facility for \$50 per year. The fee is non-refundable and is valid from August to July of each year. The Fitness Center hours are 7:00 a.m. – 10:00 p.m. Monday through Thursday, 7:00 a.m. – 5:00 p.m. Friday, and 7:30 a.m. to 4:00 p.m. on Saturday.

Peer Advisors

Peer Advisors are a select group of students who represent BTC, as well as their own programs, to our student body and local communities.

They serve as Advising, Registration and Orientation (ARO) leaders, tour guides and assist with the many events that take place on campus. Peer Advisors have been trained to answer common advising questions and registration processes.

Student Cupboard (<https://blackhawk.edu/Student-Resources/Student-Life/Student-Cupboard/>)

The BTC Student Cupboard provides supplemental food and other necessities for current students and their families who are in need. Our vision is to ensure no BTC student goes hungry because of a lack of income or access to food.

Student Government Association (SGA)

The Student Government Association plans campus-wide social, recreational and educational activities. This committee is open to all students. Student members are involved in choosing entertainers for campus programs, and marketing and promoting campus-wide events. Students will gain professional experience in marketing, planning, negotiation, and communication.

Student Organizations

Student organizations provide valuable experience to students by fostering leadership, personal development, career opportunity, and community relations. They are considered an integral part of the total education experience at Blackhawk. To learn more about student organizations, visit <https://blackhawk.edu/Student-Resources/Student-Life/Student-Organizations> (<https://blackhawk.edu/Student-Resources/Student-Life/Student-Organizations/>).

Student Representative to the District Board

Blackhawk was one of the first technical colleges in Wisconsin to formally have a student representative to the Board. Typically the representative is the President of the Student Government Association or a designee. The student representative serves in a non-voting position and acts as the liaison between the District Board and the student body.

Student Union

Launched during the 2019-2020 Academic Year, the Student Union is the perfect place to meet friends, play games, watch movies, study, or simply hang out.

Wisconsin Technical College System Student Ambassador

Each year, one student is selected as the WTCS Student Ambassador to represent Blackhawk. The ambassador attends several state-wide events throughout the year, is a spokesperson for the WTCS, and is often a featured speaker at the annual commencement ceremony.

Wisconsin Technical College System Student Showcase

The WTCS Student Showcase is held annually at the State Capitol Building to highlight academic excellence at the technical college. Each year, a student or group of students is selected from faculty nominations

to participate in the showcase. Participants can highlight a class project, a service-learning initiative, or a community service project.

Student Identification Cards

Identification cards are available to all Blackhawk students. The cards include the Blackhawk logo and address and student picture, name, and nine-digit identification number. The card also includes a bar code that allows students to access resources at the Blackhawk library and the Learning Resource Center in Monroe.

Students can have pictures taken and cards issued any time after they have registered for a course. Cards are issued at the Registration and Records Office on Central Campus, the Monroe Campus Learning Resource Center, or at our Advanced Manufacturing Training Center. In order for a Blackhawk student ID to be issued all students must present a valid picture ID and class schedule.

The first student ID is free. A \$5 fee will be assessed for any replacement cards issued.

Student Insurance

Insurance

Student insurance programs are available on an individual basis for interested students. Brochures describing the coverage are inserted in the registration materials, which each student receives prior to the beginning of the school term. Students desiring further information may contact Student Services Office on Central Campus.

Telephones and Messages

Assistance phones are located throughout the hallways at Central and Milton campuses. These phones can be used to report an emergency by following the posted instructions. A courtesy phone is available in the lobby/lounge at Central, Monroe and CTS campuses for placing local calls only. Students are not allowed to use school office phones. Deaf/hh, please call through Relay 9-711. Only messages of an emergency nature will be taken at the Welcome Center and every reasonable attempt will be made to locate the student. Non-emergency messages will not be accepted. Students should inform families, child care providers, etc. of the above limitations and develop alternate arrangements in the event they cannot be located.

Student Services lobby phone is for emergency use only and a five-minute limit is strictly enforced.

The Welcome Center is not to be used for delivery purposes (i.e. key or lunch drop-off, or book pick-up).

Transportation

All credit students are assessed a \$20 transportation fee per semester.

Bus and Shuttle Transportation

BTC operates shuttles that connect all Blackhawk sites. The shuttle service is free of charge, but a current student ID must be provided at all times. A complete schedule is available at <https://blackhawk.edu/Locations#shuttle> (<https://blackhawk.edu/Locations/#shuttle>).

Public transportation is offered between Janesville and Beloit. There are twelve stops each weekday at Central Campus between 6:00 a.m. (first stop at BTC is 6:15 a.m.) and 6:15 p.m. (last stop at BTC is 5:40 p.m.) The schedule has been coordinated with the transit companies so the stops coincide with class schedule to the degree possible. Bus schedules, fare information, routes, etc. are available at the Welcome Center on Central Campus. Bus service is provided Beloit Transit and Janesville Transit System.

Tutoring and Learning Support

Blackhawk Technical College provides tutoring at no cost to enrolled students. The college offers:

- Open Lab Tutoring
- Online Tutoring
- Peer Tutoring

A variety of tutoring services and learning support are offered in the Student Success Center on the Central Campus. Students can receive instructor assistance, drop-in computer assistance, and space for and access to study groups. Services on Central Campus are available by drop-in or appointment. Services will gladly be provided at other Blackhawk locations by appointment. In addition, 24/7 online tutoring is available from any location that has an internet connection. For more information about Tutoring and Learning Support call (608) 757-7676 or visit <https://blackhawk.edu/Student-Resources/Academic-Support-Tutoring/Tutoring-Services> (<https://blackhawk.edu/Student-Resources/Academic-Support-Tutoring/Tutoring-Services/>).

Weather-Related School Closings

On days when some or all of the campuses are forced to close due to emergencies or weather, a college-wide communication will be sent out to all BTC students via the SAFE Alert communications system (<https://www.blackhawk.edu/About/Safety-Security/SAFE-Alert/>) (the BTC emergency notification system). In addition, closing messages will be posted on www.blackhawk.edu and on all college social media channels. We make every effort to notify area radio and TV stations by 6:00 a.m. for daytime classes and by 2:00 p.m. for evening classes.

Please Note: BTC is listed as Blackhawk Technical College NOT Blackhawk Schools.

For a listing of area radio and television outlets, visit <https://www.blackhawk.edu/About/Safety-Security/Emergency-Information> (<https://www.blackhawk.edu/About/Safety-Security/Emergency-Information/>).

POLICIES AND PROCEDURES

Blackhawk's campus, academic and community policies define what the college expects from the students and what students may expect from the College. Policies are developed and approved through Blackhawk's governance system.

Academic Forgiveness

Academic Forgiveness is designed to allow students a second chance regarding their academic performance.

Forgiveness based upon past academic performance – students can request Academic Forgiveness only once.

After at least a two-year continuous break from credit-based coursework at Blackhawk, a student may request Academic Forgiveness based upon past academic performance. The request will be reviewed after a return to the college and completion of at least twelve (12) college-level credits or more and an earned GPA of 2.0 or higher. If approved, grades of D or F for the courses from the prior attendance period will be removed from the student's GPA. However, the courses will remain on the official transcript, but will show a special code for Academic Forgiveness.

If a student is receiving financial aid, Satisfactory Academic Progress guidelines and policies may still apply.

Academic Standards

Academic Standing Policy

The Blackhawk Technical College Academic Standing Policy defines the requirements you must meet to maintain good academic standing if you have enrolled in an associate degree and/or technical degree program AND have registered in three or more college credits during the fall and/or spring semester. This policy also establishes a formal process to identify, notify and provide assistance if you fall below Academic Standards requirements.

The following actions are determined only at the end of the Fall or Spring semester. The three factors used to determine the student's academic standing are: the student's standing at the beginning of the semester, the student's semester GPA, and the student's cumulative GPA.

1. When a student is in Good Academic Standing at the beginning of the semester:
 - A semester GPA of 1.999 or below will result in Academic Warning.
2. When a student is on Academic Warning at the beginning of the semester:
 - A semester GPA of 2.0 or better will result in a return to Good Academic Standing.
 - A semester GPA of 2.0 or better but less than a 2.0 cumulative GPA will result in continuation on Academic Warning.
 - A semester GPA of 1.999 or below will result in Academic Probation.
3. When a student is on Academic Probation at the beginning of the semester:
 - A semester and cumulative GPA of 2.0 or better will result in a return to Good Academic Standing.
 - A semester GPA of 2.0 or better but less than a 2.0 cumulative GPA will result in continuation on Academic Probation.
 - A semester GPA of 1.999 or below will result in Academic Dismissal.
4. When a student who has been on Academic Dismissal for a year comes back at the beginning of the semester on Final Academic Probation:

- A semester and cumulative GPA of 2.0 or better will result in a return to Good Academic Standing.
- A semester GPA of 2.0 or better but less than a 2.0 cumulative GPA will result in continuation on Final Academic Probation.
- A semester GPA of 1.999 or below will result in Academic Dismissal for at least another year.

Academic Dismissal

Blackhawk Technical College will place a registration hold on your account, which prevents you from registering for classes. If you are registered for the upcoming term, your classes will be dropped.

If placed on academic dismissal, you will be notified in writing from Registration and Records and provided information about the appeal process. If you are academically dismissed from BTC, you may not re-enroll in credit classes for one academic year.

Re-enrollment After Academic Dismissal

If you are dismissed and wish to re-enroll after one year, you must apply for admission (or readmission) to a program. Prior to re-acceptance, you will be asked to complete an Academic Recovery Plan and write a re-enrollment support letter before meeting with your assigned academic advisor.

Upon re-acceptance, you will be placed on academic probation and may need to follow guidelines or meet expectations set up with your academic advisor.

Academic Recovery Plan and Re-enrollment Letter

An Academic Recovery Plan is a short form that will help you identify factors that contributed to your lack of academic success and start to identify methods that may help you find greater success in your next attempt.

Following the completion of the Academic Recovery Plan, please write a letter addressed to your academic advisor that highlights:

- What you have identified to be the barriers to your academic success that currently remain in your life.
- The steps you plan to take to remedy these recognized impediments.
- Resources and services you think would help you to maintain the Academic Standards requirements.
- What your goals are for the upcoming semester (i.e. 6 credits, GPA of 2.75, etc.) and overall at BTC.

This letter will be an important part of your meeting with your academic advisor. Please spend adequate time and consideration in the development of your letter.

Please note, re-enrollment does not guarantee reinstatement of financial aid, if applicable.

You must complete your re-application by the deadline listed below to be considered for re-enrollment in the listed semesters.

Deadline for Reapplication:

- April 1: for summer semester re-enrollment
- July 1: for fall semester re-enrollment
- December 1: for spring semester re-enrollment

Attendance

Attendance is critical to a student's academic progress. Students are expected to be present, prepared, and an active participant. Students should discuss absences with instructors. The attendance policy for a particular course will be shared in class and included in the course syllabus.

If you are receiving financial aid, be aware that failure to attend classes may affect your financial aid.

Non-Attendance (No Show Policy)

Failure to actively participate in any course, during the first 10% of a course's actual hours of instruction, is considered non-attending. This includes participation in online courses beyond logging into the course. If an instructor reports a student as non-attending, the student is removed from the course and notified of their removal via their Blackhawk student email. At this point, students are no longer considered registered in that course and cannot start attending unless approval from the instructor is received. If permitted, the student must re-register by contacting Registration and Records. Removal from a course due to not attending may affect financial aid.

Students are responsible for the cost of any course they are registered in after the start of the semester. Please refer to the Blackhawk event calendar for important dates regarding semester deadlines.

Background Checks

Wisconsin Caregiver Background Check

Wisconsin law requires background checks of persons who provide care for others or have access to people who receive care. This law applies to Blackhawk Technical College students in the following programs:

- Central Service Technician
- Dental Assistant
- Dental Hygienist
- Diagnostic Medical Sonography & Vascular Technology
- Early Childhood Education
- Emergency Medical Technician
- Medical Assistant
- Medical Laboratory Technician
- Nursing
- Nursing Assistant
- Pharmacy Technician
- Phlebotomy
- Physical Therapist Assistant
- Radiography
- Surgical Technology

Criminal convictions as well as arrests and/or pending charges may limit a student's ability to participate in clinical/practicum courses. Further,

a criminal background could have a negative impact on certification examination eligibility and employability in health care facilities.

Once completed, Blackhawk Technical College, its employees, and agents will provide a copy of the student's signed State of Wisconsin Background Information Disclosure (BID) form and information obtained from the Caregiver Background Check to assigned clinical/practicum affiliation sites. This information will be used in determining eligibility and suitability for clinical placement.

