

NURSING ASSISTANT

Short-Term Technical Diploma
 30-543-1

Nursing Assistants (NA), sometimes called Nurse Aides are in high demand to assist in the care of patients in extended care facilities, home care situations, and hospitals. Working under the direct supervision of a licensed nurse, their responsibilities may vary, but personal care and emotional support of patients are always primary considerations. This 90-hour course involves lectures, campus lab experiences, and a clinical practicum, which involves working in healthcare agencies with patients and residents. Students must be at least 16 years old to attend clinical practicum. Students who are in high school should work with their school district to apply for the class through the Start College Now program or contract options. Those who successfully complete this course are eligible to take the National Nurse Aide Assessment Program (NNAAP) exam to become a part of the Wisconsin Nurse Aide Registry as a CNA/HHA. The cost for this testing is not included in course fees and tuition.

Semester 1		Credits
543-200	Nursing Assistant Limited-Term	2
Credits		2
Total Credits		2

Program Outcomes

- Communicates effectively with clients, family, and co-workers
