
BLACKHAWK TECHNICAL COLLEGE FOUNDATION SCHOLARSHIPS

The Blackhawk Technical College Foundation offers scholarships that assist students with tuition, books, and fees. Foundation scholarship awards are based on factors such as scholastic merit and financial need.

Current and prospective students are invited to apply for scholarships by May 15 (for Fall scholarship awards) and October 15 (for Spring scholarship awards) each year. This support can be truly life-changing for students.

Foundation scholarships may have specific program enrollment or other requirements such as grade point average. However, all students, regardless of their program of study at Blackhawk Technical College, are eligible for scholarship funding through the Blackhawk Foundation.

For more information on the application process and Foundation scholarships – which are provided by private donors wishing to assist Blackhawk students with their educational goals – please visit www.blackhawk.edu/About/Foundation/Foundation-Scholarships/ (<http://www.blackhawk.edu/About/Foundation/Foundation-Scholarships/>)

The Blackhawk Foundation accepts monetary and in-kind gifts which offer increased access to education and enhanced opportunities for the surrounding community. Donors can contribute to an existing scholarship or create their own named fund.