Criminal Justice Background Checks

For the Law Enforcement Academy, Basic Corrections Academy and Secure Juvenile Detention Academy, the Department of Justice will complete background checks unless the candidate has already been hired by a law enforcement/corrections agency. If they have already been hired, the agency that sends them to the academy will complete the background check.

Additionally, Law Enforcement Academy candidates' driving records will be checked to determine if the college will allow them to operate college owned vehicles.

Children on Campus

For the purpose of this regulation, "children" are defined as minors under the age of 18 who are not enrolled in a Blackhawk Technical College course or program.

Children without supervision (unattended) may disrupt the educational process or work setting, and possibly create a safety hazard for the children themselves or for others on the College campus.

It is the intent of Blackhawk Technical College to create and maintain a learning environment that is conducive to the success of students. Disruption of, or distraction in, that environment is a serious matter in which the good of all students needs to be considered. Clearly, having children in this environment interferes with the primary function of the College.

At Blackhawk Technical College, children should not accompany registered students, training participants, or college faculty/staff to classes, seminars, or other educational activities. If a child is brought to a session by a student/participant, the instructor/staff is authorized to ask the student/participant to leave that session.

Under no circumstances are children permitted to be left unattended on the College premises or at College functions (including parking lots and surrounding areas). If a child is left unattended, staff should immediately notify the appropriate division or site manager. The division or site manager will proceed with contacting College Security, who will make every attempt to resolve the issue but, if unable to do so, will refer the matter to the proper authorities (i.e. the Sheriff's Office).

This regulation is in no way intended to discourage or prohibit special events, activities, and programs aimed at involving children with the College.

Student and Community Complaint Procedure

Blackhawk Technical College provides opportunities for students and members of the community to register complaints by filling out a Student and Community Complaint Form (<https://tinyurl.com/BTC-Complaints>) (<https://tinyurl.com/BTC-Complaints/>). The Student and Community Complaint Form provides an avenue to submit a concern regarding any area at the College. The College will address and systematically process all student and community complaints in a timely manner.

The complete Complaint Procedure can be found at <https://blackhawk.edu/Student-Resources/Complaint-Process> (<https://blackhawk.edu/Student-Resources/Complaint-Process/>).

Consensual Relations

Positive relationships between students and staff at BTC enrich the college environment and are encouraged. It is natural that interaction between individuals in an academic setting may lead to personal friendships. Personal friendships do not pose problems as long as they do not interfere with academic decisions. However, a consensual romantic or sexual relationship between a student and a staff member may be exploitative and create the appearance of a conflict of interest.

Therefore, students and staff are discouraged from entering into a consensual romantic or sexual relationship while the student is currently enrolled in the staff person's class or when the student is receiving guidance from the person.

As a student, you are urged, for your own protection, to refrain from developing a relationship of a sexual or romantic nature with BTC staff. If you become involved in such a relationship, you are encouraged to contact the BTC Title IX Officer located on Central Campus.

What is Title IX?

Title IX of the Education Amendments Act of 1972 is a federal law that states, "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance."

Course Age Limit Policy

Policy on Age Limits on Courses

Blackhawk Technical College (BTC) does not apply blanket age limits to courses for the purpose of BTC program completion, transfer in, meeting selective admissions, program's ranking/entrance procedures, or meeting program requirements in award completion. Approved age limits on courses will be related to the competency(ies) students/graduates must demonstrate in the field, employment, and other measures such as certification examinations.

Courses included in an earned degree, whether from BTC or another institution, and transcripts showing 15 or more earned credits (passed with a C or higher) in the last 10 years are exempt from the age limits listed below.

Approved time limits on the applicability of courses to program admission and completion are available in program admission

documents and on program-specific web pages. The college does reserve the right to deny prior coursework if significant changes in the area of study have occurred, or if current knowledge is necessary for student success. For example, computer coursework or allied health courses may have changed significantly and may no longer satisfy degree requirements due to changes in technology or professional practices.

Approved Age Limits for Transferring in Courses

BTC Program and Courses (Year limit - date approved by Dean)

- All Math and Science Courses (5 years)
- All Clinical and Lab. Courses (Health Science) (1 year)
- CST/MITS—Computer Service Technician/Manufacturing Information Technician Specialist (5 years)
- Criminal Justice Studies (5 years)
- IT-Network Specialist (5 years)
- Web Software Developer (5 years)
- MLT—Medical Laboratory Technician (5 years)
- Nursing Assistant (5 years, unless currently employed as a Nursing Assistant)

Discrimination and Harassment Policies

BTC, through its commitment, will affirmatively attempt to provide an environment free of harassment for all employees and students. Harassment of students and employees of BTC is unacceptable and will not be tolerated. BTC deplores such conduct as an abuse of authority.

BTC, in compliance with Title VI and VII of 1964 Civil Rights Act as amended, Title IX of the 1972 Education Amendments Act, Section 504 of the Rehabilitation Act, the Americans with Disabilities Act of 1990, and the Americans with Disabilities Amendments Act of 2008, prohibits harassment by supervisors, co-workers, students, and non-employees on the basis of sex, race, national origin, disability, or other protected status person.

BTC has no tolerance for discriminatory, harassing, or racist behaviors. Specifically, the BTC District Board actively complies with all state and federal equal opportunity and affirmative action laws, rules, executive orders, and policies. It is the policy of BTC not to discriminate in employment on the basis of age, race, creed, color, religion, disability, marital status, sex, national origin, ancestry, arrest record, conviction record, sexual orientation, or membership in the National Guard, state defense force, or any reserve component of the military forces of the United States or this state. BTC does not discriminate against students on the basis of race, color, creed, religion, sex, national origin, disability, ancestry, age, sexual orientation, pregnancy, marital status, or parental status. Discrimination means the difference in treatment in any service, program, course, or facility of BTC on the basis of these protected statuses.

Inquiries regarding equal opportunity and possible discrimination may be directed to one of the following individuals. Their area of expertise, office location at the Central Campus, and telephone number are noted:

- Kathy Broske, Affirmative Action Officer Administration Center, (608) 757-7773
- Renea Ranguette, ADA Officer Administration Center, (608) 757-7700
- Dr. Deb Gilster, Title IX Coordinator, (608) 757-7796

- Written concerns can be sent to any of these individuals at Blackhawk Technical College, 6004 South County Road G, P.O. Box 5009, Janesville, WI 53547-5009

Harassment is unwanted, deliberate or repeated unsolicited comments, slurs, demeaning references, gestures, graphic material, physical contact, solicitation of favors, advances, or other adverse treatment based on a protected group status when:

- Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment, student status, or academic participation.
- Submission to or rejection of such conduct by an individual is used as the basis for employment or academic decisions affecting an individual.
- The conduct has the purpose or effect of substantially creating an intimidating, hostile, or offensive environment that tangibly affects or interferes with an individual's job performance or other employment or academic opportunities.

Alleged acts of harassment and discrimination may be violations of equal employment or educational opportunity policies under which BTC operates. Discipline may be imposed for violations of this policy in accordance with the procedures outlined in the Student Disciplinary Procedure.

Grading Procedures

Your grade point average (GPA) is computed by multiplying the point value of each grade by the credit value designated for each course. The sum of these figures is divided by the number of credits. A minimum of 2.0 GPA is needed to maintain satisfactory academic standing and is required for graduation. GPAs are figured on a 4.0 scale. The point equivalents are listed below. It is the student's responsibility to consult with his/her instructors as to his/her progress.

Grade Point Values

A	AB	B	BC	C	D	F
4.0	3.5	3.0	2.5	2.0	1.0	0.0

Grade Chart Example

Course No.	Course Name	Letter Grade	Credit Hours	Multiplied by	Numeric Grade Value (Chart Above)	Grade Points
XXXXX1	English - First Year Composition	A	3	x	4.00	12.00
XXXXX2	English - Technical Writing	AB	3	x	3.5	10.5
XXXXX3	Small Group Communication	B	3	x	3.0	9.00

XXXXX4	Critical & A Evaluative Reading 1	3	x	4.0	12.00
XXXXX5	The A Mathematics of Design	3	x	4.00	12.00
XXXXX6	Economic:BC in American Society	3	x	2.5	7.50
XXXXX7	Contemporary Art	3	x	4	12.00
XXXXX8	General C Biology (Non- Majors)	4	x	2.0	8.00
TOTALS		25			83

83 total
points /

to the health or educational progress of other campus community members or the educational process of the institution.

In order to assist the College in determining what action to take, the Behavior Intervention Team (BIT) will be called on to review the student's status at the College. The status review may result in requiring the student to provide information from an appropriately licensed health care provider regarding the student's health and functioning, and a professional opinion as to the student's ability to meet the requirements of the College environment.

Furthermore, if requested by the Director of Student Services or designee, the student must provide written consent for the health care provider to discuss the student's condition and prognosis with appropriate College officials or agents. The student also agrees to comply with any other reasonable request from the College that may assist the College in its review of the matter. The final determinations for withdrawal and readmission, or other actions, shall be at the sole discretion of the College and for reasons deemed satisfactory to the College. Such action by the College may include, but is not limited to, the following:

- Restricting the student from contact with specified individuals.
- Restricting the student from certain portions of the campus.
- Restricting the student from involvement in specified organizations, events, or activities.
- Withdrawing the student from a specified class or classes.
- Not allowing the student to remain enrolled unless the college determines that the student's condition or conduct no longer poses a threat to himself or others or that the student will not act in a manner that is detrimental to the best interests of the college.
- Not allowing the student to continue his/her enrollment in a subsequent term in the case where the student has completed an academic term.
- Withdrawing the student from the College. The involuntary withdrawal of a student can be treated as a withdrawal for health reasons and not as a violation of the student conduct code.
- Following this policy does not mean that the student will necessarily be exempt from the regular disciplinary actions associated with the behavior in question according to the rules and procedures of the Student Code of Conduct.

Students receiving any involuntary (or voluntary) withdrawal due to health reasons must receive permission from the College to re-enroll.

After any determination of the student's status is completed and reported to the student via certified mail with delivery confirmation with a copy of this policy (or hand-delivered), the student will have 48 hours from the date of the delivery confirmation to request a review of the finding. The request must be made in writing/email to the Director of Student Services. The review and determination by the Director (or designee) will be final and non-appealable.

Please contact the Executive Director of Student Services regarding any questions about the guidelines set forth above.

Grade Appeals Process

Students who have complaints related to course grades should address those complaints first with the instructor of the course. If the student is not satisfied with the resolution, the student may then go to the appropriate program dean. If a resolution is not achieved with the appropriate program dean, a student may submit a formal complaint via the online Student and Community Complaint Form located at <https://tinyurl.com/BTC-Complaints> (<https://tinyurl.com/BTC-Complaints/>).

Mental Health Policy

Blackhawk is committed to the success of all students including those who suffer mental health conditions, and we will:

- Acknowledge but not stigmatize mental health issues;
- Encourage individuals to seek help or treatment that they may need;
- Ensure that personal information is kept confidential;
- Refrain from discrimination against a person with mental illnesses; and
- Provide reasonable accommodations in accordance with Section 504 of the Rehabilitation Act of 1973 and the ADA Amendment Acts (ADAAA).

When inappropriate student behavior is identified on campus and in the classroom, the goal is to assist students in accessing resources that will help them meet expected College behavioral standards and success academically, personally and socially.

A student's status at the College will be reviewed when the student exhibits concerning behavior in which their physical or psychological functioning is so impaired that their condition or conduct is detrimental

Refund Policy

Refund Policy

In order to receive a refund, except in cases when Blackhawk cancels or discontinues a course, a student must request a refund. This also applies to drops due to non-attendance. Blackhawk will issue the refund within two weeks of a request.

Exceptions to the Refund policy are considered on rare occasions for legitimate extenuating circumstances— situations beyond your control. These may include serious illness or hospitalization of you or your immediate family, death of an immediate family member, military activation or deployment. A tuition refund appeal is granted at the discretion of the College.

To qualify for an exception, you must submit an Exception to the Refund form, along with supporting documentation, to the Registration and Records Office within one calendar year of the semester end date. Exceptions are reviewed and processed at the end of each month.

Refunds will be issued in accordance with the following state guidelines:

100% Refund

If a student drops any course before the first class meeting, 100% of the fees shall be refunded— Excluding non-refundable fees.

If a student drops a course before or at the time 10% of the course's potential hours of instruction have been completed and adds another course on the same day, 100% credit will be received for all applicable student tuition and fees for the dropped class.

80% Refund

Eighty percent of all applicable student tuition and fees are to be refunded if the application for refund is made before or at the time 10% of the course's potential hours of instruction have been completed— Excluding non-refundable fees.

60% Refund

Sixty percent of all applicable student tuition and fees are to be refunded if the application for refund is made after 10% but before more than 20% of the course's potential hours of instruction have been completed— Excluding non-refundable fees. (A grade of "W" will appear on the student transcript.)

0% Refund

No refund is to be made if the application for refund is made after 20% of the course's potential hours of instruction have been completed. (A grade of "W" will appear on the student transcript.)

Religious Belief Accommodations

BTC will attempt to minimize conflict between your academic obligations and sincerely held religious beliefs. Reasonable accommodations will be made so that examinations and other academic requirements do not unnecessarily interfere with your observation of religious holidays.

Observation of a religious holiday does not exempt you from any course requirement, but allows you an opportunity to complete the assignment through an alternate means as arranged with your course instructor(s).

The following procedures will be used to set up reasonable accommodations for a religious holiday:

1. Submit a written request to your course instructor(s) within the first ten (10) days of the class. The request will advise the instructor(s) of the specific date of the observation.
2. The instructor(s) will have ten (10) school days to respond to your request, in writing, outlining the accommodations that will be made.
3. You should remind the instructor(s), in writing, of the religious observation five (5) school days in advance of the anticipated absence.
4. The instructor(s) may provide you with a make-up assignment for the day absent. The instructor(s) are not obligated to schedule a make-up assignment before the regularly scheduled requirements are due.

Conflicts between your observation of a religious holiday and completion of academic requirements should be resolved informally between you and your instructor whenever possible. If the issue cannot be resolved informally, a formal grievance complaint may be filed.

Repeating Courses

Students may choose to repeat a course to gain additional knowledge or improve a previous performance. Some exceptions may apply, specifically to health-related programs. Students may be required to obtain approval prior to repeating "core" courses in these programs from the Dean or Division Administrator. For repeated coursework, the original grade points and units will be excluded from the GPA calculation. Only the repeated points and credits will be included in the GPA, regardless of the previous grades earned. As an exception, should a grade of "W" be earned for a repeated course, the previous grade earned will be calculated in the student's GPA. It is advisable to retake courses in which low grades were earned as students cannot graduate with less than a 2.0 GPA their program.

BTC does not permit a single college-level course to be taken more than three (3) times. Students failing to pass a course after three (3) attempts are required to discontinue the program and designate an alternate program under the guidance of an Academic Advisor. Additional policies exist regarding financial aid (see Financial Aid Standards of Academic Progress policy). Repeating courses may affect financial aid.

Retraining Guarantee Policy

The education and training offered at BTC is designed to enable students to acquire job entry occupational skills needed for full participation in the workforce. BTC stands behind the training provided and will guarantee to provide at least six (6) additional credits of retraining, at no cost to the student, under the following conditions:

- The student's employer certifies that target job competencies are lacking as specified in the educational program normally expected of a job entry-level employee, or
- The student has not secured employment within six months following graduation.

To be eligible for the guaranteed retraining, a student must have successfully completed and graduated from a one-year technical diploma, two-year technical diploma, or associate degree program. In addition, a student must have registered for services provided

through BTC's CARE Center and actively pursued employment in their occupational field or a related field. Other guidelines may also apply. For more information on BTC's Guaranteed Retraining policy, contact the Career Services Coordinator at (608) 743-4423.

Safety and Security Procedures

Accident or Illness Emergency Procedures

Blackhawk uses the professional medical treatment system available in the community to respond to injuries and illnesses. Blackhawk will provide basic medical first aid but will not treat or diagnose any illness or injury. Rather, the student will be referred to an appropriate medical treatment facility. If the student refuses to seek follow-up medical treatment after it has been recommended by a staff member, the student will be asked to sign a waiver corroborating this decision.

The student is responsible for their own transportation to a medical facility. However, should the injury or illness be considered an emergency, an ambulance will be requested. The student will be responsible for the cost of the ambulance. Under no circumstances will College staff transport for treatment. All accidents, regardless of the seriousness, shall be reported to a staff member.

Clean-up after an accident or illness will be left to the College maintenance and custodial staff. Students will not attempt to clean up blood, vomit, or other bodily fluids. If clean-up is necessary, students should go to the Welcome Center (information desk) at the main entrance and request maintenance/custodial staff to clean up the area.

In case of an emergency, call 911. Classroom and hallway assistance phones can be used to report an emergency by following the posted instructions. Dial 911. The security non-emergency telephone number is 608-757-7617.

Emergency Campus Security Procedures

In the event of an emergency, call 911 immediately from a campus phone or 911 from a cell phone. An emergency situation can be defined as any event that may pose a significant threat to the life, safety, or health of students and/or employees. After contacting authorities, call the Office of Safety and Security at (608) 757-7617 or contact the College Welcome Center (information center). Students will follow the directions of College staff and emergency services personnel during an emergency.

Emergency Response Guide and Evacuation Procedures

Each classroom has an emergency response guide and a map indicating what to do in the event of most emergency situations. This includes shelter locations for severe weather and evacuation routes and staging areas for fire emergencies. The College holds evacuation and/or shelter-in-place drills at least once in an academic year. The College also conducts Safety and Security related tabletop exercises in new employee orientation. Please review the Emergency Response Guide regularly to be prepared in the event of an emergency.

Crime Prevention and Security Procedures

Crime prevention, security procedures, and practice information is presented during new student and employee orientations and periodically during in-service training. In addition, facilities and security personnel conduct routine inspections and patrol of buildings and grounds to identify and correct deficiencies. Being proactive is preferable to being

reactive. Crime prevention is based upon the dual concepts of eliminating or minimizing criminal opportunities whenever possible and encouraging students and staff to be responsible for their own security and the security of others. The following is a list of campus crime prevention tactics that may reduce the risk of becoming a victim:

- Walk on established walkways. At night, walk on lighted walkways
- Always lock your vehicle
- If on campus in the evening, park close to the building in lighted areas and walk with others
- Items of value left in the vehicle should be placed out of sight
- Never leave items of value unattended
- Promptly report any suspicious behavior to Campus Security or College Officials
- Do not leave keys or access cards unattended
- Always lock doors in unattended office areas
- Never give out computer passwords
- When working during non-business hours, inform family and colleagues of your location and schedule

Crime Reporting Procedures

The College encourages prompt and accurate reporting of all crimes or suspicious behavior to local law enforcement, Campus Security and/or College officials. When the alleged behavior or act is a crime and not just a policy violation, College officials will involve local law enforcement agencies as soon as the information is known. Prompt crime reporting and the reporting of suspicious behavior will better enable local law enforcement officials to remedy the situation.

Report all criminal activity to Campus Security. If unable to reach Campus Security, contact the Welcome Center by dialing 7617 on a campus phone. The College does not have any pastoral or professional counselors on staff but does assist students in providing various private and public options for such services. Crimes may be reported anonymously. To report a crime and/or dangerous situation anonymously, contact Campus Security or the Welcome Center (information center) and inform them you wish to speak with a security official. This same process can be done when making reports to local law enforcement.

Blackhawk complies with the Jeanne Clery Disclosure Act and prepares an annual report of crimes that have occurred on campus and outreach centers. The report can be found on the College's website or may be obtained from Campus Security. The report is also distributed every year by October 1 as required by law. Campus crime, arrest, and referral statistics include those reported to local law enforcement and to College Officials, including anonymous reports. In an effort to obtain the statistics from local law enforcement, Campus Security makes a written request to each local law enforcement agency to obtain a listing of any crimes they had reported to them and/or they had investigated. The reported crimes are also maintained in a daily crime log.

Smoke/Tobacco Free Campus

For the health and well-being of everyone using BTC's facilities, smoking and the use of any type of tobacco product (including electronic cigarettes) is NOT PERMITTED in any of the buildings. Smoking outside of the buildings is allowed, but only in the areas designated for that

purpose. Smokers should only use the designated areas set aside for tobacco use and the receptacles located at those areas.

Student Computing Resource Guide

Your network account gives you access to Blackhawk computer network services, such as the MyBTC portal, the internet, Microsoft Office 365 products, and your personal data storage space (i.e. OneDrive).

When a College computer is turned on, a "Welcome to Windows" message displays. Press CTRL + ATL + Delete to begin. You will be prompted for your username and password.

Your username is the first initial of your first name and your last name (no spaces between). Some users will have numbers added to ensure uniqueness. Your username can be found on your acceptance letter or on your registration schedule/bill when you register for classes.

Your password is initially set to Blackhawk and your 9 digit student ID number (found on your acceptance letter or on your registration schedule/bill) and must be changed the first time you log in. Example initial password: Blackhawk000123456

More information about Information Technology can be found at <https://blackhawk.edu/Student-Resources/Information-Technology-Services> (<https://blackhawk.edu/Student-Resources/Information-Technology-Services/>) or contact the ITS Help Desk at (608) 757-7711.

Think Before You Print

As a registered student, you will automatically receive the following FREE printing budget at the beginning of each semester: Fall & Spring \$15; Summer \$5.

Printing prices are as follows:

- 3¢ – double-sided black ink
- 18¢ – double-sided color
- 2¢ – more each for single-sided

Students may increase their budget by purchasing with PayPal or in-person at the Registration and Records Office. Funds added to the printing budget do not roll over to the next semester.

MyBTC (Student Portal)

The MyBTC portal is your connection to College resources. You can access the portal at blackhawk.edu with your full BTC email address and password. In the portal, you can access information and your student records, including:

- Email
- Blackboard
- Register for classes
- Financial Aid
- Grades
- Starfish

You will be prompted to enter your password again the first time you access systems within the portal and after a password change.

Remember, always sign out, close the browser, and log off the computer when you finish.

BTC Email Accounts

Every registered student is assigned an email account with his or her network account. Your email address will be username@students.blackhawk.edu.

The BTC student email account is BTC's official communication method. It is where students receive emails specific to important College-wide and campus-specific announcements and communication with BTC staff. Instructors may email students regarding assignments, class cancellations, and course updates. Check it often to stay informed.

In order to ensure that emails are received, do not forward your student email account to an alternate account as security measures may block receipt of emails.

Student email accounts can be accessed via the MyBTC portal and by clicking on Webmail, or directly at <https://outlook.office365.com/>, using your full email address and password.

Students are encouraged to check their BTC email daily. This is the official email address used for college business.

Blackboard

Blackboard is a learning management system. All BTC courses use this tool to distribute and collect materials as well as to conduct discussions and assessments. Classes offered face-to-face may use Blackboard to support in-class instruction. Your instructor's syllabus will indicate whether the class will be using Blackboard.

Blackboard can be accessed via the MyBTC portal, or go directly to the Blackboard website at blackhawk.blackboard.com (https://blackhawk.blackboard.com/webapps/portal/execute/tabs/tabAction/?tab_tab_group_id=_51_1), using your network username and password. Students taking online or hybrid courses have access to the Online Student Orientation in Blackboard. This is a valuable resource for learning about Blackboard functions and online/hybrid procedures. It is listed in "MyCourses" on Blackboard.

Passwords

You will be prompted to change your password every 180 days.

Passwords must be complex, meaning that they combine upper case, lower case, symbols, and numbers, or at least three of those four groups, and must be eight or more characters in length. Passwords are case-sensitive. To change your network/MyBTC password on a BTC computer:

1. Log in to the network
2. Press CTRL + ALT + Delete
3. Select change password
4. Enter your current password
5. Enter your new password twice
6. Click "OK"

Or from anywhere:

Log in to your Webmail or any Office 365 app and click your name to access and modify various account settings, including changing your password.

At your first login, you will be prompted to set up security questions that can be used to confirm your identity should you need to reset your own

password. If you forgot your password you will be able to reset it by correctly answering your saved questions.

Forgotten passwords may be reset by clicking the Forgot Password link at any login screen. If you need further assistance please come into the IT department in room 2506 at Central Campus with a photo ID in order to have your password reset.

Do not share your password. BTC personnel will never ask for your password.

Need help?

For login help in the BTC Systems, call the help desk at (608) 757-7711.

Student Identification Numbers and FERPA

As of January 1, 2000, Wisconsin Act 128 limits the disclosure and release of student Social Security numbers. In order to comply with Act 128, Blackhawk assigns a unique identification number to each student. This identification number does not incorporate the student's Social Security number. Blackhawk may collect and report Student Social security numbers for state and federal reporting requirements. Blackhawk procedures are designed to ensure that student Social Security numbers remain confidential.

FERPA

The Family Education Rights and Privacy Act (FERPA (<http://www.ed.gov/policy/gen/guid/fpco/ferpa/>)) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records
2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Blackhawk Technical College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Dept. of Education
600 Independence Avenue, SW
Washington, DC 20202-4605

Privacy and Access to Student Records

Blackhawk Technical College policy on privacy of records and releasing of information follows the directives outlined in the Family Educational Rights and Privacy Act (FERPA), the federal law governing the protection of educational records. Registered students will be notified of this policy on an annual basis.

Personally, identifiable information will not be released from an education record without the prior, written consent of the student unless an exception has been granted by FERPA (see exception section below).

Rights under FERPA

FERPA affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the College receives a request for access. You should submit to the Registrar written requests that identify the record(s) you wish to inspect. The Registrar will arrange for access and notify you of the time and place where the records may be inspected. At the time of viewing, the student will present some form of picture identification, such as a valid driver's license, before being allowed to view the record.
2. The right to request the amendment of the student's education records that the student believes is inaccurate or misleading. You should write to the Registrar, clearly identifying the part of the record you want changed, and specify why it is inaccurate or misleading. If Blackhawk decides not to amend the record as requested, the college will notify you of the decision and advise you of your right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to you when you are notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent (see section on exceptions below).
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures of the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education

Exceptions under FERPA

Under certain conditions, as authorized by FERPA, information can be released without student consent. They are:

Directory Information

The use of the term Directory Information does not imply that the College actually has a document containing Student Directory Information, or that the College has any obligation to produce such a document.

The Blackhawk Technical College Board has designated the following information as directory information and therefore can be released without your written consent:

The College has defined Directory Information as the following:

- Student Name
- Student Address and Phone Number
- Date and Place of Birth
- Full-time or Part-time Status
- Major Field of Study
- Dates of Attendance
- Credits Earned Toward a Diploma
- Degrees and Awards Received

- Photos and Videos of Students for use in College Press Releases, Publications, and WEB Sites
- Blackhawk Assigned Student Email Accounts

Students have the right to restrict the disclosure of "Directory Information" at any time. To restrict the disclosure of Directory Information, a student may file a Privacy Request Form to the Registration and Records Office on Central or Monroe Campuses. The request to restrict disclosure of Directory Information will be honored until the student notifies the Registration and Records Office in writing to the contrary.

Blackhawk, under most circumstances, will not release information in your file without your written consent provided on the Release of Student Records form found at <https://blackhawk.edu/Student-Resources/Registration-Records> (<https://blackhawk.edu/Student-Resources/Registration-Records/>). Please see Registration and Records at Central Campus or Registration at Monroe Campus for questions on this policy and/or form.

U.S. Military

According to federal law, the College must release to the U.S. Armed Forces student name, address, phone number, date of birth, and field of study.

Authorized Federal, State, and Local Authorities

Student authorization is not required for disclosure to an authorized representative of the following individuals or entities:

- The Comptroller General of the United States
- The Secretary of the U.S. Department of Education
- State educational authorities
- Any party legitimately connected with a student's application for, or receipt of, financial aid
- Accrediting organizations
- Agencies involving an audit or evaluation of compliance with education programs
- Organizations conducting studies for or on behalf of educational institutions

Other Institutions

Information can be released to other schools to which a student seeks or intends to enroll.

Emergency Situations

Information can be released to law enforcement personnel, emergency personnel, and College officials in an emergency in order to protect the health or safety of students or other persons.

Legitimate Educational Interest

Officials of the College who are determined by the College to have a legitimate educational interest may have access to student records without obtaining consent from the student. Officials of the College are defined as:

- Persons employed by the school in an administrative, supervisory, academic, research, or support staff position,
- Persons serving on school governing bodies, and

- Persons employed by or under contract to the College to perform a specific task, such as an attorney or auditor.

An official has a legitimate educational interest if they need to:

- Perform duties specified in their job description or under terms of contractual agreement,
- Provide campus services related to a student, such as advising, financial aid, and counseling, or
- Conduct tasks related to a student's education or campus discipline.

Judicial Order

Information must be released to comply with a judicial order or lawfully issued subpoena. However, the College will make a reasonable effort to notify the student of the order or subpoena in advance of compliance, so that the student may seek protective action. However, if the court (or other issuing agency) has ordered that the existence or the contents of the subpoena or judicial order not be disclosed, the College will comply and notification to the student will be withheld.

Grievance Hearing

Information about a student or students involved in a grievance investigation or grievance hearing may be released to members of the grievance committee, including any students assigned to that committee, if such information is germane to the investigation or hearing.

Disciplinary Hearing

The results of a disciplinary hearing may be released to an alleged victim of a crime of violence without the permission of the accused.

Blackhawk Technical College Foundation

Student names and addresses may be released to the Blackhawk Technical College Foundation for foundation-related activities. The Foundation is considered part of the College and will hold such information confidential, using the information only in specific activities intended to aid and support the College. The release of such information to the Foundation will be made only with the approval of the College President or his/her designee.

U.S. Patriot Act

The College must release, without consent or knowledge of the student, personally identifiable information from a student's education record to the Attorney General of the United States or his/her designee in connection with the investigation or prosecution of terrorism crimes specified in sections 233b (g)(5)(B) and 2331 of Title 18, U.S. Code.

Written Release

Personnel employed by the College who have consent in the form of a written release of information, signed by the student, may disclose student information to appropriate outside agencies or persons.

Note: A record of disclosure will be maintained within a student's file indicating when information has been released from that file and to whom.

Note: A fee of five dollars may be assessed for the copying of all or a portion of a student record.

Transfer of Credit from Blackhawk

Blackhawk provides knowledge and skills related to occupational preparation. Additionally, credits earned in various Blackhawk programs may be transferable to a number of colleges and universities offering baccalaureate degrees.

Blackhawk has written transfer agreements with a number of private and public four-year colleges and universities. Academic advisors have information regarding institutions that accept Blackhawk credits. In all cases, the granting of such credits is at the discretion of the accepting college or university. Therefore, it is essential that students consult with their advisor regarding credit transfer.

Visit <https://blackhawk.edu/Programs-Classes/Transfer-After-BTC> (<https://blackhawk.edu/Programs-Classes/Transfer-After-BTC/>) for more information about transferring credit from Blackhawk.

UW/WTCS Policy on Credit Transfer

Any student enrolled in the Wisconsin Technical College System who wishes to continue their education in the University of Wisconsin System may be eligible to transfer credits toward a bachelor's degree.

UW institutions may accept in transfer up to forty-eight (48) BTC core credits. In cases where UW institutions find such course work not acceptable for transfer, BTC students should have an opportunity to earn credit by examination if the UW institution offers a course which is generally comparable in content and/or title.

UW System students who have successfully completed an Associate of Applied Arts/Science Degree may be eligible to transfer certain technical support and/or occupational credits when there is a direct relationship between BTC's Associate Degree program and a program offered at a UW System institution.

Students transferring from the WTCS may earn credits by earning appropriate scores on national standardized examinations (e.g., College Level Examination Program) or examinations developed by the UW System transfer institution.

For more information about transfer opportunities, you should consult with your advisor or contact the admissions office at the UW System institution or private college of your choice.

STUDENT CODE OF CONDUCT

Blackhawk Technical College is dedicated to helping you build your future with a flexible education in a supportive environment. In support of its mission, the College seeks to provide the opportunities and protections, which best serve the educational process. Students are entitled to the basic rights and protections as an individual enjoyed by all members of society. At the same time, they are also subject to obligations as a member of the College community. Blackhawk has adopted a Student Code of Conduct that sets forth the standards of conduct expected of students who choose to enroll at Blackhawk. It is intended to protect the welfare and safety of everyone and also assure that a valid learning environment exists. The Blackhawk Student Code of Conduct is intended for the benefit and protection of everyone involved in education and other activities at the College.

Students are expected to know and willingly follow the code in their everyday activities including Blackhawk-sponsored activities held off-campus. Conduct that violates the code is not acceptable and will not be tolerated. The student conduct regulations are intended to give students general notice of prohibited conduct. However, they are not meant to define misconduct in every circumstance.

The Conduct Officer shall determine the composition of the Student Conduct Board and will hear administrative hearings. The Conduct Officer will initiate all hearings. The Student Conduct Board is responsible for reviewing proposed changes to the Student Conduct Code; for assuring that such changes are consistent with the provisions of the code; and for assessment of the effectiveness of the Student Conduct Code. Only decisions resulting in suspensions, expulsion or revocation of admission and/or Degrees may be appealed. Decisions made by a Student Conduct Board and/or Conduct Officer shall be final (there is no appeal), when sanctions (a) through (f) of the Student Code of Conduct Procedures are imposed. When sanctions (a) through (f) are imposed, the student will have an Administrative Hearing with the Conduct Officer. When sanctions (g) through (i) are imposed, the case will be automatically taken to the Conduct Board for consideration. A student may file an appeal by the process herein described. The sanction(s) imposed is in effect until the appeal process is concluded.

This Code of Conduct, arranged alphabetically by category, establishes standards of behavior for students and student organizations at the College. Students are required to be knowledgeable of all policies of the College. These are contained in the College Catalog, and College website.

Note: A violation of the Code of Conduct may also constitute a violation of city, state, or federal law and vice versa. If so, simultaneous prosecutions may result. Students should be aware that student status does not insulate them from awareness of and compliance with other laws.

Complicity

A student shall not, through act or omission, assist another student, individual, or group in committing or attempting to commit a violation of this Code of Conduct. A student who has knowledge of another committing or attempting to commit a violation of the Code of Conduct is required to remove him or herself from the situation, and failure to do so may be the basis for a violation of the Code of Conduct.

Students are responsible for the behavior of their guests and must ensure that guests comply with College regulations including the standards in this Code of Conduct.

Academic Honesty

All students must be honest and forthright in their academic work. To falsify the results of one's research, to steal the words or ideas of another, to cheat on an assignment, or to allow or assist another to commit these acts corrupts the learning environment. Students are expected to do their own work and neither give nor receive unauthorized assistance. Any violation of this standard must be reported to the Conduct Officer and the Department Dean. The faculty member, in consultation with the Department Dean and/or the Conduct Officer, will decide whether the matter should be processed through the Student Conduct Procedures or resolved without a formal hearing. In the latter case, the faculty member must have the agreement of all students directly affected.

Academic Misconduct

Academic misconduct is any other act that disrupts the learning environment or provides a student with an academic advantage over another student. Academic misconduct includes, but is not limited to:

- The unauthorized possession, copying, distribution, sale, or other transfer of all or any part of an academic exercise, or the answers or solutions to an academic exercise, whether or not the exercise has been administered;
- Changing, altering, attempting to change or alter, or assisting another in changing or altering any grade or other academic records, including grades or records contained in a grade book or computer file, that is received for or in any way attributed to academic work;
- Entering any College building, facility, office, or other property, or accessing any computer file or other College record or storage for the purpose of obtaining the answers or solutions to an academic exercise or to change the grade;
- Continuing to work on an academic exercise after the specified allotted time has elapsed;
- Bribing another person to obtain an academic exercise, including answers to questions of an academic exercise that is not administered.

Cheating

Cheating is an act or an attempted act of deception by which a student seeks to misrepresent that they have mastered information that has not been mastered. Cheating includes, but is not limited to:

- Copying of all or any portion of another's academic work and submitting it, in part or in its entirety, as one's own;
- Allowing another person to copy one's own academic work, whether intentionally or recklessly;
- The unauthorized use or possession of a class textbook, notes, or any other material to complete or prepare an academic work;
- The unauthorized collaboration with any other person on an academic exercise, including collaboration on a take-home or make-up academic exercise;

- The unauthorized use of electronic instruments such as cell phones, PDAs, or personal response systems (clickers) to access or share information;
- The unauthorized completion for another person of academic work, or permitting someone else to complete academic work for oneself, including through the use of personal response systems (clickers).

Copyright Infringement

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the U.S. Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement. Unauthorized distribution of copyrighted material, including unauthorized peer-to-peer file sharing, may subject the student to civil and criminal liabilities. For more information, see the website of the U.S. Copyright Office at www.copyright.gov.

Fabrication

Fabrication is the use of invented information or the falsification of research or other findings. Fabrication includes, but is not limited to:

- The false citation or acknowledgment of a direct or secondary source, including the incorrect documentation of a source;
- The citation, in a bibliography or other list of references, of sources that were not used to prepare the academic work;
- The inclusion in an academic work of falsified, invented, or fictitious data or information, or the deliberate and knowing concealment or distortion of the true nature, origin, or function of such data or information; or
- The unauthorized submission of academic work prepared totally or in part by another.

Plagiarism

Plagiarism is the inclusion of someone else's words, ideas, images, or data as one's own. When a student submits academic work that includes another's words, ideas, images, or data, whether published or unpublished, the source of that information must be acknowledged with complete and accurate references and if verbatim statements are included, with quotation marks as well. By submitting work as his or her own, a student certifies the originality of all material not otherwise acknowledged. Plagiarism includes, but is not limited to:

- The quotation or other use of another person's words, ideas, opinions, thoughts or theories (even if paraphrased into one's own words) without acknowledgment of the source;
- The quotation or other use of facts, statistics, or other data or materials (including images) that are not clearly common knowledge without acknowledgment of the source.

Alcohol & Drug Policies

Alcohol Policies

The possession, consumption, transfer, and sale of alcoholic beverages on Blackhawk premises is strictly prohibited. In addition, possession, use, and sale of alcohol are further regulated in accordance with applicable state and federal laws and Wisconsin Administrative codes. Blackhawk

cooperates with local police agencies to enforce underage drinking laws and other violations related to the possession, use, and sale of alcohol. As a Blackhawk student, you are expected to comply with all laws and District policies regarding the use of alcoholic beverages. Depending on the nature of the violation, you may face legal prosecution and/or disciplinary action in accordance with applicable laws and College procedures.

All students must comply with applicable laws and these alcohol regulations:

Medical Reprieve

Student health and safety are of primary concern at BTC. As such, in cases of intoxication and/or alcohol poisoning, the College encourages individuals to seek medical assistance for themselves or others. If an individual seeks medical attention due to their level of intoxication, the Conduct Officer may not pursue conduct sanctions against the student for alcohol violations. In lieu of student conduct sanctions, the intoxicated student will be required to meet with the Conduct Officer who may issue educational requirements such as an alcohol education class and/or an alcohol and substance abuse assessment.

Please note: Medical Reprieve will not be granted to students who do not seek medical assistance. Students who are confronted by College staff will be referred to the Conduct Officer for alleged policy violations.

Prohibited Activities

The College prohibits alcohol intoxication by students (regardless of age); the unauthorized possession, use, consumption, manufacture, sale, or distribution of alcohol; and driving while impaired due to alcohol consumption. Specifically, this offense includes, but is not limited to:

- The possession, use, consumption, manufacture, sale or distribution of alcohol by anyone under the legal age to do so;
- The possession, use, consumption, manufacture, sale or distribution of alcohol in violation of any applicable law, including the laws of the State of Wisconsin;
- The possession, use, consumption, manufacture, sale or distribution of alcohol in any College building, facility, or property;
- The possession of any apparatus used to facilitate the rapid consumption of alcohol or drinking games;
- A violation of any College policy or procedure concerning the use of alcohol or enacted to monitor or control the use of alcohol.

Students who display intoxicated behaviors or students who require staff assistance due to the consumption of alcohol or illegal drugs while attending classes or college functions are subject to disciplinary action.

Evidence of an intoxicated person may include, but is not limited to, a combination of the following indicators:

- Odor of intoxicants on the breath
- Bloodshot eyes
- Dilated pupils
- Stumbling or staggering
- Slurred speech
- Impairment of dexterity

Other restrictions can be imposed by college administration as deemed necessary.

Student Organizations

No student organization that hosts, organizes, conducts, or participates in an on-campus function or event sponsored or sanctioned by the College shall serve alcohol or permit the possession, use, consumption, manufacture, sale or distribution of alcohol.

Use of Alcohol On-Campus

As described above, the possession, use, consumption, manufacture, sale, or distribution of alcoholic beverages is prohibited.

Use of Alcohol Off-Campus

The College accepts no responsibility for the possession, use, consumption, manufacture, sale, or distribution of alcoholic beverages by students off campus including at events or functions sponsored in whole or in part by one or more student organizations or individuals. A student hosting or attending an off-campus function should be aware of the applicable laws regarding alcohol and should be aware that the College may impose sanctions upon the student for such behavior. The student organization advisors, faculty, staff or other college administration as deemed necessary can impose other restrictions.

Educational Exception

The possession, distribution, and consumption of alcoholic beverage and intoxication of individuals is allowable, under supervision, direction, and control by the Wisconsin Law Enforcement Recruit Academy program, for the education of law enforcement recruits.

Illegal Drug Policies

The College prohibits the possession, use, consumption, manufacture, sale, or distribution of drugs and drug paraphernalia. Any violations may be subject to sanctions by the Student Conduct System and may be reported to all appropriate law enforcement authorities.

Definitions

The term "drugs" broadly includes, without limitation, any stimulant, intoxicant (other than alcohol), nervous system depressant, hallucinogen, or other chemical substance, compound, or combination when used to induce an altered state, including any otherwise lawfully available product used for any purpose other than its intended use. The term "drug paraphernalia" broadly includes any material, product, instrument, or item used to create, manufacture, distribute, use or otherwise manipulate any drug and includes, but is not limited to, hypodermic needles and syringes.

Prohibited Activities

Specific violations of this standard include, but are not limited to:

- The possession, use, consumption, manufacture, sale, or distribution of any drug or drug paraphernalia, prescription or prescription drug not prescribed to the student;
- The delivery, transfer, or intent to deliver, transfer, or manufacture any drug or drug paraphernalia;
- A violation of any applicable local, state or federal law relating to drugs or drug paraphernalia; The sale, delivery, or transfer of a prescription or prescription drug

- The possession of a prescription or prescription drug not issued to the student is a violation of any applicable local, state or federal law relating to drugs or drug paraphernalia;
- The sale, delivery, or transfer of a prescription or prescription drug
- The possession of a prescription or prescription drug not issued to the student

Disruptive Conduct

A student shall not impair, interfere with, or obstruct the orderly conduct, process, or function of the College or any of its students, faculty, staff, or guests.

Prohibited Activities

Specific violations include, but are not limited to:

- Committing or threatening to commit any act of violence against self or others;
- Threatening the health, safety, or welfare of another or engaging in conduct that endangers the health, safety, or welfare of the student or anyone else;
- Interfering with the freedom of movement of another person;
- Invading the privacy of another person;
- Stalking (purposely and repeatedly engaging in behavior and/or communication directed at a specific person which causes that person alarm, distress, fear or a change of normal behavior)
- Interfering with the right of another to enter, use, or leave any College building, facility, property, services, resources, or activity;
- Trespassing or the unauthorized entering or accessing of any College building, facility, property, employee office or work area, services, resource, or activity;
- Instigating or otherwise encouraging others to engage in a fight, riot, or other disruption;
- Making, exhibiting, or producing any inappropriate, loud, or disruptive noise or behavior;
- Exhibiting public nudity or lewd behavior.

Endangering the Safety of Others

A student shall not endanger the lives or safety of others.

Prohibited Activities

Specific violations of this standard include, but are not limited to:

- Creating an unsafe condition or environment which could cause harm to others;
- Setting or causing a fire;
- Tampering with, misusing or damaging fire or safety equipment such as alarms, heat sensors, smoke detectors, hoses, and fire extinguishers;
- Failing to immediately exit any facility or building when a fire alarm has been sounded or hindering or impairing the orderly evacuation of any College facility or building;
- Disobeying a command by any College official or faculty member in connection with a fire, alarm, or other safety or security matter.

Failure to Comply

It is a violation to ignore, disobey, disregard, or otherwise violate any provision of this Code of Conduct or any applicable rule.

Prohibited Activities

Specific violations of this standard include, but are not limited to:

- Failing to comply with the directive of any College official, security or faculty member including any sanction imposed by the Conduct Officer upon a group or individual;
- Failing to comply with the terms of any procedure or agreement;
- Failing to comply with any applicable federal, state, or local law.

False Information

A student shall not provide false or misleading information.

Prohibited Activities

Specific violations of this standard include, but are not limited to:

- Making a false or misleading oral or written statement to any College official, security or faculty member when the student knew or should have known the statement was false
- Making a false or misleading oral or written statement that misrepresents the character, qualifications, or reputation of another;
- Falsely reporting the presence of an explosive or incendiary device, or fire, or other safety hazards;
- Falsely reporting a crime or violation of this Code of Conduct;
- Possessing or displaying any form of false identification or any identification not one's own.

Misuse of College Assets

A student shall not misuse any College material, service or property.

Prohibited Activities

Specific violations of this standard include, but are not limited to:

- Destroying, damaging, misusing, or defacing any College building, facility, or property, or any private property on-campus or being used for a College-sponsored event;
- Destroying, damaging, misusing, reproducing, or defacing any student identification card, College provided key or other access cards, laboratory equipment, or any material issued or owned by the College;
- Impairing or otherwise hindering another's use of a College material, service, or property
- Reading, duplicating, removing, photographing, forging, counterfeiting, or altering any College document or record without authorization;
- Littering on or in any College property, facility, or building.

Off-Campus Conduct

Temporary Suspension When Certain Criminal Charges are Pending

The College may temporarily suspend any student when certain charges are pending against that student, subject to the procedures set forth in

this guide. Specifically, a temporary suspension may be mandated where the crime involves an act of violence, the sale, manufacture or delivery of drugs, or any other conduct that is egregiously offensive to the College's mission.

Emergency Suspension

The College may remove any student where the continued presence of the student on campus poses a threat to the safety or rights, welfare, or property of another, subject to the Student Code of Conduct Procedures.

Sexual Harassment

Sexual Harassment

Blackhawk Technical College is committed to providing an academic and work environment free of unlawful sexual harassment. Sexual harassment is an overarching definition that includes sexual harassment, sexual assault, domestic violence, dating violence, and stalking. Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical harassment of a sexual nature.

Blackhawk Technical College is bound by and supports all applicable laws as they pertain to Title IX. The Title IX of the Higher Education Act of 1972 ensures the College does not discriminate based on sex in its education programs. The Campus Sexual Violence Elimination Act (SAVE) of 2013 and the Violence Against Women Reauthorization Act (VAWA) ensures colleges and universities implement policies and programs to prevent sexual assault, dating violence, domestic violence, and stalking.

The Title IX Coordinator position oversees all sexual discrimination, sexual harassment, sexual assault and relationship violence complaints at the College, and was created to promote an environment free of gender bias and misconduct. The Title IX Coordinator is responsible for conducting an annual report and review of complaints to ensure compliance with Title IX, make improvements, and identify any patterns or systemic problems within the College community. The Title IX Coordinator serves as a neutral administrator and resource to employees and students to answer questions, coordinate reporting and handling of complaints, review internal disciplinary proceedings and remedies, provide education, training, and guidance to public safety, student development, human resources, and other personnel involved with investigations and disciplinary proceedings.

Title IX Coordinator:

Dr. Deb Gilster, Coordinator of Access and Accommodations
Central Campus, Student Success Center
608) 757-7796
dgilster@blackhawk.edu

The College has designated a Deputy Title IX Coordinator to assist the Title IX Coordinator and stand-in as the replacement coordinator as needed. A Deputy Title IX Coordinator is responsible for assisting the Title IX coordinator in conducting training, climate assessments, reporting, investigating, and facilitating communications on behalf of the College.

Deputy Title IX Coordinator

Alicia Acker, Career Services and Leadership Development Coordinator
Central Campus, Student Services
(608) 743-4423
aacker@blackhawk.edu

Title IX

(adapted from College policy E-222 Prohibition of Sexual Harassment under Title IX)

Definitions:

Complainant: A Complainant is an individual who alleges he/she/they is the victim of conduct that could constitute sexual harassment.

Respondent: A Respondent is an individual reported to be the perpetrator of conduct that could constitute sexual harassment

Formal Complaint: A written complaint signed by the Complainant or Title IX Coordinator alleging sexual harassment and requesting an investigation. If the Title IX Coordinator signs the formal complaint, he/she/they will not become a Party to the complaint

Additional definitions and behaviors related to Title IX can be found at <https://www.blackhawk.edu/About/Safety-Security/Title-IX>

Initial Report

Students, staff, and witnesses are highly encouraged to direct violence, harassment, assault, or other Title IX questions, concerns, and complaints to the Title IX Coordinator or an appropriate Title IX college employee. Reports may also be filed at <https://blackhawk.edu/About/Safety-Security/Title-IX>

If a Title IX Coordinator is alleged to be the Respondent, the report may be filed with another authorized employee or via our online reporting tool. If accommodations are needed when filing a complaint, please contact Access and Accommodation Services at (608) 757-7796.

The Title IX Coordinator is required to respond to reports of sexual harassment or misconduct. The Title IX Coordinator will handle information received with the utmost discretion and share information with others on a need-to-know basis.

Before initiating an investigation, the Title IX Coordinator/Deputy Title IX Coordinator will meet with the Complainant to explain the student's investigation process and the eventual resolution process. Individuals have the opportunity to decide whether they want to pursue a formal Title IX complaint. Reporting sexual harassment to the Title IX Coordinator does not automatically initiate an investigation under these procedures. A report allows the College to provide a wide variety of support and resources to impacted individuals and prevent the conduct's reoccurrence. A Complainant or the Title IX Coordinator filing a formal complaint will initiate an investigation.

Supportive Measures

Supportive measures are non-disciplinary, non-punitive individualized services offered free of charge to the Complainant or the Respondent regardless of whether a formal complaint has been filed. The College will provide the Complainant and Respondent with supportive measures as appropriate and as reasonably available to restore or preserve equal access to the College's education program or activities. These measures are designed to protect all Parties' safety, protect the College's educational environment, or deter sexual harassment. The College will provide supportive measures on a confidential basis as much as possible. It will only make disclosures to those with a need to know to enable the College to provide the service. Supportive measures may include counseling, extensions of deadlines, other course-related

adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the Parties, changes in work or housing locations, leaves of absence, increased security, and monitoring of certain areas of the campus, and other similar measures.

Investigation and Report

The Title IX Coordinator is responsible for overseeing investigations to ensure timely resolution and compliance with Title IX. The College will investigate Title IX formal complaints fairly and objectively. The results of the investigation of a formal complaint will be outlined in a written report. The investigator will not make a determination regarding responsibility.

Hearing

After completing an investigation and before completing a determination regarding responsibility, the College will hold a live hearing to provide the Complainant and Respondent an opportunity to respond to the evidence gathered before a DecisionMaker. Neither Party may choose to waive the right to a live hearing. Still, they may choose whether to participate in the hearing or answer some or all cross-examination questions.

Right to Appeal

Complainant or Respondent may appeal the College's determination regarding responsibility or the dismissal of a formal complaint or any allegations. A Complainant or Respondent must submit a written appeal within ten (10) business days from the date of the notice of determination regarding responsibility or the date of the College's notice of dismissal of a formal complaint or any allegations.

Consensual Relationships

There are inherent risks in any romantic or sexual relationship between individuals with unequal authority (such as an Instructor and student or supervisor and employee). These relationships may be less consensual than perceived by the individual whose position has authority. Each of the individuals, particularly in retrospect, also may view the relationship in different ways. For the personal protection of all individuals associated with BTC, relationships in which there may be an actual or perceived authority are prohibited. A consensual romantic or sexual relationship in which there is a direct supervisory or evaluative role over another individual (Instructor-student, staff-student, administrator-student) violates the Code of Conduct and is therefore prohibited. Persons with direct supervisory or evaluative responsibilities involved in such relationships must bring those relationships to their supervisor's immediate attention, so arrangements to remedy the supervisory or evaluative conflict can be implemented.

Training

Sexual harassment prevention and awareness training takes place during new employee orientation and new student orientation. Annual sexual harassment training is also required for all staff. Additional training and offerings are available online and through Career Services and Leadership Development activities and programming. Resources and training materials can be found on the College website, MyBTC, and other publications. Following the College's mission and vision and federal guidelines, training about the policy and procedures regarding sexual harassment and relationship violence is required for all students, instructors, and staff. Best practices identified through the United States

Department of Education and Violence Against Women Act (VAWA) are used to develop awareness programming.

Bystander Intervention training will provide resources to assist students when faced with a situation and safely intervene if someone is at risk of being assaulted. Also, the College will periodically conduct a campus climate survey to gain a more robust understanding of social issues impacting students and the effectiveness of College prevention efforts, policies, and resources.

Harassment and Nondiscrimination

Harassment and Nondiscrimination Policy

Blackhawk Technical College is committed to providing an atmosphere that is free of all forms of discrimination and harassment. Blackhawk has developed policies and procedures that comply with College values, as well as federal and state laws and regulations. Blackhawk is committed to Equal Opportunity/Affirmative Action for its employees and students as required by law in its admissions, employment, and educational programs and activities. These policies apply to all members of the Blackhawk Technical College community. All members of the College community share a collective responsibility for creating and maintaining an environment that is free from discrimination and harassment. Should a violation occur, the College will follow the Student Code of Conduct procedures to impose appropriate sanctions.

This policy applies to all Blackhawk programs, activities, practices, operations, and behaviors that take place on any college property, facility, or building, and any on, or off-campus college-sponsored events.

All actions by a member of the college community that involve the use of the College's networks and/or technology from a remote location including, but not limited to, accessing email accounts, are considered to have occurred on-campus. This policy may also apply to off-campus or online conduct when the college determines that the conduct affects a substantial College interest. A substantial College interest is defined to include:

- Any action that constitutes a criminal offense as defined by law.
- Any situation where it appears that the accused may present a danger or threat to the health or safety of self or others.
- Any situation that significantly imposes upon the rights, property, or achievements of a student or causes significant social disruption.

Any online postings or other electronic communication by students and employees, including cyber-bullying/harassment that occurs completely outside of the college's control will be subject to this policy when the online behaviors cause a substantial on-campus disruption or use the college's networks and/or technology. While Blackhawk may not control websites, social media, and other venues in which harassing communications are made, the college maintains a responsibility to review and attempt to resolve the situation when such communication is reported to the college.

Discrimination

Discrimination is an unfair or unequal treatment on the actual or perceived basis of age, ancestry, arrest or conviction record, color, religion or religious creed, disability, gender and gender identity, genetic testing, marital status, military service, national origin, political affiliation, race, sex, sexual orientation, or any other protected status.

Discrimination includes actions that deprive, limit, or deny other members of the community of educational or employment access, benefits, or opportunities. The College reserves the right to address discrimination and harassment even if it is not based on a protected status and/or not does create a hostile environment.

Harassment

Harassment is unwelcome verbal, physical, or other actions that intimidate, harass, threaten, coerce, or otherwise endanger the health or safety of any person based upon a student's age, ancestry, arrest or conviction record, color, religion or religious creed, disability, gender and gender identity, genetic testing, marital status, military service, national origin, political affiliation, race, sex, sexual orientation, or any other protected status. Offenses, outside of those covered by Title IX, that are additionally prohibited as harassment under this policy when directed toward an individual with actual or perceived membership in a protected class include, but are not limited to, the following offenses:

- Sexual Exploitation is defined as taking non-consensual or abusive sexual advantage of another for one's own advantage or benefit, or to benefit or advantage anyone other than the one being exploited, and that behavior does not otherwise constitute sexual harassment under this policy.
- Threatening or causing physical harm, extreme verbal abuse, or other conduct which threatens or endangers the health or safety of any person.
- Ostracism or exclusion of any person within the College community, when related to admission, joining or any other group affiliation activity.
- Intimidation, defined as implied threats or acts that cause an unreasonable fear of harm in another.
- Bullying, defined as repeated and/or severe aggressive behavior, likely to intimidate or intentionally hurt, control, or diminish another person, physically or mentally; that is not speech or conduct otherwise protected by the First Amendment.

The College reserves the right to address harassment even if it is not based on a protected status and/or not does create a hostile environment.

Discriminatory Harassment

Discriminatory harassment is unwanted, deliberate, or repeated unsolicited comments, slurs, demeaning references, gestures, graphic materials, physical contact, solicitation of favors, advances, bullying, or other adverse treatment when:

- Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment, student status, or academic participation.
- Submission to or rejection of such conduct by an individual is used as the basis for employment or academic decisions affecting an individual.
- The conduct has the purpose or effect of substantially creating an intimidating, hostile, or offensive environment that tangibly affects or interferes with an individual's job performance, academic performance, or academic opportunities.

Disability Discrimination and Accommodations

Blackhawk Technical College is dedicated to providing an environment that supports students with disabilities achieve their goals. The College is committed to full compliance with the American with Disabilities Act of 1990 (ADA and ADAAA) and Section 504 of the Rehabilitation Act of 1973, which prohibit discrimination against persons with disabilities, as well as other federal and state laws pertaining to individuals with disabilities. An individual with a disability is defined by the ADA as a person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such an impairment, or a person who is regarded by others as having such an impairment. Access shall not be denied because of the need to make reasonable accommodations to an individual's disability. The exceptions to providing accommodations are if doing so would cause undue hardship or pose a direct threat to the health and safety of others at Blackhawk.

First Amendment Statement

Speech or conduct protected by the First Amendment will NOT be considered a violation of Blackhawk Technical College's Harassment and Nondiscrimination Policy. Discrimination, harassment, and retaliation against members of the College community are NOT protected expression or the proper exercise of academic freedom. The College considers academic freedom in the investigation of reports of discrimination or harassment that involve an individual's statements or speech in an academic context. The College is committed to the protection of individual rights under the First Amendment (and related principles of academic freedom) and in preserving the widest possible dialogue within its educational environment. Off-campus discriminatory or harassing speech may be regulated by the College only when such speech is made in an official college capacity, is directed at other college community members, or has the propensity to create a hostile environment in the educational or work activities of the College.

Retaliation Policy

Retaliation is defined as any adverse action taken against a person because they have reported harassment or provided information in support of a violation. Retaliation is a serious violation of Blackhawk Technical College's Harassment and Nondiscrimination Policy. Retaliation includes but is not limited to; ostracizing the person, pressuring the person to drop the complaint, providing false or misleading information, or engaging in conduct that may reasonably be perceived to affect adversely that person's educational, living, or work environment. Further violations include threatening, intimidating, or coercing the person, otherwise discriminating against any person for exercising their rights or responsibilities under this policy.

Confidentiality

The College makes every effort to preserve the confidentiality of reports that fall under this policy. Generally, those individuals with a role in the Student Conduct Procedures will be informed about the complaint to preserve the rights and privacy of the involved parties. The College reserves the right to designate which college officials have a legitimate interest in being informed about incidents that fall within this policy. The College cannot ensure confidentiality in every situation.

Supportive Measures

Upon receiving a report of an alleged policy violation, the College will offer supportive measures to involved parties as appropriate. These measures are made available when the College is provided actual knowledge of allegations of harassment, discrimination, or retaliation. Supportive measures may include, but is not limited to, the following:

- Counseling
- Extensions of deadlines or other course-related adjustments
- Modifications of work or class schedules
- Campus escort services
- Mutual restrictions on contact between parties
- Increased security and monitoring of certain areas of campus
- Issuance and enforcement of no-contact orders
- Or similar measures

Reporting Policy Violations

- Report online, using the Behavior Intervention Report (<https://blackhawk.edu/About/Safety-Security/Behavior-Intervention-Team/>) located on the College's website.
- Report directly to the Title IX/Equal Opportunity/ADA Coordinator.

Dr. Deb Gilster, Coordinator of Access and Accommodations

Central Campus, Student Success Center

(608) 757-7796

dgilster@blackhawk.edu

- If you need further clarification or wish to report the violation on an informal basis, you may seek the assistance of the Student Services Department.

Gender Discrimination and Sexual Misconduct Addendum

Overview of Expectations with Respect to Consensual Relationships

There are inherent risks in any romantic or sexual relationship between individuals with unequal authority (such as an Instructor and student or supervisor and employee). These relationships may be less consensual than perceived by the individual whose position has the authority. Each of the individuals, particularly in retrospect, also may view the relationship in different ways. Furthermore, circumstances may change, and conduct previously welcomed may become unwelcome and a consensual romantic or sexual relationship may no longer be consensual for both individuals. For the personal protection of all individuals associated with BTC, relationships in which there may be a real or perceived authority (Instructor-student, staff-student, administrator-student) are prohibited.

A consensual romantic or sexual relationship in which there is a direct supervisory or evaluative role over another individual is in violation of the Code of Conduct. Therefore, persons with direct supervisory or evaluative responsibilities who are involved in such relationships must bring those relationships to the immediate attention of their supervisor

so arrangements to remedy the supervisory or evaluative conflict can be implemented.

Definitions

In addition to the following definitions, the Wisconsin statutory definitions of violent acts against women are included in the appendix of this policy.

Student

Any person who is currently attending and/or enrolled for a course of study, including continuing education, adult and basic skills education, and credit programming with Blackhawk Technical College.

Consent

Consent is informed, knowing and voluntary participation in any desired sexual activity. Sexual intimacy requires that all participants consent to the activity. Consent between two or more people is defined as an affirmative agreement to engage in sexual activity. Consent can be given by words or actions, as long as those words and actions create a clear and mutually understandable permission regarding the conditions of sexual activity. The person giving the consent must act freely, voluntarily, and with an understanding of his or her actions when giving consent. Lack of protest or resistance does not constitute consent, and silence alone cannot be interpreted as consent. Relying solely on non-verbal communication can lead to misunderstanding. Persons who want to engage in sexual activity are responsible for obtaining consent—it should never be assumed. Consent to one form of sexual activity cannot imply consent to other forms of sexual activity. Previous relationships or consent cannot imply consent to future sexual acts.

Consent must be present throughout the sexual activity – at any time, a participant can communicate that he or she no longer consents to continue the activity. If there is confusion as to whether anyone has consented or continues to consent to sexual activity, it is essential that the participants stop the activity until the confusion can be clearly resolved.

A person who is incapacitated cannot give consent to engage in sexual activity. The issue is whether a reasonable unimpaired person would know that the other person was incapacitated. Incapacitation can result from alcohol or other drug use, unconsciousness, blackout, mental disability, sleep, involuntary physical restraint, or from being drugged. A respondent cannot defend a violation of this policy by claiming that he or she was impaired from alcohol or drug use and unable to tell whether the complainant was incapacitated.

Wisconsin law also states the following individuals are not able to provide consent:

- Individuals who are asleep or unconscious
- Individuals who are unable to communicate consent because of a mental or physical condition
- Generally minors under the age of 16

Blackhawk may conclude that an instance of sexual contact was sexual assault, because it was without another person's consent, even if that conduct would not meet the standard of a criminal sexual assault. For example, it is possible the College would conclude under some circumstances that a person who was intoxicated on alcohol could not consent, and therefore, did not give consent to sexual contact, even though the criminal courts might not reach the same conclusion.

Coercion

Coercion is defined as compelling someone to act based on:

- An unreasonable amount of pressure
- Harassment
- Threats
- Intimidation

When someone makes clear that he or she does not want to engage in sexual conduct, wants it to stop, or does not wish to go past a certain point of sexual interaction, continued pressure beyond that point is coercive.

Retaliation

Retaliating directly or indirectly against a person who has, in good faith, filed, supported, or participated in an investigation of a complaint of sexual misconduct, as defined above, is prohibited. Retaliation includes, but is not limited to, ostracizing the person, pressuring the person to drop or not support the complaint, or to provide false or misleading information, or engaging in conduct that may reasonably be perceived to affect adversely that person's educational, living, or work environment. Retaliation also includes similar conduct engaged in by a third party at the complainant's or respondent's request. Depending on the circumstances, retaliation may be unlawful and may constitute a violation of this policy, whether or not the Title IX complaint is ultimately found to have merit.

Hate Crime

The victim is intentionally selected because of the actual or perceived race, gender, religion, sexual orientation, ethnicity, or disability.

Bystander Intervention

Bystander intervention gives responsibility to all members of the college community to help ensure the safety of all members within the college. The intervention may be as simple as providing words of support to another student or a faculty or staff member. It may mean more involved behaviors to let people know that action will be taken. The goal of bystander intervention is to change passive bystanders into active bystanders who feel confident in their ability to "discourage, prevent, or interrupt" a sexual violence incident. Bystander intervention helps grant people the self-efficacy to stand up and speak up when a person is being harassed or assaulted.

Sexual Misconduct

Sexual misconduct is a broad term encompassing any non-consensual behavior of a sexual nature that is committed by force or intimidation, or that is otherwise unwelcome. Sexual misconduct includes:

- Sexual assault
- Sexual exploitation
- Sexual harassment
- Stalking
- Relationship violence (domestic and dating)
- Hostile environment

Sexual misconduct may vary in its severity and consists of a range of behaviors or attempted behaviors. It can occur between strangers or acquaintances, including people involved in an intimate or sexual relationship. Sexual misconduct can occur between members of the same or different gender and can occur while individuals are fully clothed.

Sexual Assault

Sexual assault is defined very broadly by criminal law. It includes a wide variety of conduct from sexual intercourse to sexual contact, without the consent of the other person. Criminal sexual contact can be as limited as a single instance of touching a woman's breast, buttocks, or genital area, or touching a man's buttocks or genital area, without that person's consent, even if the person touched is fully clothed. Other examples of sexual assault include:

- Rape
- Acquaintance rape
- Forcible fondling
- Sodomy (oral or anal intercourse)
- Sexual penetration with an object

Sexual Exploitation

Sexual exploitation involves taking non-consensual sexual advantage of another person, even though the behavior might not constitute one of the other sexual misconduct offenses. Examples can include, but are not limited to the following behaviors:

- Distribution or publication of sexual or intimate information about another person without consent, including by means of social media
- Electronic recording, photographing or transmitting sexual or intimate utterances, sounds, or images without knowledge and consent of all parties
- Engaging in indecent exposure
- Voyeurism – Voyeurism involves both secretive observation of another's sexual activity and secretive observation of another for personal sexual pleasure
- Going beyond the boundaries of consent (such as letting your friends hide in the closet to watch you having consensual sex)

Sexual Harassment

Sexual harassment is defined as unwelcome, gender-based verbal or physical conduct that is sufficiently severe, persistent or pervasive that has the effect of unreasonably interfering with, denying or limiting someone's ability to participate in, or benefit from the College's educational program and/or activities and is based on power differentials. This policy prohibits conduct that would violate Federal and State laws. Sexual harassment includes:

- Unwelcome sexual advances or requests for sexual favors
- Unwelcome verbal or physical conduct of a sexual nature
- Making a submission to, or rejection of, such conduct a factor in academic or employment decisions affecting the student or employee
- Permitting such conduct to unreasonably interfere with a student's academic performance or an employee's work performance
- Unwelcome sexual advances, requests for sexual favors or other verbal or physical conduct of a sexual nature or submission to or rejection of such conduct results in adverse educational or employment action (Quid pro quo)
- Adverse educational or employment action taken against a person because of the person's participation in a complaint or investigation of discrimination or sexual misconduct (retaliatory harassment)

Examples of Sexual Harassment:

- An instructor insists that a student have sex with him or her in exchange for a good grade. This is harassment regardless of whether or not the student submits to the request
- A student repeatedly sends sexually oriented jokes through social media, even when asked to stop, causing one recipient to avoid the sender
- Explicit sexual pictures are displayed in an instructor's office, on a bulletin board in a lab or on a computer monitor in a public space
- An instructor engages students in discussions about their past sexual experiences, yet the conversation is not in any way relevant to the subject matter of the class. An instructor probes for explicit details and demands that students answer although they are clearly uncomfortable and hesitant
- An ex-girlfriend widely spreads false stories about her sex life with her former boyfriend to the clear discomfort of the boyfriend turning him into a social outcast on campus

Stalking

Stalking involves harassment, intimidation, surveillance or a similar course of repeated conduct that is intended to cause a reasonable person to fear for his or her safety or suffer substantial emotional distress, serious physical injury, or death. Stalking includes conduct directed at the victim's immediate family, a spouse or intimate partner. Stalking can also be a form of sexual harassment and/or it can involve a total stranger.

Relationship Violence

Relationship violence is conduct in which the parties involved know each other or had a prior relationship and may include acquaintance rape, dating violence, and domestic violence.

Domestic Violence refers to violence committed by a:

- Current or former spouse or intimate partner
- Current or former cohabitant
- Person with whom a victim shares a child in common
- Person similarly situated to a spouse under domestic or family violence law
- Anyone else protected under domestic or family violence law

Dating Violence

Dating violence is inappropriate conduct when the parties involved are, or have been, in a romantic or intimate relationship and does not include a causal relationship between two individuals in a business or social context. Whether a relationship exists will depend on the length, type, and frequency of interaction.

Hostile Environment

Hostile environment includes any situation in which there is harassing conduct that is sufficiently severe, persistent or pervasive such that it alters the conditions of employment or limits, interferes with or denies educational benefits or opportunities, from both a subjective (the alleged victim's) and an objective (reasonable person's) viewpoint.

The determination of whether an environment is "hostile" must be based on all of the circumstances listed here. These circumstances may include, but are not limited to:

- The frequency of the conduct
- The nature and severity of the conduct
- Whether the conduct was physically threatening
- Whether the conduct was humiliating

- The effect of the conduct on the alleged victim's mental or emotional state
- Whether the conduct was directed at more than one person
- Whether the conduct arose in the context of other discriminatory conduct
- Whether the conduct unreasonably interfered with the alleged victim's educational or work performance

Other Misconduct Offenses (when gender-based)

Threatening or causing physical harm, extreme verbal abuse, or other conduct which threatens or endangers the health or safety of any person. Intimidation, defined as implied threats or acts that cause an unreasonable fear of harm in another. Bullying, defined as repeated and/or severe aggressive behavior likely to intimidate or intentionally hurt, control or diminish another person, physically or mentally.

Non-Confidential Reporters

All College employees have an obligation to report to a Title IX Coordinator, information regarding sexual misconduct incidents made known to them, or that they have reasonable cause to suspect that such conduct might have occurred. Employees are required to caution students about confidentiality issues and to advise students that the employee is required to report potential or alleged violations of this policy. Even if a student refuses to file a complaint with the College or the police or participate in a disciplinary proceeding, the College may need to further investigate reports of sexual misconduct. To the extent possible, student privacy will be maintained and information will only be shared with individuals on a "need to know" basis.

If you are unsure of someone's responsibilities and duties for maintaining your privacy, ask them BEFORE you talk to them. They should be able to tell you and help you make decisions about who can best help you while maintaining your privacy.

Training

Sexual misconduct awareness and prevention training take place during Fast Track Days for new students. Additional training and offerings are available online and through Career Services and Leadership Development activities and programming. Resources and training materials can be found on the College website, MyBTC and other publications. In accordance with the College's mission and vision, as well as Federal guidelines, training about the policy and procedures regarding sexual assault and relationship violence is required for all students, instructors, and staff. Best practices identified through the United States Department of Education and Violence Against Women Act (VAWA) are used to develop awareness programming.

Bystander Intervention training will provide resources to assist students when faced with a situation and to safely intervene if someone is at risk of being assaulted. In addition, the College will periodically conduct a campus climate survey to gain a stronger understanding of social issues impacting students, and the effectiveness of College prevention efforts, policies, and resources that address them.

Blackhawk Policy Application

The College's policy to address cases of alleged sexual misconduct is designed to:

- Consider the rights of the complainant, the rights of the respondent, the safety of the community, and compliance with applicable laws and College policies

- Conduct a timely, fair, impartial, and equitable investigation and adjudication process with thoroughness and respect for all involved parties
- Protect the privacy of all parties to the extent it is practical while balancing the need to perform an investigation, follow the procedures outlined below, comply with applicable law, and maintain campus safety
- Provide appropriate remedies and sanctions to address the discriminatory effects of sexual misconduct on the complainant and others
- Support the needs of the complainant and respondent in the areas of emotional and mental health, physical well-being, and safety from future violence or retaliation

Blackhawk specifically prohibits all forms of sexual misconduct and violence including, but not limited to, rape, acquaintance rape, sexual assault, sexual harassment, dating violence, domestic violence, stalking, and hate crimes between or against members of its college community. This policy will apply regardless of whether a criminal proceeding has been initiated, the conduct occurred on campus, or involved a College-sponsored activity. The College will respond appropriately to address violations of this policy in a manner that is reasonable to prevent such conduct from recurring and to minimize the effects on victims and the College community. Retaliation for filing a report or complaint or for participating in a related investigation or disciplinary proceeding is also a violation of this policy.

In instances where a complaining party insists on confidentiality, it may limit the College's ability to respond. Depending upon the circumstances, the College may not be able to ensure confidentiality because of its obligation to provide a safe and nondiscriminatory environment for all students. Factors that may impact the request include the seriousness of the alleged conduct and whether there have been other complaints about the same individual. Confidential resources available to consult with students are listed in this policy.

Once a Blackhawk employee (non-confidential reporter) either has been told or should have known about an incident(s) of sexual harassment or sexual misconduct, the College will:

- Take immediate and appropriate steps to investigate what occurred
- Take prompt and effective action to:
- Stop the harassment
- Remedy the effects of the behavior
- Prevent the recurrence of said behavior

Community Resources

In addition to seeking support from internal contacts, there are a number of community resources in Rock and Green Counties available to provide support. You can call or approach any of these people confidentially and tell them what happened. They will listen and explain your options. Talking to any of these people does not constitute reporting the incident to the College.

Student Organization Conduct

Standard of Conduct

Student organizations are expected to adhere to the same standards of conduct applicable to individual students. Specific violations of this standard include, but are not limited to:

- Violating or permitting its members or their guests to violate, or failing to prevent where such prevention was possible, the violation of this Code of Conduct or any applicable city, state, or federal regulation;
- Violating or permitting its members or their guests to violate, or failing to prevent where such prevention was possible, the violation of any contract or other agreement between the student organization and the College;
- Committing any act in violation of any policy, procedure or agreement between a student organization and a College official and department, as well as rules promulgated by the appropriate College official and any other rules made applicable to the student organizations.

Application of Policy

Each use of the term "Student" in this Code of Conduct will refer to and include student organizations and their members. Any violation of this Code of Conduct by one or more members of a student organization may constitute a violation of the organization itself. Where those administering the Student Conduct Procedures conclude that there is sufficient connection between the acts of the individual students and an organization to which they belong, sanctions may be imposed on the organization as well as any offending member. Conversely, when an organization has been found guilty of a Code offense, those administering the Student Conduct Procedures may impose sanctions on some or all members of that organization depending upon the degree of general participation in the offense.

Membership

Membership in a Student Organization may not be restricted on the basis of race, color, gender or gender identity, age, religion or religious creed, national origin, veteran status, disability status, or sexual orientation. A student may not join or participate in a Student Organization that is currently on suspension from the College.

Theft

Theft is defined as taking or possessing the property of another without right or permission. Students will respect the property of the College, its guests, and all members of the College community.

Prohibited Activities

Specific violations of this standard include, but are not limited to:

- The unauthorized taking, misappropriation, possession, retention, or disposal of any property owned or maintained by the College, another student, a person attending a College-sponsored event, or any other person;
- The unauthorized taking or use of any College-owned or contracted service.

Possession of Lost or Misplaced Items

Any lost or misplaced item that is found should immediately be turned into the Campus Safety and Security Office. For instance, items found in the library should be taken to the library's circulation desk. Inquiries concerning lost books, articles of clothing, or identification cards should be directed to the Lost and Found located at the Campus Safety and Security Office.

Weapons, Dangerous Instruments and Explosive Chemicals or Devices on Campus

The possession, use or threat of use of any object that may reasonably be believed to cause physical injury to another person is prohibited on all Blackhawk Technical College facilities and all Blackhawk Technical College-sponsored events (on and off-campus).

Prohibited Activities

- A student shall not possess, use, or threaten to use any of the following items on campus:
- Any firearm (including any weapon or instrument from which a shot, projectile, or other objects may be discharged by force, whether operable or inoperable, loaded or unloaded);
- Any deadly weapon, defined as any instrument, item, or material readily capable of causing death or serious physical injury;
- Any BB gun, pellet gun, air rifle, pain gun, stun gun, Taser, sword (whether decorative or not), or other martial arts weapon;
- Any knife (other than an ordinary pocketknife carried in a closed position, with a blade of 3 inches or less or cutlery of a reasonable size, when used in a kitchen or other food preparation area)
- Any explosive chemical or device including a substance or a combination of substances possessed or prepared for the purpose of producing a visible or audible effect by combustion, explosion, deflagration, or detonation, including fireworks and illegal or potentially dangerous chemicals. Note: Possession of a license to possess or use of any of the above items will not constitute a defense of any violation of this section.

Interpretation: This does not prohibit any instrument or chemical expressly authorized for the pursuit of the academic mission of the College and used in an authorized manner consistent with that academic mission.

Student Code of Conduct Procedures

Charges and Student Conduct Hearings

Any member of the College community may file an incident report that alleges student(s) violation of the Student Code of Conduct. The student(s) will be notified in writing of the alleged violation and directed to the Conduct Officer who will determine the hearing process. An incident report should be submitted as soon as possible after the event takes place, preferably within forty-eight (48) hours of the incident.

1. The Conduct Officer, as appropriate, reviews the referral to see if it appears there may have been a violation of the Code. If so, the student is notified and asked to meet for an Administrative Hearing with the Conduct Officer to discuss the incident. Most cases are resolved

through this meeting. If the Conduct Officer and the student can reach an agreement about what happened, and if the student is willing to accept responsibility and any appropriate sanctions, then the matter may be resolved administratively by mutual consent of the parties involved. Such disposition shall be final with no subsequent proceedings.

There is no appeal. If the allegation(s) is not admitted, the student chooses not to participate, or where an agreement is not reached, then the Conduct Officer shall determine, based upon a review of the accused student's previous conduct history and the specific nature of the violation, appropriate sanctions or whether to refer the case to the Student Conduct Board.

2. In cases where the student chooses not to participate or where an agreement is not reached, the Conduct Officer shall review the violation of code and issue appropriate sanctions if necessary. All allegations and sanctions shall be presented to the accused student in written form within ten days of the scheduled Student Conduct Hearing.

3. The Student Conduct Hearings shall convene not less than three, no more than ten calendar days after the student has been notified. Maximum time limits for scheduling of the Student Conduct Hearings may be extended at the discretion of the Conduct Officer.

4. A Student Conduct Board shall conduct student conduct board hearings. The Board will consist of nine (9) members: two (2) college administrators, two (2) non-academic staff members, two (2) faculty members, two (2) students, and the Conduct Officer. When student conduct hearings are conducted, only five (5) members will be present, one from each area (i.e. 1 college administrator, 1 faculty, etc.). Student conduct board hearings shall be conducted according to the following guidelines:

- a. Student conduct board hearings are confidential and as such shall be conducted in private.
- b. The complainant, accused student, and their advisors, if any, shall be allowed to attend the entire portion of the student conduct board hearing at which information is received (excluding deliberations). Admission of any other person to the Student conduct board hearing will be at the discretion of the Conduct Officer.
- c. In Student conduct board hearings involving more than one accused student, the Conduct Officer, at their discretion may permit the Student Conduct Board Hearings concerning each student to be conducted either separately or jointly.
- d. The complainant and the accused student have the right to be assisted by an advisor of their choice and at their own expense. The advisor must be a member of the College community and may not be an attorney. The complainant and/or the accused student is responsible for presenting their own information, and therefore, advisors are not permitted to speak or to participate directly in any student conduct board hearing before a Student Conduct Board. A student should select an advisor whose schedule allows attendance at the scheduled date and time for the Student conduct hearing because delays will not normally be allowed due to the scheduling conflicts of an advisor. If an accused student is also the subject of a pending subsequent criminal matter arising out of the same circumstances, they may be allowed to have an attorney serve as their advisor, at their own expense, to behave in the same manner as any other advisor.

e. The complainant, the accused student, and the Student Conduct Board may arrange for witnesses to present pertinent information to the Student Conduct Board. The College will try to arrange the attendance of possible witnesses who are members of the College community, if reasonably possible, and who are identified by the complainant and/or the accused student at least two (2) weekdays prior to the Student conduct board hearing. Witnesses will provide information to and answer questions from the Student Conduct Board. The accused students and/or complaint(s) to be answered by each other or by other witnesses may suggest questions. The Student Conduct Board will conduct this with such questions directed to the chairperson, rather than to the witness directly. This method is used to preserve the educational tone of the hearing and to avoid the creation of an adversarial environment. Questions of whether potential information will be received shall be resolved at the discretion of the chairperson of the Student Conduct Board.

f. A Student Conduct Board at the discretion of the chairperson may accept pertinent records, exhibits, and written statements (including Student Impact Statements) as information for consideration. All procedural questions are subject to the final decision of the chairperson of the Student Conduct Board.

g. Pertinent records, exhibits, and written statements (including Student Impact Statements) may be accepted as information for consideration by a Student Conduct Board at the discretion of the chairperson.

h. All procedural questions are subject to the final decision of the chairperson of the Student Conduct Board.

i. After the portion of the student conduct board hearing concludes in which all pertinent information has been received, the Student Conduct Board shall determine (by simple majority vote) whether the accused student has violated each section of the Student Code of Conduct as alleged. If the vote results in a tie, then the Conduct Officer will have the tie-breaking vote.

j. The Student Conduct Board's determination shall be made based on whether it is more likely than not that the accused student violated the Student Code of Conduct.

k. Formal rules of process, procedure, and/or technical rules of evidence, such as are applied in criminal or civil court, are not used in Student Conduct Board proceedings.

5. There shall be a single verbatim digital record of all questioning of witnesses and testimony in all student conduct board hearings before a Student Conduct Board. Deliberations of the Board will not be recorded. The record shall be the sole property of the College.

6. The Conduct Officer shall hold all recordings in a locked cabinet. The recording will be destroyed after the period for filing an appeal has passed and/or the final appeal has been adjudicated.

7. If an accused student, with notice, does not appear before a Student Conduct Board Hearing, the information in support of the charges shall be presented and considered even if the accused student is not present. A finding may be filed in absentia.

8. The Student Conduct Board may accommodate concerns for personal safety, well-being, and/or fears of confrontation of the complainant, accused student, and/or other witnesses during the hearing by providing

separate facilities, by using a visual screen, and/or by permitting participation by telephone, videophone, closed-circuit television, video conferencing, videotape, audiotape, written statement, or other means, where and as determined in the sole judgment of the Conduct Officer to be appropriate.

Sanctions

1. The following sanctions may be imposed upon any student found to have violated the Student Code of Conduct:

a. Warning – a notice in writing to the student that the student is violating or has violated the Student Code of Conduct.

b. Probation – a written reprimand for violation of specified regulations. Probation is for a designated period and includes the probability of more severe disciplinary sanctions if the student is found to violate any institutional regulation(s) during the probationary period.

c. Loss of Privileges – denial of specified privileges for a designated period.

d. Fines – previously established and published fines may be imposed.

e. Restitution – compensation for loss, damage, or injury. This may take the form of appropriate service and/or monetary or material replacement.

f. Discretionary Sanctions – work assignments, essays, service to the College, or other related discretionary assignments.

g. College Suspension – separation of the student from the College for a defined period of time, after which the student is eligible to return. Conditions for readmission may be specified.

h. College Expulsion – permanent separation of the student from the College with no opportunity to return.

i. Revocation of Admission and/or Degree – admission to or a degree awarded from the College may be revoked for fraud, misrepresentation, or other violation of College standards in obtaining the degree, or for other serious violations committed by a student prior to graduation.

2. Withholding Degree – The College may withhold awarding a degree otherwise earned until the completion of the process set forth in this Student Code of Conduct including the completion of all sanctions imposed if any.

3. Sanctions outlined in subsections (g) through (i) above may not be imposed by a Conduct Officer, even if the student admits violating institutional rules or such sanctions would be merited by the student's previous conduct record; such sanctions may be recommended to the Student Services Department by the Student Conduct Board. The final determination will be made by the President of the College.

4. Any or all of the sanctions listed above may be imposed for any single violation.

5. Only disciplinary sanctions of expulsion, revocation or withholding of a degree for violation of Student Code of Conduct will be made part of the student's permanent academic record, and all other sanctions shall become part of the student's disciplinary record. Upon graduation, the student's disciplinary record may be expunged of disciplinary actions other than, College suspension, expulsion, revocation or withholding of a degree, upon application to the Conduct Officer; otherwise, these shall be

expunged from the student's confidential record three (3) years after final disposition of the case.

6. The following sanctions may be imposed upon groups, organizations and/or members of groups or organizations acting on behalf of the group or organization

- a. Loss of selected rights and privileges for a specified period of time
- b. Loss of all privileges, including College recognition, for a specified period of time. In each case in which a Student Conduct Board determines that a student and/or group or organization has violated the Student Code of Conduct, the sanction(s) shall be determined and imposed by the Student Conduct Board as prescribed by the Student Code of Conduct. Following the hearing conducted by the Student Conduct Board or Conduct Officer, the Conduct Officer shall advise the student member(s) of the group and/or organization and the complainant in writing of its determination and of the outcome of the hearing and sanctions, if any are imposed.

Interim Suspension

In certain circumstances, a campus interim suspension may be imposed prior to the Student Conduct Board Hearing. The Conduct Officer may impose interim suspension.

1. To ensure the safety and well-being of members of the College community or preservation of College property; 2) to ensure the student's own physical or emotional safety and well-being; or 3) if the student poses an ongoing threat of disruption of, or interference with, the normal operations of the College.
2. The student shall be notified in writing of this action at the time it is imposed. Notification will include the reasons for the interim suspension. The notice will include the place, date, and time (within 24 hours of the notification) of an appeal hearing at which the student may show why his/her continued presence on the campus does not constitute a threat.
3. During the interim suspension, a student will be denied access to the campus (including classes) and/or all other College activities or privileges for which the student might otherwise be eligible, as the Conduct Officer may determine to be appropriate. Any negative impact (including academic or financial) of interim suspension is borne by the student.
4. The interim suspension does not replace the regular process, which will proceed on the normal schedule, up to and through a Student Conduct Hearing, and if the suspension is applied as a sanction, through the appeal process.

Appeals

Only decisions resulting in suspension, expulsion, or revocation of admission and/or degrees may be appealed.

1. A decision reached by the Student Conduct Board or a sanction imposed by the Conduct Officer may be appealed in writing by the accused student(s) to the Student Services Department within three (3) class days of the decision.
2. An appeal may only be made if it is discovered that there was information in possession of the College that was not included in the previous hearing; the sanction(s) was beyond the scope of the Student

Conduct Code, or notification and/or hearing procedures were not followed.

3. Except as required to explain new information, an appeal will be limited to a review of the verbatim record of the Student Conduct Board Hearing and supporting documents.

4. If an appeal is upheld by the lead authority within the Student Services Department, s/he will reach a final determination. If a new sanction is imposed, the finding of the lead authority within the Student Services Department is final and may not be appealed.

5. In cases where a sanction of suspension, expulsion, or removal from the College is imposed according to the procedures outlined in this Code, the sanction will take effect according to the timeline established by the Conduct Officer or Student Conduct Board regardless of whether or not an appeal is pending. The College will not be responsible for any hardships that an accused student may entail in the completion of duly imposed sanctions which are later reduced or overturned upon appeal.

Interpretation and Revision

1. Interpretation – Any question of interpretation of the Student Code will be referred to the Conduct Officer.
2. Revision – The Student Conduct Board for compliance with Wisconsin will review the Student Code annually and Federal Laws pertaining to areas covered by Student Codes of Conduct and for effectiveness.
